His findings will be of great practical service in helping out the work of forecasting the weather. His barometers will tell him just what the temperature will be in his own district and his instruments will tell him what it will be over a large district, thus doing away with all the trouble of calling up different centres to compare notes.

CANADIAN HONORED.

Professor A. B. Macallum of Toronto Has International Reputation.

During the meeting of the British Association at Dublin, the Senate of Dublin University conferred honorary degrees on some of the association's most distinguished members. Among those to receive the degree of Doctor of Science was Dr. A. B. Macallum, F.R.S., of the University of Toronto. In presenting Dr. Macallum, the public orator said:

"Now I bring forward to you a man of science who is especially distinguished by his micro-chemical investigations into the structures of the animal cell—in whom Canada rightly boasts herself—the Professor of Physiology and Physiological Chemistry in the famous University of Toronto—Archibald Byron Macallum. He has minutely examined the structure of that cell which he was aware was not wholly composed of organic parts, and has brilliantly tracked out in what way inorganic elements such as iron, phosphorus, potassium, and others exist therein; and not merely this, but he has also contrived ingenious methods whereby these elements when they, so to speak, lurk under a mask, may be detected, and, as it were, by the back of the neck be dragged out into the light. Though an ardent lover of science, he does not devote his whole life to her service; for this distinguished scientist remembers that he is also a man among men, and so thinks the general interests of his fellows to be of concern to himself. Thus, when eleven years ago the British Association met in Toronto, many of you recollect his indefatigable labors as local secretary, and how successful they were in ensuring that everything should go smoothly. Inasmuch as he possesses so many claims to admiration, we cordially invite him to receive our highest honors; and let your voices see that these honors be heightened by the gracious omen of your applause."

Canada and Empire.

H. J. MacKinder, director of the London School of Economic and Political Science, delivered an address on the foreign policy of the British Empire before the Ottawa Canadian Club recently. He advocated development of her own nationality by Canada.

He deprecated delay in taking up her duties as part of the Empire. Great Britain for years has stood in opposition to the despotic union of European nations through her fleet and with support from other parts of the Empire. This might be lost and then the British Empire and its ideals and influence would go.

Canada was directly interested in this, for without the power of the Empire behind it, possibly it would not have secured Japan's consent to waive her treaty rights for the immigrants here. The Monroe Doctrine would not protect Canadian trade from foreign attack in case a powerful nation went to war with Great Britain.

Ladies Kept Their Hats On.

An amusing story is published of the failure of Inspector James L. Hughes of Toronto to get Croydon ladies to remove their hats at a lecture. As Mr. Hughes' hints became broader the ladies became more obdurate. They declined to remove their headgear to allow him "to see the faces of the handsome young men." When he asked if he should have to tell the people across the Atlantic that Englishwomen cannot or dare not remove their hats they thought it "positively rude." Eventually Mr. Hughes lectured resignedly to acres of millinery.

Bomb Thrown In New York.

New York, Oct. 15.—A bomb was thrown early yesterday into the big enclosure in Eighth avenue, between 56th and 57th street, where 250 taxicabs, belonging to the New York Taxicab Co., were stored for the night.

There is a strike of chauffeurs in progress.

Alberta Cement Wins Prize.

Spokane, Oct. 15.—Cement manufactured at Exshaw, Alberta, has been awarded a diploma at the Interstate fair, and city engineers recommend it for use in civic bridges in preference to the best German and American cements.

BACK FROM EUROPE.

The Right Kind of Homecoming and the Wrong.

The position of persons who have just returned from a trip to Europe is extremely difficult. If it is their first trip, the most delicate management will not keep them out of scrapes. For a full month their popularity is at stake, and it is three months before they know whether they have lost or regained their friends. If they come out of the ordeal well, every one admires them with renewed vigor, for they have proved themselves to be of rare metal. If they do not educate you, if all conversational roads do not lead to Rome, then they are worthy of your best friendship. If as they leave the ship they say, "I wonder if I can get an evening paper as early as this," they warm the hearts of those who came to meet them; if as they enter their home they exclaim, "I was afraid I'd forgotten to close those windows," they have brought peace back with them, and one regrets every minute that they were away.

But—and it is so large a but—if they regard you as the only people they have seen who did not interest them enough to make them exclaim, "Oh, see the natives!" if on your saying "It has been cruelly warm here," they answer, "It was warm in London; this cold I have now is a London cold," your heart drops down to your boots and you know what is in store for you. When you say, "The cream is not very thick," they are bound to answer, "The cream was remarkably thick in Scotland, but quite horridly thin in Naples." Your regret at the cars not coming brings out of them: "They have cars in Rome now. I wonder when we will have as good cab service here as they have in London." You think it may be the weariness of travel, and you say: "I know you want to get into your bath. You will feel better, I am sure." They pitilessly sing, "Oh, the baths we had in Normandy were so droll I must tell you all about them." And they do tell you. They mean it when they say they must. They stop halfway upstairs and deliver themselves of the entire tale.

These are the milder types, the average that we have always with us. There are, one hears, people who tell you how long the Seine is and how high the Eiffel tower, and once there was a man who remembered the population of every town and city he had been in, but we believe something was done to him. The dear returned travelers who realize the danger they are in slink around corners for months, afraid of meeting people and so succumbing to temptation. They blush with closed lips if you ask them a question, and it is years afterward when in intimate friendly converse that they finally say, "You know when I was in Ber—I mean Hoboken—I had an awfully interesting time, and if you drag it out of me—well, go on and do it. Drag!"

Comfort and independence abide with those who can postpone their desires.—Success Magazine.

New Costumes and Dress Skirts

The present season introduces some decidedly new styles in Ladies' Costumes and Ladies' Dress Skirts. The new "Directorie" effects add greatly to the attractiveness of this season's showing and we think we can safely say that no where else will you see such dashing expressions of the new ideas as applied to Ladies' Costumes and Dress Skirts as is shown in our Ladies' Wear Department. Not one weave or coloring has been overlooked in our collection and the tailoring of our Ladies' Garments is such as will at once appeal to the most exacting customer.

Beautifully Tailored Dress Skirts

This weeks showing of new Dress Skirts include—Ladies' Black and Colored Venetian Skirts from $5.00 to $12.50.

Ladies' black and Colored Chiffon Panama Skirts from $7.00 to $14.50 each.

40b. Ladies' Black Voile Skirts, $7.00 to $20.00,

Popular Priced Ladies' Costumes

This week's showing of Ladies' Costumes include some very attractive styles to sell for $17.50. 18 50, 20.00, 22.50 and $25.00.

These are the best values we have offered this season.

Laaies' Kimonas.

In our window we are showing a lot of Ladies' Kimonas in short and full longths, made of very pretty patterns in American Printed Velours in a variety of styles to sell from 75c to $5.00 each.

Fall Coat Styles

The new Fall Coats, both for Ladies and Children are now being shown in an endless variety of very handsome styles and our prices are such as will be appreciated by every customer who wishes to combine style and quality with the lowest possible prices. We show—

Children's Coats from $2.50 to $10.00
Misses' Coats from $5 to $14.50
Ladies' Cloth Coats from $7.50 to $25.00
Ladies' Fur-Lined Coats from $50.00 to $90.00

New Striped Dress Goods

Fashion has decreed that stripes should be much worn for Ladies' Dresses and Costumes and in response of fashions demand we show a variety of New Dress Materials and Suitings in Stripe Satin Cloths, Stripe Broadcloths, Stripe Serges, Stripe Chevrons, Stripe [Homespuns, etc., in all the new fall colorings to sell from—

50c to $2.00 per yard

See our New Neck Frillings and Ladies' Neckwear

See our New Silk Waists and Embroidered Cashmere Waists $2.50 to $12.50

Get our prices on Ladies Fur Ruffs. Ladies Fur Scarfs, Ladies Fur Muffs

We Are Always Pleased to Show Goods.

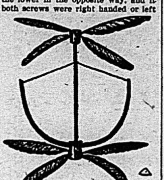
A FLYING MACHINE.

Directions For Making a Pretty and Amusing Toy.

A feather flying machine is a very simple thing to make, but it will only fly up, as there are no wings to support it when flying horizontally. The motive power is furnished by a whalebone bow, which causes the aerial screws to revolve as it unbends.

For this model you will need eight feathers. They should be carefully selected of the same size and shape. The best are good stiff wing feathers. From them form two screws by sticking them in corks, as in the illustration. One must be arranged to revolve to the right, the other to the left, because the bowstring turns the upper in one direction, while the reaction tends to turn the lower in the opposite way, and if both screws were right handed or left handed they would work against each other and produce little or no effect.



MACHINE COMPLETE.

The upper screw is fastened to the spindle, while the lower is attached to the bow. The spindle turns in a hole bored through the bow and into the cork. It moves freely because it simply rests in the hole and is not fastened to the lower screw. The bowstring is tied to the spindle near the top.

When finished, hold the lower screw in one hand and turn the upper with the other until the string is wound on the spindle. Now let go the upper screw and toss it gently into the air, when it will fly until the bow straightens.—Philadelphia Ledger.

A GRAIN OF MUSK.

Perfume Diffuses Odor For Years Without Losing Weight.

Wonderful stories are told of the number of years that some of the old Egyptian perfumes last, but we need not go to Egypt to find a thing like that. We have it here in the common perfume, musk, says Chicago News. It is said that a grain of it will diffuse an oder through a room for twenty years, and you know, perhaps, that all perfumes give off their odor by sending their particles through the air—that is to say, by giving off all the time little parts of their own substance. How small, then, must these particles of musk be when after a continuous diffusion of them for twenty years the original grain has suffered no diminution of weight.

But you can find an illustration of this wonderful divisibility of matter nearer home. Ask a scientist about a drop of blood that falls from your cut finger, and he will tell you that it is a drop of liquid in which are floating a million red globules and that these give it its color. And these million globules may be divided into smaller globules still. Finally, take the familiar illustration of the thread spun by the spider. It is so fine that 25,000 miles of it would weigh only eight ounces, and yet it is made up of a thousand filaments.

Discovery of a Planet.

The glory of discovering the big planet belongs to two men. An astronomer in Cambridge and another in Paris, each quite ignorant of what the other was doing, applied themselves to the task simultaneously. Each independently declared that if the laws of motion and gravitation were true there must be at a certain spot in the heavens a certain mass of matter hitherto unknown to astronomers. The presence of such a mass of matter in such a place would account, they said, for the disturbances that had been noticed in the movements of Uranus. When the telescope was turned to the point indicated the planet which we now know as Neptune was discovered. This brilliant piece of work was done by Leverrier and Adams on the 23d day of September, 1846.

Conundrums.

If a man should give 15 cents to one son and 10 cents to another, what time would it be? A quarter to 2.

Why don't they collect fares from the policemen on the street cars? Because you can't take a nickel from a copper.

When are prisoners like gas? When escaping.

When are houses like books? When they have stories in them.

When is a step like a great burden? When heavy.

What is that which goes from Philadelphia to New York without moving? Answer—The railroad tracks.

The Clever Yankee.

There was a man in Yankeetown,
And wondrous wise was he.
For with an ax and many whacks
He once cut down a tree.

And when the tree was wholly down
He worked with might and main
And straightway took another ax
And cut it up again.

WATERLOO, QUEBEC

WOMAN, AFTER YEARS OF MISERABLE EXISTENCE FROM ILL HEALTH, FINDS HELP IN VINOL.

"After years of miserable existence on account of my health, I was getting more discouraged every day, as I had tried nearly everything, without success, to build me up. At last I heard of Vinol. I have taken three bottles and have gained in health and strength every week. I sincerely recommend it to all who suffer from weakness and cough or any disease of the lungs." Mrs. A. Savard Warden, Waterloo, Quebec.

This is because Vinol is a genuine tonic and body-builder which contains peptonate of iron together with every one of the body-building medicinal elements of cod liver oil but without one drop of oil to upset the stomach and retard its work. Vinol acts directly on the stomach, creates a healthy appetite, and enables the digestive organs to obtain the necessary elements from the food eaten to make rich, red blood, healthy flesh and muscle tissue and create strength.

Your money back if Vinol fails to benefit. J. S. McKeown, Druggist, Belleville.

HOLLOWAY.

Mr. James Dafoe is hewing the timber for Mr. James Reid's new house.

Mr. and Mrs. John Wilson attended the funeral of the late George Sayers on Sunday last at Bethel.

Mr. and Mrs. Harford Faulkiner have returned home, after spending a few weeks in the Northwest.

FULLER.

Anniversary service was held in the Methodist church here on Sunday afternoon, Oct. 11, which was largely attended.

Rev. Mr. McConnell, of Roslin, conducted a Children's service in the Presbyterian church here on Sunday evening, Oct. 4th.

Miss Mae Collins has returned home after spending a month in Tweed, at Mr. James Quinn's.

Mr. and Mrs. Albert Mitz passed through this neighborhood on Sunday last.

A few of the neighbors of this place attended the funeral service of the late Mr. Jacob Snider of Moira, on Monday forenoon.

H. McMullen, teacher.

TO DIGEST THE FOOD

Dr. A. W. Chase's Kidney Liver Pills.

IS ONE OF THE SECRETS OF HAPPINESS; DIGESTION IS IMPROVED BY

Bile in the intestines is as important to digestion as are the gastric juices in the stomach and bile is only supplied when the liver is in active condition.

The serious and chronic forms of indigestion are cured by Dr. A. W. Chase's Kidney-Liver Pills because of their influence on the liver, causing a good flow of bile to aid digestion and keep the bowels regular, thereby preventing fermentation of the food, the formation of gas and all the disagreeable symptoms of indigestion.

Long standing cases of chronic indigestion yield to Dr. A. W. Chase's Kidney-Liver Pills after all else has failed.

Here is the proof:

"I was for many years troubled with indigestion and headache and derived no benefit from the many remedies I used. A friend advised the use of Dr. Chase's Kidney-Liver Pills and after taking four boxes the result is that I am once more in the full enjoyment of the blessings of good health."—Mr. Duncan McPherson, Content, Alta.

Dr. Chase's Kidney-Liver Pills don't relieve the stress of indigestion temporarily by the use of drugs, but cure the trouble permanently by assisting the deranged organs and causing to flow those juices necessary to thorough mastication of the food. One pill a dose; 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box.

We are not thankful enough for the tire that is not punctured.

BEAUTY'S BACKGROUND.

Lady Auckland Has a New Notio About House Furnishings.

Lady Auckland, who has opened an antique furniture shop in London, has a theory that a woman's beauty depends no more on her skin, hair, bearing or even dress than it does on her background, her surroundings. She must have her house furnished to match her complexion.

"The paintings of the old masters are the best guide to artistic furnishing," says Lady Auckland. "They never made the mistake of picturing a woman with a background that didn't suit her coloring. Most modern portrait painters are wise enough to consider the sitter's type when devising the background. In a portrait of a woman I know all the settings are of soft brown velvets and tawny furs, just lighted by the gleam of the gold chair she sits in and of a tall copper vase at her side. It brought out and yet harmonized with her eyes and hair. Yet that woman has the ill taste to have her drawing rooms furnished in blue. They don't exactly quarrel with her coloring, but they make her just commonplace. In the picture she is distinguished simply because of those tawny browns about her.

"The woman who has Titian red hair must have a Titianesque background of soft ruby and gold velvets. The pastel girl, with her pale golden hair and light blue eyes, would be extinguished in a room of warm colors. Settings of pastel blues, pinks or greens, on the contrary, bring her out and make her lovely and alluring. It is perfectly marvelous that women don't consider their coloring more in furnishing their homes. That's why they need beauty specialists to do it for them."

"But what are people to do," asked a listener, "when there are daughters who differ in their complexions? Shall papa furnish the drawing rooms to suit the pastel daughter or the Titian daughter? Shall he buy draperies to 'go with' the blond or the brunette?"

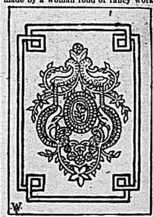
"That would be a problem," replied the beauty specialist.

DESIGN FOR DOOR PANEL.

Made of Lace Braid on Net In Marie Antoinette Effect.

Door panels or curtains of lace add much to the attractive appearance of entrance doors, and, though the initial cost of the lace panels may be somewhat more than silk curtains of similar size, the purchase is justified by the fact that the lace will long outwear the cheaper material and, with ordinary care, will look well to the end of its existence.

This large oblong panel is easily made by a woman fond of fancy work.



AN OBLONG PANEL.

It measures twenty-six inches in length and is just half a yard wide, but both length and width can be considerably increased by letting the net extend for from six to eight or even ten inches all around beyond the outside row of braid. The little lace roses and sprays of flowers and leaves may be made in the hand before being basted on the pattern, right side down. After all the braid is carefully basted in place the net is basted smoothly over the pattern and sewed down to the braid just as in the well known Marie Antoinette work.—Delineator.

HEALTH AND BEAUTY.

A bilious attack may soon be overcome by taking the juice of one or two lemons in a goblet before retiring and in the morning before rising.

Some people wash their hair with tar soap after an egg shampoo, but the plain egg is very cleansing and leaves the hair much softer than if soap is used with it.

The white of an egg when beaten with milk and drunk night and morning is of service in mild cases of jaundice. When beaten with sugar and a very little water, it will make the voice stronger and clearer.

To all suffering from ringworm rub the part with vinegar that onions have been pickled in. It has never failed to cure the worst cases, but must be rubbed with it several times a day. The flavor of the onion kills the germ.

The particular woman never uses a sachet of one odor, a soap of another, a powder of a third, and so on. She either buys her soaps and powders unscented or else has them of the same scent as her sachets and perfumes. There must be no conflicting of odors.

Enlarged pores very often need internal treatment, as well as external, as they are principally caused by indigestion and constipation. Sip a glass of hot water every morning before breakfast and drink plenty of cold water between meals, a little at a time. For external treatment apply this lotion with a piece of old linen or a bit of absorbent cotton: One dram of boric acid, four ounces of distilled witch hazel.

The Chesterfield

Copyright 1908 by Hart Schaffner & Marx

Here's our Chesterfield Overcoat--the Coat of Coats.

The coat for the man of affairs, the coat for the man who wants comfort and elegance, combined with conservative styles

The materials in this coat are Kerseys and Beavers, in Black, Brown and Oxfords—Velvet collar, Serge Italian and Silk lined—cut in fly front models.

$7, 8, 10, 12, 15, 18, 20 to $25

We can convince you of nothing by means of this string of prices for any house can quote them, but we can convince you of everything if you will allow us the pleasure of showing you the coats.

Sweaters

A fine line of Sweaters here, always. Particularly good showing at this, the Sweater season of the year.

EVERY WANTED STYLE

Coat Sweaters, roll collars, double collars, V necks—colors in gray, green, blue, cardinal and white—College colors to order .... 50c, 65c, 75c, 90c, $1.00 to $3.50

Just name your preference in Sweater style and color and we'll meet it.

Dr. Towle Denies Malicious Rumor

Never Intimated in Any Way That He Might be a Candidate or That Mr. Porter Would Retire--Is One of Mr. Porter's Strongest Supporters, and Wants to See Author of Falsehood Criminally Prosecuted.

Mr. E. Guss Porter, the Liberal-Conservative candidate for West Hastings, called Dr. Elgin Towle, of Springbrook, up this morning over the 'phone, when the following conversation took place:

Mr. Porter—"Is that you Dr. Towle?"

Dr. Towle—"Yes, who's speaking?"

Mr. Porter—"This is E. Guss Porter, of Belleville, Doctor."

Dr. Towle—"Oh, yes! how are you, Mr. Porter?"

Mr. Porter—"Doctor, did you see the report in the Globe newspaper yesterday to the effect that I had resigned as candidate in the Conservative interests in West Hastings, and that you would be the choice of the Conservative party in the contest?"

Dr. Towle—"My attention has just been called to that publication by Mr. Whitman, of Wellman's Corners."

Mr. Porter—"What have you to say about it, Doctor?"

Dr. Towle—"The statement is a farce, and concocted by some malicious person either to injure you or me; it was not from anything that I have ever said or written or expressed by me in any way. It is absolutely false in every respect and the person who gave that information to the Globe should be punished criminally if possible."

Mr. Porter—"Do you tell me, Doctor, that you never stated or done anything or wrote anything that could leave any such impression as contained in the Globe."

Dr. Towle—"I tell you most positively that nothing of the kind was ever said or even intimated by me. I am, as you know, one of your most ardent supporters in this part of the country, and I would like you to find out, if you can, that any papers or documents containing my name has been handed to any newspaper, that would make the person criminally liable for attaching my name or connecting me with it; that you would take all necessary steps to bring the criminal who did it to justice, and you have my full authority for doing so. I see you are having a meeting in Marmora on Friday night. I will be sure and be there, and will state what I have stated to you from the public platform. You are at liberty to publish anything I have said to you now in any paper in Canada, and to take any criminal proceedings in the matter that you may think advisable."

MISS M. CAMPBELL,

Unknown Chauffeur Knocked Nat Duffin All Over Street.

Mr. Nathanael Duffin, of this city, had an experience last night which he would not care to have repeated. The wonder is that Mr. Duffin, who plays the snare drum in the I.O.O.F. band, has not by this time qualified for a harp.

It appears that "Nat," who lives up by the College, was going home about 8.30 o'clock last night, on a bicycle. He had just crossed the upper bridge and was going along merrily, singing "Harrigan," when an auto came round the corner from the direction of Cooper's mill, and was on top of Mr. Duffin before he had time to even put up a whisper, let alone a shout. There was a head-on collision, and what the "bubble" did to the snare drummer was a shame. When assistance reached "Nat" he was found to be unconscious, and his wrecked bicycle looked like the relics of Orville Wright's flying machine after it descended with a broken pinion. Sympathizing friends took Mr. Duffin to his home, and for a time it was thought he was badly injured. It turns out, however, that beyond a severe shaking-up, he is not very much hurt. At least, those are the indications at present. It was certainly a marvellous escape, on which "Nat's" many friends will congratulate him.

It is alleged that the chauffeur, whose car wrecked Mr. Duffin, did not even slacken speed after running the wheelman down, but kept right on and was soon lost to view. No one appears to know who owned the car or who the "shover" was.

It was rumored this morning that ex-Ald. Cooper's car was the one which did the mischief, but that was untrue. Mr. Cooper's car can prove an alibi. It was in the barn, fast asleep, when the accident happened; in fact, had not been out all night. Mr. Cooper, who feels aggrieved to think that he should be accused of heartlessly running down a fellow-creature and then driving off, asks us to state this strongly, which is done with pleasure.

On Short Rations.

It is said that a family in this city left a few days ago for a visit to friends in another place, and that they absent-mindedly left the family cat and canary bird locked up in the house. Five days later the outcries of the cat alarmed a neighbor, who opened a window and let pussy out. The unfortunate canary had starved to death, and the cat was so thin that it would have cast a shadow a little bigger than a lead pencil.

At Sign of the Scales.

DRUNKS.

Ald. Panter occupied the seat upon the bench this morning.

Alfred Legault, on the above charge, was allowed to go.

John Munns, who has appeared before, charged with intoxication, was taxed $2.

Some men are so smart that they need all their brains to keep them out of difficulty.

Picton Doctor Met Awful Death.

Left Picton for Belleville Last Night and Was Found Dead Under His Machine This Morning.

Picton, Ont., Oct 15. — (Special.)— Dr. W. G. Tyner, of this town, aged about 33 years, was killed last night.

He left town in his auto about 8.30 o'clock, for Belleville, and this morning was found underneath the machine.

Death evidently had been instantaneous.

It was rumored in this city that Dr. Tyner's car was found overturned in a swamp, with the Doctor's dead body under it.—ED.

"Give Me Tea Like My Neighbor Gets."

This request is heard at our counter every day.

People are beginning to understand why we supply so many people with Teas and Coffees.

We supply nearly all the largest consumers of Teas and Coffees in Belleville. Why?

Because our Teas and Coffees possess cup qualities not to be found in other lines at the same money.

We do not make this statement without proof. The fact is attested to by new customers made every week.

A party of Americans travelling through Belleville partook of Coffee, when demonstrated at our store recently and they told us, "it was the Best Coffee they had tasted since coming to Canada. Americans know Coffee—They use it like we use Tea.

Something else about Our Teas

If you have been using one line of Tea for a long time and perhaps have grown a little tired of it—come to us. We have some delightful blends. One is our "Pikoe Mixture," another is our Gunpowder Blend, another is our Ceylon Mixture.

Some of these Blends have three or four different teas in them. Try them.

GRAHAM AT BARRIE.

Minister of Railways Denies Reports Regarding G.T.P.

Barrie, Oct. 15.—Hon. Geo. P. Graham, speaking to an audience that filled the Opera House last night, offered a complete exposure of some of the methods of what he calls the slanderbund.

He said he knew from personal knowledge that a clever journalist well acquainted with the Montana style of campaign, had been hired by the Conservative party to weave a few truths together, with a mass of untruths, in the hope of stampeding the public into supporting the Conservative party. One campaign lie, apparently proceeding from that facile pen, had been nailed; now another appeared in the shape of a despatch purporting to come from Matheson, Ont., and stating that 150 miles of the National Transcontinental was to be abandoned. That there was not one iota of truth in that statement the Minister of Railways declared emphatically.

Then he showed that one Borden candidate was the man who valued the land in the alleged Moncton land scandal, and that another was a member of the Quebec Bridge Co., condemned by the leader of the Opposition as grafters, while another openly refused to condemn the Robins irrigation scheme at Medicine Hat. The gathering was roused to a pitch of great enthusiasm by the speech of the Minister of Railways, and the brilliant address of Mr. L. G. McCarthy, late Liberal member for North Simcoe.

Charges Horse-Stealing.

Kingston, Oct. 15.—After a 24-mile drive, Chief Graham of Napanee traced Fred. Yonk to Kingston and as far as Tamworth, where he placed him under arrest on the charge of stealing a horse from Potter & Blanchard's livery.

Hunter Dies by Own Gun.

Highland Falls, N.Y., Oct. 15.—George Miller, aged 19, employed at the West Point Military Academy, was accidentally shot and killed with his own gun while hunting. He was climbing a fence.

Situation Critical.

St. Petersburg, Oct. 15.—The correspondent of The Novoe Vremya at Tabriz, Persia, says in a despatch published yesterday that the situation of the foreign residents of Tabriz is critical.

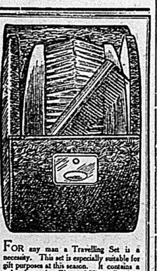
Noted Surgeon Stricken.

New York, Oct. 15.—After a career during which he has successfully combatted cases that have placed his name high on the scroll of America's most distinguished surgeons, Dr. William T. Bull is confronted with one which he is called upon to diagnose with all the calmness at his command. Bravely he tells friends, he is summoned to attend his last patient—himself.

He is stricken with a cancer on the neck.

A Schoolboy's Joke.

Strathroy, Oct. 15.—Allen Bolton, about 15 years of age, a student at the Collegiate Institute here, was the victim of a practical joke yesterday, which proved rather serious. Some mischievous student placed a piece of glass on his seat, and he was badly cut. He was conveyed to the office of Dr. A. S. Thompson, and thirteen stitches were required to sew up the wound.



FOR any man a Travelling Set is a necessity. This set is especially suitable for gift purposes at this season. It contains a pair of genuine Ebony Military Brushes, with sterling shields for engraving. Complete with comb in real morocco leather folding case. The price is

McINTOSH BROS

ST. LAWRENCE.

Dearest to me of rivers! Prince of streams,
Magnificent, upon whose breast there gleams
A vesture rich past speaking, dazzling beams
Of molten gold and silver, and a blaze
Of mingled diamond and sapphire rays,—
Hark why I love thee! Thy most noble name
Unto my thought long years ago became
The sweetest utterance that lips could frame;
And, ever since, I find the type in thee
Of all I'd have thy human namesake be.
Oh, may the future grant this precious life,
Like thine may rise above ignoble strife,—
May it beneficently, calmly flow,
Majestic, ample,—may its borders grow
In gracious green,—and may good actions sow
Its course as thick, St. Lawrence strong and free,
As are the topaz dimples strewn o'er thee!

Julia Ditto Young.

BLACK HAND RITES.

Round-Up at Fernie Reveals Strange Ceremonies of Italians.

The conviction of nine "Black Hand" prisoners, who came to Fernie from Spokane shortly before the great fire, were arrested and tried, being sentenced to various terms ranging from six months to seven years, has rid the west country of a bad gang.

W. A. MacDonald, K.C., crown prosecutor, had a hard time securing evidence from fourteen witnesses called, but sufficient was solicited to convict. The ceremony connected with the first degree, it was learned, was called "Picciotto," and was comparatively simple. All present divested themselves of any weapons which they might have concealed on their persons, a guard being left over these. A circle was then formed by joining arms.

It was then pointed out to the new member that the space in the centre of the circle represented an abyss, in which everything spoken was understood to be forever buried. An incantation in an unknown tongue by the leader of the society followed, and the new-comer had it carefully pointed out to him that the consequence of betraying his comrades would be very disagreeable to him. A fraternal kiss all round wound up the ceremony.

The conferring of the final degree or "Carmeristo" degree, admitting a man to full membership in the society was gruesome indeed. A circle was formed as in the previous case, but on the floor in the space five knives were placed on the ground with the points radiating to the outside of the circle. Upon these a handkerchief was placed, leaving the points exposed, and on the top of that a stiletto was placed. Lots were then drawn and the man upon whom the choice fell had to bare his arm whilst his neighbor seized the stiletto and stabbed him in the wrist until the blood flowed freely.

Again the cabalistic incantations were brought into play, and while these were being recited the candidate for initiation had to suck the blood that was spurting from the wrist of the man who had been stabbed.

A Prairie Wife.

A dainty little Scottish gentlewoman, with her husband, an Oxford graduate, and four children, came to Winnipeg, says The Edmonton West-Land in an article on Prairie Heroines, and went out as char-woman, washed and scrubbed, and did it well, too, in order to make a little money after having been burnt out by prairie fires three successive years on the farm. "I put all our clothing into sacks, my wedding dress, too, and we beat at the flames until we had to run for our lives. But I learned to work on the farm, and ten hours' charing seems nothing now in comparison to the anxiety and drudgery of the work there."

And an Irish lady, a bright, sympathetic, whole-souled woman, with a sense of humor that carried her through the harvest work as nothing else could have done, used to laugh over her bitter experiences; a large farm near Souris, four tiny children, three farm pupils, and as many hired men as her husband could get; every cent invested in the farm, and every copper lost when a loan company gained possession of it. "The dear men, and they worked so hard!" she said, "but sometimes I entirely forgot their meals until they came in for them."

Mail Increases.

In the annual report of the Postmaster-General, the estimate weight of letters and postcards sent to Canada and Newfoundland was 337,090 pounds; circulars, book packets, patterns, newspapers, 358,000. From Canada and Newfoundland the letters were 304,000 pounds; books, papers, etc., 261,593, and received 119,494. The reduction of postage on newspapers, magazines, etc., to Canada continued to result in a substantial increase the estimated increase for the year being five or six millions.

Hon. Mr. Buxton says he is glad to learn that periodicals forwarded by the new post are publications of high class.

Pastures Affect Milk.

A prominent Ontario farmer said recently that the failure of the turnip crop, the withering up of the corn fields and the scarcity of late pasture is seriously curtailing the outlook for a big milk supply this winter.

It is felt by the milk producers in some counties that the old prices of $1.56 for the winter and $1.35 for the summer months must be maintained, and they are earnest in their demands for such a new contract.

The forward movement of her sex
Goes onward day by day,
And yet she off a street car gets
In the same old backward way.

PLATES ARE UNEARTHED

Last Link Found in the Crozier Counterfeiting Case.

Inspector Parkinson, Acting Upon Information in Confession of Elder Prisoner, Goes to Crozier Farm Near Gowanda, N.Y., and Finds Plates, Stamps, Engraving Tools and Bogus Money.

Buffalo, N.Y., Oct. 15.—Acting upon information conveyed in the confession of T. W. Crozier, after his appearance in court at Oakville Tuesday, Inspector Parkinson of the Dominion Police, came to Buffalo yesterday morning. With U. S. Secret Service Agent William Gammon, he set out for a farm owned by Crozier, near Gowanda, N.Y. There they made one of the biggest finds of counterfeit notes and tools of recent years.

At the farm, which is two and a half miles from Gowanda, the officers found the barn which Crozier had described in his confession. Tearing up the flooring they dug for a depth of 18 inches, when they unearthed their find.

They found a box containing the tools with which the notes had been turned out.

The find included counterfeit money to the sum of $3,635, composed of 138 counterfeit U. S. silver certificates, 89 imitation of the $5 Farmers' Bank of Canada note, 150 of the $10 note of the same bank, and 100 of the $10 Standard Bank of Canada note.

The remainder of the captured outfit consisted of 47 engraving tools, rubber letters and stamps for numbering and lettering the bills, one set of each of plates for the United States $5 certificate, the $5 and $10 notes of the Farmers' Bank of Canada, the $10 Standard Bank note, the $5 Crown Bank of Canada note, the $10 issues of the Imperial and the Standard Banks of Canada, the $5 note of the United Empire Bank of Canada and several other unfinished plates.

The barn under which the find was made is unused. It is some distance from the house occupied by the tenant of the farm, who knew nothing of the character of his landlord.

Inspector Parkinson is highly elated over the success of his work and was congratulated by Buffalo police officials, who have been much troubled of late by the circulation of this phoney cash.

A Cruel Swindle.

Toronto, Oct. 15.—A pitiless swindle was unearthed when Dow Lavery was arrested yesterday morning. Lavery with another man, not yet arrested, went to Bertha Coulter, whose husband is serving a term in the Central Prison. The other man said he was a son of the Minister of Justice and said that for $25 he would get her husband out. She paid $14 and was to give him the balance yesterday morning. When Lavery went to collect the cash he was arrested by Detectives Mackie and Armstrong.

Lavery pleaded guilty in the Police Court and was sent to the Central for five months.

Jerome After Gambling.

New York, Oct. 15.—District Attorney Jerome took up the gambling situation in New York yesterday and subpoened to his office fifteen well-known sporting men, some of them proprietors of places on the police list of suspected gambling houses, to question them regarding conditions in the tenderloin.

He intends to investigate every house suspected of being a gambling house in the tenderloin and after determining which ones are doing business compel the police to close the places up.

Bequeathes Brain.

New York, Oct. 15.—The brain of Dr. Alexander Wilder, the journalist and author of many works of evolution, philosophy, psychology and medicine, was bequeathed to Prof. Burt Green Wilder of Cornell University, by the will of Dr. Wilder, which was filed for probate yesterday. Dr. Wilder was president of the school of philosophy of New York. Prof. Wilder has made an unusually complete collection of brains and was endeavoring at last accounts to add to the collection the brains of 100 educated orderly persons.

Edmonton's Cars High Class.

Ottawa, Oct. 15.—The Ottawa Car Co. yesterday made its first shipment of cars to the Edmonton Radial Street Railway, which is now being built in the City of Edmonton. The cars are of an imposing appearance and are much larger than those in use on the lines in this city. They are double trucked with a closed front vestibule, and are painted light blue and yellow.

Snow Interrupts Surveys.

Ottawa, Oct. 15.—The parties sent out for summer work by the Topographical Department are beginning to return to the city. It is understood that the return was made earlier than usual this year owing to the fact that a heavy snowfall made further work impossible.

As a rule the snow does not interfere with operations until November.

Madame La Blonche Sues.

Toronto, Oct. 15.—Madame Marie La Blonche, who was injured by a fall while performing an aerial feat before the Exhibition grand stand, has entered an action against the Exhibition Association to recover damages. She charges negligence on account of a post to which the apparatus was guyed having pulled out of the ground.

J. O. Curwod Murdered.

Winnipeg, Oct. 15.—A report has been received here from the upper end of Lake Winnipeg to the effect that J. O. Curwood of Detroit, a magazine writer and representative of the Merrill Publishing Co., has been murdered by Indians in the Lac la Rouge country. Cutwood's headquarters were formerly at Port Arthur.

Eggs—Quiet, unchanged; receipts, 10,367.

CATTLE MARKETS.

Cables About Steady—American Markets Show Few Changes.

LONDON, Oct. 14.—London cables for cattle are steady, at 11½c to 12½c per pound, dressed weight; refrigerator beef is quoted at 9½c to 13c per pound.

Montreal Live Stock.

MONTREAL, Oct. 14.—(Special.)—About 1240 butchers' cattle, 20 milch cows and springers, 300 calves, 950 sheep and lambs and 1200 fat hogs were offered for sale at the East End Abattoir Market.

There were very few prime beeves on the market, and some of the best of these sold up to 5c per lb.; pretty good animals sold at 3½c to 4½c, and the common stock at 2c to 3c per lb. A lot of thin, old cows, averaging 646 lbs. each, were sold at a little over 1½c per lb. Milch cows sold at $30 to $55 each. The calves were nearly all grassers, which sold at 2½c to 3½c per lb.; good veals at 4c to 5c per lb. Sheep sold at 3½c per lb.; lambs at 4½c to 5c.

The market for live hogs was about steady. Supplies were fairly large, for which the demand was good, and sales of selected lots were made at $6.75, and lightweights at $6 to $6.25 per 100 lbs., weighed off cars.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 14.—Cattle—Receipts, 150 head; light demand and steady; prime steers, $5.75 to $6.25.

Veals—Receipts, 250 head; active and 25c higher, $6 to $9.25.

Hogs—Receipts, 6800 head; slow and steady; mixed, $5.75 to $6.10; yorkers, $5 to $6; pigs, $4 to $4.90; roughs, $4.75 to $5; stags, $4 to $4.50.

Sheep and Lambs—Receipts, 5000 head; active; sheep steady; lambs 25c higher; lambs, $4 to $6; yearlings, $4 to $4.50; wethers, $4 to $4.25; ewes, $3.75 to $4; sheep, mixed, $1 to $4.

New York Live Stock.

NEW YORK, Oct. 14.—Beeves—Receipts, 2407; choice heavy steers about steady; others slow and 10c lower; bulls and cows steady; steers, $4 to $6.40; oxen, $3.75 to $4.25; bulls, $2.65 to $4; cows, $1.30 to $2.80. Exports to-day, 2560.

Calves—Receipts, 2173; veals, 25c to 50c lower; westerners 25c lower; veals, $5 to $9.25; few tops, $9.25; culls, $4 to $4.50; grassers and fed calves, $3 to $3.50; westerners, $3.12½ to $4.50; dressed calves weak to lower.

Sheep and Lambs—Receipts, 6255; sheep steady; lambs firm to 10c to 15c higher; sheep, $2.25 to $4; culls, $1.50 to $2; lambs, $4.50 to $5.80; culls, $3.50 to $4.

Hogs—Receipts, 8383; pigs and light hogs would sell lower; others steady; medium weight state hogs, $6.

Chicago Live Stock.

CHICAGO, Oct. 14.—Cattle—Receipts, 22,000; market steady to strong for best, but weak to 10c lower for poorer grades; steers, $4.40 to $7.60; cows, $3.25 to $5.25; heifers, $3 to $4.25; bulls, $2.50 to $4.50; calves, $3.50 to $3.50; stockers and feeders, $2.60 to $4.65.

Hogs—Receipts, 25,000; market 10c to 20c lower; choice heavy shippers, $5.90 to $6.05; butchers, $5.85 to $6; light mixed, $5.20 to $5.60; choice light, $5.65 to $5.75; packing, $5.40 to $5.60; pigs, $5.10 to $5.25; bulk of sales, $5.50 to $5.60.

Sheep and Lambs—Receipts, 23,000; market steady; sheep, $4.25 to $4.75; lambs, $4.75 to $6; yearlings, $3.85 to $5.

Would Kill Distilleries.

Madison, Wis., Oct. 15.—Eugene W. Chafin, prohibition nominee for President, in a speech last night, declared that the loss of negro votes in several southern border states would mean defeat for Taft. "If I go to the White House," said Mr. Chafin, "the first thing my wife and I would do would be to clean up all the whisky bottles. I would also call a special session of Congress on March 6 and I assure you that within twelve months afterwards there would be no more distilleries or breweries in the United States."

C.P.R. Accept New Lines.

Winnipeg, Man., Oct. 15.—Sir Thos. Shaughnessy and party of directors of the C.P.R., have accepted from the contractors the double track wheat road, 422 miles long, running between here and Fort William. It was built at a cost of $10,000,000. From here the party will go to Lethbridge to take over the Alberta railway and properties as comprising a large colliery at Lethbridge, 113 miles of railway and 225,000 acres of land, suitable for irrigation.

Faces "High Grading" Charge.

North Bay, Oct. 15.—True bills having been returned against James Connelly on two charges, one of purchasing silver ore stolen from silver mines, and another charge of receiving silver ore knowing it to be stolen.

In view of the prevalence of ore thefts, known as "high grading," this case is being watched with great interest.

EGS ANOTHER CHANCE

n. Martin, Jr., of North Bay Vants to Repay Defalcations.

bezzling Tax Collector Pleads Guilty and Asks For Suspension of Sentence, In Order That He May Devote His Life and Energy to Vork of Restitution — $20,000 Is Amount of Shortage.

orth Bay, Oct. 16.—That Wm. rtin, Jr., former tax collector for town, and accused of embezzling e $20,000 of the town funds, uld be set free to continue in his rts at restitution, was the plea e yesterday by his counsel, Wm. te of Pembroke. The crown coun- did not object. Justice Britton rved judgment.

r. White after entering a plea of ty asked for suspension of sen- e. Martin, he said, would devote life and energy toward repayment. unsel pointed out the many of- held by accused for year, entail- the handling of large sums of y, creating conditions wherein night easily become involved un- wingly. All the property of the sed, of his father and of his wife been turned over to the town and town council is not anxious to him to prison. No injury, he , would resul[illegible] anyone and ends of justic[illegible]ould be fully ed by leniency, which would re- e the accused to his wife and ly and enable him to clear his tation by restitution.

artin was tax collector while his r was town treasurer, but the transacted the business of both s, in addition to being police strate and conducting an exten- insurance business and other in- ts. In May Hardy and Ham- d, auditors, reported a shortage e town of over $20,000 and the sed entered into an agreement to fy the deficiency. The agreement being carried out in its entirety e time specified, criminal action begun, and shortly after the bal- of the securities specified were shed by the accused.

Beats Servant Girl.

w York, Oct. 16.—"Al" Reeves, median and burlesque show man- was arrested in Brooklyn on nesday for assaulting a servant. is awfully humiliating," said Reeves, "to be locked up for lick- servant girl. If it had been for ry or murder, or something like I wouldn't have minded half so ."

ry Kenny told Magistrate Tighe, e Adams street court that the dian threw her downstairs and d her because she asked to be ursed for certain advertising ex- s.

ore Reeves went on the road with how, the girl was told to take care of his dog. A week ago the disappeared. In despair Mary tised and a boy brought back nimal. She parted with a $5 bill e finder's reward.

Seizure Rights In Danger.

ntreal, Oct. 16.—Litigation in Montreal is concerned threat- o upset the right of a city or in Canada to make a seizure ds for taxes. Mr. Charles Gau- as secured an order from the to force the Attorney-General province to defend the consti- ality of the city charter, which provincial statute, claiming that agna charta under which the tution is laid, gives the citizens ht to a trial before the seizure ds is made. The principle will to other Canadian provinces.

vinces Jury He's Not Insane.

York Oct. 16.—So eloquent was Elias L. Rossin, once a teacher in the public schools here, when he addressed the jury yesterday in his own behalf against a charge of insanity, that they not only rendered the verdict in his favor, but many of them pressed their cards upon him and invited him to call.

Rossin declared he was the victim of various relatives who, he said, wanted to get possession of his property, which amounts to about $1,000.

$500,000 Fire In Arizona.

Bisbee, Ariz., Oct. 16.—Fire Wednesday night destroyed property valued at a half million dollars. Dynamite was used to check the flames. A number of business houses on Main street, as well as residences on Castle and Clamson Hills, were wiped out. Several persons were injured by the explosion of dynamite, but none was fatally hurt.

Shoe Strike Ends.

Lynn, Mass., Oct. 16.—The lasters, whose strike in this city began two weeks ago and resulted in a practical tie-up of the shoe industry of this city, throwing out of employment about 15,000 men, met yesterday to accept the agreement of the Manufacturers' Association, whereby they return to work under the old conditions.

What Colonies Could Do.

London, Oit. 16.—Lockwood's London letter says that continued bad G.T.R. returns have very seriously alarmed the shareholders, and its unfortunate that the board insists on adopting such an offhand way with its shareholders as it creates a bad impression.

Canada-Australian Navy.

London, Oct. 16.—(C. A. P.)—The Morning Post says financially Australians are capable of creating a naval force which in conjunction with a Canadian squadron might eventually release the Empire from dependence upon the other allies in the Pacific.

Falls From Tree.

Berlin, Ont., Oct. 16.—Nelson Gottsleben, aged 20, a farm hand, while picking apples, got too far out on a branch which broke, breaking his shoulder-bone and causing concussion and hemorrhage of the brain.

Surgeon Stricken.

Washington, D.C., Oct. 16.—While standing with a lancet in his hand ready to perform an operation on a patient at the home of Joseph Hidy, Dr. J. L. Worley was stricken with paralysis.

His entire left side was paralyzed. He is 52 years of age.

Breaks Neck In Hotel.

Brampton, Oct. 16.—Thomas Simpson, a middle-aged farm laborer who had been boarding at the Royal Hotel for some days, fell down stairs at an early hour yesterday morning and broke his neck, dying a few minutes later. Nothing is known here of his home or friends.

Mission Board Centennial.

New York, Oct. 16.—The American board of foreign missions in annual conference in Brooklyn yesterday afternoon decided to hold its annual convention next year in Minneapolis, and to celebrate in Boston in 1910 the centennial anniversary of its foundation.

Grate Fire Explodes Gasoline.

Albuquerque, N.M., Oct. 16.—Mrs. Louise H. Chamberlain, a society leader, was burned to death. A servant cleaning a rug with gasoline came too close to an open grate fire and an explosion followed, and Mrs. Chamberlain's clothing caught fire.

Killed While Picking Apples.

Kingston, Oct. 16.—Henry O'Hara, aged 76, is dead from the effects of a fall of 15 feet Wednesday night while picking apples.

Jumped Off Train.

Proton, Oct. 16.—James Neilson, a young married man, boarded a C.P.R. freight train coming up the line from Dundalk. This was a through freight, however, and passed Proton at the rate of 25 miles per hour. Neilson jumped off, falling upon his head, terribly crushing it. Dr. McWilliam removed a stone as large as an egg from his skull.

Curwood Is Safe.

Port Arthur, Oct. 16.—The report that Curwood, the Detroit magazine writer, who was stated to have gone to Hudson Bay, was killed by Indians, is without foundation. He is on the Duluth Extension Railway and is well.

Endows Tuberculosis Dispensary.

Montreal, Oct. 16.—Lt.-Col. Jeffrey Burland has given the sum of $50,000 to erect a dispensary here for tuberculosis in the Province of Quebec.

Comfort and independence abide with those who can postpone their desires.—Success Magazine.

Three Trains Were Wrecked

Several Are Injured in G. T. R Derail Near Barrie.

Meaford Mixed Train Leaves Track and Three Coaches Topple Over—No Deaths Have Occurred and Injured Will Recover—Winnipeg Express Collides With Construction Supply Train.

Barrie, Oct. 16.—News was flashed through this town about 2 p.m. yesterday of what was believed to be a very serious accident. The word was that all local doctors had been summoned to the scene of the accident.

Fortunately, the accident had not resulted fatally in any case, though some six or seven were somewhat seriously injured, the most serious being:

Mrs. Wilson, leg broken.

Miss Hotson of Parkhill, arm broken.

Mrs. John Potts of Collingwood, ankle hurt.

Percy Hermant of 159 Wilton avenue, Toronto, head hurt.

Drs. Ross and Arnall attended to their injuries.

The Meaford mixed train, running at the rate of 25 miles an hour, left the track just half a mile north of Allandale, due to the rear truck of the last coach being derailed.

The three coaches went over on their sides, but the occupants of the rear coach, however, were the only ones to suffer seriously.

No blame is attached to the crew in charge and none were injured except Baggageman Gagnon, who was badly shaken up.

Mrs. Wilson is 75 years old and has three times before suffered a broken leg. She was on her way to Toronto to assist her son, Johnston Wilson.

Parry Sound, Oct. 16.—A collision occurred at the C.P.R. station here yesterday afternoon between the Winnipeg express south and a supply train of the Ross, Harris Construction Co.

The supply train, consisting of two loaded freight cars and engine 371, was standing on the main line taking water when the Winnipeg express came along and ran into the supply train, demolishing the freight cars and scattering the freight. No one was hurt, and the only damage to the express engine was the loss of a smoke-stack and headlight.

The passengers got off with a shaking up, caused by the application of emergency brakes, and the consequent collision. The train was not running very fast, or there might have been a number of casualties.

The crew of the supply train expected to fill the tank and clear the track before the express arrived.

May Have Been Murdered.

Medicine Hat, Alta., Oct. 16.—Great anxiety is expressed by John S. Lehr of Josephsburg concerning the possible fate which may have befallen his son, John, aged 18, who disappeared on Sept. 24.

Sinister rumors are afloat and the whole district is in a state of unrest. Blood clots have been found beside a neighboring fence and examination of horses and cattle in field showed that none had been injured.

The lad was known to be following up a clue discovered in connection with an incendiary fire which recently destroyed the Lehr dwelling, and which brought "The Dreamers" so prominently before the public.

Conductor Killed.

Hanover, Oct. 16.—While uncoupling a car in the C.P.R. yards here, Charles P. Clarke, conductor of a mail train, met a terrible death.

While switching the mail train off the main track to make way for the eastbound express he slipped in between the cars to uncouple them. In some way his foot got caught and the car wheels passed over him mangling him in a fearful manner.

He leaves a wife, but has no children. His parents live in London. His father and brother are also railway men.

Doctor Falls Into Hole.

Woodstock, Oct. 16.—Dr. Mearns, who has been stumping for the Liberal candidate, E. W. Nesbitt, in the present campaign, was rather seriously injured Wednesday night. He had gone out to Princeton to speak at a joint meeting of North Oxford and Brant Liberals, and at the Drake House stables he accidentally walked into an excavation. He sustained a sprained ankle.

Students Same the World Over.

St. Petersburg, Oct. 16.—The students of the University of St. Petersburg met yesterday to discuss the continuation of the strike they have embarked on because of alleged impositions by the Ministry of Education, but the gathering broke up in a free fight between the opposing factions. Clubs and canes were used freely and many heads were broken.

BORDEN QUITE WELL.

In Montreal He Personally Refutes Reports of His Ill-Health.

Montreal, Oct. 16.—The reception given to the Conservative leader, R. L. Borden, in Montreal last night, was enthusiastic in the extreme.

He spoke in Victoria Hall Westmount, and the auditorium was taxed to its utmost. This was the second time during the present campaign that Montreal had the opportunity of greeting Mr. Borden, and if cheers count for anything, the heart of the residential section of the metropolis beats in unison with Conservative doctrines and principles.

Mr. Borden was accompanied by C. J. Doherty, Conservative candidate for St. Anne's division, and Louis Cole, candidate for Hochelaga, in which constituency Westmount is situated.

Mr. Borden referred to the newspaper reports that he was a complete physical wreck as a result of his Ontario campaign. He was glad to present himself as exhibit A, as an evidence of good health. He brought a message from Ontario, and that was that Ontario on Oct. 26 will give to the cause of good government in this country a record majority.

CHILDREN FATALLY BURNED.

Mother of Quebec Girls Badly Injured Trying to Save Them.

Quebec, Oct. 16.—An accident occurred on board one of the barges moored at Archer's wharf in the Louise Basin, in which a mother and her two young daughters were so severely burned that the elder of the children, aged three years, has expired, while the other child, aged two years, is not expected to recover.

The barge is owned by Edmond Paquet, of Champlain, N.Y., who was ashore. While playing the children spilled coal oil on their clothes, which in some manner became ignited. The frantic mother in her efforts to save her children was herself burned.

TELEGRAPHIC BRIEFS.

Three runaway Montreal boys of 16 are stranded at the Soo.

Michael McNeil of Dominion, N.S., aged 60, was killed by a fall of stone and coal.

William Henderson, bank messenger, deceased, left an estate of $4,900 to the widow.

The United States fleet is nearing Yokohama and wireless greetings have been sent out.

At Vermont, Neb., one Italian was killed and another will die, the result of a riot among navvies over a board bill.

Loaded with hay and straw the sloop Ariadne sprang aleak while on the way from Wolfe Island to Kingston and had to be abandoned.

A writ was issued yesterday on the superintendent of the Matteawan Hospital, ordering Thaw to be produced in Pittsburg for bankruptcy proceedings. The attorney-general will be consulted.

The international road congress at Paris have adopted a motion to erect a suitable monument to the memory of M. Tresaguet, the engineer who is principally responsible for the splendid highways of France.

Newfoundland Taxed.

Ottawa, Oct. 16.—Mr. Arnaud, Canadian trade commissioner, Newfoundland, in a report to the Department of Trade and Commerce, gives some figures which go to show that the islanders constitute a highly taxed community.

While there was no diminuation in the revenue during the fiscal year recently closed, a slight gain being recorded, the Auditor-General of Newfoundland figures out that the average tax per family amounts to over $50. This means that the people are paying out in taxes one-fifth of the earnings of each family. From eight to nine-tenths of the people of the island are engaged in fishing, and the earnings of the average family are less than $300.

The colony carries a net debt of over $20,000,000, and a per capita debt of $86.

Highway Robbery.

Chatham, Ont., Oct. 16.—Antonio Enion, an Assyrian peddler, was knocked down and robbed by an unknown colored man on the Cemetery road, a quarter of a mile from the city, yesterday afternoon. Twenty-five dollars in cash and some jewelry was booty.

It is reported that the negro was caught at Charing Cross late yesterday afternoon.

The Conservative party is aggressive and united. Mr. Borden is not waging a single-handed battle. The Conservative majority in Ontario will run from 42 to 50. Vote for Mr. Porter.

Daily Intelligencer.

THE CALENDAR.

290 Days past—Days to come 76.

OCTOBER

16

Friday

God helps them that helps themselves.

Benjamin Franklin.

THIS DAY IN HISTORY.

Lord Strathnairn died, 1885.
Siege of Mafeking commenced, 1899.
Iroquois defeated by Duluth, 1689.

TIMELY TOPICS.

Well, isn't this great weather? We may have another crop of dandelions yet.

* * *

And carping critics condemn that great Frenchman, Laurier, for wasting the country's money, while he's sending us weather like this! Ain't it awful, Mabel?

* * *

That Springbrook gentleman, Dr. Towle, has no desire to beat Mr. Porter out of his job as Conservative candidate. He towled E. Guss so.

* * *

The meaning of those dinky little blue flags with the yellow star, which hang out of the windows of the Grit committee rooms has been revealed. They are part of the paraphernalia used by the Ottawa Grits in the presentation of that great extravaganza, "Ali Baba, or the Forty Thieves."

* * *

The auto, these days, is not making a very good name for itself. One killed its driver coming from Picton, and another nearly put a resident of this city in line for the undertaker. The flying machine for ours.

* * *

Grit candidate Funnell was in the city last night. When seen by an Intelligencer man Mr. Funnell was telling Mr. Henry Pringle that he would be satisfied with a majority of considerably less than a million.

* * *

A majority of 50 for Mr. Borden in Ontario is predicted. Well, we can shut our eyes and name two seats (in Hastings County) that are dead sure to go Conservative.

* * *

With a majority of 50 in Ontario, how are they going to beat Borden? Can't be done. It's all off with grafting and French domination. Tiger!

* * *

The election of Mr. Alcorn in Prince Edward by fully 200 is confidently predicted. That shabby little Grit trick at the Roblin's Mills fair didn't do Dr. Currie any good. He should have been ashamed to let such a thing be done.

* * *

J. K. McCargar was over in Prince Edward County Wednesday night. What for? 'Tis said he went not by the bridge either — considered it safer to go by small boat. Prince Edward Conservatives, keep your eyes open, and on the man of grey horse fame.

* * *

A New York author has bequeathed his brain to a university. If all the Yankee literary men would do that it would settle the moot question as to whether some of them have any brains.

* * *

Snow has stopped Canadian surveying parties a month ahead of time this year. Get your muscle up, brethren. Trouble is near at hand.

* * *

Advertisement in a Toronto paper, says: Wanted, married man with some capital." Capital joke, that.

* * *

Four Conservative orators held forth at Frankford last night. When they got through it is said Doc. Simmons was under the barn.

* * *

Kaiser Bill has invented a new brake. Now if he will invent a muzzle—and wear it himself—the white-winged angel of peace will smile.

* * *

How can the farmer plough his land, these days, when the politicians are telling him such harrowing tales?

* * *

New York city pays for supplies from 200 to 1200 per cent. more than private persons do. So that after all the Canadian Grits have a lot to learn about the grafting game.

* * *

A Montreal minister is quoted as inveighing against political scandal-mongers. The reverend gentleman is off on the wrong foot. Why doesn't he call for the suppression of the CAUSE of the scandals? Goody-goody methods may be all right in some things, but they don't work in a case where a man buys a chunk of Canada's land for $1650 and sells it for $200,000. Does the reverend deplorer condone that sort of thing? If not, why does he object to plain speaking? Publicity and plain speaking never yet hurt anything unless there was justifiable cause for it.

* * *

Twenty-two clergymen, who have charges in the county of King's, N.S., are announced to speak on the platform against the candidature of Sir Frederick Borden, the minister of militia. Looks as if the Grit lion will stand a poor show in that den of Daniels.

* * *

South Hastings teachers set their faces against too much home work for children. We're with 'em on that. Keep the youngsters at it in school, but don't make 'em work overtime. Can you imagine a more pitiful sight than to see a child, flushed tired and sleepy, wearying over "home work" when she ought to be in bed.

* * *

The Ottawa Citizen is throwing bricks at people who go late to places of amusement, and thus discommode and spoil the enjoyment of others. If some of the bricks would carry far enough to hit Belleville people they would do much good. There are a lot of the "fashionably late" class in this city.

* * *

Queen's wants a divorce from the Presbyterian church. As the trustees say: "Give us liberty or give us debt." That seems to be about the way Patrick Henry would have sized up the situation.

* * *

SHOULD BE ONE THING OR THE OTHER.

(Brockville Times.)

The Montreal Star claims to be a great newspaper, and makes great pretense of its bold independency; but in the present campaign it is making the most grotesquely weak display of "independence" we have ever seen upon the part of any newspaper claiming "independence." What does this bold newspaper do to assert its "independence?" It abuses both parties and laments that there are so few great men—outside of the Star office is to be inferred, of course—in Canada to pull the country out of the hole it is in! One would imagine that a newspaper claiming the influence and "independence" that the Star claims would have the courage and intelligence to show a preference and make a choice even between the two evils it condescendingly deplores. But it does not: it straddles the fence in order to be in a position to say, 'Didn't I say so," no matter which side wins on the 26th.

Borden for Premier and Better Government.

Rubber Goods That Are Alive

At this season a good Hot Water Bottle is a necessity in every home. We have a large assortment of fresh Hot Water Bottles. Fountain Syringes household rubber gloves, rubber sponges, face brushes, etc, that are alive and full of elasticity not the kind that are dried up and ready to crack after a few months use.

McKeown's Drug Store

Rural Delivery In Prince Edward.

Picton, Oct. 15.—The Laurier Government is very solicitous for the comfort of Prince Edward people these days, but of course the desire to see Dr. Currie defeat Mr. G. O. Alcorn has nothing to do with it. Rural mail delivery will soon be inaugurated in this county. On Monday, Dr. Durston, of the head office, started work on the route from the Picton post-office to West Lake office. As a result the boxes will arrive here Saturday and Mr. Durston has stated that service will commence on Tuesday. Each man's mail will be deposited in his box on the trip from Picton to the rural office, and will be collected on the return trip. West Lake will have the service on Tuesday and within five weeks all the eight mail routes out of Picton will be supplied, and all the branch routes on which a mail carrier operates. The service is practically free, the only cost to the farmer is the payment of a sum, probably $3.50 for his box and the placing of a post on which the box shall rest.

How Picton Doctor Met Terrible Death.

The following despatch gives additional particulars of the sad death of Dr. Tyner, of Picton, which was mentioned in The Intelligencer yesterday:

Picton, Ont., Oct. 15.— Picton was shocked when it awoke, this morning, to the news of one of the saddest fatalities in many months, an accident during last night, when Dr. William G. Tyner was almost instantly killed. Dr. Tyner left town last evening, in his motor runabout, bound for Belleville. On a dark spot of the road, where the highway on either side is a deep ditch, the auto ran off the narrow roadway and lurched into the ditch. Presumably, as the doctor was thrown from his seat, he was struck in falling on the temple and death was instantaneous. He was found early this morning by a passing farmer under the upturned car.

Dr. Tyner was a prominent young physician and very popular among town folk, during his seven or eight years' residence here. About five years ago he married Maizie, eldest daughter of Mr. and Mrs. A. W. Hepburn, one of Picton's most prominent families. Three years ago he took a post-graduate course in orthopedic survey in New York. A widow survives, beside his mother, who has been living in town the past two years, and one brother, Dwight, of the Standard Bank, Toronto. He was aged about thirty-three years.

PILES CURED IN 6 TO 14 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

PRAISES GRAND TRUNK.

The appreciation of the dining car service on the Grand Trunk by the travelling public is becoming renowned and letters are being received constantly, praising this branch of the service. The following abstract is taken from a letter recently received at Headquarters from a prominent American:—

"I arrived here last evening on my way to Ouray, Colo., on your train that left Niagara Falls yesterday morning, September 23rd; this is the fourth journey I have made over your System in one year en route from New York to the West. I cannot refrain from writing and saying that the matter of accommodation and civility on the part of the employees of your line is unsurpassed and that in catering your dining car service leaves nothing to be desired."

This is only a sample of many unsolicited testimonials of the splendid service that is found on the lines of the Grand Trunk Railway System.

NOMINATION AT TRENTON.

Friends and supporters of Mr. E. Guss Porter, the Conservative candidate for West Hastings, are invited to attend the nomination meeting at Trenton on

MONDAY, OCT. 19

Steamer Brockville will leave Belleville at 10.30 a.m.; fare to Trenton 15 cents; returning steamer Varuna will leave Trenton at 6.45 p.m.; fare to Belleville 25 cents, making a fare of 40 cents for the round trip. There will be a large attendance of Conservative electors from the North, and the occasion should be a gala one for lovers of good government.

GOD SAVE THE KING.

MUSIC AND THE DRAMA

"FAUST" NEXT TUESDAY.

The annual local engagement of Mr. John Griffith, foremost of the present group of really great Shakespeare actors, will be the most important event of the coming week. Mr. Griffith is presenting this season a repertoire, comprising several of Shakespeare's plays in which he has starred during former seasons, but will give us a revival of 'Faust" the play in which he won his first laurels as a star some years ago.

The attraction is under the auspices of the I.O.O.F.

McCONKEY'S CHOCOLATES

Represent the highest degree of perfection in the candy makers art. Try them and know. Pure, dainty, rich, luscious and not expensive. Only local agents are McKeown's Drug Store.

Some men are so smart that they need all their brains to keep them out of difficulty.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists.

Daily Intelligencer.

The Difference—Principle Vs. Party.

The Ottawa Citizen puts the case clearly and convincingly. Liberals should read it:

"Experience shows that all candidates elected to the House of Commons as Liberals support the Government of Sir Wilfrid Laurier with the unanimity of servile partisans. Under the late Sir John Macdonald, when Conservative members differed from him they stood up and voted against their leader as a matter of principle; in the days of Sir Charles Tupper a large section of the Conservative press opposed him on the Manitoba school question, and the City of Toronto, nominally a hotbed of Toryism, would not give him a hearing. With the Liberal party it is different. On the Autonomy bill every Liberal in the House voted with him to a man, and during the whole twelve years the party has been in power there has not been an occasion when an important principle was at stake that a single Grit member voted other than with his party.

"The moral of this is that every vote cast for a Liberal candidate is a vote for the Laurier Government. Those who cast such votes know absolutely that the men they are voting for will obey the crack of the whip no matter what their constituents may think of their action, or of the principle involved in the legislation which happens to be under consideration. They have done it before, and they will do it again. The Laurier Government, supported by the unanimous votes of every Grit member, has broken every pledge in the platform of 1893; has passed the Autonomy bill; has infringed provincial rights, attempted to suppress information in public documents by refusing examination to the members of the Opposition, and has bolstered up every scandal which inquiry in committee or before the House sought to expose."

Globe Tactics.

Scarcely an issue of the Globe is circulated that there does not appear a notice either by a correspondent or in the editorial columns in condemnation of the use of liquor in the Colchester bye-election some months ago. This is commendable, but why has not the Globe found space for a little—just a little—condemnation of the Revising Officer in the same county for falsifying the voters' lists? If it were criminal for a man to use liquor and money at an election, when supporting a Conservative, as it undoubtedly was, was it commendable on the part of a Revising Officer to deliberately strike a number of names of Conservative voters off the list returned to the courts, and then, when prosecuted for the crime, to find on the evidence of his own daughter, who acted as clerk at the Court of Review, that they had been burned? There has been no editorial condemnation of such conduct as this by the reverend editor. Why? The crimes were committed in the interests of Liberalism. With this mentor of political morality the use of liquor at an election is an offence that should have a daily condemnation, but false returns, cheating men out of the franchise, so long as it is in the interests of what is called Liberalism, is, if silence is to be accepted as evidence, correct and proper.

* * *

One deliverance of the Globe upon this subject reads as follows:

"It is reported from Halifax that a true bill has been found against Alonzo R. Bayne, charged with the extensive distribution of money and whiskey to corrupt the electors of Colchester, N.S. This prisoner is evidently a scapegoat for the prominent Conservative workers who furnished him with the munitions of illegal political war."

What are the facts? A telegram from Nova Scotia answers the question. Here it is:

Truro, N.S.—The trial of Alonzo R. Bayne, charged with bribery in the Colchester election, ended in a complete collapse for the prosecution to-day. The case was called for trial before Judge Longley, when the prosecution declined to go on. The defence urged them to proceed, but they alleged that it would not be a good time, during an election campaign, to try the case. Bayne was discharged on his own recognizance.

The fact is that the whole case was simply a conspiracy to fish for evidence against John Stanfield, and now the conspirators, finding that there was no evidence and that Bayne would certainly be acquitted, refused to proceed with the trial. The case thus fizzling out has proved a boomerang for the Liberals, and it is certain that Stanfield's majority in Colchester will be greatly increased."

FINE MEETING AT FRANKFORD.

A successful meeting was held last night in Frankford, in favor of Mr. E. Guss Porter, ex-M.P. The hall was well filled by an intelligent class of farmers and others who take an interest in public affairs, and the audience gave unmistakable evidence of a determination to show the Laurier Government, on the 26th inst. that they have no sympathy with those who now are in charge of the affairs of the Dominion.

The chair was occupied by Mr. Mallory, President of the Sidney Conservative Association, who in his opening address urged the electors not to be lukewarm under the impression that it was to be a walk-over for Mr. Porter, and that, while there was no doubt of the result. West Hastings should give in this contest, with the maladministration of the affairs of the Dominion before them, at least 2000 majority. This declaration was received with applause and shouts of "So we will."

Mr. J. W. Johnson, M.P.P. was received with applause, and addressed the meeting for some forty minutes, during which he compared the administration of Conservative and Liberal Governments in a masterly manner, to the delight of the audience.

Sir Mackenzie Bowell followed, who dealt with the corruption practised at elections by Grit heelers, pointed out how nearly all the rascals had been appointed to office and were now living upon the country, enjoying large salaries.

The meeting was then addressed by Mr. W. S. Morden, in a few happy and witty remarks, after which the candidate, Mr. Porter, closed the meeting, with a rousing speech, referring to the forgery in the case of the letter sent to the Toronto newspapers, announcing his retirement from the contest, which would be followed up to a prosecution, if the forger can be found. He also explained his connection with the bay bridge, denounced the false stories which had been put in circulation, and wound up with an appeal to all electors, Liberals and Conservatives alike, to rush to the polls and show by their votes that they were in favor of a change and the formation of an honest government.

A few encouraging words were given by the Reeve of the township, Mr. Vandervoort, and the meeting closed by cheers for the King, Messrs. Porter, Johnson, the Chairman, and Sir Mackenzie Bowell.

What would the late Hon. Geo. Brown say of the present editor of the Globe?

About half the electors in Ontario seem to be making forecasts these days. The majority predict a victory for Borden.

Over in Prince Edward its hard to say whether Curfie or McMullen will lose his deposit.

Who sent the forged letters to the Toronto papers, claiming that Mr. Porter had retired? Nice trick, that. Perhaps the handwriting may yet be recognized.

Borden has "finished his work" in Ontario. And all over the province he drew record-breaking crowds and was received with wonderful enthusiasm.

In Toronto Tom Robinette is talking Italian to some of his constituents. He'd turn the handles of the hand organs if he knew anything about music.

At his meeting last night Candidate Funnell persuaded Mr. James Tabbits that it was his duty to vote Grit on the 26th. N. B. It wasn't a very hard job.

AS A FAMILY MEDICINE

FOR BILIOUSNESS, CONSTIPATION AND KIDNEY DERANGEMENTS DR. A. W. CHASE'S KIDNEY-LIVER PILLS EASILY STAND FIRST.

Lots of suffering would be avoided and much serious disease prevented if every family did as the writer of this letter suggests.

She has found out with experience with many medicines that there is nothing so good as Dr. A. W. Chase's Kidney-Liver Pills as a family medicine for biliousness and constipation.

Such diseases as Bright's disease, diabetes and appendicitis almost invariably arises from neglect to keep the liver, kidneys and bowels regular.

This emphasizes the wisdom of keeping Dr. A. W. Chase's Kidney Liver Pills constantly on hand.

"For a long time I suffered from liver complaint and biliousness and could find nothing to help me until I used Dr. Chase's Kidney-Liver Pills. I have recommended these Pills to many of my friends and they have all been well satisfied with the results. You can use this letter for the benefit of women who are suffering as I did."—Miss Julia Langlois, Manor, Sask.

One pill a dose, 25 cents a box. At all dealers or Edmanson, Bates & Co., Toronto.

A MAGISTRATE INVESTIGATES ZAM-BUK.

SAYS IT IS A WONDERFUL HEALER AND DOES MORE THAN IS CLAIMED FOR IT.

No household remedy in existence has won such glowing tributes from people in high places as has Zam-Buk. Mr. Roger F. Perry, Justice of the Peace for British Columbia, tested this famous balm, and this is what he says of it:

"The Pavilion,
"Goldfields, B.C.

"To the Zam-Buk Co.,

"Gentlemen,—After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years' standing, which no doctor had been able to do any good for.

"I would certainly encourage any person to keep Zam-Buk in their home. It truly does even more than you claim for it. For my own part I would not be without it in the house. Yours very truly,

(Signed) "ROGER F. PERRY,
"Justice of the Peace for B.C."

Zam-Buk differs from ordinary salves and embrocations, for while these mostly contain animal oils and fats, Zam-Buk is purely herbal. It soothes and heals cuts, sores, ulcers, eruptions, boils, eczema, chafing sores, etc. In the household it is the handiest possible remedy for burns, scalds, children's injuries. It instantly cleanses any wound to which it is applied; prevents festering, inflammation or blood poisoning. It cures piles, varicose ulcers, and fistula. All druggists and stores sell at 50 cents a box, or from the Zam-Buk Co., Toronto, for price, 6 boxes for $2.50.

Cheese Board.

At the local Cheese Board on Thursday there was a good attendance of salesmen and buyers. As was expected, there was a slight decrease in the price of cheese over that of a week ago. The bidding started at 11 1-2c, and the highest price reached was 11 7-8c. The greater portion of the cheese boarded was sold at this price and 11 3-4c. There was boarded 2640 boxes of white and 130 boxes of colored.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

THE INTELLIGENCER is printed and published for The Intelligencer Printing and Publishing House (Limited) by CHARLES JAMES BOWELL, of the City of Belleville, in the County of Hastings, Province of Ontario, at their office, No. 193

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

TIMELY TOPICS

THE MONTH OF RIPENESS.

Thou languid August noon,
  When all the slopes are sunny;
When, with jocund, dreamy tune,
  The bees are in the honey,
When with purple flowers,
  Aflaming in the sun,
The drowsy hours
  Thread one by one
    The golden pleasaunces.

Then is heart's musing time;
  Then, of all the seasons,
Old Earth for inward rhyme
  Is full of golden reasons—
Then the ripening gourd,
  The sun-kissed garden wall,
The purpling hoard,
  The flocks that call
  Adown the distances.

Forego the saddening tear,
  Thou month without alloy;
To younger seasons of the year
  Resign the flag of joy;
But thou, be what thou art,
  Full brooding to the brim
Of dreams apart,
  Anr purlieus dim
    Of leafy silences.

—Wilfred Campbell.

EVER SEEN HAMILTON?

Citizen of Ambitious City Is Loyal to Home Town.

An incident that flabbergasted Dean Williams, of Christ Church Cathedral, Quebec, and that betrayed a whimsical loyalty on the part of a Hamilton militia officer, occurred during one of the functions of the recent celebration in the old city.

It happened that during a lull in the proceedings, the dean, who became known to almost every guest, saw standing at his side the Hamilton man, and asked him what he thought of Quebec. The response was not quite enthusiastic enough to please the dean, and he said:

"Do you not think Quebec a beautiful city?"

"Ah, er, quite so," agreed the officer.

"But, sir," said the dean, with some eagerness, "the Duke of Norfolk was here, who has crossed the ocean seventeen times. He has seen everything worth seeing on the face of the globe, and he says there are only two cities that can touch this, and they are Edinburgh and Constantinople," declared the dean, with emphasis.

The officer listened with attention, and then suddenly responded: "Well, dean, has the duke ever been to Hamilton?"

Repairing the Boundary.

Sixty-six years have passed since the signing of the Ashburton Treaty between Great Britain and the United States by which the southeastern frontier of Canada was definitely agreed to. The international boundary line having been run, it was marked by iron posts erected along every highway where it passed from one country into the other.

But the posts have been falling into a state of disrepair and were overgrown with weeds.

The work of restoring these frontier marks has been carried on along the southern boundary of the province of Quebec and it is now pretty well finished. The posts have been reset and are now in better condition than they ever were before. In each case where the highway crosses the frontier the iron post has been set in a massive base of cement, and along the frontier at about every quarter of a mile smaller granite posts solidly fixed in cement have been set up, and wherever the line passes through woodland the trees and brush for a distance of fifty feet have been cut away. Our boundary line, separating the province from the adjoining states, is now clearly and permanently marked.

Germans In Canada.

Although the emigration to Canada from Great Britain this year has fallen off in numbers, the United States continue to pour an increasing stream of farmers and settlers over the International Boundary. These are attracted by the prospect of virgin soil obtainable at a low cost, and yet with similar climatic conditions to those prevailing in Minnesota and the Dakotas, where all the cheap land has already been taken up. The Canadian Pacific irrigation scheme near Calgary has absorbed many of these immigrants, and the sales of irrigated lands this year have easily eclipsed all previous records. No fewer than 20,000 acres have been sold recently to German farmers from North Dakota, and as this goes into cultivation at once, Canada will have a considerable German colony at the gateway to the Rockies.

Fast Horses In Toronto.

A Toronto man was in Montreal and while standing chatting on a corner, part of the fire brigade passed on its way to a blaze somewhere.

"That's odd!" exclaimed the Toronto man.

"What's odd?" asked the Montrealer.

"Why, in Toronto our firemen always let the horses walk returning from a fire."

"But they're not returning from a fire—they're going to a fire," exclaimed the Montrealer.

"Going to a fire!" The Toronto man gazed incredulously at the speaker. "Why, do you know," he said, "the horses in the Toronto fire brigade go faster than that when they're standing still."

Elizabeth's Position.

By CARL WILLIAMS.

Copyrighted, 1908, by Associated Literary Press.

Elizabeth found the town formidable as she emerged from the station to face the horde of shouting hackmen. At other times she had come to the city with a party or she had been met by the people whose guest she was to be. This time she came alone to face the new life which graduation and a determination to make a career had opened up to her.

In her pocketbook was $50, a card with the home address upon it in case of accident and a clipping from the Moreton Century. These were the shield and buckler in the fight she was to make for success. The money would keep her going until she obtained a position and the clipping would cheer her. It was written in the editor's best style and ran:

> Miss Elizabeth Cady, whose graduation essay on "The Wider Scope of Woman's Sphere" was the sensation of the high school exercises, will leave for the city Monday to become a valued recruit in the great army of commerce. We predict that it will not be long before our accomplished townswoman leaves the ranks to assume an important position of command.

With such an augury for her future Elizabeth could not turn back. Her mother had sent marked copies to all their relatives, and, for her mother's sake as well as her own, Elizabeth felt that she must succeed.

She swallowed the lump that came into her throat and headed for the street car. In other days she had always taken a cab, but now she felt that she could not afford the expense. It was at the time when toilers were returning to their homes and the cars were crowded to the rails, but she bravely climbed aboard and thankfully accepted a strap with the feeling that she was already one of the workers.

The Home For Self Supporting Girls, to which she had been recommended, was vastly different from the accommodations to which she was accustomed. The tiny room with its two iron cots and its duplication of bureaus and rockers sharply marked the line that separated the two girls domiciled together.

There was no homelike air about the place, and the chill atmosphere of the dining room found a responsive chill in her heart. She went to bed early, feeling that she must stifle her sobs to avoid annoying her roommate.

She lay in the narrow bed thinking of the dainty room at home, with its white dimity hangings and its great white bed. If she had listened to Joe Trenton she would be there tonight, dreaming of the time when she and Joe would have a home of their own.

A score of times Joe had proposed, but Elizabeth had made the career of woman her fetich and she would not sacrifice her freedom. Joe's last effort had been ill timed, for he had spoken on the night of her graduation, when the plaudits of the audience still rang in her ears and bits of the essay echoed loud and clear.

"Perhaps—when I have found my career," the girl had promised gently, "but don't you see that to turn back now upon my own principles would be false to myself? Others, looking to me for example, might be tempted to turn back too."

"What if they did?" argued the man. "Do you have to put happiness from you just to practice what you preach?"

"Of course," she cried. "We who would lead must be prepared to sacrifice."

In the elation of the moment she had pictured herself a leader of her sex. She did not hold with the extremists who argued that woman should vote and rule the nation, but she had given herself heart and soul to the theory that a woman had a right to a career, and she was her own most enthusiastic convert.

Now she regretted her stand as she choked back her sobs, but when morning came she was again strong in her resolve. She sallied forth with a list of addresses. Toward evening she returned. The list had proved unfruitful, and the kindly faced woman at the desk offered words of encouragement that fell upon ears too tired to grasp their meaning.

That day was but the first of many. Wearily she trudged from place to place, but the demand was for skilled workers. Some seemed willing to give her a trial if she would serve for varying periods without pay, but this was out of the question. She must have a position by the time her slender resources were exhausted or she must return home and confess failure.

The thought preyed upon her mind, and daily she grew thinner and more worried until the little woman at the desk, whose big, motherly heart was great enough to embrace her whole brood, sighed to see her. With a beaming face she came to Elizabeth's room during the sixth week of her stay and announced a visitor. Elizabeth, thinking that one of the many men who had taken her address had come to announce the reconsideration of his refusal, made herself tidy and with uncertain tread hurried to the parlor, where a half dozen other girls were entertaining callers. With a little gasping cry she stumbled toward Joe Trenton, who sprang forward to greet her.

"I didn't know that you were in town," she cried when the greeting was over and they were sitting in the seclusion of a corner. "Why didn't you let me know that you were coming?"

"No time!" exclaimed the man. "I had a sudden call to town, and I thought that I'd look you up. Let's go over to the park and get some fresh air, and I'll tell you all the gossip that the Century hasn't printed."

Elizabeth hurried for her hat, and presently they were making for the tiny park near the home. Elizabeth had seen it only in passing, for there was no energy left after her day's search for employment. Now the soft grasses reminded her of home, and it was a wistful face that she turned to Joe when they had found a bench.

"Tell me about Morton," she commanded, but Joe shook his head.

"All in its turn. Tell me about yourself first. Got a job?"

"Not yet." Elizabeth was glad that the dark concealed her flaming cheeks. "I think I shall have a position in a day or two, but things are very dull here just at present."

"They're dull everywhere," was the listless comment. "I was looking around a bit today. Don't you think, Bess, that you ought to leave the jobs to the girls who really need them when there are so few?"

Elizabeth was startled. Here seemed to be a chance to get back home without appearing to surrender.

"What do you mean?" she asked tensely.

"There are lots more girls than there are jobs," he explained. "Now, some of them will have to get left if the girls who are clever, but who don't really need to work, get their places.

"You'll be tickled to death to land this position you have in mind, but maybe some girl who might have had it if you had not come will be crying her eyes out because she was not as clever as you and is still hunting a place. You have a father to support you. Maybe the girl who might have had the job has others to support."

Elizabeth's hands clasped so tightly together that her rings bit into the soft flesh. For the last two weeks she had been nerving herself to admit failure, to go back home and confess that the city had beaten her. Joe was offering her retreat with honor. It seemed almost too good to be true.

"Don't you see," argued Trenton, "that you really owe it to others to delay your campaign until the demand exceeds the supply? It's only fair to those who need the work."

"Perhaps you are right," assented Elizabeth, with a show of hesitation. "Of course it is hard to give up one's ambition, but I guess you are right, Joe."

"I know of a job that you could get that would not put any one else out," suggested Joe, as though suddenly inspired.

"What is it?" she asked eagerly.

"Housekeeper—for me," he explained with a chuckle.

Elizabeth drew back for a moment. She did not want to seem to surrender too quickly, and yet—he had shown her the way out. She put her hand in his.

"I'll take the place," she said quietly.

She had gone up the stairs to her room with a promise to meet him at the station in the morning, and Joe turned to the gentle faced woman, who still sat at her desk.

"You're right," he said gratefully. "That argument won out. We're awfully obliged to you for writing—her folks—and me."

"I am very glad that I could help," was the gentle response. "I hope that you two will be very happy."

"I didn't say anything about that!" cried Joe in surprise.

The gentle faced woman only smiled. For ten years she had mothered numberless girls. She did not have to be told that Elizabeth had found her position.

Why He Called.

"You advertised that you had found a pocketbook, I believe?" he asked the man who had come to the door in answer to his ring.

"I did."

"You say it contained a sum of money?"

"Yes."

"A very large sum of money, in fact?"

"Yes."

"And that the owner could have the same by naming the sum found and describing the pocketbook?"

"Yes. Go on."

"That is all I wished to ask."

"But you will have to give a description of the purse you lost before you can put in a claim."

"I lost no purse."

"You didn't?"

"No, sir."

"Then why have you called?"

"Merely to see what a man looks like who will find a very large sum of money and then advertise the fact in the papers instead of hiding it down cellar. Good day, sir."—Judge's Library.

A Critic's Evasion.

It is risky to give one's honest opinion about a man's horse or dog, a house designed by himself or a picture which he values highly. He who gives the opinion stands on a slippery place, and should the judgment be unfavorable he will slide far from the man's esteem.

Fusell, the eccentric artist and professor of the Royal academy, was invited by a nobleman to see a painting of which he was the proud owner. Fusell went, taking a pupil with him. The painting was shown by the nobleman himself. The artist examined it and exclaimed, "Extraordinary!" The nobleman, greatly pleased at the ejaculation, lauded the picture to the skies, pointed out its beauties, and Fusell cried: "Extraordinary! Extraordinary!"

On their way home the pupil said: "Mr. Fusell, I don't think much of that picture. What did you mean by 'extraordinary?'"

"Extraordinarily bad," was the reply of the artist, who had not cared to offend a lord who might become a patron.

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT, 1907, BY McCLURE, PHILLIPS & CO.

"That's it," approved Handy Solo- on. "If we could get"—

"We wouldn't know how to use it," nterrupted Pulz.

"The book"— said Thrackles.

"Well, the book"— asserted Pulz ugnaciously. "How do you know hat it will be? It may be the philos- pher's stone and it may be one of ese other things. And then where'd e be?"

It was astounding to hear this non- ense bandied about so seriously. And et they more than half believed, for ey were deep sea men of the old chool, and this was in print. Thrac- les voiced approximately the general ttitude.

"Philosopher's stone or not, some- ing's up. The old boy took too good re of that box, and he's spending too uch money to be doing it for his alth."

"You know w'at I t'ink?" smiled Per- sa. "He mak' di'mon's. He say t."

The nigger had entered one of his ack, brooding moods from which ese men expected oracles.

"Get him ches'," he muttered. "I see m full—full of di'mon's."

They listened to him with vast re- ect and were visibly impressed. So ep was the sense of awe that Handy olomon unbent enough to whisper to u:

"I don't take any stock in the nig- r's talk ordinarily. He's a fool nig- r. But when his eye looks like that en you want to listen close. He sees ings then. Lots of times he's seen ings. Even last year—the Oyama— told about her three days ahead. at's why we were so ready for her," chuckled.

Nothing more developed for a long ne except a savage fight between lz and Perdosa. I hunted sheep, hed, wandered about, always with escort tired to death before he rted. The thought came to me to this man and so to escape and ke cause with the scientists. My nmon sense forbade me. I begin think that common sense is a very lish faculty indeed.

t taught me the obvious—that all s idle, vaporing talk was common ugh among men of this class, so nmon that it would hardly justify a rder, would hardly explain an un- rranted intrusion on those who em- yed me. How would it look for to go to them with these words in mouth:

"The captain has taken to drinking dull the monotony. The crew think are an alchemist and are making monds. Their interest in this fact ned to me excessive, so I killed of them, and here I am."

And who are you?" they could ask.

"I am a reporter," would be my only truthful reply.

You can see the false difficulties of my position. I do not defend my attitude. Undoubtedly a born leader of men, like Captain Selover at his best, would have known how to act with the proper decision both now and in the inception of the first mutiny. At heart I never doubted the reality of the crisis.

Even Percy Darrow saw the surliness of the men's attitudes and with his usual good sense divined the cause.

"You chaps are getting lazy," said he. "Why don't you do something? Where's the captain?"

They growled something about there being nothing to do and explained that the captain preferred to live aboard.

"Don't blame him," said Darrow, "but he might give us a little of his squeaky company occasionally. Boys, I'll tell you something about seals. The old bull seals have long, stiff whiskers—a foot long. Do you know there's a market for those whiskers? Well, there is. The Chinese mount them in gold and use them for cleaners for their long pipes. Each whisker is worth from six bits to a dollar and a quarter. Why don't you kill a few bull seals for the 'trimmings'?"

"Nothin' to do with a voodoo?" grunted Handy Solomon.

Darrow laughed amusedly. "No, this is the truth," he assured. "I'll tell you what: I'll give you boys six bits apiece for the whisker hairs and four bits for the galls. I expect to sell them at a profit."

Next morning they shook off their lethargy and went seal hunting.

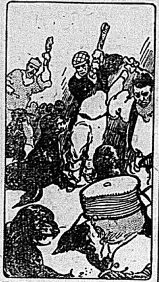
I was practically commanded to attend. This attitude had been growing of late. Now it began to take a definite form.

"Mr. Eagen, don't you want to go hunting?" or "Mr. Eagen, I guess I'll just go along with you to stretch my legs" had given way to, "We're going fishing. You'd better come along."

I had known for a long time that I had lost any real control of them, and that perhaps humiliated me a little. However, my inexperience at handling such men and the anomalous character of my position to some extent consoled me. In the filaments brushed across the face of my understanding I could discover none so strong as to support an overt act on my part. I cannot doubt that had the affair come to a focus I should have warned the scientists even at the risk of my life. In fact, as I shall have occasion to show you, I did my best. But at the moment in all policy I could see my way to little besides acquiescence.

We killed seals by sequestrating the bulls, surrounding them and clubbing them at a certain point of the forehead. It was surprising to see how hard they fought and how quickly they succumbed to a blow properly directed. Then we stripped the mask with its bristle of long whiskers, took the gall and dragged the carcass into the surf, where it was devoured by fish. At first the men, pleased by the novelty, stripped the skins. The blubber, often two or three inches in thickness, had then to be cut away from the pelt, cube by cube. It was a long, an oily and odoriferous job. We stunk mightily of seal oil. Our garments were shiny with it. The very pores of our skins seemed to ooze it. And even after the pelt was fairly well cleared it had still to be tanned. Percy Darrow suggested the method, but the process was long and generally unsatisfactory. With the acquisition of the fifth greasy, heavy and ill smelling piece of fur the men's interest in peltries waned. They confined themselves in all strictness to the "trimmings."

Percy Darrow showed us how to clean the whiskers. The process was evil. The masks were quite simply to be advanced so far in the way of putrefaction that the bristles would part readily from their sockets. The first batch the men hung out on a line. A few moments later we heard a mighty squawking and rushed out to find the island ravens making off with the entire catch. Protection of netting had to be rigged. We caught seals for a month or so. There was novelty in it, and it satisfied the lust for killing. As time went on the bulls grew warier. Then we made expeditions to outlying rocks.



We killed seals by clubbing them on the foreheads.

Later Handy Solomon approached me on another diplomatic errand.

"The seals is getting shy, sir," said he.

"They are," said I.

"The only way to do is to shoot them," said he.

"Quite like," I agreed.

A pause ensued.

"We've got no cartridges," he insinuated.

"And you've taken charge of my rifle," I pointed out.

"Oh, not a bit, sir," he cried. "Thrackles, he just took it to clean it. You can have it whenever you want it, sir."

"I have no cartridges, as you have observed," said I.

"There's plenty aboard," he suggested.

"And they're in very good hands there," said I.

He ruminated a moment, polishing the steel of his hook against the other arm of his shirt. Suddenly he looked up at me with a humorous twinkle.

"You're afraid of us!" he accused.

I was silent, not knowing just how to meet so direct an attack.

"No need to be," he continued.

I said nothing.

He looked at me shrewdly, then stood off on another tack.

"Well, sir, I didn't mean just that. I didn't mean you was really scared of us. But we're gettin' to know each other, livin' here on this old island, brothers-like. There ain't no officers and men ashore—is there, now, sir? When we gets back to the old Laughing Lass, then we drops back into our dooty again all right and proper. You can kiss the book on that. Old Scrubs, he knows that. He don't want no shore in his. He knows enough to stay aboard, where we'd all rather be."

He stopped abruptly, spat and looked at me. I wondered whither this devious diplomacy led us.

"Still, in one way, an officer's an officer, and a seaman's a seaman, thinks you, and discipline must be held up among mates ashore or afloat, thinks you. Quite proper, sir. And I can see you think that the arms is for the afterguard except in case of trouble. Quite proper. You can do the shooting, and you can keep the cartridges always by you. Just for discipline, sir."

The man's boldness in so fully arming me was astonishing, and his carelessness in allowing me aboard with Captain Selover astonished me still more. Nevertheless I promised to go for the desired cartridges, fully resolved to make an appeal.

A further consideration of the elements of the game convinced me, however, of the fellow's shrewdness. It was no more dangerous to allow me a rifle—under direct surveillance—for the purposes of hunting than to leave me my sawed off revolver, which I still retained. The arguments he had used against my shooting Perdosa were quite as cogent now. As to the second point, I, finding the sun unexpectedly strong, returned from the cove for my hat and so overheard the following between Thrackles and his leader:

"What's to keep him from staying aboard?" cried Thrackles, protesting.

"Well, he might," acknowledged Handy Solomon, "and then are we the worse off? You ain't going to make a boat attack against Old Scrubs, are you?"

Thrackles hesitated.

"You can kiss the book on it you ain't," went on Handy Solomon easily. "Nor me nor Pulz nor the greaser nor the nigger nor none of us all together. We've had our dose of that. Well, if he goes aboard and stays where are we the worse off? I asks you that. But he won't. This is w'at's goin' to happen. Says he to Old Scrubs, 'Sir, the men needs you to bash in their heads.' 'Bash 'em in yourself,' says he; 'that's w'at you're for.' And if he should come ashore w'at could he do? I asks you that. We ain't disobeyed no orders dooly delivered. We're ready to pull halliards at the word. No, let him go aboard, and if he peaches to the old man, why, all the better, for it just gets the old man down on him.

"How about Old Scrubs"—

"Don't you believe none in luck?" asked Handy Solomon.

"Aye."

"Well, so do I, with w'at that law crimp used to call joodicious assistance."

I rowed out to the Laughing Lass very thoughtful and a little shaken by the plausible argument. Captain Selover was lying dead drunk across the cabin table. I did my best to waken him, but failed, took a score of cartridges—no more—and departed sadly. Nothing could be gained by staying aboard. Every chance might be lost. Besides, an opening to escape in the direction of the laboratory might offer. I as well as they believed in luck judiciously assisted.

In the ensuing days I learned much of the habits of seals. We sneaked along the cliff tops until over the rookeries; then lay flat on our stomachs and peered cautiously down on our quarry. The seals had become very wary. A slight jar, the fall of a pebble, sometimes even sounds unnoticed by ourselves, were enough to send them into the water. There they lined up just outside the surf, their sleek heads glossy with the wet, their calm, soft eyes fixed unblinkingly on us.

It was useless to shoot them in the water. They sank at once.

When, however, we succeeded in gaining an advantageous position it was necessary to shoot with extreme accuracy. A bullet directly through the back of the head would kill cleanly. A hit anywhere else was practically useless, for even in death the animals seemed to retain enough blind, instinctive vitality to flop them into the water. There they were lost.

Each rookery consisted of one tremendous bull who officiated apparently as the standing army, a number of smaller bulls, his direct descendants; the cows and pups. The big bull held his position by force of arms. Occasionally other unattached bulls would come swimming by. On arriving opposite the rookery the stranger would utter a peculiar challenge. It was never refused by the resident champion, who promptly slid into the sea and engaged battle. If he conquered, the stranger went on his way. If,

(To be continued.)

Stanfield's Underwear

(Chapter 1)

A Talk by the Maker to the Wearer.

The Wool

Stanfield's Underwear is made of the best wool that grows on the best wool-bearing sheep in the world—the long, silky-fibred Nova Scotia wool.

The founder of the Stanfield mills did more than anyone else to develop the wool industry throughout the Maritime Provinces. For half a century, the farmers of New Brunswick, Nova Scotia and Prince Edward Island have saved their best wool for the Stanfields—first for C. E. Stanfield—and now for his sons, John and Frank, the President and Treasurer of Stanfields Limited.

The wear of a garment depends on the quality of wool from which it is made. Underwear may be PURE WOOL, and ALL WOOL—and still shrink, ravel and wear out in a single season. Because the underwear is not made of good wool in the first place.

There are seven grades of wool in the fleece when clipped from Nova Scotia sheep. Only the first three grades of this best wool are used in making Stanfield's Unshrinkable Underwear for men and women.

There are no weak spots in the fibre to break in the garments.

There can be no unraveling, because every stitch is locked.

Garments can't shrink, because of our perfected process of treating the wool BEFORE garments are woven, thus insuring absolutely Unshrinkable Underwear.

Stanfield's Underwear is right from start to finish. It is planned right, made right and wears right.

In all sizes from 22 to 70 inch chest measure. In three winter weights—RED label for light weight—BLUE label for medium weight—BLACK label for heavy weight.

Your dealer probably has all sizes and weights in stock. If not, he can easily get whatever you wish.

STANFIELDS LIMITED - TRURO, N.S.

Knowledge is Power

KNOWLEDGE is not confined to "book learning." In this busy world of ours, education is but the preparation for the higher school of life.

The knowledge acquired by the makers of "Progress Brand" Clothing has made their names a power in the mercantile world.

Their knowledge of values, of style and tailoring, has made the "Progress Brand" trademark a power for high quality.

The knowledge of what and where to buy thus becomes a power in economy that may be translated into dollars and cents.

"Progress Brand" Garments

The knowledge of "Progress Brand" gives every man the power to buy stylish, perfect fitting, excellently made clothes, at the very lowest prices.

The only knowledge that must be acquired is, what dealer handles "Progress Brand." Know this, and you have the power to get the best values in Clothesdom. Best dealers in Canada handle "Progress Brand" Clothing. They know that they can guarantee it to their customers because the makers guarantee it to them. Knowledge is power. Turn your knowledge of clothing to good account by buying "Progress Brand" Clothing.

VALUABLE REEDS FOUND.

Miss Agnes Laut, the Novelist, Discovers Oriental Matting Material.

Miss Agnes Laut claims she has discovered in the Saskatchewan river the reed which is used by the Chinese and Japanese in making matting. No reed outside of the Orient has been found with the same fibre. Miss Laut says:

"The scientists of the United States Government have been for many years engaged in a search for the reed from which matting is made in China and Japan. An attempt has been made to cultivate it on swamp lands in the States, but so far all these attempts to cultivate the plant in the United States have failed.

"The imports of matting into the United States from China at present amount to about twenty million dollars per year.

"This reed is known to scientists as 'phragmites communist,' and I saw a field of it which was seventy miles long in the vicinity of Lake Winnipeg. The plant grows to a great height, and is known to the Indians as 'the reed which grows like a tree.' Hudson Bay people call it 'muskrat reed,' from the fact that the rats feed on its roots.

"It is the exact reed which is used so largely in China and Japan for the production of matting. It would seem that in this reed we have in Western Canada material for a new and important industry. If the Government of Canada should do what the United States is doing in the matter, it would at once investigate the extent of the territory on which the reed is to be found and send scientists to China and Japan to investigate the methods of gathering in the raw material and the manufacture of the matting."

OLD ESSEX FAMILIES.

The Wigle Family Is First In County With Scratch a Close Second.

In the riding of South Essex, Ont., a citizen named Darius Wigle is the Conservative candidate for the Federal seat. Recently Mr. Wigle gave reasons for the political faith that is in him, and incidentally mentioned that he possesses a farm of 650 acres. It would be strange, indeed, if a Wigle were not the owner of many Essex acres, for that country of peaches and tomatoes once virtually belonged to the Wigle connection. Next to the Wigle family comes that of Scratch, and an alliance of a Scratch and a Wigle—rather an odd conjunction of names—meant that the whole country came to the wedding. It is related that a minister who was departing from an Essex parsonage wrote to his successor in these terms:

"You will find an interesting field here and I hope you will be greatly blessed. Old Scratch called this morning and said he would be happy to entertain your family until the parsonage is ready." The "new" man was somewhat scandalized until he discovered that the character so referred to was the richest member in the congregation, with such vineyards as are hardly seen in Ontario, outside of Essex and Lincoln.

Prof. McLean's Career.

Simon James McLean, whom the Dominion Government has appointed a railway commissioner, is still a young man, but has had a very brilliant and creditable career.

He is about 38 years old, and was born near Ottawa, and received his early education in the Ottawa schools and Collegiate. He graduated from Toronto University in 1894 in political science, and took his LL.B. in 1895. He then went to Columbia University and received his M.A., and from there went to Chicago University where he took the degree of Ph.D.

He was appointed an associate professor in the University of Arkansas, and from there went to Leland Stanford University, of which he was acting head of a department for a time.

Lastly he came back to Toronto University, and for three years has been associate professor of political science there. Prof. McLean was well liked by the students, and was especially well up in his work. For such a young man he has done a great amount of research work, and has written much for various journals on railway and transportation problems as well as on banking and finance.

Rejects Undesirables.

Thomas Robinson, the recently-appointed immigration officer at Windsor, has started in to conduct an aggressive campaign against the cheap alien labor which for some time has been flooding the western part of Ontario. He turned back a batch of 25 Poles who crossed over recently with dinner baskets, hoping to get work at the Windsor end of the tunnel. No attempt is being made to conduct retaliatory tactics as against the United States' head tax, which continues to be imposed upon Canadians going into the United States for the first time, but a strong effort will be made to keep out the objectionable class of foreigners which for some time past has been invading the country in ever-increasing numbers at border points.

Meets Five Bears.

Roy Coon, of Apsley, came across five bears in a field of marsh hay near his home a few days ago, and, having taken his gun with him, shot two of them. The other three disappeared in the woods near at hand, one of them carrying in his hide a shot that had failed to reach his vitals. Coon had with him only a few cartridges, as he did not expect to meet any game. The bears he killed were the mother and a well-grown cub.

All Married Polks.

Mrs. Henry Polk, for seventy-six years a resident of New Boyne, Leeds county, died a few days ago. A peculiar circumstance is the fact that her daughters are all united in marriage to men of the same name, and yet are not related. They are: Mrs. W. J. Polk, Lombardy; Mrs. Samuel Polk, Port Elmsly, and Mrs. J. H. Polk, Burgess. The deceased was a sister of Mr. R. L. Joynt, ex-M.P.P., North Augusta.

For your comfort's sake try a pair.

W. H. Adams. The Shoeman.

South Hastings Teachers Met Here.

The South Hastings teachers met in Alberta hall, this city, yesterday afternoon, and reorganized the South Hastings Teachers' Association, with the following officers:

President—H. J. Clarke, B.A., Inspector.

Vice-Pres.—Miss A. B. Jones, Deseronto.

Sec.-Treas.—Lester Ross, Foxboro.

Executive—Miss A. McGinniss, Miss A. E. Ross, Miss E. L. Rush, Messrs. W. H. Nobes and A. Kiernan.

About 100 teachers were in attendance.

The calling of the roll showed that very few of the S. H. teachers were absent. This being the first meeting of the Association since Mr. Clarke's appointment to the inspectorship, and owing to the fact that there was no convention at all for South Hastings last fall, the election of officers was one of the first items of to-day's programme. Mr. Blake, of Tweed, was elected temporary secretary.

The former secretary's report was read and Messrs. Morton and Thrasher were appointed auditors of the books.

The subject of the first address was "Wordsworth as a Guide to Nature Study," given by J. C. Clark, principal of Deseronto P. S.

A short but pithy paper by Miss McGinness opened the discussion of "Homework," and thereafter ensued a warm general discussion of the subject.

Mr. Thrasher, W. H. Nobes, J. C. Clark, Mr. Morton, H. J. Clarke and Mr. Fairman were the chief speakers. The general opinion was that little homework should be given, the main idea being that, that little should be well done. Mr. Clarke, P.S.I., stood for the "no homework" plan. The adult, after his day's labor, had his evening for recreation; why should not the child also?

Mr. H. J. Clarke then gave an address on "The Nature Study Course." The speaker's thorough knowledge of his subject was evident in every sentence. Mr. Clarke first outlined and explained the various so-called methods of teaching nature study. They were:

1. The sugar-coated method.
2. Information method.
3. Observation method.
4. Scientific method.
5. The "No" method.

The method, the "practical method," was then explained. The departmental course of study outlines this work, but Mr. Clarke expanded this dry outline and threw in numerous bits of information, which added largely to the interest of the subject.

This address closed the afternoon's session.

Walking Match at Arena Last Night.

There was a fair attendance of spectators at the Arena last evening to witness two sporting events, namely, a 200-yard hurdle race and a three-mile walking match. They were under the auspices of the Harriers' Club of the Y.M.C.A.

HURDLE RACE.

This was the first event and there were nine entries. The run was 200 yards and two hurdles had to be surmounted. At the start Leo Barrett took the lead and maintained it to the finish, Murray Patterson being second. Mr. E. Wallace was referee.

WALKING MATCH.

There were nine entries for this event, the large majority of the contestants being Englishmen. The walk was three miles. At the conclusion but four of the competitors were left on the track. Mr. Gifford, a member of the Tabernacle Athletic Club, was first, securing the gold medal, which was the only prize to be competed for. Mr. J. Hickey was the referee and he certainly had his hands full watching the contestants, some of whom, it was claimed, were not walking, but trotting.

A protest has been entered against the winner, Mr. Gifford, it being alleged that he did not walk fairly; the incompetency of the referee is also alleged. Following were the entries:

Percy Gifford.
E. Wallace.
J. Chapman.
C. W. Gibbons.
T. Aman.
R. McCreary.
A. Delong.
J. Russell.
M. Callaghan..

The I.O.O.F. band was present and discoursed a programme of music.

Bigamy Trial Before Judge Deroche.

James Hawley and Mrs. Pearl Lott, of Bancroft, were this afternoon charged, before Judge Deroche, with bigamy, and Hawley was also charged with having committed perjury in connection with procuring the marriage license. The parties were married some time ago, and at the same time, it is alleged, Mrs. Lott's husband was living in Canada and Hawley was aware of that fact. Mr. Anderson represented the Crown and Mr. Abbott, of Trenton, appeared for the accused.

Owing to the absence of Counsel for hearing.

larged, no definite date being fixed for the accused, the case was en-

The accused pleaded not guilty to the charges preferred,

Indian Broke His Neck While Loaded Up With Firewater.

At Deseronto yesterday, before Coroner Passmore, an inquest was held to enquire into the death of Thomas A. Brant, a member of the Mohawk tribe. From the evidence adduced it appears that on September 25th the deceased, whilst under the influence of liquor, was driving along the road near Deseronto, when he fell out of his wagon and sustained injuries of such a nature as to completely paralyze the lower portion of his body. On Monday last he died.

Although considerable evidence was taken, no one appeared to have seen the accident, and no one seemed to know where the deceased obtained the fire water.

Drs. Newton and Vandervoort, who performed the post-mortem, detailed the cause of death, namely, a fracture of the spine and a partial dislocation of the neck.

The verdict was that the deceased came to his death accidentally, whilst under the influence of liquor.

Mr. P. J. M. Anderson, County Attorney, represented the Crown, and Mr. Grange, of Napanee, was present as representing the Indian Department.

Favorably Impressed.

Ald. Bradburn, Gillespie and Johnson, three members of Peterboro City Council, were in this city yesterday afternoon, and, in company with Mayor McFee, and Mr. A. McGie, inspected the new Isolation hospital. They are contemplating the erection of such a building in Peterboro and the gentlemen in question were here to obtain information regarding the building. They were favorably impressed with our hospital.

Died in Michigan.

The death occurred at Ithaca, Mich., on Monday last, Oct. 12, of Mrs. Clayton Goodsell, formerly Miss Pearl Bennett, a former resident of this city, who was well and favorably known here, where many of her relatives live. The cause of death was typhoid fever. Miss Bennett, before she left here, was employed by Wallbridge & Clarke, and was a valued member of Holloway Street Church choir.

Farmer's Heavy Loss.

Napanee, Ont., Oct. 15. — Barn, drive-house and contents and seventy pigs and hogs belonging to A. W. Caton, a farmer, living on the Newburg Road, two miles northeast of here, were burned about eight o'clock last night. The cause is unknown. The loss is covered by insurance.

Don't place too much confidence in a man who boasts of being as honest as the day is long; wait until you beat him at night.

W. P. HUDSON, Office No 15 Campbell street, Dolan Block, Belleville. 'Phone 168.

The size of bed sheets used in hotels is regulated by law in Oklahoma.

HOUSEHOLD NOTES.

Handkerchief corners will meet more exactly if the handkerchiefs are folded with the first crease on a line with the width wide threads of the linen.

If when boiling ham you add for each gallon of water a teacup of vinegar and six or eight cloves the flavor will be much improved. Always let a ham cool in the water in which it is boiled, and it will keep deliciously moist and nice.

Nickel plating may be cleaned with water and whiting or with water and alcohol as easily as silver. Where there is a large amount of nickel to be cleaned gasoline will do the work well and quickly. But of course extra precautions must be taken.

Indelible ink stains may be removed by wetting the stains with a fresh solution of chloride of lime. In a quarter of an hour dip the part in strong ammonia and presently wash out. The stains can also be dipped in hyposulphate of soda instead of ammonia.

Saving Work.

In the home of one woman where single beds are in general use the spreads are made of honeycomb material bought by the yard and hemmed. They are easy to wash and require no ironing. In the same home cream white madras is used for bedroom window draperies because of its good wearing qualities. It comes out of the wash with flying colors. She trims them with ball fringe and does not have them wrung very dry and wrung by hand, of course, as the wringer would flatten the little balls. She uses small rugs all through her house save the dining room, because they can be taken outdoors every week by the one maid of the establishment. Another woman saves work by having her luncheon brought to her sitting room on a tray, and another, belonging to a family that seems doomed to perpetual mourning attire, supplies her maid with very light cotton dresses in white and black because there is already too much gloom in the house.

A Photography Hint.

With a fixed focus camera the endeavor should be to get the principal objects in a good light and at such a distance from the camera that they will be nicely rendered without the necessity of stopping down the lens. The distance will take care of itself, and the foreground, too, unless there be any very prominent feature in it, when the picture is likely to suffer by unsightly diffusion or a want of sharpness.

With ordinary good fortune as regards weather and subjects, the amateur photographer who proceeds with intelligence can bring back a collection of excellent pictures, even though she has never used a camera before, and the pleasure to be derived by looking from time to time to these reminiscences of some weeks at a delightful country or seaside resort will be such that she will not readily go away in the future without an instrument which so readily records the chief incidents of a holiday.

ONLY THING THAT HELPED HIS KIDNEYS

British Columbia Likes Gin Pills.

Chilliwack, B.C.

I divide the year about equally working on this ranch and on various logging claims, being consequently entirely dependent on bodily fitness for a living. At times I have suffered like many others in this country from backache and weak Kidneys, sometimes to the extent of being laid up for weeks together. Having tried many remedies I have pleasure in stating that your Gin Pills are the only one from which I have derived any permanent benefit. I had been using them only a short time when the trouble left me, and has not returned since. J. EDWARD JAMES.

Try them at our expense. Write for sample box, free if you mention this paper, then, when you see that Gin Pills are helping you, you can get them at your dealer or from us direct, 50c. a box—6 for $2.50.

Dept. B., National Drug & Chemical Co., Limited, Toronto. 118

WHAT McINTOSH BROS. SAY.

An Eminent New York Chemist says that disease is carried on soiled bills, and that nearly all money is Germ-Laden. One of the best things to do with money, clean or soiled, is to bring it to this store and get nice new clean merchandise for it. Our clerks have all been made germ-proof and you will run no risk of spreading disease by handing them your money.

Liverpool Grain and Produce.

LIVERPOOL, Oct. 15.—Closing.—Wheat—Spot, steady; No. 2 red western winter, 7s 8½d; futures, quiet; Dec., 7s 7⅝d; March, 7s 4⅝d; May, 7s 4⅛d.

Corn—Spot, steady; American mixed, 7s 3½d; futures, dull; Dec., 5s 8d; Oct., 5s 9½d.

Turpentine spirits—Quiet, 29s.

Hams—Short cut, 14 to 16 lbs., dull, 52s 6d.

Lard—Prime western, in tierces, steady, 48s 9d; American refined in pails, dull, 51s.

New York Dairy Market.

NEW YORK, Oct. 15.—Butter—Easier; receipts, 3776; creamery specials, 28c; extras, 27c to 27½c; held special, 26½c to 27c; state dairy, common to finest, 18c to 25c.

Cheese—Quiet; unchanged; receipts, 2917.

Eggs—Firm; unchanged; receipts, 8615.

CATTLE MARKETS.

Cables Steady—Hogs Are Down 5c to 10c at Buffalo.

LONDON, Oct. 15.—London cables for cattle are steady, at 11½c to 12⅝c per pound, dressed weight; refrigerator beef is quoted at 9½c to 10c per pound.

Toronto Live Stock.

TORONTO, Oct. 15.—Receipts of live stock at the City Market for Wednesday and Thursday, as reported by the railways, were 199 carloads, composed of 3346 cattle, 3626 hogs, 3975 sheep and lambs and 103 calves.

Exporters.

A few odd lots of heavy butchers' cattle were bought for exporters at prices ranging from $4.50 to $5, and, in one instance, $5.25 per cwt. was paid for five or six choice cattle. Bulls were sold from $3.50 to $4 per cwt.

Butchers.

Choice picked lots of finished butchers' are scarce, and prices for them are higher. Out of 3346 cattle on the market, there would not be more than a couple of loads all told that could be classed as choice picked cattle; in fact, we did not see enough to make up one load, but there might have been more. Prices for picked cattle are firm at $4.75 to $5, and one lot of five or six choice heifers was reported sold at $5.25; good butchers' were reported at $4.30 to $4.60; medium, $3.40 to $3.90; common, $3 to $3.30; cows, $2.50 to $4; canners, $1 to $2 per cwt.

Feeders and Stockers.

H. & W. Murby report a draggy market, caused principally by the poor quality of cattle. All of good quality found ready takers, but common class stuff was hard to cash at a reduction of from 20c to 40c per cwt. in price from last week. The Messrs. Murby handled about 300 cattle this week at following prices: Good quality steers, 950 to 1050 lbs., $3.25 to $3.60; feeders, 800 to 900 lbs., $3 to $3.25; good stockers, $2.50 to $2.80; common stockers, $2.

Milkers and Springers.

Receipts of milkers and springers were large, but the quality was not in keeping with what has been on sale for several markets. Prices ranged from $28 to $65 each, and the average price for good to choice cows would be about $50 each.

Veal Calves.

Good veal calves are scarce. Prices were firm at $3 to $7 per cwt., but there were few at the latter figure.

Sheep and Lambs.

Receipts were the largest of the season, nearly 4000. Prices took a tumble, and drovers had much difficulty in making sales at what the lambs cost in the country. Many drovers complained of having lost money on their shipments. So great was the run of sheep and lambs that every pen was filled and many cattle yards as well. Export ewes sold at $3.25 to $3.60; rams, $2.25 to $2.50; lambs, $4 to $4.50 per cwt.

Hogs.

Receipts of hogs were large, 3626 arriving on the market from all sources. Mr. Harris reported prices unchanged at $6.25 for selects fed and watered and $6 for lights. Drovers report $6.15 and as high as $6.20 being paid in the country at several points, but $6.15 seemed to be the general price f.o.b. cars at country points.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 15.—Cattle—Receipts, 150 head; steady; prime steers, $5.75 to $6.25.

Veals—Receipts, 500 head; active and steady.

Hogs—Receipts, 6000 head; fairly active and 5c to 10c lower; heavy, $5.90 to $6.05; mixed, $5.75 to $6; yorkers, $5 to $5.90; pigs, $4 to $4.80; stags, $4 to $4.25; dairies and grassers, $5 to $5.75.

Sheep and lambs—Receipts, 4400 head; steady; lambs active; sheep mixed, $1.50 to $4.

New York Live Stock.

NEW YORK, Oct. 15.—Beeves—Receipts, 1000; feeling unchanged; dressed beef in fair demand at 7½c to 10½c per lb. for native sides; Texas beef at 6s 7½c. Exports to-day, 20 cattle, 80 sheep and 2530 quarters of beef.

Calves—Receipts, 116; veals, steady; western calves in poor demand and weak; common to good veals, $5 to $8.75 per cwt.

Sheep and lambs—Receipts, 3483; sheep, firm; lambs, 15c to 25c higher; sheep, $3 to $4.25; lambs, $5 to $6.50.

Hogs—Receipts, 3044; feeling barely steady.

Chicago Live Stock.

CHICAGO, Oct. 15.—Cattle—Receipts, 6500; market steady to strong; steers, $4.40 to $7.75; cows, $3.25 to $5.25; heifers, $3 to $4.25; bulls, $2.50 to $4.10; calves, $3.50; stockers and feeders, $2.60 to $4.65.

Hogs—Receipts, 13,000; market 5c to 10c higher; choice heavy shipping, $6 to $5.15; butchers', $6 to $6.15; light mixed, $5.40 to $5.55; choice light, $5.60 to $5.80; packers, $5.25 to $5.85; pigs, $3.50 to $5.15; bulk of sales, $5.60 to $6.

Sheep and lambs—Receipts, 14,000; market steady; sheep, $4.25 to $4.83; lambs, $4.75 to $6; yearlings, $3.85 to $5.

Barbadoes-Canada Trade.

Washington, D.C., Oct. 16.—The preferential tariff adopted by the Legislative Council of Barbadoes providing for reduced rates on certain Canadian products on the condition that Canada reduce her duties on sugar below the present rates, probably will not become operative because of the failure of the British and Canadian Governments to agree to the arrangement, according to Consul Martin.

SERBS ARE STILL HOT

Servia and Montenegro Exchange Jingo Messages.

Montenegran National Assembly Thinks Time Is Ripe For War—Six Austrian Warships Anchor Off Spizzo — Bulgaria Will Not Be Bought Off—Program For Conference Is Arranged.

Belgrade, Servia, Oct. 16.—The Servian National Assembly yesterday received from the National Assembly of Montenegro an enthusiastic reply to its message of greeting a few days ago. It was signed by M. Goynica, president of the assembly, and concluded as follows:

"We believe that the time is ripe for Servia and Montenegro to raise a common standard in defence of the sacred ideals of the Serbs. Let us wage war together, shoulder to shoulder, for it will be a holy war."

London, Oct. 16.—Great Britain, Russia and France have reached an agreement on a program to be submitted to the other powers as a basis for discussion by the proposed European conference to settle the Balkan situation. The proposals to be laid before the powers are eight in number.

Every desire to arrive at an understanding, but safeguarding at the same time the interests of Turkey, has been shown. In the first place Russia wanted the right to send warships through the straits in time of peace, that is to say when Turkey was not at war—under special conditions and special restrictions. In reply Great Britain asked that the same right be accorded all nations. To this Russia demurred, arguing that foreign warships could only desire to enter the Black Sea for belligerent purposes. Ultimately an agreement apparently was reached by which the rights of ingress and egress granted Russian warships shall be accorded on the same conditions to the ships of any other power not at war with Russia.

Paris, Oct. 16.—A special despatch from Sofia to Le Matin quotes the Premier as saying that Bulgaria would refuse to make pecuniary compensation in return for recognition of her independence.

"We have not proclaimed Bulgaria's independence," said the Premier, "in order to ransom her for a sum of money. If we must ransom Bulgaria again, we prefer that it be without blood."

Cettinje, Montenegro, Oct. 16.—Six Austrian warships anchored yesterday off Spizza, in Dalmatia, a crown land of Austria-Hungary. They are not more than ten miles from Antivari, the sole port of Montenegro.

Belgrade, Servia, Oct. 16.—The newspaper Devni List publishes what purports to be the text of a secret treaty between Bulgaria and Austria.

There are three clauses in this treaty. In the first Austria authorizes Prince Ferdinand to declare the independence of Bulgaria and promises to maintain the Coburg dynasty in Bulgaria. The second provides that if complications arise through the announcement of the annexation of Bosnia and Herzegovina, Prince Ferdinand will take the part of Austria. The third sets forth that the Austrians and Bulgarian Governments will work in common accord in the affairs of the Balkan peninsula.

Missing Balloon Found.

Berlin, Oct. 16.—The German balloon Busley came down Tuesday morning at 5 o'clock in the North Sea. The two men on board were rescued by a passing steamer.

Although no award has been made officially, the English balloon Banshee, which came down on the coast of Denmark, is regarded as the winner of the international cup contest. The French balloon Condor is second and the Belgian third. As it is not practical to hold long flights in the British Isles, the Banshee may give over the first place to some other country.

Shoots Two Men.

Winnipeg, Oct. 16.—Incensed at being robbed in a foreign boarding-house in the north end, from which he alleges he was thrown out with considerable violence, John Omucki expended $15 for a revolver, and returning, shot Igenaki Jamimowski, believed to be the proprietor, in the right side, and Karol Dunytruka in the forearm. Jamimowski is in a precarious condition.

Explosion Kills Seven.

Fort Collins, Col., Oct. 16.—Seven men were killed and 23 injured, some fatally, as the result of a premature explosion at the Ingleside lime quarry, 18 miles from here, yesterday afternoon.

The blast went off in the face of 40 men. Many of them were hurled 200 feet. The explosion was heard for miles.

Verville Has Opponent.

Montreal, Oct. 16.—Although the Labor candidate in Maisonneuve, A. Verville, has got rid of both his Conservative and Liberal opponents, Fred Villeneuve, ex-M.P.P. in the Northwest Assembly, opened his campaign last evening and he states that he has 2,000 names to his requisition papers.

Rates Will Come Down.

Winnipeg, Oct. 16.—The underwriters have notified the City Council that there will be a substantial reduction in insurance rates if the high pressure system, which is to be inspected shortly, is found efficient.

Had we not faults of our own we should take less pleasure in complaining of others.—Fenelon.

LAURIER AT ST. CLET.

Premier Speaks to Electors of Vaudreuil and Soulanges.

Montreal, Oct. 16.—Over 3,000 electors of the two counties of Soulanges and Vaudreuil were present at the meeting which was held at St. Clet yesterday afternoon in the honor of Sir Wilfrid Laurier. So soon as the special train arrived from Montreal at 2 o'clock and Sir Wilfrid made his appearance he was the object of a demonstration on the part of the large crowd which assembled to accompany the Prime Minister to the meeting place. A military band led the procession and played national airs. Near the Central Hotel some enthusiastic young men unharnessed the horses of Sir Wilfrid Laurier's carriage and took their places. The meeting was held in front of the parish church. The streets of St. Clet were well decorated with flags, banners and inscriptions.

Addresses were delivered by Mr. Bourbonnais and Mr. Gustave Boyer, candidate for Vaudreuil.

QUEEN'S TO WITHDRAW.

Trustees Recommend That Presbyterians Give Up University.

Kingston, Oct. 16.—Queen's University trustees decided to recommend to the Presbyterian general assembly that it was better to release the university from its denominational ties. Besides recommending the senate memorial for consideration, the trustees passed the following resolution by a vote of 16 to 3:

"The trustees beg to express their opinion that the altered conditions with which the university has had to deal in these latter times call for the removal of the denominational disabilities in the charter of the university."

The trustees relieved Principal Gordon of professional duties so that he might give his whole attention to his work as head of the university.

WRIT FOR M.P.

British Social Democrat Member Incited Unemployed to Riot.

London, Oct. 16.—The recent demonstration by the unemployed in Great Britain brought about one result yesterday rather out of the ordinary; this was the issuing of a writ against William J. Thorne, Social Democratic member of Parliament from the southern division of West Ham, for inciting to a breach of the peace by making a speech in which he advised the unemployed to "rush" the baker shops rather than starve.

A body of the unemployed is marching from Nottingham to London. Serious riots was avoided in Sheffield on Wednesday only when the mayor announced that the sum of $500,000 would be devoted to relief work.

Jury to Be Locked Up.

New York, Oct. 16.—The first day of the trial of Chas. W. Morse, the banker and promoter who came to grief in the financial panic of last year, and Alfred H. Curtis, former president of the National Bank of North America, which began yesterday before Judge Hough and a federal jury, developed a surprise, when it was brought out that the jury will be locked up each night, and will also be closely watched during the trial by secret service men. Witnesses will also be shadowed. The defence lawyers objected strongly.

Katherine Wilson, Morse's secretary, it was brought out, had full power of attorney to handle his accounts.

Two Guilty.

Sault Ste. Marie, Ont., Oct. 16.—The Seighiano murder trial ended yesterday afternoon when the jury brought in a verdict of manslaughter against the prisoner, Achilo Seighiano. Justice Latchford postponed sentence until later.

Yesterday afternoon Tony Mackie, a Finn from Michipicoten, was tried on a murder charge in connection with the death of Isaac Saari, at Grace Mine, last summer, and the jury returned a verdict of manslaughter. The judge deferred sentence until to-day.

Old Man's Gruesome Find.

St. Catharines, Oct. 16.—An old man named Murray walked into the police station yesterday morning and deposited a basket containing a woman's full arm. Murray asked that the basket be guarded while he endeavored to sell an old rifle which he had in his possession.

Murray is slightly demented. He says he found the arm in the mountain, near St. Davids.

Unwritten Law Fails.

Independence, Kas., Oct. 16.—A jury in the case of Henry Behner, charged with the killing of Tobias Sawyer, whom he suspected of ruining his daughter, returned a verdict here yesterday of guilty of murder in the first degree.

This carries with it a life sentence. The girl, who was 16 years old, had worked as a servant in Sawyer's home.

Dry In Ottawa Valley.

Ottawa, Oct. 16.—Farmers in the Ottawa Valley district are being put in great straits owing to lack of water. In the lower Ottawa Valley, practically all the wells have dried up, and the farmers are taking turns in drawing water from the river.

During September practically no rain fell, and there has been only one wet day in October.

Drops Dead at Meeting.

Ottawa, Oct. 16.—One of C. R. Devlin's meetings in Hull terminated suddenly Wednesday night. Charles Morion, a well-known Liberal, who was clapping his hands, fell forward dead. Heart disease owing to excitement was the cause.

Belgium Police Raid Gamesters.

Spa, Belgium, Oct. 16.—In accordance with the Government's anti-gambling campaign, the police raided the International Club, where many people were engaged in playing roulette and baccarat, and seized the stakes.

OLD OBSCENE CARDS

even Men Are Arrested For Selling Nasty Postals.

housands Are Circulating Throughout the Province and Central Depots Are Found In Toronto—Half Dozen Appear In Police Court—Barrie Man Wanted a Thousand—Supplies Secured In Buffalo.

Toronto, Oct. 17.—That thousands obscene picture cards are being rculated in Toronto, and from the y through the province, has im- essed itself upon the public. As a sult a "raid" was made yesterday, hich landed five men behind the rs. Two of the men are said to wholesale distributors of the nasty ctorial cards and of similar litera- re, and three have been retailing e goods.

That there is a lively demand for e stuff is evident in the order found om a Barrie dealer for a thousand tter (or worse) than a previous ship- ent, and which was marked filled. e Barrie police were notified and e dealer's stock seized last evening, hile he will be summoned before the gistrate.

The arrests are additional to the pearance in court yesterday morn- g on summonses of half a dozen alers who appeared in the Police urt yesterday morning. Staff In- ector Stephen of the Morality De- rtment was the prosecutor.

Athol George Robertson was arrest- by Detectives Tipton and Twigg 15 Wilton avenue. A decoy letter aring a special delivery stamp was ken to him by a postman. It was dressed to the Rock Co. Robertson ned for it as manager. He was then rested, admitting that he had also box at the postoffice under the me of the Ontario News Co.

He admitted having sold a number the postcards, several thousand of ich were found on the premises. ese were seized by the police and nged all the way from a mild ra- ess to filth.

The second man, who has been sup- ying the retail trade with these bits art and song, is William Renwick, o was taken by Detectives Verney d Wallace at room 15, 256 College eet, last night. There 6,000 cards the same vintage as those previous- collected were seized. Renwick, , admitted having secured his sup- from Buffalo.

Louis Benson was got at his cigar re, 215 Chuch street. Samuel ermbohm was arrested at 178 West ng street, and Fred Maddock at 151 unswick avenue.

Those who appeared in the Police urt yesterday in answer to sum- nses were A. R. Wicket, 99 Church eet; Henry C. Rymal, 370 Yonge eet; A. L. Merrill, 304 1-2 Yonge eet; Alb. Prouse, 304 1-2 Yonge eet; P. B. Brown, 54 Yonge street; ary Goldenthal, 627 West Queen eet.

All save Brown, who pleaded guilty, e remanded till the 23rd without a or election. Brown will then e up for sentence, he having plead- guilty.

Robertson was also arraigned in the ice Court and remanded a week.

The penalty ranges up to two years' prisonment, with heavy fines.

Cody's Aeroplane Collapses.

dershot, Eng., Oct. 17.—Capt. S. Cody, the American aeroplanist, o has spent several years in the ish service in charge of the kite ion of the army, made an attempt erday at a flight in his army aero- ne.

After reaching a height of thirty the machine fell to the ground was wrecked. Capt. Cody escaped urt.

ASSAILED BY TRAMP.

Farmer's Wife Choked and Beaten by Man Who Wanted Food.

Brockville, Oct. 17.—Choked and beaten was the experience early yesterday morning of Mrs. William Charlton, the wife of a farmer living three miles from Brockville. Her assailant was a tramp, who had applied for breakfast. She had consented to give it to him, bringing the stranger into the kitchen. Seeing her alone, he demanded money, saying: "I can get my breakfast whenever I like."

Mrs. Charlton screamed and ran to the door in an effort to call the male members of the family, who were in a barn some distance from the house.

The stranger grabbed her by the throat, but she broke away. She did not get the door open, however, before the tramp struck her on the shoulder, knocking her down to the floor unconscious. She remembered nothing for half an hour, and, upon reviving, summoned her husband and others, but the tramp had decamped and no trace of him has been found since. He made a hasty search of the house, as $1.06, which had been placed on a shelf in the kitchen, is missing.

LEADER AT GRANBY.

Mr. Borden Addresses Enthusiastic Gathering In Park.

Granby, Que., Oct. 17.—R. L. Borden was given a welcome here yesterday which fully rivalled that given Laurier on Monday. Farmers from all over Shefford County drove in to hear the leader and the little town was ablaze wiith bunting. Mr. Borden was accompanied by Col. Hugh Clark of North Bruce. Two thousand people gathered in the park, where the meeting was held and enthusiasm was great.

Borden dealt with increased expenditures. "Where has this money gone?" he asked. "You cannot find the record in great public works such as the Conservatives made with their smaller revenue. To find where it has gone you must ask camp-followers and middlemen, men who a few years ago were paupers and to-day are wealthy with the results of their dealings with the Government."

Butcher Hangs Himself.

Whitby, Oct. 17.—A butcher of the town, S. W. Cawker, yielded to a fit of despondency and hanged himself to the bannister in his residence Thursday night in the absence of other members of his family.

He had been drinking heavily.

The family were vacating the house to go west. The daughter reached home yesterday morning. Before opening the front door the horrible sight of their father hanging from the bannister met their gaze.

Deceased was probably 50 years of age and leaves a wife and two daughters aged 17 and 19.

Dominion Controls Fishing.

Vancouver, B.C., Oct. 17.—Judge Howey at New Westminster yesterday quashed the conviction against John Kendall, fisherman, who was hauled before the court several weeks ago on charges of contravention of the new provincial fishery laws.

Judge Howey declared that it was clearly shown that provincial authorities had no right whatever to attempt control of the waters of the Fraser river, the Privy Council have established the Dominion's control to inland waters.

This decision is flatly against a great deal of the fishery regulations passed at the last session of the Legislature.

Husband Aged 88, Wife 23.

Windsor, Oct. 17.—Ainsley Scott, 88 years of age, was brought from Grand Haven, Mich., to Detroit to serve a sentence of three months, in default of a fine of $60, for practicing medicine without a license. He was followed by his wife, who is only 23 years of age. She declares she will try to obtain money enough to pay the fine. The young wife states that her octogenarian husband is an actor, but has been in hard luck, and their trunks are now being held for an unpaid board bill in Stratford, Ont.

Catholics and Universities.

Rome, Oct. 17.—It is denied in Catholic circles here that the Pope has forbidden the Catholics of France to attend the state universities. His Holiness recommended that they do not attempt with a view to encouraging the faculties of Catholic institutions by the preference given them over state institutions.

Extend Coasting Area.

Ottawa, Oct. 17.—A proclamation has been issued bringing into force the act to amend the Canada Shipping Act, passed at the last session of Parliament. The act extends the area of the coasting trade on both the Atlantic and Pacific coast, and modifies the regulations in respect to the sailing of vessels of small tonnage.

He Pleads Self-Defence.

Slayer of Negro in Temagami Village Put on Trial.

Edward Eaton, the Prospector Who Shot a Negro Named Frank Ellar in a Pool Room Pleads That the Black Was a Dangerous Man and Tried to Kill Prisoner—Crown Says Dead Man Was Shot in Back.

North Bay, Oct. 17.—Edward Eaton of Essex, a prospector, was placed on trial yesterday before Justice Britton and a jury charged with the murder of Frank Ellar, a colored man, in Temagami Village.

Eaton shot Ellar in a pool-room at midnight Sept. 14, firing two shots from a 32-calibre revolver. The defence, in the hands of J. W. Mahon, alleges that Ellar habitually carried a revolver and razor, was a dangerous character and on the night of the tragedy had threatened the accused and followed him into the pool-room with his hand in his hip pocket as if to draw a revolver; that Eaton backed into the room, followed by Ellar, who continued to advance in a threatening attitude until Eaton reached his revolver from a shelf and fired two shots and Ellar fell, fatally wounded.

The defence rests largely on the evidence of the prisoner, who alleges that Ellar threatened to kill him.

The crown combats the self-defence theory with medical evidence showing that the fatal wound was inflicted by a bullet in the back under the left shoulder blade.

Eaton is a slight, delicate man, while Ellar was of powerful physique and of a quarrelsome disposition.

Wreck Victim Loses Arm.

Barrie, Oct. 17.—It was found necessary yesterday to amputate an arm of Miss M. Hotson, one of the victims of the Grand Trunk wreck, near here Thursday. Miss Hotson is a daughter of Dr. Hotson of Parkhill. Her condition late last night was favorable.

Mrs. John Wilson of Meaford, a woman 75 years of age, another victim, is doing as well as might be expected, considering her advanced years.

Haskell Sues Hearst.

Omaha, Neb., Oct. 17.—After a dramatic scene on Union Pacific train No. 2 Thursday night at midnight, in which the door of his stateroom was burst open by a deputy sheriff, William Randolph Hearst was served with papers notifying him that suit for $600,000 had been brought against him for slander and libel by Governor Charles N. Haskell of Oklahoma in the Douglass County, Nebraska, District Court.

Double Track C.P.R. to Coast.

Winnipeg, Man., Oct. 17.—Sir Thos. Shaughnessy, president of the C.P.R., would now double track through to the coast. This, he said, was the cause of voting $50,000,000 of new stock last week. The company, he said, is preparing to operate trains over the mountains by electricity generated by water power for 700 miles, probably the biggest railway undertaking in the history of the continent.

C.P.R. Backing New Railway.

Montreal, Oct. 17.—It transpired yesterday that the C.P.R. is behind the company asking for a charter to build a line through the Peace Valley to the Yukon. The charter was before the last session of Parliament. Edmonton and Yukon capitalists are associated with the enterprise. The huge finds of rock salt and asphalt are among the attractions to the freight carrying road.

Roughmond Goes For Trial.

Stratford, Oct. 17.—Frank Roughmond was yesterday committed to stand trial at the spring Assizes for the murder of Mrs. Wm. Peake. Roughmond pleaded not guilty in a steady tone and still maintains dogged silence concerning the affair. He was unrepresented by counsel yesterday, but it is understood he will be defended by J. C. Makins.

Sir John Colby Shoots Moose.

Port Arthur, Oct. 17.—Sir John Colby of Pembrokeshire, Wales, returned to the city yesterday after a week up the line of the Duluth extension railway, hunting moose. He hunted under a special permit from the Ontario Government, the season being not opened, but had poor success, killing only one animal without horns of any value.

Arrested on Serious Charge.

Windsor, Oct. 17.—Ross Summers of Cornell, who is wanted by the authorities in Woodstock, was arrested in Detroit and brought to Windsor. Summers is charged with having attacked two young girls near Woodstock in September.

Fell Through Trap-Door.

Hamilton, Oct. 17.—Archibald Hill, [illegible] Corners, fell through a trap-door in his barn yesterday. He was brought to the City Hospital, where he died without regaining consciousness.

Rideau River Low.

Kingston, Oct. 17.—Owing to low water in the Rideau river, the steamer Rideau King has been taken off the Ottawa route. If the river continues to go down, the company will have to go out of business.

Killed by Car.

Kingston, Oct. 17.—Thos. Legarry, aged 21, met death in James Richardson & Sons' feldspar mine at Godfrey. While standing on the track, he did not notice a loaded car coming towards him.

Aged Monk Dies In London.

London, Oct. 17.—Joseph Liechester Line, Father Ignatius, monk and superior of Llanthony Abbey, Abergavenny, England, died yesterday morning after a lingering illness. He was born in 1837.

U.S. Battleship Fleet In Gale.

Tokio, Oct. 17.—(9 a.m.)—The delay of the United States battleship fleet in arriving at Yokohama was due to a tremendous storm off the north coast of the Island of Luzon, of the Philippine group. The storm began on the morning of Oct. 12, and continued until the afternoon of Oct. 13. One man was drowned and some damage resulted to the fleet. The fleet will arrive at Yokohama at 9 o'clock on the morning of Oct. 18.

Face to Face With Death.

New York, Oct. 17—Unable to move, or even utter a cry, although death by asphyxiation was surely approaching her, Miss Catharine Whalen, 32 years old, a helpless paralytic, was rescued Thursday at her home, No. 310 West 180th street, just in time to save her life.

The tube of the gas stove had become disconnected and fell away as she watched.

Papermakers Strike.

Montreal, Oct. 17.—A large number of employes of the Laurentide Paper Mills went on strike yesterday morning, in response to a call from the president of the International Union. This move is in sympathy with the strike of papermakers in the United States against the International Paper Co., and is not because of any local grievances.

Trouble In Somaliland.

Aden, Oct. 17.—It is reported that the Mad Mullah has informed the authorities of Berbera that he intends renewing hostilities at the conclusion of Ramadan, which ends Oct. 26.

The recent unrest among the natives appears to be developing into serious trouble.

Arrest Proves Fatal.

Lindsay, Oct. 17.—Percy Sloan, a young Englishman, is dead in the Ross Hospital, as the result of injuries sustained by falling down the lock-up steps on Wednesday night last, when he was arrested while intoxicated. His skull was fractured.

Nasmith Summer Home Burned.

Lindsay, Oct. 17.—Early yesterday morning the fine summer home of M. Nasmith, Toronto, at Ancona Point, near Bobcaygeon, and on Sturgeon Lake, was totally destroyed by fire. Mr. Nasmith and his son, H. P. Nasmith, had to escape in haste.

Three Months For Assault.

St. Thomas, Oct. 17.—Wm. Lindsay of Trupont, Ill., assaulted Detective Heenan of the M.C.R. for remonstrating against his putting adibles in his pocket at the station lunch counter at St. Thomas. He was yesterday sentenced to three months.

Seven Years For Perjury.

New York, Oct. 17.—After fighting for three years a perjury charge brought in connection with a suit for damages against the Third Avenue Railway Co., Albert Brown of Albany yesterday was sentenced to serve seven years in prison.

Protection of Wooden Trestle.

Ottawa, Oct. 17.—The board of Railway Commissioners has issued a circular notifying the railway companies that at the November meeting of the board the question of the better protection of wooden trestles will be taken up.

Comfort and independence abide with those who can postpone their desires.—

Lombardy evacuated, 1866.
Alaskan Boundary settled (in part) 1903.
2210 houses burned in Quebec, 1866

TIMELY TOPICS.

One more week. Then "Better men; better times."

• • •

"A Parent" writes "I am with you on the 'home work.' If there must be any, make it short and sweet. But none at all would be best."

• • •

Up to the hour of going to press only four gentlemen were mentioned as mayoralty candidates.

• • •

Why can't we have a decent campaign in West Hastings? Bogus ballot-boxes last election: forgery this election. What next?

• • •

It is alleged that Grit candidate Funnell's face was three-quarters of an inch longer when he left Belleville than when he came. Grit canvassing in this good city is a thankless job.

• • •

HAVE YOU MET 'EM?

The world is not so very bad—
We all have some redeeming stunt:
Why there are even maids, egad,
Who think that they can sing, but won't.

• • •

WHO DO YOU THINK?

Will be caretaker of the new drillshed?

Wrote that forged letter about Mr. Porter?

Has a better right to be mayor next year than Ald. Panter?

• • •

An astronomer says that a cylinder of ice 200,000 miles long and 45 miles thick would melt in one second in the sun. Must be a poor place for ice cream.

• • •

A New York woman had two homes and two husbands, one of whom worked nights and the other days. She worked 'em both.

• • •

The Toronto News of last night publishes fac similes of the forged letters sent out which stated that Mr. E. Guss Porter was about to retire from the political field in West Hastings, and which bore the forged signature of Dr. R. Elgin Towle, of Springbrook. The News recalls the fact that last election bogus ballot-boxes were used to try and cheat Mr. Porter out of his election; this time forgery appears to be the game.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or Edmanson, Bates & Co., Toronto.

DR. CHASE'S OINTMENT.

Col. Hugh Clark made a good point when he said that, though the Conservatives were accused of ferreting out scandals, they did not make the scandals. As a proof that some of the scandals were true, a former Liberal candidate was now a fugitive from justice. The Colonel is forgetful—two former Liberal candidates are fugitives, Lott and Shibley.

• • •

At the annual smoker of the Engineers' club, held in Toronto, the guests had a guessing contest on the feet area of the hall in which the smoker was held. The winner guessed 722 feet, and Mr. J. A. Culverwell, well known here, was second with a guess of 720 feet. The hall was then surveyed and found to contain 725 feet. If Mr. Culverwell is such a good guesser perhaps he can tell us when we'll have Healey Falls power in Belleville.

• • •

A New York department store girl claims to have had 5000 proposals of marriage because of her beauty. One day, she says, she received four bushels of love letters. Good thing for the hard-worked post office clerks of Belleville that that damsel doesn't live here.

• • •

About this time of year we come across the old story of the man who starts a fire in an unused stove and burns up a wad of money his wife had hidden there. Still, it is hardly necessary for most of us to get our hands and arms dirty in groping around in stoves before we start the fire.

• • •

The swearing goes on bravely. Mr. Russell, a Conservative lawyer in St. John, N.B., was accused by the Pugsley-McAvity dredging compact that he had, in behalf of his client, Mayes, offered on behalf of Mayes $20,000 to the Grit party fund if Pugsley would buy his dredge and pay him $40,000 for it. Mr. Russell makes affadavit in which he declares "I am positive that a rebate of $20,000 for political purposes "was never mentioned, and there was certainly no suggestion of "any contribution by Mr. Mayes of any sum for a campaign fund," and he adds, "I never at any time offered Mr. McAvity "a rebate of $20,000." That a thorough investigation into these boodling rascalities should be had, and that, too, at once, is beyond question. No investigation will be had until there is a change of Government. Pugsley is just the kind of man Laurier likes about him.

• • •

Grit Literature.—We have upon our table a pamphlet entitled "What the Liberal Government has done for the nation since 1896" "FRANKED" from Ottawa. This is the way the country is made to pay for the circulation of Grit falsehoods. This is a flagrant abuse of the franking privilege. What has the Globe to say to it? The "frank" initials are R. J. C., which stands for Sir Richard J. Cartwright.

• • •

"If Laurier don't win this time," says the editor of the Globe, "let my right foot cleave to the roof of my mouth."

• • •

Mr. McGillicuddy, editor of the Calgary News, has been sent for trial on a charge of libelling the editor of the Eye-Opener, and bail was fixed at $5000. Now Dan, if there was as much truth in what you say about the Eye-Opener, as there is in what the Eye-Opener says about your friends, you would not be held in bail of $5000.

The Globe has not yet told its readers that its "special" from Belleville, stating that Mr. Porter had retired, was a forgery. Does it want the lie to go uncontradicted?

• • •

Borden for Premier and Better Government.

Rubber Goods That Are Alive

At this season a good Hot Water Bottle is a necessity in every home. We have a large assortment of fresh Hot Water Bottles. Fountain Syringes household rubber gloves, rubber sponges, face brushes, etc, that are alive and full of elasticity not the kind that are dried up and ready to crack after a few months use.

McKeown's Drug Store

Madoc & Local Option.

Local option will be the cause of a serious fight in Madoc at the next municipal elections. The campaign will open on Sunday next, with special sermons in both the Presbyterian and Methodist churches by an accredited agent of the temperance movement. From then on we may expect both sides to get their coats off, and let no opportunity pass, to strike a blow for their cause.—Madoc Review.

INDISPENSIBLE TO MOTHERS

"I am satisfied that Baby's Own Tablets are indispensible to mothers," says Mrs. Abraham Boucher, Pierreville Mills, Que., and she adds: "Before using the Tablets my baby was cross, peevish and not thriving well; but the Tablets have worked a great change and my little one is well and happy." This is the verdict of all mothers who have used these Tablets. And better still, mothers have the guarantee of a government analyst that Baby's Own Tablets are absolutely safe — that they contain not one particle of opiate or poisonous soothing stuff. Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

What a Surprise!

For sheer unadulterated innocence of the A1 extra special brand, the story of a Basuto servant employed by a lady at Ladysmith, beats all records. A little while ago she shot herself with a revolver. Here is her own explanation of the occurrence:

"I saw a loaded revolver, and, thinking it was a camera, I got her to stand in front of me. Then I levelled the butt of the revolver at her, whilst the muzzle was near my chest. I pulled the trigger, thinking it would take the photo. It did not take the photo, but I hope to be better soon."

No Dogs Allowed Out at Night.

The first summons under the new Kent (Eng.) control of dogs order, 1908, which provides that no dog shall be allowed out between sunset and sunrise without effective restraint, was heard at the Bromley Police Court recently. The owner of the animal in question was ordered to pay the costs.

THE DANGER OF PILES.

AND THE CERTAINTY WITH WHICH THIS OBSTINATE DISEASE IS CURED BY

Dr. A. W. Chase's Ointment.

It is a mistake to look on piles or hemorrhoids as merely an annoyance, for they are serious and dangerous as well, and in their chronic or aggravated form bring keen distress and the ruination of health.

The cause of piles is very different in different cases, but there is always relief and with regular treatment thorough cure in the use of Dr. Chase's Ointment.

There is nothing severe or disagreeable about this treatment, for by its soothing influence it helps almost as soon as applied. You feel the benefit, and know for a certainty that it is doing you good.

On the circular which goes with every box of Dr. Chase's Ointment are given full instructions as to the use of the ointment for itching, bleeding and protruding piles, and itching skin diseases. If you follow directions we guarantee satisfaction as a treatment for every form of piles.

Mr. D. MacVicar, Caledonia Mines, N.S., writes: "For years I was troubled with bleeding, protruding piles and could not obtain a cure. I would be laid off work for weeks. Two boxes of Dr. Chase's Ointment completely cured me."

Mr. J. Mawer, Roden, Man., writes: "I had itching piles for five years and the doctor told me there was no cure for me and that I would have to undergo an operation. Dr. Chase's Ointment completely cured me in one week. As this was six months ago and there has been no return of the old trouble, I believe that the cure is a permanent one."

Dr. Chase's Ointment has an unparalleled record of cures; 60c a box, at all dealers, or Edmanson, Bates & Co., Toronto.

The lefthand running of trains on double track is practised by two important railways in the United States—the Lake Shore and Michigan Southern railway and the Chicago and Northwestern railway.

NOMINATION AT TRENTON.

Friends and supporters of Mr. E. Guss Porter, the Conservative candidate for West Hastings, are invited to attend the nomination meeting at Trenton on

MONDAY, OCT. 19

Steamer Brockville will leave Belleville at 10.30 a.m.; fare to Trenton 15 cents; returning steamer Varuna will leave Trenton at 6.45 p.m.; fare to Belleville 25 cents, making a fare of 40 cents for the round trip. There will be a large attendance of Conservative electors from the North, and the occasion should be a gala one for lovers of good government.

GOD SAVE THE KING.

MUSIC AND THE DRAMA

FIRST OF STAR COURSE ENTERTAINMENTS WAS VERY ENJOYABLE.

The first of the Star Course entertainments, held under the auspices of the Y.M.C.A. drew a "capacity" audience to the Carman last night. The entertainment was given by two gentlemen, Messrs. Rogers and Grilley, and was most enjoyable. Truth to tell, some people seemed to find a lack of variety, but the large majority were well pleased. Mr. Rogers showed himself a harp player of exceptional ability; seldom, indeed, does a Belleville audience have an opportunity to hear that delightful instrument so exceptionally well played. Mr. Rogers is an artist. Mr. Grilley, the entertainer, is a master of dialect, and gave some exceedingly clever sketches; also telling a grist of funny stories and singing comic songs. He is a long way ahead of the ordinary entertainer. Sprague's orchestra played a couple of selections tunefully and in good style. The Y.M.C.A. is to be congratulated on the success of its first entertainment.

Messrs. Rogers and Grilley came here from Albany and appear to-night in Boston. The beautiful harp played by Mr. Rogers cost $2000.

"FAUST" NEXT TUESDAY.

The annual local engagement of Mr. John Griffith is booked for next Tuesday evening. Mr. Griffith has been seen here during former seasons in several of Shakespeare's immortal roles, in each of which he has demonstrated his greatness as a tragic actor. His engagement may well be regarded as one of the most important theatrical events of the new season. Faust has been selected for presentation here.

The attraction is under the auspices of the I. O. O. F.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Groves' signature is on each box. 25c.

EYE STRAIN ILLNESS.

Only those who have been relieved by the use of glasses understand what bearing the condition of the eyes has on the general health. There are today children sick because of eye strain. Their illness may be attributed to other causes, and they will continue sick until the TRUE CAUSE is discovered by the exercise of good common sense on the part of the parents. If your child complains of the eyes, see what the trouble is. Our optician can tell you. No excuse for negligence.

DAYS OF DIZZINESS.

OME TO MANY BELLEVILLE PEOPLE.

There are days of dizziness, spots f drowsiness, headache, sideache, ckache.

Sometimes rheumatic pain after urary trouble.

You are plainly told that the Kidys are sick.

Booth's Kidney Pills cure all Kidy ills.

Mrs. J. Martin, of Everett St., elleville, Ont., says: "For years I d suffered with rheumatism and though I had tried numerous remees I could find nothing that would me any good. I was weak and nguid and had little or no ambion to attend to my household du ts. My ankles were swollen and was unable to stand for any length time without much suffering. eadaches were frequent and often would become so dizzy that I ould be unable to do a thing for urs. I learned of Booth's Kidy Pills, through a friend and they re procured at Mr. McKeown's armacy. I soon found relief as e rheumatic pains left me gradlly. My back strengthened and on I was well and strong again. have used Booth's Kidney Pills three different occasions and alys with the most gratifying relts. Sold by Dealers. Price 50 nts. The R. T. Booth Co., Ltd., rt Eris, Ont., Sole Canadian Agts.

Daily Intelligencer.

Sir Wilfrid vs. Scott—Which One Fibs?

Sir Wilfrid Laurier, in addressing some of the faithful in the County of Russell, who had been summoned to set aside the deliberate choice of the Liberal convention and substitute therefor Mr. Murphy, the new Secretary of State, who takes the place of the Hon. R. W. Scott, who, to make room for Mr. Murphy, had to be side-tracked, made the following statement:

> "When Hon. Mr. Scott intimated his intention to retire he (Sir Wilfrid) had to look for a person fit and proper to represent the people of the race and religion of Mr. Scott in the Cabinet. "I looked about, and, as heaven is my witness, I thought I had found that man in the person of my friend and new colleague, Mr. Charles Murphy."

Consult the Senate's official report of the debates, and it will be found that when Mr. Scott's attention was called to the newspaper report that he was to retire he gave it a pointed denial, declaring that he had no such intention, and that he would remain at his post until the Premier should ask him to retire.

Which tells the truth? Sir Wilfrid says the "Hon. Mr. Scott intimated his intention to retire." Mr. Scott told his fellow-Senators that he did not intend to leave the Cabinet until the Premier asked him to do so.

Which are we to believe? Why, Scott, of course.

West Peterboro.

The Conservatives of West Peterboro have, in the person of the candidate they have chosen, one who is not afraid to tell the electors what he thinks of his opponent, Mr. Stratton, the discarded of the Ross Government.

Mr. Burnham, at the Borden meeting, held in Peterboro, dealt with his opponent, Mr. "Can't-You-Forget-Something" Stratton, in the following trenchant manner:

Mr. Burnham referred to the sworn testimony before the Insurance Commission, implicating Mr. Stratton with the deal between the People's Life and the Home Life. Mr. Pattison, as manager of the Home Life, was to receive $90,000 for bringing about the amalgamation, "but," said Mr. Burnham, amid cheers and applause, "Mr. Stratton wanted graft and demanded a rake-off. The report of the commission finds that Mr. Stratton really demanded a rake-off from Pattison of $10,000, and got it. The sum given Pattison for his contract was an immensely fat one, so he divided up. It is needless to say that no one but the parties concerned knew of the divvy up. Mr. Stratton, then, was guilty of a piece of pure unadulterated graft, which, if it had been a loaf of bread in the hands of a starving woman, would have been treated pretty seriously.

"But what was worse even than the graft was the effort Mr. Stratton made before the commission to cover up his graft. He swore point blank that the sum he paid Pattison was $80,000, that it was paid by his (Stratton's) cheque for that amount, and that he himself got no consideration whatever out of the deal. When the commission began to enquire into the McCutcheon security the $90,000, instead of the $80,000, had to come out. Then Mr. Stratton said the sum paid Pattison was $90,000, and not $80,000, and that there was no cheque for $80,000, and that he had made 'a slip.' Then as to the manner of payment to Pattison, Mr. Stratton issued a cheque, he swore, for $90,000 and the cash was brought to his office. Then he swore that he had gone to the bank with Mr. Pattison, got the money there and paid him the $80,000 there.

"Then, on another occasion, when he was recalled, he 'slipped' still farther and swore that he had the money before he went to the bank, that he had $90,000 in his pocket in Dominion of Canada certificates.

"Graft and false meaning," Mr. Burnham continued, "may be evidence of capacity; but is that the sort of capacity you want?"

No one need be surprised that the man who would suggest to a witness to forget something should forget something himself.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists

Political Pointers.

It is expected that a large number of Conservative stalwarts from this city will attend the nomination meeting at Trenton on Monday. See arrangements in another column.

Vote out the million-wasting and millionaire-making Government.

Jawbones are poor substitutes for backbone when it comes to defending the Dominion treasury.

Rural mail delivery is in operation in Canada. And less than six months ago Postmaster-General Lemieux declared in the House of Commons it was impossible. Less than a month since a leading Liberal organ, supporting J. R. Stratton, said rural mail delivery was gotten up by the Tories to catch votes. Hasn't the Halifax platform scored, though?

It is charged that the farmers who want the rural mail delivery service are notified that they must pay for the boxes; that the boxes are to be of a uniform pattern; that they must all be bought from the same firm and that at present they are being made in the United States. If there is no chance for graft here the hand of the grafter must have lost its cunning.

SPLENDID MEETING AT MARMORA LAST NIGHT.

The meeting at Marmora last night, in the interest of Mr. E. Guss Porter, was large and enthusiastic. The audience was representative of the men and women of the north, highly intelligent and appreciative. There were about thirty ladies present. The speakers were, the Rev. R. Fulcher, Church of England minister; Mr. J. W. Johnson, M.P.P. and Mr. E. Guss Porter, ex-M.P. Mr. J. W. Pearce, M.P.P., occupied the chair. No finer political meeting was ever held before in that section of the County.

Mr. Porter will hold a meeting at Coe Hill this evening. The result of the election in West Hastings is never in doubt, it is simply a question of the size of the majority for Mr. Porter.

Mr. J. W. Johnson, M. P. P., returned from North Hastings to-day, where he has been working on behalf of Mr. Porter. He will be at the nomination in Picton on the afternoon of Monday, to speak for Mr. G. O. Alcorn, the Conservative candidate, and he will also address a mass meeting in the Town Hall at Picton on Monday evening.

LIKE THORNS IN THE FLESH

ARE THE SHARP TWINGES AND TORTURES OF RHEUMATISM DR. WILLIAMS' PINK PILLS A CERTAIN CURE.

The twinges and the tortures of rheumatism are not due to cold, damp weather, as so many people imagine. Rheumatism comes from poisonous acid in the blood. The pains may be started by cold weather, damp weather, or by keen winds. There is only one way to cure rheumatism. It must be treated through the blood. All the liniments and rubbing, and so-called electrical treatment in the world will not cure rheumatism. The acid that causes the diseases must be driven out of the blood and the blood enriched and purified. It is because Dr. Williams' Pink Pills make new, red blood, that they have cured thousands of cases of rheumatism after all other treatment had failed. As a proof of what Dr. Williams' Pink Pills will do even in the most severe cases of rheumatism, the case of Mr. David Carrol, a well known furniture dealer of Pictou, N.S., may be cited. Mr. Carrol says:—"I have been a most severe sufferer from rheumatism, and in the hope that some other poor sufferer may find relief from my experience I gladly write you of the benefit I have received from Dr. Williams' Pink Pills. The trouble settled in my shoulders and down my sides and at times I was quite unable to raise my arm. I was attended by a doctor, but as I did not appear to be getting any better I sent for a so-called electric belt for which I paid $40.00. It did not do me any good and then I tried another remedy, but without any better results. A friend asked me to try Dr. Williams' Pink Pills, and I got three boxes, by the time I had used them all I found the stiffness and pain less severe, and I got another half dozen boxes. When I had taken these every symptom of the trouble had disappeared and in the two years that have since passed I have had no return of the trouble, and I have recommended the Pills to others who have been benefitted by their use."

Dr. Williams' Pink Pills not only cure rheumatism but all the other diseases due to poor watery blood such as anaemia, indigestion, nervous disorders, neuralgia, St. Vitus dance, paralysis, and the ailments of girlhood and womanhood, with their headaches, backaches, sideaches and attendent miseries. Only the genuine Pills can do this and you should see that the full name "Dr. Williams' Pink Pills for pale people" is on the wrapper around each box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

PERSONAL AND SOCIAL.

Miss J. McShea, Brockville, is visiting friends in the city.

Mrs. Chas. Rogers has gone to Milland, Ont., for a visit.

Mrs. Brunn, of Alberta, is visiting her sister, Mrs. Caldwell, Evans St.

Hyman, W. Craig, A. Gerrie, P. H. Golds, R. F. Rapley, Montreal; J. B. Weller, Colborne; C. H. Grilley, V. V. Rogers, Boston; V. L. Cote, St. Hyacinthe; C. R. Ranch, Bethlehem, Pa.; J. Irwin, Lindsay; S. Wishart, New York.

SPORTS AND PASTIMES.

BASEBALL.

Separate School Lads Will Hold the Cup for This Year.

The handsome cup donated by Dr. Yeomans, to be competed for by the baseball teams in connection with the city Public and Separate Schools, will for this year be held by the Separate School. Yesterday afternoon the deciding game for the season took place between teams representing No. 2 and the Separate School, and there was a large number of spectators to witness the match, which took place on the Coleman flats diamond. At the commencement of the game the No. 2 boys took a decided lead, but were finally beaten out by a score of 26 to 25. Mr. A. P. Allen was a fair umpire. The players and their positions were as follows:

No. 2 School—Roy Cron[illegible] c.f., Ross Bell 3rd, W. Boyd 2nd, E. Hagerman p, L. Harris c, G. Thompson l.f., A. Symons 1st, A. Harris r.f., A. Spooner s.s.

Separate School—J. Smith c, J. Kelleher p, T. Barrett 1st, A. Gay 2nd, F. Goyer s.s., E. Whalen 3rd, E. Eustace l.f., D. Doran c.f., G. Monaghan r.f.

Score by innings:
No. 2 School...4 3 4 0 0 11 2 0 1— 25
Separate S. ... 1 0 2 0 2 6 3 8 4— 26

SPORTING NOTES.

Mr. Wilkes, physical director of the Y.M.C.A., writes: "In regard to the 3-mile walking race held at the Roller Rink, last Thursday night, it was stated that Mr. Percy Gifford, walked unfairly. This is a mistake, and is a mistake that needs to be corrected, as the spectators who understand walking, say that Gifford walked the heel and toe walk the whole time. The people who do not understand the rules of walking, should be careful in expressing themselves, for unconsciously they might hurt the character of the person whom they are speaking about."

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10,000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

TIMELY TOPICS.

The Conservative party is aggressive and united. Mr. Borden is not waging a single-handed battle as he did four years ago. In Ontario, New Brunswick, Manitoba and British Columbia the party is under formidable local leadership. There has been a great revival of public spirit and a dangerous uprising against corrupt electoral methods in Nova Scotia. Prince Edward Island will be swept by the Opposition. As the campaign goes on indignation grows in Alberta and Saskatchewan over the Government's improvident and corrupt handling of the Western domain. No one has any expectation that the Government will be defeated in Quebec. But that the Opposition will do better. Altogether there is reason to believe that the Government will be defeated, and the part of patriots in all the provinces is to make the victory decisive.

• • •

An old Irish laborer walked into the luxurious studio of a New York artist, and asked for money to obtain a meal, as he was too weak to work. The artist gave him a quarter and then, seeing possibilities for a sketch in the queer old fellow, said: "I'll give you a dollar if you'll let me paint you."

"Shure," said the man, "it's an easy way to make a dollar, but, but—I'm wonderin' how I'll get it off."

• • •

The young man and the girl were standing outside the front door having a final chat after his evening call. He was leaning against the door-post, talking in low tones. Presently the young lady looked around to discover her father in the doorway, clad in a dressing gown.

"Why, father, what in the world is the matter?" she inquired.

"John," said the father, addressing himself to the young man, "you know I have never complained about your staying late, but I'm not going to complain of that now; but for goodness sake stop leaning against the bell-push and let the rest of the family get to sleep."

Costly Fire at Chicago.

Chicago, Oct. 17.—The International Salt Docks, the Calumet Elevator, the offices of the Elgin, Joliet & Eastern Railway, and two steamships were destroyed by fire early yesterday. Loss $1,250,000.

Salt In Cooking.

If one portion of a vegetable is cooked in pure water, the other half in salted water, a decided difference is perceptible in the tenderness of the two. Those boiled in pure water are vastly inferior and in many cases will be almost tasteless. Salt brings out the delicate flavor of cauliflower, cabbage, potatoes, peas, beans and practically all vegetables. Onions cooked in water without salt can be rendered almost tasteless. As salt increases the temperature of boiling water, its cooking advantage is at once apparent. Salt in cold water is used to drive insects from vegetables growing above ground.

Losing His Sympathy.

Johnny—Pa, did Job have a turkey?

Papa—Well—er—possibly. I've heard the expression "as poor as Job's turkey."

Johnny—Well, I don't think he was so badly off if he had a turkey.—Brooklyn Life.

Found Out.

Rivers—What have you got that string tied around your finger for?

Brooks—By George, I'm glad you mentioned it! That's to remind me to ask you for the fiver I lent you a month ago.—Chicago Tribune.

New Scale Williams PIANO

Art in Pianos

The creation of Art Cases, is an important part of our business.

We make Sheraton Inlaid, Marquetry, Louis XIV, XV and XVI, Chippendale, Empire, Mission and other period pianos.

If you wish something out of the ordinary—or wish a piano to harmonize with the drawing room, parlor, den or hall—we will make up drawings or give estimates on submitted designs.

Toronto, Feb. 22nd, 1905.
Gentlemen,—Allow me to congratulate you upon the New Scale Williams Piano. I can honestly say that the instrument is one of the best Upright Pianos that I have ever tried.
Believe me, very truly yours,
J. HUMFREY ANGERS, Mus. Doc.

BUILDING PICKS UP.

Reports From Trade In Canadian Cities Show Prosperity.

To determine with a fair accuracy the exact building conditions that exist throughout the country generally, "Construction" has secured statistics from eleven representative cities of the Dominion, showing the aggregate cost of buildings for which permits were issued for the first eight months of 1908, as compared with 1907.

In eleven cities reported, the cost of buildings for the first eight months of 1908 was $21,124,915, as compared with $32,950,589 for the same period of 1907, thus showing a decrease of 26.84 per cent.

In nine cities for which figures were secured for the month of August, the aggregate cost of buildings for August, 1908, was $3,854,984, as compared with $3,194,535 for the corresponding month of 1907, thus showing an increase of 20.67 per cent.

From this it can be seen that Canada's principal centres have turned a decrease of 26.84 per cent. for the eight months of 1908 into an increase of 20.67 per cent. for the month of August, 1908, as compared with the same periods of 1907.

It will be noted that Regina shows the largest increase (329.13 per cent.), Toronto the smallest increase (6.05 per cent.), Vancouver the largest decrease (23.96 per cent.), and St. John, N.B., the smallest decrease (19.96 per cent.) for the month of August.

Fort William has the largest increase (90.15 per cent.), Edmonton the smallest increase (8.5 per cent.), Montreal the largest decrease (50.32 per cent.), and Winnipeg the smallest decrease (27.3 per cent.), for the first eight months of the year.

In view of the general opinion that Winnipeg suffered most from the money stringency, it is worthy of note that the decrease in her building was much lower than that of any of our larger eastern cities.

Only three of the cities reported, show a decrease for August, viz.: Vancouver, Calgary and St. John, N.B., while only three show an increase for the eight months of the year, viz.: Vancouver, Edmonton and Fort William.

Reports as to prospects for the remainder of the year were generally bright and it seems to be the concensus of opinion that the year will finish well. There seems to be a large amount of building, that was contemplated early in the year, and for financial reasons had to be postponed, that is being proceeded with this fall.

Sir John's Battle Cry.

It was in his address to the electors issued at the opening of the campaign of 1878 that Sir John A. Macdonald used that oft-quoted and stirring sentence—"A British subject I was born —a British subject I will die."

The wish therein expressed was realized shortly afterwards, when Sir John passed away at Ottawa. Mourned by the entire Canadian people his remains were borne back to Kingston, to which, seventy-one years before, he had come from Scotland, a poor lad, to make his way in a new land.

Sir John's expression of determination to remain a Briton, and which struck a responsive chord in the heart of the Canadian electorate, was used almost word for word some years earlier by that great Nova Scotian, Joseph Howe. When addressing a gathering of electors during a time of considerable unrest, and when mutterings of disloyalty were heard in certain parts of the province, Howe, in the course of his speech, said: "I will live and die a British subject." He died not only a British subject and a citizen of Nova Scotia, but an officer of the Government of the Dominion of Canada, whose creation in the form it took in 1867 he strenuously opposed.

The Siffleur.

The following note by Dr. Hector, the geologist who accompanied one of the early explorations of British Columbia under Captain Palliser, refers to the mountain woodchuck, which the French trappers called siffleur, or "whistler," on account of its cry. The animal is common near the timber-line throughout the northern Rockies.

"We saw (on Castle mountain) several bands of sheep, but did not get a shot; however, we killed two of the marmots or siffleurs. This animal is the size of a badger, with coarse hair, and no proper fur. It has large incisor teeth like those of the beaver; it lives among the rocks, and has a large nest, in which it lays up stores of provisions for winter, during which season it never comes abroad, but whether it hibernates or not the Indians do not know. It returns to its hole late in September, at which time it is very fat, and quite as good eating as the beaver, having the same rat flavor."

Disaster Pursued Him.

Charles Dynes, storekeeper of Sapparton, B.C., a suburb of New Westminster, was awakened by fire in the store below his room. He, his wife and five children fled in their nightclothes just in time to save their lives. His wife and her baby of two weeks were both ill. The building and contents burned to the ground.

The same morning representatives of insurance companies decided to immediately pay the damage. Dynes went to New Westminster for his check. He received the money and was riding home on the front end of a street car. At a switch the car lurched and threw him off. He was thrown under the wheels and cut in two.

The Irish of It.

The Minister of Agriculture for the fair province of Alberta is Irish. It is hardly necessary to label him after reading the following:

This son of Erin was down at Magrath, in the southwestern corner of the province, where he was addressing the farmers. In the course of his remarks, he urged upon them the necessity of following a line of "mixed farming," and told them not to try and "carry all their eggs in one basket." Then came a display of the Emerald in these words:

"We must alway look 'forward' for something to fall 'back' on."

A Murderous Weapon.

Not content with the smaller knife affected by his less blood-thirsty countrymen, an Italian now in Parry Sound jail has exercised his ingenuity on making a "murderers' tool," out of a file, and he has done his work well, for when the knife, sent by a magistrate from that northern district, arrived at the Attorney-General's Department the Toronto detectives who viewed it said they had never seen its like.

This knife was made from a file 9 inches long, and 7 1-2 inches is utilized as a blade. It tapers from an inch in diameter to a needle point and carries a keen cutting edge on both edges. The shank is set in a piece of small maple branch, with the bark still on in some places to ensure a perfect grip.

In the hands of an assassin such a knife would go through a victim as easily as a bayonet on the end of a heavy rifle; and it is a good thing the knife was taken away from this sanguine native of sunny Italy before he had occasion to use it.

More Go Into Teaching.

Increases in teachers' salaries, says Hon. Dr. Pyne, Minister of Education for Ontario, who has just returned from England, is responsible for the large increase in the number of entries for the Normal schools this year. There are 1,300 applications, which is more than double the average. The six Normol schools have accommodation for about 1,200 students.

The average increase in country school salaries has been from $402 in in 1904 to $458 in 1907 for males and from $295 to $379 for females. In town schools the increase is from $485 to $547 for males, and from $335 to $369 for females.

Hon. Dr. Pyne is reserving his conclusions from the observations he made on technical education in Great Britain.

Eaten by Wolves.

Mike McHugh of Vancouver, B.C., disappeared three years ago at Alberni, Vancouver Island. Recently the remains of the skeleton were found, indicating he had been killed and devoured by wolves or panthers.

20 YEARS A HOPELESS CONSUMPTIVE
NOW NO SIGN OF LUNG TROUBLE.

This statement is no fiction, for Mrs. L. Garside resides at 509 York Street, London, Ont., and to use her own words is: "Always happy to reply to anxious enquirers and let them know what PSYCHINE has done for me."

Four years ago, Mrs. Garside wrote: "Your remedy, PSYCHINE, did wonders for me. I was about 28 or 30 years of age when I took your treatment. I was in consumption and the very best doctors told me there was nothing else that could be done, this was 20 years ago, so as a last hope I gave your remedies a trial. From the first this was a most wonderful success. PSYCHINE certainly gave me new lungs, and I honestly believe PSYCHINE saved my life." Writing four years after under date August 7, 1908, Mrs. Garside says: **"My statement still holds good, my lungs never troubled me after your treatment which I took after being told there was no hope."**

PSYCHINE, Dr. Slocum's great Health Remedy, is known everywhere as Nature's Greatest Tonic, building up the entire system, not only rendering it proof against these terrible germ and other diseases, that are so deadly in their operation, but it is the sworn and deadly foe of the germs and the diseases themselves. Bacilli, or disease germs, cannot live in the system with PSYCHINE. Send for FREE TRIAL BOTTLE. See coupon.

This coupon entitles to one FREE TRIAL BOTTLE of Psychine. Send to Dr. T. A. Slocum, Limited, Spadina Avenue, Toronto.

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT. 1907. BY McCLURE. PHILLIPS & CO.

wever, the stranger won, the big l immediately struck out to sea, andoning his rookery, while the wcomer swam in and attempted to ke his title good with all the young-bulls. I have seen some fierce com- ts out there in the blue water. They shed each other deep.

You can see by this how our hunt- was never at an end. On Tuesday would kill the boss bull of a cer- n establishment. By Thursday at est another would be installed.

learned curious facts about seals in se days. The hunting did not ap- al to me particularly, because it emed to me useless to kill so large animal for so small a spoil. Still was a means to my all absorbing l, and I confess that the stalking, lying belly down on the sun warm- grass over the surge and under the ar sky was extremely pleasant. hile awaiting the return of the big ll often we had opportunity to tch the others at their daily affairs, d even the unresponsive Thrackles s struck with their almost human elligence. Did you know that seals s each other and weep tears when eved?

The men often discussed among emselves the narrow, dry cave. There animals were practically penned They agreed that a great killing uld be made there, but the impossi- ity of distinguishing between the lls and the cows deterred them. The ve was quite dark.

mmersed in our own aff[illegible] thus, days, weeks and months went by. ents had slipped beyond my con- l. I had embarked on a journalis- enterprise, and now that purpose s entirely out of my reach.

Up the valley Dr. Schermerhorn and assistant were engaged in some ex- iment of whose very nature I was l ignorant; also I was likely to re- in so. The precautions taken inst interference by the men were ually effective against me. As if t were not enough, any move of estigation on my part would be lically misinterpreted and to my n danger by the men. I might as ll have been in London.

However, as to my first purpose in s adventure I had evolved another n and therefore was content. I de up my mind that on the voyage me, if nothing prevented, I would my story to Percy Darrow and ow myself on his mercy. The re- ts of the experiment would proba- by then be ready for the public, l there was no reason, as far as I ld see, why I should not get the oop" at first hand.

ertainly my sincerity would be hout question, and I hoped that years or more of service such as ad rendered would tickle Dr. Scher- rhorn's sense of his own impor- ce. So adequate did this plan m that I gave up thought on the ject.

y whole life now lay on the shores. was not again permitted to board Laughing Lass. Captain Selover aw twice at a distance. Both times seemed to be rather uncertain. The did not remark it. The days t by. I relapsed into that state so l known to you all when one seems ght in the meshes of a dream ex- nce which has had no beginning which is destined never to have end.

e were to hunt seals and fish and bivalves from the rocks at low and build fires and talk and al- nate between suspicion and securi- between the danger of sedition and insanity of men without defined pose, world without end forever.

CHAPTER XIX.

THE inevitable happened. One noon Pulz looked up from his labor of pulling the whiskers from the evil smelling masks.

"How many of these things we got?" he inquired.

"About three hunder' and fifty," Thrackles replied.

"Well, we've got enough for me. I'm sick of this job. It stinks."

They looked at each other. I could see the disgust rising in their eyes, the reek of rotten blubber expanding their nostrils. With one accord they cast aside the masks.

"It ain't such a fortune," growled Pulz, his evil little white face thrust forward. "There's other things worth all the seal trimmin's of the islands."

"Diamon's," gloomed the nigger.

"You've hit it, doctor," cut in Solomon.

There we were again, back to the old difficulty, only worse. Idleness descended on us again. We grew touchy on little things, as a misplaced plate, a shortage of firewood, too deep a draft at the nearly empty bucket. The noise of bickering became as constant as the noise of the surf. If we valued peace, we kept our mouths shut. The way a man spat or ate or slept or even breathed became a cause of irritation to every other member of the company. We stood the outrage as long as we could; then we objected in a wild and ridiculous explosion which communicated its heat to the object of our wrath. Then there was a fight. It needed only liquor to complete the deplorable state of affairs.

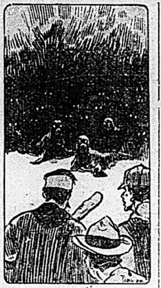
Gradually the smaller things came to worry us more and more. A certain harmless singer of the cricket or perhaps of the tree toad variety used to chirp his innocent note a short distance from our cabin. For all I know he had done so from the moment of our installation, but I had never noticed him before. Now I caught myself listening for his irregular recurrence with every nerve on the quiver. If he delayed by ever so little, it was an agony, yet when he did pipe up his feeble strain struck to my heart cold and paralyzing like a dagger. And with every advancing minute of the night I became broader awake, more tense, fairly sweating with nervousness. One night—good God, was it only last week? It seems ages ago, another existence, a state cut off from this by the wonder of a transmigration at least. Last week!

I did not sleep at all. The moon had risen, had mounted the heavens and now was sailing overhead. By the fretwork of its radiance through the chinks of our rudely built cabin I had marked off the hours. A thunderstorm rumbled and flashed, hull down over the horizon. It was many miles distant, and yet I do not doubt that its electrical influence had dried the moisture of our equanimity, leaving us rattling husks for the winds of destiny to play upon. Certainly I can remember no other time in a rather wide experience when I have felt myself more on edge, more choked with the restless, purposeless nervous energy that leaves a man's tongue parched and his eyes staring. And still that infernal cricket or whatever it was chirped.

I had thought myself alone in my vigil, but when finally I could stand it no longer and kicked aside my covering, with an oath of protest, I was surprised to hear it echoed from all about me.

"D—— that cricket!" I cried.

And the dead shadows stirred from the bunks, and the hollow eyed victims of insomnia crept out to curse their tormentor. We organized an expedition to hunt him down. It was ridiculous enough, six strong men prowling for the life of one poor little insect. We did not find him, however, though we succeeded in silencing him. But no sooner were we back in our bunks than he began it again, and such was the turmoil of our nerves that day found us sitting wan about a fire hugging our knees.



The darkness in front of us was alive with fiery eyeballs.

We were so genuinely emptied, not so much by the cricket as by the two years of fermentation, that not one of us stirred toward breakfast. In fact, not one of us moved from the listless attitude in which day found him until after 9 o'clock. Then we pulled ourselves together and cooked coffee and salt horse. As a significant fact, the nigger left the dishes unwashed, and no one cared.

Handy Solomon finally shook himself and arose.

"I'm sick of this," said he. "I'm goin' seal hunting."

They arose without a word. They were sick of it, too—sick to death. We were a silent, gloomy crew indeed as we thrust the surfboat afloat, clambered in and shipped the oars. No one spoke a word; no one had a comment to make, even when we saw the rookery slide into the water while we were still fifty yards from the beach. We pulled back slowly along the coast. Beyond the rock we made out the entrance to the dry cave.

"There's seal in there!" cried Handy Solomon. "Lots of 'em!"

He thrust the rudder over, and we headed for the cave. No one expressed an opinion.

As it was again high tide, we rowed in to the steep shore inside the cave's mouth and beached the boat. The place was full of seals. We could hear them bellowing.

"Two of you stand here," shouted Handy Solomon, "and take them as they go out! We'll go in and scare 'em down to you!"

"They'll run over us!" screamed Pulz.

"No, they won't. You can dodge up the sides when they go by."

This was indeed well possible, so we gripped our clubs and ventured into the darkness.

We advanced four abreast, for the cave was wide enough for that. As we penetrated the bellowing and barking became more deafening. It was impossible to see anything, although we felt an indistinguishable tumbling mass receding before our footsteps.

"Pandora" Thermometer

"Pandora" Fire-box and Grates.

"Well, the important part of a range to a woman is the Oven. This should be made of steel so as to properly absorb, retain, circulate and dispose of heat from the fire-box. Meats will then be firm, yet juicy, and biscuits, etc., sufficiently raised, with crust even all around.

"The Fire-box should be substantially made, be wide, roomy, and allow perfect freedom for the manipulation of the grates.

"An Emery Rod and Towel Drier helps the housewife with her knife sharpening and towel drying.

"Pandora" Emery Rod and Towel Drier.

"An accurate Thermometer can be set at the necessary heat required for a baking and will save you all sentry duties.

"The Reservoir should be constructed of steel, lined with white enamel, so as never to burn out or rust out.

"Pandora" Enamelled Steel Reservoir

"The 'housewife' features I have mentioned mean Maximum Service, and you get them at Minimum Cost in 'Pandora' Range."

"Pandora" Ventilated Oven.

CORONATION OF THE CONQUEROR

(Sermon by Rev. G. Harmon Jones, Regina, Sask.)

Text: "Blessed is the man that endureth temptation, for when he is tried he shall receive the crown of life, which the Lord hath promised to them that love Him"—James, 1-2.

The crown of anything is the product of its possibilities. The crown of the fruit tree is not its rich robe of scented blossoms, gorgeous and glorious though they might be, but its richer yield of ripened and luscious fruit. The crown of the scholar is not the parchment won at graduation, though coveted and prized, or the after honors that are laid at his feet; but the store of knowledge and the reserve of mental energy purchased at the price of sacrifice, and fashioned in the mould of rigid discipline. The crown of manhood is not any single achievement of life, however noble or great, but the full web of character; woven out of the warp and woof of passing events, and wrought under the direction of God, the Master Workman. The crown of life here referred to is surely nothing more than the perfection of human possibilities, through the energy of the Divine Spirit. To the human lack there is added the Divine strength of Him, who, standing in the presence of a degenerate and devitalized age, yet boldly declared His mission in the words, "I am come that they might have life, and that they might have it more abundantly."

The "more abundant life," the "life above the common" is that life which the world stands most in need of, and no gift is so precious and no boon is quite so great as the gift of the "life that is eternal."

"The life of which our veins are scant."

Thus every life is crowned in the Life that is eternal, and whatever crowns we may win in other kingdoms, the crown won in the kingdom of God is the worthiest crown of all, and this crown the Lord hath promised to them that love Him.

Every form of organized life may be said to be a search for a crown, and the quality of that life is declared in the character of the crown that becomes it. The whole creation groaneth in its effort to obtain a crown of life. From a tiny seed that courts the sunlight to the magnate cornering the stock markets, the throne rooms of earth are crowded with seekers after crown, and the crowns are as numerous as the seekers and as varied as are our ambitions.

The seed cast into the ground finds its crown at last in its perfected fruit and flower, and rejoices in the bloom of its perfection. No other crown becomes it but the crown of its own life, the finished product of its possibilities, bearing the stamp of its substance. The man of generous impulse and of giant will secures his crown in a kingdom of his own choice, but it is always forged out of his own possibilities, and gilded with the gold of his best effort. The seeker after wealth obtains at last his crown as he weighs his money bags, estimates his bank accounts, and smiles over his fabulous fortune. Nothing else interests him in the same degree, and he cares for no crown but the crown which has fallen at his feet. The seeker after fame obtains his crown when at last his name is hurled from lip to lip, and the record of his worthy deeds is written large on the scroll of history. The seeker after knowledge finds his crown at last in the constant stream of enquirers that come to him waiting to learn from his lips the results of his years of his research in the kingdom of the mind. The seeker after righteousness finds his crown when having made his way forward,

"Upon the great world's altar stairs
That slope through darkness up to
God,"

he finds himself within the pearly gates, drinking great draughts from the "fullness of joy" and participating in the "pleasures for evermore."

But a crown is the symbol of sovereignty. From the laurel that wreathed the brow of the victor in the stadium to the girdle of gold that adorns the head of present-day monarchs crowns are presumably for conquerors. Wherever a crown is worn the inference is that at some previous time a battle has been fought and victory has been won. Even though some seem to have inherited their crown without a struggle, yet a crown is always the mark of mastery.

In the kingdom of agriculture the seed wins its crown by a mastery over the elements of earth and air, and declares its sovereignty by its survival. Marshalling all its forces and arraying all the possibilities, the seed lays hold of all the nutritive properties of the soil, courts the sunlight and the showers, survives the shock of blistering suns and biting frosts, and wins its battle and wears its crown.

In the industrial kingdom men cannot hope to wear the crown of fortune except as they conquer the adversaries of trade and commerce, and master the elements that would otherwise accomplish their overthrow. The man of business will be compelled to wear the scars of battle which the keen blade of competition has inflicted upon him, or forfeit the right to be called a King of Commerce, or a Merchant Prince.

In the kingdom of culture, before ever a crown is awarded the scholar must win the battle against ignorance and error, and must come off "more than conqueror." The fight may be fierce and the battle long, but there is no royal road to learning, and patience is the key that unlocks the door of the throneroom in the kingdom of culture.

Growth is the law of life, and fruition is the pledge of progress. Scientists assert that, while life itself is indefinable, yet it may be detected by a two-fold test, viz., assimilation and propagation. Christian life can be tested only in the same way, for if there is life there will also be growth and fruitfullness. "Not every one that sayeth Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of My Father which is in heaven." Only the man who is brave, constant, and victorious in temptation, only he who becomes "lord of himself," can ever win the crown of life."

Finally, see how love becomes the instrument of strength. The crown of life is promised of God "to them that love Him." This is the secret of manhood's victory over temptation. The very "pulse of the machine" is love, and here is the secret of fortune. Love of country is the inspiration of the soldier as he goes forth to battle; love of home and family is the inspiration of the breadwinner, and in that strength he labors on and wins the day; love of God is the inspiration of every man who fights "the good fight of faith and by that sign of love alone he conquers.

"Our Captain calls us forth,
To conquest and a crown,
Our feet, through Him shall tread,
The powers of darkness down;
The feeblest saint shall win the day,
Though death and hell obstruct the
way."

Fat Is Out of Style.

To paraphrase Caesar's remark, the directoire gown came—was seen—and has conquered. So fat ladies are reduced, so to speak, to the necessity of either reducing at a very rapid rate or eliminating themselves from public view until the fashion dies out. Otherwise they risk being ridiculous.

Since many fat ladies will not eliminate themselves, however, but, per contra, will insist on wearing the curveless gown, no course is open to this well-meaning scribe other than to tell them how they may eliminate the fat.

What is there, then, that reduces fat safely? What pleasant inexpensive article is there on druggists' shelves that can reduce a pound a day without causing wrinkles or stomach ache? What can the pharmacists offer as an improvement over scanty victuals or ten mile walks without breakfast? Is there anything pleasant to take and inexpensive to buy that will reduce one uniformly, quickly and innocently thirty pounds a month? Here is the answer: Either write the Marmola Company, Detroit, Mich., or ask your local druggist for Marmola Prescription Tablets, and for 75 cents they or he will give you one large case of these safe fat reducers, containing so generous a quantity of tablets that sometimes one case only is needed to produce the desired results. Can you match that for a simple solution of your problem?

His Own Name.

Sir Alexander Mackenzie, the famous musician, was once traveling in Canada when the train pulled up at a little wayside station, and he was told that, owing to a blockade further up the line, he would have to remain where he was for some hours. Sir Alexander was anxious to get to his destination, and the delay made him anything but pleased. "Some hours in this hole of a place," he exclaimed, "away from all civilization! Why, I hate its very name!" Then, happening to put his head out of the carriage window, he beheld the name of the station in large letters. It was "Mackenzie!"

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

Sinclairs Saturday - Night - Sale.

Three Great Dress Goods Specials

75c Suitings for 40c

This is a clearing lot of about 25 pieces of Black and Colored Goods from 42 to 54 inches wide and regular 50c, 60c, 65c and 75c goods to clear, your choice for only

Miss Madaline Clutter.

Have You Heard Of

NEWBRO'S HERPICIDE

The New Scalp Phophylactic.

Newbro's Herpicide is the first Prophylactic for the hair and scalp. Its formula harmonizes with the theory (now a recognized fact) that dandruff, itching scalp and falling hair are of microbic origin. Herpicide defends the hair and scalp against disease and by destroying the scalp microbe or dandruff germ (a tiny vegetable growth) it eradicates dandruff, stops falling hair and permits the hair to grow as nature intended. Almost marvelous results sometimes follow its use. Miss Clutter's letter and photograph certainly speak for themselves.

> "I herewith enclose you one of my latest photographs, which will show you what Newbro's Herpicide has done for my hair. Since using your remedy my hair is much longer than it was, and it has that luster to it that one's hair always has when their scalp is in a healthy condition."
> (Signed) MADALINE CLUTTER.
> 3953 Mich. Ave., Flat 210, Chicago, Ill.

Herpicide is delightfully fragrant and refreshing. It is free from oil and makes the hair light and fluffy.

2 Sizes, 50c and $1.00 at Drug Stores. Send 10c in stamps to the Herpicide Co., Dept. N, Detroit, Mich for a sample. Guaranteed under the Food and Drugs Act, June 30, 1900. Serial No. 115. Be sure and get Herpicide.

Sunday School and Bible Classes at 3 p.m.

Young People's Guild on Monday at 8 p.m.

Prayer meeting on Wednesday at 8 p.m.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

For your comfort's sake try a pair.

W. H. Adams. The Shoeman, 4 Doors North of Bank of Commerce

Barns Burned With Heavy Loss.

The fine barn belonging to Mr. Arthur Reid, of Bell View, was recently destroyed by fire, together with the drive shed, hog pen and other out-buildings. It is thought the fire was started by children playing with matches, and after it was first discovered it spread with such rapidity that it was impossible to check it, or even to save the contents of any of the buildings except a few vehicles.

The loss will be very heavy, as the barn contained a large amount of hay and grain, a gasoline engine, grain crusher, root pulper and other articles. Mr. Reid's sleighs, cutter and a large amount of machinery were also destroyed. Fortunately the stock were all in the fields, so that none of them were lost.

During a recent heavy storm lightning struck a barn in Monteagle owned by Mrs. Chionard, and rented by Jno. Sutherland. The building was destroyed, together with about ten tons of hay and the season's crop. There were also eight tons of hay in the barn belonging to Henry Armstrong, of New Carlow.

Youthful Forger Allowed to Go.

The young man Godfrey, whose parents reside on the Monk Road, northern part of the county, yesterday afternoon appeared before Judge Deroche, charged with forging two cheques at Bancroft village. He admitted he was guilty of the charge, but owing to the fact that he is only 16 years of age, and not mentally strong, His Honor placed a suspended sentence of one year over him and allowed him to return home.

Collections for Children's Aid.

The amounts gathered from the collection boxes from Sept. 1st till Oct. 15th are as follows.

Post Office $2.00.
Stroud's $1.57.
Clapp's 98c.
McFee's 80c.
Standard Bank 30c.
Bank of Commerce 24c.
Chown's 24c.
Davies' 22c.
Waters' 20c.
Sainsbury's 18c.
Total $6.73.

Police Notes

Two tramps, both young men, were the only occupants of the cells last night.

The police answered two calls during the night, but made no arrests.

Richard Duesberry reported that a row boat belonging to him was stolen last evening, but it subsequently turned up. A party just borrowed it for a short time.

A Veteran's Funeral.

Obsequies of the Late W. H. Scholes Took Place Yesterday.

All that was mortal of the late Mr. W. H. Scholes was laid away in Mother Earth yesterday, the funeral being largely attended by former comrades-in-arms of the dead man and sympathizing friends. The members of the Veterans' Association attended in a body. The late Mr. Scholes' death made the first break in the quartette of sergeants who served under Capt. Mackenzie Bowell in No. 1 Co. of the Fifteenth when it was first formed. The surviving sergeants now are: Mr. J. P. Thompson, former City Treasurer of Belleville, now of Vancouver, B.C.; Mr. W. E. Bottoms, now of Ridgetown, Ont., and Mr. William Johnson, of this city. In addition to the service with which he was credited in his obituary notice in this paper, the late Mr. Scholes served on the Niagara frontier in 1865. He was an enthusiastic military man and a true patriot. At the services in the family residence, yesterday afternoon, those taking part were Rev. Ben. Greatrix, Rev. A. Martin and Mr. William Johnson. Sir Mackenzie Bowell, under whom the late Mr. Scholes had served on many occasions, was also present. Many beautiful floral tributes were contributed by sympathizing friends. The bearers were: Messrs. J. Woodley, B. Quincey, W. B. Meyers, Geo. Warham, W. Drury and Ald. Hagerman.

To-day's Market.

The market to-day was well attended, but, as usual, prices were high for all produce offered for sale. Eggs being offered in considerable quantities caused a slight decrease in price from a week ago.

Our quotations are as follows:

Hay—$13 to $15.
Butter—28c to 30c.
Eggs—22c to 25c.
Fall wheat—$1.00.
Spring wheat—75c bus.
Barley—60c a bus.
Oats—45c to 50c.
Rye—65c bus.
Peas—75c bus.
Buckwheat—80c.
Timothy—$7.50.
Clover, red—$15 to $16.
Alsike—$11 to $12.
Dressed Hogs—$8.50.
Dressed beef, fore—$1 to $1.50.
Dressed beef, hind—$5 to $5.29.
Spring lamb—18c to 20c.
Mutton—8c to 10c.
Veal Hides—9c per lb.
Pelts, No. 1—55c.
Turkeys—12c to 15c per lb.
Geese—$1 to $1.50.

SUFFERED TORTURES FOR 70 YEARS

Wife of a Prominent Physician Tells How She Was Cured.

Mrs. J. R. Flock is the widow of one of the best known physicians in London, Ontario. She was treated by her husband and many other medical men yet never received any lasting benefit. Just by accident, she tried a well-known remedy, and now, after 70 years of suffering, she is well. Read her letter to Fruit-a-tives Limited.

"Dear Sirs,—Since my early childhood (and I am now in my seventy-third year) I have suffered indescribable torment from stomach trouble and indigestion, complicated with liver disorders. Being the wife of a prominent physician (the late Dr. J. R. Flock), I, naturally enough, had a prejudice against proprietary remedies. I was, however, unable to benefit to any great extent through my lifetime, from taking the ordinary remedies of physicians, being constantly in delicate health from stomach disorder and vomiting. Accidentally I came into possession of a sample of "Fruit-a-tives"—tried them, and found myself wonderfully benefitted. I take them now as my only medicine and they are keeping me in the most satisfactory health.

After finding out the wonderful medicinal qualities of "Fruit-a-tives" I have recommended them to many of my friends and acquaintances, who have also had the best results from their use—and one lady friend that I have recently recommended them to, has used them for Sciatica, from which she suffered constantly and was unable to procure any remedy that would relieve her. She is now taking "Fruit-a-tives" and is cured.

I am glad to be able to recommend "Fruit-a-tives" and will be glad if you will use my name in any way that will be the means of bringing your remedy before the public."

(Sgd.) Mrs. J. R. Flock,
345 Dundas St

MERIDEN BRITA CO.

One Hundred and Ten Men Strike.

Niagara Falls, N.Y., Oct. 17.—One hundred and ten men struck yesterday at the plant of the Cliff Co., paper-makers, on receipt of orders from President Kelly of the International Papermakers' Union. The men at the plant of the Pettibone Cataract Paper Co. are expected to quit work during the day.

Powder Explosions.

Vancouver, B.C., Oct. 17.—Careless workmen yesterday dropped a match in a powder magazine at Cumberland, Vancouver Island, and another man stepping on it, caused an explosion. Four men were injured, but none will die. Half of the windows in the village were shattered, and the loss will total from $5,000 to $6,000.

Year For Selling Without a License.

Chatham, Oct. 17.—Charles Palmer of Berlin, a local option town, was brought before Judge Houston yesterday morning on five charges of selling liquor without a license. He was convicted on charges and sentenced to 12 months without the option of a fine.

Plans a New Railroad.

Ottawa, Oct. 17.—Hull capitalists have formed a company with a capital of $100,000 to construct a railroad from Lake Temiskaming to Upper Satika Lake, 28 miles in length, mainly to connect with the C.P.R. and to carry metal from the silver mines.

Two Balloons Lost.

Berlin, Oct. 17.—The German balloons Plauen and Hergosell, which left here Monday last in an endurance contest with 27 other competitors, have not been reported, and the Aero Club committee is convinced that they have been lost at sea.

Typhoon Destroys Reception Halls.

Amoy, Oct. 17.—A typhoon demolished all the buildings erected for the reception to the officers and men of the American battleship fleet with the exception of the main reception hall.

Forty Cases of Smallpox.

St. John, N.B., Oct. 17.—Over forty cases of smallpox have been discovered in Madawaska County. The disease is of a mild type.

WHAT McINTOSH BROS SAY.

An Eminent New York Chemist says that disease is carried on soiled bills, and that nearly all money is Germ-Laden. One of the best things to do with money, clean or soiled, is to bring it to this store and get nice new clean merchandise for it. Our clerks have all been made germ-proof and you will run no risk of spreading disease by handing them your money.

The following items and prices are samples of what you may expect AT THIS SALE, COMMENCING MONDAY MORNING:

REFUGEES MEET DEATH

Seventeen on Michigan Forest Fire Relief Train Perish.

Inhabitants of Village of Metz While Fleeing to Alpena Are Ditched by Spreading Rails Between Blazing Ties and Are Cremated In Coal Gondola Car—Fire Threatened to Destroy Their Village.

Alpena, Mich., Oct. 17.—Seventeen people lost their lives Thursday night in the burning of the Detroit & Mackinaw Railroad relief train, which was carrying the inhabitants of the little Village of Metz, 23 miles north of here, to safety from the forest fires which were sweeping away their homes.

The ill-fated train was ditched by spreading rails at Nowicki siding, a few miles south of Metz, and the terrified refugees were forced to abandon the cars and rush for safety either down the track, with burning forests on either side, or into the plowed fields nearing the siding.

Eleven of the victims were women and children, who were unable to escape quickly enough from the gondola car which they were occupying. Their charred bodies were found there yesterday when rescuers reached the scene.

Two of the men victims were members of the train crew. Four additional fatalities occurred in the neighborhood of the wreck. Mr. and Mrs. Fred Wagner died from heat and exhaustion on their farm near the scene of the wreck, and Mr. and Mrs. Fred Nowicki, Jr., lost their lives in their burning house near the siding where the wreck occurred.

Following is the list of the dead in the wreck: William Barrett, Alpena, brakeman; Arthur Lee, Alpena, fireman; John Konieszny, Mrs. John Konieszny, John Konieszny, aged two; Joseph Konieszny, aged three; Helen Konieszny, aged seven months; Mrs. George Cicero, Margaret Cicero, aged two; George Cicero, aged five; a third Cicero child, aged eight; Mrs. Emma Hardie and Pauline Hardie, aged nine; Mary Hardie, aged three; Minnie Hardie, aged eight months.

When the forest fires closed in on Thursday about the little village, a special train of three empty box cars and two coal gondolas were rushed to Metz.

As rapidly as possible the people and their goods were loaded in the cars. When the train started there were about 100 frightened people aboard. The flames were already sweeping through the village. Nearing Nowicki Crossing, the engineer saw blazing piles of cedar ties on both sides of the track. Opening wide the throttle he tried to dash through at full speed, but the heat had loosened the rails and they had spread and the train left the track. Blazing piles of ties surrounded it and in an instant the cars caught fire. The terror-stricken people caught by the peril from which they were fleeing, jumped from the cars and rushed down the track. They were cremated in the gondola car, where they were caught.

Sixty people who spent a night of terror on a southbound train from Cheboygan, was hemmed in all night by fires at LaRogue, have just arrived here on a relief train.

The fire yesterday afternoon is reported to be dangerously near Rogers City. La Rogue also seems to be doomed, unless rain comes within a few hours. Women and children have been sent away from this village.

Farms between Metz and Rogers City have been ravaged by the fires.

Detroit, Oct. 17.—A despatch from Hurst, Mich., says: Henry C. Kemps, his wife and two children, were burned to death yesterday or Thursday night. The four bodies were found yesterday in the ruins of the farmhouse.

Forest Fires Threaten Soo.

Sault Ste. Marie, Mich., Oct. 17.—Forest fires have again broken out in Chippewa County and are threatening in the extreme. Brimley, a town 15 miles west, is in serious danger of destruction, and Neebish settlement was saved Thursday night only by heroic efforts of the fire department from the Canadian Soo, which went there with an engine on a tugboat.

The smoke is so thick that it was impossible to see across the river yesterday, and boats are either tied up or operating under check. Unless there is rain soon, the losses will reach hundreds of thousands of dollars.

The flames reached the city limits here Thursday night and threatened a dynamite storehouse.

Farm House Burns; Family Escapes.

Harrow, Oct. 17.—About midnight Oct. 15, the two large barns belonging to W. C. Cornwall were destroyed by fire.

About 4 o'clock yesterday morning the dwelling of Ralph Mickle, a farmer, living about six miles northwest of Harrow, was destroyed. Mickle, his wife and children barely escaped. Nothing was saved.

Killed by C.P.R. Engine.

Winnipeg, Oct. 17.—While wheeling coal across the C.P.R. just west of the depot, Thomas Scarrett dodged one train and ran under a light engine. He was killed instantly. Scarrett was from Crewe, England.

Race Fight Is Over.

Seoul, Oct. 17.—The trouble arising from the engagement of Chinese and Japanese troops at Kantao, Northern Korea, has been settled and no further difficulty is expected.

Will Use Buildings Again.

London, Oct. 17.—It is announced that the buildings of the France-British Exhibition will be utilized in 1909 for a great international and colonial exhibition.

Toronto Graduate's Success.

London, Oct. 17.—(C.A.P.)—J. J. Cameron, Toronto University, has been admitted a member of the Royal

M'GILLICUDDY COMMITTED.

Calgary Editor to Be Tried on Criminal Libel Charge.

Calgary, Alta., Oct. 17.—Court was crowded yesterday morning, when Dan McGillicuddy, editor of The Calgary News, appeared, charged with criminal libel on Editor Edwards of The Eye-Opener. E. Taylor and Col. Walker were on the bench, and Lawyer Nolan acted for Mr. Edwards and Clifford Jones for the defendant.

Three linotype operators testified that they set up the letter signed "Nemesis," written in a hand they would swear was McGillicuddy's. News Editor Quayle said the correspondence didn't go through him, as McGillicuddy had handled it, but he saw the manuscript in the hands of the printers and it resembled McGillicuddy's writing in some particulars.

Business Manager Hammond said a thousand papers had been sent to a man named Campbell, at Edmonton, and the same number to Fisher, at Brandon, but he did not know by whose orders.

The justices bound the accused to appear for trial at the Supreme Court Nov. 3. Bail of $5,000 was accepted.

Fourteen Years For Murder.

Sault Ste. Marie, Oct. 17.—Achillo Scigliano, accused of manslaughter in connection with the death of Bacga Parocoo, Little Italy, last July, was sentenced by Judge Latchford to 14 years at Kingston yesterday.

When the sentence was pronounced the three Sciglianos burst into tears, Benny being particularly affected.

Tonie Makie of Michipicoten was sentenced to five years at Kingston on the charge of manslaughter in connection with the death of Isaac Saari at Grace Mine. The judge held that the prisoner was an old man and not wholly to blame for the trouble resulting in the fight, deceased having entered his house and commenced it.

Order For Export Cement.

Ottawa, Oct. 17.—The use of Canadian cement in Spokane under recommendation of the city engineer is the first case on record of an export order coming to Canada, and the Dominion makers look forward to a growth of this trade. The cement in question is that manufactured at Exshaw, Alta., and is for use in Spokane City bridges.

Old Age Annuities.

Ottawa, Oct. 17.—The Government has received many applications to purchase old-age annuities, and will begin the sale next month. The applications are from lawyers, doctors, clergymen, merchants, farmers, business men and wage-earners.

Pamphlets explaining the scheme are being issued.

Formed Mine Owners' Association.

Kenora, Oct. 17.—In order to promote the revival of the mining industry and secure unison on matters pertaining to the auriferous mining industry, a public meeting was held Thursday, and a Mine Owners' and Prospectors' Association formed. Capt. Machin, M.P.P., was the initiator.

Untold Wealth.

"What is 'untold wealth,' pa?"

"The property you keep out of the tax list."—Harper's Weekly.

HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases.

Mrs. Frank Emsley, Lindsay, Ontario, writes to Mrs. Pinkham:

"When I wrote to you some time ago, I was a very sick woman suffering from female troubles. I had inflammation of the feminine organs and could not stand or walk any distance. At last I was confined to my bed and the doctor said I would have to go through an operation, but this I refused to do.

"A friend advised Lydia E. Pinkham's Vegetable Compound. After using three bottles of it, I feel like a new woman.

"I most heartily recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer with female troubles."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration

Christian Science Daily.

Boston, Oct. 17.—The Christian Science Sentinel in this week's number announces the starting by the Christian Science Publishing Society of a daily paper, to be known as The Christian Science Monitor.

There will be no exploitation or illustration of vice and crime, but the aim of the editors will be to issue a paper which will be welcomed in every home where purity and refinement are cherished ideals.

Can't Fill Bishopric.

Washington, Oct. 17.—Giving as a controlling reason that his work in Boston, Mass., is still unfinished, Rev. Dr. Alexander Mann, rector of Trinity (Episcopal) Church of that city, has declined the position of Bishop of Washington to succeed the late Right Rev. Henry Y. Satterlee.

Bishop Brent of the Philippines has twice declined it.

Riel's Ex-Secretary Is a Candidate.

Prince Albert, Sask., Oct. 17.—Honore Jaxon or Jackson, ex-secretary of Louis Riel, and for many years a prominent labor union official in Chicago, purposes running in this riding as an independent.

There is some doubt as to his status as a British subject, as he is almost certainly a naturalized American.

Railway Bridge Destroyed.

St. Petersburg, Oct. 16.—A despatch to The Novoe Vremya yesterday, received from Belgade says that the railway bridge over the Bosnia river, at Vranduk, Bosnia, has been blown up and destroyed, thus cutting off communication with Serayevo, the capital of Bosnia.

Car Shortage Curtails Trade.

IRES AGAIN BREAK OUT

sastrous Conflagrations Raging Throughout Province.

ousands of Dollars Worth of Property In Vicinity of Barrie, Orillia and Huntsville Destroyed by Flames Resulting From Recent Dry Spell—Pall of Smoke Overhangs the Country—Gore Bay Is Safe.

Toronto, Oct. 19.—An army of men fighting day and night the bush es that have been raging for the st two or three days in the vicinity Barrie, Orillia and Huntsville, and ich have already destroyed thou- nds of dollars' worth of property d momentarily threaten to get be- nd control.

Near Barrie, all the outbuildings on farm of Mr. Waldie and those of . Kearns are reported burned, ile fences and buildings on other arby farms are said to be in flames. A swamp 20 miles in length, the thern border of which is but four les out of Barrie, is in desultory , sending great clouds of smoke to the town, fairly choking the citi- ns at times.

At the Longford Chemical Works, miles out of Huntsville, 500 cords wood are reported burning.

Several buildings at Rainy Lake, r Huntsville, are said to have been stroyed by fires which spread from bush and which la[illegible]ght threat- ed the destruction [illegible] proper-

Fires are raging north of Orillia d fragmentary reports tell of pro- rty damage running into the thou- nds in that vicinity.

All day long a heavy pall of smoke s hung over the entire northern trict and drifting in clouds south Lake Ontario, and fairly stifling ople in northern communities.

Rain was being prayed for in many urches yesterday to clarify the at- sphere, as well as extinguish the es.

At the Toronto Observatory last ening smoke and fog were reported eral through the province.

Sault Ste. Marie, Ont., Oct. 18.—It s reported here Saturday night that re Bay had been destroyed by fire. mediately on the report reaching Soo, points down the line as far Sudbury were communicated with d all state that the town is safe. e report was brought to the Soo a passing tug.

Detroit, Mich., Oct. 19.—Despatches m Alpena, Mich., indicate that the mber of deaths in the forest fires Presque Isle and Alpena Counties l exceed 50, and may run well up ards 100.

In the vicinity of Metz, Bolton and sen, the fires have burned suffi- ntly to leave several hundred wo- n and children camping with com- ative safety in the open fields, but r the city of Alpena Saturday ht the fires were so threatening t Mayor McKnight called out a unteer force of several hundred n with shovels to form a patrol l construct trenches to stem the gress of the flames in the direction he city.

It is now estimated that 23 people their lives in the destruction of ill-fated Metz relief train Thurs- evening.

To Christen Hammonic.

ollingwood, Oct. 19.—The launch- of the magnificent passenger amer Hammonic, truly the queen the Canadian inland lake marine, l take place between Nov. 4 and at the yards of the Collingwood pbuilding Co. The date will de- d upon the convenience of Miss ra Hays, daughter of Mr. Chas. M. ys of the Grand Trunk Railway, will have the honor of breaking the bottle, which will christen the vessel as she slides down the ways to her element.

Gave His Life For Others.

Toronto, Oct. 19.—The captain of the steamer Scottish Hero has telegraphed that Malcolm McGregor, first mate of that steamer, was on Thursday evening drowned near Point Iroquois, Lake Superior, while endeavoring to render assistance to the keeper of the light station at that point from bush fires raging in that vicinity, and which were threatening the destruction of the lighthouse.

Mr. McGregor was about fifty years of age and unmarried. His home is in the vicinity of Owen Sound, Ont.

Binns Confesses Dynamiting.

St. Thomas, Ont., Oct. 19.—Allen Binns, formerly of this city, has written to the chief of police acknowledging responsibility for the attempt to wreck the home of W. McClellan, on the night of Aug. 8, with a dynamite cartridge. Binns is now in San Diego, Cal., held by the authorities there for investigation as to his sanity, being connected with similar work there. But for a botched job the explosion here would have wrecked the house and killed the inmates.

Judge Shoots Himself.

Newark, N.J., Oct. 19.—Judge Howell of the Criminal Court of this city shot himself on Saturday in the head in one of the city parks while his court was waiting for him to appear. He probably will not recover.

Judge Howell was criticized in the political campaign and Friday night challenged his accusers to reply to questions which he asked them.

Bad Wreck Reported.

Winnipeg, Oct. 19.—A bad wreck is reported to have occurred west of Banff yesterday morning, in which three passengers were killed and several injured. No particulars have been received here yet.

Sign of a Wreck.

Victoria, B.C., Oct. 19.—The lighthouse keeper at Carmanah Point reported the portion of a small deckhouse, probably part of a fishing schooner, yesterday morning.

Father Identifies Dead Son.

Niagara Falls, N.Y., Oct. 19.—The youth who shot himself in a clump of bushes on Goat Island on Sept. 28 was yesterday identified by his father as Robert Weston Kirkland, Jr., a clerk 19 years of age, of 97 Weaver street, Philadelphia. He had been missing since Sept. 24. No reason is known for the suicide.

Fight on Streets.

Cobalt, Oct. 19.—A free-for-all fight took place on the street near the Catholic Church Saturday night, between some Pollacks. Knives were used and one man had his hand badly cut. Another is badly carved up, and is not expected to live.

Causes Satisfaction.

London, Oct. 19.—(C.A.P.)—Much satisfaction is felt in Anglo-Canadian circles at the prospect of the proposed transfer of Hindus to Honduras.

Runaway Team Kills Farmer.

St. Thomas, Ont., Oct. 19.—Wm. A. Hill, townline, Yarmouth, a well-known farmer in western Ontario, was killed near his home Saturday afternoon. His team of horses ran away and Mr. Hill, who was in front of them, attempted to stop them. The neckyoke struck his breast and he died three hours later.

Reporter Wins.

Ottawa, Oct. 19.—Art Burn, the well-known Calgary distance runner, was badly beaten Saturday afternoon in an eight-mile matched race at Varsity oval by Hubert Tebo, a young Ottawa newspaper reporter, who only started running this year. Burn was 750 yards behind Tebo at the finish.

Killed by Bicycle.

Toronto, Oct. 19.—Mrs. John A. Paterson died in the hospital on Saturday at 1.30 p. m. from injuries due to being knocked down by a cyclist. She was vice-president of the Woman's Art Association and one of its most active members. Chief Coroner Johnson said there was no necessity for an inquest.

Western Elevator Destroyed.

Macdonald, Man., Oct. 19.—The Winnipeg elevator at this point was totally destroyed by fire Friday evening. The elevator contained 5,000 bushels of wheat, which will be a total loss.

Suicide at Winnipeg.

Winnipeg, Oct. 19.—Ralph Graves, aged 23, employed by Chares and Bertram, butchers, committed suicide on Friday at his home on Bannadyne avenue by drinking carbolic acid.

R. L. Borden Issues Pledge.

Leader Issues Manifesto to the Electors of Canada.

Will Make it His Work to Give the People an Honest Government, Reform of Civil Service, Restitution of Spoils, and a Fiscal Policy--Replies Sharply to Laurier's Statement That His Soul Was Lofty.

Halifax, Oct. 19.—Mr. R. L. Borden has issued his manifesto which reads in part as follows:

"What is the aim of the Conservative policy?

"To give to the farmers and producers better facilities and more favorable rates for transportation.

"To keep our young men on the farm and to bring within their reach the comforts and conveniences of modern civilization, better postal facilities, free rural mail delivery, cheaper and wider use of the telegraph and telephone.

"For the laboring man such application of the principle of protection as will justify and insure the payment of a fair living wage and will safeguard his interests against unfair and unjust competition.

"For the fishermen better consideration of their interests and more favorable access to our own home markets.

"For all the people honest administration of our public revenues and honest expenditure of public moneys for public purposes alone; a thorough reform of our civil service; decent appointments to public offices; reformation of the election laws and thorough enforcement thereof; restitution to the people by all constitutional means of their pillaged public domain; thorough control of our public utilities; more careful selection of immigrants and exclusion of undesirables.

"Non-partisan management of our state-owned railway; a fiscal policy which will develop all our great resources, including those of the forest, the mine and the fisheries. The development and improvement of our national waterways; the equipment of our national ports; the promotion of preferential trade within the Empire; the unimpaired maintenance of provincial rights and liberties.

"When plunder of the public domain and of the public revenues has been charged and specific instances given Sir Wilfrid Laurier has replied in these words: "I disdain to discuss these issues; my soul is turned toward greater events and questions."

"Is not honest administration the greatest issue of all? What are the greater events and questions toward which the Prime Minister's soul is turned? Was Alexander Mackenzie's soul less lofty because he esteemed it his first duty to protect Canada's treasury against plundering of camp followers?

"Surely the Prime Minister of Canada could not occupy himself with considerations of more transcendent importance than those which are concerned with the moral foundations upon which alone the permanency of democratic institutions can securely rest!

"I promise if returned to power a Cabinet worthy of the electors' highest ideals and truly representative of the great country which I shall serve."

Toronto to Lose Firm.

Woodstock, Ont., Oct. 19.—The announcement was officially made by Superintendent McBeath of the Canadian Furniture Manufacturers, that preparations are being made at the works here for the reception of the general offices of the company, which are now located in Toronto. Superintendent McBeath said yesterday that he had guaranteed to have office premises ready by Nov. 15, at which time the removal will be made. The establishment of the head office here is but the first step towards the concentration of the company's various factories in Woodstock which will mean much to this city.

Clements Drops Suit.

Chatham, Ont., Oct. 19.—As in the opinion of the legates concerned, Magistrate M. Houston has no jurisdiction to try the case of alleged scandal brought by H. S. Clements, Conservative candidate for West Kent, against Dr. Oliver of Merlin, and as it is realized that enquiry into the matter complained of could result in no judgment by the magistrate, that in any case would be binding on any of the parties, the complaint has been dismissed.

Two Perish In Fire.

Knightstown, Ind., Oct. 19.—Two persons perished and 25 buildings were destroyed Saturday in a fire at Shirley, a little town north of here.

Mr. and Mrs. I. V. M. Prior, who conducted a restaurant, were burned to death. Nearly all the houses destroyed were dwellings and many of the people who lost their homes narrowly escaped with their lives. Loss, $150,000, partly insured.

SENTENCED TO PRISON.

Three Men at North Bay Get Terms —Martin Case Held Over.

North Bay, Ont., Oct. 19.—The high court, before Judge Britton, closed Saturday night, after a busy week with a long calendar of criminal and civil cases. Several criminal cases were adjourned to the November sessions, including the Cobalt "high grading" case.

Thomas S. Wright, found guilty of manslaughter, was sentenced to seven years in the Kingston Penitentiary. The jury in the case of Edward Eaton, charged with the murder of Frank Ellar at Temagami, brought in a verdict of manslaughter, after being out all night. Eaton was sentenced to nine months in the Central Prison.

Alex. Stevens, found guilty of a serious offence against a nine-year-old immigrant girl, will spend two years in the Kingston Penitentiary and receive 20 lashes.

William Martin, Jr., who pleaded guilty to retaining funds belonging to the Town of North Bay, to the extent of $24,000, while acting as tax collector, was again admitted to bail, Judge Britton announcing that he would take into consideration the request of his counsel for a suspended sentence, and reserve decision until the December Assizes.

ROASTED ALIVE.

Fireman Robert Johnson of St. John, N.B., Meets Horrible Death.

Woodstock, N.B., Oct. 19.—During a dense fog Saturday two C.P.R. freight trains collided head-on near Stickney. Robert Johnson, St. John, fireman, was burned to death, and Chas. Humphrey, Woodstock, engineer, was fatally injured and died a short time after.

Fireman Johnson was caught between the tender and the firebox, and roasted alive, while he piteously begged the train men to kill him, and put him out of his agony. One leg was burned off before he was extricated. Humphrey had both legs and his back broken. Conductor Taylor was injured about the head and face. The engineer and fireman on the other train jumped and saved their lives.

MASSACRES IN ARMENIA.

Horrible Atrocities Reported In Despatch to Berlin.

Berlin, Oct. 19.—There have been frightful massacres in Armenia, according to the Constantinople correspondent of The Berliner Tageblatt. This paper Saturday publishes a despatch from the Turkish capital which says:

"Armenians in Wiranschehir have been massacred by Turkish troops. The women and children have been subjected to fearful treatment. The troops were sent to Wiranschehir to overawe the mutinous townspeople, two-thirds of whom are Amenians, and they at once began murder and plunder. They are said to have completely overrun the city."

Elect Woman President.

Montreal, Oct. 19.—The Protestant Teachers' Association of Quebec closed its sessions on Saturday, after a somewhat stormy meeting.

For the first time in 44 years of its history a woman was elected to the presidency.

This movement was strongly opposed by the men, but as the women constitued 95 per cent. of the teachers of the province they outvoted the men. Miss Mary Ferguson of Montreal was elected president.

Lord Napier's Son Suicides.

New York, Oct. 19.—A cable despatch to The Herald from Shanghai, China, says: Cecil Scott Napier, commissioner of customs at Wenchow, and son of Lord Napier of Magdala, while temporarily insane from fever leaped from a window of the hospital in Wenchow and was killed.

Latest advices say the disturbance between the Chinese and Japanese at Kanto was exaggerated and that the trouble will be amicably settled.

Woman Killed at Muirkirk.

St. Thomas, Oct. 19.—Mrs. Althea Walker, aged 70 years, while on her way to the depot to take a train to St. Thomas, was struck and instantly killed by the M.C.R. freight train at Muirkirk Saturday morning. She tried to cross the tracks ahead of the train. She was a widow, and is survived by one son and two daughters. Mr. N. W. Ford of Toronto, formerly owner of The Chatham News, is a brother.

Unmatched Millinery Styles

Our Millinery remains unmatched, showing as it does such style, such quality and such becomingness as can be found nowhere else. No two hats are ever just alike, every one possesses its own individual and distinctive charm.

THE CALENDAR.

293 Days past—Days to come 73.

OCTOBER

19

Monday

Be a man!
Bear thine own burden, never
think to thrust
Thy fate upon another.
Robert Browning.

THIS DAY IN HISTORY.

Dean Swift died, 1745.
Battle of Leipsic, 1813.
Prince and Princess of Wales left for Indian Tour, 1905.

TIMELY TOPICS.

Good evening. Glad to see the smoke last night didn't suffocate you. It nearly fixed us.

• • •

A week from to-night and they'll be shovelling the snow from off the Grits.

• • •

Excuse us if we write a little biased to-day. Lady in church last night fanned the back of our neck till it was a good deal stiffer than Laurier's backbone. Hence, if we say an unkind thing or two about the Grits people will know the reason and remember the kindness with which we treat them on ordinary occasions.

• • •

Gentleman in a local church last night, speaking on China, said the Chinese were not, as a rule, honest. Honesty, he said, was not a product of heathenism, but of Christianity. True. And yet we have known a few Christians who would stand considerable watching, too.

• • •

Lady tells us a sad story. Many people have seen a blind man who stands on our streets, He holds out a mug, in which charitable people put small change. It is alleged that, not long ago, two youngsters were seen to go—not once, but several times—to that poor chap's cup and steal his copper. It does not require much of a prophet to foretell that the doors of the reformatory will soon yawn for those youngsters.

• • •

Laurier says he has given his life for this country. That's all right, but the trouble is he's giving the country to his friends.

• • •

A traveller who spent the week-end in this city, and who has recently travelled from Nova Scotia to B. C., says the country is three-quarters full of Conservatives. The west, he says, will go nearly straight Conservatives.

• • •

FOUR GOOD REASONS.

A correspondent of the Montreal Star gives the four following excellent reasons why Mr. Borden should be placed in power:

1 Respect for Laurier, in the nation at large is dead. His recent tour of Ontario, which he is talking about in Quebec, was a mere farce. Why did he avoid all the large centres of English population and appear only in the out-lying settlements?

2. Because of the looting of the public domain as brought to light by the Opposition, in spite of Government obstruction.

3. Because there is every reason to think that the stealing will continue with renewed activity if a new lease of power be granted.

4. Because self-preservation demands that the individual voter save his country.

• • •

A vote for Laurier endorses Sir FRED Borden, Minister of Militia, and all his wrong doing.

• • •

The time is ripe, and rotten ripe, for a change at Ottawa.

• • •

Liberals should refuse to stand for, or support a government so admittedly corrupt.

• • •

The camp followers of Laurier and his corruptionists refer to the "campaign of slander" being waged against them. Most people do not call it slander, they call it THE TRUTH.

• • •

The fine October weather we're havin' is proof that Ontario's new minister of agriculture, though he is a Duff, is no duffer.

• • •

No, the Grit. papers are not printing that stirring campaign song of olden days beginning:

"Ring the knell of boodling, boys,
Ring it loud and long."

• • •

The general rule governing those entitled to vote in the Dominion elections makes it necessary that the name be on the voters' list, and that he be in actual residence, in the riding on election day. Any one who has moved, from a riding if it be only one day before, is not entitled to vote.

• • •

Borden for Premier and Better Government.

DR. A. W. CHASE'S CATARRH CURE ... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

PERSONAL AND SOCIAL.

Mr. D. E. K. Stewart, of Madoc village, was in the city to-day.

Messrs. Frank Birch and Herb. Swain, of Kingston spent Sunday in this city.

Mrs. Will Purdy and children of Castleton are visiting Miss Bowers, Benjamin street.

Mrs. R. B. Garrison, of Bolette, Dakota, is visiting her daughter, Mrs. C. F. Boyle, Dunbar street.

Mr. J. C. Morgan, M.A., of Toronto, is in the city, and yesterday occupied the pulpit of Christ church.

Lieut. W. H. Hudson, of the Fifteenth Regiment, left yesterday for Toronto, where he will take a military course at Stanley Barracks.

At the Quinte: W. A. Thayer, A. J. Doke, L. H. Rous, C. B. Sharp, L. D. Jones, J. C. Morgan, Miss Curlette, E. J. Lane, A. A. Davis, Toronto; A. W. Benjamin and wife, Miss Benjamin, J. C. Connelly and wife, Yarker; B. J. Fox, Detroit; H. B. Combe, Clinton; A. Jeffries, Ottawa; W. H. Quick, G. H. D. Martyn, J. S. Bearns, jr., L. McLellan, L. M. Bailey, J. A. Cerow, W. Munro, F. Hearn, New York; W. Flavelle and wife, Lindsay; T. Dickison, London; D. E. K. Stewart, Madoc; A. W. Cliffe, London, Eng.; H. W. Sherriff, B. R. Hepburn, Picton; A. Leitch, H. J. Hurley, M. Malzer, J. R. Wallace, G. F. Hepburn, H. R. McLennan, Montreal.

Political Poetry.

Tom Hood wrote The Song of the Shirt, but this is more common, being The Song of the Soup Kitchen, respectively dedicated to John McCargar and Jesse Funnell, who on the 26th you bet we'll pummel:

Let the swell of my song
Flow onward away
The Conservative party
Will carry the day.

The questions before us
We soon must decide
In a political battle
For which now provide.

The horse Reciprocity
Sir Richard did ride
But his crazy old steed
Has laid down and died.

Poor Dickie, old boy,
You tried us to do
And now the Grit party
Has no use for you.

On a horse called Free Trade
Sir Wilfrid will fight
At the throat of Protection
He'll strike with his might.

Sir Mac, our old warrior,
A good horseman is he,
He says to Sir Wilfrid
He's weak in the knee.

This time he will throw you,
Your party he'll wreck
He'll give you a tumble
That will humble your neck.

He will raise up his voice
And shout out a trade
And call on his rabble
To vote for Free Trade.

Be true to the policy
By which I do stand
It will start up soup kitchens
Throughout the whole land.

From the class of poor labor
His ranks he'll recoup
Free Trade, he will say,
Is the ticket for soup.

In political battles
Brave Borden's oak and rock
He says to Gus Porter,
This game we must block.

He addresses learned labor
Saying, listen to me
If you'd stop these soup kitchens
Just join hands with me.

CHARLES LAVIS.

Belleville, Oct. 16, 1908.

Twitching of the Nerves

BECAME ALMOST UNBEARABLE UNTIL DR. A. W. CHASE'S NERVE FOOD BROUGHT ABOUT A CURE:

Tapping of the fingers, restlessness, sleeplessness, inability to control the nerves.

What a story of exhausted nerves is told by these symptoms. Nervous prostration and paralysis are not far away unless restorative treatment is used.

The writer of this letter was fortunate enough to learn about Dr. A. W. Chase's Nerve Food and tells his experience for the benefit of other sufferers from diseases of the nerves.

Mr. Wm. Branton, Strathroy, Ont., writes: "My nervous system was all unstrung. I could not sleep, had no appetite, my digestion was poor and my nerves twitched. Twenty-four boxes of Dr. Chase's Nerve Food completely restored my health."

Portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on every box. 50 cents at all dealers or Edmanson, Bates & Co., Toronto.

To set a smile's face toward glad ways is to incline him to God.

We are not thankful enough for the tire that is not punctured.

You can make almost any man uneasy by telling him that a policeman was asking about him.

A Valuable Apple Pie.

It Has Already Netted More Than $100.

Spokane, Wash., Oct. 17 — Fraters of the Masonic order at Coeur d'Alene, Idaho, thirty-four miles east of Spokane, own an apple pie, which has been sold so frequently that it is now worth its weight in gold. It has already netted more than $100 for the lodge, whose building and paraphernalia were destroyed by fire several months ago, and it will have a place in the cornerstone of the new temple. It has been christened "the pie that bought the cornerstone of the Masonic Temple of Coeur d'Alene." With it in the box will be a photograph and description of the pie. The plan to use the pie as a building fund-getter was originated by George Fayzette of Coeur d'Alene, who paid fifteen cents for it at St. Maries on an excursion by the lodge. It was sold to the highest bidder, resold, the last buyer paid $4.40 for it. He has had a photograph made and these with the history of the pie be sold throughout the district, the proceeds to be devoted to the building fund.

The lefthand running of trains on double track is practised by two important railways in the United States—the Lake Shore and Michigan Southern railway and the Chicago and Northwestern railway.

Rubber Goods That Are Alive

At this season a good Hot Water Bottle is a necessity in every home. We have a large assortment of fresh Hot Water Bottles. Fountain Syringes household rubber gloves. rubber sponges, face brushes, etc, that are alive and full of elasticity not the kind that are dried up and ready to crack after a few months use.

Daily Intelligencer.

Hypocricy—A True Son of the Party.

A Mr. Chew has been nominated in the Liberal interests to oppose Mr. Bennett, who has represented East Simcoe during the last two or three terms, and, like others, is busily abusing Mr. Bennett on account of his investing money in the Northwest deal of Fowler and others, though Mr. Bennett's connection with that speculation was simply to take some stock, having had nothing to do with the Foresters' negotiations. With him it was simply a business transaction.

Now, who is this Mr. Chew, that prates about land deals?

The official records of the House of Commons show him to be a man who, in 1903, secured from the Government he seeks to support the privilege for which he paid the brother of a Liberal member of Parliament $50, to secure for himself from the Department of Marine for the sum of $100, the right to cut cedar and basswood on one hundred acres of land on Hope Island. He was to have three years in which to get out this hundred dollars' worth of timber. It took fifteen men and three teams months to perform the operation.

This is not all. This same Mr. Chew was charged with having removed no less than 140,000 feet of timber in addition to the cedar and basswood for which he had bargained. It was added that the timber thus secured for a paltry hundred dollars was worth three or four thousand. Mr. Prefontaine, then Minister, did not deny the price at which the lot had been disposed of, or that Mr. Chew had cut 140,000 feet of timber other than that for which he had bargained. On finding that Mr. Chew had exceeded the limit of his rights, the Department compelled him to pay a stumpage of $2 a thousand on the 140,000 feet of extra timber thus wrongfully cut.

These are the kind of men the Liberals put in the field and prate about land deals. Hypocricy and dishonesty seems to be the ruling fashion with them.

South Hastings Teachers' Meeting

FRIDAY MORNING.

The convention opened at 9 o'clock, with the attendance showing a slight increase over that of Thursday. Mr. Fairman, with his fellow-teachers from Trenton, and several teachers from the Separate schools of South Hastings were present. And just here, an error was made in Friday's paper, in that Mr. Fairman's name was mentioned in connection with the homework discussion. The speaker was Mr. Bell, of Frankford.

The opening feature was the President's address, "The Teacher and Her Class." In this Mr. Clarke made an eloquent appeal to the teacher to give her most earnest, honest efforts for the welfare of the pupil, to go beyond text-books, to seek outside information from every available source; in short, to be "alive" and, like Matthew Arnold, allow pupils to drink from a living stream, and not from a stagnant pool.

Mr. W. H. Nobes, of Sidney, began the discussion of Promotion Examinations. He was followed by Messrs. Ross, Fairman, Clarke and others. The Promotion Examination papers of last June were set jointly by Mr. Clarke, P.S.I. of S. Hastings, and Mr. McIntosh, P.S.I. of N. Hastings. The standard of these papers is considerably higher than that of the papers to which S. Hastings has been accustomed for many years. Some think the standard too high, but the majority agree that the standard is what it should be, still admitting that the change has, perhaps, been a little too sudden.

A very helpful paper on "Composition" was given by Miss Phelps, of Melrose.

Mr. Fairman, who was delegate to the O. E. Association last April, gave a full report of the business done and of the resolutions made.

A motion to the effect that the S. Hastings Association remain in touch with the Ontario E. Association was carried. Later Miss Rush and Mr. Nobes were appointed the delegates for next year.

FRIDAY AFTERNOON.

Mr. S. C. Clark, on behalf of the teachers, thanked the President (Mr. Clarke) for his address on "The Nature Study Course," at the same time making the request that Mr. Clarke issue the same in pamphlet form for the benefit of the teachers. This request was put in motion form, seconded and heartily approved of by all present.

"The Influence of Spencer on Modern Education" was the subject of a scholarly paper given by Miss A. E. Ross, of Tweed.

Miss M. R. Hay, of Deseronto, dealt with "Drawing." The art course for Public schools was explained in a very efficient manner by Miss Hay, who also outlined the work most suitable to each season. Miss Hay held that the aim of the teacher in teaching drawing and color work should be to lead pupils to see, to feel, to express the beauty of form and color in all about them.

Mr. R. J. Blake, Principal of Tweed Continuation School, gave a paper on "The Uses and Abuses of a P. S. Library." The uses of a P. S. library were no numerous and apparent to all as to leave no doubt of the value of such a library. Of the abuses, Mr. Blake thought the first rested in the selection of the books, not more than one-third of which should be fiction; the remaining percentage should be works bearing on history, biography, geography, science and kindred subjects.

Mr. F. A. Ashley, of the B. B. College, gave a clear and practical talk on the subject of "Writing." At the close of this lecture the teachers showed their appreciation by tendering Mr. Ashley a hearty vote of thanks.

SATURDAY MORNING.

The first few minutes were used by the President to explain the filling out of the register report for the year.

At the time of the visit of the Prince Edward teachers to this city an invitation to accompany those teachers in their visit to the D. and D. Institute had been extended to the teachers of South Hastings. It was moved that Dr. Coughlin be tendered a vote of thanks for his courteous invitation. Needless to say, the motion was quickly seconded and carried.

The Inspector's visit was discussed (1) From the teachers' standpoint by R. A. Morton, Miss E. L. Rush and Miss Hinchey. (2) From the Inspector's standpoint, by the Inspector himself.

The remainder of the forenoon was taken up with a further discussion of the resolutions of the O. E. A. Some small matters of business were then disposed of, and a vote of thanks tendered to all those who had so kindly given their assistance.

From the Inspector to the youngest teacher, all agreed that the convention had proved a decided success.

The meeting was closed with the singing of the National Anthem, led by Mr. Saunderson, who presided at the piano.

The sessions throughout were enlivened by musical selections rendered by Miss Huff and Miss B. Huff, Miss Black, Miss Draper and Miss Phillips.

This is the trade-mark which is on every genuine bottle of Scott's Emulsion sold in nearly all the countries of the world. Nothing equals it to build up the weak and wasted bodies of young and old.

PILLSWORTH — In Belleville, on Oct. 17, to Mr. and Mrs. F. D. Pillsworth, Commercial street, a son.

The size of bed sheets used in hotels is regulated by law in Oklahoma.

Murray-Graham.

All Saints Church, Graysville, was the scene of a very pretty and interesting event on Oct. 14, when Annie Laura, only daughter of Jas. Graham, of Carman, was united in the holy bonds of matrimony to William Simpson Murray, also of Carman. The Rev. A. E. Davis, of Carman officiated. Promptly at 2.30 the bride entered the church on the arm of her father, to the strains of Wyman's Wedding March played by Mrs. T. M. Graham.

The bride was tastefully attired in a robe of filet net and embroidered chiffon taffeta over lousinina silk. She wore the convential veil and orange blossoms and carried a bouquet of bridal roses, lilies of the valley, and heather. Miss Ella Sexsmith, of Winnipeg, cousin of the bride, who acted as bridesmaid was dressed in white chiffon taffeta and lace with touches of blue velvet, and wore a large hat of brown and champagne. Her bouquet was of pink roses, lilies of the valley and smilax. The groom was ably assisted by his brother, Chas. Murray, of Manitoba College.

Annie Marjory Sexsmith, of Winnipeg made a cute little flower girl in a dress of white point desprit over silk.

When the ceremony was over the bridal party and some twenty guests drove to the home of the bride's father. After partaking of a dainty wedding breakfast the bride slipped away to don her travelling suit of green velvet broadcloth with coat opening over a blouse of cream cluny lace.

Her hat was green with mink trimmings and she wore a throw scarf and muff of mink, the gfit of the groom. The groom's gift to the bridesmaid was a gold bracelet. Mr. and Mrs. Murray left at 6 o'clock on an extended trip via the lakes to points east including Niagara, London and Michigan.

The young couple were the recipients of many beautiful presents among which was noticed a cheque from the bride's father.

GROWING CHILDREN

NEED A STRENGTH BUILDING TONIC. A DAUGHTER OF MRS. PALMER, MADOC, ONTARIO. RESTORED TO HEALTH BY VINOL

"I am very much pleased with what Vinol has done for my little girl. She had no appetite whatever My druggist advised us to try Vinol and we did so. Her appetite has been good ever since taking Vinol, and it has built her up in every way." Mrs. W. H. Palmer, Madoc, Ontario.

This is because Vinol is a genuine tonic and body-builder which contains peptonate of iron together with every one of the body-building, medicinal elements of cod liver oil but without one drop of oil to upset the stomach and retard its work. Vinol acts directly on the stomach, creates a healthy appetite, and enables the digestive organs to obtain the necessary elements from the food eaten to make rich red blood, healthy flesh and muscle tissue and create strength.

Your money back if Vinol fails to benefit. J. S. McKeown, Druggist, Belleville.

THE UNEXPECTED HAPPENED

And They Did Not Get So Far Ahead of Their Wives After All.

During the Exhibition in Toronto, a certain Presbyterian minister and his wife, from a staid Scotch settlement in Western Ontario, came to visit friends on Bloor street for the fortnight. The days were well filled with shopping and "exhibitioning," but one evening—a Wednesday evening, too—there arose the question of where to go.

"We've been to an organ recital, an illustrated lecture and a talk on China," said the hostess thoughtfully. "See here!" she ejaculated, lowering her voice significantly, "let's go to Shea's—there's no harm in it—and when you're going back to that dead-and-alive place for the rest of the year, I think you need a little diversion."

"But what would I say to John?" said the minister's wife, after a few half-hearted protests.

"John—bless me—I don't know," said Mrs. A——. "I believe he's taken my husband to prayer-meeting. We'll go, anyway." The women had been chums at boarding-school, and the prospect of Shea's seemed like an old-time escapade. Therefore, to Shea's they went, and were enjoying the fourth number on the program when Mrs. A—— frantically clutched her guest's arm.

"Will you look at those two men—there? It's your John and my Henry—and I believe your husband is wearing one of Henry's coats."

Just at this moment the smiling husbands caught sight of the two women and bowed their heads in confusion. The rest of that program was as a painful dream to John, who had been a firm disciplinarian, and had more than once expressed disapproval of certain frivolous tastes displayed by his wife. And it was all in vain afterwards for John to assert quaveringly that he thought a minister should see those things in order to be able to warn others.

The Rev. J. P. Wilson, B. A., expastor of Bridge St. Methodist Church, will revisit Belleville on Sunday, the 25th inst., to take part in the 86th Birthday of the Sunday School. He will preach twice and be welcomed at the anniversary meeting at 2.30 p.m. Special music by the enlarged church choir. 17-7t

A reconstruction has been made in the arrangement of the complete time tables issued by the Grand Trunk Railway System, which will be appreciated by the travelling public. Where tables are shown of the condensed time of trains between the several points where through equipment is run, this equipment is shown directly opposite the time table, giving passengers the information they desire in the easiest possible way and without turning to other pages to find what equipment is on several trains shown. To make railway time tables plain to the travelling public is a problem with the railways, but this new innovation has overcome a considerable amount of trouble which has been experienced in the past in knowing what equipment could be found on through trains.

We make to order, cupboards, linen and fur chests, and any special thing in cabinet making also cabinet repairing, and furniture packing. W. H. Hutchinson Co., West Bridge st.

A young son of Mr. and Mrs. B. McConnell, residing on Foster Avenue, died this morning.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

Decorator and Designer

Remember we do painting, paper hanging, graining, decoroting at lower prices than you imagine, The style of our work is of a high order. Our prices are low.

TIMELY TOPICS.

We often hear of young men full of promise. Here is a case of one who soon realized his destiny:

"Give me a little time," said the literary young man, "and I will do something to arouse the country."

Three months later he had his chance. He was peddling alarm clocks in a farming community.

• • •

A commercial traveller having got a settlement of his account with a shopkeeper in Falkirk, invited him to dine at the inn.

"Na, na," said he, "I neer' gang to an inn. I'll no gang; but just tell me how muckle it would cost ye to gi'e me my dinner at the inn, ma mannie."

"Oh, never mind that," said the traveller.

"Aye, but I want to ken; just tell whar' I stan."

"Oh," said the traveller, "perhaps three shillings or four shillings."

"Very well, then," replied the economist, "gi'e me the four shillings an' I'll be just as well pleased."

DISTINCTION FOR CANADIAN.

Sydney, N.S., Girl Is First to Win Oxford Musical Degree.

Miss Burchell, of Sydney, Nova Scotia, is the first colonial girl to win the distinc[illegible] final [illegible] of having passed the examination for the Degree of Bachelor of Music, Oxford University. In 1903 she passed at Oxford the "Preliminary (Arts) Examination for Students of Music," and the First Examination for the Degree of Mus. Bac. For the Second Mus. Bac. examination candidates are not obliged to go to Oxford. They are required to submit for examination a musical exercise of their own composition. This must be a vocal work with accompaniment for a string band. The following movements are expected: a five-part chorus, a song or duet, an unaccompanied vocal quartette, and a five-part fugue. The work may be either sacred or secular. Miss Burchell chose a sacred subject, giving it the title, "The Light of Men." She had the good fortune to have her first work accepted by the examiners.

The Third (Final) Examination was successfully passed in May of this year.

In April Miss Burchell passed the examination for Associateship of the Royal College of Music, at that institution in London. H.R.H. the Prince of Wales is president of the Royal College.

Miss Burchell studied under Mr. Peter LeSueur, Mus. Bac., Oxon., F.R.C.O., L.R.A.M., formerly music master of the Methodist College, St. John's, Nfld.; and under Dr. C. W. Pearce, Mus. Doc., Cantab., F.R.C.O., of Trinity College of Music, London.

She is the daughter of Mr. H. C. Burchell, C.E., of Sydney, N.S., formerly Government engineer of Newfoundland, and afterwards director of public works, British Honduras.

To Look For Castaways.

H. M. S. Algerine, now at Esquimalt, is preparing for a cruise to Christmas Island, scene of the Aeon wreck, and other islands of the South Pacific. Until a few years ago a cruise was made annually to the islands of South Pacific to investigate the possibilities of castaways being found on an unhabited islands and to renovate graves, etc.

With the addition of Algerine at the Esquimalt station, the practice is being revived.

Enquiries by salvage companies regarding the possibility of solving the steamer Aeon, wrecked on Christmas Island, have disclosed the fact that the engines have broken away and the hull is breaking. No hope of salvage is entertained. The Canadian-Australian line agents say the steamer Manuka will undoubtedly call at Christmas Island, as instructions to that effect will be cable from Sydney, to which port the survivors of the Aeon will be taken.

Room For Settlers.

Reports received from British Columbia land surveyors sent out to examine and survey land along the route of the Grand Trunk Pacific Railway represent that the area fit for settlement is very much larger than was generally supposed. From present indications, all the land along that railway in this province, with a few isolated exceptions, will be taken up by actual settlers within a short time after the road is built. When the enterprise was projected it was thought that the British Columbia section would not be traffic-producing. There is, however, as a matter of fact, every reason to believe that it will be the seat of many and varied industries.

Kitten Came to Life.

A Toronto resident recently immersed three young kittens in a barrel of water, with the intention of drowning them. They were taken out after some time, apparently dead, and were buried. Next day one of the kittens was found lying comfortably beside her mother, alive and well. The old cat, it was ascertained, had scratched up the grave and secured the only kitten which had any life in it and had brought it back to health and strength.

WITCHCRAFT IN 1908.

Superstition Still Remains In Some Parts of Rural England.

That the belief in witches and witchcraft is not yet dead in parts of rural England was made strikingly plain the other day by the hearing of an assault case in Essex.

Curiously enough, that county has long share with Norfolk and Cambridge the doubtful distinction of being the principal home of this weird superstition.

In the latter shire, the "witch's bottle" is still made by the village blacksmith. It is really a hollow iron bomb, hermetically sealed and filled with water instead of gunpowder or dynamite.

Its effect, however, when placed in a fire, is much the same; for the heat converts the water into steam, which, finding no outlet, presently rends in pieces its metal envelope with explosive violence. The fragments are, of course, scattered in all directions, though more in some than in others, and, wherever they are most numerous, there or thereabouts live the witch.

It was a Cambridgeshire farmer, too, that, a little while back, earned for himself a sentence of three months' imprisonment by administering to a horse that had the glanders—but which, he believed, to have been bewitched—a "witch's potion," the principal ingredients of which appear to have been iron nails and bent pins.

Suspected persons have even been put to death in England for alleged witchcraft within comparatively recent years. At Castle Hedingham, Essex, for instance, in 1863, a poor old paralyzed Frenchman was drowned as a wizard by a mob of villagers.

But by far the worst case of the kind happened in Ireland, where, so recently as 1895, a young married woman named Bridget Cleary was burnt alive by a crowd of credulous peasants. She had been accused of witchcraft by her husband, who stood by at her "execution," a consenting party. He got twenty years' penal servitude, and five others of those implicated also went to gaol for lengthy periods.

Great Britain's Finest Shot.

Lord Walsingham, who has just celebrated his 65th birthday, has the reputation of being the finest shot in Great Britain. He holds the record, amongst many others, for the largest individual bag of grouse in a single day—421 brace to his own gun or guns. He is also an enthusiastic entomologist, as well as sportsman and agriculturist. His collection of moths and butterflies is the finest in the world. A large part of it is in the Natural History Museum at South Kensington, and it is a curious and little-known fact that ladies' fashions are directly indebted to Lord Walsingham and his collection. Dressmakers and designers of court gowns often go to the drawers and cases of butterflies and moths to study new combinations and contrasts in color. How many people, by the way, are aware of the curious fact that Merton Hall, Lord Walsingham's place near Thetford, Norfolk, is supposed to have been the scene of the immortal story of "The Babes in the Wood"? The wood where they laid down and died is—they say—still haunted by their ghosts. Anyhow, it is a fact that for many years a stuffed robin was given to every visitor to Merton in memory of the episode, legend or tradition.

Lucky Tenants.

How people lived in Hornsey premises for years without paying rent, and sublet at ordinary rates to other people, was described at Clerkenwell, Eng., when the judge dealt with claims against several residents in Turnpike Lane for possession of premises and mesne profits. One tenant, a wardrobe dealer, who was asked, "How long since you paid any rent?" replied, "Three and a half years." Another tenant, a blacksmith, who admitted not having paid any rent for several years, said no one had made any application to him for it. He was receiving 10s. per week from a barber and 9s. 6d. per week from other tenants. The solicitor remarking that a third tenant had been there over four years without paying rent, the latter retorted, "I expect you would do the same." In making orders for plaintiff, his honor remarked, "I am very sorry I have to awaken you all from this sweet dream, but this period of no-rent happiness must come to an end."

Cost of Grouse Shooting.

The large prices that are being paid this year in England for moors promise to make the luxury of grouse-shooting most costly than usual—and at its lowest it is sufficiently expensive. According to Mr. Teasdale-Buckell, £1 is a fair average cost of a brace of grouse; although the cost may, in a bad year, run as high as five times this sum. To illustrate the range of costliness, Mr. Buckell says that he has known £500 paid for 20,000 acres in Perthshire, the bag amounting to 150 brace, which took four guns a month to get; while £150 has secured a moor of 2,000 acres, on which 100 brace could easily have been killed by one good gun in a day. It is interesting to note that grouse-driving in the North of England is much cheaper than grouse-shooting north of the Tweed. In Yorkshire and Durham 10s. a brace is near the mark—roughly, half the cost of birds in Scotland—and 7s. 6d. a brace is by no means uncommon.

Veterans In the Commons.

Mr. Samuel Young, the Irish Nationalist member for East Cavan, who recently made the proud boast that he was the oldest man in the House of Commons, was born in 1822, and has accordingly entered on his eighty-seventh year. He is not, however, the only octogenarian in that assembly. Sir Francis Powell, Bart., the Unionist member for Wigan, was born in 1827, and Sir Robert Puller, the Liberal member for Perth, was born in 1823, and entered Parliament for the first time last year, at the age of seventy-nine, thereby, it is believed, breaking the

SHORT CUTS.

If You Take the Long Way Round You Never Arrive.

Let women who have swallowed wholesale the proverb that short cuts are sometimes longest forget it. This is a day of short cuts. If you take the long way round you never arrive.

Cuts to be short need not be poorly done with a blunt knife. The cleverest surgeon is he who can perform the biggest operation with the shortest gash.

Learn to do things quickly, but well. Pottering is a word tabooed in the up to date lexicon.

In this hustling world the woman who does not "get there" on an air line never has a chance to rest.

Take to conversational short cuts. She who rambles beats about the bush, proses, bores her hearers and uses up her own nervous energy. If terseness were a habit doctors would never have to order for their women patients periods of Trappist silence.

Be a housekeeping short cutter. Avoid nonessentials. Spend on labor savers rather than on frills. Get down to a system and hold every one else in your household to it. This way lies the solution to the eternal servant problems.

Hunt short cuts with the needle. Many women wear their lives out with constant stitching. Fine hand work is a luxury. Take to a machine for steady wear.

Digging is for the specialist, the scholar. The average busy man or woman to read at all must seek short cuts. Reviews and abstracts are not admirable, but they are better than total ignorance. Literary culling is not the old way. It seems to be the only way in these days of varied interests.

Be a short cutter in business. Learn details, then study to eliminate them if you would have time and strength for bigger things. The swiftest road to success has the fewest curves.

CARING FOR MILK.

A Few Maxims of Value to the Young Housewife.

Tuberculosis kills 5,000,000 people annually. It may be carried through infected milk.

Select a milkman who has clean hands, clean clothes, clean wagon, clean cans and clean bottles.

Do not select a milkman because he sells milk cheap.

Refuse milk that shows a deposit of dirt in the bottom of the bottle.

Do not forget that dirt in milk is a menace to health.

Do not forget that dirty milk may kill the baby.

Always keep pasteurized milk cool. Use at once. Do not forget that germs multiply more rapidly in pasteurized milk than in any other.

Do not leave the milk uncovered anywhere.

Do not leave milk in a warm room or unchilled icebox. Protect it from flies. Do not leave it out of doors in the sun or exposed to cats and dogs.

Do not use the milk bottles for anything but milk.

Wash and scald milk bottles as soon as emptied. Return clean bottles to the milkman. Buy only bottled milk, if possible.

While these "maxims" may horrify some good housekeepers who would never think of being guilty of the negligence implied, there are homes without number, nice homes, too, where sanitary and hygienic rules are violated constantly. In some of these it is because the housekeeper is young or inexperienced; in others, where the care of the kitchen and marketing are left entirely to servants ignorant or constitutionally careless.

To those housekeepers let us whisper that that attention to the meanest detail in housekeeping is not ignoble. It is not only woman's duty, but her great privilege. A man cannot make a home. He may build the houses.

Halls and chambers, roofs and domes,
But the women of the earth, God knows—
the women build the homes!

HOUSEHOLD NOTES.

In choosing a grape fruit see that it is heavy in proportion to the size. A dry fruit is very light.

To polish a looking glass first rub it with a duster wrung out of cold water and dipped in whiting and then polish with a dry cloth.

If canned fruits are opened an hour or two before using, the excluded oxygen is regained and the flavor improved. Turn out of the jar at once.

As soon as a salt ham or tongue is cooked remove it from the boiling water to a pan of cold water for a few seconds. This will loosen the skin, which may be easily peeled off.

To prevent cabbage boiling over saves time both in stirring the cabbage down and also in cleaning the stove afterward. If a piece of lard about the size of a walnut be dropped into the cabbage pot it will not boil over.

To clean candlesticks, whether of enameled or plain metal, fill them with boiling water. Do not allow the water to stand any time, but pour it away and thoroughly dry the candlestick with a cloth. In this way dirt and grease are removed without doing damage to the color or substance of the candlestick.

To dry clean lace heat some flour and in this put the lace, covering it entirely. Leave it an hour or two, then rub it lightly and shake it well. Unless it has been really very much soiled it will then look like new once more. Valuable lace that cannot bear rubbing may be covered with French chalk and laid aside, wrapped in blue paper, between the pages of a book for a day or two. The chalk will absorb any grease and leave the lace looking fresh

T. P. BROWN'S

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT 1907. BY McCLURE, PHILLIPS & CO.

Thrackles swore violently as he stumled over a laggard. With uncanny bruptness the black wall of darkness n front of us was alive with fiery yeballs. The seals had reached the nd of the cave and had turned toward s. We, too, stopped, a little uncertain s to how to proceed.

The first plan had been to get behind he band and drive it slowly toward he entrance to the cave. This was ow seen to be impossible. The cavrn was too narrow, its sides at this oint too steep and the animals too hickly congested. Our eyes, becomng accustomed to the twilight, now egan to make out dimly the individal bodies of the seals and the general onfiguration of the rocks. One big owlder lay directly in our path, like n island in the shale of the cave's oor. Perdosa stepped to the top of for a better look. The men attemptd to communicate their ideas of what as to be done, but could not make hemselves heard above the uproar. I ould see their faces contorting with he fury of being baffled. A big bull ade a dash to get by. All the herd lippered after him. If he had won ast they would have followed as stinately as sheep and nothing could ave stopped them, but the big bull ent down beneath the clubs. Thraces hit the animal two vindictive ows after it had succumbed.

This settled the revolt, and we stood s before. Pulz and Handy Solomon ied to converse by signs, but evidentfailed, for their faces showed angry the twilight. Perdosa, on his rock, lled and lit a cigarette. Thrackles aced to and fro, and the nigger leand on his club farther down the cave. hey had been left at the entrance, ut now in lack of results had joined eir companions.

Now Thrackles approached and creamed himself black trying to imrt some plan. He failed, but stoopd and picked up a stone and threw it to the mass of seals. The others unerstood. A shower of stones follow. The animals milled like cattle, ellowed the louder, but would not ce their tormentors. Finally an old w flopped by in a panic. I thought hey would have let her go, but she ied a little beyond the bull. No more ollowed, although the men threw ones as fast and as hard as they ere able. Their faces were livid with nger, like that of an evil tempered an with an obstinate horse.

Suddenly Handy Solomon put his ead down and with a roar distinctly udible even above the din that filled he cave charged directly into the herd. I saw the beasts cringe before him. I aw his club rising and falling indisriminately, and then the whole back f the cave seemed to rise and come t us.

This was no chance of sport now, ut a struggle for very life. We realzed that once down there would be o hope, for while the seals were more nxious to escape than to fight we new that their jaws were powerful. There was no time to pick and choose. We hit out with all the strength and uickness we possessed. It was like bad dream, like struggling with an lusive hydra headed monster, knee igh, invulnerable. We hit, but withut apparent effect. New heads rose, he press behind increased. We gave round. We staggered, struggling desperately to keep our feet.

How long this lasted I cannot tell. t seemed hours. I know my arms beame leaden from swinging my club. y eyes were full of sweat. My breath asped. A sharp pain in my knee early doubled me to the ground, and et I remember clamping to the hought that I must keep my feet, eep my feet at any cost. Then all at nce I recalled the fact that I was rmed. I jerked out the short bareled revolver and turned it loose in heir faces.

Whether the flash and detonation rightened them, whether Perdosa, till clinging to his rock, managed to urn their attention by his flanking eforts or whether, quite simply, the all of dead finally turned them back do not know, but with one accord hey gave over the attempt.

I looked at once for Handy Solomon nd was surprised to see him still live, standing upright on a ledge the ther side of the herd. His clothing as literally torn to shreds, and he as covered with blood. But in this light he was not alone, for when I urned toward my companions they, oo, were tattered, torn and gory. We ere a dreadful crew, standing there n the half light, our chests heaving, ur rags dripping red.

For perhaps ten seconds no one moved. Then with a yell of demoniac age my companions clambered over he rampart of dead seals and attacked he herd.

The seals were now cowed and deenseless. It was a slaughter, and the ost debauching and brutal I have ver known. I had hit out with the est when it had been a question of efense, but from this I turned aside n a sick loathing. The men seemed ossessed of devils and of their unnatral energy. Perdosa cast aside the lub and took to his natural weapon, the knife. I can see him yet rolling over and over and embracing a big cow, his head jammed in an ecstacy of ferocity between the animal's front flippers, his legs clasped to hold her body, only his right hand rising and falling as he plunged his knife again and again. She struggled, turning him over and under, wept great tears and fairly whined with terror and pain. Finally she was still, and Perdosa staggered to his feet, only to stare about him drunkenly for a moment before throwing himself with a screech on another victim.

The nigger alone did not jump into the turmoil. He stood just down the cave, his club ready. Occasionally a disorganized rush to escape would be made. The nigger's lips snarled and with a truly mad enjoyment he beat the poor animals back.

I pressed against the wall horrified, fascinated, unable either to interfere or to leave. After a little a tiny stream, growing each moment, began to flow past my feet. It sought its channel daintily, as streamlets do, feeling among the stones in eddies, quiet pools, miniature falls and rapids. For the moment I did not realize what it could be. Then the light caught it down where the nigger waited, and I saw it was red.

At first the racket of the seals was overpowering. Now gradually it was losing violence. I began to hear the blasphemies, ferocious cries, screams of anger hurled against the cave walls by the men. The thick, sticky smell grew stronger, the light seemed to grow dimmer, as though it could not burn in that fetid air. A seal came and looked up at me, big tears rolling from her eyes. Then she flippered aimlessly away, out of her poor wits with terror. The sight finished me. I staggered down the length of the black tunnel to the boat.

After a long interval a little three months' pup waddled down to the water's edge, caught sight of me and, with a squeal of fright, dived far. Poor little devil! I would not have hurt him for worlds. As far as I know, this was the only survivor of all that herd.

The men soon appeared, one by one, tired, sleepy eyed, glutted, walking in a catlike trance of satiety. They were blood and tatters from head to foot, and from drying red masks peered their bloodshot eyes. Not a word said they, but tumbled into the boat, pushed off, and in a moment we were floating in the full sunshine again.

We rowed home in an abstraction. For the moment Berserker rage had burned itself out. Handy Solomon continually wetted his lips, like an animal licking its chops. Thrackles stared into space through eyes drugged with killing. No one spoke.

We landed in the cove and were surprised to find it in shadow. The afternoon was far advanced. Over the hill we dragged ourselves and down to the spring. There the men threw themselves flat and drank in great gulps until they could drink no more. We built a fire, but the nigger refused to cook.

"Some one else turn," he growled. "I cook aboard ship."

Perdosa, who had hewed the fuel, at once became angry.

"I cut heem de wood," he said. "I do my share. Eef I cut heem de wood you mus' cook heem de grub!"

But the nigger shook his head, and Perdosa went into an ecstacy of rage. He kicked the fire to pieces. He scattered the unburned wood up and down the beach. He even threw some of it into the sea.

"Eef you no cook heem de grub you no hab my wood!" he shrieked, with enough oaths to sink his soul.

Finally Pulz interfered.

"Here, you foreigners," said he, "quit it! Let up, I say! We got to eat. You let that wood alone or you'll pick it up again!"

Perdosa sprang at him with a screech. Pulz was small, but nimble, and understood rough and tumble fighting. He met Perdosa's rush with two swift blows, a short arm jab and an uppercut. Then they clinched and in a moment were rolling over and over just beyond the wash of the surf.

The row waked the nigger from his sullen abstraction. He seemed to come to himself with a start; his eye fell surprisedly on the combatants, then lit up with an unholy joy. He drew his knife and crept down on the fighters. It was too good an opportunity to pay off the Mexican.

But Thrackles interfered sharply.

"Come off!" he commanded. "None o' that!"

"Go to h—l!" growled the nigger.

A great rage fell on them all, blind and terrible, like that leading to the slaughter of the seals. They fought indiscriminately, hitting at each other with fists and knives. It was difficult to tell who was against whom. The sound of heavy breathing, dull blows, the tear of cloth and grunts of punishment received; the swirl of the sand, the heave of struggling bodies, all riveted my attention, so that I did not see Captain Ezra Selover until he stood almost at my elbow.

"Stop!" he shrieked in his high, falsetto voice.

And would you believe it, even through the blood haze of their combat the men heard him and heeded? They drew reluctantly apart, got to their feet, stood looking at him through reeking brows half submissive and half defiant. The bullheaded Thrackles even took a half step forward, but froze in his tracks when Old Scrubs looked at him.

"I hire you men to fight when I tell you to and only then," said the captain sternly. "What does this mean?"

He menaced them one after another with his eyes, and one after another they quailed. And their plottings, their threats, their dangerousness dissipated like mist before the command of this one resolute man. These pirates who had seemed so dreadful to me now were nothing more than cringing schoolboys before their master.

And then suddenly to my horror I, watching closely, saw the captain's eye turn blank. I am sure the men must have felt the change, though certainly they were too far away to see it, for they shifted by ever so little from their first frozen attitude. The captain's hand sought his pocket, and they froze again, but instead of the expected revolver he produced a half full brandy bottle.

The change in his eyes had crept into his features. They had turned foolishly amiable, vacant, confiding.

"'Lo, boys," said he appealingly. "You good fellows, ain't you? Have a drink. 'S good stuff. Good ol' bottl'." He lurched, caught himself and advanced toward them, still with the empty smile.

They stared at him for ten seconds, quite at a loss. Then:

"He's drunk!" Handy Solomon breathed, scarcely louder than a whisper.

There was no other signal given. They sprang as with a single impulse. One instant I saw clear against the waning daylight the bulky, foolish swaying form of Captain Selover, the next it had disappeared, carried down and obliterated by the rush of attacking bodies. Knives gleamed ruddy in the sunset. There was no struggle. I heard a deep groan. Then the murderers rose slowly to their feet.

CHAPTER XX.

I HAD plenty of time to run away. I do not know why I did not do so, but the fact stands that I remained where I was until they had finished Captain Selover. Then I took to my heels, but was soon cornered. I drew my revolver, remembered that I had emptied it in the seal cave and had time for no more coherent mental processes. A smothering weight flung itself on me, against which I struggled as hard as I could, shrinking in anticipation from the thirsty plunge of the knives. However, though the weight increased until further struggle was impossible, I was not harmed and in a few moments found myself, wrists and ankles tied, beside a roaring fire. While I collected myself I heard the grate of a boat being shoved off from the cove and a few moments later made out lights aboard the Laughing Lass.

The looting party returned very shortly. Their plundering had gone only as far as liquor and arms. Thrackles let down from the cliff top a keg at the end of a line. Perdosa and the nigger each carried an armful of the 30-40 rifles. The keg was rolled to the fire and broached.

The men got drunk, wildly drunk, but not helplessly so. A flame communicated itself to them through the liquor. The ordinary characteristics of their composition sprung into sharper relief. The nigger became more sullen, Perdosa more snakelike, Pulz more viciously evil, Thrackles more brutal, while Handy Solomon, staggering from his seat to the open keg and back again, roaring fragments of a chanty, his red headgear contrasting with his smoky black hair and his swarthy hook nosed countenance—he needed no further touch.

Their evil passions were all awake, and the plan, so long indefinite, developed like a photographer's plate.

"That's one gone," said Thrackles.

"And now the diamonds," muttered Pulz.

> "There's a ship upon the windward, a wreck upon the lee,
> Down on the coast of the high Barbare-e-e,"

roared Handy Solomon. "It's the best night's work we ever did. The stuff's ours. Then it's me for a big stone house in Frisco O!"

"Frisco!" sneered Pulz. "That's all you know. You ought to travel. Paris for me and a little girl to learn the language from."

"I get heem a fine caballo an' fine saddle an' fine clo's," breathed Perdosa sentimentally. "I ride and the silver jingle and the senorita look"—

"What you want, doctor?" they demanded of the silent nigger.

But the nigger only rolled his eyes and shook his head. By and by he arose and disappeared in the dusk and was no more seen.

"D— fool!" muttered Handy Solomon. "Well, here's to crime!"

He drank a deep cup of the raw rum and staggered back to his seat on the sands.

> "'I am not a man-o'-war, nor a privateer,' said he.
> Blow high, blow low; what care we!
> 'But I am a jolly pirate, and I'm sailing for my fee,'
> Down on the coast of the high Barbare-e-e,"

he sang. "We'll land in Valparaiso and we'll go every man his way, and we'll sink the old Laughing Lass so deep the mermaids can't find her."

Thrackles piled on more wood, and the fire leaped high.

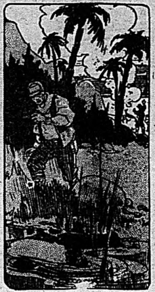
"Let's get after 'em," said he.

"Tomorrow's jes' 's good," muttered Pulz. "Les' hav' 'nother drink."

"We'll stay here 'n see if our ol' frien' Percy don' show up," said Handy Solomon. He threw back his head and roared forth a volume of sound toward the dim stars.

> "Broadside to broadside the gallant ships did lay,
> Blow high, blow low; what care we!
> Till the jolly man-o'-war shot the pirate's mast away,
> Down on the coast of the high Barbare-e-e."

I saw near me a live coal dislodged from the fire when Thrackles had thrown on the armful of wood. An idea came to me. I hitched myself to the spark and laid across it the rope with which my wrists were tied. This, behind my back, was not easy to accomplish, and twice I burned my wrists before I succeeded. Fortunately I was at the edge of the illumination and behind the group. I turned over on my side so that my back was toward the fire. Then rapidly I cast loose my ankle lashings. Thus I was free, and selecting a moment when universal attention was turned toward the rum barrel I rolled over a sand dune, got to my hands and knees and crept away.



At the edge of the wash I could make out something prone, dim, limp.

Through the coarse grass I crept thus to the very entrance of the arroyo, then rose to my feet. In the middle distance the fire leaped red. Its glow fell intermittently on the surges rolling in. The men staggered or lay prone, either as gigantic silhouettes or as tatterdemalions painted by the light. The keg stood solid and substantial, the hub about which reeled the orgy. At the edge of the wash I could make out something prone, dim, limp, thrown constantly in new positions of weariness as the water ebbed and flowed beneath it, now an arm thrown out, now cast back, as though Old Scrubs slept feverishly. The drunkards were getting noisy. Handy Solomon still reeled off the verses of his song. The others joined in, frightfully off the key or punctuated the performance by wild staccato yells.

> "Their coffin was their ship, and their grave it was the sea,
> Blow high, blow low; what care we!
> And the quarter that we gave them was to sink them in the sea,
> Down on the coast of the high Barbare-e-e,"

bellowed Handy Solomon.

I turned and plunged into the cool darkness of the canyon.

CHAPTER XXI.

TEN seconds after entering the arroyo I was stumbling along in an absolute blackness. It almost seemed to me that I could reach out my hands and touch it, as one would touch a wall, or perhaps not exactly that, for a wall is hard, and this darkness was soft and yielding, in the manner of enveloping hangings. Directly above me was a narrow, jagged and irregular strip of sky with stars. I splashed in the brook, finding its waters strangely warm, rustled through the grasses, my head back, chin out, hands extended as one makes his way through a house at night. There were no sounds except the tinkle of the sulphurous stream. Successive bends in the canyon wall had shut off even the faintest echoes of the bacchanalia on the beach.

The way seemed much longer than by daylight. Already in my calculation I had traversed many times the distance, when with a jump at the heart I made out a glow ahead and in front of it the upright logs of the stockade.

To my surprise the gate was open. I ascended the gentle slope to the valley's level and stumbled over a man lying prostrate, shivering violently and moaning.

I bent over to discover whom it might be. As I did so a brilliant light seemed to fill the valley, throwing an illumination on the man at my feet. I saw it was the nigger and perceived at the same instant that he was almost beside himself with terror. His eyes rolled, his teeth chattered, his frame contracted in a strong convulsion, and the black of his complexion had faded to a washed out dirty gray, revolting to contemplate. He felt my touch and sprang to his feet, clutching me by the shoulder as a man clutching rescue.

"My Gawd!" he shivered. "Look! Dar it is again!"

He fell to pattering in a tongue unknown to me—charms, spells undoubtedly to exorcise the devils that had hold of him. I followed the direction of his gaze and myself cried out.

The doctor's laboratory stood in plain sight between the two columns

A NATIONAL MUSEUM

RESTING PLACE FOR CANADIAN RELICS PROPOSED.

Movers of New Institution Favor a Repository at Montreal In View of Demolition of Old Chateau Ramezay—Many Valuable Treasures Are Available For Preservation In Proper Building.

Now that the Chateau de Ramezay, at Montreal, is about to be demolished, and its historic collection transferred to the Monument Nationale, the auspicious time has arrived, it would seem, for establishing a National Museum. The proposal to build a national museum in Westmount Park has already been endorsed by one of the founders of the Chateau de Ramezay.

There are many historical treasures in the vicinity, at "Temple Grove," for instance, which should be taken over and cared for in a national museum. In the library of this wonderful old place, the residence of Mr. D. R. McCord, K.C., are cases and shelves full of old leather-bound volumes and precious historic documents, gathered as a labor of love from all parts. A letter of Nelson, giving his impressions of Quebec, together with the signature and official seal of Wellington. Also the signature of Dollard and three others of the sixteen heroes who saved the colony from the Iroquois in 1660; as well as those of nearly all the heroic band of Jesuits, who, with death staring them in the face on every hand, penetrated the forest wilderness, and carried the story of the cross to the Indians. Casot—the last of the Jesuits—is there (1783), alongside of the signatures of Frontenac and of Maisonneuve, the founder of Montreal, is that of Laval de Montmorenci, the first Catholic Bishop of Quebec, and of saintly Bishop Stewart. On the table is a Dollond telescope, which could tell many a tale of stirring scenes beheld from the slopes of Mount Royal in the early part of the nineteenth century. Then there is an Eolian harp, nearly one hundred years old; a fine old barometer, presented by the Royal Society of England to one of Mr. McCord's ancestors; the cross of old Bonsecours Church; an ancient arquebus, and other curious relics. In a closet are shelves loaded with portfolios of valuable drawings and engravings by the thousand, all representing celebrated scenes and incidents in the annals of Canada. One, a velvet mezzotint of the Marquis of Townshend, is a veritable work of art, and is only one of many such.

Here on the walls, are swords, blunderbusses, guns, bayonets, daggers and other ancient weapons of war, in galore, the most interesting being the sword of Gen. Brock. Nearby is a glass case containing the war-bonnet of eagle feathers of Tecumseh, together with his bow and arrows. There is a fine example of the complete armor of a knight of the time of the War of the Roses—with marks of battle-axe cuts in the helmet. In another corner is a piece of the ash tree under which the first Superior of the Ursuline Sisters of Quebec taught the Indian children. On one part of the staircase walls are to be seen thirty-nine paintings in oils, representing historic scenes and places in Canada; interspersed with trophies of the warpath and the battlefield.

Say Shows Are Immoral.

Complaint has been made to the department of moral reform of the Methodist Church about the class of theatrical production allowed to enter the Dominion from the United States and do business throughout Canada.

It is charged that in certain theatres in Toronto, Hamilton, and Montreal plays of vicious and immoral tendency are given.

Fire! Fire!

As First Commissioner of Works, Mr. "Lulu" Harcourt looks after the royal palaces and parks, museums, and a hundred-and-one things, and is a firm believer in obtaining knowledge first-hnad. He took it into his head, one day, to run down to Hampton Court.

"How long is it," he asked one of the officials, "since you had an alarm of fire?"

"Several years," was the reply.

The answer was hardly out of the man's mouth before Mr. Harcourt had smashed the glass of a fire alarm with his stick. In four minutes the hose and escape were out, and as he put away his watch, after timing the operation, he remarked:

"That's fairly good."

OLD MASTER FOUND.

Cleaner Discovers Frans Hals Notable Picture, Valued at $125,000.

The story of the discovery of the large and imposing family group by Frans Hals, the Dutch master, which has just been purchased by the trustees of the British National Gallery for $125,000, is a romantic one.

Lord Talbot de Malahide was the owner of the picture, which until a few weeks ago was unknown practically to every one. Mr. Buttery, the official picture cleaner and restorer to the National Gallery, was, in the ordinary course of his profession, summoned to Malahide Castle, some twelve miles from Dublin, to clean several pictures. The canvas which has made so much stir in the art world during the last forty-eight hours was one of the pictures in the collection, and, although it was in a very dirty condition, its exceptionally high merits did not escape the eye of Mr. Buttery.

That gentleman was, of course, in a position to make his own arrangements for the purchase of the picture if he had so wished. Putting all opportunity of personal gain on one side, however, he reported the whereabouts of the picture to Sir Charles Holroyd, the direction of the National Gallery. Mr. Buttery then arranged with Lord Talbot de Malahide that the painting should be brought to London, when it was without delay inspected by Sir Charles, who instantly realized what a magnificent example of Hals' art had suddenly been brought to light.

As the picture has never been exhibited, its existence had not been brought to the knowledge of the experts, nor is it mentioned in any known document. Sir Charles Holroyd brought the discovery to the notice of the trustees of the gallery, who voted for its purchase. The annual Parliamentary grant, which varies from $25,000 to $50,000, was, of course, not large enough to provide for the acquisition of the werk, and Sir Charles called on Mr. Lloyd-George, the Chancellor of the Exchequer, who was so impressed with the picture that he undertook to provide half the sum asked. As the picture is an heirloom, the assent of the Court of Chancery had to be obtained before the sale could be effected.

A Sporting Duke.

"A Dook, is 'e? Well, 'e seems a decent sort o' bloke for all that. And I reckon I'd back him against most jockeys." Of course, there are other "decent blokes" amongst the wearers of the strawberry leaves, but the foregoing remarks concerning the Duke of Westminster, overheard at a certain steeplechase meeting at which his grace had brought his colors first past the winning-post, illustrate his popularity with the man in the crowd. As a matter of fact, the duke is one of the most unaffected of men, although his income runs to something like £100,000 a year. A sportsman to the backbone, he prefers country life to smart society, a taste which is shared by his beautiful wife, her Grace of Westminster. Their marriage, as all the world knows, was quite a romance, for the duke, as Lord Belgrave, became attached to Miss Constance Cornwallis West when quite a schoolboy. In fact, they were married as children. One must hasten to add, however, that the ceremony was "only pretending," the minister being the duchess's sister Sheila, who donned a tablecloth for a surplice.

Autumn Styles In Ladies' Tailored Garments.

The New Autumn Styles in Ladies' Garments are very distinctive though not as exaggerated as rumor might have led us to expect. Long graceful lines strike the dominant note and the woman whose figure responds to this demand of fashion will have things much her own way. Then again, so much skill and ingenuity have been given to the designing of the new modes, that the desired effects of stylish dressing are within reach of every woman. A visit to our Ladies' Wear Department will at once convince you, that the once dreaded task of selecting fall garments has now become a real pleasure—every garment shown being of this season's latest creations.

Coat and Skirt Suits

One of the features of this season is found in Ladies' Coat and Skirt Suits. These are shown in a variety of plain and fancy stripe cloths, in all the new fall colorings, satin and braid trimmed and we sell these suits from $16.50 to $35.00 each.

Ladies' Fall Coats

Never before were such attractive styles shown in Ladies' Fall Coats. The new Directoire is one of this season's striking styles and is much in demand while the full length tailored coats in fitted and semi styles are shown in great variety These coats are priced from $7 50 to $25.00 each.

Dress Goods for Autumn Wear

You have never seen such variety, nor yet such pretty styles as is shown this season in our dress goods department. Together with plain cloths showing in all the rich fall shades, we have an endless variety of fancy weaves in plain and mixed colorings and with our great variety we show you goods at every price and are fully prepared to meet the requirements of every purse. Call and see our Dress Goods.

Pretty Styles in Ladies Shirtwaists

Every woman appreciates a dainty Shirtwaist and for this reason you will be delighted with our waist display including silk Waists net waists in black white, cream and ecru, embroidered cashmere waists, white tailored cotton wash waists, lustre waists in a range of colors—black sateen and outing flannel waists at every price from $1 to $15.00 each.

Dress Skirts That Fit

We have a reputation for selling Perfect Fitting Ladies' Dress Skirts.

If you have never been able to buy a dress skirt that fits as you would like to have it fit you, then just try our dress skirt department and we will fit you as you cannot be fitted elsewhere.

Prices from $3.50 to $20 each

Ladies' Hand Bags

We have just placed in stock a very fine assortment of Ladies Hand Bags in a variety of styles from the very small to the large useful size used by ladies' as a shopping bag. We have these bags to sell at every price from 25c to $3.50 each.

Ladies' Kimonas

We are now showing a lot of New York made Ladies' Kimonas. made of American eider flannels in beautiful floral and oriental designs.

These are shown in a variety of styles in three quarter and full lengths and we have at every price from 75c to $5.00 each.

Three Girls and a Bungalow.

By C. B. LEWIS.

Copyrighted, 1908, by Associated Literary Press.

The three girls—Florence, Molly and Edith—began talking up that bungalow in January, and long enough before the first April shower they had all their plans perfected. It was to be a unique and romantic summer outing. Florence's father owned a farm on the bay. A frame house had been erected for the tenant, and an old log house stood vacant in a romantic spot. It was, as Florence informed her two girl chums, a dear, lovely, sweet, just-too-nice-for-anything old log house. It would make such a bungalow as could not be found for twenty miles up and down the coast.

On the hill forty rods back of the log house was the new dwelling, occupied by Farmer Jones, his good, fat wife and his lean son Jacob. The girls would take their meals there and have no cooking or dishwashing to do. When they wanted to roast clams and potatoes they could build a fire on the shore.

Just three girls and no crowds, no dressing for dinner, no keeping the hair curled; just three girls, boating, fishing and swinging in their hammocks and cantering o'er the dewy grass in the morning; no cards, no bouquets, no flirtations; the fat Mrs. Jones for chaperon, the lean Jacob to run errands, old Jones to drive into the village once a week after kerosene and baking powder and their mail—the very thought of it produced thrills.

Well, it all came about. They went down early in July to remain for two months. Word had been sent to Jones that they wished to rough it and that he must not remove any of the romance. He obeyed orders. He built three rude bunks, put in an old table and three chairs and furnished a lamp. There were a few panes of glass in the windows, and he did not add to the number; there were a few holes in the roof, and he did not cover them; there was half an acre of pigweeds around the house, and he did not mow them down. Mr. Jones was romantic himself and appreciated the sentiment in others.

The outing started off with "How charming!" "How ideal!" and "How very romantic!" Then the three girls got their heads together and took a solemn vow. It was that they would remain until the very last day of August and that in the interval they would not encourage any young man to address them—any young man except Jacob, from whom they learned that young men came that way at intervals to fish in the bay.

The bungalow was a success from the start. On the first night it rained, and the water dripped down through a dozen leaks; on the second night a cow came and put her head through one of the windows to see what strange cattle had arrived and taken possession; on the third an owl alighted on the rooftree and uttered three whoops, and they were followed by three exclamations of "Murder!" "Police!" and "Help!"

On the fourth day Jacob appeared with a pitcher of buttermilk and some startling news. He had discovered a young man had gone into camp a short quarter of a mile away. He had with him a tent, a boat, plenty of provisions and cooking utensils. It looked as if he intended to stay right there all summer. Jacob had entered the young man's camp and asked him to please move two miles farther up or down. The young man had glared at him and kept on reading a volume of poetry. The news created intense excitement at once. An indignation meeting was at once called, and it was resolved "that the young man has got to go and that we wait upon him in a body and tell him so."

Jacob bravely offered his help, but it was declined. "The body" marched straight for the enemy's camp, each face wearing a look of determination. The enemy was sitting down smoking a pipe, but on their arrival he rose up and doffed his cap and stood at respectful attention. Miss Florence was spokesman, and after a slight shiver she announced:

"Sir, this is my father's property, and you are a trespasser. I have to request that you kindly go away."

"But it happens to be my property," replied the stranger, with a smile. "Your father's farm ends at the creek there."

"But—but we are three girls, sir."

The young man bowed to the three in turn.

"And we have a bungalow and do not wish to be disturbed."

"I shall take great pleasure in not disturbing you."

"But can't you understand, sir, that we are on our vacation and don't want any men around?"

"Sorry, young ladies—extremely sorry—but I am on my vacation and don't want any females around. I will agree to keep my distance if you will keep yours. I have camped here for the past three years on account of this spring."

The delegation walked back to the bungalow without a word. Then the meeting was called to order again, and Miss Florence asked what further steps were deemed necessary to rid themselves of the presence of the impudent intruder.

"Why, if it's his land he has a right there, hasn't he?" ingenuously queried Molly.

"And I didn't expect to see such a good looking young man," sighed Edith.

"Are you girls going to turn traitor?" demanded the chairman in indignant tones. "He may be good looking, and he may be on his own land, but he's no gentleman. A gentleman would have consented to move his camp even ten miles if kindly requested by three girls who were camping by themselves. If he thinks we are going away instead he'll find himself very much mistaken. We must snub him on every possible occasion."

When Farmer Jones was appealed to he said he guessed the young man was within his rights. When young Jacob was told the result of the call at his camp he offered to go over and chuck the intruder into the bay and hold him there, but wiser counsel prevailed, and the bungalow once more settled down to peace and romance. Not for long, however.

After breakfast two mornings later Florence went down to the shore for a row to find the boat missing. The tide had floated it off during the night. As she stood there wondering about tides and skiffs and intruders the young man of the camp came rowing up in his own boat and towing the missing craft. He leaped ashore, raised his cap and drew the skiff upon the sands. Then he entered his own craft without a word and rowed away.

At dinner that evening Mrs. Jones proudly placed a dish of fried squirrels on the table. The girls welcomed it with little screams of delight. Miss Florence had half finished her dinner when she remembered having seen the intruder with a gun on his shoulder in the edge of the woods that afternoon. She suddenly lost her appetite and whispered to the girl on either hand:

"You may bow your neck to the tyrant's yoke if you will, but as for me—never!"

"But such a deep, rich voice as he has!"

"And such eyes and teeth!"

At the breakfast next morning there was excellent fish on the table—fish caught that morning, as Mrs. Jones proudly announced. The girls "pitched in," but after five minutes Miss Florence refused further fish. It came to her like a flash that the impudent intruder must have furnished the supply. She looked at her chums in cold disdain, but Miss Molly clasped her hands and rolled her eyes.

"Oh, I knew he must be a gentleman the first moment I set eyes on him."

"And how terrible it would have been had we driven him away from here," added Edith.

They were traitors to the cause, but their conduct only made Florence the firmer in her determination. Fate knows when to mind her own business and when to interfere with that of others. In this case she held off for a couple of weeks. Miss Florence went out crabbing by herself. She planned to be by herself so as to snub the intruder if he came within ten rods of her.

It is useless to speculate on how a girl and a boat get upset on bay, lake or river. They do, and that's all there is about it. Florence was after the biggest crab of the century when she suddenly found herself sinking down to a watery grave. She didn't know when the intruder came rushing down in his skiff and leaped overboard to her rescue. She didn't know when she was carried ashore and up to the Joneses' house. When she did recover she heard sobs and sighs all around her, and as she tried to sit up she heard Molly exclaim:

"Oh, goody, goody! She will live! He has saved her life!"

"And if she doesn't marry him she's an ungrateful wretch!" added Edith. "Why, we've known for two whole days that he was a son of Senator Blake and one of the nicest young men in the world!"

Job Still Open.

The proprietor of a London restaurant advertised for a cook. The first to apply for the berth appeared to be in every way suitable. But before engaging him the restaurant keeper inquired if he could give him a tip for the 2:30 race.

The cook's eyes brightened. He whispered a "dead cert." and mentioned that he had 5 shillings on the horse himself. That was enough. The proprietor gave him a lecture on the evils of betting and showed him the door. As he went out he saw another man about to enter.

"Are you going to apply for the job?" he asked. "Well, if you are asked if you know anything about racing, say you can't tell a Derby winner from a coster's donkey."

The man took the advice, was engaged and commenced his duties. Presently the proprietor rushed to the speaking tube and yelled to the new cook:

"Calf's head one."

Instantly the reply came:

"Did he, by George? What was second and third?"

The Chinese Waiter.

The chief glory of an average Chinese inn is the waiter. This indispensable functionary is the guardian of all your interests for the time being, and when you are not looking he dives into secrets and matters of your own that seem to amuse and enlighten him to your inconvenience and annoyance. Like his confreres in other and more enlightened countries, he hardly ever separates himself from the inevitable napkin, but his badge of waitership is a very practical article with him. With it in summer he mops his damp brow or bare shoulders, while in winter, wrapped about his head, it protects him from rain and wind. The Chinese waiter's napkin is put to all kinds of uses besides those just mentioned. It is used as a dishcloth, a mop with which to wipe the floor, a cloth for cleaning and wiping down tables and a duster. But Chinese landlords are very reasonable in their charges, which in a measure compensate for the unpleasantness of living in their inns.

SUPERSTITIONS IN NAVY.

Ships Named After Royalty Ha Been Unusually Unlucky.

One of the very strongest and mo ineffaceable of all superstitions in th royal navy—a superstition almost strong to-day as ever it was—is th vessels bearing the name of royal pe sonages are doomed to ill-luck, an strange as it may seem, there is undeniable historic basis for this fee ing.

Some of the most terrible disast ever known in connection with ou navy have concerned war vessels wit royal names. Two vessels called th Royal James came to disastrous end One of them exploded, and some 80 officers and seamen perished; the other ship so named was actually ca ried out of the mouth of the Thame by the Dutch under circumstance disgraceful to those in charge of th craft.

Then there is the forever-memorabl disaster to the Royal George, th turned over and sank in sight crowds at Spithead, over 1,000 soul amongst whom were 300 women, b ing sacrificed. And second only this hideous disaster is that whic afterwards befell the Royal Charlott which was consumed by fire off Leghorn, over 800 of the very flower our navy perishing with her.

When, in 1893, the Victoria, a ne vessel, and the very triumph of modern invention, was rammed, and san in sight of the whole fleet, there wa not a sailor, however matter-of-fac he might be, who did not remem the dire fate of a royalty-named craf Three years later a schooner name the Royalist foundered in a gale o Holyhead, while in 1891 a Britis bark, the Queen, was sunk and he captain and six men drowned.

ROYAL TOY COLLECTION.

King Has Gathered Many Souvenir In Buckingham Palace.

King Edward has had organized i Buckingham Palace a toy displa which has the unusual quality tha every article in it was either used o made by royal hands. The collectio is in the King's own old-time playroom, and a star exhibit is the veteran rocking-horse, Jupiter, which hi father, the Prince Consort, provide for him when he was only five year old. Its mane and tail are sadly dishevelled, and its glass eyes lack lustre; it is spavined and foundered, bu it is said that the King regards i with great affection. That littl princes are not very different fro other children may be inferred fro the fact that the King's initials, A. E (Albert Edward), are still to be see in one of the rockers where he cu them deep with his first penknife.

A very interesting exhibit is th favorite doll of Queen Alexandra, contributed by her father, the late Kin of Denmark, when he heard the collection was being prepared. It is very staid and matronly dolly, dressed in quite middle-age style, but ver richly in white silks and brocades. Th legend is that the Queen cut out ever garment herself, and sewed ever stitch in them.

Altogether there are about five hundred articles, representing the English royal family history for some seventy five to eighty years. A few, and only a few, are of costly material and workmanship.

A Prohibitionist's Will.

A stringent clause against public-houses is the principal feature of somewhat remarkable will left by Col. Pilkington, C.B., of Rainford Hall, St. Helens, Eng. Col. Pilkington, who died last March, owned estate to the value of nearly £700,000. He was a colliery proprietor and Unionist member for Southwest Lancashire. The will contains the following passage:

"My experience, acquired as a large employer of labor and as a justice of the peace, and my observations of what is hourly taking place, have convinced me that the present facilities for the sale of intoxicating liquors operate to the prejudice, both morally and materially, of large masses of the community, and that these facilities ought to be curtailed."

He, therefore, definitely prohibits the erection of any premises for the sale of beer, wine, or spirits on any part of his estate, and entreats his son and heirs to carry out his injunction loyally and in no grudging spirit.

The King's Rents.

In the matter of conferring titles, the King's power is practically unlimited, and there seems no reasonable doubt that he could make everyone a peer if he so desired. Certainly, no subject to whom the sovereign offered a title could refuse to accept it without breaking the law.

Many small perquisites come annually into the possession of the King. The Dukes of Marlborough and Wallington each present small replicas of the French flag and Royal Standard on the anniversaries respectively of Blenheim and Waterloo. The six Cashmere shawls of the kind which Queen Victoria treasured so highly are also sent annually, while heriots and quit rents to the crown take many forms, among the more curious being milk-white greyhounds, horseshoes, and red roses.

Tennis Court In Two Counties.

Two British members of Parliament played a lawn-tennis match the other day under novel conditions. The court upon which it was played divides the two constituencies, the county boundaries running through the Nevill ground, familiar to cricketers as the venue of the Tunbridge Wells week. It was arranged that each member of Parliament should play in that half of the court in his own constituency. The competitors were Mr. A. Paget Hedges, M.P. for the Tonbridge Division of Kent, and Mr. G. L. Courthope, M.P. for the Rye Division of Sussex.

Man Who Saved 25 Lives.

Harry J. Thame, lock-keeper at Marsh Lock, Henley, Eng., who already possesses four certificates of the Royal Humane Society, and has saved 24 lives, recently rescued an 11-year-old boy, who had fallen into the weir stream.

The Chesterfield

Copyright 1908 by Hart Schaffner & Marx

ROUSING PORTER MEETING AT IVANHOE ON SATURDAY NIGHT.

A rousing meeting in the interests of Mr. E. Guss Porter, the popular Conservative candidate for West Hastings, was held in the Orange Hall, Ivanhoe, on Saturday night. The hall was by far too small to accommodate all who desired to enter.

Mr. H. Wallace, Vice-President of the Huntingdon Township Liberal-Conservative Association, occupied the chair. Addresses were given by the candidate, Mr. J. W. Pearce, M.P.P.; Rev. Mr. Fulcher, of Marmora, and Mr. Geo. A. Barragar. All the speakers were received most cordially. At the close cheers for the King and the candidate were lustily given.

Mr. E. Guss Porter and Mr. W. S. Morden will be the speakers in the Conservative interests at the nomination meeting in Trenton this afternoon. A full report will appear tomorrow.

Sir Mackenzie Bowell and Mr. W. P. Hudson, ex-M.P.P., are attending the East Hastings nomination meeting at Tweed, in the interests of W. B. Northrup, ex-M.P.

Mr. Mikel has gone out to Wooler, to speak at the nomination for Mr. Owens.

Fire at Rossmore.

At an early hour this morning a frame dwelling, the property of Mrs. Margaret Alyea, of Rossmore, was destroyed by fire, with its contents. The lady was living alone, and escaped from the burning building scantily clad. How the fire originated is not known. The insurance, if any, was not learned.

Police Notes

Two tramps were the sole occupants of the cells since Saturday night.

Mr. W. H. Gilbert, Yeomans street, reports that on Saturday two bags of potatoes were left at his place which do not belong to him.

A complaint was made to the police on Saturday night that a married man was abusing his wife, but the latter did not issue any papers whereby the husband could be arrested.

MUSIC AND THE DRAMA.

"FAUST" TO-MORROW NIGHT.

Of the many high-class attractions booked for the new theatrical season at the Carman opera house few, perhaps, will be so pleasantly anticipated by those to whom only the very best appeals, as the engagement of the eminent Shakespearean actor, Mr. John Griffith, who will appear on Tuesday evening in an elaborate revival of Goethe's great drama, "Faust." The announcement of Mr. Griffith's forthcoming engagement is a matter of the utmost importance to the better class of play-goers, not alone by reason of the recognized greatness of the actor, but also on account of the infrequency of the opportunity to witness performances of the classic drama.

The attraction is brought here under the auspices of the local I.O.O.F.

"UNCLE TOM'S CABIN."

The Winnipeg Free Press has the following to say of "Uncle Tom's Cabin," which appears here at the opera house on Thursday, Oct. 22nd: "Downie's 'Uncle Tom's Cabin' was presented at the Walker theatre last Saturday afternoon and evening, and if the slightest doubt as to the popularity of this sterling old production lingered in the minds of the theatre-goers it would have been completely dispelled had they peeped in at either the matinee or evening performance and seen the big theatre packed, from pit to dome, with happy, interested men, women and children. The stage settings were pretty, especially the transformation scene, showing "Little Eve" in heaven. Taken altogether the performance was most satisfactory." Prices 25c, 35c and 50c. Plan opens Wednesday morning.

Hen House Raided.

On Saturday night the hen house of Mr. A. Young, Mill street, was visited by some party, and six chickens taken from off the roost. There is no clue as to who committed the act.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

Talk on "China."

Dr. J. H. McCartney, a missionary from the Flowery Kingdom, gave a graphic and highly interesting talk on China in the Tabernacle last night, which was eagerly listened to. The Christian churches, he said, had prayed for many years that China might be opened to Christianity. Now that it was opened they did not seem to realize it. The prayers of all Christian people were necessary on behalf of the missionaries. Dr. McCartney urged all his hearers to remember the Chinese missionaries in their prayers. When China was brought to Christ the biggest part of the world would be evangelized." During the service Mr. James Dyer sang "The Plains of Peace" in admirable style, and two young gentlemen from Albert College sang "Tell Mother I'll be There," very beautifully. The Tabernacle is fortunate in having such singers in its choir.

Well Done Sergeant.

Last evening two men were driving up Front street in a buggy when one of them threw an empty bottle on the street causing the bottle to break in a number of pieces. Sergt. Hayes, who was near by, compelled the parties to go and pick up the broken glass.

Y. M. C. A. NOTES.

The addresses yesterday of Dr. Bishop at 4.15 and Inspector Morgan at 8.30 were both inspiring and helpful. In the evening Christ Church Male Quartette added to the interest of the evening.

A social hour and a splendid tea was provided yesterday by the ladies for a score of young men, many of whom were strangers in the city.

Children's Aid Society

The annual meeting will be held on Tuesday, Oct. 20th, at 8 p.m. in the Council Chamber, Hon. President Sir Mackenzie Bowell, in the chair.

Prominent citizens will address the meeting. The future carrying out of the work for the benefit of the children to be considered. Everybody earnestly invited to be present. 19-20

Y. M. C. A. Concert at Madoc

Madame A. Don Cochrane, of this city made her first appearance before a Madoc audience. Her opening number "The March of the Cameron Men" so fascinated her audience that she was loudly encored on each of her numbers. She possesses a strong Contralto voice of extensive range and her singing throughout was highly appreciated.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists

GIVE THE CHILDREN PLENTY OF FRUIT

It Helps to Keep Them Well.

In a growing, active child the cells of which the body is composed are being worn out—and replaced — very rapidly. This dead tissue must be gotten rid of somehow, and the danger is that the eliminating organs—the Bowels, Kidneys and Skin—may not do their work well enough. Then the blood becomes poisoned and the child does not thrive.

Nothing has such an invigorating effect on these organs as ripe fruit juices. Apple juice increases the action of the kidneys; other fruit juices stimulate the liver to secrete more bile, and bile produces easy and regular movements of the bowels; others stir up the glands of the skin to throw off more waste matter.

The difficulty is that to get these effects a great deal of fruit must be eaten, and the excess of pulp and woody matter may upset the digestion. The better way is to give the children "Fruit-a-tives", which are tablets made of concentrated fruit juices with valuable tonics added.

"Fruit-a-tives" have the combined effect of the different fruit juices, helping all the eliminating organs to work properly, curing Constipation, toning up the system, and keeping the children plump and rosy. 25c. for a trial box. 50c. for regular size—6 boxes for $2.50. Fruit-a-tives Limited, Ottawa.

Chicago Live Stock.

CHICAGO, Oct. 17.—Cattle—Receipts, 800; steady; beeves, $3.40 to $7.50; Texans, $3.25 to $4.70; westerners, $3.10 to $5.70; stockers and feeders, $2.60 to $4.50; cows and heifers, $1.60 to $5.30; calves, $6 to $8.50.

Hogs—Receipts, 11,000; weak to 5c lower; light, $5.20 to $5.70; mixed, $5.30 to $6; heavy, $5.30 to $6.02½; rough, $5.30 to $5.50; good to choice heavy, $5.65 to $6.02½; pigs, $3 to $5; bulk of sales, $5.40 to $5.75.

British Cattle Markets.

LONDON, Oct. 17.—London cables for cattle are steady at 11 1-2c to 12 3-4c per pound, dressed weight; refrigerator beef is quoted at 9 1-2c to 13c per pound.

LIVERPOOL, Oct. 17.—John Rogers & Co., Liverpool, quote to-day United States steers at 12c to 13c; Canadians, 11c to 12 1-4c; ranchers, 10 3-4c to 11 1-2c; cows and heifers, 10 1-4c to 11 1-2c; bulls, 9c to 10c; trade slow but firm.

Investigating White Slavery.

Buffalo, Oct. 19.—The statement that a report now in course of preparation to be submitted to the United States Government will reveal tremendous vested interests, which deal with the white slave traffic, was made at Saturday's session of the National American Women's Suffrage Convention by Rev. Anna Garlin Spencer of New York.

"There are people high in the Governments of several countries," declared Mrs. Spencer, "who have had shady transactions in the traffic of which I speak."

Collision Off Victoria.

Vancouver, B.C., Oct. 19.—While off Victoria on her way to Alaska Saturday night the steamer Cottage City, Capt. Jansen, crashed into an unknown schooner, completely demolishing her upper works, hurling the purser, William Jones, into the water, breaking the leg of an unknown Italian and slightly injuring many other passengers.

The passengers were rescued by a passing steamer.

Largest Democratic Contribution.

New York, Oct. 19.—A check for $10,000, the contribution of the Tammany Society to the Democratic national campaign fund, was received by Herman Ridder, treasurer of the National Democratic Committee Saturday.

This is the largest contribution yet received by the national committee so far as made public.

The "Banana King."

Sir Alfred Jones, head of the famous shipping firm of Elder, Dempster, & Co., who is sometimes called the "Banana King," because of the important part he has played in popularizing that fruit, confesses that he has little time for recreation. At a luncheon once he admitted that a night or two before he had found time to go to the theatre. "I did not stay long, because I could not make much there," he added, jocularly. Referring to Sir Alfred's connection with bananas, he is said to have a pleasant habit of terminating an interview by handing one or two bananas from a dish on the table as a farewell gift. A reporter, aware of this little foible, decided to be even with him, and so, when he saw his hand straying in the direction of the dish as a hint that the interview was at an end, the journalist forestalled Sir Alfred by saying, "May I offer you some fruit, Sir Alfred?" drawing two or three bananas from his own pocket.

WHAT McINTOSH BROS SAY.

An Eminent New York Chemist says that disease is carried on soiled bills, and that nearly all money is Germ-Laden. One of the best things to do with money, clean or soiled, is to bring it to this store and get nice new clean merchandise for it. Our clerks have all been made germ-proof and you will run no risk of spreading disease by handing them your money.

McINTOSH BROS

SITS FOR EAST QUEBEC.

Ottawa Will Not Be Represented by Sir Wilfrid Laurier.

Ottawa, Oct. 19.—There is keen disappointment in Liberal circles in the capital. It had been expected that Sir Wilfrid Laurier would announce his intention of sitting for Ottawa if elected. He did not make this announcement, and it is learned that he will continue to sit for Quebec East.

Sir Wilfrid got a good reception in Ottawa Saturday evening, when he made his first appearance before the electors as their candidate, along with H. B. McGiverin. There were probably 10,000 persons present in the skating arena.

Sir Wilfrid, who was supported by Hon. W. A. Paterson and Hon. Chas. Murphy, dealt principally with the charges of maladministration regarding the sale of timber limits, of which much has been made in Ottawa owing to the fact that W. A. Fraser, one of the former Liberal candidates, had been forced out of the candidature as a result of the notoriety his dealings with the Interior Department had brought him.

Hon. William Paterson said that if the Conservatives were returned to power very much the same old men would be there to manage the affairs of the country as there were in the last days of the Tory rule.

Hon. Chas. Murphy poked fun at the disappearance to their homes of the provincial leaders who had early in the campaign toured the country with Mr. Borden.

MANIAC IN WOODS.

Montreal Boys Wounded by Madman at Longueuil.

Montreal, Oct. 19.—Two young boys from Montreal were fired upon, and one of them seriously wounded, by an unknown man in the woods at Longueuil yesterday.

Harold Patterson, aged 17, and Gordon West, aged 18, were shooting a mile east of Longueuil when a man, having the appearance of a maniac, approached them, and when within a few yards pulled a revolver and shot young Patterson in the back. He then turned his weapon upon West, shooting him in the hip, and then ran into the bushes.

Both boys were brought to the General Hospital, where little hope is entertained for Patterson. West was not seriously wounded.

The dying boy is a son of Lieut.-Col. H. T. Patterson. It is thought the man must be insane.

REEFS NEAR RUPERT.

Reports Are That Direct Route Is Impossible For Shipping.

Vancouver, B.C., Oct. 19.—It is reported that last summer's surveys of H.M.S. Egeria have shown that Brown Passage, between Dundas and Stephen Islands, the most direct route from Prince Rupert, is studded with so many dangerous reefs as to render safe navigation impossible. If shipping bound to and from this port is forced to deviate to the northward of Upper Dundas Island and then make a southerly run down Chatham Sound, it will increase the distance between Prince Rupert and the open sea by fifty to seventy-five miles, and rob the northern port of much of its advantage of being nearer to the Orient than southern ports.

Wrongfully Deported.

London, Oct. 19.—(C.A.P.)—Considerable attention has been attracted by the case of a man with a wife and seven children, who applied to the Police Court for assistance, stating he was deported from Canada five weeks ago after working there for two years. The magistrate enquired the reason for the deportation. The man replied he was suddenly and inexplicably ordered to quit, but subsequently, it is stated, he told it was because he could not show he had permanent employment. Enquiries are being made by the agent in the case. The Nestham guardians paid £62 to emigrate the family through the Salvation Army, who apparently sent him to Ottawa.

Wreck Victim Worse.

Barrie, Oct. 19.—The condition of Mrs. John Wilson, of Meaford, who was injured in the Grand Trunk wreck near here on Thursday, is regarded as very serious.

Mrs. Wilson sustained fractures of the arm and leg, and by reason of her advanced years, she has only been able to rally partially from the shock. Her recovery is considered doubtful by the hospital physicians.

Miss Hatson of Parkhill, whose arm had to be amputated, is doing splendidly. The other injured persons have been removed to their homes.

Two Aeronauts Perish.

Yarmouth, Eng., Oct. 18.—The German balloon Hergesell has been picked up in the North Sea. There was, however, no sign of the occupants, and the two aeronauts are believed to have perished.

The Hergesell was found floating half deflated 100 miles northwest of Heligoland by the Norwegian steamer Naddod and brought in here.

Leamington After Heinz.

Leamington, Oct. 19.—It is expected that the Canadian branch of the Heinz Pickle Co., for which Chatham, Windsor and St. Thomas have been bidding, will locate here. The town proposes to give the company a $10,000 factory and free water, besides exemption from taxes for ten years.

Killed by Train.

Havelock, Oct. 19.—Thomas Smith was instantly killed in the C.P.R. yards by being run over by a car.

The unfortunate man's head was smashed to a pulp, one wheel passing over the centre of his face and one hand and one foot was cut off.

Wyoming Warehouse Is Burned.

Wyoming, Ont., Oct. 19.—Fire Saturday night destroyed the grain warehouse of A. Laing. The blaze is supposed to have started from a spark from a passing engine. The building and contents were partially covered by insurance. Loss unknown.

THE MARKETS.

Liverpool Wheat Futures Close Higher, Chicago Lower—Live Stock—Latest Quotations.

Saturday Evening, Oct. 17.

Liverpool wheat futures closed today 3-8d to 7-8d higher than yesterday and corn 1-4d to 3-4d higher.

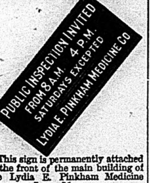
Hogs—Receipts, 3315, all for slaughterers; none for sale alive; nominally steady.

THE COME AND SEE SIGN



This sign is permanently attached to the front of the main building of the Lydia E. Pinkham Medicine Company, Lynn, Mass.

What Does This Sign Mean?

It means that public inspection of the Laboratory and methods of doing business is honestly desired. It means that there is nothing about the business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify any and all statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound.

Is it a purely vegetable compound made from roots and herbs — without drugs?

Come and See.

Do the women of America continually use as much of it as we are told?

Come and See.

Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick woman are asked to write?

Come and See.

Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential?

Come and See.

Have they really got letters from over one million, one hundred thousand women correspondents?

Come and See.

Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See.

This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she also might just as well regain her health.

TURKS NOT MOBILIZING

Rumors of Calling Out of Troops Declared to Be Unfounded.

Convocation of Anatolian Reserves For Manoeuvres Gave Rise to Report—Czar Ferdinand Has Persuaded Cabinet to Adopt Conciliatory Attitude Regarding Railway—War Measures Precautionary.

Constantinople, Oct. 19.—The report that the mobilization of the Turkish troops had been ordered is unfounded.

Presumably it arose through the fact that certain battalions of the Anatolian reserves, attached to the Salonika and Adrianople army corps, were convoked for the manoeuvres in the native districts, and that three battalions were ordered to Constantinople from Macedonia for police service in the capital, these being replaced by an equal number of redifs from Smyrna.

Paris, Oct. 19.—Advices received from Sofia yesterday were more reassuring, indicating that Czar Ferdinand has succeeded in persuading the Cabinet and war party to adopt a more conciliatory attitude and yield to Turkey's demand for direct negotions with regard to the Oriental Railroad.

On Saturday all sorts of wild reports of Turkish and Bulgarian mobilization were published.

Sofia, Oct. 19.—Sir George Buchanan, the British diplomatic agent, and Baron Von Romberg, the German consul-general, called upon M. Poprikoff, the Minister of Foreign Affairs, to give assurances that the military measures undertaken by Turkey were only precautionary in character, and that the porte had informed Great Britain and Germany that Turkey had no intention to disturb the peace.

M. Poprikoff, in reply, said that Bulgaria was willing to send the reservists to their homes if Great Britain and Germany would guarantee the preservation of peace.

This exchange of assurances had a tranquilizing effect, and the Minister of War countermanded the order calling out 15,000 additional reservists.

TELEGRAPHIC BRIEFS.

The German Reichstag will assemble Wednesday in Berlin.

Because of a ministers' row, Evangelist Chapman refused to conduct a Springfield, Mass., revival.

Jarvis Street Baptist Church, Toronto, congregation have passed a resolution opposing the proposed Baptist Church union.

The classic automobile race of the year will take place on Saturday, when daring drivers will compete for the Vanderbilt Cup over the 95-mile course on Long Island.

Youth Drowns.

Peterboro, Oct. 19.—Arthur Henning, 18 years old, and an Englishman, was drowned in the river here at 5 o'clock yesterday, the body being recovered three hours later in eight feet of water.

Henning, who was a farm laborer, and had been working in the country near here for the past three years, went out on the river in an eight-foot canvas canoe, in company with a well-known local character named Bill Bailey.

The frail craft upset, and Henning sank to the bottom. Bailey reached short in safety.

Toronto Jews In Riot.

Toronto, Oct. 19.—Iron pokers, claw-hammers, clubs and chairs were brought into free and indiscriminate use in a perceptible Donnybrook melee which occurred between two warring Jewish factions in The House of Jacob Synagogue last night.

Many heads were broken and several warrants are likely to be issued to-day for the arrest of certain inhabitants of "the ward" who are alleged to have entered the sanctuary with weapons intent upon either electing their president or inflicting bodily harm, or both.

Good Times Are Here.

New York, Oct. 19.—The National Association of Manufacturers announced Saturday that every branch of industry is showing marked increases of business and that during the past three months trade conditions have taken on new activity.

In an exhaustive canvass among 3,000 members of the association, the returns bear out the prediction that practically every manufacturing business will be upon a normal basis of production during 1909.

Should Come and See.

London, Oct. 19.—(C.A.P.)—Apropos an article summarized on Saturday, The Times editorially admits that much fault can be found by an Englishman traveling in the oversea states, but says there is something to be said about the attitude of the man who is prone to assure one that everything in his country is the finest of its kind in the world. The Times advocates strongly the visits of British statesmen to the oversea dominions.

Heirs Take Up Mother's Fight.

Vancouver, B.C., Oct. 19.—The heirs of the late Mrs. Joan Dunsmuir are continuing their suit against her son, Lieutenant-Governor James Dunsmuir, and have retained E. P. Davis as leading counsel. The case involves property valued at millions. Davis was counsel for Dunsmuir when Edna Wallace Hopper sued him two years ago.

Roosevelt to Tour Britain.

London, Oct. 19.—With reference to the proposed visit of President Roosevelt, The Sunday Observer says that the President will make an automobile tour of England and Ireland.

FACE DEATH BY FIRE

Village of Brownhill Is Threatened With Destruction.

Bush Fire Has Reached Outskirts of Community and Every Able-Bodied Man Is Out Battling With the Flames—County Engineer Heroically Rescues Women From Death In Cabin—Horses Are Burned.

Brownhill, Ont., Oct. 20.—Bush fires hich have been smouldering for a onth in this vicinity, Sunday burst nto flames and rapidly spread to the illage, destroying several houses on he outskirts before they could be hecked. Late yesterday the communty was threatened and every available man is working to extinguish the res.

A gang of Toronto boys working on steel bridge at this place started or their camp with a team of horses, ut were soon compelled to send the orses back on account of the heat nd smoke. They resumed their jourey on foot and reached the house ust in time to save its contents. They hen started for two small cabins in thickly foliaged swamp. On the ay Teddy Tatener, one of the party, as overcome by smoke and had to e carried back to the headquarters. he cabins were subsequently saved rom destruction [illegible] great effort. Two women, [illegible] of one of the abins, were rescued after heroic eneavors on the part of N. P. Bell, ounty engineer, and the band of fireghters. After a long struggle the hen succeeded in controlling the ames for the time being.

Attempt to Shoot Priest.

Chicago, Oct. 20.—An attempt to ssassinate Rev. J. K. Fielding, pastor f the Corpus Christi Roman Catholic hurch, was made Sunday. After wice shooting at the priest in the unday school hallway of the church, he would-be assassin, knocking down everal children that stood in his ay, ran into the street and escaped.

Clothes Caught Fire.

Montreal, Oct. 20.—Mrs. Boucher, esiding at 18 Hagg street, Mile End, as burned to death yesterday morng, her clothes catching fire while he was starting a fire in the stove. he was 21 years of age.

New York Dairy Market.

NEW YORK, Oct. 19.—Butter, easy; receipts, 5301; creamery, specials, [illegible] to 27½c; extras, 26c to 26½c; thirds to firsts, 18c to 25c; held, firsts to specials, 18c to 26½c; state dairy, common to finest, 18c to 25c; process, common to special, 16c to 23½c; western factory, firsts, 19½c; western imitation creamery, firsts, 20c.

Cheese—Steady; receipts 771; state full cream, specials, 13¾c to 14¼c; do., full cream, September white or colored, fancy, 13c; do., large, 12½c; do. full cream, Oct. fancy, 12½c; do., good to prime, 12c to 12¼c; do., common to fair, 10c to 11½c; do. skims, 3c to 10¾c.

Eggs, dull; receipts, 5223; state, Pennsylvania and near-by fancy selected white, 40c; do., fair to choice, 33c to 38c; brown and mixed fancy, 32c.; do., fair to choice, 28c to 31c; western firsts, 23½c to 25c; seconds, 22c to 23c.

CATTLE MARKETS.

Cables Unchanged—U. S. Markets Are Generally Steady.

LONDON, Oct. 19.—London cables for cattle are steady at 11½c to 12¾c per lb., dressed weight; refrigerator beef is quoted at 9½c to 13c per lb.

Toronto Junction Live Stock.

TORONTO JUNCTION, Oct. 19.—Receipts of live stock at the Union Stock Yards were 62 carloads, composed of 1298 cattle, 673 sheep and lambs, with 58 calves.

Exporters.

Dealers stated that choice well finished export steers would be worth $5, but there were none reported higher than $4.85 on to-day's market. Export bulls, $3.50 to $4, were the prices paid for the bulk of bulls offered, altho Dunn & Levack sold one of choice quality at $4.50 per cwt.

Butchers.

Choice butchers are worth as much as exporters these days. Choice picked lots of heifers and steers, were quoted at $4.75; the best load of 15 butchers' heifers were sold by Dunn & Levack at $4.70; load of fair to good, at $4 to $4.40; medium, $3.75 to $4; common, $3.25 to $3.50; canners, $1.12½ to $2.

Feeders and Stockers.

Several loads of short-keep feeders, 1200 to 1250 lbs., were bought at $4 to $4.15; other classes were not represented.

Milkers and Springers.

Over 50 milkers and springers of good to choice quality sold all the way from $45 to $75 each, but only one was reported at latter price, and two or three of commoner quality sold at $37.50 to $40 each.

Veal Calves.

There was not one choice new milk veal calf on the market, many of those offered were coarse heavy calves that weighed from 300 to 400 lbs. each, but they all sold readily at prices ranging from $3 to $6 per cwt., the bulk going from $4 to $5.50 per cwt.

Sheep and Lambs.

Prices easy at following quotations: Ewes $3.25 to $3.50; rams, $2.50 to $3.75; lambs $4.25 to $4.35 per cwt.

Hogs.

Gunns, Limited, quoted selects at $6.25, fed and watered, at market and $6, f.o.b. cars, at country points.

Montreal Live Stock.

MONTREAL, Oct. 19.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ending Oct. 17, were 2950 cattle, 4172 sheep and lambs, 2256 hogs and 376 calves. The offerings this morning for local consumption consisted of 1500 cattle, 1300 sheep and lambs, 600 hogs and 250 calves.

Owing to the continued limited supply of good to choice cattle coming forward and the good demand for the same from both local and export buyers, a stronger feeling has developed in the market and prices are fully a quarter cent per lb. higher than a week ago. Sales of several car loads of good northwest ranch and Manitoba domestic cattle were made for export account at 4½c to 4¾c per lb. and local butchers paid as high as 5c per lb. for choice Ontario steers. The offerings of the lower grades of cattle were large, but as the demand for them was good from local and Quebec buyers, values ruled steady and show no change as compared with this day week. On the whole an active trade was done, which to some extent was due to the much cooler weather. Choice beeves sold at 4¾c to 5c; good ranch and Manitoba cattle for export, at 4½c to 4¾c; good butchers' stock, at 4¼c to 4½c; fair, at 3½c to 3¾c; common, at 2¾c to 3c, and inferior, at 2c to 2½c per lb. Cable advices from Liverpool on Saturday reported the market for ranchers, cows, heifers and bulls stronger and noted an advance in prices for these of ¼c to ½c per lb., as compared with a week ago, but made no change in Americans or Canadians; a weaker feeling has developed in the market for sheep and lambs since this day week and prices have declined ¼c per lb., which is due to the more liberal supplies coming forward and the fact that the demand for export account is very limited, owing to the continued unfavorable advices from foreign sources. The local demand for lambs was good and sales of choice lots were made at 4¾c to 5c, and good at 4¼c to 4½c per lb. The trade in sheep was slow at 3½c for choice lots and at 3c to 3¼c for culls per lb. The demand for calves was fairly good, of which the offerings were small and prices ruled steady, at from $3 to $5 each, as to quality. Altho the supply of hogs was much smaller than they were last week and cable advices on Canadian bacon steady, yet the undertone to the market was weaker and prices scored a further decline of 25c per cwt. The demand was only fair and sales of selected lots were made at $6.50 and common at $5 to $6.25 per cwt., weighed off cars.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 19.—Cattle—Receipts, 5500 head; fairly active and 10c to 15c lower; prime steers, $5.60 to $6; a few $6.50; shipping, $4.75 to $5.50; butchers', $4.25 to $5.25; heifers, $3.50 to $5; cows, $2.75 to $4.10; bulls, $2.75 to $4.40; stockers and feeders, $3.25 to $4.35; stock heifers, $2.75 to $3; fresh cows and springers, choice steady; others, $2 to $3 lower, $22 to $65.

Veals—Receipts, 1200 head; active and 25c higher, $5.75 to $8.75, a few $9.

Hogs—Receipts, 23,500 head; slow; pigs, steady; others, 20c to 35c lower; heavy, $5.50 to $5.65; mixed, $5.25 to $5.50; yorkers, $4.75 to $5.50; pigs, $4 to $4.50; roughs, $4.25 to $4.75; stags, $3.50 to $4; dairies and grassers, $4.75 to $5.50.

Sheep and Lambs—Receipts, 24,000 head; active; yearlings, 25c; lambs, 25c lower; lambs, $4 to $5.90; yearlings and wethers, $4.25 to $4.50; ewes, $4 to $4.25; sheep, mixed, $1.50 to $4.25; Canada lambs, $5.75.

Comfort and independence abide with those who can postpone their desires.—Success Magazine.

British Ship Was Seized.

Filibuster Is Captured On its Way To Montenegro.

Austrian Naval Guard Wages War For Hours With Montenegrin Mob as Result of Intended Attack on Consul--English Steamer Was Trying to Smuggle Arms to Little State and is Arrested Near Cattars.

Berlin, Oct. 20.—According to the Vienna correspondent of The Tageblatt there has been a skirmish between an Austrian naval guard and a mob of Montenegrins at Antivari. The correspondent says in his despatch: "It is reported here from Antivari that a crowd of Montenegrins threatened the Austrian consul. A guard for the protection of the consul was sent ashore from the Austrian squadron. The guard had a desultory skirmish with the mob, which lasted several hours."

The Tageblatt's Budapest correspondent says: "An Austrian torpedo boat has arrested a British steamer near Cattars, on the Bay of Antivari, laden with arms and ammunition, destined for Montenegro."

War Cloud Dispersed.

London, Oct. 20.—The cloud which lowered over the near eastern situation on Saturday has been dispersed. The belief in the best-informed quarters still is that peace will be unbroken.

A despatch from Sofia to The Times says that it is understood that Bulgaria is willing to negotiate for the purchase of the Oriental Railroad, either with Turkey or with the company for a sum to cover the company's rights and Turkish proprietary rights.

FOUR BOY BANDITS.

Stocked Up With Firearms For a Western Trip.

Montreal, Oct. 20.—Four boys, all under 15 years of age, appeared before Judge Bazin yesterday on a charge of theft. The boys had read dime novels until they determined to lead lives of crime. Between them they stole $220, and with the money purchased a new suit and winter overcoat each, a plentiful supply of cigarettes, hunting knives, seven revolvers and a Winchester rifle and a liberal supply of ammunition. When captured they were about to leave for the wild west. Yesterday they all pleaded guilty to charges of theft, and will be sentenced on the 22nd.

TELEGRAPHIC BRIEFS.

The Standard Chemical Co. have had 25,000 cords of wood burned at Huntsville.

Mrs. John A. Blackburn was burned to death near her home while fighting forest fires in Virginia.

The bathing beaches at Coney Island and Brighton Beach, N.Y., have reopened during the warm spell.

An overheated stove set fire to a dwelling house at Summit, Pa., and four children lost their lives, while two other persons were probably fatally injured.

Fires have broken out afresh in many parts of the Adirondacks. There are thousands of hunters in the woods, adding to the seriousness of the calamity.

A westbound Atchison, Topeka and Santa Fe passenger train from Chicago collided with a freight train at Braddock, Kansas, and the engineer was killed and 22 passengers were injured.

R. L. Smith of Nevada, Mo., was killed and 15 passengers were hurt when three trolley cars collided in Kansas City. The air brake failed on one of the cars and it rushed back down a steep hill, crashing into two other cars.

France has accepted the offer made by Germany to refer to The Hague Tribunal for settlement of the question which has arisen between the two Governments over the arrest at Casablanca of deserters from the French foreign legion.

Millionaire Kills Girl and Self.

Omaha, Neb., Oct. 20.—Sewell Sltuman, reputed to be worth half a million dollars, and well-known throughout the west as a broker, Sunday night shot and killed Eva Hart, whose company he has been keeping for some time, and then took his own life.

The shooting occurred at the home of Miss Hart in Burdett street, whither the two had driven in an automobile.

Will See Women Vote.

Buffalo, N.Y., Oct. 20.—It was announced yesterday that Ray Costello and Eleanor Randall, English suffragists, attending the convention, will at its close, accompany Rev. Anna Howard Shaw, president of the National American Woman Suffrage Association, to Denver, where they will remain until after the election for the purpose of watching the women vote.

YOUNG WIFE KIDNAPPED.

Is Wandering Crazed Through Woods as Result of Outrage.

Huntington, L.I., Oct. 20.—Twice kidnapped from her home and kept a prisoner in the woods by two men for several days, Mrs. Abbie Meeriongola of this place, is believed to have been crazed and wandered to her death in a swamp, or is roaming through the woods, while posses, of which her husband is a member, are searching for her. Two men are under arrest.

Mrs. Meeriongola is 17 years old, the daughter of a well-to-do farmer, and the wife of a contractor, to whom she was married six years ago. She was first dragged from her home, Oct. 1 between two armed men. Three days later she staggered into her father's home and said she had been kept a prisoner in a swamp. A few days later another attempt to kidnap her was frustrated.

Again last Saturday afternoon the two kidnappers raided her father's home and frightening her mother with a revolver shot, again dragged the young wife away.

French Nationalism.

London, Oct. 20.—(C.A.P.)—Goldwin Smith, writing to The Guardian, says: "Strenuous efforts are being made by Imperialists to detach Canada more completely from her own hemisphere, and attach her more closely to Great Britain, with little success. We get on pretty well with the French, except when they become instruments of papal policy, but I could give you strong and unpleasant proof in connection with the half-breeds at Batoche of the strength of race attachment in French breasts. The most lively movement of the political kind in that quarter just now is the one in favor of French nationalism, headed by the rising politician, Henri Bourassa."

How McGregor Lost His Life.

Port Arthur, Oct. 20.—The steamer Scottish Hero, from Owen Sound, brings news of the drowning of Malcolm McGregor, the first mate. In charge of four men, McGregor put out from the Scottish Hero, just off Iroquois Point, in a yawl to assist some persons in danger of fire on shore. The sea was too heavy and so with the yawl half-filled with water and the men almost perished with cold and exhaustion, they fought they way back to the ship's side. A rope ladder was lowered and four of the men clambered up to safety. McGregor waited until they were safe and then commenced the ascent. When half way up his strength gave out.

Refused Holy Communion.

London, Oct. 20.—(C. A. P.)—Alan Banister, who some time ago married his deceased wife's sister in Montreal, was again refused Holy Communion at the Eaton Parish Church Sunday. Banister recently brought the matter before the Ecclesiastical Arches Court with the result that Connor Thompson, the vicar of Eaton, was admonished not to repel Banister again from communion.

Guard Kills Italian Convict.

Plattsburg, Pa., Oct. 20.—Marcatullio Remiggio, an Italian convict at the Dannemora State Hospital, was killed yesterday by an attendant. It is stated that Remiggio, who had been in solitary confinement, attacked the attendant with an iron spike and was struck by the latter in self-defence.

Birds Roost at Sea.

New York, Oct. 20.—The Scottish bark Pass of Killie Crankie, which now occupies the most commanding berth in the harbor, was made a way station on her trip here by flocks of birds blown off shore. There were hundreds of them. All were much exhausted. They were 400 miles from shore.

Declined to Strike.

Berlin, N.H., Oct. 20.—The paper makers employed at the Berlin Mills Co., were at their work as usual yesterday. The men refused to obey an order to strike.

Sir Charles Tupper Sworn In.

London, Oct. 20.—(C.A.P.)—Sir Charles Tupper was sworn in to the Privy Council yesterday.

Killed by Horse's Kick.

Whitby, Oct. 20.—William, the 17-year-old son of Joseph Evans of Claremont, was kicked over the heart by a horse yesterday morning and instantly killed.

Unmatched Millinery Styles

Our Millinery remains unmatched, showing as it does such style, such quality and such becomingness as can be found nowhere else. No two hats are ever just alike, every one possesses its own individual and distinctive charm.

There are felt hats, satin hats and ottoman silk hats, small, medium and large shapes with the newest trimmings, in black and all the leading colors.

We sell the noted Gage hats and think that the styles received this fall are even more charming than any of former seasons.

Feel free to visit our show room at any time. Our staff of efficient and painstaking salesladies will gladly assist you in your selection.

ELECT MR. BORDEN AND STUART GRAFF. A VOTE FOR FUNNELL OR McCARGAR IS A VOTE FOR CORRUPT GOVERNMENT.

Daily Intelligencer.

THE CALENDAR.

294 Days past—Days to come 772.

OCTOBER

20

Tuesday

Every man is the architect of his own fortune.

Pseudo-Sallust.

THIS DAY IN HISTORY.

Battle of Navarino, 1827.
Heights of Dargai recaptured, 1897.
Great fire in Sydney, C. B., 1901.

TIMELY TOPICS.

They're off to a good start.

So far as Hastings county is concerned, it's Tom Longboat against a cripple.

• • •

Mr. J. Funnell is not the first man who spoiled his reputation by trying to make a speech.

• • •

Even hot air won't run freely through that funnel.

• • •

It is alleged that Grits who went to Trenton yesterday to the nomination were furnished free transportation. One party on the boat said he was given a return ticket at the Grit committee rooms. Is not this a contravention of the Election Act? Judgment on that, Mr. Returning Officer Williams.

• • •

Mr. Denton, of Toronto, woke up a hornet's nest when he attempted to belaud Sir Wilfrid Laurier at the expense of the Old Chieftain, now dead. The Toronto "Solomon" will know better than to ever attempt that again in West Hastings.

• • •

Mr. Funnell is deeply interested in the Trent Valley Canal, when, as a matter of fact, in less than a week he'll be steaming full speed up Salt Creek.

• • •

Will somebody who is a good guesser please step up and tell us why men like J. Funnell and J. K. McCargar have the nerve to accept Federal nominations against such men as Messrs. Porter and Northrup. Surely those weak sisters know there is not one chance in a thousand of entering Parliament.

• • •

Yes, they're off, and in Hastings County a couple of 'em are away off.

• • •

Look out for election frauds and rascalities. Already there is evidence of unlimited law-breaking by the emissaries of Laurier.

• • •

Hon. Mr. Foy will send twenty-four special constables into East and West Algoma to see that the Election law is properly observed, and the Globe abuses him like a pickpocket for it. The Globe, of course, does not want political crime stopped. Queer paper, the Globe, since it has been edited by a clergyman.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & CO., Toronto.

DR. CHASE'S OINTMENT.

The Globe's Winnipeg correspondent telegraphs that "A movement is on foot here among the hierarchy to promote political divergence along the line of the Bourassa campaign in Quebec, and it is believed Archbishop Langevin is behind it. All of this may be expected to further Conservative interests under the guise of independence.

It is not difficult to understand why this report is put in circulation. It is too transparent to deceive any one. It's Grit tactics, however.

• • •

Is Hon. William Pugsley crazy? He must be when he plasters the billboards of St. John with such wanton blasphemy as this:

"ST. JOHN MUST BE READY, AND WITH GOD'S HELP AND MINE, IT WILL BE."

• • •

Hon. G. P. Graham says, "the Libs. will carry forty seats in Ontario." Oh! "Uncle George" (as you are known to some in Toronto) aren't you awful. Bet you the Laurierites won't carry twenty seats in Ontario.

• • •

The Samson ward committee meet this evening at the Porter committee rooms. All friends and supporters of candidate Porter are cordially invited to attend.

• • •

Borden for Premier and Better Government.

Rubber Goods That Are Alive

At this season a good Hot Water Bottle is a necessity in every home. We have a large assortment of fresh Hot Water Bottles. Fountain Syringes household rubber gloves. rubber sponges, face brushes, etc, that are alive and full of elasticity not the kind that are dried up and ready to crack after a few months use.

McKeown's Drug Store

PERSONAL AND SOCIAL.

Mr. F. G. Lockett, of Kingston, was in the city to-day.

R. C. Floyd is visiting his wife, who has been living with her aged mother, Mrs. Joseph Johnston, Mill St.

Mail and Empire: Mrs. A. W. Evans, of Belleville, and Miss Evans, of Trenton, are visiting Mrs. Harry Codd, 144 Albany avenue.

Mrs. W. H. Reed and son, of Edmonton, returned to that place yesterday, after having spent some months here, visiting her parents.

Mr. Rolly Logan, of New Brunswick, who is employed in the rolling mills in this city, left this morning for his home, to attend the bedside of his sister, who is dangerously ill.

At the Quinte: Thomas Longboat, T. C. Flanagan, J. Massie, P. Paton, G. A. Stone, W. R. Reilly, W. Minton, J. D. Webb, C. L. Davis, E. G. Smart, L. Groffe, S. W. Halligan, R. L. McGill, A. Betton, H. E. Holland, R. S. Hamilton, F. Greene, R. Fritt, C. E. Stewart, W. J. Connor, E. H. Rice, E. Tindall, J. Blake, A. S. King, H. Kennedy, Toronto; G. Ramsden, C. L. Brewer, R. D. Wiggett, R. W. Gregory, A. Whyte, J. A. Johnston, F. R. Fulton, H. J. Hurley, W. Agnew, A. Robertson, Montreal; G. F. Ellis, Kingston; S. Myers, Ottawa; F. Wilmore, Corbyville; D. E. Kitter, R. R. Bear, Allentown, Pa.; H. H. Alger, T. H. McKee, Stirling; A. B. Appleby, Cobourg; G. F. Blackmore, Lindsay.

The size of bed sheets used in hotels is regulated by law in Oklahoma.

Fell Off Gangplank.

When the Varuna came in from Trenton last night there was nearly a tragedy. A big stout passenger was crowded off the gangplank and fell in the drink with a splash that could be heard half way to the City Hall. He must have gone clear to the bottom, but came up promptly and grabbed the fender which hung close by. Then some kind-hearted life-saver lay down flat on the dock, reached down and got a hammer-lock on the unfortunate victim's hair. He couldn't sink again unless he wore a wig. Other fellows lay on the wharf, reached down and caught hold of the victim who was hauled up on to the dock. He was as juicy as a watermelon. "Great Snakes!" said one of his rescuers, "he's heavy." He certainly did look like a sure-enough apostle of local option. The poor fellow, with water dripping out of every pocket, must have weighed nearly a ton, and his rescuers almost ruptured themselves getting him up on the dock. Next time he falls in there should be a derrick on the job.

Wm Brightcliffe Given More Time.

Wm. Brightcliffe, the young Englishman, who a few days ago escaped from the county jail and was recaptured, was to-day brought up before Judge Fraleck and pleaded guilty to three charges, namely, house-breaking, theft and escaping. For the former offences he was sentenced to two years in the penitentiary and three months for escaping. This, with his former conviction, makes his sentence three years and three months in the penitentiary.

Rural Deanery Meets in This City.

The Chapter of the Rural Deanery of Hastings assembled this afternoon in the Parish Hall of St. Thomas' at three o'clock. There will be a service in the church at 8 o'clock this evening, at which the Rev. J. C. Dixon will be the preacher. To-morrow morning there will be a celebration of the Holy Communion at 8 o'clock, and a session of the Chapter at 10 o'clock. Papers will be read by the Rev. A. H. Creeggan and The Rev. R. C. Blagrave.

Harlor-McIninch

At 10.30 this morning, Miss Mabel McIninch, youngest daughter of Mr. and Mrs. Henry McIninch, of this city, was married to Mr. Roy Harlor, whose home is at Hazelton, Penn., but who has been employed as constructing engineer on the Lehigh cement works. The marriage was solemnized at St. Michael's church by the Rev. Father Twomey, in the presence of a number of spectators. Miss Frankie Mackie was bridesmaid, and Mr. V. Doyle did honors for the groom. The bride was attired in a travelling suit of blue cloth and wore a picture hat. The bridesmaid wore a cream tailored suit. After the ceremony Mr. and Mrs. Harlor left for the west and will visit several places of interest before going to Hazelton where they will reside.

Net Shipped Away.

The large gill net which was seized a few days ago by Inspector Boulter was yesterday shipped to the department at Toronto. It is said that prosecutions will follow the seizure.

NON-SUPPORT CHARGED

Andrew Fisher, of this city, was yesterday afternoon arrested on a charge of not supporting his wife. He has been remanded to jail until Saturday next.

MUSIC AND THE DRAMA

JOHN GRIFFITH TO-NIGHT.

"Faust," in which Mr. John Griffith, supported by Miss Edyth Totten and a reputed high-class company, will appear, is the attraction at the opera house to-night. Goethe's enduring drama has always been exceedingly popular with patrons of the better class of plays, and this fact, combined with the recognized greatness of Mr. Griffith in the role of "the Devil," renders the forthcoming presentation of double interest. Complete new scenic and electrical equipment was built during the past summer for Mr. Griffith's production of "Faust," which, it is declared, is on a scale of unusual magnitude and magnificence.

The attraction is brought here under the auspices of the I.O.O.F.

"UNCLE TOM'S CABIN."

The Winnipeg Free Press has the following to say of "Uncle Tom's Cabin," which appears here at the opera house on Thursday, Oct. 22nd: "Downie's 'Uncle Tom's Cabin' was presented at the Walker theatre last Saturday afternoon and evening, and if the slightest doubt as to the popularity of this sterling old production lingered in the minds of the theatre-goers it would have been completely dispelled had they peeped in at either the matinee or evening performance and seen the big theatre packed, from pit to dome, with happy, interested men, women and children. The stage settings were pretty, especially the transformation scene, showing "Little Eve" in heaven. Taken altogether the performance was most satisfactory." Prices 25c, 35c and 50c. Plan opens Wednesday morning.

Front street, this evening, the 20th inst., at 7.30 p.m. All Committee men and others interested are cordially invited. Addresses will be given by J. W. Johnson, M.P.P., W. S. Morden and W. O. Mikel.

CHAS. GREEN, Chairman.
R. W. Adams, Secretary.

All the world's a stage and all the actors try to monopolize the spot light.

It's no use fussing about keeping the faith if you cannot keep your friends.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Daily Intelligencer.

Mayes and Pugsley—The Dredging Fraud.

The Government organs, particularly in Ontario, led by the Globe, are trying to hoodwink their readers by telling them that because Mr. Pugsley was not a member of the Laurier Government when he demanded and extorted $2,000 from Mayes, that therefore the charge of complicity in the dredging fraud has been "virtually abandoned." So says the Toronto Star.

Has it? Look at the facts, summarized:

Mr. Mayes asked Mr. Pugsley in 1905 how he could secure dredging contracts from the Federal Government, and went to Mr. Pugsley, and Mr. Pugsley told him to see Mr. McAvity.

There is only one possible conclusion from the incident, that politics has something to do with the awarding of Government contracts.

Mr. Pugsley was at the time Premier of New Brunswick and consequently had great influence with the Laurier Government, and knew who could do the operating, so he sent Mayes to McAvity, who was a sort of sub-assistant deputy operator and well glorified by newspaper description as a "prominent Liberal" of St. John. McAvity proposed a visit to Ottawa—and something else. He demanded that Mayes raise his price from 50 cents to 55 cents a cubic yard, and give the extra five cents to him in payment for his influence. McAvity invested no money in the enterprise, but guaranteed to get Mayes the contract, if his terms were accepted, which were. He then walked into Mr. Hyman's office, who was Minister of Railways at the time, and the thing was done. Mayes got the contract, and paid McAvity $35,953 for his influence. This transaction is not denied by McAvity.

What does this prove? Simply that the Department yielded to the demand of McAvity.

Did not Pugsley know all this? If he did not know what McAvity could do with the Minister of Railways and Canals, why did he advise Mayes to see McAvity? The whole affair is too transparent to humbug the most abstruse.

* * *

It is gratifying to know that one Liberal journal looks upon this whole transaction as disreputable and little less than robbery of the public treasury.

The St. John Globe, the oldest Liberal paper in St. John, edited and published by Senator Ellis, a Liberal of the old school, in a column editorial denounces the whole affair, and says that if this graft continues with such loose attention to the real interests of the people a crisis will come in the administration of affairs in this country. It then calls upon McAvity to pay back to the Dominion treasury all of the $35,933 rake-off, and demands a thorough investigation, which will never be had until the gang are hurled from power.

Who Is Responsible?

The Toronto Star had an editorial on the 15th inst., which, if read between the lines, indicates a strong disapproval of the Mayes-McAvity-Pugsley dredging rake-off, but attempts to throw the blame of the transaction upon Hyman, who is now a "dead duck," and relieve his colleagues upon the principle that it was a departmental job, and not one of the Cabinet. That will not do. No one knows better than the Star that under our system of Government there is no divided responsibility. True, a Minister may do wrong, and if not disapproved by his colleagues they are responsible with him for the wrong-doing, but the wrong, they say, may be committed without their knowledge. True, but the moment it does come to their knowledge the guilty one should be asked to retire. If not, they are all guilty. Let's have no more disingenuous pleading in defence of this stealing.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver

SPORTS AND PASTIMES.

ATHLETICS.

Longboat Ran Here Before Large Crowd.

A large crowd gathered at the Arena last night—principally to see the great Longboat, the wonderful Indian running machine, who ran five miles against three local men. There were also four other events. But the crowd went to see Tom Longboat, and incidentally his promoter, Tom Flanagan. Longboat has all the action of a born distance runner. A long, never-varying stride, apparently tireless; he cuts down distance like a machine, and seems a worthy successor of the great Deerfoot, idol of a past generation.

120 Yards Hurdle.

The first event was the 120 yards hurdle race. The entries were Chas. Reynolds, Trenton; Murray G. Patterson, Belleville; M. Callaghan, Belleville; L. Barrett, Belleville. Reynolds took the lead and won easily, Patterson 2nd, Barrett 3rd. Time 21 secs.

Half Mile Race.

There were 10 entries for this event, namely: Russell Haines, Trenton; Ernest Hoag, Trenton; Arnold Raymond, Trenton; C. Reynolds, Trenton, Chas. M. Wallace, Belleville; J. Alexander, Belleville; G. Moffatt, Belleville; M. Callaghan, Belleville; R. Oliphant, B. A. A. C.; McKay Pritchards, B. A. A. C. Raymond, soon after the start, forged ahead and won handily. It was a good race from start to finish, the first three finishing close together. Haines was second and Pritchards third. Time, 2.40.

One Mile Race.

There were but four entered in this event, namely, A. Raymond, Trenton; E. Hoag, Trenton; R. Oliphant and R. Lewis, Belleville. Although Raymond of Trenton finished first he was set back to fourth place for fouling Oliphant, who was awarded first place. Lewis was second and Hoag third. Time 6.56.

Two Mile Race.

There were nine entries in this contest, namely: A. Raymond, Trenton; E. Hoag, Trenton; Russell Haines, Trenton; Chas. Wallace, Belleville; J. Alexander, Belleville; G. Moffatt, Belleville; M. E. Cole, Deseronto; R. Oliphant, B.A.A.C., L. Lewis, Belleville.

This was a good race, and was won by Cole, of Deseronto. Alexander 2nd, Oliphant 3rd. Time, 11 24 1-2.

Five Mile Relay Race.

This was the event of the evening. Longboat had against him three competitors namely, M. G. Patterson, and W. Smith, of this city, and A. Reynolds of Trenton. Whilst the famous Indian runner had to cover the five miles the other three contestants had but a mile and two-thirds each to run. Smith started in first but it was soon apparent that Longboat would lose him, and he did, beating him nearly four laps. He beat the two other boys easily, winning by about eight laps or over half a mile. The Indian on the last lap, appeared to be perfectly fresh. His time was 25m. 30s., which is said to be a record for an indoor race. The Indian was loudly applauded during his performance.

During the evening the I. O. O. F. band furnished a programme of music.

The officials were as follows:

Starter—H. Parker Thomas.

Referees—Thos. McGeachie, L. H. Wilkes.

Judges—Dr. W. L. Gilbert, P. J. Jennings.

Timekeepers—J. A. McFee, C. N. Sulman, J. V. Truaisch.

TO STRENGTHEN THE NERVES

MAKE NERVE FORCE FROM RICH, RED BLOOD AND BANISH DISEASES OF NERVES. WITH

Dr. A. W. Chase's Nerve Food

Nerve force, like electricity, is hard to explain.

One thing is certain. Nerve force can only be treated from rich, red blood.

Make the blood right and you cure diseases of the nerves, such as headache, indigestion, sleeplessness, irritability, weakness of the bodily organs, prostration and partial paralysis.

This is the only way actual cure can possibly be brought about and because Dr. A. W. Chase's Nerve Food is a great blood builder it accomplishes wonderful results in the cure of diseases of the nerves.

Mrs. Nooran, 19 Sullivan street, Halifax, N.S., writes:—

"My daughter was troubled last spring and summer with tired, listless feelings. She seemed to have no energy, was very pale, had no appetite, and became very nervous and weak. We were much alarmed about her, as nothing seemed to do her any good. It was not long, however, after beginning the use of Dr. Chase's Nerve Food until we began to see a marked improvement in her condition. Her color got better, she gained in weight and vigor, and her whole system seemed to be built up. She is quite well now, and we join in strongly recommending Dr. Chase's Nerve Food."

The old saying that "an ounce of prevention is worth a pound of cure" is nowhere so applicable as in diseases of the nerves, and there was never so effective a preventive as Dr. Chase's Nerve Food. This is being proven every day in thousands of cases.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is

A SUNLESS LAND.

Scottish Colonists Are Going to Try to Live on Kerguelen Island.

It is to be hoped that the sixty colonists who sailed from the Tyne the other day for Kerguelen Land, in the Indian Ocean, are sturdy, hardy folk, used to solitude and roughing it.

For of all places on earth, outside the Arctic and Antarctic regions, this is the most isolated and inhospitable. Indeed, it is generally known to mariners, not by its official title, but as Desolation Island.

Most nations have owned it by turns, but it has been sooner or later abandoned by them all as worthless, and this although it covers an area variously estimated at from 1,500 to 2,000 square miles. At present France is in nominal possession of it, she having annexed it in 1893.

There are no inhabitants, nor is it easy to see how those who are now on their way there are going to exist. The soil is utterly barren. Practically the whole of the interior is covered with snow-fields of unknown depth, whence glaciers flow down to the sea. Where there are no snow-fields, there are morasses, and hidden, treacherous mud-holes.

The climate is probably the worst in the world. Terrific tempests follow one another practically without ceasing, and are accompanied by torrents of ice-cold rain, hail, sleet, and snow. The Challenger expedition spent a month there, during which time there were only three fine days. And this was in December-January, when it is mid-summer in those latitudes.

Its discoverer, M. Kerguelen Tremarec, although at first he professed to be enraptured with it, lived to confess that it was unfit for human habitation. "Not even Eskimos," he exclaimed, "could exist there."

Yet the present expedition, we are told, intends taking there thirty negro laborers from Africa.

Poor, deluded children of the tropics!

AT POVERTY CORNER.

London Actor Got His Start at Time When He Most Needed It.

In his early youth Mr. James Welch, who has been amusing London in "When Knights Were Bold," experienced some hard times, and one day he was at his wits' end to furnish the wherewithal for the day's entertainment. The only course open to him was to pawn his watch. This he did, and, feeling reckless, at once made for a well-known restaurant, and, as he himself phrases it, "blued the lot" down to the last sixpence. "Now," said he, as he gave the ultimate coin to the waiter and once more walked into the street, "something must turn up, for I am 'broke.'" At that moment he felt a touch on his shoulder, and, looking round, recognized a professional friend, who apologized, but explained that on seeing Welch he was reminded that a small part that would suit him was then going at the Olympic. Then and there the direction of the walk was changed, and half an hour later Mr. Welch was engaged by Mr. Wilson Barrett (who remembered his Perkins in "The Golden Ladder" at the Globe) at a salary of £3 a week, an engagement which led to continued good fortune.

A Peer as Light Porter.

A good story is told of Lord Howard de Walden. At a seaside town, a short while ago, he was repairing his motor-boat close to the pier, when an old lady came along carrying a portmanteau, which was obviously too weighty for her. Turning to Lord Howard, she said, "Young man, would you be good enough to take this bag on board that vessel yonder? I want to cross to R——." "With pleasure," replied his lordship, and a few seconds later he was off in his dirty overalls, with the luggage on his shoulder. He deposited the bag on board, but after its departure he learned from a friend that this boat was not going to R——, but to France. The old lady's feelings are not recorded.

Female "Highwayman."

A woman of forty-one, named Bridget Waterhouse, was committed for trial from Preston (Eng.) Police Court a short time ago on a charge of stealing a purse containing 6s. 9d. from John Cookson, a young man of eighteen.

Cookson told the magistrate that he was walking along the street at night when the woman suddenly struck him, knocked him down, jumped on him, and took his purse out of his pocket. She got away, but was arrested later.

Waterhouse admitted her guilt, and as she was being led to the cells she struck violently at Cookson, but was promptly seized by the gaoler.

Queen's Favorite Flower.

While Her Majesty has a penchant for sweet-peas, particularly those of delicate shades and tints, she more often than not wears carnations, both in and out of doors. The Malmaison carnation, in fact, is her favorite flower, although at a garden-party, for instance, she will sometimes be seen wearing sweet-peas, a flower which she has helped to attain its present popularity. Both King Edward and the Prince of Wales, too, have a partiality for carnations, but they have an equal liking for gardenias.

Dogs Killed by Bees.

Two valuable dogs have been killed by bees at Slough Hall, Theberton, England. A Clumber spaniel and a terrier, which were chained up, were attacked by a swarm of bees, and before aid could be rendered one had been stung to death. The other died shortly afterwards.

Irishman's Promise.

At Halifax (Eng.) Police Court recently the following dialogue took place: Irishman: I'm thirty-three years old, and I'll be 103 before I'm up again if you'll let me off. The

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their valne. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10,000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

TIMELY TOPICS.

A man in Albany, by the name of Brown has just been sentenced to seven years imprisonment for perjury in a case in which he claimed damages for injury done him in a street railway accident. If that had been done in an election case in Canada under the present Government, he would have been appointed to a lucrative position.

• • •

At a meeting in Drumbo, the other day, Mr. George Robinson stated that he had been a Liberal for forty years, but could no longer support the Laurier Government. He declared there were many Liberals in Woodstock who, like himself, had never cast a Conservative vote, who will go to the polls on the 26th of October and cast their ballot for Borden. That is what every honest man having the good of his country at heart should do.

• • •

Look how the Government has increased our trade with Great Britain, says the Laurierites. Yes, look at it, and it will be seen that in 1896 the percentage of imports from Great Britain to the total imports was 31.15, while in 1906, after nine years of the preference, it was only 24.42. In the same time the imports of goods from the United States grew from 50.90 per cent. of the total to 59.50 per cent.

• • •

The Hyman election in London was held by the Government to be Ontario's answer to the Autonomy Bills, and the back-benchers pounded their desks and shouted with partizan arrogance. The police court proceedings exposing the corruption of that election have wiped out the Liberal party as a fighting force in London. But the back-benchers (78 of them), having got Government appointments, care not a jot what happens to either London or the Liberal party.

• • •

The Independent Order of Foresters are not yet out of trouble. Supt. Otto Kelsey of the State Insurance Department, in a statement last week says that the affairs of the Independent Order of Foresters are being investigated by his department. He denied that in granting the order a renewal license he passed upon the merits of the recent increase in rates, adding that the renewal license was issued pending an investigation.

OLD LONDON.

Last Century Has Seen a Wonderful Change In World's Metropolis.

A hundred years ago the population of London was comfortably under one million. Westwards there was little of the town beyond what is now select and aristocratic Park Lane. Piccadilly was a fashionable quarter, as now; but South Kensington was represented by turnip fields. St. Johns Wood was woodland. Chalk Farm was a farming centre. Kilburn was not, nor Pentonville, nor Stratford, Camden Town and Kentish Town, Islington, Bow, Clapham and Tottenham were merely hamlets or country villages. Regent street was not begun until 1831; the present Royal Exchange was not opened until 1844. There was no Trafalgar square in the early nineteenth century; and no National Gallery, while the site of Charing Cross station was occupied by Hungerford market. In 1800 there were only three bridges running across the Thames, as against 15 to 16 to-day, to say nothing of tunnels beneath the water.

To enter London was a very dangerous matter in the early days of the century. Few dared to come to town after dark, on account of the footpads, while coaches were never safe from highwaymen. When the sun went down complete darkness reigned over most of the town. It was even more dangerous to walk about the streets than it is to-day, for there were no pavements. The streets were filthily dirty, badly paved with cobbles or rough stones, and almost undrained. Bond street was one of the brightest places at night by reason of ten swinging oil lamps. When gas first was used for lighting purposes the smell and the waste were alike most distressing. It was not till 1810 that a gas company came into being, and ten years passed before the principal streets were fairly illuminated. When ladies went to pay calls they chartered sedan chairs for the useful bus was not introduced until about 1830. The streets were full of porters and peddlers, and the air reverberated with the famous London street cries — "Knives to grind, O!" "Cherries Ripe, O!" or "Bellows to mend!" A hundred years ago the fashionable dinner hour was 5 to 6. Soup was then practically unknown, while oranges were a luxury for the rich until the middle of the nineteenth century.

EATEN BY A SHARK.

Steamer's Passengers Stand Helpless and Watch Tragedy.

Passengers by the P. & O. Co.'s Indian mail steamer Arabia, which called at Plymouth a few days ago, have been the unwilling witnesses of a terrible tragedy, a very popular member of the crew, William Newbury, being eaten by a shark.

Newbury, who was 26 years of age and married, was storekeeper. For some days a large shark had been observed following the vessel. When the liner was in the vicinity of Cape Finisterre there was a shout of "Man overboard!" Next moment every one's heart leaped as the thought of the shark occurred.

Quickly the ship was swung round and a boat was manned. The man, who proved to be Newbury, was observed in the water, evidently swimming. From the deck he was seen to be keeping himself well afloat, while the boat raced in his direction. Nothing was seen of the dread fish, which had previously roused the passengers' interest, but was now looked for with horror.

Suddenly, according to one of the passengers, as the man breasted the waves pluckily, he gave vent to an agonized shriek. At the same instant there was a commotion in the waters, and his head disappeared. A few moments later the boat was on the scene—too late. The waves were tinged with blood. The ferocious fish and its victim were already in the depths, out of reach, and the lifeboat had to give up hope and return.

How Newbury fell into the sea remains a mystery. No one appears to have known he was overboard until a shout was raised from the water.

Some Exalted Stokers.

The Prince of Wales, who during his recent voyage from Quebec in the Indomitable descended into the stokehold and took a turn at feeding the furnaces, is not the only member of our royal family who has played the role of stoker.

When the Duke of Connaught was returning from India on H. M. S. Renown, he showed much interest in the work of the naval stokers, and went down, suitably dressed, and plied a shovel as energetically as any of the astonished "coalies." At the end of half an hour, however, he had to confess that he had had enough, and that the work of the stokers were even harder than he thought.

Not long ago, too, Viscount Cole, eldest son of the Earl of Enniskillen, had a similar and more protracted experience of naval-stoking. But the most expert amateur shoveller of coals in Europe is the young Duke of Saragossa, who, after graduating as stoker on the Northern Railway of Spain, qualified as engine-driver, and twice a week drives the express from Madrid to San Sebastian.

A Daring Lady Aeronaut.

The Hon. Mrs. Assheton Harbord, who has recently been entertained to dinner by the Aero Club, in token of the members' appreciation of her efforts and pluck, is an enthusiastic aeronaut, a pastime requiring too much nerve and daring for the majority of her sex to take up gladly. Mrs. Harbord herself owns a balloon, and is wholly devoted to aerial navigation, having become quite a skillful pilot in the air, and partaken more than once in the races organized by the club, where she has had to hold her own amongst a company of experts. Here her experiences have brought her prominently before the public. In appearance Mrs. Harbord is fair and petite, with little suggestion of daring exploits. She married as her second husband a younger son of Lord Suffield, who is engaged in business on the Stock Exchange.

CANADA'S ELEVATORS.

Dominion Boasts the Largest One In the World To-day.

As a necessary complement to the building of a great fresh water marine Canadian shipping interests required grain elevators and within the past decade and a half, the most modern plants in the world have sprung into existence at lake ports north of the international boundary.

Canada is in the grain-growing business, and in the grain-moving business now with a vengeance. Since the impulse of national expansion thrilled the country and brought great enterprises into being, $22,000,000 has been invested by Canadians in great buildings for the lifting, forwarding and storage of grain.

The story reads romance into a prosaic subject, for no healthy Canadian can fail to feel the thrill of national spirit when he is told that this country has the largest grain elevator in the world. At the head of the great lakes are Canadian elevators which can spill fifty thousand bushels of wheat into a big lake steamer in less than an hour. At Georgian Bay are great modern steel tank receiving elevators, which can snatch 30,000 bushels of grain an hour from a vessel's hold and at the same moment be filling a train of cars on the other side for quick despatch to the seaboard.

Becoming retrospective, there are hundreds of young men who marveled at the elevators which stood at Owen Sound, Midland, Prescott, Kingston, Collingwood and a few other ports fifteen years ago.

One great modern Canadian elevator can hold more wheat than all those little buildings of a past decade combined. They are insignificant today in the light of a great nation's larger needs.

MACKENZIE'S LETTERS.

Interesting Correspondence Presented to Ontario Archives.

Through the kindness of Dr. A. B. Cook, Alexander Fraser, provincial archivist, has received a couple of interesting letters written by William Lyon Mackenzie to Col. Carroll of Norwich.

Dr. Cook obtained the letters for the archives from Miss Caroline Carroll, daughter of Col. Carroll, and now the sole survivor of the family. Col. Carroll was one of Mr. Mackenzie's most intimate friends and sympathizers. On the eve of the outbreak north of Toronto, Mr. Mackenzie went out to Col. Carroll's house, then in Toronto Township, and requested his active assistance. The colonel point blank refused, stating that while he was in full sympathy with the demand made for constitutional changes, he deprecated violent means; and that if he took part at all in the rising, it would be as an officer of militia and against his friend.

After Mackenzie's flight he was befriended and hidden for some days by Mr. Holcombe in Pelham Township on the Niagara frontier, until he was safely conducted across the river. Mr. Holcombe was an intimate friend of Dr. Cook's, and in after years gave him minute particulars of Mackenzie's escape, which the doctor is drawing up into a statement for the archives of the province.

After Mr. Mackenzie was pardoned and entered into public life once again, his intimate relationship with Col. Carroll was resumed and the letters now presented to the archives deal with political matters in which Hincks and his supporters figure.

A Laurier Story.

During the royal tour of the heir apparent in 1901, Sir Wilfrid was obliged to turn down over-zealous admirers who sought to make his progress across Canada in the entourage of the Prince of Wales a sort of joint affair.

The royal train ran in two sections. The first, which ran half an hour ahead of the second, carried detectives, correspondents, Sir Wilfrid, and the Rideau Hall party. Going down through Northern Muskoka, en route to Toronto, the first section stopped for half an hour at one point to take in water and to have the wheels tapped. The local Liberal Association was promptly on hand with an address in honor of Sir Wilfrid, placing him in a very awkward situation. It would have been a gross breach of etiquette for him, as a subsidiary personage in the vast machinery of the British Empire, to accept an address on a tour in honor of the heir apparent. At the risk of offending the delegation which had planned this foolish political display, he sent them about their business, informing them that he was merely a private individual on this tour, and that honors were reserved for the prince.

Scots Criticize.

The members of the Scotch farming commission have taken home admirable accounts of the tour. They apparently found much to admire in Canada, and something to criticize. R. B. Craig declares the Quebec farmers to be conservative and interesting, but the worst farmers in the Dominion, while regarding Ontario farmers, he observes a Buchan man would cut more thistles with less dash. There is plenty of room in Ontario for men with capital, though land is not cheap, he says, and points out that a quantity of land is wasted in New Brunswick and Quebec for want of sheep, because each man must keep a useless dog. Agricultural colleges are the objects of warmest appreciation.

Model of Old Quebec.

Among the recent additions to the objects of interest in the archives branch is a complete model of old Quebec City, which was sent one hundred years ago to the British Government by Colonel By, the founder of Ottawa.

The model was sent probably for military purposes and has been in Woolwich arsenal since. Dr. Doughty has succeeded in securing it and it will repose in the capital hereafter.

Wolfe's chair, which was donated by the Prince of Wales, was another interesting historical relic now in the archives' branch.

PASSENGER TRAFFIC

GRAND TRUNK RAILWAY SYSTEM

Single Fare for Hunters

Now in effect to all points in Temagami, points Mattawa to Port Arthur, to Georgian Bay and Mackinaw Division, Port Arthur via N. N. CO., and to certain points in Quebec, New Brunswick, Nova Scotia and Newfoundland.

October 22nd to November 3rd

Muskoka Lakes, Penetang, Midland, Lake of Bays, Maganetawan River, Lakefield, Madawaska to Depot Harbor, Argyle to Coboconk, Lindsay to Haliburton, Sharbot Lake via K. and P. Ry., and points from Severn to North Bay inclusive.

Return limit on all tickets, Saturday, December 5, 1908, or until close of navigation, if earlier, to points reached by steamers.

Hunter's Special

Leaving Toronto 9 p.m., Oct. 29, 30, 31, to North Bay, stopping at all stations. Returning special will leave North Bay 9 p.m., Nov. 11, 12, 14 and Special will leave Callandor 6 p.m., Nov. 10, 11, 12, 13, 14. Pullman, Baggage and Coach accommodation.

Single Fare for Dominion Elections

Between all stations in Canada, going Oct. 23, 24, 25, 26, returning Oct. 27th.

Tickets to certain points sold at reduced rates, authorized for Dominion elections, will not be good on train No. 1 or No. 4.

Full information and tickets from any Grand Trunk agent.

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT 1907 BY McCLURE PHILLIPS & CO.

steam blown straight upward rough the stillness of the evening. seemed bursting with light. Every tle crack leaked it in generous reams, while the main illumination ppeared fairly to bulge the walls outard. This was in itself nothing exnordinary and indicated only the acvity of those within, but while I look- an irregular patch of incandescence ddenly splashed the cliff opposite. or a single instant the very substance the rock glowed white hot. Then om the spot a shower of spiteful akes shot as from a pyrotechnic and e light was blotted out as suddenly it came.

At the same moment it appeared at nother point, exhibited the same nenomena, died, flashed out at still third place, and so was repeated ere and there with bewildering radity until the walls of the valley ackled and spat sparks. Abruptly e darkness fell. As abruptly it was oken again by a similar exhibition, ly this time the fire was blue. Blue as followed by purple, purple by red. hen ensued the briefest possible use, in which a figure moved across e bars of light escaping through the inks of the laboratory, and then the hole valley blazed with patches of ricolored fire. It was not a reflecon. It was actual physical conflagraon of the solid rock in irregular eas. Some of the fire shapes were ost fantastic. And with the unexctedness of a bursting shell the surce of the ground before our feet ackled into a ghastly blue flame.

The nigger uttered a cry in his throat d disappeared. I felt a sharp breath my neck, an ejaculation of surprise my ear. It was startling enough to are the soul out of a man, but I ld fast and was just about to step forward when my collar was twisted tight from behind. I raised both my hands, felt steel and knew that I was in the grasp of Handy Solomon's claw.

The sailor had me foul. I did my best to twist around, to unbutton the collar, but in vain. I felt my wind leaving me; the ghastly blue light was shot with red. Distinctly I heard the man's sharp intaken breath as some new phenomenon met his eye, and his great oath as he swore.

"By the mother of God," he cried, "it's the devil!"

Then I was jerked off my feet, and the next I knew I was lying on my back, very wet, on the beach. The day was breaking, and the men, quite sober, were talking vehemently.

It was impossible to make out what they said, but as Handy Solomon and the nigger were the center of discussion I could imagine the subject. I felt very stiff and sore and hazy in my mind. My neck was lame from the dragging and my tongue dry from the choking. For some time I lay in a half torpor watching the lilac of dawn change to the rose of sunrise, utterly indifferent to everything. They had thrown me down across the first rise of the little sand dunes back of the tide sands, and from it I could at once look out over the sea full of the restless shadows of dawn and the land narrowing to the mouth of the arroyo. I remember wondering whether Captain Selover were up yet. Then with a sharp stab at the heart I remembered.

The thought was like a dash of cold water in clearing my faculties. I raised my head. Seaward a white gull had caught the first rays of the sun beyond the cliffs. Landward—I saw with a choke in my throat—a figure emerging from the arroyo.

At the sight I made a desperate attempt to move, but with the effort discovered that I was again bound. My stirring thus called Pulz's attention Before I could look away he had followed the direction of my gaze. The discussion instantly ceased. They waited in grim silence.

I did not know what to do. Percy Darrow, carrying some sort of large book, was walking rapidly toward us. Perdosa had disappeared. Thrackles after an instant came and sat beside me and clapped his big hand over my mouth. It was horrible.

When within a hundred paces or so I could see that Darrow labored under some great excitement. His usual indifferent saunter had, as I have indicated, given way to a firm and decided step; his ironical eye glistened; his sallow cheek glowed.

"Boys," he shouted cheerfully, "the time's up. We've succeeded. We'll sail just as soon as the Lord'll let us get ready. Rustle the stuff aboard. The doctor'll be down in a short time, and we ought to be loaded by night."

Handy Solomon and Pulz laid hand on two of the rifles near by and began surreptitiously to fill their magazines. The nigger shook his knife free of the scabbard and sat with it in his left hand, concealed by his body. I could feel Thrackles' muscles stiffen. Another fifty paces and it would be no longer necessary to stop my mouth.

The thought made me desperate. I had failed as a leader of these men and I had been forced to stand by at debauching, cruel and murderous affairs, but now it is over I thank heaven the reproach cannot be made against me that at any time I counted the consequences to myself. Thrackles' hand lay heavy across my mouth. I bit it to the bone, and as he involuntarily snatched it away I rolled over toward the sea.

Thus for an instant I had my mouth free.

"Run! Run!" I shouted. "For God's sake"—

Thrackles leaped upon me and struck me heavily upon the mouth, then sprang for a rifle. I managed to struggle back to the dune, whence I could see.

CHAPTER XXII.

PERCY DARROW, with the keenness that always characterized his mental apprehension, had understood enough of my strangled cry. He had not hesitated nor delayed for an explanation, but had turned track and was now running as fast as his long legs would carry him back toward the opening of the ravine. My companions stood watching him, but making no attempt either to shoot or to follow. For a moment I could not understand this, then remembered the disappearance of Perdosa. My heart jumped wildly, for the Mexican had been gone quite long enough to have cut off the assistant's escape. I could not doubt that he would pick off his man at close range as soon as the fugitive should have reached the entrance to the arroyo.

There can be no question that he would have done so had not his Mexican impatience betrayed him. He shot too soon. Percy Darrow stopped in his tracks. Although we heard the bullet sing by us, for an instant we thought he was hit. Then Perdosa fired a second time, again without result. Darrow turned sharp to the left and began desperately to scale the steep cliffs.

I once took part in a wild boar hunt on the coast of California. Our dogs had penned a small band at the head of a narrow barranca, from which a single steep trail led over the hill. We, perched on another hill some 300 or 400 yards away, shot at the animals as they toiled up the trail. The range was long, but we had time, for the severity of the climb forced the boars to a foot pace.

It was exactly like that. Percy Darrow had 200 feet of ascent to make. He could go just so fast; must consume just so much time in his snaillike progress up the face of the hill. During that time he furnished an excellent target, and the loose sandstone showed where each shot struck.

A significant indication was that the men did not take the trouble to get nearer, for which maneuver they would have had time in plenty, but distributed themselves leisurely for a shooting match.

"First shot," claimed Handy Solomon, and without delay fired offhand. A puff of dust showed to the right. "Nerve no good," he commented. "Jerked her just as I pulled."

Pulz fired from the knee. The dust this time puffed below.

"Thought she'd carry up that distance," he muttered.

The nigger, too, missed, and Thrackles grinned triumphantly.

"I get a show," said he.

He spread his massive legs apart, drew a deep breath and raised his weapon. It lay in his grasp steady as a log, and I saw that Percy Darrow's fate was in the hands of that dangerous class of natural marksman that possesses no nerves. But for the second time my teeth saved his life. The trigger guard slipped against Thrackles' lacerated hand almost at the instant of discharge. He missed, and the bullet went wide.

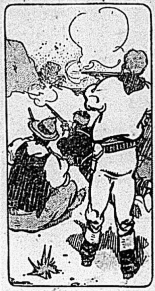
Darrow had climbed a matter of twenty feet.

Now, the seamen distributed themselves for more leisurely and accurate marksmanship. Handy Solomon lay flat on his stomach, resting the rifle muzzle across the top of a sand dune. Pulz sat down, an elbow on either knee for the greater steadiness. The nigger knelt, but Thrackles remained on his feet. No rest could be steadier than the stonelike rigidity of his thick arms.

The firing now became miscellaneous. No one paid any attention to any one else. Each discovered what I could have told them, that even the human figure at 500 yards is a small mark for a strange rifle. The constant correction of elevation, however, brought the puffs of dust always closer, and I could not but realize that the doctrine of chances must bring home some of the bullets. I soon discovered by way of comfort that only Thrackles and Handy Solomon really understood firearms, and of those two Thrackles alone had had much experience at long range. He told me afterward he had hunted otter.

About halfway up the cliff Thrackles fired his fifth shot. No dust followed the discharge, and I saw Percy Darrow stagger and almost lose his hold. The men yelled savagely, but the assistant pulled himself together and continued his crawling.

The sun had been shining in our faces. I could imagine its blurring effect on the sights. Now abruptly it was blotted out, and a semitwilight fell. We all looked up in spite of ourselves. An opaque veil had been drawn quite across the heavens, through which we could not make out even the shape of the sun. It was like a thunder cloud except that its undersurface instead of being the usual gray black was a deep earth brown. As we looked up a deep bellow stirred the air, which had fallen quite still, long forks of lightning shot horizontally from the direction of the island's interior, and flashes of dull red were reflected from the canopy of cloud.



The firing now became miscellaneous.

The men stared with their mouths open. Undoubtedly the change had been some time in preparation, but all had been so absorbed in the affair of the doctor's assistant that no one had noticed. It came to our consciousness with the suddenness of a theatrical change. A dull roaring commenced, grew in volume, and then a great explosion shook the very ground under our feet.

We stared at each other, our faces whitening.

"What kind of hell has broke loose?" muttered Pulz.

The nigger fell flat on his face, uttering deep lamentations.

"Voodoo! Voodoo!" he groaned.

A gentle shower of white flakes began, powdering the surface of everything. Far out to sea we could make out the sun on the water. Gradually the roaring died down. The lightning ceased. Comparative peace ensued. We looked again toward the cliff. Percy Darrow had not for one instant ceased to climb. He was just topping the edge of the bluff. Handy Solomon with a cry of rage seized another rifle and emptied the magazine at him as fast as the lever could be worked. The dust flew wild in a half dozen places. Darrow drew himself up to the sky line, raised his hat ironically and disappeared.

"D— his soul!" cried Handy Solomon, his face livid. He threw his rifle to the beach and danced on it in an ecstacy of rage.

"What do we care?" growled Thrackles. "He's no good to us. W'at I want to know is w'at's up here anyhow!"

"Did you ever see a volcano go off, you swab?" snapped Handy Solomon.

"Easy with your names, mate. No, I never did. We better get out."

"Without the chest?"

"S'pose we go up the gulch and get it, then," suggested Thrackles.

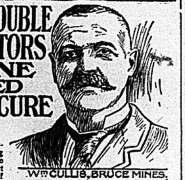
But at this Handy Solomon drew back in evident terror.

"Up to that hole?" he objected. "Not I. You an' Pulz go."

They wrangled over it, Pulz joining. Perdosa, shaken to the soul, crept in and made a bee line for the rum barrel. He and the nigger were frankly scared. They had the nervous jumps at every little noise or unexpected movement, and even the natural explanation of these phenomena gave them very little reassurance. I knew that Darrow would hurry as fast as he could back to the valley by way of the upper hills. I knew that he had there several sporting rifles, and I hoped greatly that he and Dr. Schermerhorn might accomplish something before the men had recovered their wits to the point of foreseeing his probable attack. The uncanny cloud in the heavens, the weird half light and the explosions, which now grew more frequent, had their strong effect in spite of explanation. The men were not really afraid to venture in quest of the supposed treasure, but they were in a frame of mind that dreaded the first plunge. And time was going by.

(To be continued.)

BRONCHIAL TROUBLE
BAFFLED DOCTORS
PSYCHINE
EFFECTED
PERMANENT CURE



W^m CULLIS, BRUCE MINES.

12 YEARS' TEST.

That the Psychine cures are permanent, is proved by the following remarkable statement received by the proprietors, as recently as August 10th, 1908. Mr. Wm. Cullis, of Bruce Mines, Ont., says: "When I first wrote you ten or twelve years ago, I had Bronchial trouble and a rattling in the chest and a troublesome cough at night. My Doctor could not do anything for me. Finally I decided to try PSYCHINE and have much pleasure saying that before I had taken all of the third bottle I was as well as ever, and am grateful to say I have been well ever since. I weigh 186 pounds and would earnestly recommend PSYCHINE to anyone with the same trouble that I had."

BRONCHITIS SYMPTOMS.—Bronchitis is an inflammatory disease of the bronchia or air passages leading to the lungs. It commences with a common chilly feeling, aching pains in the limbs, the patient is thirsty and feverish, with langour, headache, loss of appetite, and restlessness, soreness in the chest increased on taking a long breath or going out into the cold air, wheezing sound in air passages, difficult breathing. A few doses of PSYCHINE will eradicate the trouble. Sam[illegible] on application. Send coupon attached. All druggists and stores s[illegible]chine. 50c and $1.00.

Autumn Styles In Ladies' Tailored Garments.

The New Autumn Styles in Ladies' Garments are very distinctive though not as exaggerated as rumor might have led us to expect. Long graceful lines strike the dominant note and the woman whose figure responds to this demand of fashion will have things much her own way. Then again, so much skill and ingenuity have been given to the designing of the new modes, that the desired effects of stylish dressing are within reach of every woman. A visit to our Ladies' Wear Department will at once convince you, that the once dreaded task of selecting fall garments has now become a real pleasure—every garment shown being of this season's latest creations.

Coat and Skirt Suits

One of the features of this season is found in Ladies' Coat and Skirt Suits. These are shown in a variety of plain and fancy stripe cloths, in all the new fall colorings, satin and braid trimmed and we sell these suits from $16.50 to $35.00 each.

Ladies' Fall Coats

Never before were such attractive styles shown in Ladies' Fall Coats. The new Directoire is one of this season's striking styles and is much in demand while the full length tailored coats in fitted and semi styles are shown in great variety These coats are priced from $7 50 to $25.00 each.

Dress Goods for Autumn Wear

You have never seen such variety, nor yet such pretty styles as is shown this season in our dress goods department. Together with plain cloths showing in all the rich fall shades, we have an endless variety of fancy weaves in plain and mixed colorings and with our great variety we show you goods at every price and are fully prepared to meet the requirements of every purse. Call and see our Dress Goods.

Pretty Styles in Ladies Shirtwaists

Every woman appreciates a dainty Shirtwaist and for this reason you will be delighted with our waist display including silk Waists, net waists in black white, cream and ecru, embroidered cashmere waists, white tailored cotton wash waists, lustre waists in a range of colors —black sateen and outing flannel waists at every price from $1 to $15.00 each.

Dress Skirts That Fit

We have a reputation for selling Perfect Fitting Ladies' Dress Skirts.

If you have never been able to buy a dress skirt that fits as you would like to have it fit you, then just try our dress skirt department and we will fit you as you cannot be fitted elsewhere.

Prices from $3.50 to $20 each

Ladies' Hand Bags

We have just placed in stock a very fine assortment of Ladies Hand Bags in a variety of styles from the very small to the large useful size used by ladies' as a shopping bag. We have these bags to sell at every price from 25c to $3 50 each.

Ladies' Kimonas

We are now showing a lot of New York made Ladies' Kimonas, made of American eider flannels in beautiful floral and oriental designs.

These are shown in a variety of styles in three quarter and full lengths and we have at every price from 75c to $5.00 each.

THE PARTY NOMINEES

Concluded from Page 2.

there be any bogus ballot-boxes this election?" To this Mr. Denton maintained a dignified silence. He got an attentive hearing when he began to speak of Sir John A. Macdonald, and frankly confessed that he had now a different opinion of that great man to what he had when he was alive. In the matter of the C.P.R. Sir John was right and the Liberals were wrong. (Cheers.) The National Policy, too, was the idea of a big man. (Cheers) But, though Sir John had been a big man, Canada had a bigger one in the person of Sir Wilfrid Laurier. By this remark, Mr. Denton almost stirred up a riot. Men arose in all parts of the house and hurled verbal bouquets at the speaker. They would not stand for such an odious comparison as that. When the tumult subsided Mr. Denton disclaimed any idea of giving offence. Did anybody think, he asked, that it would be better to take the reins of power from Laurier and give them to Borden. Evidently very many in the audience thought it would, and were not backward in saying so. In conclusion Mr. Denton appealed to them to vote for Mr. Funnell and let Laurier finish his work.

MR. MORDEN'S FINE SPEECH.

Mr. W. S. Morden followed, tore the statements of Mr. Denton into rags and tatters, while the audience enjoyed it hugely. Canada's prosperity, he showed was due to providence, and the N.P., which Laurier and his friends had promised to wipe out, but dared not. The Government had started rural mail delivery, which Mr. Borden had advocated for years and the Liberals had ridiculed. Then suddenly, on the eve of an election, they had started it. The Liberals made much of the prosperity of the Northwest, What caused that prosperity? The C. P. R., which was due to the Conservatives, and which the Liberals had fought tooth and nail. But all the good lands near the railroads in the west were now held by speculators, in direct contradiction to the Liberal platform. In prosperous times business men paid off their liabilities, but in the last 12 years of prosperity the Liberals had increased the national debt by 25 millions. Was that good business? If the Liberals could make good times, why did they not now do so; there was plenty of need for it. (Laughter.) Mr. Morden then told of the Montcalm ice breaker, and her expensive equipment, gave many instances of how Canada's money had been wasted to enrich the friends of the Government, and concluded by saying the Government was on trial for its life, and would be condemned on the 26th. Tremendous applause followed him to his seat.

MR. WRIGHT DEPLORES CAMPAIGN METHODS.

Mr. M. Wright was sorry to see that the old campaign methods still prevailed. There was too much talk of graft and scandal. As to the cause of the 12 years of good times, Mr. Wright said that was a matter of opinion. He admitted that the cost of governing the country had gone up. The fact was that the country, owing to the unusual prosperity, had had money and had spent it. After a long eulogy of the Militia department, Mr. Wright concluded by hoping the election would be conducted in a friendly spirit.

MR. PORTER CONCLUDES.

Mr. Porter, according to agreement, then briefly replied to the Liberal speakers. Mr. Denton said the Laurier Government had built up the country. What had they built? He would tell them. They had built the Quebec bridge, which fell into the St. Lawrence and lost the country six millions; they had built a canal from Porter's Lake to the sea, which had drained the lake dry and it had been dry ever since; they had built a wharf in Nova Scotia at a cost of $28000 and not one vessel had tied up there yet; they had given 17 acres of the Plains of Abraham to the Ross Rifle Company, and then had to buy it back for nearly a million dollars. How was that for a business Government? (Great laughter and cheers.) Some one had spoken of the wise minister of agriculture, Hon. Mr. Fisher, whose chief claim to distinction was that he had tried to teach the farmers how to fatten chickens with a squirt. (Roars of laughter) Once more Mr. Porter pointed out that the issue lay between honesty and dishonesty, between capacity and incapacity, and said the Liberals would get their deserts on the 26th.

Cheers for the King, candidates and chairman wound up a meeting which certainly gave the friends of Mr. Porter little to be dissatisfied with.

W. B. Northrup And J K. McCargar in The East Riding.

The nomination of candidates to contest the East Riding of the County of Hastings took place yesterday in the Town Hall, Tweed, at 2 p.m.

After the Returning Officer's clerk had announced the names of W. B. Northrup, Conservative, and J. K. McCargar, Liberal, as the candidates, a meeting was organized by calling Dr. Bowlby, Reeve of the Village, to the chair, who, after informing the meeting that one and a half hours had been agreed upon for each side, in a few pertinent remarks, introduced the gentlemen who were to address the meeting, the first being Mr. Northrup, late representative of the Riding.

The Town Hall was crowded to excess, many having to stand.

Mr. Northrup, on stepping forward, was received with loud applause by the vast majority of those present. He then, in a masterly manner, peculiar to himself, dealt with the record of the Laurier Government, to the great delight of his hearers, as signified by the repeated bursts of applause which followed the different points made. Space in this day's issue prevents a full report of his speech.

Mr. McCargar, on coming forward, was received with loud laughter and the clapping of hands. Mr. McCargar modestly disclaimed any pretentions to speechmaking. This he repeated a number of times. During the ten minutes he spoke he informed the audience that he had been a County Councillor for a number of years, Warden of the County and a worker, adding that he was a supporter of Laurier, and, with true Liberal instinct, asked whether he could not, if elected, get more out of the Government than Mr. Northrup could as as Oppositionist? He then closed by saying that he had Mr. O'Flynn with him, who would do the talking for him. It is needless to say, this was received with uproarous derisive cheers.

Sir Mackenzie Bowell was then called upon, who, having but a short time at his disposal, had to confine himself to a very few points connected with the twelve years' administration of the affairs of the country by the present Government. Before touching public affairs he paid his respects to Mr. McCargar, and frankly admitted that experience had taught them he was a "worker," as those in the South of the Riding well knew. It was not forgotten how energetically he worked with the old "grey mare" and "coon skin coat" in doing missionary work at election times. In addition to this work he "worked" unremittingly in travelling up and down the bay shore, informing the fishermen what he could secure for them if they only voted Grit. All admitted his "working" qualities at elections and in making promises to fishermen and in other lines peculiar to the party of which he was the shining light. Sir Mackenzie then said that since he came to the village he had been informed that the old grey mare and a foal were still in the township, and suggested that Mr. McCargar secure them for work in the coming contest. It is needless to say, this created no little amusement. The speaker pointed out that McCargar's promise that he could do more for the county as a Laurierite than could be done by one in Opposition was a system of bribery characteristic of the Grit party. Principle he professed not, it was boodle, but as he would never grace the House of Commons with his presence it was useless to discuss this point further. Sir Mackenzie then, during the short time at his disposal, dealt with a few questions of the day, pointing out a few of the iniquities of the ruling power.

He was followed by Mr. F. E. O'Flynn, who, for some fifty odd minutes, having his candidate's and his own time at his disposal, defended the Laurier Government in a flow of generalities without touching the main questions which are agitating the country during the present campaign, and it is but fair to admit he did it in a manner peculiar to himself and as well as it could be done by any of his confreres, making a tolerable good defence of an exceedingly bad cause.

The meeting closed in the usual manner with cheers for the King and the candidate.

It is needless to add that the result of the election is only a question of majority for Mr. Northrup.

One significant feature of the gathering was that not a single leading Liberal of the Riding was present to do honor to their distinguished candidate. Two West Hastings gentlemen did him the honor to accompany him, in the persons of Messrs. O'Flynn and Butler.

PRINCE EDWARD.

Mr. J. W. Johnson, M.P.P., spoke yesterday afternoon at the nomination for Prince Edward County at Picton, on behalf of the Conservative candidate, Mr. Geo. O. Alcorn, and again at a mass meeting in the evening. Both sides in Prince Edward are working hard. There are only two candidates in the field, Mr. Alcorn, ex-M.P., and Dr. Currie, ex-M.P.P. Mr. McMullen, who had been mentioned as a third candidate, having retired. Mr. Alcorn's chances of success are excellent.

TEACH YOURSELF NOW.

FOR YOUR OWN — YOUR CHILDREN AND YOUR FRIENDS SAKE.

Diseased parts of the air passages can best be reached by dry air. The bronchial tubes and lungs can only be reached by dry air. Hyomei is a dry air treatment from which you get the Balsamic effect of living in the Pine and Eucalyptic Forests, where catarrhal and bronchial troubles do not exist.

Hyomei destroys the germs that cause disease of the breathing organs, you simply by the use of a rubber inhaler, mix Hyomei air with your inward breath as it reaches the diseased parts where catarrhal, bronchial, croup or pneumonia, germs are multiplying by millions their life is snuffed out, as they are the disease, their extermination means quick improvement.

J. S. McKeown has the agency for Hyomei and will furnish the complete outfit for $1.00 under guarantee to satisfy.

The lefthand running of trains on double track is practised by two important railways in the United States—the Lake Shore and Michigan Southern railway and the Chicago and Northwestern railway.

A HARD-UP CLUB TH

SOMETHING ABOUT ONE OF LONDON'S SELECT INSTITUTIONS

It Is Called the Red Club After Founder and Is Quite an Exsive Organization Despite the F That Its Members Are Frequent Dead Broke—Most of the Memb Were Once Wealthy.

In a bye-street in Mayfair is o of the most curious institutions London. It is known among the mem bers as the Red Club, called after i founder, the scion of a ducal hous whose nickname was "Reddy," on a count of the color of his hair.

"Reddy," who died some few yea ago, was once a well-known figu on the turf and in society. He ke racehorses, betted heavily, and i his time made and lost a couple big fortunes on the Stock Exchang Ultimately he was reduced to abso lute penury, and was allowed thre pounds a week by his elder brothe Reddy then founded the Red Club which at the start consisted of thre other members of the aristocracy i the same plight as the founder. Ther are now over sixty members on it books, including a number of baro nets and several members of the peer age, a sprinkling of generals, admir als, diplomatists, and a large numbe of officers of lesser ranks.

The club has moved its quarter on several occasions, and now has it abode in a couple of rooms in house in the locality mentioned. Th subscription is five shillings per an num. Revenue derived from thi source would not, as a matter of fact keep the club going, and there is no bar, no catering done on the pre mises, from which a profit might b derived. Funds are, therefore, from time to time raised by voluntary contributions from such members as are in a position to contribute anything. Nothing is expected from the member whose pockets are at the time quite empty, or contain only sufficient coin to meet his necessary current expenses; and it is left to the honor of the members to say whether this is the case or not.

Many strange tales might be heard in the club—true tales of the slings and arrows of outrageous fortunes. Near the fireplace is an old leather chair, reserved by common consent of the members for Sir ——, a distinguished officer once a member of her late Majesty's household, at whose house in Grosvenor Square His Majesty, as Prince of Wales, frequently dined. Sir —— lives now on an annuity of £180 per annum, having lost all his fortune in a few years through unfortunate speculation on the Stock Exchange. In one day he is said to have lost $27,000. He bears his reverses cheerfully, and is one of the most popular members of the Red.

Another member is understood to supplement an allowance he has from his sister, a wealthy dowager, by writing society notes for a provincial daily paper. He is a baronet, and lost all his money in big speculations in building land in New Zealand. His bosom chum, a member of one of the most distinguished families in the peerage, is one of the oldest members of the Red, being nearly ninety, yet he carries himself straightly, and his eye is nigh as keen as it was fifty years ago, when, without one exception, he was accounted the best shot in England. He came to grief during the treasure-hunting craze, with which so many members of the aristocracy were smitten some forty years ago.

He dropped over £150,000 in these expeditions. Then he got a post in the city, threw it up, went in search of employment abroad, started an hotel in Bloemfontein, ran some swimming-baths in Chicago, and was Master of the Ceremonies at an entertainment club in Calcutta. He lives now on a small allowance from a relation.

There is a saying among the members of the Red that they have lost everything except "honor," and no man who was known to have been guilty of any dishonorable act, such as would exclude him from any club of repute, would have the least chance of getting into it. Before election the past career of each prospective member is subjected to a searching investigation.

Why "Labby" Was Popular.

Mr. Labouchere has been telling yet another capital story to add to the hundreds he has already told concerning people he has met during his eventful career. He was at Frankfort on one occasion, and at his first ball supper found himself at a table next to a grandee, gorgeous in stars and ribbons. The servant came to pour out champagne. "Now I detest this wine," says "Labby," "so I shook my head. The grandee nudged me, and said, 'Let him pour it out.' This I did, and he explained to me that the potentate whose hospitality we were enjoying never gave his guests more than one glass. 'So, you see, if I drink yours I shall have two'; and he suited the action to the word. After this there used to be quite a struggle to sit near me at court suppers."

Shark Caught.

A Scarboro, Eng., sea angler, John Owston, Jr., recently landed a species of shark five and a half feet long.

The man was fishing for whiting at the time, and had his hooks, bait, and line carried away at first. He procured a stronger line, with large hooks baited with mackerel. The bait was soon seized, and after three-quarters of an hour's struggling the capture was hauled on board.

Herring shoals off the coast account for the presence of these fish, which follow them.

Crab Apples as Buttonholes.

Some novel and attractive "buttonholes" are seen in London—bunches of bright-colored crab-apples, about the size of cherries, with their own leaves.

Porter and Funnell Party Nominees.

Nomination Meeting Held at Trenton Yesterday--Liberal Candidate Made Poor Impression--Fine Speeches by Conservative Orators-- Grit Speaker from Toronto Almost Woke up a Riot—Trenton Stalwarts in Line for Mr. Porter.

The great race for the House of Commons sweepstakes has started, and in West Hastings the candidates are

E. GUSS PORTER, K.C., Barrister, Belleville, and

JESSE FUNNELL, Merchant, Trenton.

A rather limited number of stalwarts went down on the Brockville from this city to attend the nomination meeting at Trenton. Of those who went, about half were Liberals. This was surprising, but when it was learned that the Liberal contingent had been furnished with free transportation it was easy to see why so many went.

THE NOMINATIONS.

The nominations were made in the Trenton Town Hall, where Mr. John Williams, the Returning Officer, received them. The two candidates named above were placed in the field. Those who signed Mr. Porter's nomination paper were:

John McKeown, S. H. Treverton, Robert Jeffrey, J. A. Bird, P. J. O'Rourke, W. B. Crane, W. H. Matthews, Edw. Kidd, G. W. Ostrom, Thomas McGeachie, R. J. Richardson, P. J. Peterson, R. A. Barber, J. Gardner, H. Curry, J. R. Danter, Wm. J. Galna, Thomas Flynn, Robt. McCoy, W. P. Hudson, J. A. Kerr, C. J. Bowell, Robert Fisher, Philip Flagler, James Cummins, J. W. London, J. P. Weets, Donald Paterson, W. A. G. Hardy, Burnham Mallory, John Taylor, Charles Green, W. G. Black, J. Parker Thomas, F. W. Brenton, Morden Bird, William A. Ketcheson, William Rodgers and F. Jeffrey.

Those who signed Mr. Funnell's paper were: M. Wright, J. H. Dickey and 38 others.

TRENTON WAS QUIET.

There seemed little excitement in Trenton, and the interest taken was not great. It was not hard to see that Stalwarts from Sidney and the north were present, and woke the echoes a bit with election talk, but for the most part things were quiet.

THE NOMINATION MEETING.

The oratory took place in the opera house, the lower part of which was filled, there not being a corporal's guard in the balcony, whereas, at the nomination meeting in 1901, when Byron O. Lott was running, the opera house was filled from pit to dome. As a matter of fact, Mr. Funnell, the present candidate, does not put up nearly so good a "front" as did the urbane Byron, and there were not wanting those in Trenton who would tell you that he will not make so good a run, either.

Dr Jacques, of Trenton, was voted to the chair, and these gentlemen took seats on the stage: Messrs. E. G. Porter, W. S. Morden, M. Wright, J. Funnell, Henry Pringle, W. J. Ostrom, Dr. Kidd, P. J. O'Rourke, Fortune, Young, and Mr. Frank Denton, of Toronto.

The chairman asked for a fair field and no favor for the speakers, and Mr. Porter opened the ball.

THE CONSERVATIVE CANDIDATE.

Mr. Porter received a hearty reception, and thanked the electors for having twice given him the highest honor in their power. He had tried to do his full duty to his constituents and to Canada as a whole, and believed he had a right to ask for a renewal of their confidence. (Cheers.) So far as he was concerned, Mr. Porter said, there was nothing personal in this campaign; he had every respect for his opponent, Mr. Funnell, but the issue was simply this: Did they want honesty or dishonesty in the Government? As candidate of the Liberal party, Mr. Funnell must take the responsibility for all the acts of the Laurier Government. Mr. Porter then spoke of the extravagance and corruption which characterized the Government. They had condemned the Conservatives for spending $38,000,000 a year, now they themselves spent $112,000,000. The Liberals objected to the talk about scandals, why did they give cause for the scandals? Speaking of the Trent Valley Canal, Mr. Porter said some Liberals said that if he were elected the work on the canal might be stopped. As a matter of fact, Mr. Porter said, the Trent Valley Canal was bound to be completed, no matter which Government was returned to power. He might ask, how much had the Conservatives of Trenton gotten out of the Trent Valley Canal? If Mr. Borden obtained power, the Trent Valley Canal would be finished, and the work would be given out impartially, and not go only to Liberals. What, Mr. Porter asked, had the Liberals done to bring the Trent Valley Canal terminus to Trenton? Hon. Mr. Aylesworth, in 1904, had promised the electors of Durham that if he were elected the terminus would be at Port Hope. Hansard would show that, in the nine years he (Mr. Porter) had been in Parliament he had made 16 speeches in favor of having the terminus at Trenton; the best the Liberals had done was to promise that the terminus would be at Port Hope. That showed which party was disposed to most favor Trenton. Speaking of the political complexion of Canada, Mr. Porter said the provinces had changed since 1906. New Brunswick, Ontario, Manitoba and British Columbia had turned Conservative, and the country as a whole would soon follow their example. (Cheers.) Mr. Porter then spoke of the Grand Trunk Pacific, which Laurier had said would only cost the country 13 millions, while last week Hon. Mr. Graham had admitted it would cost 1:8 millions; the grafts and steals of the middlemen; the North Atlantic Trading Company; the Arctic, which had been charged with a cargo twice the size of the ship, and the hundred other scandals which had disgraced Canada. In conclusion he urged them to vote for honesty in the person of Mr. Borden, thanked the electors for past favors and said he believed they would again return him as member for West Hastings. (Loud and long continued cheering.)

THE LIBERAL CANDIDATE.

Mr. Funnell was next, and received a warm reception from his Trenton friends. He had a type-written copy of his speech in his hand, with which he occasionally refreshed his memory. The Grit standard-bearer seemed very nervous, and, compared with Mr. Porter, made anything but a brilliant impression. A month ago, he said, he had no idea he would be the Liberal candidate. The position sought him, not him the position. Judging by his looks, Mr. Funnell did not appear overjoyed that it had found him. One week more, he said, and the campaign would be over. After imparting this piece of startling information he said we had a grand country, and thought the Government would be returned; that appeared to be his chief reason for thinking the electors should vote for him. After a little more talk in the same strain Mr. Funnell sat down. You could not, with a microscope, have seen where he had done much damage to the cause of Mr. Porter.

G. W. OSTROM, ex-M.P.P.

Mr. G. W. Ostrom was pleased with the attitude of both candidates, but must support Mr. Porter as the representative of the party which stood for Canada's best interests. No true Conservative could do anything but vote for Mr. Porter.

TORONTO LAWYER CHAMPIONS MR. FUNNELL.

Mr. Frank Denton, of Toronto, then took up the cudgels for Mr. Funnell. He said the farmers were better off now than in 1896, but confessed that Providence had a lot to do with it. Then he praised the immigration policy of Sifton, and the audience was ready for anything after that. Some of them, however, grew restive, and told Mr. Denton "That's enough," while many went out. He went on defending the acts of the Government, and a man asked him "Will

(Continued on page 3.)

The Chesterfield

Copyright 1908 by Hart Schaffner & Marx

Here's our Chesterfield Overcoat--the Coat of Coats.

CHARLES N. SULMAN

GENERAL INSURANCE AND REAL ESTATE AGENT.

Liverpool & London & Globe Ins Co., North British & Mercantile Ins Co., Sun Fire, Waterloo Mutual Lloyd's Plate Glass, Dominion of Canada Guarantee & Accident Insur Co., and other companies.

Farm and city property insured in first-class, reliable companies and at lowest current rates. Land valuator and agent for selling, purchasing or renting property, both in city and country.

W. P. HUDSON, Office No. 11 Campbell street, Dolan Block, Belleville. 'Phone 168.

Don't place too much confidence in a man who boasts of being as honest as the day is long; wait until you meet him at night.

IT COSTS YOU NOTHING TO TRY GIN PILLS

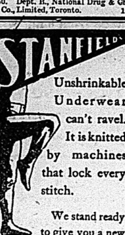
Write for Sample Box, Free if You Mention this Paper.

If you have Kidney or Bladder Trouble, Pain in the Back, Swollen Hands and Feet, Rheumatism, Sciatica or Lumbago, we want you to try Gin Pills at our expense. Just mention that you saw our free offer in this paper and ask for a sample of Gin Pills. We will send it to you free of charge. We know that Gin Pills will help your trouble—and cure you.

Being a sufferer from my Kidneys and Dizziness in the head, and could get nothing to help me, I saw in the papers what good Gin Pills were doing. I got a sample box and they did me so much good I bought three boxes and am taking them. They have worked wonders on me. I recommend them to any similar sufferer. GEO. A. BROWN, Hamilton.

Sit down right now and write us for the free sample box so you can test Gin Pills yourself. Mention this paper.

Gin Pills are sold by dealers all over Canada or direct at 50c a box—6 for $2.50. Dept. B., National Drug & Chemical Co., Limited, Toronto. 119



Unshrinkable Underwear can't ravel. It is knitted by machines that lock every stitch.

We stand ready to give you a new garment for any Stanfield's Underwear that ravels, just as we will replace any Stanfield's Underwear that shrinks.

Sizes from 22 to 70 inch chest—in light, medium and heavy winter weights.

Your dealer will likely have your size and weight. If not, he can get them for you.

Commencing Wednesday Morning at 8.30 Sharp

You can save from 20 per cent. to 50 per cent. in a great many lines.

See our Hand Bills and make a rush for this great saving sale.

McINTOSH BROS

TWO BY ACCLAMATION

Every Seat Will Be Contested Except Maclean's and Brodeur's.

Ald. Fiset Is Put Up to Contest Quebec East Against Laurier In Order That Ottawa Candidature Will Be Valid—Only One Quebec Riding Is Without a Conservative Competitor—Two Constituencies Left by Grits to Labor Candidates.

Toronto, Oct. 20.—There was only one election by acclamation in Ontario, W. F. Maclean, the former Conservative member for South York.

In five other constituencies no Liberal appeared. Two Conservatives are opposed to each other in Frontenac, and two Liberals in a similar position in Prescott. Against Major Beattie, the former Conservative member for London, there is running J. W. McCandlass, a labor man.

Apparently the only election by acclamation in Quebec was in Rouville, where no opponent to Hon. L. P. Brodeur, Minister of Marine and Fisheries, appeared, and he, also, is sure of his seat in the next Parliament. It was expected that Sir Wilfrid Laurier would have no opponent in Quebec East, but an acclamation for the Prime Minister would have seriously interfered with the plan of campaign and the appearance of Ald. Fiset as competitor was a surprise to most people.

If Sir Wilfrid had been elected in Quebec East it would have invalidated his candidature in Ottawa City, as the law provides that no man who is already a member of Parliament can be a candidate for another seat.

In Ontario the Liberals have left South Toronto and London to labor candidates and West Toronto and East Toronto to independents.

Ontario.

PRISON FOR CROZIERS

Father and Son Who Made Bogus Bills Are Sentenced.

Counterfeiters Arrested at Oakville Plead Guilty and Are Given Nine and Two Years by Milton Magistrate—Were Well Known In Halton and Court Room Was Crowded With Spectators.

Milton, Oct. 21.—With everyone in the crowded court room deeply affected, many shedding tears, Magistrate Shields yesterday afternoon sentenced Thomas Crozier to nine years in Kingston Penitentiary and his 18-year-old son, Milton, to two years in the Central Prison, for the crime of counterfeiting.

"May God bless you and bring you out a better man," were the magistrate's concluding words to the young fellow.

Crozier, during the address of counsel, sobbed bitterly, and when sentence was passed he exclaimed in his agony, "Good God!"

Both had pleaded guilty, the father to making and distributing of the counterfeit bank notes, the son to the making of the illegal currency. In addition Crozier prepared a confession.

Crozier, Sr., was arrested at Oakville, having been detected in passing a bogus bill at the theatre on the night of the recent fall fair. Search of his home on Gerrard street, To- onto, revealed evidences of whole- ale operations, and Inspector Parkin- on of the Dominion police, continu- ng his investigations, was able to dig p on a farm owned by Crozier, near Buffalo, N.Y., plates and $3,500 bogus noney, and later, on the Crozier farm, ear Milton, more plates and $7,000 dditional in counterfeit bills.

MILTON CROZIER.

Well-known throughout Halton ounty, the Croziers were generally espected until the elder man's arrest n Oct. 2. And yesterday, though penal- zed by the court, they seemingly were ot disgraced in the sight of friends nd acquaintances, for after sentence as passed, there was a veritable rush to bid the two good-bye. It as a farewell to friends leaving on long journey.

The court room was crowded to the oors, and it seemed that the streets the town were deserted during the ial, while many had driven in from e surrounding country.

Crozier broke down completely when ntence was delivered, but the son ore himself throughout with an air bravado, though his eyes were wet nd he chewed viciously at the gum hich he has had with him at every pearance in court.

The court was opened at 2.30. The arges were read twice to each pris- ner, and the elder man was first was given a chair and sat with bowed head while the charge was read to his boy, who carelessly replied "guilty."

Eleven Hundred Drown.

Amoy, Oct. 21.—The damage done in Thursday's typhoon was much greater than at first reported.

In Chang-Chow 3,000 houses, including the prefects Yamen were destroyed, and 1,100 persons killed. In Lam-Cheng, 15 miles west of Chang-Chow, 600 houses were destroyed and 1,200 persons killed.

Five years ago Lam-Cheng was flooded, and 3,000 persons were drowned. Fifteen miles north of Chang-Chow three villages were entirely destroyed in Thursday's storm, 400 persons being killed.

Sophomores Paint the Freshmen.

Kingston, Oct. 21.—There was a rush at Queen's Medical School yesterday. The sophomores overcame the freshmen, who had their boots and headgear taken and thrown into a pile in the centre of the field.

Then the man with the paint came along and every freshman was branded with a big red "F" on his forehead and black streaks down his face.

The carters' wagons were waiting and the defeated first year men were piled into these, and headed by the happy "sophs," were driven around the city.

Germany In Grip of Frost.

Berlin, Oct. 21.—Central Europe is at present in the grip of the coldest weather that has been experienced in any month of October since 1866.

The thermometer ranges from 7 to 15 degrees below the freezing point, and there has been a heavy fall of snow in Silesia.

Empty Craft Point to Tragedy.

Boston, Oct. 21.—The discovery of a 35-foot auxiliary gasoline boat almost submerged, off Brockport, Mass., yesterday, disclosed the probable loss of Charles W. Johnson and Henry Lee of Beachmont, who left Beachmont Monday night, bound for Portland, Me.

Shocked to Death.

Welland, Oct. 21.—A young Italian named Arneodo was instantly killed at the Electro Metals, Limited, yesterday afternoon, by receiving 12,000 volts of electricity.

VACCINATION CHALLENGE.

Opposer of Inoculation Dares Doctor to Test His System.

Philadelphia, Oct. 21.—An unusual challenge to test the effectiveness of vaccination was issued yesterday at the opening meeting of the National Anti-Vaccination Conference, which will remain in session three days with representatives present from state and national organizations opposed to compulsory medical practices.

Dr. Rudolph Straube of Philadelphia in an address challenged Dr. Samuel Dixon, head of the Pennsylvania health department, to spend a night in bed with him with a smallpox patient between them in order to prove his assertion that vaccination is of no benefit in preventing the spread of that disease. Dr. Dixon, Dr. Straube says, has been vaccinated several times, while he has never been innoculated. In the event of Dr. Dixon's refusal to accept the offer, Dr. Straube said the challenge would be open to Dr. Joseph Neff, of the health department of Philadelphia.

WADED TO MAINLAND.

Chatham Family Have Hazardous Trip In Lake St. Clair.

Chatham, Oct. 21.—Mr. and Mrs. Frederick Still, with their four-year-old son, Roscoe, whose motorboat was found beached and abandoned on the shore of a little island near Tecumseh, after they had left Chatham for Detroit, have returned home safely, but after a harrowing experience. While returning the heavy smoke from the northern forest fires settled about them like a pall. Then the gasoline gave out and the craft drifted helplessly on Lake St. Clair. A high sea was running. After a while the craft grounded. The land was welcome, but it was found that the waves threatened to wash over the island. A passing trolley car on the mainland in the distance gave the first inkling of their whereabouts. Mrs. Still, lashing her son to the back of his father with her wrap, then accompanied the husband on a hazardous wade toward the mainland, which they reached in safety.

Suicides to Avoid Arrest.

New York, Oct. 21.—To escape punishment for stabbing one of his fellow passengers of the steamer Kroonland, H. Muller, a steerage passenger, jumped overboard from that steamer as she was passing out through the English Channel.

Fugitive Collector Captured.

Havana, Oct. 21.—Miguel de Latorre, collector of internal revenue for the Province of Havana, was ar-

Large Crowd Hears Whitney.

Ontario's Premier Speaks to a Great Meeting at Toronto.

Sir James Arraigns Laurier Rule With Biting Satire and Characterizes Globe's Statement That Foy Is Sending Partizan Officers to North as an Absolute Lie--Makes Appeal For Clean and Honest Government.

Toronto, Oct. 21.—Sir James Whitney had no rival in his oratory at Massey Hall last night, and the packed building enjoyed to the full his quips and cranks, his keen satire, his biting wit and the extraordinary power of phrase and locution in which he excels. His indictment of Laurier rule was clearly to the taste of the audience, and his pugnacious frankness went home to their hearts.

"I need not tell you of course that that is an absolute, premeditated lie," he said, speaking of The Globe's editorial statement that Hon. Mr. Foy was sending partisan officers to Algoma to intimidate voters. Hon. Mr. Foy's name was loudly cheered. Sir James' account of the origin of the Liberal party, "the residuum," after the broad-minded men had joined with the best Conservatives in 1854 to form the Liberal-Conservative party was accepted with delight, and his expression in uttering the word "residuum" excited much laughter. There could be no doubt that St. James' appeal for clean and honest Government, which he guaranteed under Hon. Mr. Borden, made a deep impression. The people of Canada desired good government; they had not got it; and they were determined to have it, he said.

SIR JAMES PLINY WHITNEY.

The preliminary speeches were remarkably bright and admirably brief. Hon. Mr. Foster was accorded a splendid reception.

The band of the 48th Highlanders played before the meeting commenced, and rendered some charming vocal numbers. The audience had a large proportion of ladies, who carried small flags. On the balconies were several mottoes:

"The people will rule."
"The awakening has come."
"Conserve our domain."
"Bristol for Centre Toronto."
"A. C. Macdonell for South Toronto."

The platform was crowded with prominent Conservatives, including, besides the speakers, W. R. McNaught, M.P.P.; Hon. Dr. Pyne, Hon. Thomas Crawford, Col. Tisdale, Hon. J. J. Foy, and Hon. A. J. Matheson.

$600,000 Suit Said to Be Invalid.

Omaha, Neb., Oct. 21.—The $600,000 suit for damages which Governor Haskell of Oklahoma filed here last week against W. R. Hearst is regarded as invalid by prominent attorneys who have examined the petition. They point out that the Nebraska laws allow no punitive damages in a libel suit and $300,000 of the amount asked in the present case is punitive. The petition is not accompanied by an affidavit as required by the laws of this state.

Forty Arrests Made.

Toronto, Oct. 21.—A Sault Ste. Marie, Ont., despatch, via Detroit, Mich., says:

The arrest of forty men in Blind River has caused a political sensation in Northern Ontario. It is alleged they registered fraudulently to vote in the coming elections.

It is claimed that hundreds of woodsmen not entitled to vote are being rushed in by both parties from both sides of the border.

Canada In London.

London Oct. 21.—(C.A.P.)—As a result of the visit to Toronto of Montagu Norman, director of the Bank of England, and a member of Brown

TWO PERISH IN FIRE.

Aged Man and Granddaughter Burned Near Uxbridge.

Uxbridge, Ont., Oct. 21.—The house of Charles Jackson of "Jackson Hill," about a mile and a half south of the town, was discovered to be on fire Monday night.

Mr. and Mrs. Jackson, who are very old, were alone except for the presence of two little granddaughters, both about three and a half years old. Mrs. Jackson got the children out, but one of them went back into the house again. She again took it out and called to her husband, who was sick in bed, to get up, as the house was on fire. He arose, but the fire seemed to have cut off his escape, for despite the best efforts of his wife, both he and one of the little twin granddaughters perished in the flames.

Two Prospectors Disappear.

Vancouver, B.C., Oct. 21.—Harry Phipps and Mathew Tummon, Englishmen, left Edmonton March 28 for Igenica river, gold placer diggings, well outfitted. They arrived at Fort Graham, Findlay river, June 4 and were last heard of in camp 60 miles north of Fort Graham. There Indians noted their horses and empty camp, but thinking the men were prospecting and would return to the outfit, touched nothing, although they wondered that no provision was made to secure feed for the horses. Finally they reported to the Hudson Bay agent at Fort Graham. The men's fate is a mystery, but it is presumed they are drowned.

Big Steamer Osler Damaged.

Sault Ste. Marie, Ont., Oct. 21.—After lightering about 1,000 tons of coal the steamer Osler was released from gravel island. Her bottom forward is badly damaged, and compartments are full of water.

There is no drydock in Canada large enough to accommodate the Osler, and she will have to be repaired at a United States port. There will be no duty on her repairs, however, as a saving clause covers just such a case as this.

Freak of Gale.

Cheyenne, Wyo., Oct. 21.—As the result of an unprecedented accident on the Union Pacific at Lone Creek, 30 miles west of Cheyenne, Monday night, six laborers are known to be dead and several others probably met death, while 25 or 30 others were injured, many seriously. A terrific gale picked up the caboose of a work train, tore it away from its coupling and carried it over the edge of a fill. It dropped thirty feet with its forty occupants.

Buffalo Suffers $400,000 Fire.

Buffalo, Oct. 21.—Three alarms were sent in for a fire in a block of buildings facing on Main street between North and South Division streets and running through to Washington street late Monday night.

From present indications the loss will be between $300,000 and $400,000.

Detective Is Law Violator.

London, Oct. 21.—H. A. Judge, a detective employed by the Government to secure convictions against certain parties suspected of selling liquor to Indians was yesterday found guilty himself of carrying liquor upon an Ondien Indian reserve and fined $150.

Ready to Issue Scrip.

Ottawa, Oct. 21.—The Department of the Interior is ready to issue South African veterans' warrants for lands or cash scrip.

This applies to the one thousand veterans whose applications have been endorsed by the Militia Department.

Shoe Men Strike, Factory Close.

Boston, Oct. 21.—The factory of the G. A. Walton Shoe Co. of Chelsea was shut down and 1,800 hands became idle as the result of a strike of 200 workmen begun last week. The strikers demand the same wages as are paid in Lynn factories.

Forest Fires About Sherbrooke.

Montreal, Oct. 21.—Forest fires are again raging in the vicinity of Sherbrooke and timber limits of the Con

Reliable Furs Moderately Priced

One of the main points in buying furs is to know where to buy them. The most important point to intending purchasers is the reliability as to quality and style of the stock from which selection is to be made. That point, together with economy constitutes the strong attraction of our fur stock.

We give a few prices that represent our fur values. An inspection of the furs themselves will prove the reliability.

—Handsome Natural Sable Scarfs, Stoles and Collars, newest styles, at.......... $7.50 to $45 00
—Sable Muffs, most popular shapes, $10.00 to $18.50

THIS DAY IN HISTORY.

Battle of Trafalgar, Death of Lord Nelson, 1805.
Battle of Elandslaagte, 1899.

TIMELY TOPICS.

Three more days of work, then victory.

• • •

Done any Christmas shopping yet?

• • •

Is it true that that good man, Mr. Henry Pringle, was fracturing the Election Act by giving away tickets on the boat in defiance of the law? Well, who'd have thought it, and Henry is such a nice man, too!

• • •

Beautiful lithographs of the Grit candidate appear in store windows. Anybody can get one. Is it fair to bribe the voters that way?

• • •

Can it be possible that awful smoke comes from the campaign cigars?

• • •

Canada has had enough of French domination. She'll put an end to it next Monday.

• • •

What induced Mr. McMullen to retire in Prince Edward? Probably the same thing that induced Mr. McCargar to run in East Hastings.

• • •

A Connecticut physician says that practitioners, as a rule, are stupid. Many doctors in this city, however, are too smart to say such a thing as that.

• • •

This is the hottest October in many years. At least Laurier finds it so.

• • •

The Cretan soldiers, who figure so much in the European ruction, all wear skirts. It is needless to point out, isn't it, that skirts are always associated with trouble.

• • •

Over in the States men are wearing green hats. Who'll be the first man to introduce the fashion here?

• • •

Doesn't all the present defence of corruption, etc., remind you of the last days of the Ross Government before that beautiful bunch met its Waterloo? Of course it does, and what Ross got in 1904 Laurier will get next Monday.

• • •

You can't hoodwink the Canadian people all the time. They are honest themselves and they want their servants to be honest, too. That's why they'll bury the grafters next Monday.

• • •

They were talking politics. "Never mind what my politics are," said one, "but I'll tell you this: I'm not going to vote for Mr. McCargar in East Hastings. I've been acquainted with him for some time." That chap is a reformed Reformer, it seems.

• • •

Really, you know, it's hardly fair for Mr. Porter to start at the scratch with Mr. Funnell. The Grits should have three entries, like there were against Longboat the other night. Say Funnell, Wright and Pringle.

• • •

Mr. Dan Poucher, late Grit candidate in East Hastings for the Legislature, writes us on political affairs. In the course of a beautiful —though not brief—essay, Mr. P. deplores the fact that there is so much talk of political corruption at present. A careful study of Mr. Poucher's letter, however, fails to find a denial by him that such things exist. With one part of Uncle Dan's letter we heartily agree. He says that no man should be a blind slave to party, but should cast his vote for the candidate of the party which he honestly believes will serve Canada's best interests. Our sentiments exactly, Daniel, and if you practice what you preach we are delighted to see that you mean to vote for Mr. W. B. Northrup on Monday next. From Mr. Poucher's letter we infer that Poucher's mills are like the mills of the gods—they grind exceeding slow—but they can be depended on to grind out fine stuff at last.

• • •

Anxious Enquirer—No, the piper which the country has to pay in connection with the Laurier demonstrations is no relation to Piper McIntosh.

Which reminds us that a Montreal Liberal candidate has a bodyguard of pipers. In Montreal the campaign must be full of terrors.

• • •

The future of Canada, it is conceded, rests in Ontario's hands to-day. Now men and brethren, what are we going to do about it? Are we going to stand any longer for French domination and graft? Not on your grandmother's daguerrotype. One swift kick next Monday, and out the grafters go.

• • •

A 15-year-old boy has been appointed organist of a big Toronto church. Swell job for a lad.

• • •

In Nova Scotia Sir Fred. Borden has had a man arrested for circulating copies of the Eye-Opener. Strange that Sir Fred's eyes should just have been opened to that sheet and its stories, and election only four days off. Most people will have their own ideas of such tardiness.

• • •

Kingston Grits are at their old tricks. On the eve of an election the Government gives a contract for 25 locomotives to the Kingston Locomotive Works, owned by Harty, the Grit candidate. Barefaced bribery, of which any decent man would be ashamed.

• • •

The Liberals in Quebec six weeks ago were willing to concede the Conservatives only six seats in that Province. Four weeks ago they increased the number to ten and now they are admitting fifteen. The chances are that the number will be well above twenty.

• • •

This being Trafalgar day, we beg to slightly amend the memorable words of the Heroic Nelson: "Canada expects every man to do his duty next Monday."

• • •

So the Grit "patriots" who collared the Crow's Nest Pass coal lands sold out to Jim Hill: 250,000 acres gone to Yankee capitalists. That was the way the "patriots" preserved the rich domain to Canada! And such men preach honesty and condemn wrong-doing in others!

• • •

Things were evened up yesterday. While Sir Wilfrid Laurier was getting a big reception in Montreal, from the Liberals, Sir James P. Whitney, was getting as big a reception in Tory Toronto, and, by the way, Sir Jim's cheers and fireworks were not paid for by the over-burdened people of Canada, either. Conservatives don't do things that way.

• • •

It is now alleged that Hon. L. P. Brodeur, who was declared elected by acclamation, secured his return by extremely sharp practise, and his prospective opponent, who claims he had his nomination paper properly signed and his $200 in the hands of the Returning Officer, is making the welkin ring with his protests. It seems utterly impossible for the Grits to play the game fairly.

• • •

Sir James Whitney calls them "The plug-ugly editorials of The Globe." But they can't scare Jim Foy; he's not that kind of a "bhoy."

Rubber Goods That Are Alive

At this season a good Hot Water Bottle is a necessity in every home. We have a large assortment of fresh Hot Water Bottles, Fountain Syringes household rubber gloves, rubber sponges, face brushes, etc, that are alive and full of elasticity not the kind that are dried up and ready to crack after a few months use.

McKeown's Drug Store

Wife Murderer Cheats Gallows.

Owen Sound, Oct. 21.—(Special) — J. Farish Creighton, condemned to be hanged on December 3rd, for the murder of his wife and two daughters, died this morning, about 5 o'clock in the county jail.

Creighton had been ill the last three days. He was unable to leave his bed yesterday. He vomited considerable blood all day yesterday and his condition became acute last night.

Physicians say the symptoms are those of phosphorous poisoning.

An inquest will be held to-night.

Mr. Johnson Again Aids the Farmers.

We announced a few weeks ago that owing to the efforts of Mr. J. W. Johnson, M.P.P., the Ontario Government had granted to the farmers along the shore of the Bay of Quinte the right under license, to procure fish for domestic use (not for sale) with a thirty yard gill net during the open season, which is the month of October. The permission from the Government to fish is highly appreciated, but a deputation of farmers waited upon Mr. Johnson a few days ago and pointed out that thirty yards of net would not serve the purpose, and that they would require and should have permission to use one hundred yards of net. This proved to be a right and reasonable request, and with his accustomed energy our local member presented it at once to the Government. He received yesterday the official notice that his request on behalf of the farmers had been granted.

Four Old-Time Fire Fighters

Mr. L. C. Pascoe shows us a photo which will be of much interest to old-timers in this city. It is a picture of five gentlemen who were once fire chiefs in this city, namely, Messrs. Jas. St. Charles, John Ashley, H. McIninch, Blacklock and Stevens. The photo was taken in 1860. The wind must have had lots of fun with the whiskers of some of the gentlemen in those days.

PILES CURED IN 6 TO 11 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

You can make almost any man nervous by telling him that a policeman was asking about him.

Conservative Rally!

A joint meeting of all Ward Committees with Central Committee in the interests of Mr. Porter, will be held at his Central Committee Rooms, Robertson Block, E. Front street, on Thursday evening, the 22nd inst., at 7.30 o'clock. All Committee men and others interested are cordially invited. Mr. Porter and others will address the meeting. The famous Quinte Quartette will sing.

R. L. BORDEN,
Our Leader.

E. GUSS PORTER,
Our Candidate.

It would be cheaper for the country to have a new Premier and a New Government, than let Laurier have another five years to clean up. Let Laurier's work be finished now.

VOTE FOR MR. PORTER.

Graham and the Star.

Is not the Montreal Star becoming over-earnest in its superlatively anxious desire to purify party politics? Its last is a commendation of the Hon. Geo. Graham for having made what it calls a "neat retort" by telling "his audience that three of the scandal charges of the Opposition had been silenced," for the reason on account of the Conservative candidate in Westmoreland having been one of the valuators of the Moncton land purchase, and that a Conservative candidate in the West approves of the "Robins irrigation affair," and thirdly that the Quebec bridge calamity is silenced because Graham says Mr. Price, the Conservative candidate for West Quebec, "was a member of the Bridge Company."

Is it possible that the Star had not seen Mr. Price's denial of the charge made by Mr. Graham that he was connected in any way with the Bridge Company; that the Price who was a member of the Bridge Company was a Liberal, while he was a Conservative and had no connection whatever with the Company.

It would be well for the Star to learn a little of the recklessness of the Hon. George Graham, in his capacity of speechmaking. His tongue frequently runs away from facts, and it is just as likely that he fibbed in the two first cases as in the last. He knew, or ought to know, that what he said was untrue. The Minister of Railways and Canals is not over particular what he says when he has a point to make.

The charge is, that the Government, instead of purchasing what was wanted themselves, gave information to others of what was wanted, who purchased at a small price and sold immediately after to the Government at an enormously higher price, thereby pocketing a large sum which should have remained in the pockets of the people. That's the point, Star.

Here is Mr. Price's denial;

"I understand the Hon. Mr. Graham stated at Barrie that I, who am candidate for Quebec West, was a member of the Quebec Bridge Company. This is utterly false. I am not and never was a member of that company. The Price referred to is no relation of mine, but a supporter of the Liberal Government.

(Signed) "WILLIAM PRICE."

Star, make a note of it, and don't put too much confidence in Graham's utterances.

Contractors Subscribing to Election Funds.

A correspondent from Trenton asks what the law is respecting subscriptions by contractors, companies, etc., in aid of election campaign funds. He says there are a lot of them hovering about Trenton just now, and that if half what is said about them is true, there will be no end of attempts at bribery before the 26th of this month is over.

If "Enquirer" will read section 36, on page 68, of the amended Election Law, he will learn that any one who so subscribes "IS GUILTY OF AN INDICTABLE OFFENCE AND LIABLE TO A FINE NOT EXCEEDING ONE THOUSAND DOLLARS, OR TO IMPRISONMENT FOR A TERM NOT EXCEEDING TWO YEARS, OR TO BOTH."

So keep an eagle eye on them, and, if found guilty, put the law in force.

Some Political Nursery Rhymes.

High diddle, diddle, there's graft in
the middle,
There's graft in the East and the
West—
The big guys grab the juiciest
plums
And the little guys get the rest.

A little Grit novice sat in his office
Dreaming of Graft and Greed—
Up came an election and he in de-
jection
Was driven away from the feed.

Humpty Dumpty sat on a throne
Somebody knocked poor Humpty
down
Now all of the washing that ever
has been
Never can make poor Humpty clean.

Baa, baa Blackleg, have we any
votes?
No, Sir Wilfey, read these notes.
Some from the country, some from
the town—
Your car has stopped, so please
climb down.

Sing a song a politics, a pocket full
of graft
Gritty politicioners gobbling up a
pie—
Some one asked some questions, some
one told some lies,
Someone ought to tell the truth and
put the people wise.

WORSE THAN ONIONS.

BAD BREATH FROM INDIGESTION CANNOT BE OVERCOME WITH PERFUME.

Nine-tenths of the offensive breath is a result of stomach trouble. It cannot be overcome by breath perfumes or any other palliative measures.

If you have a bad breath; if there is heartburn, flatulence and gulpings of undigested foods; if the stomach burns or smarts; if there is sleeplessness, nervousness, headaches or any other symptoms of indigestion, use Mi-o-na stomach tablets and get well.

A 50 cent box of Mi-o-na stomach tablets lasts for a couple of weeks and will ward off a dozen mild attacks of indigestion, while its continued use will give an absolute and complete cure.

J. S. McKeown has seen so many cures made by Mi-o-na stomach tablets that he gives a guarantee with every box to refund the money if it fails.

Dairy Produce.

Receipts of cheese at Montreal were 10,693 boxes, making total receipts for the week of 61,814 boxes, as against 56,879 boxes last week and 69,068 boxes for the corresponding week of last year. Total receipts since May 1, 1,667,211 boxes, as compared with 1,839,397 boxes for the corresponding week of last year.

Receipts of butter were 967 packages, making total receipts for the week of 7,339 packages, as compared with 9,426 packages last week and 8,188 packages for the corresponding week of last year. Total receipts since May 1, 358,856 packages, as against 353,087 packages for the corresponding period of last year.

OBITUARY.

MRS. ROBERT BROADWORTH.

Mrs. Robert Broadworth, a resident of the Township of Sidney, died yesterday. Deceased, who was in her 54th year, had lived for many years at Holloway, Sidney Township, being a lady who was highly esteemed. Mrs. Broadworth had been ill for some time. She was a member of the Methodist church. In addition to the husband, five daughters survive, four of whom live at home.

Married couples in Norway may travel by rail for 1 1-2 fares.

Annual Meeting of the Children's Aid Society Last Night.

The annual meeting of the Children's Aid Society was held in the City Hall last night.

In the absence of the President and Honorary Vice-President, Rev. R. S. Laidlaw was appointed chairman.

The report of the Secretary and Inspector, Mr. Checker, was, as one speaker expressed it, "an eye-opener" to some present, for it seemed strange to them to hear places in Belleville spoken of as "slums." To have the "limelight" turned on the dark places of our fair city was not a pleasant but a needed experience, and to learn that there were children here who were living in squalor, filth and dense ignorance came as a shock.

Mr. Checker's report was quite complimentary to the Chief of Police and the Truant Officer, Mr. Richard Arnott, for the aid he had received from them; indeed, without them he could not have accomplished as much as he had. Also to Police Magistrate Masson for his advice in many cases.

The working of the "Children's Court" in Belleville was fully dealt with and the good arising from it explained.

The Treasurer of the Society, Mr. Wm. McIntosh, presented his report, but as both these reports are to be dealt with at an adjourned meeting we do not publish them now.

Brief addresses were given by Rev. A. M. Hubly, Rev. H. B. Kenny, Mr. Thomas Ritchie, Mr. Wm. Johnson, Mr. Charles S. Clapp and Mr. C. B. Scantlebury.

CITY AND DISTRICT.

Advertisements under this heading TWO CENTS word; subsequent consecutive insertions one cent a word. No local inserted as less than twenty-five words.

Professor Cogan, the great wire walker, is exhibiting wonderful skill and daring on high slack wire across Bridge St. West (near Windsor Hotel) to-morrow at 11 and 4.30. All be on look-out.

Wonderland's programme—"A Roman Idyll," a beautiful romance, in the time of Caesar. Gorgeous costumes and scenery. Every inch of pictures hand colored in natural tints. A good popular song hit. A treat for all.

The Rev. J. P. Wilson, B. A., ex-pastor of Bridge St. Methodist Church, will revisit Belleville on Sunday, the 25th inst., to take part in the 86th birthday of the Sunday School. He will preach twice and be welcomed at the anniversary meeting at 2.30 p.m. Special music by the enlarged church choir. 17-7t

For any household or toilet use where a better soap than the ordinary kind is required, use Ivory Soap. It's pure. Large cakes at Wallbridge & Clarke's for ten cents.

Sunday, the 25th inst., will be one of the memorable days at Bridge St. Methodist Church. Ex-Pastor Rev. J. P. Wilson, B.A., will preach the sermons commemorative of eighty-six years of the Sunday School and be welcomed back to Belleville at the anniversary meeting at 2.30 p.m. 7t

Scott's Emulsion

does all it does by virtue of one thing—*Power*—its power to create power.

As fire turns water to steam so *Scott's Emulsion* transforms thin, impure blood into pure, rich blood, giving nourishment and vital energy to every organ, every tissue and every muscle.

Send this advertisement, together with name of paper in which it appears, your address and four cents to cover postage, and we will send you a "Complete Handy Atlas of the World." :: ::
SCOTT & BOWNE
126 Wellington Street W., TORONTO, ONT.

At a point near Mondgere, Morocco, a French detachment was attacked by a band of Moors. The enemy was driven back with a loss of 14 men killed. The French had four killed.

Miss Pearl Collins, 23 years old, was shot and instantly killed at Warren, Pa., and James Lynch of Lakewood, N.Y., a fireman on the Erie Railroad, her alleged slayer, committed suicide. She had refused to marry him.

TO AWAKEN THE LIVER.

Coated tongue, aching head, biliousness, indigestion, constipation alternating with looseness of the bowels, feelings of depression and ill-temper.

These arise from sluggish, torpid action of the liver.

Relief comes after the use of one of Dr. A. W. Chase's Kidney-Liver Pills and cure with a few weeks after the use of this great regulator of the liver.

With the liver right there is usually no disturbance of the digestive system or bowels. Therefore get at the cause of trouble by awakening the liver to action by use of Dr. A. W. Chase's Kidney-Liver Pills.

Mrs. L. Phillips, Virgil, Ont., writes: "I have used a number of boxes of Dr. Chase's Kidney-Liver Pills and consider them excellent for torpid liver."

25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Dr. A. W. Chase's Kidney Liver Pills.

MUSIC AND THE DRAMA.

"FAUST" LAST NIGHT.

A fair-sized audience last night greeted Mr. John Griffith and his indifferent company at the Carman, which presented the old favorite classic, "Faust." Mr. Griffith, as Mephisto, gave a fair interpretation of the part, and his support was poor. The scenery and accessories were not up to the standard of those used by the best companies presenting the play in this city in recent years. The attraction came here under the auspices of the I.O.O.F.

"UNCLE TOM'S CABIN."

The Winnipeg Free Press has the following to say of "Uncle Tom's Cabin," which appears here at the opera house on Thursday, Oct. 22nd: "Downie's 'Uncle Tom's Cabin' was presented at the Walker theatre last Saturday afternoon and evening, and if the slightest doubt as to the popularity of this sterling old production lingered in the minds of the theatre-goers it would have been completely dispelled had they peeped in at either the matinee or evening performance and seen the big theatre packed, from pit to dome, with happy, interested men, women and children. The stage settings were pretty, especially the transformation scene, showing "Little Eve" in heaven. Taken altogether the performance was most satisfactory." Prices 25c, 35c and 50c. Plan opens Wednesday morning.

A Silver Wedding.

On the 17th inst. a number of the friends of Mr. and Mrs. A. H. Easton, who reside in the 3rd concession of Thurlow, assembled at their residence to celebrate their 25th wedding anniversary. A most enjoyable time was spent by all present. The couple were the recipients of many useful and valuable gifts. During the evening Mr. W. E. McCutcheon, of Albert College, read a complimentary address to the couple, which was appropriately responded to by Mr. Easton.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

The world's annual match bill is $185,000,000.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

NERVOUS
DEBILITY
CURED

Excesses and indiscretions are the cause of more sorrow and suffering than all other diseases combined. We see the victims of vicious habits on every hand; the sallow, pimpled face, dark circled eyes, stooping form, stunted development, bashful, melancholic countenance and timid bearing proclaim to all the world his folly and tend to blight his existence. Our treatment positively cures all weak men by overcoming and removing the effects of former indiscretions and excesses. It stops all drains and quickly restores the victim to what nature intended—a healthy and happy man with physical, mental and nerve power complete.

For over 20 years Drs. K. & K. have treated with the greatest success all diseases of men and women.

If you have any secret disease that is a worry and a menace to your health consult old established physicians who do not have to experiment on you.

We guarantee to cure NERVOUS DEBILITY, BLOOD DISEASES, STRICTURE, VARICOCELE, KIDNEY AND BLADDER DISEASES. Consultation Free. If unable to call, write for a question Blank for Home Treatment.

Located in Our Own Office Building.

Daily Mishaps

MAKE ZAM-BUK A DAILY NEED.

Scarcely a day passes without some member of the family getting hurt. Maybe the bread-winner's work makes him peculiarly liable to cuts or lacerations; the boisterous youngsters are always running in to mother with bumps and bruises; and housework abounds with painful knocks, burns, scalds, and sprains for the fair sex.

Promptly dressing an injury with Zam-Buk means speedy relief from smarting pain. That's why the children like it. But it means much more—that your hurt will heal up quickly and perfectly, without festering, without gathering, and without harbouring disease germs. That's why the "grown ups" like it.

Mrs. Beers, of L'Original (Ont.) says:—"Five doctors and treatment in three hospitals failed to cure me of chronic ulcers and sores. They were so bad I could only walk by aid of a crutch and a stick. Zam-Buk has cured me! and I have put my crutch away. I am 73 years old and in all my life never met with anything to equal Zam-Buk." All druggists and stores sell at 50c. a box or Zam-Buk Co., Toronto, for price, 3 boxes for $1.25. Cures cuts, burns, bruises, piles, eczema all skin injuries and diseases.

Zam-Buk

FREE BOX Send 1c. stamp to Zam-Buk Co., Toronto for postage and trial box will be mailed you.

Would You Like a Patent Leather Shoe

that is the correct thing --in style--in fit and in workmanship. Would you? We think so.

The only place to get them is the right place and the right place is the Haines Shoe House. Why do we say this? Take a look at our windows for the answer.

Men's Patent Leather Shoes, $3.50, 4, 5, 5.50, $6

TIMELY TOPICS.

ENGLISH TITLES.

Why Inferior Honors Are Sometimes Refused by Commoners.

Although it costs money to be made a peer, no sum can actually buy a British title, as may be done in some European countries. Honors of this description are in the giving of the king, or, rather, his majesty bestows them on persons at the recommendation of the prime minister, who really has the final say in the matter. Titles are conferred either directly or indirectly—directly when no third person recommends a candidate for royal recognition and indirectly when a third person brings a candidate's name forward, he having good and valid grounds for doing so. The former method, however, is the one which is usually adopted. It is the duty of the prime minister to distinguish a name celebrated in politics, science, art or literature and to decide whether the merits of any given prominent person deserve recognition at the hands of the king.

If, in the opinion of the prime minister, such a given person deserves elevation to titled rank, before the minister takes any steps in the matter the favored individual is apprised of the prime minister's intentions by a personal letter, in which is conveyed the degree or title it is proposed to confer on him, subject to his approval. In four out of five cases the approval is given. The fifth person, who may have been offered a knighthood or perchance a baronetcy, refuses because his refusal may increase his chances of obtaining at a later day a higher title still—a peerage. Armed with the person's approval, the prime minister now takes the next step—that is, obtaining his majesty's sanction, which is rarely refused.

It is seldom that a plain "Mr." blossoms straightforward into a "lord" unless the circumstances are very unusual, such as the reason why a peerage was conferred on Mr. Morley or honors conferred on successful generals in the field, as in the case of Wolseley, Roberts and Kitchener. As a general rule a plain "Mr." is transformed into "Sir"—that is, knight or baronet—and one who is already a "Sir" and has done some signal recognition finds his reward in his ultimate service to the state entitling him to regal elevation to the peerage.

WOMEN OF PARAGUAY.

Patient and Good Natured, Barefooted and White Robed.

Paraguay is rich in local color. The picturesque character of the native population, with their quaint Indian features and habits of everyday life, is interesting to anybody fond of observing strange phases of human life. By nature these people are patient and gentle, seldom complaining, chattering and laughing from sunrise to sunset and taking small thought of what the morrow may have in store for them.

It is hard to imagine how Lopez could have drilled them into fighting material of strength enough to keep in check the combined forces of Argentina, Brazil and Uruguay for five long, weary years, and it speaks volumes for the indomitable energy of the man that he was able to sustain his position for so protracted a time.

Clothing is very much of a superfluity in Paraguay, says the Boston Transcript. The attire of the women is a cotton chemise with a long sheetlike shawl, or manta, passed over the head and around the body in Moorish fashion. The dress of the men is equally simple, consisting only of cotton shirt and trousers. Both sexes are guiltless of foot covering. At times an almost uncanny feeling rises when a group of these white robed, dark haired maidens pass suddenly with the silent tread of unshod feet.

Of a morning in the market places the women folk flock to sell their wares, carrying on their heads the baskets containing the few cents' worth of native produce they have been able to gather together for disposal in the towns. The soft Guarani language, the common tongue of the Paraguayans, adds further charm to the scene.

No Discharge.

"Maggie," said the inexperienced young thing to the cook, "the biscuits were a sight. If you can't do better next time, I will have to discharge you."

"Ye will, will ye?" Maggie retorted. "I'll have ye know, mum, that I've bin workin' out two years, an' I've worked fer eighty-nine of the best families in town, an' I ain't never bin discharged yet. I'm leavin' this afternoon fer a better place."—Judge.

None For Her.

"Pop!"

"Yes, my son."

"When a person saws wood it means they say nothing, don't it?"

"Yes, my boy."

"And do women ever saw wood?"

"No; women believe that sawing wood is a man's work."

Comfort and independence abide with those who can postpone their desires.—Success Magazine.

The Gantlet And the Mitten.

By Martha Cobb Sanford.

Copyrighted, 1908, by Associated Literary Press.

Muriel stood by the steamer rail, smiling goodby to a group of summer frocked girls on the wharf. Suddenly the wind whipped one of the long white gloves out of her hand as she was waving a last farewell and carried it down to the deck below. There was a little ripple of laughter from the watching girls, and Muriel, in order to escape attention, hurried quickly into her stateroom.

It was an unlucky omen, she argued to herself, but quite in accordance with the losing game she had now been playing for three long, desolate months. She took off her hat, arranged her wind blown hair and studied herself critically in the little stateroom mirror.

"I ought to be pale and interesting looking," she said to the reflection that looked earnestly at her, "but I'm only disgustingly healthy."

She turned away with a sigh, and then with quick determination opened the door of her stateroom, placed a chair where she could look out on the restless water when she felt so inclined and began cutting the leaves of a new magazine.

But the story selected either did not interest her or else interested her so personally that she soon forgot the print before her eyes and was lost in introspection.

Up till now, the middle of August, she was sure she had presented a very brave and cheerful front and that none of the girls she had been visiting suspected for a moment the real state of her heart. Why had she broken it off? That was the question she had to answer everywhere. Varied as were the reasons she gave, they were also all more or less flippant.

"Why, you see," she explained to one of her most intimate friends, "Tom and I had known each other since we were children. It was almost prearranged by our families that we should marry. We were the end men, as it were, in a minstrel show that every one was watching. At last Tom popped the question. I answered it according to what was expected of me, and everybody saw the joke except Tom and myself. When it did dawn on us some time afterward we laughed and parted the best of friends."

THE MAN PASSED THE BREAD TO MURIEL.

Now, as Muriel recalled with what glibness she had rattled off this bit of fiction, even laughing to herself over the apparent humor of it, she blushed at her duplicity.

What had been the real reason, after all, for her falling out with Tom? A difference of opinion, so far as she could remember, over the relative advantages of spending one's summer in a house boat or camping out.

She was rather unpleasantly conscious that Tom had been willing to split the difference, but that she had argued that if they couldn't come to a perfectly harmonious agreement about spending their summer they very probably would be equally at swords' points over the other seasons of the year. And so at her request they had broken the engagement.

Muriel looked out at the billowy water and for a few moments was conscious of the speed with which the big steamer was plunging through it. By morning it would bring her to the Cliffside, where it all happened—the courting and the quarrel. Would she be able to be brave and cheerful under such conditions when everything reminded her of—

A peal of thunder startled her. They were speeding into the midst of a terrific storm. Tom had always been such a dear in a thunderstorm! Muriel tossed her magazine into the berth and hurried down to the dining room, where she would at least have the comfort of other people about her.

"No, not a seat by the window," she said to the head steward who ushered her in. "I prefer one in the center."

He placed her at a little round table with one other woman and two men. Muriel, absorbed in her own thoughts, absently took the seat offered and began to read the menu. In the tedious interval before her order was served two of the guests left the table, and she made a very startling and discomforting discovery.

Meanwhile the thunder and lightning increased in severity, and Muriel was not only very embarrassed, but very nervous.

It was a relief when dinner was finally served. Suddenly, glancing up, Muriel noticed the steward talking to the man across from her. He was evidently, by his gestures, talking about the bread in the center of the table. She overheard him say, "I thought you were together, so I brought the bread on one plate," to which the man smilingly replied: "It doesn't matter. It will be all right."

For some time neither Muriel nor the man opposite deigned to take any bread. Then suddenly, as if by one impulse, each reached for the same roll, and each as suddenly withdrew empty handed.

Immediately, with very flattering gallantry, the man passed the bread to Muriel, and she, not to be outdone in courtesy, took the "roll of combat," broke it and offered her table companion half.

An hour or so later in her stateroom Muriel lay crying her pretty eyes out, whether from an overflow of happiness or because of regret for her past silliness she could not for the life of her have told, when she heard a knock at the stateroom door.

"Who is it?" she called cautiously.

"Steward, miss. I have a message for you."

Muriel took the envelope and broke it open with haste, her heart thumping tumultuously as she read:

> Dearest—I knew perfectly well why you wouldn't recognize me at the table. You did not want to excite public curiosity or criticism, and I admired you for it. But how I wanted to hold your hand tight whenever I saw you tremble at the lightning! But you were unspeakably sweet in the way you let me know that we are friends again and much, much more, dear girl, I hope!
>
> Now that we have "broken bread" together can't we talk together too? It is full moon tonight, you know. In about fifteen minutes I shall be strolling around the upper deck and shall expect to find you tucked away in a corner there somewhere. Six weary months ago you gave me the mitten, little Muriel. Come and see now what I have to offer in return.
>
> THE SAME OLD TOM.
>
> P. S.—By the bye, I'm on my way to visit with your mother. She and I have always been good chums, you know. I heard you weren't to be at Cliffside this summer, so I thought perhaps your mother might be a bit lonesome. Queer she didn't tell me you were coming!

It was lucky that Tom had given Muriel fifteen full minutes of grace in which to obliterate somewhat the unbecoming traces of her tears. She had no sooner established herself comfortably in a deck chair on the lee side of the pilothouse that Tom appeared idly dangling by his side one long white glove.

Muriel caught it instantly.

"Silly boy!" was her greeting. "Where did you get it?"

Tom stood smiling down at her rapturously.

"Why, of course, I was watching you when you lost it. Several of us made a scramble for it, and I got it. I knew then my luck had changed."

"And I thought," Muriel told him, crushing the glove in her hand, "it was an omen of misfortune. Why, what's in it?" she exclaimed suddenly. "I feel something hard!"

And she began to investigate each finger. Tom sat down close beside her and watched her with absorbing admiration.

"Why, it's—it's my engagement ring!" gasped Muriel, shaking out the third finger of the glove. "Isn't that funny? I hadn't had it on at all because"—

Then as she realized the unpleasant truth she had stumbled upon and also how the ring had really come there she looked up at Tom and smiled her adoration.

"Won't you put it on again, Tom, dear?" she asked with very sweet humility.

A Thoughtful Conductor.

Ignorance often saves much disquietude. Many have heard the story of the woman whose first experience in a railway train ended with an accident. Thrown from her seat and shaken up generally, she nevertheless retained her equanimity. When asked if she were frightened she replied: "Frightened! No. I didn't know but that was the way they always stopped." It is to be hoped that the trolley passenger in Mr. Howell's anecdote, introduced into "Confessions of a Summer Colonist," was possessed of the same trust in the event. The conductor, at least, preserved his presence of mind. Says Mr. Howells:

"I had long expected to see some one thrown out of the open trolley car at some of the short curves. One day a woman was actually hurled from her seat into the road. Luckily she alighted on her feet and stood looking about as if in a daze.

"'Oh, oh!' exclaimed a passenger. 'She's left her umbrella!'

"The conductor promptly threw it out.

"'Why, did that lady wish to get out?' I asked.

"The conductor pondered a moment before he answered:

"'Well, she'll want her umbrella anyway.'"

Ruby Glass.

In his book on "The World of the Infinitely Small," Professor Gruner of Berne gives an interesting account of ruby glass. Genuine ruby glass is expensive, because it is prepared with gold. It owes its color to the presence throughout its mass of particles of gold too small to be seen with the microscope. Only the ultra microscope, which renders visible objects perceptible by means of their diffusion of light, is able to show the existence of these minute particles. With the ordinary microscope the glass appears as a uniform transparent mass, but the ultra microscope shows that it is filled with points of light resembling stars on a black background. These points indicate the presence of the particles of gold to which the color of the glass is due.

GRAND TRUNK RAILWAY SYSTEM

Single Fare for Hunters

Now in effect to all points in Temagami, points Mattawa to Port Arthur, to Georgian Bay and Mackinaw Division, Port Arthur via N. N. CO., and to certain points in Quebec, New Brunswick, Nova Scotia and Newfoundland.

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT 1907, BY McCLURE, PHILLIPS & CO.

But the fates were against us, as alays in this ill starred voyage. I, atching from the sand dune, saw a econd figure emerge from the arroyo's outh. It appeared to stagger as hough hurt, and every eight or ten aces it stopped and rested in a bent ver position. The murky light was o dim for me to make out details. ut after a moment a rift in the veil nabled me to identify Dr. Schermerorn carrying, with great difficulty, e chest.

CHAPTER XXIII.

I TOOK no chances, but began at once to shout as soon as I saw the men had noticed his coming. It was impossible for me o tell whether or not Dr. Schermerorn heard me. If he did he misundertood my intention, for he continued ainfully to advance. The only result gained was to get myself well gagged ith my own pocket handkerchief and hrown in a hollow between the dunes. hence I could hear Handy Solomon peaking fiercely and rapidly.

"Now you let me run this," he comanded. "We got to find out somehin'. It ain't no good to us without e knows, and we want to find out ow he's got the rest hid."

They assented.

"I'm goin' out to help him carry her ," announced the seaman.

A long pause ensued, in which I atched the deep canopy of red black hicken overhead. A strange and unarthly light had fallen on the world, nd the air was quite still. After while I heard Handy Solomon and r. Schermerhorn join the group.

"There you are, perfesser," cried andy Solomon in tones of the greatst heartiness. "I'll put her right ere, and she'll be as safe as a babby t home. She's heavy, though."

Dr. Schermerhorn laughed a pleased nd excited laugh. I could tell by the one of his voice that he was strung igh and guessed that his triumph eeded an audience.

"You may say so well," he said. "It s heafy, and it iss heafy with the orld desire, the great substance that an do efferything. Where iss Percy?"

"He's gone aboard."

"We must embark. The time is joost ght. A day sooner and the egsperient would haf been spoilt, but now"—he laughed—"let the island sink, we o not care. We must embark hastily."

"It'll take a man long time to carry own all your things, perfesser."

"Oh, led them go! The eruption has retty swallowed them oop. The lava s by now a foot deep in the valley. efore long it flows here, so we must mbark."

"But you've lost all them vallyable hings, perfesser," said Handy Soloon. "Now, I call that hard luck."

Dr. Schermerhorn snapped his finers.

"They do not amoundt to that!" he ried. "Here, here, in this leetle box s all the treasure! Here iss the laor of ten years! Here iss the Laughg Lass and all the crew and all the quipmendt comprised. Here iss the orld!"

"I'm a plain seaman, perfesser, and I uppose I got to believe you, but she's main small box for all that."

"With that small box you can haf l your wishes," asserted the professr, still in the German lyric strain over s triumph. "It iss the box of enantments. You haf but to will the hange you would haf taig place—it iss one. The substance of the rocks, the olecule—all!"

"Could a man make diamonds?" askd Pulz abruptly. I could hear the harp intake of the men's breathing s they hung on the reply.

"Much more wonderful changes than at it can accomplish," replied the octor, with an indulgent laugh. "That hange iss simple. Carbon iss coal; arbon iss diamond. You see? One as but to change the form, not the ubstance."

"Then it'll change coal to diamonds?" ked Handy Solomon.

"Yes; you gather my meanings"—

I heard a sharp squeak like a terried mouse. Then a long, dreadful sience; then two dull, heavy blows, paced with deliberation. A moment ter I caught a glimpse of Handy olomon bent forward to the labor of ragging a body toward the sea, his eel claw hooked under the angle of e jaw as a man handles a fish. Pulz me and threw off my bonds and gag.

"Come along!" said he.

All kept looking fearfully toward the royo. A dense white steam marked s course. The air was now heavy ith portent. Successive explosions, me light, some severe, shook the undations of the island. Great rocks nd bowlders bounded down the hills. he flashes of lightning had become ore frequent. We moved, exaggeratd to each other's vision by the strange ght, uncouth and gigantic.

"Let's get out of this!" cried hrackles.

We turned at the word and ran, hrackles staggering under the weight the chest. All our belongings we bandoned and set out for the Laughg Lass with only the tatters in which e stood. Luckily for us a great part of the ship's stores had been returned to her hold after the last thorough scrubbing, so we were in subsistence, but all our clothes, all our personal belongings, were left behind us on the beach. For after once we had topped the cliff that led over to the cove I doubt if any consideration on earth would have induced us to return to that accursed place.

The row out to the ship was wet and dangerous. Seismic disturbances were undoubtedly responsible for high pyramidic waves that lifted and fell without onward movement. We fairly tumbled up out of the dory, which we did not hoist on deck, but left at the end of the painter to beat her sides against the ship.

CHAPTER XXIV.

OUR haste, however, availed us little, for there was no wind at all. We lay for over two hours under the weird light, overcanopied by the red brown cloud, while the explosions shook the foundations of the world. Nobody ventured below. The sails flapped idly from the masts; the blocks and spars creaked; the three cornered waves rose straight up and fell again as though reaching from the deep.

When the men first began to sweat the sails up, evidently in preparation for an immediate departure, I objected vehemently.

"You aren't going to leave him on the island!" I cried. "He'll die of starvation."

They did not answer me, but after a little more, when my expostulations had become more positive, Handy Solomon dropped the halliard and drew me to one side.

"Look here, you," he snarled, "you'd better stow your gab! You're lucky to be here yourself, let alone botherin' your thick head about anybody else, and you can kiss the book on that! Do you know why you ain't with them carrion?" He jerked his thumb toward the beach. "It's because Solomon Anderson's your friend. Thrackles would have killed you in a minute 'count of his bit hand. I got you your chance. Now, don't be a fool, for I ain't goin' to stand between you and them another time. Besides, he won't last long if that volcano keeps at it."

He left me. Whatever truth lay in his assumption of friendship, and I doubted there existed much of either truth or friendship in him, I saw the common sense of his advice. I was in no position to dictate a course of action.

After the sails were on her we gathered at the starboard rail to watch the shore. There the hills ran into inky blackness, as the horizon sometimes merges into a thunder squall. A dense white steam came from the creek bed within the arroyo. The surges beat on the shore louder than the ordinary, and the foam even in these day hours seemed to throw up a faint phosphorescence. Frequent earthquakes oscillated the landscape. We watched, I do not know for what, our eyes straining into the murk of the island. Nobody thought of the chest, which lay on the cabin table aft. I contributed maliciously my bit to their fear.

"These volcanic islands sometimes sink entirely," I suggested, "and in that case we'd be carried down by the suction."

It was intended merely to increase their uneasiness, but, strangely enough, after a few moments it ended by imposing itself on my own fears. I began to be afraid the island would sink, began to watch for it, began to share the fascinated terror of these men.

The suspense after a time became unbearable, for while the portent—whether physical or moral we were too far under its influence to distinguish—grew momentarily, our own souls did not expand in due correspondence. We talked of towing, of kedging out, of going to any extreme, even to small boats. Then just as we were about to move toward some accomplishment a new phenomenon chained our attention to the shore.

In the mouth of the arroyo appeared a red glow. A moment later a wave of lava, white hot, red, iridescent, cooling to a black crust cracked in incandescence, rolled majestically out over the grassy plain. Each instant it grew in volume until the ravine must have been flowing half full.

Before its scorching the grasses even at the edge of the sea were smoking, and our camp had already burst into flames. We had to shield our faces against the heat, and the wooden railing under our hands was growing warm.

Pulz turned an ashy countenance toward us.

"My God," he screamed, "what's going to happen when she hits the sea?"

She hit the sea, and immediately a great cloud of steam arose and the hissing as of a thousand serpents. We felt the strong suction under our keel and staggered under the jerk of the ship's cable as she swung toward the beach. The paint was beginning to crackle along the rail. We could see nothing for the scalding white veil that enveloped us. We could hear nothing for the roar of steam, the bombardment of explosions and the crash of thunder, but our nostrils were assaulted by a most unearthly medley of smells.

We were clinging hard as the ship reeled. Huge surges were racing in from seaward, growing larger with each successive billow.

Handy Solomon raised his head, listened intently and struck his forehead.

"Wind!" he screamed at the top of his voice and jumped for the halliards.

Thrackles followed him, but no one else moved. In an instant the two were back, striking and kicking savagely, rousing their companions to the danger. We all laid into the canvas like mad, and in no time had snugged down to a staysail and the peak of our mainsail. Thrackles drew his knife and jumped for the cable, while Handy Solomon, his eyes snapping, seized the wheel.

We finished just in time. I was turning away after tying the last gasket on the foresail when the deck up ended and tipped me headforemost into the starboard scupper. At the same time a smother of salt water blew over the port rail, now far above me, to drench me as thoroughly as though I had fallen overboard. I brushed out my eyes to find the ship smack on her beam ends and the wind howling by from the sea.

I had company enough in the scuppers. Only Handy Solomon clung desperately to the wheel, jamming his weight to port in the hope she might pay up. Thrackles, too, his eye squinted along some bearing of his own, was waiting for her to drag. Presently it became evident that she was doing so, whereupon he drew his knife across our hawser.

"My God," chattered Pulz at my ear, "if we go ashore"—

He did not need to finish. Unless the Laughing Lass could recover before the squall had driven her to leeward a scant half mile we should be cooked alive in the boiling caldron at the shore's edge.

For an interminable time, as it seemed to me, we lay absolutely motionless. The scene is stamped indelibly on my memory—the bulwarks high above me, the steep, sleek deck, the piratical figure tense at the wheel, the snarling water racing from beneath us, the lurid glow to landward crawling up on us inch by inch, like a hungry wild beast. Then almost imperceptibly the brave schooner righted. The strained lines on Handy Solomon's carven features relaxed little by little. Thrackles, staring over the side, let out a mighty roar.

"Steerage way!" he shouted and executed an awkward clog dance on the reeling deck.

She moved forward, there was no doubt of that, for gradually we were eating toward the wind, but we made considerable leeway as well. Handy Solomon, taut as the weather rigging, took his little advantages one by one like precious gifts. Light there was none. The land was blotted out by the steam and murk which had crept to sea and now was hurled back by the wind. All we could do was to hang there, tasting the copper of excitement, waiting for these different forces to adjust themselves. Inch by inch we crept forward; foot by foot we made leeway. The intensest of the lava glow worked its way from directly abeam of the quarter. By this we knew we must be nearly opposite the cove. At once a new doubt sprang up in our minds.

A moment ago all the energy of our desires had gone up in the ambition to avoid being cast on the beach. Now we saw that that was not enough. It was necessary to squeeze around the point where lay the Golden Horn in order to avoid the fate that had overtaken her. Handy Solomon yelled something at us. We could not hear, but our own knowledge told us what it must be, and with one accord we turned to on the foresail. With the peak of it hoisted we moved a trifle faster, though the schooner lay over at a perilous angle. A moment later the fogs parted to show us the cliffs looming startlingly near. There were the donkey engine and the works we had constructed for wrecking, and there beside them, watching us reflectively, stood Percy Darrow.

For ten minutes we stared at him fascinated, during which time the ship labored against the staggering winds, gained and lost in its buffeting with the great surges. The breakers hurling themselves in wild abandon against the rocks sent their backwash of tumbling peaks to our very bilges. The few remains of the Golden Horn, alternately drenched and draining, seemed to picture to us our inevitable end.

I think we had all selected the same two points for our "bearings," a rock and a drop of the cliff bolder than the ordinary. If the rock opened from the cliff to eastward, we were lost; if it remained stationary, we were at least holding our own; if it opened out to westward, we were saved. We watched with a strained eagerness impossible to describe. At each momentary gain or rebuff we uttered ejaculations. The nigger mumbled charms. Every once in awhile one of us would snatch a glance to leeward at the cruel white waters, the whirl of eddies where the sea was beaten, only to hurry back to the rock and the point of the cliff whence our message of safety or destruction was to be flung. Once I looked up. Percy Darrow was leaning gracefully against a stanchion, watching. His soft hat was pulled over his eyes. He stroked softly his little mustache. I caught the white puff of his cigarette. During the moment of my inattention something happened. A wild shout burst from the men. I whirled and saw to my great joy a strip of sky westward between the cliff and the rock. And at that very instant a billow larger than the ordinary rolled beneath us, and in the back suction of its passage I could dimly make out cruel, dangerous rocks lying almost under our keel.

Slowly we crept away. Our progress seemed infinitesimal, and yet it was real. In awhile we had gained sea room; in awhile more we were fairly under sailing way and the cliffs had begun to drop from our quarter. With one accord we looked back. Percy Darrow waved his hand in an indescribably graceful and ironic gesture, then turned square on his heel and sauntered away to the north alley, out of the course of the lava. That was the last I ever saw of him.

As we made our way from beneath the island the weight of the wind seemed to lessen. We got the foresail on her, then a standing jib; finally, little by little, all her ordinary working canvas. Before we knew it we were bowling along under a stiff breeze, and the island was dropping astern.

From a distance it presented a truly imposing sight. The center shot intermittent blasts of ruddy light; explosions, deadened by distance, still reverberated strongly; the broad canopy of brown red, split with lightnings, spread out like a huge umbrella. The lurid gloom that had enveloped us in the atmosphere apparently of a nether world had given place to a twilight. Abruptly we passed from it to a sun kissed, sparkling sea. The breeze blew sweet and strong; the waves ran untortured in their natural long courses.

At once the men seemed to throw off the superstitious terror that had cowed them. Pulz and Thrackles went to bail the extra dory alongside, which by a miracle had escaped swamping. The nigger disappeared in the galley. Perdosa relieved Handy Solomon at the wheel, and Handy Solomon came directly over to me.

CHAPTER XXV

HANDY SOLOMON approached me with a confidence that proclaimed the new leader. A brace of revolvers swung from his belt; the tatters of his blood stained garments hung about him.

"Well, here we are," he remarked.

I nodded, waiting for what he had to disclose.

"And lucky for you that you're here, at all, say I," he continued. "And now that you're here w'at are you going to do? That's the question—w'at are you going to do?" He cocked his head sidewise and looked at me speculatively as a cat might look at a rather large mouse. "We been a little rough," he went on after a moment, "and some folks is straitlaced. There might be trouble. And you know a heap too much."

"What do you want of me?" I demanded.

"It's just this," he returned briskly: "If you'll lay us our course to San Salvador, we'll let you go as one of us and no questions asked."

"If not?" I inquired.

He shrugged his shoulders. "I leave it to you."

"There's always the sea," I suggested.

"And it's deep," he agreed.

We looked out to the horizon in a diplomatic silence. I did not know whether to be angry, amused or alarmed that the man estimated my cleverness so slightly. Why, the hook was barely concealed and the bait of the coarsest. That I would go safe to a sight of San Salvador I did not doubt. That I would never enter the harbor I was absolutely certain. The choice offered me was practically whether I preferred being thrown overboard now or several hundred miles to southeastward.

I thought rapidly. It might be possible to announce a daily false reckoning to the crew, to sail the ship within rowing distance of some coast and then to escape while the men believed themselves many hundred miles at sea. It would take nice calculation to prevent suspicion, but as it was the only chance I resolved upon it immediately.

"That's all very well," I said firmly, "but you can't get anywhere without me, and I'm not going to put in two years and then keep my mouth shut for nothing. I want a share in the swag—an even share with the rest of you."

"Oh, that'll be all right," he cried. "You can have it."

If anything was needed to convince me of the man's sinister intentions, this too ready acquiescence would have been enough. I knew him too well. If he had had the slightest intention of permitting me to go free, he would have bargained.

The nigger called us to mess. We ate in the after cabin. The chest was locked, and the men had as yet been unable to break into it. Pulz professed some skill in locksmithing and promised to experiment later. After mess we went on deck again. The island had dropped down to the horizon and showed as a brilliant glow under a dark canopy. I leaned over the rail, looking at it. Below me the extra dory bumped along. The idea came

Sent to the Mercer.

Mrs. Mitchell, of Trenton, was last evening brought to the county jail here prior to being taken to the Mercer Reformatory, where she was sentenced for six months on a charge of vagrancy.

LEFT ON HER DOOR STEP FOR THIS MOTHER.

Mrs. A. G. Tuson, of Livermore, Cal., writes: "I picked up from my doorstep one day a little book, in which I soon became very much interested. My little girl of five years of age had been troubled for a long time with loss of appetite, extreme nervousness and undue fatigue. She was all run-down and in a very delicate condition.

"This little book was very comprehensively written, and told of the new method of extracting the medicinal elements of the cod's liver from the oil, eliminating the obnoxious oil, which is so hard for children to take.

"'Just the thing,' said I, 'for my little daughter,' and I immediately went for a bottle of Vinol. It helped her wonderfully. She has gained rapidly in flesh and strength, and she does not take cold half so easily.

"I am extremely grateful for the good it has done her, and I hope other mothers who have weak, delicate or ailing children will be benefitted by my experience and just give Vinol a trial.

Vinol is sold in Belleville by J. S. McKeown, Druggist.

Deaths.

BROADWORTH.— At Barris Place (Halloway), in the Township of Sidney, on Tuesday, the 20th day of October, 1908, Phoebe Alma Barragar Broadworth, aged 53 years, 5 months, 14 days.

The funeral will be held on Thursday, the 22nd day of October, 1908, at 2.30 p.m. Service at her late residence at 2 p.m. Interment at Foxboro cemetery. Friends and acquaintances will please accept this intimation.

FULLER.

The farmers are gathering in their roots and report a fairly good crop.

Miss Maggie McEvoy has returned to her home in Belleville, after a week's visit with Miss Mae Collins, of this place.

Mr. and Mrs. Charles H. Moore, of Crookston, were in our midst on Sunday afternoon.

Mr. and Mrs. C. D. Geen, of this place, spent Sunday as the guests of his parents, Mr. and Mrs. Chas. S. Geen, of Thomasburg.

Mr. E. Guss Porter and Mr. Henry Wallace were calling upon their innumerable friends one day this week.

A number of our gentlemen attended the political meeting at Ivanhoe held by E. Guss Porter on Saturday evening, Oct. 17th.

Mrs. I. J. Brough has gone to visit her daughter, Mrs. Frederick Goodman, of Picton, for a couple of weeks.

TUFTSVILLE.

Messrs. Arthur Juby and H. S. Ashley attended Norwood fair, Oct. 10th.

The social at Eggleton's Church was a success, as was also the lecture, "A Trip to the Old Land," by Rev. G. Ross, pastor of West Huntingdon.

Mr. LaRich, of Belleville, has been renewing acquaintances here.

James Osborne, of Burnt Bridge, has been visiting here.

Mr. and Mrs. J. Wannamaker, of Stirling, visited at Geo. Bird's recently.

Miss Lizzie Galvin spent a day with her sister, Mrs. Harry Stapley, recently.

Mr. B. P. Hamilton spent a night with his father-in-law, Mr. S. Tufts, recently.

Mrs. S. Tufts is at Massassaga, visiting her daughter, Mrs. P. B. Hamilton.

Miss Inez Bolton, from near Frankford, stayed a few days with Mrs. E. Bennett.

Mrs. Tom Danford, from Faraday, is renewing acquaintances here.

A Long Night.

We have it on good authority that when Mrs. Eskimo sued her husband for divorce on the charge of desertion, stating that he had been absent without leave for six months, he put up the defense that he was afraid to come home in the dark.—Judge.

Fact Versus Poesy.

"Oh, what romance attends thee,
Lusty trout and thy luring!"
Wrote the poet in verse
He was long in maturing.
But the editor, wiser,
O'er the verse quickly glancing,
Blue penciled the "romance"
And wrote in "romancing."

—Browning's Magazine.

Filial Reproach.

"Young man," said the billionaire, "I made every cent of this colossal fortune by my own efforts!"

"Yes," replied the gilded youth, "but look at the manner in which your financial methods have got the family talked about!"—Washington Star.

Stung!

There once was a bulldog named Caesar
Saw a cat, and he thought he would teasar,
But the cat was too fly,
And she scratched out an eye.
Now Caesar just saesar and tleasar.

All the world's a stage and all the actors try to monopolize the spot light.

It's no use fussing about keeping the faith if you cannot keep your friends.

A CASE IN POINT.

DOES YOUR HEAD ACHE, FROM EYE STRAIN?

A gentleman in an adjoining village suffered for years with severe headaches, always commencing over right eye, gradually getting worse until he had them every day. During this time he treated with different doctors in different places. Finally he was sent to us by a leading physician of this city, for examination of his eye. After careful investigation we found nothing wrong with his vision, nor with the principal muscles usually at fault, but we discovered one of the minor muscles of the right eye to be three degrees short, causing reflex strain or pressure on the nerve centres of the brain. We had a glass ground to correct the short muscle, when all the headaches subsided almost immediately.

Political Pointers.

ENTHUSIASTIC CONSERVATIVE MEETING LAST NIGHT.

At Mr. Porter's committee rooms last night there was a large attendance of electors and workers, who are in hearty support of the popular candidate. In the early part of the evening the various Ward committees met and transacted business, after which the gathering was called to order and brief addresses given by Messrs. J. W. Johnson, M.P.P., W. C. Mikel and W. S. Morden.

Ald. Green presided over the meeting. The three speakers were most cordially received and their remarks most attentively listened to.

Mr. Mikel, the first speaker, reviewed for a few minutes the many blunders which the Liberal Government had made, and the political corruption which had prevailed during the Laurier regime. The speaker, in referring to the latter, quoted Principal Gordon, of Queen's University, who said that "The political corruption in our midst was the greatest blot on our national reputation." Other persons in high positions had also spoken out against this evil. The speaker also condemned the immigration policy of the Government, which had brought out Doukhobors and other undesirable immigrants to this country. He felt confident the electors would, on the 26th, return Mr. Borden to power.

Mr. Morden's address was principally an urgent appeal to the Conservative stalwarts to work and see that the majority for Mr. Porter is increased over that of the previous election. In the course of his remarks he referred to a Grit orator who, in a recent speech in this city, had eulogized Aylesworth, Paterson and Cartwright, but had not mentioned such Cabinet Ministers as Sifton, Borden, Emmerson and Hyman. There must have been a reason for not doing so. Mr. Morden said that Sir Wilfrid was responsible for the acts of the Government and it was time the stable was cleaned out, and it would be on Monday next.

Mr. J. W. Johnson, M.P.P., in the few minutes he spoke, made a capable and telling address. In the first place he thanked those present who had supported him in June last and placed him at the head of the poll. What was done then would be repeated on Monday next. The Government was panic-stricken, in fact it was on the run. Bribes are being offered by the Government to some constituencies, such as promising free rural mail delivery, which scheme was, only a few months ago, denounced by some members of the Government, who to-day are advocating it. There were two classes of men very prominent among the Liberals, namely, the Parliamentary bullies, who endeavored to burk a proper investigation of scandals, and the middlemen, who came between the Government and the contractor of the party purchased from. Through the latter the country had been robbed. Whilst the Liberal Government is claiming credit for the country's prosperity, it was owing to the Conservatives, who laid the foundation for its prosperity by inaugurating the National Policy. They sowed the seed and the Liberals are reaping the harvest. In speaking of the industries created by the N. P., Mr. Johnson referred to the fact that a few years ago all the Portland cement used in Canada came from Germany, England and the United States. Now the greater portion used in this country is supplied by the two large plants situated near this city. The cheese industry was also the outcome of the Conservative policy. Since the last general election no less than four provinces had turned Conservative and the signs were that on the 26th the Dominion would follow. (Loud applause.)

Land for Veterans.

Ottawa, Oct. 20.—The Department of the Interior is prepared to immediately issue warrants to over a thousand South African veterans who have made application for land bounty under the volunteer bounty act of last session. Applications should immediately inform the department whether they desire land or cash scrip. As soon as the department is advised of choice of the volunteers the scrip will be issued to them.

Late Mr. Row's Estate.

The will of the late John H. Row has been entered for probate. His widow gets the personal property. His real estate is divided between his three daughters, Mrs. (Dr.) Caverly, of Belleville; Mrs. O. W. Kemp, of Trenton, and Mrs. F. T. White, of Sidney.

Little One Hurt.

Little Miss Helen Fagan, daughter of Capt. and Mrs. Fagan, residing on South George street, had the misfortune to break her right arm at the elbow on Monday afternoon. The child, while getting over a fence, tripped and fell, with the above result.

Next to attar of roses, the most valuable perfume is oil of jasmine, which is quoted at $580 per pound

A Fine Lecture On Shakespeare.

To the Editor of The Intelligencer:

Dear Sir,—In the City Hall on Tuesday afternoon, Mr. John J. B. Flint, as chairman, introduced to a select audience the distinguished Shakespearean actor, Mr. John Griffith. For the last fifteen years Mr. Griffith has visited Belleville annually, and upon most of the occasions appeared in Shakespearean roles. As a Shakespearean scholar, as well as actor, Mr. Griffith has attained high rank. The lecture was remarkable as an exhibition of Mr. Griffith's intimate acquaintance, not only with the plays, but with the actual historical associations connected with many of them. The authorship contention was intelligently discussed, and the palpable absurdity of the supposition that the plays were written by Lord Bacon, or any one else but Shakespeare, was shown. He said Shakespeare was a poet and a romancist. A very little substratum of historical fact was quite sufficient for him upon which to found his wonderful plays. Mr. Griffith said, in his opinion, "Macbeth" was the greatest play written. The principal source of inspiration for this play was to be found in Hollingwood's History of Scotland. The plays abounded in errors, which could not have been committed by persons of great culture. The lecture was delivered in an easy conversational style, and abounded in interesting statements. In speaking of the different rendering of celebrated lines, he alluded to the Astor Place tragedy, where many lives were lost in a riot, which arose out of a dispute between two great actors as to the proper rendition of the lines in "Macbeth," "Hang out our banners on the outer walls the cry is still they come!" The lecture will not soon be forgotten as an intellectual treat, and it is a great pity the hall was not filled.

Massassaga Park Will be Improved.

Mr. J. Wheeler, owner of Massassaga Park, who is now in California for his health, has sold 60 acres of the said park, including the hotel, to a Mr. Leavitt, of Charlotte, near Rochester. Mr. Leavitt is the owner of one of the chief places of amusement in Rochester, and will fix up Massassaga Park as an ideal recreation ground. Cement walks are already being put down. The hotel and pavilion will be refitted and renovated, and the place will be made a first-class amusement park, with first-class boat service to and from the city. Mr. Leavitt does not wish to have liquor sold on the park, so that his property will be a strong competitor for the picnic trade of this city and vicinity. Mr. Wheeler reserves the Hamilton and Reid cottages as his own property. It is pleasant to think that Massassaga Park, once the ideal picnic spot of this district, will once more be "in the game."

BELLEVILLE ARENA

Band this week Wednesday, Friday and Saturday.

Friday night Oct. 23, will be a Mystic Night, in which the three Mystic numbers 7, 13, and 23 will predominate.

FRUIT JUICES CLEAR THE SKIN

The skin mirrors faithfully the state of the blood, and the blood shows how well—or how badly—the liver, bowels, kidneys and the millions of tiny glands in the skin are doing their work. If these organs are not properly clearing out the waste matter, the blood will be poisoned and the skin sallow, "muddy" and sprinkled with pimples.

Plenty of ripe fruit helps more than any other food to cure this condition, but even more effective, as well as less expensive, are "Fruit-a-tives." These are little tablets of concentrated fruit juices, combined in such a way as to many times increase their action on those organs that eliminate impurities. One or two "Fruit-a-tives" a day will keep the blood pure and give the skin the clear glow of health. 25c for trial size box—50c for regular size—6 for $2.50. Dealers everywhere should have both sizes. If you are unable to obtain "Fruit-a-tives" in your neighborhood, they will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

DOYLE'S
DRUG STORE

Unemployed Assault.

Melbourne, Australia, Oct. 21.—(C.A.P.)—The unemployed attempted yesterday to rush into the Federal Parliament, but after a fierce struggle the police ejected them.

At Wellington, N.Z., at the opening of the electoral campaign, Premier Ward said it was not time to rest from legislation.

Druggist May Become Sheriff.

Windsor, Ont., Oct. 21.—J. E. Davignon, a veteran druggist of this city, has disposed of his business to T. B. Welsh, of Strathroy, and will retire. His name is prominently mentioned as a likely successor to J. O. Iler, who is forced to relinquish his office as sheriff on account of ill-health.

Arrested For Criminal Libel.

Halifax, N.S., Oct. 21.—Walter Carruthers was arrested at Kentville, King's County, yesterday, charged with libeling Sir Frederick Borden by distributing copies of The Calgary Eye-Opener.

PREMIER IS OPTIMISTIC.

He Says at Montreal That Majority Will Be Sixty.

Montreal, Oct. 21.—"Laurier, the uncrowned King," was the motto born through the streets of Montreal last night in what was the crowning demonstration of the Liberal campaign.

Weeks of arduous work had been put in by the Liberal party organizers, money was spent like water for tons of fireworks, thousands of flags and other devices, but although everything came off as scheduled, the thousands of people who lined the streets were drawn more by curiosity. What enthusiasm there was was provided by the demonstrators themselves.

Trains were run from all the surrounding country.

The Premier addressed two meetings, one at the Monument Nationale, and the other at Sohmer Park. Both buildings were packed, and here it was that the greatest enthusiasm was shown. The speeches of the Premier contained little new, but he severely criticized the entrance into the political arena of retired judges and men drawing pensions from the country.

At Sohmer Park the Prime Minister said the Government would come back with 60 of a majority. He said they would get a majority from Nova Scotia, if not all the seats, would hold their own in New Brunswick, and, perhaps, get a majority from Ontario. As for Quebec, Sir Wilfrid declared that the heart of the people was sound, and they would do their duty on the 26th.

One of the mottoes bore the words "Laurier, the Uncrowned King," and another the illuminated sign bearing the words, "Dear doctor, please turn on the tap—Foster."

The most elaborate demonstration ever held here came to an end at midnight.

Three boys were seriously injured and five horses suffocated as a result of the demonstration.

The boys were injured by the explosion of a box of fireworks in Papineau square while the Liberal chief was passing on his way to Sohmer Park. The horses were suffocated in a blaze which gutted the stable of F. X. St. Charles in St. Dominique street, just as Sir Wilfrid was leaving the Monument Nationale. The fire is thought to have been started from a spark from fireworks.

MANITOULIN IN FLAMES.

Forest Fires Are Spreading With Terrible Rapidity.

Detroit, Oct. 21.—A despatch from Sault Ste. Marie last night says that the forest fires after being dormant for two days have started up afresh under the influence of a 50-mile gale, and with greater fury than ever. Homesteaders are abandoning their log cabins and are fleeing for their lives. The whole southeastern part of the country is ablaze, and the farmers coming to the Soo to-day say that bears and other animals are running before the flames searching for places of safety. The country is again enveloped in a pall of smoke and navigation is once more hindered.

Thousands of acres in Ontario on the shore of Lake Huron, where American lumbermen have large holdings, are burning. Almost the whole of Manitoulin Island is in flames. Relief measures on a large scale for Michigan fire sufferers are now under way all through the state. The city of Detroit alone will contribute $100,000 to the fund.

Runaway Boy His Heir.

Boston, Oct. 21.—A quarter of a million dollars is waiting for a runaway who left home in 1886 and has never been heard from since.

Daniel Russell, Jr., was 14 years old when, after quarreling with his father, a Boston merchant, he left home saying he would never return. His father died some time ago and the will was probated yesterday. After expressing his regret for any action on his part that might have led the son to think he was not wanted at home, is father leaves him $250,000, "as partial atonement for sufferings he may have endured."

A Genuine Air Line.

Boston, Mass., Oct. 21.—The giving of a contract for a dirigible balloon to cost about $7,000 to Capt. Thos. S. Baldwin, inventor and builder of the dirigible balloon, recently sold the United States Government, marks the first step taken by the Aerial Navigation Co., of which Charles J. Glidden is the leading spirit, since the company was incorporated some months ago for the purpose of operating an aerial freight and passenger line to New York.

Man Killed When Roof Collapsed.

Wilkes-Barre, Pa., Oct. 21.—One man was killed and two others were seriously injured yesterday afternoon by the collapsing of the roundhouse roof of the Lehigh Valley Railroad in this city. Rescuers were promptly on the scene and after half an hour's hard work dug from the ruins Peter Mullin, aged 45, and two Italians. Mullin was dead and the Italians seriously injured. Twenty other employes on the turntables escaped injury.

Times Is Complimentary.

London, Oct. 21.—(C. A. P.)—The Times editorially quotes with evident approval B. E. Walker's suggestions on American banking at the annual convention of the American Bankers' Association, remarking that Dr. Walker is judiciously careful not to go too far in holding Canada as a model to be copied by her great neighbor, even when addressing so enlightened a body as the convention.

All Doors Shut to Indians.

London, Oct. 21.—(C. A. P.)—The Jam of Nawanger, Ranjitsinghi, speaking at a farewell dinner at Cambridge, said unfortunately the doors had been shut to Indians by Australia and Canada, and now by South Africa. He felt that those Govern-

INDIGNITIES TO ENVOY

Austrians Hold Up Montenegrin Messenger to Servia.

Seizure of Despatches From Montenegro to King Peter, Carried by Gen. Vukotsch, Arouses Feeling of Bitterness Among Servians and People Are Greatly Excited—Russia Is Watching Balkan Trouble.

Belgrade, Oct. 21.—Gen. Vukotsch, an official of the Montenegro Government, who left Cettinje three days ago for this city on a special mission to the Servian Government, arrived here yesterday at noon after an extraordinary experience at Agram, where he was arrested by Austro-Hungarian officials. The general said:

"On my arrival at Agram gendarmes entered my car, dragged me out, and took me to the prefecture of police. I was then searched, and my purse, papers, in fact everything I had, was taken from me. I gave the gendarmerie officer my name and explained my status as a special envoy to King Peter. I showed also the passport and safe conduct given me at the Austro-Hungarian legation at Cettinje, but all to no avail.

"Ultimately I was permitted to send a telegram to Baron Von Aehrenthal, the Austro-Hungarian Minister of Foreign Affairs, complaining of the treatment accorded me. After considerable delay an order arrived from Vienna instructing the police to release me, and this was done. My journey was delayed altogether fourteen hours."

This occurrence has aroused again a bitter feeling toward Austria-Hungary on the part of the Servians, and the people are greatly excited.

Berlin, Oct. 21.—The Prussian Parliament was opened by Emperor William yesterday. In his address His Majesty indicated the intention of the Government to introduce a modification of the existing antiquated three-class electoral system, which has been the object of much agitation of recent years.

Alluding to the Balkans the Emperor said that Germany was less interested there than the other powers, but that the country worked with the others for a peaceful and satisfactory solution of the present difficulty.

St. Petersburg, Oct. 21.—Russia has been given to understand from a Bulgarian source that Bulgaria, although doing everything possible for the preservation of peace, cannot look with indifference on the military preparations of Turkey. If mobilization is ordered in Turkey, Bulgaria will be forced to inaugurate military operations herself without loss of time.

TELEGRAPHIC BRIEFS.

The Democratic campaign has so far cost about $250,000.

Two sharp earthquakes were felt at Manila, followed by a third, which was less severe.

Two prominent Tennesseeans were killed on Reel Foot Lake, it is alleged, by night raiders.

From nearly every mountainous section of Pennsylvania come reports of forest and bush fires.

Judge Young of Pittsburg has dismissed the writ of habeas corpus in the Thaw case. This means Thaw will not be taken there just now.

Children gathering nuts found the body of John Eedy on the farm of Wm. Stomley, near Granton, Ont. He had been missing for three weeks.

The Montreal Cotton and Wool Waste Co., Limited, suffered a loss of $50,000 through a fire which almost destroyed one of their warehouses.

A train leaving Glace Bay, N.S., station struck and killed Dan McIntosh, a native of Garden of Eden, Pictou County. He was about 35 years of age.

More proof that Lydia E. Pinkham's Vegetable Compound cures female ills.

Mrs. John Scott, 489 Grand Trunk St., Montreal, writes Mrs. Pinkham: "I was very much run down in health from a female trouble, was thin, nervous, and very weak, and suffered from bearing down pains. Indeed I did not care whether I lived or died, I felt so badly sometimes.

"Lydia E. Pinkham's Vegetable Compound completely cured me of all my troubles. I gained in flesh, and am free from backache, female trouble, sick headaches, and nervousness.

"I heartily recommend Lydia E. Pinkham's Vegetable Compound for all women's ailments, knowing what it has done for me."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick

Cheese—Steady; receipts, 8233; state full cream October fancy, small, 12½c; do., large, 12c.

Eggs—Steady; unchanged; receipts, 11,890.

CATTLE MARKETS.

Cables Steady—No Change of Importance in U. S. Prices.

LONDON, Oct. 20.—London cables for cattle are steady at 11½c to 12¾c per lb., dressed weight; refrigerator beef is quoted at 9½c to 13c per lb.

Toronto Live Stock.

TORONTO, Oct. 20.—Receipts of live stock at the City Market, as reported by the railways, were 89 carloads, composed of 1587 cattle, 1474 hogs, 1238 sheep and lambs, with 72 calves.

Exporters.

There were none on sale, but good to choice export steers are worth as high as $5 but the bulk being offered are not of that class; bulls, $3.50 to $4 per cwt.

Butchers.

Few good butchers' were on sale. Choice picked steers and heifers are worth as high as $4.75; good, $4.25 to $4.50; medium, $3.75 to $4; common, $3 to $3.50; canners, $1 to $2.

Feeders and Stockers.

H. & W. Murby report choice feeders and stockers as being scarce, and all of that quality as being readily picked up. Prices were quoted as follows: Good quality steers, 950 to 1050 lbs., $3.25 to $3.60; feeders, 800 to 900 lbs., $3 to $3.25; good stockers, $2.50 to $2.80; common stockers, $2.

Milkers and Springers.

There were about fifty milkers and springers that sold at firm prices, ranging from $30 to $65 each.

Veal Calves.

The veal calf market was not quite as strong. Prices ranged from $3 to $6 per cwt., with an odd lot of the best at a little more money.

Sheep and Lambs.

The market remains about steady for sheep and lambs; export ewes sold at $3.25 to $3.50 per cwt.; rams, $2.50 to $3.75; lambs, $4 to $4.50 per cwt.

Hogs.

Mr. Harris reported selects at $6.25 fed and watered at the market, and $6 f.o.b. cars to drovers at country points.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 20.—Cattle—Receipts, 300 head; slow and barely steady; prime steers, $5.60 to $6.

Veals—Receipts, 300 head; active and steady; $5.75 to $8.75.

Hogs—Receipts, 10,200 head; fairly active and steady; heavy, $5.50 to $5.65; a few at $5.75; mixed, $5.25 to $5.50; yorkers, $4.60 to $5.50; pigs, $4 to $4.50; roughs, $4.25 to $4.75; stags, $3.50 to $4; dairies and grassers, $4.75 to $5.50.

Sheep and lambs—Receipts, 10,000 head; steady; sheep, active; lambs, slow; prices unchanged.

New York Live Stock.

NEW YORK, Oct. 20.—Beeves—Receipts, 762; feeling weak; dressed beef in fair demand at 7c to 10½c for native sides; Texan beef, 6c to 7c. Exports to-day, none.

Calves—Receipts, 821; veals, full steady; grassers, weak; westerns, slow; veals, 5c to 9c; grassers, $3.25 to $3.62½; westerns, $4.

Sheep and lambs—Receipts, 3148; sheep, steady; lambs, slow and generally steady; sheep, $2.50 to $4; culls, $2; lambs, $5 to $6.

Hogs—Receipts, 3385; feeling trifle easier; country dressed hogs, steady, at 8½c to 9½c.

Chicago Live Stock.

CHICAGO, Oct. 20.—Cattle—Receipts, 9000; market dull; steers, $4.40 to $7.60; cows, $3.25 to $5.25; heifers, $3 to $4.25; bulls, $2.50 to $4.50; calves, $3.50 to $8.50; stockers and feeders, $2.50 to $4.55.

Hogs—Receipts, 23,000; market 5c to 10c lower; choice heavy shipping, $5.65 to $5.75; butchers, $5.60 to $5.75; light mixed, $5 to $5.20; choice light, $5.35 to $5.50; packing, $5.25 to $5.45; pigs, $3.50 to $5; bulk of sales, $5.20 to $5.40.

Sheep and Lambs—Receipts, 22,000; market slow, but steady; sheep, $3.50 to $4.50; lambs, $4.75 to $5.75; yearlings, $3.85 to $5.

A Love Affair Adjusted.

Montreal, Oct. 21.—Dora Pelman, an English girl, came out to Canada in 1907, following her lover, Israel Lake, who had preceded her by three years. Lake found that he did not want to marry, said that he could not afford to do so, and in August last Miss Pelman had him arrested for breach of promise, asking $2,000 damages. Lake offered $50, which was refused, but finally $150 has settled it.

Infant's Body by Express.

Ottawa, Oct. 21.—The body of an infant child, carefully wrapped in a paper parcel, has been received through the Canadian Express Co. from Pembroke, where it was shipped by a young woman unknown at present. The child had lived, but evidently bled to death. It was addressed to a local Catholic institution with a request for burial and 50 cents enclosed.

Soldier Takes His Own Life.

Halifax, N.S., Oct. 21.—Clarence Boyce of the Canadian Artillery was found dead early yesterday morning in front of the house of the woman

MINISTERS EXAMINED

uffragettes on Trial Subpoena Two Members of Cabinet.

hancellor Lloyd-George and Home Secretary Gladstone Are Placed on Witness Stand by Women Agitators Who Are Being Tried For Inciting to Disorder in Recent Riots—Miss Pankhurst Questions Witnesses.

London, Oct. 22.—The suffragettes ucceeded in bringing two members of he British Cabinet, David Lloyd-eorge, Chancellor of the Exchequer, nd Herbert John Gladstone, Secretary of State for Home Affairs, as itnesses to the Bow street Police ourt yesterday.

The occasion was the hearing of he cases against Mrs. and Miss Pankhurst and Mrs. Drummond, who were ied for inciting to disorder, when hey appealed early in the month to he public to help them "rush the ouse of Commons," and 17 other omen who were arrested Oct. 13, harged with disorderly conduct.

A large crowd, including many sufagettes, had gathered. Miss Pankhurst examined the two Cabinet Ministers. The purpose of her questions, any of which were disallowed by he judge, was [illegible] show that if the overnment ga[illegible] women "their ights" the disorders would come to n end.

After an examination of the two inisters that lasted all day long, Miss ankhurst announced that she still ad 50 other witnesses to call. Mrs. nd Miss Pankhurst and Mrs. Drummond were remanded until Saturday nd the other prisoners until to-day.

Vernon Inquest Opens.

Brantford, Ont., Oct. 22.—Before oroner Ashton last night an inquest as opened into the death of three rand Trunk employes, Conductor ralick and Engineer Burchell of ondon, and Yardsman Ribble of rantford, all of whom met death in e recent collision between a Brantrd yard engine and a special Hamton freight near Mount Vernon.

Superintendent Gillen of the G.T.R., ead a declaration from Yardman Mcuire, stating that he was partially esponsible for the wreck in that he ailed, as required by the rules, to prent a freight leaving the yards while yard engine was returning. In the g he did not notice the freight, hich was a special going out.

McGuire, for whom a warrant is t, has left the city and cannot be cated. The hearing was adjourned ntil Tuesday.

Gales Worse; Fire Spread.

Sault Ste. Marie, Mich., Oct. 22.—here is no let up to the gale from e southeast, which was stronger an ever at day-break yesterday, using forest fires to renewed fury. etour reports 12 vessels in the harbor there unable to leave on account the winds. No boats have come own the river since Tuesday to bring ports from White Fish Point, which as surrounded when last heard from. ires have broken out on Drummond land.

Raber, Gatesville and Cedarville e reported filled with refugees from e woods. There is no sign of relief, e promised rain not having come.

Roosevelt to Be Editor.

New York, Oct. 22.—President oosevelt has made a contract with he Outlook Co. by which he will ecome associate editor with Dr. Lyan Abbot of The Outlook after his irement from the Presidency.

he Outlook has taken a deep inter- in the Congo Free State and the y and well-substantiated stories n there of extraordinary cruelties cticed upon natives engaged in the ber trade. It was suggested last night that Mr. Roosevelt might be intending to make a personal investigation of Congo conditions and report the results for The Outlook.

To Prison for Three Years.

Brockville, Oct. 22.—Ambrose Godkin, a young man with a police record, was sent to spend three years in the Kingston Penitentiary yesterday by Judge McDonald, after being found guilty of stealing $10 from a farmer by whom he was employed. He has served three terms in the Central Prison and time in the county jail for petty thefts.

Chief Is Thrown Down.

Edmonton, Oct. 22.—The City Council having investigated the charge of Chief of Police Major Beale against Detective Griffiths, declares them not proved and Griffiths will be retained. The resignation of the chief and four sergeants is expected. The charge was warning inmates of a house of ill-fame of an intended raid.

Thomas Greenway Ill.

Ottawa, Oct. 22.—Thomas Greenway, ex-Premier of Manitoba, and recently appointed to the Railway Commission, is lying seriously ill at the Windsor Hotel, Ottawa, and may not recover. His condition alarms his friends, and word has been sent to his family in Crystal City to come east as soon as possible.

Blizzard In the West.

Maple Creek, Alba., Oct. 22.—The derailing of an eastbound freight 14 miles east held up the main line all day yesterday. A heavy snowfall commenced Tuesday night and continued all day, more than a foot falling. A furious blizzard is raging.

Government Official Drops Dead.

Vancouver, B.C., Oct. 22.—C. C. Fisher, Government agent at Westminster and a pioneer of that city, dropped dead at 10 o'clock yesterday morning at Chilliwack, where he had gone in company with Premier McBride on official business.

Want Grain Inspector.

Edmonton, Oct. 22.—The Board of Trade has wired a request for the appointment of a grain inspector here. The Department replied it would investigate.

Colts Caused Death.

St. Catharines, Oct. 22.—A young man named Wentworth, a resident of Grimsby, was engaged Tuesday on a 55-foot ladder painting the gable end of a large bank barn owned by Mr. William Honsberger, a mile south of Jordan. The ladder was fastened to the fence with ropes. Some colts playing around the barn got tangled in the rope and pulled the ladder over. Wentworth was thrown from the latter to the ground and killed instantly.

Follow the Old Land.

London, Oct. 22.—(C. A. P.)—The Standard, in an editorial article on a political ideal for Canada, says that while there may be things in the United States worthy of imitation, for ideals in public life and the code of administraative honor the people of the Dominion cannot do better than follow the old country.

Alderman Departs, Writs Issued.

Vancouver, B.C., Oct. 22.—Business circles are agog over the issuance against Alderman W. J. Cavanagh of several writs in civil actions in the Supreme Court. He left on Friday last for the United States. Other writs are said to be pending.

Smoke Drives Schooner Aground.

Kingston, Ont., Oct. 22.—Smoke is again causing trouble to navigation. The schooner Katie, loaded with barley, on her way to Pickering, ran aground near Amherst Island, and was released by the steamer Donnelly, with but slight damage.

Three Lives Lost.

New York, Oct. 22.—Three persons were killed, four others badly injured and the lives of a hundred more were imperilled by fire in the six-storey tenement house at 83 East Third street early yesterday.

Cloud Bursts, 100 Indians Missing.

Muskogee, Okla., Oct. 22.—About 100 Shawnee and Pottawatomie Indians are missing and may be the victims of a cloudburst which occurred yesterday between McLoud and Benson Park, Okla.

Founds Tuberculosis Hospital.

Montreal, Oct. 22.—Col. Jeffrey Burland, who gave $75,000 to found a tuberculosis hospital, has purchased a large house in Belmont Park for $30,000, and the home will be started at once.

Death In Wake of Tornado.

El Paso, Tex., Oct. 22.—One person was killed and 18 injured and much property was destroyed by a tornado at Tucumoari, N.M., Tuesday night.

Lord Milner Given Degree.

African War Lord is Honored by Toronto University.

Is Now LL.D. of Canadian Institution—Much of Weight of Canada's Development Lies on University Men—Lord Roberts Gets Degree in Absentia—Princess of Wales Gives Banner to Students.

Toronto, Oct. 22.—The University of Toronto yesterday conferred the degree of LL.D. upon Viscount Milner.

The usual brilliant procession entered the Convocation Hall, headed by the bedel with the mace, the chancellor in his robes and Lord Milner in scarlet gown and hood following. President Falconer, Sir Mortimer Clark, Dr. John Hoskin, Sir Charles Moss, Sir William Mulock, His Grace the Primate, the Hon. Dr. Pyne, ex-principal McLaren, Justice Maclaren, Chancellor Burwash, Provost Street Macklem, Principal Hutton, Byron E. Walker, Canon Cody, Dean Reeve, Prof. Ramsay Wright, A. B. Macallum, J. A. McLennan, and other members of the board of governors, the senate and faculty trooped upon the platform and there was a large attendance of students.

LORD MILNER.

Lord Milner was presented by President Falconer and the degree conferred by Chancellor Sir William Meredith.

Sir Charles Moss next arose and presented the name of Right Honorable Earl Roberts of Kandahar, whose great public service and private worth made his name a household word throughout the length and breadth of the Empire, of which Canada formed a part.

The degree was conferred in absentia on Lord Roberts.

Lord Milner was called upon to address the students which he did at some length, first expressing very sincere and heartfelt thanks for the honor the great university had been pleased to bestow upon him.

"A great future is assured to Canada," he said, "but the next fifty years will be the most decisive in its history. They are likely to be formative years and determine your developments for centuries. The stream will flow in the direction and in the channel you give it.

"This is a thing to be proud of and to rejoice at, but it is a growing responsibility for all Canadian men and women who are young to-day. The heaviest burden rests on them who have ten talents. Members of this and other universities who are brought in closest contact and have the opportunity to profit by the best learning of the age and country must be leaders of its intellectual and material development. They must be careful to lay deep and strong foundations of genuine learning and civic virtue on which the vast superstructure of the national prosperity could safely rest."

A banner presented by the Princess of Wales was then brought forward, veiled by the red ensign, and unveiled during the reading of Earl Grey's letter by Sir Mortimer Clark.

Was He a Toronto Man?

Toronto, Oct. 22.—"A body, probably that of Albert Martin of your city, was found drowned here. Notify relatives."

The foregoing telegram was received by Chief of Police Grasett yesterday from Coroner L. R. Robbins of St. Clair, Mich. The police made a number of inquiries last night, but did not succeed in finding any relatives of the man mentioned in the telegram.

Pipes Start a Disastrous Fire.

Lindsay, Ont., Oct. 22.—Frank Finnigan's fine house, just west of the town, was burned to the ground on Tuesday. The contents were destroyed, also 50 bushels of potatoes. Hot pipes are said to have caused the fire. There was very little insurance.

Three Thousand Hear Sifton.

Winnipeg, Oct. 22.—The Walker Theatre was crowded by 3,000 people last night, the principal speakers being Hon. Clifford Sifton and D. C. Cameron. There were many interruptions and a strong police force ejected scores of the more noisy.

Her Life to Save Her Child.

Winnipeg, Man., Oct. 22.—Mrs. Martha E. Stoott of 38 Union avenue, Elmwood, a suburb of this city, was burned to death in her home while trying to save her child in a fire caused by the explosion of a coal oil stove. The child escaped unhurt.

Four Perish In Steamer Fire.

Newburgh, N. Y., Oct. 22.—The beautiful steamer New York, of the Hudson River day line was burned to the water line early yesterday at Marvels shipyard in this city. Four negro waiters perished in the flames.

Lived In Lindsay.

Lindsay, Ont., Oct. 22.—William Sanderson, who committed suicide in Detroit, and who was recently married in Toronto, once lived in Lindsay.

CREIGHTON DEAD.

Condemned Murderer Dies After Violent Illness.

Owen Sound, Oct. 22.—A few minutes before 5 o'clock yesterday morning James Farish Creighton, who was condemned to death for the murder of his wife and two step-daughters in May last, died in his cell. The news created a sensation in the town. The inquest was opened yesterday afternoon, the first witness being Mr. J. Miller, the jailer. He stated that since his conviction Creighton had never been left alone for a single moment. His meals were prepared by himself or the turnkey and the cell searched in order to ascertain that it contained nothing with which he could injure himself. The only outsiders who had seen the prisoner were his spiritual and legal advisers.

Dr. Middlebro, the jail physician, declared that when he saw the prisoner last Saturday all that seemed to be the matter with him was a plain attack of indigestion. He had given him powders, but these had done no good and on Tuesday morning his condition was so serious that he thought it advisable to consult with Dr. Lang. That same night the prisoner was in a serious condition and in great agony. He complained of severe pains in his stomach and vomited a great deal of brownish matter. He could not tell what was the cause of death until he had examined the body. It might be due to some inflammation of the stomach and the symptoms before his death were such as might have been produced by a number of different poisons.

Dr. Lang also declared that he could not tell the cause of death, although it might be due to gastritis. It was then decided to hold a post-mortem examination and the inquest was adjourned till Friday afternoon.

The jurymen viewed the body, which was laid out in the condemned man's cell. It was swollen and discolored. Creighton's unexpected death is the sole subject of conversation here.

Three Hundred Filipinos Dead.

Manila, Oct. 22.—Belated reports indicate that the storm of Oct. 12 in the Cayagian Valley was the worst and most destructive within the memory of living inhabitants of the valley. The official figures are not yet available, as many places have not been heard from, but it seems certain that the number of dead will reach 300.

There was a heavy typhoon and torrential rains throughout the valley and in the mountains.

The rivers were flooded and in many places rose to a height of 30 feet, sweeping everything before them in their path to the sea. Hundreds of animals and houses were swept away by the waters.

Making a New City.

Victoria, B.C., Oct. 22.—The Government yesterday announced the arrangement with the Grand Trunk Pacific for the improvement in Prince Rupert. The Government will spend $200,000 on sidewalks, roads and sewers, three-fourths of which will be refunded by the railroad.

The engineers will get out plans forthwith, when tenders will be called for. As soon as the surveys are completed the Government will select its holdings, after which another conference will fix prices of lots. No definite arrangement as to sale of lots has been arranged, but will probably be by auction, and after May 1.

Reliable Furs Moderately Priced

One of the main points in buying furs is to know where to buy them. The most important point to intending purchasers is the reliability as to quality and style of the stock from which selection is to be made. That point, together with economy constitutes the strong attraction of our fur stock.

We give a few prices that represent our fur values. An inspection of the furs themselves will prove the reliability.

THE CALENDAR.

296 Days past—Days to come 70.

OCTOBER

22

Thursday

O what a glory doth this world put on
For him who with a fervent heart goes forth.
Under the bright and glorious sky, and looks
On duties well performed, and days well spent!

—Longfellow.

THIS DAY IN HISTORY.

Athelstan King of England, died, 940.

Franz Liszt born, 1809.

Richard the Third born, 1450.

Mme. Albani first sang in New York, 1874.

TIMELY TOPICS.

In Quebec they call Laurier "the uncrowned king." We want only one king in Canada, King Edward to wit.

• • •

It doesn't look now as though we'll have any rain, to speak of till the Grits are turned out.

Man now living in Missouri says he won't return to Canada till the Tories get back into power. N. B. —As we go to press he's packing his trunk.

• • •

They say that second growths of raspberries presage an open winter. Perhaps. But we've been seeing them every fall for years past, and the winters would not put one in mind of the Riviera, either.

• • •

One comforting thought — all the smoke this fall must have driven the mosquitoes far, far away.

• • •

A French physician says that worry kills more persons than disease. Still don't get any disease if you can help it.

• • •

A fashion journal says that the newest men's coats are without pockets. If we submit to this it will not be long before we are carrying our tobacco and pipe around in a handbag. Time to call an indignation meeting at once.

• • •

A Prussian army officer who is trying to cross Africa in an automobile says that he saw no human being for seven days. Which shows that even savages know enough to keep out of the way of an auto. Must be instinct.

• • •

A man in pajamas and a maiden with a diamond set in a front tooth, dropped into a New York restaurant the other night and spent $860 for champagne. If that had happened in Ottawa people would have been asking the name of the Cabinet minister.

• • •

Complaint that there will be a shortage of Christmas trees because of the forest fires is unnecessary. Santa Claus, these days, can easily find something just as good.

• • •

In Servia they call the House of Commons the Narodnaskupshtina. If Mr. Funnell were living in Servia he could go there if he wanted to. We wouldn't stop him.

• • •

Four hundred and fifty-eight years ago to-day Richard the Third was born. This was the eccentric monarch who afterwards offered his kingdom for a horse. If he'd have given his kingdom for a horse what would he have given for the bunch of chargers which hang round the Grit Cabinet ministers at Ottawa?

• • •

Sir Wilfrid says "we may have a majority in Ontario." Which shows that "Canada's uncrowned king," while he poses beautifully as a man with clean hands and a soul above falsehood, can still play tag with the truth with all the skill of the wickedest of his heelers.

• • •

Some of the farmers are refusing to pay $3.50 each for those dinky rural mail delivery boxes. Why should they? Why not let each farmer furnish his own box? Well, there would be no rake-off for some middlemen, then.

• • •

"Common bribers." That's what the Canada Presbyterian calls Cabinet ministers who go round offering public buildings, etc., in exchange for votes. The name fits several of Laurier's friends.

• • •

Remember Hon. Mr. Lemieux. He is building up the United States by having the Canadian rural delivery mail boxes made there.

• • •

They have a ballot-box scandal up in Wentworth now. But they'll never equal the record made by R. O. Lott and West Hastings Liberals.

• • •

On two occasions, at all events, Sir Fred Borden could be proud of the company he kept. Once when he appeared in this city, surrounded by estimable Belleville citizens, and again when, at his nomination meeting last Monday, twenty-four clergymen appeared on the platform as a protest against his candidature. Sir Fred was in fine company then, though he probably didn't appreciate the fact.

• • •

Billy Maclean was the only M. P. elected by acclamation on his merits. This may mean that Billy outclassed everybody else or it may mean that no man could be found who was willing to run in Mr. Maclean's company.

• • •

The local option idea seems to be spreading. A local option by-law will be voted on in Trenton next January, and many Trenton people say it will carry.

• • •

Many people have wondered how Sir Richard Cartwright, "a relic of bygone days," like the broken-down sport in the old western song, has managed to escape being thrown out of the Laurier Cabinet. It is admitted by all that Sir Richard outlived his usefulness years and years ago. Why is he kept to draw a fat salary from the people of Canada for which he does nothing? It turns out that Laurier did try to oust Sir Dick and couldn't. He made a proposal to Sir Richard, and the bluff old knight wrote back "a spicy letter, giving a short history of some of the men around the Premier with the peculiar virtues that attached to each." That settled it, so far as his retirement was concerned.

• • •

Borden for Premier and Better Government.

Married couples in Norway may travel by rail for 1 1-2 fares.

All the world's a stage and all the actors try to monopolize the spot light.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & CO., Toronto.

DR. CHASE'S OINTMENT.

Former Belleville Lady Died at Midland.

MRS. GRACE HAYNE.

Mrs. Grace Hayne, beloved wife of Mr. Emmanuel Hayne, died in Midland on Wednesday, Oct. 21st, at the home of her son, Mr. Geo. Hayne, Deceased was born in England, but had spent most of her life in Belleville, her late residence being Cor. of Bleecker ave. and Pine sts. She was a valued member of Christ Church, Belleville, The surviving members of the family are her husband, Mr. Emmanuel Hayne, two sons, George, of Midland, and William, of Sarnia, and two daughters, Mrs. William Tremble, of Toronto, and Mrs Thos. Elliott, of Calgary. The late Mrs. Hayne had many friends, who will regret her demise.

Lost His Horse.

On Friday last a horse belonging to Mr. R. Duesberry, of this city, whilst rolling, cut its neck quite badly with a piece of glass. Blood poisoning resulted and the animal died yesterday. The loss is a serious one to Mr. Duesberry.

D. D. G. M.'s Visit.

Last evening, at Bancroft, Chief Newton, D.D.G.M. of the Masonic fraternity, paid an official visit to the lodge of that village and was most cordially received. He was accompanied by Bros. A. McGinnis, H. F. Ketcheson, and Wm. Stuart, of this city.

SPORTS AND PASTIMES.

SPORTING NOTES.

Shrubb, the English runner, going against two fast men, ran five miles recently in 25.10. That was 20 seconds better than Longboat's time in this city.

The Chicago Cubs are quarreling among themselves over the division of the gate money in the world's championship series, and the moguls of baseball may put a stop to world's championship matches in future.

A Kingston despatch says: "The 14th Regiment will place senior and junior hockey teams in the O. H. A. the junior team being an addition. The regiment hopes to again win the senior championship, as it has the same seven as last winter. Several outsiders want to join the team if the regiment officers get them positions here, but the officers refuse to do so, being determined to conduct a purely amateur team. They look with disfavor upon the prevailing custom of cities bidding for players. Kingston will be represented on the ice by her own sons."

The above sounds very well, but let's see, didn't the 14th have a man or two on its team last year who played in Picton one year, when that village had a team which was not given medals for pure amateurism? Kingston should not shout so loud because its own memory is short.

There are now seventeen teams of five men each, and 18 individual entries for the great 15-mile Canadian championship and team race at Montreal Saturday, a total of 93 runners, the cream of Canadian road runners.

Y. M. C. A. NOTES.

Messrs. Chown, McKay, Posto and Dyer, as a Music Committee, met last night and aranged for the soloists for Sunday afternoon and evening meetings at the Y.M.C.A. during the next two months, and for the annual banquet on Nov. 16.

Mr. Ritchie, of the International Committee, who is a specialist on boys' Work will be in the city tomorrow and Saturday. To-morrow at 2.45 he will address the ladies and friends of the Auxiliary, in the Association parlor. In the evening he will be tendered a supper at Wallace's by the Board of Directors, after which he will address them, as well as schoolmasters and others having to do with boys. Any gentleman who is at all interested in boys is welcome to be present.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

McKeown's Drug Store

Don't place too much confidence in a man who boasts of being as honest as the day is long; wait until you meet him at night.

Conservative Rally!

A joint meeting of all Ward Committees with Central Committee in the interests of Mr. Porter, will be held at his Central Committee Rooms, Robertson Block, E. Front street, on Thursday evening, the 22nd inst., at 7.30 o'clock. All Committee men and others interested are cordially invited. Mr. Porter and others will address the meeting. The famous Quinte Quartette will sing.

Cheese Board.

At the Cheese Board to-day 2260 boxes were boarded, being 2090 white and 170 colored. Prices for white ranged from 11 3-4c to 11 13-16c, and the colored sold at 12c. At this date last year 12 1-2c was accepted. Bank Manager Elliott will dine the cheese men two weeks from to-day.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure Send for circulars, free.

Take Hall's Family Pills for constipation

MUSIC AND THE DRAMA

"UNCLE TOM'S CABIN."

The Winnipeg Free Press has the following to say of "Uncle Tom's Cabin," which appears here at the opera house on Thursday, Oct. 22nd: "Downie's 'Uncle Tom's Cabin' was presented at the Walker theatre last Saturday afternoon and evening, and if the slightest doubt as to the popularity of this sterling old production lingered in the minds of the theatre-goers it would have been completely dispelled had they peeped in at either the matinee or evening performance and seen the big theatre packed, from pit to dome, with happy, interested men, women and children. The stage settings were pretty, especially the transformation scene, showing "Little Eve" in heaven. Taken altogether the performance was most satisfactory." Prices 25c, 35c and 50c. Plan opens Wednesday morning.

THE WEATHER.

TO-DAY'S PROBS.

Fresh to strong southeasterly to southerly winds, fair to-day with higher temperature, showers in some localities during night and on Friday.

Daily Intelligencer.

Prospects] for Conservative Victory in the West.

Premier Roblin, who, if any man knows, should know, thus sizes up Conservative prospects in the West:

"In Saskatchewan, the outlook for the Conservative party is much better than might appear from the recent Provincial election. As a matter of fact, the vote at the polling places comprising five, if not six, out of the ten Federal ridings, showed a majority of Conservative votes, so that the coming election will probably surprise our Liberal friends."

• • •

In Alberta the prospect is good, and the candidates selected by the Conservatives are strong men whose ability and worth will help to draw additional support to the Opposition party.

• • •

"British Columbia, Mr. Roblin says, which now sends seven Liberal members to Ottawa, will send an unbroken company of Conservative representatives after this election, provided only that the elections in all ridings are held on the same day. It is an old trick of the Liberals, however, to hold a couple of seats over so as to influence them by the general result of the election.

• • •

It is to be hoped, in the interests and good government of the country, that Mr. Roblin's predictions may prove correct.

Borden's Wise & Weighty Words.

That in R. L. Borden the Conservatives of Canada have a man to cheer for and be proud of is proven, not only by the record of that gentleman, but by his speeches recently delivered. There is the true ring in his declaration that "He is not a true friend of the Conservative party who resorts to dishonest means. Every man likes victory, but I would much prefer defeat in a clean election to victory after corruption."

• • •

In referring to the howling of the Globe and others of the same ilk, he said: "It is a disgraceful thing to see the exultation with which certain Liberal politicians and a certain part of the Liberal press seize upon this Colchester matter. They were dumb as oysters when infinitely blacker things were revealed in the House. When Liberals were implicated in dishonest transactions they were given pensions and sent to the United States to enjoy themselves," and he might have added, perjurers were pardoned, and subornators of perjury were sent to England to live at the expense of Canada, and jail birds were appointed to office, etc., etc.

• • •

Upon the subject of taxation he spoke of the pledges made by Liberals in days gone by, notably to cut down expenditure and reduce taxation. The taxation last year amounted to $73,000,000, and the expenditure, which had been $42,000,000 in 1896, had jumped to $112,000,000, yet the Liberals were satisfied.

• • •

"The Civil Service Commission had shown VAST sums of money which had gone to middlemen and party heelers. Col. Gourdeau, a Deputy Minister, testified before Judge Cassels that in the Department of Marine and Fisheries TWO HUNDRED THOUSAND DOLLARS would have been saved but for the patronage list." How much better is that than stealing?

• • •

The management of the Quebec bridge had been careless and inefficient. Four and a half millions of money was now lying at the bottom of the St. Lawrence, with eight millions more necessary before the work could be completed.

• • •

The Hon. Mr. Fielding, while addressing the electors in Nova Scotia a few days ago, referred to the Conservative party as "a poverty-stricken people." To which Mr. Borden truthfully replied, "If the point of wealth was meant, the Conservatives might not compare with certain Liberals poverty-stricken 12 years ago, but now opulent." Nothing but brazen-faced recklessness could excuse such a reference.

• • •

A flat denial was made to Fielding's declaration that the public debt had been reduced by 71-2 millions. On the contrary, it had been increased from 256 to 273 millions, since 1896. This though the times had been prosperous and Government revenue had doubled.

Mr. Borden's attitude towards political trickery is shown by his manly words when accepting the nomination at Halifax:

"One condition I make imperative in my acceptance. The campaign must be a clean one. No corrupt practises must be employed in on behalf. I do not fear defeat in a clean campaign, but I prefer overwhelming defeat to victory won by improper means. I stand upon my platform of a year ago. Fight the ballot thief and the briber. Fight also any influences within our own party which favor corrupt methods. Rely on the justice of our cause and upon a thorough exposure to the people of our opponents' evil record."

Referring to the charges in connection with the Colchester bye-election, he added: "If there has been wrongdoing by Conservatives, I denounce it. I denounce those who committed it or are responsible for it, and I declare that they should be punished with the full legal penalties. No man who resorts to corrupt acts in the supposed interests of our party is a true friend of the party."

Who will say these are not the sentiments and principles which should guide every man who is entrusted with the franchise?

PERSONAL AND SOCIAL.

Miss Sarah Kenney is visiting in Montreal and Quebec.

Mrs. W. J. Brown and Mrs. W. J. Wilder left to-day to visit their sister at Lindsay.

Mr. R. L. Thompson, D.P.A., of the C.P.R., and Mr. Dockerill, of the same department, are in town.

Mail and Empire: Miss M. Thompson, Belleville, was in town this week and intends going South for the Winter.

Mr. D. A. McWhither, formerly of Belleville, but now of Chicago, was in the city yesterday, the guest of his sister, Miss McWhither, Paterson street.

At the Quinte: W. F. Styles, H. Diplock, W. A. Trusdell, D. C. McNaughton, W. C. Cook, S. E. Waffle, Mr. and Mrs. S. Donaldson, A. B. Brown, Montreal; C. dePencier, Wellington; W. Graham, J. J. Burton, L. Macdonald, H. Watkins, A. Kembleton, Mr. and Mrs. J. C. O'Brien E. Wood, J. A. Bolsby, J. W. Johnston, F. Pinn, A. Hamilton, P. J. Booth, H. Tanner, J. S. Swift, R. Byrne, T. Marshall, W. Jennings, W. Eckhards, H. Bowers, T. Worthington, H. D. Goldring, Toronto; G. H. Mirron, G. H. Davidson, Brighton; C. H. Craig, Brooklyn, N. Y.; E. Roat, Berlin; Lt.-Col. Massie, Kingston; W. S. Miller and wife, Frankford; M. T. Bruce, Lindsay; Mr. and Mrs. Elliston, London, Eng.; G. T. Boulton, C. T. Faulkner, Buffalo, N. Y.; F. N. Rosenburg, Peterboro; G. G. Ferguson, J. S. Anthes, Chicago.

A SHINING MARK.

What Parisian Sage did for Chas. S. Baker it will do for you. Read the following:

"I was so bald and such a shining mark for my friends, that I, as a last resort, tried your Parisian Sage (after trying several bottles of the highly advertised and high priced so called hair restorers), and I am glad to say I now have a heavy growth of new hair. I am now 44 years old and I have a heavy growth of new hair after carrying my shining mark for over seven years. I gladly recommend Parisian Sage to all afflicted with baldness." Chas. S. Baker, 491 Main St. East, Rochester, N.Y.

Parisian Sage, the only natural hair restorer, is guaranteed by J. S. McKeown to cure dandruff, stop falling hair, and cure itching of the scalp, or money back. It is the ladies' favorite hair dressing, because it adds charm and luxuriance to the hair. 50 cents a bottle. Ask J. S. McKeown about it.

Deaths.

HAYNE.—In Midland, on Wednesday, Oct. 21st, 1908, Grace Hayne, beloved wife of Emanuel Hayne.

The remains will arrive here to-night on midnight train. The funeral will take place to-morrow, Friday, at 2.30 p.m. (from Tickell & Sons' undertaking rooms), to Christ Church for burial services at 2.45 p.m. Interment Belleville cemetery.

In the End.

Mother liked best Theodora,
Father swore by Claribel,
Grandma wanted Leonora
Or Jeannette or else Estella,
Grandpa fancied Arabella,
Auntie talked most of Patrice,
Sister favored Isabella,
Brother's choice lay in Clarice.

They considered Viciana,
Geraldina and Marcelle,
Anastasia, Mariana,
Hortense, Eunice, Mirabel,
Argued Claire, Leola, Starling,
Fought o'er Constance and Elaine—
But, alack! the precious darling,
It was christened Mary Jane.

Proverb Practically Applied.

"A man is judged by the company he keeps," said the apherist.

"Yes," answered the man with a boom. "Which makes it undesirable sometimes to print the names of all the contributors to your campaign fund."—Washington Star.

What He Does.

"Pa, what does a king or an emperor do when he grants anybody an audience?"

"He does about what your mother does when she grants me an audience—talks most of the time."—Denver News-Times.

A Churchgoer.

"Do you attend church regularly?" inquired the solicitous friend.

"I've been a regular churchgoer of late," answered Mr. Cumrox. "Mother and the girls took me on a guidebook tour through Europe."—Washington Star.

The Easiest Way.

"The easiest way to succeed, my boy, is to give the people what they want."

"No, sir; you are mistaken. The easiest way to succeed is to make the people think they want what you are giving them."—Chicago Record-Herald.

Signs and Symptoms.

"Do you believe the countenance is indicative of character?"

"In some respects. For instance, when you see a hatchet faced woman, ten to one you'll find her temper on edge."—Baltimore American.

Man as a Shopper.

A gentleman undertook to purchase a waist for his wife.

"What bust?" inquired the saleswoman.

"Why, I didn't hear anything."—Everybody's.

Not Worth Repeating.

Kind Lady—But that isn't the same story you told me the last time you were here.

The Hobo—Course it ain't. Youse didn't berleeve de odder one.—Chicago News.

Obviously.

"Aunt Hepsy, what do they use invisible hairpins for?"

"To fasten up invisible hair, of course, child."—Town Topics.

Political Pointers.

This week finishes Sir Wilfrid Laurier's work.

All together, and we'll make this a last awful week for the Liberals.

What did Byron O. Lott and Frank Reilly, when they were returning from Watertown, after arranging for the manufacture of the bogus ballot-boxes, call on Hon. Geo. P. Graham, at Brockville, for? And wake him out of his sleep on a Sunday afternoon? Not to talk over the Sunday school lesson, you may be sure.

Then again, who printed the fraudulent ballots used by the Grits in the Comstock-White bye-election? They were printed in Brockville. There were only two printing offices in Brockville, one, the Times, the Conservative paper; the other, the Recorder, owned by Geo. P. Graham. Who printed those fraudulent ballots? Isn't Geo. P. Graham the nice man to go round the country preaching political purity?

For the first time in fifty years there is no Grit candidate for the Commons in London, Ont. Three years ago it returned a Grit Cabinet Minister. Too much Liberal corruption. That's the story of it all. There's a limit to all things, and decent people could not stand any more of the Grit methods. And what sickened the Londoners has sickened Canadians as a whole. They'll turn the grafters out next Monday. Vote for Porter and do your share.

The Toronto Globe could pay for columns of the story of a man who claimed to have been bribed with whiskey in Colchester, and who couldn't be found when wanted to tell the story in court, but it hadn't space at all for the story of a Government contractor who avers that he was swindled out of $2,000 that went into the pocket of the Minister of Public Works. Would this have been in the days of Hon. Geo. Brown? Hardly.

Big meeting at the Porter committee rooms to-night. Leading orators will make snappy speeches and sweet singers will warble. Go and enjoy yourself and hear the issues of the day intelligently discussed.

The election fight rages with no little fury, particularly in the Northwest. The pyrotechnics are most brilliant in the Assiniboia district, where the gladiators of the campaign in the West are fighting it out. There Mr. Richardson and Mr. Turriff are doing the country together, and the people are being treated to some choice selections of campaign fighting. At one of the meetings Turriff, the ex-member, who flourished so conspicuously in the timber land and coal deals, "claimed," so says the report, "personal innocence of wrong-doing, and dared Mr. Richardson to make any charge against him, either as a member of Parliament or as a Crown Lands Commissioner at Ottawa. Mr. Richardson accepted the challenge and charged Mr. Turriff with having committed perjury in connection with the investigation into the Estevan coal lands deal when Mr. Turriff, on oath swore that the papers he produced were all that existed relating to the matter under investigation. To substantiate his charge of perjury, Mr. Richardson produced letters, which he claimed were in the possession of Mr. Turriff and which had been suppressed. At this the Liberal candidate sprang to his feet and demanded the letters saying they were private communications and were stolen from him. Mr. Richardson proceeded with his denunciation of the Liberal candidate and the repeated efforts of Mr. Turriff to interrupt brought cat calls from the audience. "Back to your timber limits" and "to the tall timber for you" were specimens of the invectives hurled at the Liberal nominee, and what up to that time had been an orderly audience became a roaring mob of enthusiasts for Richardson. This was a serious thing. It mattered not whether they were private letters or not, the question is, were they produced when Mr. Turriff was in the witness-box?

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10,000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

Decorator and Designer

Remember we do painting, paper hanging, graining, decoroting at lower prices than you imagine, The style of our work is of a high order. Our prices are low.

TIMELY TOPICS.

INDIAN SUMMER.

Sunny days
Soft with haze,
Restless winds a-flitting
Through the trees
Every breeze
With the brown leaves twitting.
Not a bloom
Whose perfume
Tempts the honeyed hummer,
E'en the grass
Crisp and crass—
That is Indian summer.

Every tree
Flauntingly
Coming winter noting,
Every cloud
Like a shroud
White and mystic floating.
Not a bird
To be heard,
But one wee newcomer
(Chicazoee)
Ceaselessly—
This is Indian summer.

Also—
Worry's trace
On the face
Of the needy person,
Thoughts of those
Winter clothes
Almost set him cursin'
Where's that coin
He was goin'
To save up? Ah, glummer
Grows his brow
Thinking now
Of his plans last summer.

* * *

A Belfast insurance clerk sent his card to his florist with a young lady's address on one side and the following note on the other: "Anything will do for this girl." When the clerk called that evening the servant met him with his bouquet, handed it to him and slammed the door in his face. The florist had tied his card, bearing the address, to the flowers, but written in a feminine hand below his note was, "There is one thing that will not do for this girl, and you are it."

* * *

Henry B. Stanford, for several years the leading man with Sir Henry Irving's company, tells of an incident which occurred while rehearsing "Faust" with him at the Lyceum theatre in London. They were doing the Brocken scene and the famous actor had occasion to reprove an army of exuberant supers. He stopped the rehearsal and all was silence. Then, in a quiet, grim way, he said: "Very charming—but you must remember that you are in hell—not picnicking on Hampstead Heath."

Oyster Growth.

The oyster grows from the inside by its throwing out every year rings or circles of a calcareous substance, and experts can tell you where the growth begins and ends for the year.

Vinegar.

A gallon of vinegar weighs more in winter than in summer, as the cold causes the fluid to contract.

The Compass In Russia.

Over a large area of central Russia the magnetic needle does not point north or south. It is in one part deflected to the west and at another part to the east, and at one place it points due east and west.

Trivial.

"Trivial" is derived from the Latin for three ways and means the petty gossip of the crossroads.

Waterspouts.

A waterspout is constantly spinning. The moment it ceases it collapses. At the distance of about a quarter of a mile above the sea level its spinning speed has been estimated at six miles a minute.

West Virginia.

West Virginia is twice as large as Massachusetts, twice as large as Maryland and as large as Connecticut, Rhode Island, Delaware, New Jersey and Vermont combined.

Rubber Tires.

Rubber tires have three natural enemies—light, heat and oil—all three of which should be guarded against.

A Comparison In Weights.

A cubic foot of air weighs a little less than an ounce, while a cubic foot of water weighs 1,000 ounces. A cubic foot of gold weighs 1,026 ounces and a cubic foot of platinum 2,150 ounces.

Beet Sugar.

The effort to make sugar from beets dates back as far as the year 1747.

A Long Mile.

In the German geographical mile there are 8,100 yards, in the American 1,760 yards. Thus the German mile is equivalent to more than four and a half of our miles.

Silkworm Eggs.

The eggs of the silkworm are about the size of mustard seeds.

AN EPISODE OF WAR.

The Only Coward Evans Ever Saw In the Naval Service.

After Admiral Evans had been so grievously wounded in the attack on Fort Fisher during the civil war he was picked up by a marine named Wasmouth and carried into comparative shelter. Wasmouth was killed a few minutes later. Evans' own account continues: "After Wasmouth was killed I soon fell asleep, and when I awoke it was some time before I could recall my surroundings. The tide had come in, and the hole in which I was lying was nearly full of water, which had about covered me and was trickling into my ears. I could see a monitor firing and apparently very near, and the thought came to me that I could swim off to her if I only had a bit of plank or driftwood, but this I could not get. It was plain enough that I should soon be drowned like a rat in a hole unless I managed to get out somehow. Dead and wounded men were lying about in ghastly piles, but no one to lend me a helping hand. By this time I could not use my legs in any way, and when I dug my hands into the sides of my prison and tried to pull myself out the sand gave way and left me still lying in the water. Finally I made a strong effort and rolled myself sideways out of the hole.

"When I got out I saw a marine a short distance away nicely covered by a pile of sand and firing away deliberately at the fort. I called to him to pull me in behind his bar of sand, but he declined on the ground that the fire was too sharp for him to expose himself. I persuaded him with my revolver to change his mind, and in two seconds he had me in a place of safety—that is to say, safe by a small margin, for when he fired the Confederate bullets would snip the sand within a few inches of our heads. If the marine had known that my revolver was soaking wet and could not possibly be fired I suppose I would have been buried the next morning, as many other poor fellows were. As soon as I could reach some cartridges from a dead sailor lying near me I loaded my revolver, thinking it might be useful before the job was finished.

"When I was jerked in behind this pile of sand I landed across the body of the only coward I ever saw in the naval service. At first I was not conscious that there was a man under me, so completely had he worked himself into the sand. He was actually below the surface of the ground. The monitors were firing over us, and as a shell came roaring by he pulled his knees up to his chin, which hurt me, as it jostled my broken legs. I said: 'Hello! Are you wounded?' 'No, sir,' he replied; 'I am afraid to move.' 'All right, then,' I said, 'keep quiet and don't hurt my legs again.' The next shell that came over he did the same thing and the next notwithstanding my repeated cautions. So I tapped him between the eyes with the butt of my revolver, and he was quiet after that."

The Glove on the Pole.

A quaint custom in an English town, Honiton, is "proclaiming the fair." The town obtained the grant of a fair from the lord of the manor so long ago as 1257, and the fair still retains some of the picturesque characteristics of bygone days. The town crier, dressed in picturesque uniform and carrying a pole decorated with gay flowers and surmounted by a large gilt model of a gloved hand, publicly announces the opening of the fair, as follows: "Oyez! Oyez! Oyez! The fair's begun, the glove is up. No man can be arrested till the glove is taken down." Hot coins are then thrown among the children. The pole and glove remains displayed until the end of the fair.

How Hammer of Death Struck James.

The old parish church of Plumstead is probably at least 1,000 years old. The picturesque churchyard, a cherished haunt of the poet Bloomfield during his visits to Shooters Hill, contains a delightfully choice "derangement of epitaphs." One of these on "Master James Darling, aged 10," teaches a lesson of moderation during the cherry season to the youth of other places besides Plumstead. Speaking from his tombstone, Master Darling exclaims:

> The hammer of death was give to me
> For eating the cherries off the tree.

—Westminster Gazette.

Had Its Limitations.

A Scottish farmer was proudly showing a visitor an antique clock which had recently come into his possession.

"Isn't that a gran' clock?" he said. "I bocht it at an auction sale in the toon the ither day an' got a rale bargain."

"Yes, but does it keep good time?" the visitor asked.

"Ah, weel, it's no good enough to catch a train or that sort o' thing, but good enough to get up to yer breakfast wi'."

A Budding Philologist.

Bobbie, aged five, saw a cow grazing in his mother's flower garden and shouted: "Scat! Scat!"

The cow didn't seem to be much intimidated and calmly ate on. Three-year-old Mary, dancing with excitement, exclaimed: "Tell him to 'scow,' Wobbie; tell him to 'scow'!"

He Understood.

Hewitt—Do you understand where that fellow stood—the one who was just talking to us? Jewett—Sure; he was standing on my feet most of the time.

We are natural believers. Truth, or the connection between cause and effect, alone interests us.—Emerson.

LAST OF THE PASCAGOULAS.

An Indian Legend From the Shores of the Gulf of Mexico.

An Indian legend of the Pascagoulas is told by the fishermen and oystermen down on the shores of the gulf of Mexico.

A point reaches out into the gulf near the mouth of the Pascagoula river. The pine trees on it come almost to the water's edge, and between lies a strip of white sand; across a marsh, a border of light green swaying and rustling grasses and beyond a gray cypress swamp the hanging moss of the trees swaying in the wind. To the south the blue waters of the gulf stretch away, with little waves lapping on the chalk white clam shells of the shore.

There in the evening during the short twilight one hears soft music, as if it were the notes of a violin, insistent, changing, sweet. It is the song of the Pascagoulas.

Long years before the Pascagoula Indians had lived upon this point. The white men, the Spaniards, came in numbers, and with them the hostile warriors of other tribes, to make war and to drive the Pascagoulas out of the country. Coming from the inland, the enemy took away all chance of fight and hedged them in on the point. The Pascagoulas fought for days and nights in the dark pine woods against outnumbering foes. Then they saw that all was useless, that they could not overcome, and starvation stared them in the face.

The Pascagoulas called a council of the tribe and talked long together. To give themselves up meant lives of slavery or death, and to fight to the last man was to leave the women and children to the mercy of the white men and their allies.

The next morning the Pascagoulas put on all their paint and trappings and burned their wigwams. The men, women and children slowly, deliberately, unflinchingly backed step by step into the water behind them, singing. Not one faltered. They died with their faces toward their enemies, brave and free, and now in the evening when the wind blows over the marshes the pines and grasses sing the song of the Pascagoulas.

THE LAND OF WORSHIP.

The East Believes Too Utterly to Care if Others Disbelieve.

Prayer pervades the east. Far off across the sands when one is traveling in the desert one sees thin minarets rising toward the sky. A desert city is there. It signals its presence by this mute appeal to Allah. And where there are no minarets in the great wastes of the dunes, in the eternal silence, the lifelessness that is not broken even by any lonely, wandering bird, the camels are stopped at the appointed hours, the poor and often ragged robes are laid down and the brown pilgrims prostrate themselves in prayer. And the rich man spreads his carpet and prays, and the half naked nomad spreads nothing, but he prays too.

The east is full of lust and full of money getting and full of bartering and full of violence, but it is full of worship—of worship that disdains concealment, that recks not of ridicule or comment, that believes too utterly to care if others disbelieve. There are in the east many men who do not pray. They do not laugh at the man who does, like the unpraying Christian. There is nothing ludicrous in prayer. In Egypt your Nubian sailor prays in the stern of your dahabiyeh, and your Egyptian boatman prays by the rudder of your boat, and your black donkey boy prays behind a red rock in the sand, and your camel man prays when you are resting in the noontide watching the faroff, quivering mirage, lost in some wayward dream.

And must you not pray, too, when you enter certain temples where once strange gods were worshiped in whom no man now believes?—Robert Hichens in Century.

Scared by Frogs.

It is said to be owed to the frogs of western Australia that that part of the empire is English and not French. About 1800 a party of prospective French colonists landed on the west coast of Australia, but on the first morning they were alarmed by the loud croaking of the frogs, which they took for demons, and retired with all speed to their ships. Western Australia might have preferred the frog to the swan as her emblem, just as Rome might have preferred, instead of the eagle, the goose that saved the capital.

In His Line.

"I'm surprised that you should be so interested in watching those silly dudes."

"Force of habit, I guess. I'm president of a real estate improvement company."

"Well?"

"Well, they're a vacant lot."

Paid In Full.

Hiram (coming to the point)—Sally, I've been a-payin' my respects to you fer five years come next August, ain't I? Sally (blushingly)—Yes, indeed, Hiram. Hiram—Well, all I'm a-goin' to say is that I'm durn sick uv the installment plan! Sally (in his arms)—Pa's agreeable, Hiram!

Missionary Work.

"So you once lived in Africa, Sam?"

"Yes, sah."

"Ever do any missionary work out there, Sam?"

"Oh, yes, sah! I was cook for a cannibal chief, sah!"—Pick-Me-Up.

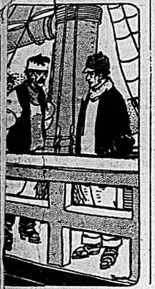
THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

PYRIGHT 1907. BY McCLURE, PHILLIPS & CO.

at if I could escape that night
c row back to Percy Darrow.
e two of us could make shift to live
fish and shellfish and mutton. The
n rapidly defined itself in my brain.
om the remains of the Golden Horn
could construct some kind of a
ft in which to run free to the sum-
r trades. Thus we might in time
ch some one or another of the
ndwich Islands, whence a passing
der could take us back to civiliza-
n. There were many elements of
certainty in the scheme, but it seem-



after meal we went on deck again.

to me less desperate than trusting to
caprice of these men, especially
ce they now had free access to the
nor stores.
While I leaned over the rail engross-
in these thoughts one of the black
nderclouds that had been gather-
and dissipating over the island dur-
the entire afternoon suddenly glow-
overhead with a strange white in-
ndescence startlingly akin to Dar-
w's so called "devil fires." Strange-
enough, this illumination, unlike the
canic glows, appeared to be cast on
clouds from without rather than
ot through them from within, as
re the other volcanic emanations.
the same instant I experienced a
rp interior revulsion of some sort,

. I stood stock still for a moment,
ng which the only sounds audible
the singing of the winds through the rigging, the wash of the sea and the small, sharp click of Perdosa's instrument as he worked at the chest.

Presently I could see better. I looked forward and aft for Pulz, but could see nothing of him and had just about concluded that he had gone forward when I happened to glance aloft. There, to my astonishment, I made him out huddled in silhouette against the stars close to the main truck. What he was doing there I could not imagine. However, I did not have time to bother my head about him further than to rejoice that he could not obstruct me.

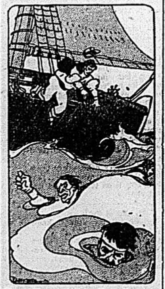
I should very much have liked to get hold of a rifle and ammunition or at least to lay in biscuit and water, but for this there was no time. It was not absolutely essential. The dull glow of the island was still visible. I had my pillar of fire and smoke to guide me. Without further delay I jerked loose the painter and drew the extra dory alongside.

I had proceeded just so far in my movements when the most extraordinary thing happened. I shall try to tell you of it as accurately as possible and in the exact order of its occurrence. First a long, straight shaft of white light shot straight up through the cabin roof to a great height. It shone through the wooden planks as an ordinary light shines through glass. By contrast the surrounding blackness was thrown into a deeper shade, and yet the shaft itself was so brilliant as almost to scotch the sight. Curiously enough, it was defined accurately, being exactly in shape like one of the rectangular tin air shafts you see so often in city hotels. At the instant of its appearance the wind fell quite calm.

Almost immediately the rectangle on the roof through which the light made its passage began to splay out like lighted oil, although the column retained still the integrity of its outline. The fire, if such it could be called, ran with incredible rapidity along the seams between the planks forward and aft until the entire deck was sketched like a pyrotechnic display in thin, vivid lines of incandescence. From each of these lines then the fire began again to spread, as though soaking through the planks.

All took place practically in an instant of time. I had no opportunity to move or to cry out. Indeed, my perceptions were inadequate to the task of mere observation. Up to now there had been no sound. The wind had fallen. The waters passed unnoticed. A stillness of death seemed to have descended on the ship. It was broken by a sharp double report, one as of the fall of a metallic substance, the other caused by the body of Pulz, which, shaken loose from the truck by a heavy roll, smashed against the rail of the ship and splashed overboard. Some one cried out sharply. An instant later the entire crew struggled out from the companionway, rushed in grim silence to the side of the vessel and threw themselves into the sea.

My own ideas were somewhat confused. The fire had practically enveloped the ship. I thought to feel it, and yet my skin was cool to the touch. The ship's outlines became blurred. A dizziness overtook me, and then all at once a great desire seized and shook my very soul. I cannot tell you the vehemence of this desire. It was a madness. Nothing could stand in the way of its gratification. Whatever happened, I must have water. It was not thirst nor yet a purpose to allay the very real physical burning of which I was now dimly conscious, but a craving for the liquid itself as something apart from and unconnected with anything else. Without hesitation and as though it were the most natural thing in the world I vaulted the rail to cast myself into the ocean. I dimly remember a last flying impression of a furnace of light, then a great shock thudded through me, and I lost consciousness.



The entire crew threw themselves into the sea.

CHAPTER XXVI.

OVER the wardroom of the Wolverine had fallen a silence. It held after Slade had finished. Captain Parkinson, stiff and erect in his chair, staring fixedly at a spot two feet above the reporter's head, seemed to weigh as a judge weighs the facts so picturesquely set forth. Dr. Trendon, his sturdy frame half in shadow, had slouched far down into himself. Only the regard of his keen eyes fixed upon Slade's face unwaveringly and a bit anxiously showed that he was thinking of the narrator as well as of the narrative. The others had fallen completely under the spell of the tale. They sat as children in a theater, absorbed, forgetful of the world around them, wrapped in a more vivid element. At the close they stirred and blinked, half dazed by the abrupt fall of the curtain.

Slade had told his story with fire, with something of passion even. Now he felt the sharp reflex. He muttered uncertainly beneath his breath and glanced from one to another of the circled faces.

"That's all," he said unsteadily.

There passed through the group a stir and a murmur. Some one broke into sharp coughing. Chairs, shoved back, grated on the floor.

"Well, of all the extraordinary"— began a voice ruminatingly and broke off short as if abashed at its own infraction of the silence.

"That's all," repeated Slade, a note of insistence in his voice. "Why don't you say something? Confound you, why don't you say something?" His speech rose husky and cracked. "Don't you believe it?"

"Hold on!" said the surgeon quietly. "No need to get excited."

"Oh, well," muttered the reporter, with a sudden lapse, "possibly you think I'm romancing. It doesn't matter. I don't suppose I'd believe it myself in your place."

"But we're heading for the island," suggested Forsythe.

"That's so," cried Slade. "Well, that's all right. Believe or disbelieve as much as you like. Only get Percy Darrow off that island. Then we'll have his version. There are a few things I want to find out about, myself."

"There are several that promise to be fairly interesting," said Forsythe under his breath.

Slade turned to the captain. "Have you any questions to put to me, sir?" he asked formally.

"Just one moment," interrupted Trendon. "Boy, a pony of brandy for Mr. Slade."

The reporter drank the liquor and again turned to Captain Parkinson.

"Only about our men," said the commanding officer after a little thought.

Slade shook his head.

"I'm sorry I can't help you there, sir."

"Dr. Trendon said that you knew nothing about Edwards."

"Edwards?" repeated Slade inquiringly. His mind, still absorbed in the events which he had been relating, groped backward.

Trendon came to his aid. "Barnett asked you about him, you remember. It was when you recovered consciousness. Our ensign. Took over charge of the Laughing Lass."

"Oh, of course. I was a little dazed, I fancy."

"We put Mr. Edwards aboard when we first picked up the deserted schooner," explained the captain.

"Pardon me," said the other. "My head doesn't seem to work quite right yet. Just a moment, please." He sat silent, with closed eyes. "You say you picked up the Laughing Lass. When?" he asked presently.

"Four—five—six days ago, the first time."

"Then you put out the fire?"

The circle closed in on Slade, with an unconscious hitching forward of chairs. He had fixed his eyes on the captain. His mouth worked. Obviously he was under a tensity of endeavor in keeping his faculties set to the problem. The surgeon watched him, frowning.

"There was no fire," said the captain.

Slade leaped in his chair. "No fire! But I saw her, I tell you. When I went overboard she was one living flame!"

"You landed in the small boat. Knocked you senseless," said Trendon. "Concussion of the brain. Idea of flame might have been a retroactive hallucination."

"Retroactive rot!" cried the other. "I beg your pardon, Dr. Trendon, but if you'd seen her as I saw her— Barnett!"

He turned in appeal to his old acquaintance.

"There was no fire, Slade," replied the executive officer gently. "No sign of fire that we could find, except that the starboard rail was blistered."

"Oh, that was from the volcano," said Slade. "That was nothing."

"It was all there was," returned Barnett.

"Just let me run this thing over," said the free lance slowly. "You found the schooner. She wasn't afire. She didn't even seem to have been afire. You put a crew aboard under your ensign, Edwards. Storm separated you from her. You picked her up again deserted. Is that right?"

"Day before yesterday morning."

"Then," cried the other excitedly, "the fire was smoldering all the time. It broke out, and your men took to the water."

"Impossible," said Barnett.

"Fiddlesticks!" said the more downright surgeon.

"I hardly think Mr. Edwards would be driven overboard by a fire which did not even scorch his ship," suggested the captain mildly.

"It drove our lot overboard," insisted Slade. "Do you think we were a pack of cowards? I tell you, when that hellish thing broke loose you had to go. It wasn't fear. It wasn't pain. It was—what's the use? You can't explain a thing like that."

"We certainly saw the glow the night Bill Edwards was—disappeared," mused Forsythe.

"And again night before last," said the captain.

"What's that?" cried Slade. "Where is the Laughing Lass? Isn't she in tow?"

"In tow?" said Forsythe. "No, indeed. We hadn't adequate facilities for towing her. Didn't you tell him, Mr. Barnett?"

"Where is she, then?" Slade fired the question at them like a cross examiner.

"Why, we shipped another crew under Ives and McGuire that noon. We were parted again and haven't seen them since."

"God forgive you!" said the reporter. "After the warnings you'd had too! It was—it was"—

"My orders, Mr. Slade," said Captain Parkinson, with quiet dignity.

"Of course, sir. I beg your pardon," returned the other. "But you say you saw the light again?"

"The first night they were out," said Barnett in a low voice.

"Then your second crew is with your first crew," said Slade shakily. "And they're with Thrackles and Pulz and Solomon and many another black hearted scoundrel and brave seaman. Down there!"

He pointed underfoot. Captain Parkinson rose and went to his cabin. Slade rose, too, but his knees were unsteady. He tottered, and but for the swift aid of Barnett's arm would have fallen.

"Overdone," said Dr. Trendon, with some irritation. "Cost you something in strength. Foolish performance. Turn in now."

Slade tried to protest, but the surgeon would not hear of it and marched him incontinently to his berth. Returning, Trendon reported, with growls of discontent, that his patient was in a fever.

"Couldn't expect anything else," he fumed. "Pack of human interrogation points bounding him all over the place."

"What do you think of his story?" asked Forsythe.

The grizzled surgeon drew out a cigar, lighted it, took three deliberate puffs, turned it about, examined the ash end with concentration, and replied:

"Man's telling a straight story."

"You think it's all true?" cried Forsythe.

"Humph!" grunted the other. "He thinks it's all true."

An orderly appeared and knocked at the captain's cabin.

"Beg pardon, sir," they heard him say. "Mr. Carter would like to know how close in to run. Volcano's acting up pretty bad, sir."

Captain Parkinson went on deck, followed by the rest.

CHAPTER XXVII.

FEELING the way forward, the cruiser was soon caught in a maze of cross currents. Hither and thither she was borne, a creature bereft of volition. Order followed order like the rattle of quick fire and was obeyed with something more than the Wolverine's customary smartness. From the bridge Captain Parkinson himself directed his ship. His face was placid, his bearing steady and confident. This in itself was sufficient earnest that the cruiser was in ticklish case, for it was an axiom of the men who sailed under Parkinson that the calmer that nervous man grew the more cause was there for nervousness on the part of others.

The approach was from the south, but suspicious aspects of the water had fended the cruiser out and around, until now she stood prow on to a bold headland at the northwest corner of the island. Above this headland lay a dark pall of vapor. In the shifting breeze it swayed sluggishly, heavily, as if riding at anchor like a logy ship of the air. Only once did it show any marked movement.

"It's spreading out toward us," said Barnett to his fellow officers, gathered aft.

"Time to move, then," grunted Trendon.

The others looked at him inquiringly.

"About as healthful as prussic acid, those volcanic gases," explained the surgeon.

The ship edged on and inward. Presently the singsong of the leadsman sounded in measured distinctness through the silence. Then a sudden activity and bustle forward, the rattle of chains, and the Wolverine was at anchor. The captain came down from the bridge.

"What do you think, Dr. Trendon?" he asked.

More explicit inquiry was not necessary.

The surgeon understood what was in his superior's mind.

"Never can tell about volcanoes, sir," he said.

"Of course," agreed the captain. "But—well, do you recognize any of the symptoms?"

"Want me to diagnose a case of earthquake, sir?" grinned Trendon. "She might go off today or she might behave herself for a century."

"Well, it's all chance," said the other cheerfully. "The man might be alive. At any rate we must do our best on that theory. What do you make of that cloud on the peak?"

"Poisonous vapors, I suppose. Thought we'd have a chance to make sure just now. Seemed to be coming right for us. Wind's shifted it since."

"There couldn't be anything alive up there?"

"Not so much as a bug," replied the doctor positively.

"Yet I thought when the vapor lifted a bit that I saw something moving."

"When was that, sir?"

"Ten or fifteen minutes back."

"We'll see soon enough, sir," put in Forsythe. "The wind is driving it down to the south'ard."

Sullenly, reluctantly, the forbidding mass moved across the headland. All glasses were bent upon it. Without taking his binocular from his eyes Trendon began to ruminate aloud.

"If he could have got to the beach. No vapor there. Signal, though. Perhaps he hadn't time. And I'd hate to risk good men on that caldron. Just as much risk here perhaps. Only it seems"—

"There it is!" cried Forsythe. "Look! The highest point!"

Dull gray wisps of murk, the afterguard of the gaseous cloud, were twisting and spiraling in a witch dance across the landscape, and, seen by snatches and glimpses through it, something flapped darkly in the breeze. Suddenly the veil parted and fled. A flag stood forth in the sharp gust, rigid and appalling. It was black.

"The Jolly Roger, by God! They've come back!" exclaimed Forsythe.

"And set up the sign of their shop," added Barnett.

"If they stuck to their flag—goodby," observed Trendon grimly.

"Dr. Trendon," said Captain Parkinson, "you will arm yourself and go with me in the gig to make a landing."

"Yes, sir," responded the surgeon.

"Mr. Barnett."

"Yes, sir."

"Should we be overtaken by the vapor while on the highland and be unable to get back to the beach, you are to send no rescuing party up there until the air has cleared."

"But, sir, may we not"—

"Do you understand?"

"Yes, sir."

"In case of an attack you will at once send in another boat with a howitzer."

"Yes, sir."

"Dr. Trendon, will you see Mr. Slade and inquire of him the best point for landing?"

Trendon hesitated.

"I suppose it would hardly do to take him with us?" pursued the commanding officer.

"If he is roused now, even for a moment, I won't answer for the consequences, sir," said the surgeon bluntly.

"Surely you can have him point out a landing place," said the captain.

"On your responsibility," returned the other obstinately. "He's under opiate now."

TURKISH ARMY OFFICERS.

They Are Neither Loved Nor Respected by Their Men.

Very seldom if he can help it does the Turkish army officer appear on horseback, and when not on duty he looks upon his horse merely as a method of locomotion. He has no affection or understanding for the horse. The superior officers have no horses of their own, and, being generally bad riders and without military qualities which would raise them in the estimation of their men, they are neither loved nor respected by them. Married officers keep entirely to themselves, such things as invitations to one another's houses being unknown, and the only occasions upon which officers meet together at all are on the days of assembly, when they are called together for the sultan's birthday or accession celebrations.

The pay of the lower ranks is as small as that of the superior officers is high. The young cavalry officer who makes a good impression on his entry into the service soon falls to pieces through want of occupation either of mind or body. The greater part of the morning and evening he sits over his coffee and cards or dominoes. There are but few newspapers, and those that do exist are so severely censored by the government that they contain little but weather statistics, gazettes and announcements of the bestowal of decorations.

What the Turkish officer really thoroughly enjoys is a gramophone. Instruments playing the waltzes and reproducing the music hall songs of all the cities of Europe are in the greatest possible request, chiefly because they make music without any personal trouble.

A PRECARIOUS EXISTENCE.

Mental Tribulations of the Superstitious Woman.

The superstitious woman started to go downtown, but found that she had forgotten something. It was hard work to get her to go back for it, but when she did sat down for a few minutes to "take the curse off" before going out again. On the sidewalk she passed a cross eyed man and had hard work to keep from spitting three times over her left shoulder. The first car that came along was No. 13. She let it go by and waited eight minutes for another. On the way downtown she remarked to a friend that she "had been in excellent health lately." Instantly she was obliged to loose her glove and rub her bare palm on the wood of the bench before her. As she and her friend were walking on Twenty-third street some thoughtless person darted between them. The superstitious woman was much disturbed and worried over the thought of a coming separation.

That night her husband upset the saltcellar. She insisted on his taking a pinch of the salt and throwing it over his shoulder. When she disrobed for the night she discovered that she had been wearing one stocking wrong side out all day. It was the sign of good luck, and it allowed her to go to bed happy. But some time in the night a dog howled dismally under her window. From that moment she has been looking for a calamity. Nothing will make her believe that there will not soon be a death in her immediate family.

When the Noise Let Up.

Two young women of stolid, common sense appearance were the sole feminine occupants of a subway car until there entered a flashily dressed girl, with face made up like a cosmetic advertisement and accompanied by a young man attired in the "extreme." The two young women eyed the newcomer with interest while they continued their conversation. The train slowed down at the next station, the rattle and bang of operation ceased and the voice of one of the young women became suddenly audible:

"If I had a face like that, do you know what I'd do? I'd hock it."

The girl with the makeup looked daggers, her escort looked foolish, the speaker looked out of the window and a dozen passengers looked as though they enjoyed it.

His Insignia.

The mayor of Z. is a self made man, and, as in the case of some others of that kind, not too much attention was paid to his early education. A little while ago a gentleman who was engaged in compiling a work on corporation regalia wrote to his worship requesting a photograph of his insignia. The mayor by return of post replied that he was only too pleased to accede to the other's wish. "But," he wrote, "instead of a mere photograph I beg to send you the genuine article." And there followed immediately underneath in good round copperplate the mayoral signature.—London Answers.

Circumstances Alter Cases.

Lady (entering breathless)—I want to stop the divorce suit! Lawyer—Why, you said your husband was an abominable, beastly brute and you wanted to be rid of him at any cost! Lady—Oh, yes; I know. But now an automobile has run over him, and I want you to start suit for damages.—Lippincott's Magazine.

He Smoked.

"What do you mean by smoking my pipe, young man?" queried the stern father of a precocious five-year-old.

"Mamma said if I teased the cat again she'd make me smoke for it," explained the little fellow, "and I teased her again."—Chicago News.

After all, it is the imponderables that move the world—heat, electricity, love.—Holmes.

BENEFITS IN DISEASE.

Typhoid, If You Pull Through, Gives You a New Stomach.

GOOD EVEN IN RHEUMATISM.

That Painful Affliction Keeps Other Miseries Out of the System and Is a Promoter of Long Life—Blessings of Colds and Smallpox.

To be struck down by disease seems a most undesirable thing, yet there are many living today in the fullest enjoyment of very excellent health who but for an attack of some disease would have lived a life of almost perpetual misery.

These people were, first of all, victims of indigestion in its worst form, and only those who have experienced it know what true indigestion is. Struck down by typhoid fever, they came through the trying ordeal cured of indigestion, for one outstanding eccentricity of typhoid is that if you pass through an attack safely it gives you a new stomach. In fact, after an attack of typhoid the victim is usually left with a stomach like an infant.

That is the grand chance offered to one who has suffered, it may be, for long years from acute indigestion. If only he takes care, after an attack of typhoid he need never know indigestion again.

Be it remembered that any one troubled with severe indigestion is not advised to go hunting around for typhoid fever. That might prove to be a disastrous course to follow.

A chronic cold is just one of those things which none of us want, yet even a chronic cold has its good points, more especially if you happen to be up in years a bit—not too old, of course. People who are up in years and who suffer from chronic bronchitis seem to get remarkably well. It keeps the blood in good circulation, for, of course, the victims have to cough, and that gives the heart a jerk and sends the blood coursing nicely through the veins and arteries.

If the cold be not too acute, old people derive considerable benefit. An acute attack, on the other hand, may cut off an old person in a day or two. It is the chronic type only which yields benefit.

Smallpox is a dreaded scourge, so much so that if it be reported that a case exists in a neighborhood a thrill passes through the whole community.

Yet those who suffer from smallpox and recover usually live to a green old age. It seems to renew life in some mysterious way by thoroughly purifying the blood.

If, however, you desire to attain to a ripe old age, you cannot get on at all without rheumatism. Consider the hosts of old folks you encounter hobbling about, grumbling all the day about their bones and joints. In all probability these old people would have been in their graves years before but for this very rheumatism.

The reason is that if rheumatism is in the system it keeps other ills out. It makes a grand fighting force and keeps most other enemies of the human frame at bay, especially those of the germ type.

Very naturally if you have such a grand friend at hand you have to pay something for aid rendered, but the pain of rheumatism, if shockingly severe at times, is not deadly, and that is why one gets so little sympathy when suffering from rheumatism.

But the plain fact is that a slight malady always benefits you, even if indirectly. As an example of that, say a very bad spell of weather comes along, cold and wet, and you contract a slight chill.

What do you propose to do? Why, to take the greatest care of yourself and make as certain as possible that your cold gets no chance of developing into anything worse. Now, did that very slight cold not make its appearance and cause you to be extremely careful of what you did there is no saying what might happen to you any day during a spell of evil, cold weather. You might have exposed yourself so much that a severe chill would have seized you, followed by inflammation of the lungs.

Accordingly a slight cold may easily save you from many worse ills.

In this way minor afflictions act as warnings that worse things are coming along, but unfortunately many persons quite neglect these warnings. A man, for example, has indigestion more or less constantly, yet pays little heed, always expecting that it will disappear one day. Now, if he had just paid attention to the matter at the beginning—heeded the warning, in short—he might not have been let in for a severe liver attack later on.

Every pain, every ache, every headache—all these are warnings that something else is on the way and will be along shortly.

An Idea of Business.

"Does your titled son-in-law know anything about business?"

"Well," answered Mr. Cumrox doubtfully, "he has had a lot of experience with promissory notes, and he knows how to get a check raised."

The Lightweight Champion.

Simpkins—You say that little man was formerly the lightweight champion? Timkins—Yes. Simkins—How did he lose the title? Timkins—Oh, he didn't lose it. He merely sold his grocery and retired.—Chicago News.

To feign a virtue is to have its opposite vice.—Hawthorne.

With further use of these pills my son was completely cured, and we do not lose an opportunity of recommending them."

Dr. Chase's Kidney-Liver Pills have the largest sale of any kidney-liver pill on the market. That's a recommendation in itself. One pill a dose; 25 cents a box, at all dealers or Edmanson, Bates & Co., Toronto.

Literary Notes.

GOLDWIN SMITH, ON "WAR."

"War" is the title of an important contribution by Professor Goldwin Smith to The Canadian Magazine for October. It has long been known that this sage observer of events is strongly opposed to war in any form. He concludes his paper as follows:

"For the writer, a look at the contents of a field-hospital, which he chanced to see after an engagement, was enough. Not all the soldiers who slay and burn are fighting for their country. Some are mere mercenaries, slaying and burning for hire. Sir John Macdonald told the writer that there had been 40,000 Canadian enlistments in the American civil war.

"That war will soon cease and give place to rational modes of settling questions between nations is more than can be hoped. But we may learn to think seriously of war as the curse it really is, and to abstain from invoking or applauding it. There need be no detraction from the honor due to the genuine soldier, who goes forth at the bidding of his country, and is responsible neither for the cause of the war nor for its inevitable consequences. But we need not cultivate militarism."

ROD AND GUN FOR NOVEMBER.

Fine diversified reading is the leading feature of the November number of "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor at Woodstock, Ont. The delights of camping, canoeing, fishing, hunting and mountaineering are dwelt upon in stories which give the added touches of personal experiences to the pleasant pictures of enjoyment each one presents. With the various departments, the wealth of material included in this number of the magazine is surprising and includes contributions that must appeal to all lovers of out-door life.

MASSASSAGA.

Some thieves entered the granery of Mr. Wesley Parliament, of Huff's Island, on the night of October 9, and stole a quantity of grain. A close watch is being kept on the barns in that vicinity at present.

A Conservative political meeting which was well attended was held in the school house here on Friday evening last. It was in every way a decided success.

Mr. James Mason is spending the fall in Manitoba with his brother-in-law Mr. Dempsey.

Rev. F. Anderson, and wife were making calls in this locality last week.

Mr. Geo. Garland and family have moved to Consecon to live.

Mrs. Geo. Pearce and Miss Kathryn Pearce, of Chicago, are visiting Miss Etta Huff for a few days.

Mr. Mabee and Miss Dancy spent Sunday in Picton.

Mr. Ernest Wallbridge has rented the farm known as the Zufelt property.

A little son has come to reside with Mr. and Mrs. E. Adams.

CHATTERTON.

The dry weather still prevails, much to the dissatisfaction of the farmers, who are trying to plough. Threshing and potato digging are all completed, there being a fair yield.

Apple picking and elections are the order of the day.

Messrs. B. Lott, Ernest Lott and Raymond Sine have left for the north on a fishing expedition.

We wish to extend congratulations to Mr. James Fargey for winning two first prizes on his fine colts at the Stirling fair, also to Mrs. Fargey for securing second prize on her butter.

The lefthand running of trains on double track is practised by two important railways in the United Stat

DOES YOUR HEAD ACHE, FROM EYE STRAIN?

A CASE IN POINT.

A gentleman in an adjoining village suffered for years with severe headaches, always commencing over right eye, gradually getting worse until he had them every day. During this time he treated with different doctors in different places. Finally he was sent to us by a leading physician of this city, for examination of his eye. After careful investigation we found nothing wrong with his vision, nor with the principal muscles usually at fault, but we discovered one of the minor muscles of the right eye to be three degrees short, causing reflex strain or pressure on the nerve centres of the brain. We had a glass ground to correct the short muscle, when all the headaches subsided almost immediately.

Geo, Badgley's Close Call at Canifton Road Ry. Crossing

His Horse Was Killed, His Rig Smashed to Kindling Wood, and Badgley Himself Had a Free Ride on the Cow-Catcher --Struck by No, 4 Express this Afternoon.

Shortly before 1 o'clock this afternoon an accident occurred at the Canifton Road G. T. R. crossing, which may result fatally. It appears that Mr. George Badgley, of Tyendinaga Township, was driving over the crossing in question. homeward bound, and did not notice the approach of the fast train from the west.

Just as the horse stepped upon the track the engine struck it with a great force hurling it quite a distance and killing it instantly. The buggy was also smashed to pieces, and Badgley in being thrown out, fell upon the cow catcher of the engine and in this manner was carried nearly to the station platform.

When taken from his perilous position it was seen that the unfortunate man had been seriously injured, and was bleeding quite freely from wounds about the head and face.

As quickly as possible a hurry call was sent for the ambulance, and Badgley was conveyed to the hospital for treatment.

It is alleged that the automatic bell at the crossing failed to give the necessary warning of the approaching train.

Eye-witnesses of the affair say that a more miraculous escape than Badgley's they never expect to see. How he escaped destruction is more than they can tell. The same thing might not occur the same way again in a thousand years.

From the hospital it is learned that Badgley's injuries, though painful, are not necessarily fatal, so far as can be seen at present.

Shakespeare As a Writer of Fiction.

Many of His Historical "Facts" Were Pure Romance--Interesting Letter from Mr. Flint.

To the Editor of The Intelligencer:

Dear Sir,—Mr. Griffith, in his lecture, made some statements interesting to lovers of Shakespeare, and to which I did not refer in yesterday's notice. It was pleasant to learn that Richard, the hump-backed monster, the blood-thirsty monarch, who filled our souls with horror and made us wonder why the judgment of God did not visit him earlier in his murderous career, was, after all, rather amiable in his disposition. That his hump was slight, and so gentle and just was his character, that, in a family council, it was unanimously agreed that Richard should be the guardian of the two young Princes; that Richard's wooing of Queen Anne when he stopped the funeral cortege on the highway on its way to bury her murdered husband occurred only in Shakespeare's vivid imagination; that Lady Anne was but six years old at the date of the supposed event, and that she did not marry Richard until a period of twelve years had intervened; that she died at a good old age, having borne Richard three sons; that the young Princes could not have been murdered in the Tower, because there is a letter in a museum in London, written by one of the Princes five years after he was smothered, according to Shakespeare. Mr. Griffith painted Lady Macbeth in the darkest colors. He challenged any one to mention one trait of womanly tenderness to be found in her character. She was the incarnation of evil, and overcome Macbeth's somewhat timid disposition. In examining the play it seems to me the criticism pronounced was just. There is just one line that betrays any tenderness or reverence. This line occurs where Lady Macbeth says she would have done the deed herself, if Duncan had not resembled her father, as he slept. Hamlet has been represented by some critics as a triple murderer, but notwithstanding that fact, he always carries the sympathy of the audience. Mr. Griffith's sympathies go out for Shylock. He thinks the "bunch" of young courtiers by whom he was surrounded were worse than Shylock, particularly, Bassanio. Modern writers frequently commit egregious blunders as well as Shakespeare, as was pointed out in a recent magazine article. I learn that the study of Shakespeare has been taken up in Albert College and in some of our schools, and I am sure all will agree in the advisability of such a course.

I am, yours,

JOHN J. B. FLINT.

Deseronto Hotel-Keeper Tried on Peculiar Charge

At Deseronto on Tuesday, before Magistrate Bedford, John Freeman, hotel-keeper, was charged under the new License Act with permitting a party to consume liquor upon his premises, when said party was under the influence of liquor. It is alleged that, on the 1st inst., a man named John McKeegan of Deseronto, was considerably under the influence of liquor and obtained more at Freeman's, and became so intoxicated that he lay out all night in a shed. The result was that in a few days McKeegan died from inflammation of the bowels, alleged to be induced by the excessive use of intoxicants. Owing to the absence of some material witnesses the case was enlarged until November 4th. Mr. Anderson, County Attorney, was prosecutor, and Mr. W. S. Herrington, K. C., appeared for the defendant. The case is exciting considerable interest in Deseronto.

Whitney Govt. Also Bought Engines From Harty's Co.'y.

Toronto, Oct. 21.—Commenting on the boast of Hon. William Harty, the Liberal candidate in Kingston, of the contracts given for the construction in that city of locomotives for the Grand Trunk Pacific Railway, Hon. Mr. Matheson, the Provincial Treasurer, pointed out that the Ontario Government railway had also procured engines in Canada. Sixteen of the locomotives of the Temiskaming and Northern Ontario Railway were bought at Kingston, ten at Montreal and two, which were second-hand, at New York.

Comes to Belleville.

Brockville Times: The engineers and firemen of the local G. T. R. shops who have had James Gibson as their foreman for the past year, will regret to hear that he has been transferred to Belleville, which is a promotion in the service. During his residence in Brockville, Mr. Gibson made many warm friends both among the railway employees and citizens. His successor is to be Harry Walker, assistant foreman at Montreal, a young and capable officer.

McINTOSH BROS

FIRES STILL RAGING.

Brockville in Midst of Blaze and Flames Are Spreading.

Brockville, Oct. 22.—Brockville is still surrounded on three sides by bush fires, which have sent dense clouds of smoke into the town and navigation is at a standstill. The latest broke out Tuesday in what was formerly known as the "back pond" district, two miles north of the town.

Montreal, Oct. 22.—Fire has ravaged Beloeil Mountain and caused several thousands of dollars damage. Mt Beloeil is about 30 miles south of here.

Montreal, Oct. 22.—Forest fires are again raging in the vicinity of Sherbrooke, and timber limits of the Canada Paper Co. and Bissell are threatened. The fire is spreading with great rapidity owing to the lack of rain and the dry condition of the herbage. Unless the fires are checked shortly indications are that the losses will be exceedingly heavy.

MIX-UP OVER LISTS.

Constables Start For North to Prevent Election Trouble.

New Liskeard, Oct. 22.—Political lightning commenced to flash here yesterday when the charge was made by the local Conservatives that the Liberal enumerators have padded the voters' lists for the unorganized districts in the neighborhood of the Transcontinental Railway. The accusation was replied to with the counter-charge that the Conservative enumerators have falsified the lists in the neighborhood of the T. & N. O. Railway.

The stories have caused quite an excitement in both political camps. Yesterday morning Provincial Detective Calbeck of the License Department, stationed in Cobalt, went north with several policemen to man the Transcontinental polling booth, and it is the intention of the organization to assist the policemen with two scrutineers each.

Made Dash For Life.

Union City, Tenn., Oct. 22.—Col. R. Z. Taylor, the aged Trenton lawyer, who was taken from a hotel at Walnut Log at the same time Capt. Quinten Rankin was lynched, Monday night, has turned up near Tipton, Tenn., having escaped from the night riders an hour after Capt. Rankin was hanged. The masked men got into a dispute among themselves as to what to do with Taylor, some favoring killing him, while others wanted to hold him so as to force a confession to the demands for free fishing on Reel Foot Lake and while the riders disputed, Taylor jumped between his guards and despite his years, dashed to the edge of a bayou leading from the lake and plunged in, swimming across. He was fired upon many times by the night riders, but escaped in the darkness. He was lost in the woods, and when daylight came was afraid to go back to Walnut Log, but was found near Tiptonville yesterday morning.

Work on G.T.P.

Calgary, Alta., Oct. 22.—Senator Melvin Jones, Toronto, has arrived here.

"How did you find conditions along the line of the new G.T.P.?" he was asked.

"Grain is being shipped out of the country all along the line. About every six miles or so there is a railway siding, where farmers are loading cars with grain. This has been the most interesting spectacle, and one wonders where all the grain comes from. I made a memorandum of the elevators that have been built, and I find that there are already forty-four elevators between Hart and Wainwright and one between Hart and Winnipeg, a distance of 106 miles. This makes a total of forty-five elevators, and many others are in course of construction. Towns are springing up with wonderful rapidity all along the G.T.P. line."

Togo's Garden Party.

Tokio, Oct. 22.—Two official luncheons, Admiral Togo's magnificent garden party, a dinner given by Premier Katsura, and a ball at his residence were the principal features among the innumerable lavish entertainments offered the officers and men of the U.S. battleship fleet yesterday.

The garden fete at which Admiral Togo was host was one of the most elaborate functions of its kind ever seen in Tokio. It was held in the grounds of the Shinjuki Imperial gardens, which are the property of the Empress. The invitations numbered 1,500, and the guests included all the American officers of higher rank and Japanese from every walk of life.

Swindled the Boys.

Montreal, Oct. 22.—A swindler by the name of H. Melbourne has operated here and departed after fleecing about 35 boys out of $5 each.

Melbourne said that he was manager of a new Canadian Messenger Co. His plan was to advertise for messenger boys, and after engaging them to take them to a clothing house and have them measured for a suit, costing $15. In order to show their good faith the boys, or their parents, had to deposit $5. With this money he left the city.

To Talk All-Red Route.

Montreal, Oct. 22.—Mr. G. B. Hunter, a member of a big Newcastle shipbuilding firm, who was here interviewing the Government some time ago in connection with the all-red route scheme, arrived in Montreal from England yesterday. It is understood that Mr. Hunter is here to further promote the interests of the all-red project, and that he will discuss the matter with the Canadian authorities. It is said that an important announcement is probable after the elections.

Politics In This.

Ottawa, Oct. 22.—Robert Fleming, a contractor of Arnprior, has sworn an affidavit that he has been prevented from getting work at the wharf there because he is a Conservative.

He states in the affidavit that A. Kerr, the superintendent of the work, told him after the work had been arranged for that he would lose his job if he gave him the contract.

ASQUITH OFFERS HELP

Premier Proposes Relief For England's Unemployed.

Increase of Fund and Increase of Work on Shipbuilding Is All He Can Offer This Year to Ameliorate Industrial Conditions — Will Provide Million and a Half Dollars and Rush Work on Navy.

London, Oct. 22.—The very serious matter of the unemployed in England came up for discussion in the House of Commons yesterday afternoon, but a larger dole of money than last year and the expediting of the naval shipbuilding program were the only expedients proposed by Premier Asquith in his unfolding of the Government's plan to meet the situation.

The gravity of the case arising from the fact that hundreds of thousands are on the verge of starvation through lack of work, was fully recognized by the Premier, but he said he could not undertake, in the legislative field, to grapple with the permanent causes thereof until the next session.

The Government, he said, was prepared to provide a fund of $1,500,000 to help the unemployed and the admiralty was giving out orders for the construction of nine torpedo boat destroyers and five unarmored cruisers, to cost a total of $12,500,000, two months earlier than originally had been intended.

The Premier made also a bid for recruits, saying that the War Office was ready to take on 24,000 men for winter training in the special reserves.

These proposals quite fail to meet the demands of the Labor members of the House.

TELEGRAPHIC BRIEFS.

Three earthquake shocks were felt at Manila.

The Hungarian Mills elevator at Denver was burned. Loss $450,000.

Five men were killed by an explosion of dynamite on the Panama Canal.

Hon. James Duff addressed a meeting for Haughton Lennox at Barrie last night.

The explosion of bombs to produce rain in the Adirondacks has been suggested to the first fire-fighter.

Roosevelt his written a letter to U. S. Senator Knox, endorsing the latter's strictures on Samuel Gompers.

Chairman Hitchcock of the Republican national committee declares New York State absolutely safe on the state and national tickets.

English Girl Deported.

New York, Oct. 22.—Abundantly supplied with money and jewelry, Miss Ray Bucey, an attractive English girl who said she was presented to the court of King Edward last season, was sent back to England yesterday on the Mauretania. Miss Bucey arrived here last Friday on the same steamer and among her fellow passengers was J. H. Alport. Upon receipt of a cablegram from Alport's father, the immigration authorities detained the young man to await the Government's decision in the case and sent the young woman back home. Miss Bucey was indignant at her treatment, which she characterized as outrageous.

Captain Crazed, Calls For Sailor.

Huntington, N.Y., Oct. 22.—Wandering about the shore shouting the name of John Murphy, a missing sailor, Capt. John Darm, of the steamer Eclipse of Bridgeport, Conn., was found yesterday apparently half crazed with excitement. His little vessel was found high on the beach three miles away. Whether the crew drowned or landed from the schooner Capt. Darm seemed not to know. Capt. Darm was taken into custody and examined by a physician, who said the officer was suffering from some mental trouble brought on by excitement.

Quarrelled; Both Dead.

Cranesville, W.Va., Oct. 22.—Two brothers who engaged in a dispute over the distribution of the large estate left by their father, are dead, each having inflicted a fatal wound on the other. The brothers were Joseph and Thomas Mattingly, aged 38 and 35 years respectively, and among the most prosperous farmers of Prescott County.

Joseph stabbed Thomas. The latter staggered to the house, where he secured a shotgun and returned to the scene and fired a shot at Joseph.

Dangers of Campaigning.

Nelson, B.C., Oct. 22.—J. A. MacDonald, K.C., had a narrow escape from death at Trail. He went to address a political meeting there and got off the train in the dark at the wrong crossing. He was thrown back almost under the wheels, but was saved by falling against the lower step of the car.

A party of Rosslanders were driving to Trail to attend the same political meeting and their carriage went over a 30-foot embankment.

Two Drop Out.

Montreal, Oct. 22.—Two candidates who were nominated on Monday have already retired. Lachapelle, Independent in L'Assomption, is out, and in the County of Richelieu, H. Beauchemin, nominated as an Independent Liberal, has retired. In L'Assomption Dr. R. Laurier, ex-M.P., is still in the field, making the result doubtful.

Shot In Street.

Dadeville, Ala., Oct. 22.—Jack Henderson, a farmer of Tallapoosa County, was shot and killed on the public square here Tuesday night by J. Fletcher Turner, representative in the lower house of the Legislature from this county. The shooting is believed to have been the result of an old feud between the two men.

Milk Goes Up a Cent at Kingston.

Kingston, Ont., Oct. 22.—The price of milk has been raised from five to six cents a quart in this city.

CHICAGO, Oct. 21.—Cattle—Receipts, 22,000; market, steady; steers, $4.40 to $7.60; cows, $3.25 to $5.25; heifers, $3 to $4.25; bulls, $2.50 to $4.50; calves, $3.50 to $8.50; stockers and feeders, $2.60 to $4.65.

Hogs—Receipts, 30,000; market, 5c to 10c higher; choice heavy shipping, $5.85 to $6; butchers', $5.85 to $6; light mixed, $5.15 to $5.40; choice light, $5.40 to $5.60; mixed packing, $5.50 to $5.70; heavy packing, $5.60 to $5.75; pigs, $3.50 to $4.75; bulk of sales, $5.35 to $5.75.

Sheep—Receipts, 24,000; market slow and steady; sheep, $3.50 to $4.45; lambs, $4 to $5.75; yearlings, $3.85 to $5.

The Shadow of the East.

London, Oct. 22.—(C.A.P.)—A Wellington New Zealand, cable says Premier Ward, addressing a meeting, condemned the attempts to create a spirit of militarism in New Zealand. It was necessary that the volunteer system should be able to do what the Imperial authorities suggested—repel a raid if one should occur.

"The shadow of the east is over Australia," said Ward, "and we are not far away from her. Australians are preaching the doctrine that Australia has no need to do this. In New Zealand we are determined it shall be so."

'Varsity's Share.

Toronto, Oct. 22.—A sum of $339,838.15 is the university's share of the provincial funds for 1908. Hon. A. J. Matheson, Provincial Treasurer, sent a check for $211,116.22 yesterday to the board of governors, which, with $178,721.93 sent for the first half of the year, makes a total of $87,871.05 in excess of last year's contribution. Another $211,116 will be sent for the first half of 1909.

Harvesters Attack Conductor.

Winnipeg, Oct. 22.—A number of eastern harvesters boarded a C.P.R. branch train for Winnipeg Tuesday, and, refusing to give fares, knocked the conductor down and kicked him. On arrival here two of the ringleaders, Samuel Knox and Herbert Henderson, were arrested, and later remanded until the conductor had recovered sufficiently to testify against them.

Scattered Over a Mile.

St. John, N.B., Oct. 22.—An unknown tramp was crushed to death under the Boston express at Grand Bay Tuesday night by falling from the blind baggage on which he and a companion had been stealing a ride. Portions of the man's body were scattered for a mile along the track.

Farmer's Buildings All Destroyed.

Peterboro, Oct. 22.—By fire starting at the top of a large straw stack near one of his barns, Mr. W. J. Young, a farmer living near this city, lost this year's harvest, three barns and his residence, and was slightly burned himself in trying to lead a horse out of the burning stable.

BETTER NEWS SERVICE

Lord Northcliffe Would Like to See More British News Here.

Alfred Harmsworth, the Great English Journalist, In Toronto Gives Interview In Which He Says That Synopsis of London Times Should Be Cabled to Canada—Paper Famine Will Make Smaller Newspapers

Toronto, Oct. 23.—Lord Northcliffe, principal proprietor of The London Times and Daily Mail, and head of the leading magazine proprietary of England, arrived in Toronto yesterday afternoon. He is staying at the King Edward and will remain until after the elections on Monday, the result of which interests him, in common, he declares, with the whole British nation.

He is also concerned about a very bright and patriotic idea in the newspaper field.

Lord Northcliffe thinks that a daily summary of The London Times, which is quite non-partisan in its news, would furnish an ideal supply to Canada. The cost could be distributed among the subscribing papers, and there would be no profits accruing to anyone. The five hours' difference in time would give ample opportunity to prepare a thoroughly good precis, and this being done by a capable Canadian should appeal to Canadian readers.

LORD NORTHCLIFFE.

The cost, North Northcliffe thought, would prevent more than 300 words a day being sent, but he fancied that something might be done with the Marconi service. A column a day, or 1,000 words, was suggested to him as desirable.

Lord Northcliffe talked about the destruction of pulp wood limits by fire and the growing scarcity of paper, and expressed the conviction that smaller newspapers were inevitable. He instanced the eight-page Paris edition of The Daily Mail as showing what could be done in giving all the news in brief a problem to this proprietor of fifty limits. The paper supply was clearly publications.

Yerkes' Mansion to Be Sold.

New York, Oct. 23.—The handsome Yerkes' mansion at Fifth avenue and 68th street, which, with its paintings and art treasures would, it was generally believed, eventually pass into the control of the Metropolitan Museum of Art, may be sold at foreclosure.

Preferred Death to Trial.

New York, Oct. 23.—Rather than face trial for manslaughter, growing out of a case of alleged criminal practice, Dr. Irving J. Cook, a young doctor of this city, drank a dose of poison and shot himself at the Waldrof-Astoria Hotel yesterday.

KITCHENER MAY VISIT.

Report Current That He Will Return Home via United States.

Vancouver, B.C., Oct. 23.—The World publishes the following as a Calcutta, India, cable:

Upon the completion of his term of service as military commander in India, Gen. Lord Kitchener has announced that he will return home to England by way of the United States.

"It is my desire," said the general, "to see Canada and the United States, the countries and their people, that prompts me to include them in my itinerary."

Lord Kitchener will also visit China and Japan on the way, possibly traveling through Australia and New Zealand.

An immense volume of correspondence is pouring in upon the general from England urging him to take up a reorganization of the British War Office. There is no doubt but that he would be appointed to the post if he wished to accept the position.

TELEGRAPHIC BRIEFS.

Navigation on the St. Lawrence is impeded by smoke.

The town hall and several other buildings were destroyed at O'Leary, P.E.I.

John Jocko, an Indian boy, aged 14, was thrown from a horse near Cornwall and killed.

The 102nd anniversary of the founding of Princeton University was observed yesterday with appropriate exercises.

While painting William Honsberger's barn near St. Catharines a painter named Hamilton fell and was instantly killed.

Serious floods prevail through portions of Central and Northern Oklahoma, the result of three days' steady downpour of rain.

Harry Summerhays, a Bell telephone lineman, fell from a pole at Brantford. He lit on a shed and was not seriously injured.

The Empress of Britain clipped 26 minutes off her record, arriving at Quebec after a passage of 5 days, 30 minutes and 28 seconds.

The Aero Club of France has decided to organize a big aeroplane meeting in the autumn of 1909, when the "Grand Prix D'Aviation" will be competed for.

A two months' old boy baby was abandoned near the Frontenac Club, Kingston. The child was sent to the Infants' Home, and the police will seek to locate the mother.

The trustees of Thousand Island Park Association have adopted a resolution that from next spring every owner of a launch at Thousand Island Park will be compelled to have his boat equipped with mufflers, to smother the noise, as they declared the "pop-pop" of the launches to be one of the greatest nuisances.

Voice to Be Heard.

New York, Oct. 23.—Although Ira D. Sankey, evangelist, song writer and singer, has been dead for several months, members of the Simpson Methodist Episcopal Church, Clermont and Willoughby avenues, Brooklyn, will hear his voice again next Sunday evening, when from a large phonograph on the pulpit platform they will listen to "The Ninety and Nine," and others of his widely-known hymns.

Mr. Sankey spent many of his last hours singing into a receiver the hymns which had moved audiences at Moody and Sankey meetings all over the world.

A Detective Arrested.

Hamilton, Oct. 23.—William Huckle, who styles himself as chief of the International Private Detective Agency, was arrested yesterday on a charge of blackmail and extortion. The complainant is George Ireland, North Wentworth street, who says that the detective claimed that he had obtained evidence against him on a charge of criminal assault, but would not take any action if Ireland paid $10. Ireland paid over the money, he says. Huckle has made insinuations that he could reveal some interesting things about the local police.

Fish a Sacrifice to Fires.

Malone, N.Y., Oct. 23.—Sportsmen have just discovered that the forest fires in the Adirondacks have worked havoc among the trout with which many streams throughout the burned section are well stocked. Thousands of dead trout have been found in the bottoms and along the edges of the streams, and it is believed they have been killed by impurities in the water caused by ashes or smoke.

Dies From Thresher Injuries.

London, Ont., Oct. 23.—Henry Steeper, the McGillivray Township thresher who was so badly injured by being drawn into a threshing machine, died of his injuries Wednesday night. His arm was torn from the socket and his body terribly bruised. He never regained consciousness.

Sues Editor Of The Globe.

Hon. George E. Foster Claims $150,000 For Slander.

One Writ for $50,000 is Issued Against Rev. J. A. Macdonald and Another Against The Globe Co. for Libel Will be Issued To-day—Is Reply to Mr. Macdonald's Charges in Speech at Orillia.

Toronto, Oct. 23.—A writ claiming $50,000 damages for slander against Rev. J. A. Macdonald, editor of The Globe, has been issued on behalf of Hon. G. E. Foster.

Formal notice that writ for libel will issue was served on The Globe yesterday. The writ will name $100,000 as the amount claimed.

This is Hon. G. E. Foster's reply to Mr. Macdonald for having at Orillia on Tuesday night used pretty strong language in referring to Mr. Foster's business relationship with the Union Trust Co., in the matter of commissions, and to The Globe for publishing the same.

Mr. Macdonald was not in the city yesterday, but the writ was placed in the sheriff's hands for service today. The writ was issued by Kingsmill, Hellmuth, Saunders & Torrance.

"The action is quite a personal matter and is entirely aside from politics," said Hon. Mr. Foster yesterday.

The same firm of solicitors is also enquiring into the printed matter which has been put into circulation by various printing companies, and if examination warrants and if the law allows it, these will be prosecuted to the extreme limit of the law for circulating libelous statements.

It is also contemplated to issue a writ against W. H. Shaw for damages for defamation of character in connection with the anonymous letter which Mr. Shaw then read, containing allegations against Mr. Foster which Mr. Piggott of Chatham and others interested have promptly denied.

Brockville, Oct. 23.—At last night's reception to Hon. G. R. Graham, Rev. J. A. Macdonald, editor of The Globe, said he had just been informed that Hon. G. E. Foster had entered an action against himself and The Globe for libel.

He then went on and repeated the charges again, and said he was prepared to prove them on the platform and in the courts.

Season's Crop Burned.

Woodstock, Oct. 23.—Fire, starting presumably from a spark from a threshing engine, broke out in the large barn of Robert Stewart, two miles south of Bennington on the second concession of West Zora. The building was razed to the ground and its contents completely destroyed. The threshing outfit belonged to Robert Gunn of Embro. Stewart's crop had been threshed and the separator and engine were being removed. A large number of hens were also consumed. One thousand bushels of oats and about 150 bushels of peas were burned up. A number of implements were also destroyed.

Gas Overcomes Woman.

St. Catharines, Oct. 23.—A serious case of asphyxiation occurred Wednesday on Henrietta street, when Miss Henrietta Hainer, who resides alone was overcome by coal gas. Her brother-in-law, Mr. Henry Shickluna, was buried the same afternoon and she was expected at the funeral. When she did not arrive a messenger was sent to her home across the canal and found her lying on the floor in an unconscious condition and the house permeated with gas. She was removed to a neighbor's house, and later recovered.

Women to Go to Prison.

London, Oct. 23.—Seventeen of the women suffragists who were arrested Oct. 13 during the storming of the House of Commons on charges of disorderly conduct were yesterday sentenced in the Bow street Police Court to terms of imprisonment varying from three weeks to three months.

The women were offered the alternative of giving bonds for their good behavior, but they elected to go to jail.

Girl Shoots Her Seducer.

Chicago, Oct. 23.—Jenny Dempsey, 18 years of age, yesterday shot and probably fatally wounded Jos. Georgeopolis. The young woman hysterically declared, when arrested, that her life had been wrecked by the perfidy of Georgeopolis.

Miss Dempsey entered the fruit store where the young Greek was employed.

His Politics a Boomerang.

Windsor, Oct. 23.—Jno. Ross started to make a political canvass among railway employes in the Grand Trunk yards here and became so enthusiastic that he tired himself out. He lay down on the track and was saved from death by the alertness of the engineer of a yard engine. Ross was later arrested and fined $7.50.

Not Making Rash Promises.

London, Oct. 23.—(C. A. P.)—The Standard has received a number of letters from towns in Canada complaining that the Dominion is overcrowded and attacking the transportation companies. "On enquiry," says The Standard, "we have no hesitation in saying that the Canadian Government and the various transportation companies are acting squarely by the British emigrant and holding out no rash inducements."

To Coax Rain by Bombs.

Utica, N.Y., Oct. 23.—Prof. Carl E. Meyers of Frankfort, a suburb of this city, is going to pluck a rainstorm from the skies that the forest fires may be extinguished. Mr. Meyer is a veteran balloonist and aeronautical engineer, and down in Texas some years ago produced rain that spread over several states. His plan is to send up into the sky a big balloon filled with gases, which he explodes with an electric spark.

Found Dead In a Car.

Buffalo, Oct. 23.—The body of a negro was found in a freight car, opened here yesterday. Death was due to starvation and thirst.

The car was shipped from Pine Bluffs, Ark., on Oct. 2, and had been rebilled from St. Louis, Mo., but was not opened at the latter place. In the car was a consignment of goods for Providence, R.I.

Removal of Salmon Embargo.

London, Oct. 23.—(C.A.P.)—A Paris deputation of tradesmen, consumers and marketmen interviewed the Minister of Commerce, with the object of securing the removal of the embargo on the importation of frozen salmon. The Minister said he had no objection provided the river fishery commission was unopposed to the abrogation.

Earth Shocks In Saxony.

Plauen, Saxony, Oct. 23.—Thirty earthquake shocks were experienced in the Zwickau Region Wednesday. They were accompanied by thunder like reverberations.

There was another severe shock yesterday.

Ottawa Is Growing.

Ottawa, Oct. 23.—The assessment returns of Ottawa show that the capital city's population has now passed the assessors as 80,284. This means a gain in two years of 12,000 and a gain in the last 12 months of 4,026.

The total assessment, exclusive of Government property, amounts to $50,863,200, which is an advance of $6,086,785 over last year. Of the increased assessment about $1,100,000 arises from the taxation of civil servants' salaries, the salaries of the Cabinet Ministers and of the members of Parliament who make their homes here.

Tokio's Tribute to Fleet.

Tokio, Oct. 23.—The reception to the officers and men of the American battleship fleet reached a climax last night in a spontaneous outburst of enthusiasm, in which 50,000 of the populace participated.

A torchlight procession, arranged as a surprise, was the concluding feature of the day. In the line were dozens of bands of music and a corps of buglers from the Japanese army and naval stations. The bands united in playing the American National Hymn again and again.

Defeat Three-Cent Fares.

Cleveland, O., Oct. 23.—The franchise under which the Municipal Traction Co. is operating the local street railway lines upon a three-cent fare basis was defeated by a majority of 951 in the referendum vote here yesterday. The total vote cast was upwards of 75,000.

The defeat of the franchise may mean that the railway property will revert to its original owners, and that the old rate of fare strife, which lasted seven years, will be renewed.

Alien Had to Go.

Ottawa, Oct. 23.—Because he was an alien, viewed from the standpoint of the United States Government, A. W. Graham, well-known in Ottawa as a former master in the Ottawa Collegiate Institute, was obliged to resign a lucrative position on the Panama Canal, and is again in the capital, having been re-appointed to the collegiate staff. In an interview Mr. Graham expressed the opinion that the Panama Canal would be completed with the next ten years.

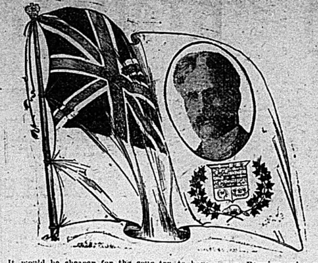
THE INTELLIGENCER BINDERY

[illegible] and all descriptions of Blank Account Books



It would be cheaper for the country to have a new Premier and a New Government, than let Laurier have another five years to clean up. Let Laurier's work be finished now.

Daily Intelligencer.

THE CALENDAR.

297 days past: days to come, 69.

OCTOBER

23

Friday

A fault which humbles a man is of more use to him than a good action which puffs him up with pride. —Thomas Wilson.

THIS DAY IN HISTORY.

Battle of Edgehill, 1642.
Sir Michael Hicks Beach born, 1837.
Immigrants die of fever at Montreal, 1847.

TIMELY TOPICS.

Dry? Of course it's dry. How could it be anything else with Grit orators making speeches all over the country!

• • •

The Globe is now as sure of Laurier's return as it was that ashes would burn a year or so ago. The latter turned out to be a laughable fake. See what the people will do to the Globe's friends on Monday.

• • •

Foster is suing the Globe for $150,000 for libel. And if he gets the money he won't need to care whether coal ashes will burn or not.

• • •

Cheer up. It will soon be time to talk about the Ward system.

• • •

Hickory nuts are plentiful this year, which proves that we'll have a hard winter. P. S.—A short crop of hickory nuts would prove the same thing. However, get your coal in before you have to shovel a road for the coal delivery man.

• • •

Bets are being made that Mr. Northrup's majority in East Hastings will be as big as Mr. Porter's in the West. Which shows that, in both Ridings, they will need snow shovels to find the Grit candidates next Tuesday morning.

• • •

Railway corporations are said to be grasping, but look at the Grand Trunk. They're not going to charge that Tyendinaga farmer a cent for the ride he had on the cow-catcher yesterday!

• • •

An esteemed contemporary, which prints it this way: "O, for the touch of a vanquished hand," must have been playing draw poker.

• • •

Does anyone know whether those beautiful red letter boxes, which ornament our streets, were made in Yankeeland, like the rural mail delivery boxes were? Quite likely.

• • •

The fact, of course, that hundreds of good Canadian moulders are walking the streets in Hamilton, Toronto and other places made no difference. The Grits dearly love to spend the country's money across the line.

• • •

The great question for the average man is, Will a change of Government put more change in my pockets? And that question can safely be answered in the affirmative. Good times always follow the advent of a new Government to power.

• • •

So it was in 1878. So it was in 1896. The history of Canada proves this. Laurier has been in power for 12 years; has passed his zenith and fallen into the hands and power of the grafters. Now it is time for a new man, backed by virile colleagues, to be given a chance. And the chance will come after next Monday.

• • •

If one-half that is said to have been done in stuffing the lists with bogus names in New Ontario is true, no Conservative will be elected. Election frauds and election villainy in the Grit ranks has been reduced to a science. Yet no punishment seems to follow.

• • •

Electors in the East Riding of Hastings, keep a constant eye on the "grey mare," and he who drives her: particularly in the wee sma' hours.

• • •

A telegram from London says:—"Postmaster-General Buxton states that he invited Canada and Australia to participate in an Imperial postal order system, but he is sorry to say neither has yet agreed to adopt it." It will be interesting to know why Canada has not accepted.

• • •

The inaugurating of a system of partial rural postal delivery, that, too, after voting against it only a short time ago in Parliament, on the eve of a general election, is one of the most bare-faced acts of public bribery that ever disgraced a country. It will be observed, also, that so far it is only in what are considered close constituencies that the attempt has been made. If there is any independence left in the people they will resent it.

• • •

It is difficult to contemplete greater political dishonesty than the constant reference by the Toronto Globe to the leader of the Opposition receiving an honorarium from the country as such leader. Every one who has any knowledge of constitutional Government knows that no grant of money can be voted by Parliament unless recommended, with the approval of the Governor-General first being had, by the Government of the day, and as the Laurier Government established the principle of paying the leader of an Opposition, it is at them the sneering and condemnation should be levelled. The Globe does not appear to realize its position, that whenever it refers to the subject it aims a blow at its idolized leader or, knowing it, presumes upon the ignorance of its readers.

• • •

Mr. McCargar will, it is said, get the "quiet vote" in East Hastings. He will, sure. And he'll get it where little Mary wore the beads.

• • •

Hooray! The campaign cigar will soon finish its work.

• • •

A Tweed milkman's horse got lost in the fog. It was so thick he couldn't even see the pump.

• • •

The Montreal Star is inveighing against personalities. The Star doesn't like personalities since one Dalby (once editor of the Star) made use of a few against Hugh Graham.

• • •

We wouldn't like to charge the Grits with throwing that train off the track so that Mr. Porter couldn't get here in time for the meeting last night, but the whole thing looks suspicious to us.

• • •

Borden for Premier and Better Government.

DR. A. W. CHASE'S CATARRH CURE ... 25c. is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

Clergyman Tells of Sleeping Shepherds.

The leader was guilty who connived at corruption. He was like the shepherd who went to sleep and allowed another to murder the sheep. The leaders were to blame, who with their tongues and their pens in the newspapers lowered the ideals of the people with sneers, defamations and pharisaical flattery of their own side. There were great men in Canada whose fame was dropping from them decade by decade. They would be less honored in future even than they were now. They would be pointed at as great and powerful, but not for their purity. There were statutes in Canada which were already the subject of scorn. They were not handicapped with corrupt politics in Britain, their brother British nation, Australia, was miles ahead of them in this respect, and the United States, to which they had often said, "Thank God I am not as thou," had no such evil in their federal politics, he was not referring to municipal politics—Rev. J. W. Macmillan, of St. Andrew's church, Winnipeg.

A BAPTIST ELDER.

RESTORED TO HEALTH BY VINOL

"I was run down and weak from indigestion and general debility, also suffered from vertigo. I saw a cod liver preparation called Vinol advertised and decided to give it a trial, and the results were most gratifying. After taking two bottles I regained my strength and am now feeling unusually well." Henry Cunningham, Elder Baptist Church, Kingston, N. C.

Vinol is not a patent medicine—but a preparation composed of the medicinal elements of cods' livers, combined with a tonic iron and wine. Vinol creates a hearty appetite, tones up the organs of digestion and makes rich, red blood. In this natural manner, Vinol creates strength for the run-down, over-worked and debilitated, and for delicate children and old people. For chronic coughs, colds and bronchitis Vinol is unexcelled.

All such persons in this vicinity are asked to try Vinol on our offer to refund their money if it fails to give satisfaction.

J. S. McKeown, Belleville.

Bon Voyage.

Mr. Arthur Bird, who leaves on Monday next for Toronto, was made the recipient of a beautiful briar pipe, as a token of remembrance, by the members of the "D.G." club last evening. An informal gathering occurred in the Bugle Band Rooms, when speeches, laudatory of the character and worth of Mr. Bird, were delivered by shoe dealers, lawyers and others, and a most enjoyable time was spent. The Intelligencer wishes him every success.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

Mrs. Broadworth Buried.

The funeral of the late Mrs. Broadworth took place yesterday, from her late residence, Halloway, and was largely attended. Rev. G. R. Beamish, of this city, took charge of the service. Interment took place in Foxboro cemetery. The bearers were Dr. Harrison, Madoc; Dr. J. A. Faulkner, Foxboro; Messrs. Turner, Seantlebury, Lynn, Barker.

SPORTS AND PASTIMES.

SPORTING NOTES.

Alf. Shrubb is in Montreal and wants to run around the fifteen-mile course of the Independent Harrier League, used for their race on Saturday, an hour and a half after the race has actually taken place. It has been announced that Saturday's is to be the last race of Tom Longboat, the Irish-Canadian runner, and Shrubb, who is retiring from active athletics this year also, says he is anxious to settle once and for all the question of Longboat's superiority to himself. Flanagan, Longboat's manager, says he will prevent Shrubb from running, but it is hard to see how. The King's highway is not Flanagan's property.

Conservative Rally On Saturday Night

Owing to the fact that Mr. Porter, the Conservative Candidate, was detained by a wreck on the C.O.R., he was unable to be present at the meeting called for last night. Therefore it has been decided to hold the final

CONSERVATIVE RALLY ON SATURDAY NIGHT.

In the

City Hall at 7.30 p.m.

Bright Conservative orators will address the meeting, and no pains will be spared to make this a fitting close to a victorious campaign.

God Save The King.

COMMITTEE MEETINGS TO-NIGHT

The different chairman and secretaries of the various Conservative Ward Committees are requested to meet at the Central Committee Rooms Front st., to-night at 8 o'clock, and to bring their scrutineers with them. This is urgent.

A meeting will be held to-night at 8 o'clock, in the Bleecker ward committee room, at which a good attendance is requested. Matters of importance will come up, and addresses will be made by bright speakers.

To Polish Copper.

When there is no time to polish the copper in the regular way, an emergency shine may be quickly imparted in the following manner: Mix a cup of flour, a tablespoonful of salt and a cup of vinegar to a smooth paste and after dipping the article to be cleaned in hot water apply the mixture quickly and carefully with a soft cloth. Then wash in hot suds and polish with a dry cloth. Alcohol on a soft cloth is also a quick cleaner of copper.

Public Baths.

The first public bath in England for hot bathing purposes was opened in 1679.

A White City.

All of the buildings in Valetta, the capital of the island of Malta, are of white stone. There being no smoke or fog to discolor them, they are as fresh and clean now as when they were erected.

To Make Them Smart.

"Mr. Pedagog is an oldtime teacher. He believes in the rod to brighten up dull boys."

"Well, isn't that the natural way to make them smart?"

The Burned Church.

Jim (regarding damage to church by fire)—Good job it wasn't a factory, Bill. Bill—You're right, mate. Only one man put out of work, and he draws his money.—Punch.

The Rule of Three.

Stella—What is the rule of three?

Bella—That one ought to go home.—New York Sun.

THE WEATHER.

TO-DAY'S PROBS.

Easterly winds, fair, not much change in temperature. Saturday about the same temperature.

One of the largest shipments of Fruit, by express that we have ever received came to hand to-day consisting of PEACHES PLUMS and GRAPES.

Special low prices to-day.

JAS. WALLACE & CO

Did It Ever Occur to You

That children of bright parents are not naturally stupid. And yet how many of them have an aversion to their books and lessons on account of their near vision being painful. If their distant vision is bad, blackboard instructions are a mist. In justice to your children be sure their vision is the best possible.

Have our expert Optician examine their eyes, he will take every interest in their case, and it is the BEST examination to be had in the city.

Daily Intelligencer.

Corruption Charges.

Such is the flaming heading of a telegram from Ottawa, stating "that information had been received at Ottawa of an elaborate plan for winning a number of constituencies in central Ontario for the Conservatives by means of criminal practises," and that the Dominion Police Force was to be sent to arrest the offenders.

That such information may have been sent is not improbable, but that it is true is quite improbable. We venture the opinion that it is a LIE of the first water, sent out to counterbalance the frauds which have been attempted and in some cases perpetrated in Algoma and other western constituencies.

There is no such organization in central Ontario among the Conservatives; it is only among the Cap. Sullivan and Minnie M. people, who are now operating in New Ontario, that such villainous organizations have existed and still exist.

If the "investigation" hinted at be made let it be thorough, but not confined to the one-party, and where guilt is found let the party or parties be punished to the fullest extent.

EYE STRAIN HEADACHES.

MANITOBA LADY TELLS HOW HEADACHES DISAPPEARED WITH THE USE OF DR. A. W. CHASE'S NERVE FOOD.

Women who use their eyes much for reading or fine needlework are sure to find eye-strain and nervous, sick headaches among the first symptoms when the nervous system gets run down.

As a positive cure for headaches, not mere relief, but cure, Dr. A. W. Chase's Nerve Food stands without a rival because it gets at the cause of the trouble and builds up the nervous system to health and strength.

Mrs. Geo. Fuller, Lakeland, Man., writes: "Dr. Chase's Nerve Food cured me of nervous headache, from which I was a great sufferer, and I am no longer troubled with twitchings of the nerves in the arms and legs."

The portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box. 50 cents, at all dealers, or Edmanson, Bates & Co., Toronto.

Dr. A. W. Chase's Nerve Food

When to Pick Apples.

"Let apples hang on the trees just about as long as they will hang there without getting mellow. When an apple ceases to grow it is going to loosen at the stem and drop. As long as an apple is growing it takes on a better quality. It has been proved that that apple will keep longer than one which is picked before it matures. That is what we want. We have been making two pickings and sometimes as many as three pickings. It will pay to pick over your apple tree twice, because you can go in that orchard and find some apples riper than others, some varieties ripen more unevenly than others. It will pay to pick only the ripe apples and leave the green ones on the trees, and let them grow ten days or two weeks, or even three weeks. You will find some apples ripen quicker than others on the same tree. We go over them and pick up the ripest and largest and leave all the little green ones on the tree. Then, when we come to pick them we find apples there almost as good as the first picking. You find it is the same way with peaches, do you not? With summer apples it is just the same way. I know several people who began this practice, and they will not any more think of picking all the apples at one time now than the peach-growers in the Niagara district would think of picking all their peaches at one time.—U. T. Cox, in Fruit Grower.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

It's no use fussing about keeping the faith if you cannot keep your friends.

PERSONAL AND SOCIAL.

Mrs. Arthur McGie has gone to Tweed for the week-end.

Rev. Mr. Blagrave is much improved in health and will return to the city on Saturday.

Mrs. H. Livingston McAllister, daughter of Prof. and Mrs. D. R. Coleman, has returned home to New York City.

Mrs. A. E. Bailey has returned home from a visit to Napinka, Man., accompanied by her niece, Miss Kathleen Herity, of the same place.

Tweed News: Mr. and Mrs. Wm. Leal and daughter, Alice, of Belleville, who have been spending a few days in town with friends, returned to their home yesterday.

At the Quinte: R. A. Dickson, W. A. Griffiths, R. S. Thompson, W. J. Rockrill, W. E. Young, O. W. Henderson, H. E. Watkins, W. Cooke, C. C. Hall, H. Dale, W. G. Paynes, T. J. Whitlaw, V. A. Scott, J. A. Erskine, J. W. Wilkinson, G. T. Finch, J. Eisman, S. C. Thompson, A. O. Secord, F. M. Cole, F. R. B. DeGuerre, Toronto; L. A. Whitely, C. R. Woodburn, H. R. McLennan, H. S. Kidder, F. S. Moodie, Montreal; F. Shannon, Hamilton; J. A. Cameron, Peterboro; J. S. Spaulding, Boston; R. T. Gillespie, Mrs. Job Lingham, Belleville; C. de Carteret, Kingston; A. H. Creeggan, Deseronto; H. White, Buffalo; A. T. Hicks, Trenton; A. H. Jardine, Hespeler; R. A. Downey, Oswego; Miss S. Martin, Rochester; A. Myles, St. John, N.B.; C. Corby, New York.

Political Pointers.

WHY MR. PORTER WAS NOT PRESENT LAST NIGHT.

Great disappointment was expressed last night when the absence of Mr. Porter, the popular Conservative candidate, was noted at the Conservative committee rooms. A meeting had been advertised, and the stalwarts turned out in large numbers. The rooms were crowded. Mr. Porter, who had been out in North Hastings, was to have reached this city at 6 p.m., in ample time for the meeting, but, once more, "the best laid plans o' mice and men," etc. There was a bad wreck on the C.O.R., near L'Amable Station; seven cars loaded with ore left the track and traffic was delayed for several hours. Fortunately no one was hurt. The upshot, of the matter, however, was that Mr. Porter did not reach Trenton till 11 o'clock last night, whereas he should have reached there in the afternoon. Naturally he feels keen regret at the occurrence and the disappointment of his many friends and supporters in this city, something, for which, of course, he is in no way responsible. So it is now up to all Conservatives to be at the City Hall on Saturday night, and help to finish up a victorious campaign in the proper style.

Many forecasts have been made of the result in the approaching election, but here is the latest, published by an independent Toronto paper. The same people, by the way, foretold the defeat of Ross in 1904, by 28 majority, and the return of Laurier, at the last election, by 50 majority. This is the way it sizes up matters now:

	Con.	Lib.
Ontario	61	25
Quebec	20	45
Nova Scotia	8	10
New Brunswick	8	5
Manitoba	6	4
Saskatchewan	4	6
Alberta	3	4
British Columbia	4	3
Prince Edward Is.	4	0
Yukon	0	1
	118	103

Conservative majority, 15

There is nothing that tends to bring christianity into contempt so much as professing one thing and practising another. A flagrant illustration of that is witnessed in Mr. Robinette, the Liberal candidate for Centre Toronto. The Globe reports him as "having as ex-President of the Methodist Young Men's Association, addressed the Young Men's Club in Trinity Methodist church, on the subject of Christian Citizenship," when he stated that "if he were sent to Ottawa as a parliamentary representative he would stand for what was PURE and CLEAN in legislation." As an evidence of which, he, on nomination day, deliberately lied when he told the electors that Mr. Bristol, the late representative of Centre Toronto, had not spoken in the House of Commons during the last session of Parliament, which Mr. Bristol readily nailed as an untruth by reference to the parliamentary official reports, a fact which Mr. Robinette must have known when making the charge, and if not known he should not have been so reckless as to make it. Such, however, is profession vs. practise.

The Conservative campaign in this district will close with a big meeting in the City Hall to-morrow night, to which all interested in good government are invited. Bright speakers will address the audience on the issues of the day, and other entertaining features will not be wanting. Go and enjoy yourself.

W. C. Mikel, K. C., will speak at Harwood, in West Northumberland, to-night, for Mr. Chas. Munson, the Conservative candidate.

Sir Wilfrid Laurier is fighting in the last ditch. All the bridges over which he once marched to victory have long since been burned behind him. Free trade, economy, honest administration, senate reform, abolition of surpluses, clean elections, these have all gone down during the retreat, and while the last session, when brought to bay, he flourished the battle axe of a servile majority, the blows he delivered shattered forever the last remnant of Liberal policy, respect for minority rights.

Now he is engaged in throwing up the feeble entrenchments of "rural mail delivery," "a Minister of Labor," "Campaign of Slander," and "give me another term," from which he will be driven with the loss of his reputation, amid the ruins of the Liberal party.

No one can survey the campaign without feelings of disgust. An army flushed with victory, gained by pledges of honesty and economy, has under his leadership degenerated into a rabble eager only to escape with spoils looted from the public treasury.

There is justification in Mr. Borden's promise that after victory there will come restitution.

THE GOVERNMENT AND ZAM-BUK.

SURVEY OUT FROM FORT WILLIAM TAKES THIS WONDERFUL BALM.

Zam-Buk, the favorite household balm, is now adopted as "The Doctor" by leading parties in surveying various parts of the Dominion lands.

Mr. Henry Hall, writing from Fort William, says: "Having proved how beneficial Zam-Buk is in cases of cuts, skin injuries and diseases, I determined to keep a supply handy. Being engaged to go on a survey, I thought it would be a most useful thing to take along. I obtained a supply in Fort William, and very well it was I did so. I may say that pretty nearly every day it was called into requisition by one or other of the party for cuts, bruises, burns, or some injury or other. It is wonderful how quickly Zam-Buk takes the soreness out of cuts, burns, bruises and injuries, and on our survey it earned golden opinions from all who had occasion to try it. I have found it very fine for skin disease, and I can strongly recommend it as a household balm."

Mr. Lascelles Scott, one of the leading Government analysts, says: "I have no hesitation in certifying the entire purity of Zam-Buk, which, in my opinion, is excellently adapted for skin injuries and diseases."

Zam-Buk cures cuts, scalds, burns, bruises, eczema, scalp sores, ringworm, ulcers, abscesses, chapped places, cold sores, blood poisoning, chronic abscesses, etc. As an embrocation it relieves rheumatism, neuralgia and sciatica. All druggists and stores sell at 50 cents a box, or from Zam-Buk Co., Toronto, for price, 3 boxes for $1.25. Send 1 cent stamp for dainty sample box.

The Republics.

Including Haiti, Santo Domingo, Panama and Liberia, there are now twenty-four republics in the world.

Lapland Dress.

Both men and women in Lapland dress precisely alike. They wear tunics belted loosely at the waist, tight breeches, wrinkled leather stockings and pointed shoes. Their whole appearance, in short, is identical, at least to the casual observer.

Sixteenth Century Fencers.

In the sixteenth century fencers held the sword in their right hand and a dagger in the left to ward off blows.

Seeds Like Pebbles.

The seeds of the Philippine bean from the coast near Manila so closely resemble the quartz pebbles, among which they fall, in shape, size and color, luster, hardiness and stratification as to be almost indistinguishable.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10,000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

Decorator and Designer

Remember we do painting, paper hanging, graining, decorating at lower prices than you imagine, The style of our work is of a high order. Our prices are low.

CHEAP WALLPAPER FOR A FEW DAYS

You may have your CHOICE of any PAPER in our stock for 20c per roll,—18 inch freize at 5c per yd. This includes papers up to 75c per roll. All other papers reduced in proportion. See Window Display.

Daily Intelligencer.

TIMELY TOPICS.

GOOD-BY! GOD BLESS YOU!

(Eugene Field.)

I like the Anglo-Saxon speech
So straight in all its dealings:
It takes a hold and seems to reach
Way down into your feelings.
That some folks deem it rude, I know,
And therefore they abuse it,
But I have never found it so;
Before all else I choose it.
I don't object that men should air
The Gallic they have paid for,
With "Au revoir, "Adieu, ma chere,"
For that's what French was made for.
But when a crony takes your hand
At parting to address you
He drops all foreign lingo and
He says: "Good-by! God bless you!"

I love the words perhaps because
When I was leaving mother
Standing at last in solemn pause
We looked at one another,
And I—I saw in mother's eyes
The love she could not tell me—
A love eternal as the skies,
Whatever fate befel me.
She put her arms about my neck
And soothed the pain of leaving,
And though her heart was like to break,
She spoke no word of grieving.
She let no tear bedim her eyes,
For fear that might distress me;
But, kissing me, she said good-by
And asked our God to bless me!

• • •

A man slightly the worse off for that which inebriates, but does not always cheer, was on his way home when he collided with a box picket fence which had been placed around a tree to protect it. Being somewhat unsteady on his limbs, the man grasped hold of what he supposed was a picket fence and started to feel his way along it. After rotating around the tree for half an hour he appeared somewhat puzzled at the extraordinary length of the fence, but he kept bravely on for some time. Finally, however, his courage failed him, and he sank down at the foot of the box fence with a groan of despair. "Fenced in!" he moaned.

• • •

One of the workers in a Chinese mission became much interested in two Chinamen who, she found, owned a flourishing laundry in her own home neighborhood. She looked in once in a while to see how things were going with them, and one morning found Sam smiling and cheerful, as usual, but John was missing. "Where is John this morning?" she asked. "Oh," answered Sam, amiably, "Chlistian gen'lman hit him in the head with a blick, and he all the same in hospital."

The Romans used little stones—calculi—in counting, and hence the word calculate.

Turkish Houses.

Very little furniture is used in the bedrooms of Turkish houses. Rarely is a chair seen in any of them. A few mats adorn the room, and the bed is stretched on the floor.

To Maroon.

The word "maroon," to "set a person on an inhospitable shore and leave him there," a practice that was common among the pirates of the Spanish main, is a corruption of "cimarron," meaning anything unruly, whether man or beast.

Persian Beauties.

Some of the beauties of Persia decorate their faces by painting figures of animals and insects upon them.

Dynamite.

Dynamite explodes so rapidly that its force is exerted in the direction from which the greatest pressure comes. That is, if the dynamite be placed on the ground the explosive force is down; if it be hung against a wall its force attacks the wall; if it be hung under an object its force is upward.

The Leap Year Lady.

By VIRGINIA BLAIR.

Copyrighted, 1908, by Associated Literary Press.

"I have often wondered why you didn't marry," said Bobbie Hayes diffidently.

The professor leaned on the porch rail and looked over his rose garden, where the fireflies starred the night with gold.

"Because I love a little lady who doesn't love me," he said dreamily, "and I'll have no other."

"Oh!" Bobbie gasped as one who has come unexpectedly upon a romance.

There was a moment's silence, out of which Bobbie questioned curiously, "How do you know she doesn't love you?"

The professor laughed. "She lets me see that I am her good friend, her comrade, but nothing more."

"Look here, professor, I don't believe you've asked her, not outright, you know," Bobbie accused.

"No, I haven't," the professor admitted.

"I thought so," Bobbie stated. "I know how modest you are. You'd never believe any one cared if they didn't tell you. Now, I had to—why, professor, I just had to hang around you after class and come over here and bore you and beg you to go places with me before you'd believe that I thought you were about the best thing I'd found in college."

The boy's voice was husky with deep feeling, and the professor held out his hand to him.

"Dear lad!" he said.

"And since I've been coming I have found out how lonely you are and—well, I think you ought to marry, professor."

"Alas," said the older man, "if it were as easy as it sounds!"

"It is easy," said Bobbie cocksuredly. "I've—I've had some experience with girls, professor."

The professor chuckled. "More than I have had in all my forty years, Bobbie."

"And I've learned," Bobbie asserted solemnly, "that when a man wants to marry a girl he's got to let her know that he cares awfully."

"But she knows that I care," the professor said.

"Have you told her?" Bobbie demanded.

"Not in words," was the response, "but, Bobbie, boy, I've sent her a bunch of pink roses every day that they bloom in my garden, and I have never looked at another woman."

Bobbie sat up straight. "Oh, look here," he said unexpectedly. "You won't mind if I guess who it is?"

"I don't believe," the professor hesitated, "that we ought to bring her name into it."

"Yes, we ought," Bobbie insisted, "when it means your happiness and hers. Isn't it Miss Merriman?"

"How did you guess?" the professor demanded.

"Nobody else grows such old fashioned hundred leaved roses as you, and when I went up to Miss Merriman's room the other night to borrow a book there was a bunch of them on her table."

"She is very fond of roses," the professor murmured.

"Of your roses," Bobbie amended.

"I have no reason to believe that she cares more for my roses than for any other," said the professor.

"Well, I'll bet she does," Bobbie argued. "I'll bet she's got a lot of them pressed in the Bible or her favorite book of poetry."

The professor rose. "I hardly think I like to bring her name into this discussion," he said again quietly, and after that he and Bobbie walked in the garden arm in arm, and they talked of books and of men, but not of Miss Merriman.

The next afternoon Bobbie called on the little teacher.

"I want to know if you'll chaperon some of the summer schoolgirls to a picnic at High Rock," was his excuse. But later in the evening he mentioned the professor. "I don't think he's looking well," he said.

"I have noticed it," said Miss Merriman anxiously. "I believe he is working too hard."

"It isn't that," said Bobbie. "He's in love, Miss Merriman, and the girl he cares for is treating him very cruelly."

Miss Merriman turned pale. "Oh," she said faintly, "does—does he care for some one?"

"Yes," Bobbie stated, "and he ought to be married. He is lonely, very lonely. I am sure if the woman he loves could know she would say 'yes.'"

"I am sure she would," Miss Merriman agreed.

"I have wondered," Bobbie began and stopped, "if you could find out who she is—women have such intuitions about things, and you and the professor are such old friends."

"But," palpitated Miss Merriman, "I'm not a bit of a detective, Bobbie. I shouldn't know how to look for her."

"Well, I'll give you a tip," said Bobbie. "You find the lady he sends his pink roses to; she's the one."

He was looking at her with round, innocent eyes, and he saw the color come back into her cheeks. He saw the uplift of her graceful head, with its crown of shining hair. He saw the radiance of her eyes.

"Are you sure?" she questioned.

"Dead sure," said artful Bobbie. "Look here," he went on. "If you find out who it is, put her on to the fact that it's leap year."

"Leap year?" gasped Miss Merriman.

"Yes," Bobbie stated. "And it's her chance. The professor is such a dear old piece of humility that he doesn't think she can love him, and he's afraid to ask her, because he feels that it might make her unhappy to refuse him. And he's certain that she wouldn't accept."

"Oh, wouldn't she?" breathed Miss Merriman.

"And—and you tell her," Bobbie continued, "that he's the best ever."

"Of course he is," said Miss Merriman. "Haven't I known him all my life?"

"Well, I've only known him since I came to the summer school," said Bobbie, "but I'll always be more of a man for having met him."

They shook hands with enthusiasm, and on the steps Bobbie paused to say, "He's going to High Rock with us."

But Bobbie did not know all the working of the feminine mind, for Miss Merriman, instead of bringing things to a crisis at the picnic, kept away from the professor all day, giving him only a vague smile now and then, instead of her usual frank companionship, and as a consequence the professor went home in a state of desperate forlornness, and even the wise Bobbie was alarmed and wished he had not interfered.

The next evening, however, just at the edge of twilight, as the professor wended his solitary way through the paths of his rose garden, the gate opened and a slender figure in white came through.

"I have come to see your roses," said the leap year lady, otherwise called Miss Merriman.

"Are you real," the professor demanded, "or just a tricky spirit, who will vanish in a breath?"

"I am not a spirit," said the leap year lady, "but I've come to ask you a question."

The professor's face fell. "I knew it wasn't just the roses that brought you," he said. "I suppose it's some tangle in your Greek?"

"No," said Miss Merriman, "it isn't a tangle in Greek. It's a worse tangle. And it has something to do with roses."

"Botany?" asked the unconscious professor.

"Oh, no!" Miss Merriman's voice expressed a certain scorn of his denseness.

"Well, you said it had something to do with roses," the professor told her helplessly.

"Do the roses you send me have anything to do with botany?" Miss Merriman demanded.

"No: of course not," the professor stammered; "of course not. They have to do with"—

"What?" Miss Merriman's tone was eager. Her upturned face pleaded. Her eyes were like stars. A faint glow from the little moon turned her hair to gold, and as the professor looked down at her a great light shone in upon his soul.

"Why—they have to do with—love." he said.

"Of course," was the tremulous response. "Oh, why didn't you say it before?"

"I was afraid," he whispered and took her hands in his.

"You see I had to come—to your rose garden"— she explained in the shelter of his arms.

"To stay always?" he begged, and as she murmured "always" wise Bobbie, coming up the path, saw the tableau in the moonlight and, chuckling as he went, beat a hasty retreat.

The Great Unknown.

It was many years before the "Great Unknown" was identified. At the publication of the "Lay of the Last Minstrel," "Marmion," "Lady of the Lake" and finally of a novel called "Waverley," popular curiosity was excited, and the whole of England rang with the fame of the "Great Unknown," as Scott was called. The secret was well kept. Sir Walter Scott, who all his life had been storing material and training his mind to such concentration that he could work in the midst of interruptions and was able to turn out volume after volume with a rapidity, two a year, that made his readers doubt their very senses. His incognito was all the more perfectly preserved in that he kept open house at Abbotsford, devoting much of his time to entertaining his guests and visiting. It was not until the embarrassment of his publishers occurred that the identity of the author of the "Waverley Novels" was discovered. The case of Scott furnishes one of the many illustrations of the power of deceiving the public in literary matters.

A Bit of Deceit.

Bismarck vowed that after passing a competitive examination a man was never any good—that the strain wrecked him. Still it was cramming, the cramming of the ingenious mind of Lord Chesterfield which brought about the reform of the calendar. Cramming and flattery did it. "I have been of late a sort of an astronomer despite myself," he wrote. "I was obliged to talk some astronomical jargon, of which I did not understand one word, but got it by heart and spoke it by rote as a master." He had to make the peers believe that he knew something of the matter "and also to make them believe that they knew something of it themselves, which they did not." For his own part, he said he could as well have talked Celtic or Slavonian as astronomy and they would have understood him fully as well. They became parties to the deceit. They would not betray ignorance upon a subject as to which he credited them with abounding knowledge. Thus they reformed the calendar.

PASSENGER TRAFFIC

GRAND TRUNK RAILWAY SYSTEM

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT 1907, BY McCLURE, PHILLIPS & CO.

"Be it so," said Captain Parkinson
er a time.
Going in, they saw no sign of life
ng the shore. Even the birds had
serted it. For the time the volcano
emed to have pretermitted its ac-
ity. Now and again there was a
urtle of smoke from the cone, fol-
ved by subterranean growlings, but,
the whole, the conditions were reas-
ing.
"Penny-pop-pinwheel of a volcano,
yhow," remarked Trendon disparag-
gly. "Real man size eruption would
ve wiped the whole thing off the
p first whack."
As they drew in it became apparent
at they must scale the cliff from the
at. Farther to the south opened out
wide cove that suggested easy beach-
g, but over it hung a cloud of steam.
"Lava pouring down," said Trendon.
Fortunately at the point where the
f looked easiest the seas ran low.
pes had been brought. After some
nty maneuvering two of the sailors
ned foothold and slung the ropes so
at the remainder of the disembarka-
n was simple. Nor was the ascent
the cliff a harsh task. Half an hour
er the landing the exploring party
od on the summit of the hill, where
black flag waved over a scene of
er desolation. The vegetation was
thered to pallid rags; even the tiniest
edling in the rock crevices had been
isoned by the devastating blast.
n the midst of that deathly scene
flag seemed instinct with a sinister
eliness. Whoever had set it there
d accurately chosen the highest
ailable point on that side of the is-
nd, the spot of all others where it
uld make good its signal to the eye
any chance farer upon those ship-
s seas. For the staff a ten foot sap-
g, finely polished, served. A mound
rock slabs supported it firmly. Upon
cloth itself was no design. It was
a dull black, the hue of soot. Cap-
n Parkinson, standing a few yards
, viewed it with disfavor.
"Furl that flag," he ordered.
Congdon, the cockswain of the gig,
pped forward and began to work
the fastenings. Presently he turned
grinning face to the captain, who
s scanning the landscape through
glass.
"Beggin' your pardon, sir," he said.
"Well, what is it?" demanded Cap-
n Parkinson.
"Beggin' your pardon, sir, that ain't
htly no flag. That's what you
ght rightly call a garment, sir. It's
undershirt, beggin' your pardon."
"Black undershirt's a new one to
," muttered Trendon.
"No, sir; it ain't rightly black.
ok."
Wrenching the object from its fas-
nings, he flapped it violently. A
ud of sooty dust, beaten out, spread
out his face. With a strangled cry
sailor cast the shirt from him and
led in agony upon the ground.
"You fool!" cried Trendon. "Stand
ck, all of you."
Opening his medicine case, he bent
er the [illegible] sufferer. Presently
man [illegible] up, pale and abashed.
"That's how poisonous volcanic gas
," said the surgeon to his command-
g officer. "Only inhaled remnants
the dust too."
"An ill outlook for the man we're
eking," the captain mused.
"Dead if he's anywhere on this high
nd," declared Trendon. "Let's look
his flagpole."
He examined the staff. "Came from
e beach," he pronounced. "Water
orn. H'm! Maybe he ain't so dead
her."
"I don't quite follow you, Dr. Tren-
n."
"Why, I guess our man has figured
is thing all out. Brought this pole
from the beach to plant it here.
hy? Because this was the best ob-
rvation point. No good as a perma-
nt residence, though. Planted the
g and went back."
"Why didn't we see him on the
ach, then?"
"Did you notice a cave around to the
rth? Good refuge in case of fumes."
"It's worth trying," said the captain,
tting up his glass.
"Hold on, sir! What's this? Here's
mething. Look here."
Trendon pointed to a small bit of
od rather neatly carved to the shape
an indicatory finger and lashed to
staff at the height of a man's face.
e others clustered around.
"Oh, the devil!" cried Trendon. "It
st have got twisted. It's pointing
aight down."
"Strange performance," said the cap-
n. "However, since it points that
y, heave aside those rocks, men."
The first slab lifted brought to light
corner of cardboard. This on closer
amination proved to be the cover of
book. The rocks rolled right and
t, and as the flagstaff, deprived of its
pport, tottered and fell the trove
s dragged forth and handed to the
ptain. While the ground jarred with
casional tremors and the mountain
ffed forth its vaporous threats he
d the surgeon, seated on a rock, gave
emselves with complete absorption
the reading.

CHAPTER XXVIII.

OUTWARDLY the book accorded ill with its surroundings. In that place of desolation and death it typified the petty neatness of office processes. Properly placed it should have been found on a desk, with pens, rulers and other paraphernalia forming exact angles or parallels to it. It was a quarto, bound in marbled paper, with black leather over the hinges. No external label suggested its ownership or uses, but through one corner, blackened and formidable in its contrast to the peaceful purposes of the volume, a hole had been bored. The agency of perforation was obvious. A bullet had made it.

"Seen something of life, I reckon," said Trendon as the captain turned the volume about slowly in his hands.

"And of death," returned Captain Parkinson solemnly. "Do you know, Trendon, I almost dread to open this?"

"Pshaw!" returned the other. "What is it to us?"

He threw the cover back. Neatly lettered on the inside, in the fine and slightly angular writing characteristic of the Teutonic scholar, was the legend, "Karl Augustus Schermerhorn, 1409½ Spruce street, Philadelphia, Pa."

The opposite page was blank. Captain Parkinson turned half a dozen leaves.

"German!" he cried in a note of disappointment. "Can you read German script?"

"After a fashion," replied the other. "Let's see. Es wonnte sechs—unddreissig unterjacke," he said. "Why, blast it, was the man running a haberdashery? What have three dozen undershirts to do with this?"

"A memorandum for outfitting probably," suggested the captain. "Try here."

"Chemical formulae," said Trendon. "Pages of 'em. The devil! Can't make a thing of it."

"Well, here's something in English."

"Good," said the other. "By combining the hypersulphate of iridium with the fumes arising from oxide of copper heated to 1000 C. and combining with picric acid in the proportions described in formula x 18, a reaction, the nature of which I have not fully determined, follows. This must be performed with extreme care owing to the unstable nature of the benzene compounds."

"Picric acid? Benzene compounds? Those are high explosives," said Captain Parkinson. "We should have Barnett go over this."

"Here's a name under the formula—Dr. A. Mardenter, Ann Arbor, Mich. That explains its being in English. Probably copied from a letter."

"This must have been one of the experiments in the valley that Slade told us of," said the captain thoughtfully. "Why, see here," he cried, with something like exultation, "that's what Dr. Schermerhorn was doing here. He has the clew to some explosive so terrific that he goes far out of the world to experiment with its manufacture. For companions he chooses a gang of cutthroats that the world would never miss in case anything went wrong. Possibly it was some trial of the finished product that started the eruption even. Do you see?"

"Don't explain enough," grunted Trendon. "Deserted ship, Billy Edwards, mysterious lights, Slade and his story—any explosives in those? Good enough far as it goes. Don't go far enough."

"It certainly leaves gaps," admitted the other.

He turned over a few more pages.

"Formulae, formulae, formulae. What's this? Here are some marginal annotations."

"Unbehasslich," read Trendon. "Let's see, that means 'highly unsatisfactory,' or words to that effect. Hi! Here's where the old man loses his temper. Listen! 'May the devil take Carroll and Crum for careless'—h'm—well, 'pig dogs.' Now, where do Carroll and Crum come in?"

"They're a firm of analytical chemists in Washington," said the captain. "When I was on the ordnance board I used to get their circulars."

"Fits in. What? More English? Worse than the German this is."

The writing, beginning evenly enough at the top of a page, ran along for a line or two, then fell, sprawling in huge, ragged characters the full length. Trendon stumbled among them indignantly.

"'June 1, 1904,'" he read. "'It is done. Triumph (German word.) Eureka. Es ist gefullt. From the (can't make out that word) of the inspiration—God-like power—solution of the world problems.' Why, the old fool is crazy! And his writing is crazier. Can't make head or tail of it."

The captain turned several more pages. They were blank. "At any rate, it seems to be the end," he said.

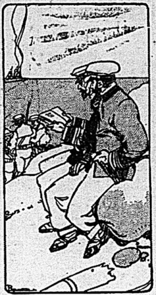
"I should hope so," returned the other disgustedly.

He took the book on his knees, fluttering the leaves between thumb and finger. Suddenly he checked, cast back and threw the book wide open.

"Here beginneth a new chapter," said he quietly.

No imaginable chirography could have struck the eye with more of contrast to the professor's small and nervous hand. Large, rounded and rambling, it filled the page with few and careless words.

> June 2, 1904.—On this date I find myself sole occupant and absolute monarch of this valuable island. This morning I was a member of a community, interesting if not precisely peaceful. Tonight I am the last leaf. "All his lovely companions are faded and gone," the sprightly Solomon, the psychic nigger, the amiable Thrackles, the cheerful Perdosa, the genial Pulz and the high minded Eagen. Undoubtedly the social atmosphere has cleared; moreover, I am for the first time in my life a landed proprietor. Item, several square miles of grass land; item, several dozen head of sheep; item, a cove full of fish; item, a handsomely decorated cave; item, a sportive though somewhat unruly volcano. At times, it may be, I shall feel the lack of company. The sea gulls alone are not distrustful of me. Undoubtedly the sea gull is an estimable creature, but he leaves something to be desired in the way of companionship; hence this diary, the inevitable refuge of the empty minded. Materially I shall do well enough, though I face one tragic circumstance. My cigarette material, I find, is short. Upon counting up—



"Here beginneth a new chapter," said he quietly.

"Hang his cigarettes!" cried the surgeon. "This must be Darrow. Finicky beast! Let's see if it's signed."

He whirled the leaves over to the last sheet, glanced at it and sprang to his feet. There, sprawled in tremulous characters, as by a hand shaken with agony or terror, was written:

> Look for me in the cave.
> PERCY DARROW.

The bullet hole in the corner furnished a sinister period to the signature.

Trendon handed the ledger back to the captain, who took one quick look, closed it and handed it to Congdon.

"Wrap that up and carry it carefully," he said.

"Aye, aye, sir," said the cockswain, swathing it in his jacket and tucking it under his arm.

"Now to find that cave," said Captain Parkinson to the surgeon.

"The cave in the cliff, of course," said Trendon. "Noticed it coming in, you know."

"Where?"

"On the north shore, about a mile to the east of here."

"Then we'll cut directly across."

"Beg your pardon, sir," put in Congdon, "but I don't think we can make it from this side, sir."

"Why not?"

"No beach, sir, and the cliff's like the side of a ship. Looks to be deep water right into the cave's mouth."

"Back to the boat, then. Bring that flag along."

The descent was swift, at times reckless, but the party embarked without accident. Soon they were forging through the water at racing speed, the boat leaping to the impulsion of the sailorman's strongest motives, curiosity and the hope of saving a life.

CHAPTER XXIX.

WITHIN half an hour the gig had reached the mouth of the cave. As the cockswain had predicted, the seas ran into the lofty entrance. Elsewhere the surf fell whitely, but through the arch the waves rolled unbroken into a heavy stillness. Only as the boat hovered for a moment at the face of the cliff could the exploring party hear, far within, the hollow boom that told of breakers on a distant subterranean beach.

"Run her in easy," came the captain's order. "Keep a sharp lookout for hidden rocks."

To the whispering plash of the oars they moved from sunlight into twilight, from twilight into darkness. Of a sudden the oars jerked convulsively. A great roar had broken upon the ears of the sailors. The invisible roof above them, the water heaving beneath them, the walls that hemmed them in, called with a multiplication of resonance upon the name of Darrow. The boat quivered with the start of its occupants. Then one or two laughed weakly as they realized that what they had heard was no supernatural voice. It was the captain hailing for the marooned man.

No vocal answer came, but an indeterminable space away they could hear a low splash, followed by a second and a third. Something coughed weakly in front and to the right. Trendon's hand went to his revolver. The men sat stiffened. One of them swore in a whisper.

"Silence in the boat," said the captain in such buoyant tones that the men braced themselves against the expected peril.

"Light the lantern and pass it to me," came the order. "Keep below the gunwale, men."

As the match spluttered, "Do you see something a few rods to port?" asked the captain in Trendon's ear.

"Pair of green lights," said Trendon. "Eyes. Seals!"

"Seals! Seals! Seals!" shouted the walls, for the surgeon had suddenly released his voice. And as the mockery boomed the green lights disappeared, and there was more splashing from the distance. The crew sat up again.

The lantern spread its radiance. It was reflected from battlements of fairy beauty. Everywhere the walls were set, as with gems, in broad wales of varied and vivid hues. Dazzled at first, the explorers soon were able to discern the general nature of the subterranean world which they had entered. In most places the walls rose sheer and unscalable from the water. In others turreted rocks thrust their gleaming crags upward. Over to starboard a little beach shone with Quaker grayness in that spectacular display. The end of the cavern was still beyond the area of light.

"Must have been a swimmer to get in here," commented Trendon, glancing at the walls.

"Unless he had a boat," said the captain. "But why doesn't he answer?"

"Better try again. No telling how much more there is of this."

The surgeon raised his ponderous bellow, and the cave roared again with the summons. Silence, formidable and unbroken, succeeded.

"House to house search is now in order," he said. "Must be in here somewhere unless the seals got him."

Cautiously the boat moved forward. Once she grazed on a half submerged rock. Again a tiny islet loomed before her. Scattered bones glistened on the rocky shore, but they were not human relics. Occasionally beaches tempted a landing, but all of these led back to precipitous cliffs except one, from the side of which opened two small caves. Into the first the lantern cast its glare, revealing emptiness, for the arch was wide and the cave shallow. The entrance to the other was so narrow as to send a visitor to his knees. But inside it seemed to open out. Moreover, there were fish bones at the entrance. The captain, the surgeon and Congdon, the cockswain, landed. Captain Parkinson reached the spot first. Stooping, he thrust his head in at the orifice. A sharp exclamation broke from him. He rose to his feet, turning a contorted face to the others.

"Poisonous," he cried.

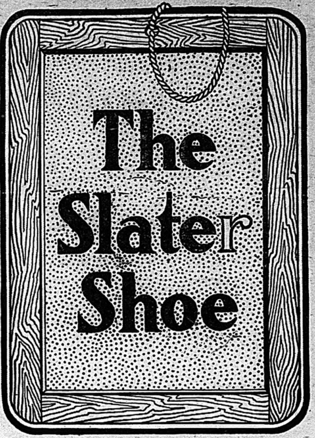
"More volcano," said Trendon. He bent to the black hole and sniffed cautiously.

"I'll go in, sir," volunteered Congdon. "I've had fire practice."

"My business," said Trendon briefly. "Decomposition; unpleasant, but not dangerous."

Pushing the lantern before him, he wormed his way until the light was blotted out. Presently it shone forth from the funnel, showing that the explorer had reached the inner open space. Captain Parkinson dropped down and peered in, but the evil odor was too much for him. He retired, gagging and coughing. Trendon was

(To be continued.)



The Why of the Slate

WHEN you see a Slate mark
Like this——
On a Shoe sole or
Shoe lining,
Just sit up and take notice—
Because——
This Slate mark certifies that
You are then looking at a genuine
Old-time "1869" Slater Shoe.

There be other Shoes sold aplenty
By the taking-in-vain of the mere
Name "Slater."
Just as "Baker's Cocoa"
With risk
Be sold by any man named Baker.
But, it is not the name alone
That makes a Shoe worth money.
It is what that name stands for
In Workmanship, Fit, Quality,
And Wear;

Ergo——
The mere name "Slater"
Has no significance in
Shoe Annals
Unless—
That Name be coupled with
The "Slate" Trade-mark which
Gives it meaning.

"The Shoe with the Slate" therefore
Is the Shoe you mean when
You ask the shrewd
Shoe Merchant for
"A pair of Slater Shoes."

These Slate marked
"Slater Shoes".
Are made in a factory which
For Ten years has not
Made a Shoe
Of lower grade than $3.50 to $5.00.

They are made by Specialists,
Trained and developed
Through long
Years of Practice and Perfecting
In the niceties of Fit, Finish,
Style and Workmanship,
Which constitute
The vital differences between
A regular "Hand-me-down" and
A High-grade "Custom-made."

A Blacksmith might try hard to
Make Watches in his smithy,
But——
His good intentions could not
Compensate for lack of Training,
Material or Equipment.

So,——
Shoe Factories that make
Shoes "of all Kinds and
Descriptions"
Can't make Fine Shoes

Well enough,
Nor poor Shoes cheaply enough
To meet the Specialist
In either grade.

This is why
The Slate-mark "Slater Shoe"
Is a Shoe worth watching-out for.
Because, it is——
The only brand of Shoe made in
A Canadian Shoe Factory
Which makes
No other than $4 to $6 grades.

It is the only Shoe which is
Stamped-on-the-Soles or Linings,
By the Makers,——
With the Retail price at which
These Slate-marked Shoes must
Be sold to Shoe Wearers.

That Price protects Consumers
Against possible or probable
Overcharge, and
It guarantees to them
Full measure of value—
Up-to-the-Makers'-price
Stamped on each Shoe in
A Slate frame.

When, therefore——
Any Shoe Dealer, or
Shoe Salesman,
Answers your inquiry for
"A pair of Slater Shoes" with
A pair without a Slate mark
Stamped clearly on them——
Just look him in the Eye and
Watch him lest he take
Your watch.

Because,——
A Dealer cannot be trustworthy
Who intends to trick you into
Buying something he has
Ready-cooked
And tied up in an evasive,
Incidental and misleading way
With the mere name of "Slater."

Remember——
It is not the Slater name, alone—
But the Slate brand, which stands
For what you seek.
And are entitled to secure,
When you ask a Merchant for
"The Slater Shoe."

Everything that enters the making of Slater Shoes is carefully selected. Only the best is used. They are made by that wonderful manufacturing process—the Goodyear Welt, insuring comfort and durability.

Sold only at:
The Slater Shoe Store--J. J. Haines,
Belleville, Ont.

MONTREAL CANADA
PROGRESS

Best Worn—Worn by the Best

PROGRESS BRAND Clothing is not found in every store—nor is it handled by every clothier who would if he could.

It is sold only to independent dealers, who are under no financial obligation to the makers and who can stop carrying "Progress Brand" at any time.

These dealers, who have the world's markets to choose from, sell "Progress Brand" Clothing because they know it is *the best* that they can offer to their customers.

The wearer, too, who is not looking for credit or considerations other than the best garments, that his hard cash can buy, is anxious to find just such a dealer.

The progressive dealer in each town sells "Progress Brand" Clothing. It pays to find him,—pays in actual cash, for "Progress Brand" values mean a saving of from 20% to 30%.

It is easy to recognize "Progress Brand" Clothing. The "Progress" label, shown above, is in each Suit and Overcoat to guarantee style, fit, and wear. Look for the trademark that protects whenever and wherever you buy.

"Progress Brand"

HUMBLED, THE PRINCESS.

Fall of a Dusky Beauty From the South Sea Islands.

One night John Sharp Williams, while a student at Heidelberg, Germany, was in attendance upon a swell function at which the guest of honor was a dark skinned princess alleged to hail from one of the south sea islands. This princess was magnificently bedecked and bejeweled, and her warm olive complexion, set off by a mass of black, kinky hair, full red lips, snow white teeth and black, sparkling eyes, made her the center of the function. The masculine-like Germans swarmed about her like bees around a honeysuckle vine, and even Dutch femininity could not discount the charm of her manner or the beauty of her person.

John Sharp was introduced, of course, and immediately upon obtaining a near view of the princess (?) his southern instincts rose to the surface and his southern blood began to boil. Watching his opportunity, he managed to get to the beauty's elbow. Then, reducing his voice to a low, but perfectly audible key, he sent into her startled ears this alarming query:

"Look here, nigger, where did you come from?"

Panic stricken and with all her self possession scattered, the alleged princess turned upon her interrogator as she heard the familiar intonation of the southerner and looked into his unrelenting face. Then she stammered:

"Fum South Caroliny, boss, but for de Lawd's sake don't tell it."

Whether John Sharp respected the pitiful plea of a southern negress in a faraway land and permitted her to continue her bold imposition upon the credulous Germans the story does not tell. But the fact remains that the "princess" realized that she was in the presence of one who, from intimate knowledge of her race, had divined her African origin, and she could only throw herself on his mercy.—Biloxi Herald.

THE BASTILLE.

Men and Methods In the Famous Old French Prison.

The Bastille as a prison was apparently better kept and cleaner than either Bicetre or the Chatelet, and imprisonment within its walls did not, it would seem, dishonor the prisoner or his family. A great many prisoners were charged as mad, and under this elastic term the violent maniac, the ambitious madman, the young spendthrift, the megalomaniac, the reacher for the philosopher's stone or the secret of perpetual motion—all these tiresome persons might be and were included.

How, then, did these prisoners live? In the underground cells or dungeons, as in the cells in the towers, the prisoners were on bread and water, as a rule. In the other rooms in the main building three meals were served a day, with drinkable wine—"vin potable." In certain cases, according to the quality and distinction of the prisoner, he might supplement the meager furniture of his prison and get a provision of books. Very favored persons were allowed their own servant if he would consent voluntarily to undergo confinement. Voltaire began to write the "Henriade" as prisoner in the Bastille; Abbe Morellet of the Encyclopedia speaks of the great fortress as the cradle of his fame, but we must remember that it was perhaps not advisable to say much about the Bastille when you were still living within its walls and that, as M. Mouin has reminded us, "the old Spartans offered sacrifices to fear." Prisoners, moreover, had to sign on their release an elaborate declaration by which they swore never to divulge, directly or indirectly, anything they might have learned as prisoners concerning the Bastille.—Mrs. Frederic Harrison in Nineteenth Century.

A Feat For Blondin.

"Speaking of the straight and narrow path," said a congressman, "reminds me of a story about a man I knew in Chicago who stayed very late at a dinner at the club. When he came out he started to walk in the middle of the street.

"'Hey, John,' said a friend who met him as he was making the best of his way along the car tracks, 'why don't you walk on the sidewalks?'

"'Walk on the sidewalks?' snorted John. 'Do you think I'm Blondin?'"

Got Tired Quick.

A farmer hired a hand from town. The first morning the new hand went to work he accompanied the farmer into the hay field. They put on a load and hauled it to the barn. By the time it was unloaded it was 9 o'clock. "Well," said the new hand from town, "what will we do now?" "What will we do now?" roared the farmer. "Why, we'll go after another load of hay!" "In that case," said the new hand from town, "I will resign."

Pat and the Lava.

An Irishman, having returned from Italy, where he had been with his master, was asked in the kitchen, "Now, then, Pat, what is the lava I hear the master talking about?"

"Only a drop of the crater," was Pat's reply.

No Advance Copies Given Out.

Gwendolen—What did Archie say when he proposed to you? Esmeralda—He won't say it until next Thursday night, and it won't be released before 12:30 a. m.—Chicago Tribune.

The wrestlers and athletes of India develop great strength by living on milk, a little goat's flesh and plenty of food made from flour.

New Masonic Lodge Formed in Bancroft On Wednesday.

At the village of Broft, on ednesday afternoon at o'clock, ancroft Lodge, No. 482, F. & A. M., was formally constituted and consecrated by leading members of the craft. At the hour mentioned the Grand Lodge was formally instituted by the following officers.

Rt. Wor. Bro. J. wton, D. D. G. M., acting Grand Master.

Rt. Wor. Bro. Mcinis, acting Deputy Grand Master.

Wor. Bro. J. W. Pee, M. P. P., acting Senior Grand Warden.

Wor. Bro. J. R. O acting Junior Grand Warden.

Bro. Rev. T. H. Hal of Bancroft, acting Grand Chaplain.

Wor. Bro. H. F. Kheson, of Belleville, acting Grand Secretary.

Bro. S. P. James, of Combermere, acting Grand Senior Deacon.

Bro. W. Reid, of Onby, acting Grand Junior Deacon.

Bro. R. H. Spencer, Trenton, acting Grand Director of Ceremonies.

Bro. W. Stuart, of Belleville, acting Grand Pursuivant.

After the ceremony the officers of the new lodge were installed by Rt. Bro. A. McGinnis, of the city. Bro. J. Ballard is W. M. of the new lodge, which starts off under most favorable auspices. In the evening the visiting brethren and others were most royally entertained at the Queen's hotel, Bancroft.

Painful Accident to a Blind Lady.

Miss Janet Warham, an aged spinster who is living with his brother, Mr. James Warham, and who unfortunately is blind, yesterday afternoon met with a painful accident. The lady was walking upon the stoop when she accidentally fell off, spraining both ankles, and cutting her face quite badly. Miss Warham will be laid up for some time.

Dairymen Will Foregather Here.

On ...nesday, December 2nd, a meeting of the dairymen ... district will be held here at which, Hon. J. S. Duff, Minister of Agriculture for Ontario: Hon. D. Derbyshire and other prominent men interested in dairying are expected to be present. The meeting will be held in the afternoon and in all probability a banquet will take place in the evening.

Badgley Doing Well.

Mr. George Badgley, the victim of yesterday's railway accident at the Canifton road crossing, is progressing as well as could be expected. Fortunately Mr. Badgley was not seriously injured, and no bones were broken.

Died at Hospital.

Miss Cecilia Cole, aged 13 years, died at the hospital here this morning from an attack of typhoid fever. Deceased was a resident of Campbellford, to which place the remains were sent this afternoon.

Vessels Aground.

Rochester, N. Y., Oct. 21.—Storm-tossed on the shallow waters off Grand View beach, near Charlotte, the two-masted schooner Mary Ann Lydon, of Kingston, is in imminent danger of being pounded to a worthless hulk. Thomas Watson, twenty-eight years old, from Toronto, is in the city hospital here with an injury to his back, sustained while the buffeted ship was trying to make Charlotte harbor. Watson's injury may be a fracture of the pelvis. An X-ray picture will be taken at the hospital to determine the trouble.

Kingston, Oct. 22.—The schooner Katie Eccles is reported aground The Brothers, and the steamer nelly was called to the sce

Fined For Cruelty.

Toronto, Oct. 23.—For cruelty to animals by overcrowding in shipment, James O'Reilly of Bancroft was yesterday afternoon in the Police Court fined $20 and costs by Magistrate Kingsford.

The car had contained 28 cattle, 114 sheep, 4 calves and 6 hogs, 152 animals in all, the smaller animals on an upper deck. The cattle were greatly cramped in a space only four feet high and were kept confined for 17 hours, one of the cattle dying.

PILES CURED IN 6 TO 14 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

Does
Your Head
Ache, From
Eye Strain?

A CASE IN POINT.

A gentleman in an adjoining village suffered for years with severe headaches, always commencing over right eye, gradually getting worse until he had them every day. During this time he treated with different doctors in different places. Finally he was sent to us by a leading physician of this city, for examination of his eye. After careful investigation we found nothing wrong with his vision, nor with the principal muscles usually at fault, but we discovered one of the minor muscles of the right eye to be three degrees short, causing reflex strain or pressure on the nerve centres of the brain. We had a glass ground to correct the short muscle, when all the headaches subsided almost immediately.

THE DOCTOR SAID
"I CAN'T HELP YOU"

Suffered 10 Months with Kidney Complaint. Gin Pills Cured.

Dunvegar, Inverness Co.

I am perfectly cured of Kidney complaint after using Gin Pills. Six hours after taking the first Pill I obtained relief, and now after three months I feel as well as ever.

I suffered ten months and the Physician attending me advised me to go to the Victoria Hospital at Halifax, as he could do nothing more for me. I may add that I used a great deal of medicine, and strictly followed my physician's directions regarding diet, etc., but without avail, until providentially I learned of your most excellent remedy. I am recommending Gin Pills.

McINTOSH BROS

A HEROIC TEACHER.

Michigan Girl Saves Pupils From Death In Forest Fire.

Bay City, Mich., Oct. 23.—Among the most thrilling experiences of survivors of the Presque Isle county forest fires was that of Miss Grace Barber, a school teacher, 19 years old, whose school in Krakaw township was in session when the flames swept down upon the building. A terrified farmer gave the alarm just as the rear of the school house caught fire.

The young teacher marshaled her pupils in a double row, the largest at the head, and ordered them to remain in close order and not to break the line. She then directed the leaders to head for a ploughed field nearby, and the column started on a run, Miss Barber bringing up the rear to prevent straggling. Burning embers fell thick, but the teacher kept the children crowded close together, and every ember was extinguished the instant it fell upon any child's clothing.

The fire burned steadily for some time as the blaze in the tops of the trees ate its way down. During the night two bears made their appearance. A fox come slinking in, as did also a wild cat, rabbits, partridges and other game; but the animals kept well away from the children.

Miss Barber kept her charges in the field all Thursday night, and in the morning sent them home in groups, piloting the smaller ones herself.

Penny Telegrams.

London, Oct. 23.—(C. A. P.)—The proposal to establish telegrams at a penny a word throughout the Empire will be advanced a step at the meeting to be held at the Royal Colonial Institute on Nov. 10. The chairman, the Earl of Jersey, Henniker Heaton and others consider the plan quite feasible, and believe it can be carried out much more easily than the system of imperial penny postage was. In Australia a telegram can be sent 3,600 miles at a penny a word, and it is maintained that but for political frontiers, telegrams could be sent from London to India, 3,200 miles, at a similar rate.

Bush Fires Cause Explosion.

Pittsburg Pa., Oct. 23.—A magazine containing about fifty cans of nitroglycerine exploded yesterday at Gringo, below this city. There were no fatalities. The explosion was caused by a bush fire.

A second terrific explosion occurred shortly after noon. One woman was seriously hurt by flying glass. The property loss will be large. Almost half the windows in three towns have been broken by the explosion.

Saved 100 Natives.

Manila, Oct. 23.—At Appari, where a thrilling rescue of a 100 natives was effected through the heroism of Lieut. Robert Clark, Lieut. Tredway and Postmaster Ross, the survivors say that 300 residents of the submerged fishing village, which is located some distance below Aparri, were swept away and drowned.

Do Honor to Burke's Memory.

Bath, Eng., Oct. 23.—Whitelaw Reid, the American ambassador, unveiled a tablet in this city yesterday in memory of Edmund Burke, the celebrated Irish statesman and orator.

Dr. Osler Will Not Withdraw.

London, Oct. 23.—Alex. Acland Hood, Tory whip, has unsuccessfully endeavored to get Dr. William Osler to withdraw his condidature for the rectorship of Edinburgh University.

Renown Sails For Bermuda.

Halifax, Oct. 23.—H. M. S. Renown is to leave here Nov. 5 for Bermuda, and H. M. S. Brilliant is expected to arrive from Newfoundland Nov. 19, and will remain here a month.

Berlin Holds Rally.

Berlin, Oct. 23.—An immense demonstration in the interests of the Conservative candidate was held here last evening, between 3,000 and 4,000 people turning out to hear Premier Whitney, Hon. J. J. Foy, A. C. Macdonell, and Candidate Reid at the auditorium.

$10,000 Damage Suit.

Montreal, Oct. 23.—Hon. J. A. Ouimet has taken an action against Le Canada for libel, claiming $10,000 damage done the plaintiff during the campaign.

Plasters and Cuts.

Although court plaster is useful in protecting small scratches or abrasions of the skin from harm, it should not be used over any considerable cut or wound in process of healing. These will heal much faster if simply covered with a bit of soft linen held in place at the ends with strips of surgeon's plaster.

Polite to Lightning.

When a native of Quito sees a flash of lightning he reverently removes his hat.

Straw Hats.

Head wear made of straw was already in use among the ancient Greeks, but straw hats like those we wear did not come into use in Europe until half a century ago.

Inimical Plants.

Two well known English plants, the thistle and the rape, are so inimical that if a field is infested with thistles, which come up year after year and ruin the crops, all you have to do is to sow it with rape. The thistles will be absolutely annihilated.

The Life Plant.

The leaf of a creeping moss found in the West Indies, known as the "life plant," is absolutely indestructible by any means except immersion in boiling water or the application of a redhot iron.

Five Largest Cities.

The five largest cities on earth are in the order of their size London, New York, Paris, Chicago, Berlin.

WST BIZZARD SWEPT

Terric Snstorm Demoralizes nes Communication.

Trai AreStalled by Downfall Ainst ich Plows Can Do Almst Nong — Ten Inches Have Aeady allen—Open Track Is Firly Or But Cuts Are Filled Sold W Packed Snow.

Winnipeg, Man., Oct. 23.—One of the worst owstorms that has ever occured ine west has been at the heigh of fury for many hours, and has cpletely demoralized the services one C.P.R. and C.N.R. trains.

The stor started Tuesday night, and has ntinued with unabated vigor.

Ten inch of snow has already fallen, and, companied by a terrific gale, snowas blown into the railway cuts, mpletely filling them up, and in my stretches the snow is over ten f deep.

The C.P. have rushed snowplows to the scei and are hard at work to clear the acks, but very little progress canbe made until the snow ceases to ll. As soon as a clearance is made t blizzard fills it up again.

The Athtic Express from Vancouver an western points is completely stad, and also the Imperial Limited fm Vancouver. The west bound trai of Wednesday is held up also, and one of them can proceed one inch.

No trais from the west reached the city ysterday, and it is doubtful when theywill get through.

In the neantime the railway company is taling care of pasengers, and are seeingthat they were well looked after untilable to proceed. The Winnipeg Express from Toronto was about two hours late in arriving yesterday mrning. No. 1 westbound went out at 1.15 yesterday afternoon. The Pacific Express last night is scheduled on time. On other branches trains are running according to schedule.

"Cancelled, big snowstorm in the west," was the bulletin received at the Canadian Northern Railway office yesterday morning regarding No. 2 from Edmonton.

The storm, which broke over Alberta Tuesday night, was wholly unexpected by the railways, and no preparation was made to receive it. The storm was a blinding one, and the snow quite soft. It has not done so much damage on the open track, but has rested in the cuts of the railroads in a solid mass.

Life-Saver Drowned.

Sarnia, Oct. 23.—The body picked up in the river near St. Clair, Mich., Wednesday, by Frank Currier, captain of a ferry boat, has been identified as that of Albert Martin, aged 21 years, of Corunna, Ont., eight miles from here. Martin had a medal pinned to his vest, which had been given to him for saving a Toronto man from drowning in Lake Ontario. The body had apparently been in the water several days. Relatives say that he left home on the night of Oct. 3, starting in a rowboat for St. Clair, and since that time nothing was seen of him. He was an expert swimmer. He came to his death, friends believe, as the result of being run down by some lake freighter.

King's Messenger Dies.

London, Oct. 23.—Lieut. Arthur Jermy Mounteney Jephson, who has been the King's messenger since 1901, and prior to that the Queen's messenger since 1895, died yesterday.

Lieut. Jephson commanded a detachment in the Emin Pasha relief expedition under Henry M. Stanley in 1887-90.

In 1904 he married Miss Anna Head, the daughter of the late Addison E. Head of San Francisco.

Navy For South Africa.

London, Oct. 23.—(C. A. P.)—At a Johannesburg a banquet was given to Sir Percy Scott and the men of the cruiser squadron now at Durban. The Chief Justice of Pretoria expressed the hope that a Parliament of South Africa would take the earliest opportunity of recognizing their obligation to the navy by making a substantial contribution, unhampered by conditions of local control.

Year For Stabbing.

London, Oct. 23.—(C.A.P.)—John Metcalf, seaman, of Montreal, got a year's imprisonment for stabbing a girl on Sept. 17. The prisoner made no comment on the sentence, but produced a letter from a brother in Canada, saying he ought to be sent to a hospital where the doctors "could knock the silly nonsense out of him."

Campaign Party "Stalled."

Windsor, Oct. 23.—Hon. Speaker Sutherland and a party of Liberal speakers were stalled in Maidstone Wednesday night by reason of a special car failing to make connections. They had to catch a freight train, which did not reach Windsor until daylight.

Cruiser Fleet Homeward Bound.

Honolulu, Oct. 23.—The United States Pacific cruiser fleet, commanded by Rear-Admiral Swinburne, sailed at 9.15 o'clock yesterday morning with the accompanying torpedo destroyers, in tow, for the Pacific coast.

Rejected Lover's Crime.

Grand Rapids, Mich., Oct. 23.—Crazed at the concellation of his engagement to Nellie Dimeyer, 19 years old, August Sauererein, 23, shot her twice Wednesday night and then sent a bullet into his brain.

Wife Dislikes Notoriety.

Hamilton, Oct. 23.—Fred Kimball, the insurance agent accused of bigamy, was remanded at the Police Court yesterday morning and bail fixed at $1,000. Mrs. Kimball the first cannot be found and it is said that she is anxious to avoid the notoriety of the trial.

Liverpool Grain and Produce.

LIVERPOOL, Oct. 22.—Closing—Wheat, spot dull; No. 2 red western winter, 7s 7¾d; futures, firm; Dec., 7s 8⅜d; March, 7s 6¾d; May, 7s 6⅛d. Corn, spot steady; American mixed, 7s 4½d; futures, quiet; Dec., 5s 7⅛d; Jan., 5s 4⅞d.

Bacon, clear bellies, dull, 55s. Lard, prime western, in tierces, steady, 49s 9d; American refined, in pails, 51s, quiet. Tallow, prime city, firm, 30s. Turpentine spirits, easy, 24s 9d. Cheese, Canadian finest white, new, steady, 59s 6d; Canadian finest, colored, new, steady, 60s.

New York Dairy Market.

NEW YORK, Oct. 22.—Butter—Steady, unchanged; receipts, 5149.

Cheese—Easy, unchanged; receipts, 3246.

Eggs—Irregular; receipts, 8641; state, Pennsylvania and nearby fancy selected white, 39c to 40c.

CATTLE MARKETS.

Cables Steady—Hogs Are Much Firmer at Buffalo.

LONDON, Oct. 22.—London cables for cattle are steady at 11½c to 12¾c per lb., dressed weight; refrigerator beef is quoted at 9½c to 9¾c per lb.

Toronto Live Stock.

TORONTO, Oct. 22.—Receipts of live stock at the City Market, as reported by the railways for Wednesday and Thursday, were 155 carloads, composed of 2265 cattle, 3233 hogs, 2835 sheep and lambs and 119 calves.

Exporters.

One load of cattle brought in as exporters was reported sold for butchers' purposes at $4.95 per cwt. Export bulls sold at $3.50 to $4, and one of choice quality, weighing 1990 lbs., was sold by H. P. Kennedy at $4.50 per cwt.

Butchers.

Choice picked lots of steers and heifers are reported as selling at $4.60 to $4.80 per cwt., loads of good at $4.25 to $4.50; medium, $3.75 to $4; common, $3.25 to $3.50; cows, $2.50 to $3.60 per cwt.; canners, $1 to $1.50.

Feeders and Stockers.

H. & W. Murby report a fair demand for feeders and stockers this week. The receipts were fairly heavy, but as usual the bulk of the offerings were medium to inferior grades. The nice ten to eleven hundred pound steers were none too plentiful, and more of this class would have sold. Messrs. Murby bought 350 head this week at following quotations: Best feeders, 950 to 1100 lbs. each, at $3.50 to $4; best steers, 800 to 950 lbs. each, at $3.25 to $3.60; best steers, 600 to 800 lbs. each, at $2.80 to $3.25; medium steers, 600 to 800 lbs. each, at $2.40 to $2.65; common stockers, 500 to 700 lbs. each, at $1.75 to $2.10. A few medium stockers were left unsold.

Milkers and Springers.

About forty milkers and springers were on sale, but the market was not nearly as strong as it has been lately, on account of trade not being as good in Montreal. Prices during the week ranged all the way from $30 to $65 each, with one or two extra quality cows at $75. The average price for the best cows was about $50.

Veal Calves.

Altho receipts were light during the week, the market was not any stronger, but, on the other hand, weaker, if anything. Poultry being more plentiful, is taking the place of veal. Prices ranged from $3 to $6 per cwt., with an occasional choice calf bringing $6.50 per cwt.

Sheep and Lambs.

Receipts were large and prices easy at following quotations: Export ewes, $3.25 to $3.50; rams, $2.50 to $2.75; lambs, $4 to $4.50 per cwt.

Hogs.

Mr. Harris reports the market unchanged, with prospects of lower prices for the coming week. Selects fed and watered, $6.25 per cwt.; to drovers at country points f.o.b. cars, $6, which means $5.85 to the farmer.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 22.—Cattle—Slow and unchanged.

Veals—Receipts, 200 head; active and steady, $6 to $8.75.

Hogs—Receipts, 4000 head; active and 20c to 35c higher; heavy, $5.85 to $6; mixed, $5.75 to $5.90; yorkers, $5 to $5.90; pigs, $4.25 to $4.75; roughs, $4.75 to $5; stags, $4 to $4.50; dairies and grassers, $5 to $5.75.

Sheep and Lambs—Receipts, 8000 head; sheep, active; mixed, steady; others, 25c lower; lambs, slow and 25c lower; lambs, $4 to $5.50, yearlings and wethers, $4 to $4.25; ewes, $3.75 to $4.

Chicago Live Stock.

CHICAGO, Oct. 22.—Cattle—Receipts, 11,000; steady to 10c lower; steers, $4.40 to $7.60; cows, $3.25 to $5.25; heifers, $3 to $4.25; bulls, $2.50 to $4.50; calves, $3.50 to $8.50; stockers and feeders, $2.60 to $4.60.

Hogs—Receipts, 22,000; steady to 10c higher; choice heavy shippers, $6 to $6.10; butchers', $5.90 to $6.05; light mixed, $5.35 to $5.60; choice light, $5.60 to $5.70; heavy packing, $5.60 to $5.80; pigs, $3.50 to $5; bulk of sales, $5.50 to $5.90.

Sheep—Receipts, 18,000; strong and 10c to 15c higher; sheep, $3.50 to $4.75; yearlings, $3.85 to $5; lambs, $4 to $5.50.

Cheese Markets.

BELLEVILLE, Oct. 22.—There were 2000 white and 170 colored offered to-day; 80 colored sold at 12c, 980 white at 11 13-16c, and 250 white at 11⅝c.

BROCKVILLE, Oct. 22.—At the weekly cheese board meeting to-day 1330 colored and 805 white were offered, making a total of 2135. Sold 950 colored and 525 white; best offer 12⅛c.

Watching the Anarchists.

Madrid, Oct. 23.—King Alfonso and Queen Victoria, accompanied by Premier Maura, have started for Barcelona, where he will remain until Oct. 27.

All the anarchist centres are being closely watched.

The Daily Tenement Bomb.

New York, Oct. 23.—Another bomb was exploded Wednesday night in an east side tenement, which has been guarded by police for weeks to prevent just such outrages.

Mr. Greenway Improves.

Ottawa, Oct. 23.—Hon. Thomas Greenway was much better last evening.

Woman Shoots Man.

Chicago, Oct. 24.—Mrs. Rosie Alberta, aged 41, whose husband, Joel Alberta, conducts a saloon, on Thursday shot and killed Zito Frappanpino, a baker, whose place of business is under the saloon. As the man fell the woman knelt over his unconscious form and begged him to live.

Mrs. Alberta is held on a charge of murder. She says Frappanpino tried to mistreat her. John Partippo, the business manager of Frappanpino, declared the shooting was the result of a long standing grudge.

Because He Ate Green Apples.

New York, Oct. 24.—Because he ate green apples after repeated instructions from his superior officer not to do so, Private Bernard Leiser of the 3rd Field Artillery, U.S.A., has been dishonorably discharged from the service and sentenced to forfeit all pay and allowances due him, and to be confined at hard labor for six months.

Shot Officer by Mistake.

Pittsburg, Oct. 24.—City Detective Clyde Edeburn early yesterday shot and almost instantly killed Policeman Thomas Farrell, who, it is said, he mistook for a highwayman, although the police department refuses to give out any details of the tragedy.

Capt. Robinson Killed.

Windsor, Oct. 24.—Capt. John Robinson of the barge Cutter was killed at Kelley Island in trying to save a pet dog, which fell overboard. Capt. Robinson jumped into the water and was caught between the vessel and the dock.

Condemned Yellow Newspapers.

Saratoga, N.Y., Oct. 24.—"Yellow" newspapers and the Sunday newspapers' "funny" sections were condemned in resolutions adopted at the final session of the New York Assembly of Mothers' Clubs.

LITTLE GIRL SUFFERED GREATLY WITH ITCHING, STINGING ECZEMA—CURE CAME WITH USE OF
Dr. A. W. Chase's Ointment.

Baby eczema brings keen suffering to many a little one and worry and anxiety to many a mother, who can find nothing to cope with it—nothing that will stop the dreadful itching and heal the raw, flaming skin.

Doctors fail, internal medicines are at the best slow and uncertain, and often do more harm than good to young children. Dr. Chase's Ointment, on the other hand, is applied direct to the diseased parts and brings relief and cure.

Mrs. Rollie Narrie, Sine, Hastings Co., Ont., writes: "Our little girl had itching eczema over her face and shoulders, and we could get nothing to help her until we began the use of Dr. Chase's Ointment. This ointment healed the sores rapidly a six boxes made a complete cure is a pleasure to recommend a paration which has proven great value." Ont.,

Mr. Oakley W. Beamer, suffered writes: "For two years and was from eczema in violent the head perfectly disfigured ab in vain, and face. I tried d Chase's Ointbut five boxes of use." ment completely cu ching of the

LITTLE GIRL BURGLARS

Twelve and Six Year Olds at Beverly, Mass., Make Big Hauls.

Systematic Robberies Conducted by Sisters Net Jewelry Valued at Thousands of Dollars—Sold Soap From Door to Door and Thus Got In Touch With Homes of Wealthy Citizens—Hidden In Doll's Clothes.

Beverly, Mass., Oct. 24.—After three months' search, the Beverly police, aided by the state troops, yesterday ran down the perpetrators of a score of recent burglaries in this vicinity which have mystified the authorities. Two little girls, sisters, one of them twelve years old and the other six, are accused by the police of having committed the robberies.

They came from a well-to-do family. Their father is an engineer, and owns his own house in Beverly. Both of the girls go to Sunday school, and the older, the police say, is a favorite in the public schools.

The police suspicions have rested on the two children for some time, but that they could be guilty seemed unbelievable. Yesterday the police went to their parents' house with a search warrant. The first find was made in a doll's trunk in the girls' bedroom. Carefully tucked away under the doll's dresses were found a diamond brooch, valued at $400; a sapphire an pearl breastpin, valued at $350; a gold watch, nine rings set with diamonds and other precious stones, seven valuable stickpins, three necklaces and a number of sterling spoons and fruit knives.

The biggest find was in the children's playhouse. The full value of the property is estimated at thousands of dollars.

The police say the two children showed the skill of old-time criminals. Permission from their mother to earn spending money by selling soap on commission gave them an excuse to call at residences in the town. If any one was at home when they rang the bell their tried to sell their soap; if they were not at home, so the police say, the children sought the nearest window or door, walked in and helped themselves. They limited their thefts to jewelry.

Three Daring Burglars.

Newark, N.J., Oct. 24.—Three masked men cut the telephone wires outside of the fine Perkins' home at Morristown, yesterday entered the house, knocked down one of the three maid servants, attacked and choked Mrs. P. W. Miller, a sister of the three Misses Perkins, who were in the house, and then ransacked the place.

The robbers, who are believed to be the ones who cut the wires and looted the home of Banker H. B. March in Orange a few nights ago, obtained at least $2,000 worth of jewelry in the Perkins' house and some money.

Murderer's Sanity.

Vancouver, B.C., Oct. 24.—A plea of insanity will be the defence o James Jenkins, the negro accused n the murder of Mrs. Mary Mor ed near Hazelmore. The trial o at New Westminster yesterday phy- Thursday evening a board an ex- sicians was appointed to m The phy- amination of the prisone kins was sicians decided that a weak. sane, but his mentalit the defence W. National W. C. T. U.

Denver, Col., Oct. 24.—The thirty-fifth annual convention of the National Woman's Christian Temperance Union met in the Auditorium of this city yesterday, and will continue its sessions until next Wednesday night. An extensive program has been prepared for three sessions each day except Sunday, when afternoon and evening religious meetings will be held.

Empresses Will Go to Pacific.

Victoria, Oct. 24.—In his speech last night at a banquet given by the Board of Trade, Sir Thomas Shaughnessy announced that the steamers Empress of Ireland and Empress of Britain, now part of the C.P.R. Atlantic fleet, might shortly be expected at Victoria to take part in the transpacific trade.

The Guild Not A Combine.

Hugh Blain Gives Evidence In Defence Of Grocers.

He Declares That Dominion Wholesale Organization Was Entered Into to Improve Trade—Agreement With Manufacturers Was to Insure Reasonable Profit to Wholesale Grocers—Zealand's Evidence.

Toronto, Oct. 24.—That the Dominion Wholesale Grocers' Guild is not a combine was the emphatic declaration of Mr. Hugh Blain, of Eby, Blain & Co., Toronto, who was the first witness called for the defence in the proceedings before Chief Justice Falconbridge yesterday. Mr. Blain has been an active member of the Guild since its organization, and in his evidence he explained the steps which had been taken by the wholesale grocers during the past twenty years, and the policy which the Guild had pursued with the view of improving the conditions of the trade. Their object, he said, in entering into arrangements with the manufacturers and refiners was to insure a reasonable profit for the wholesale grocers, who, he claimed, were the best and cheapest medium for the distribution of goods to the retailers. In no case had these arrangements resulted detrimentally to the consumer or to the retailer. There was nothing in the operations of the Guild calculated to bring about the results charged in the indictment.

Demands of other cases do not allow Chief Justice Falconbridge to hear the finish of the conspiracy charges and when time came to adjourn last evening his lordship announced that the balance of the defence evidence would not be heard till Nov. 10.

When the case opened in the morning Mr. Zealand was recalled to the witness box, and his evidence closed the case for the crown. He told Mr. Blackstock that his principal objection to the equalized rates system for sugar lay in the fact that the system charged excessive rates in order that the sugar should be properly distributed to the wholesalers, which meant that the price was increased to the consumers. To illustrate this fact he stated that the guild rate to Fort William was 36 cents, whereas he had secured a boat rate from Hamilton of 14 cents; then from Montreal to Guelph and Galt there is little difference in distance. The rate to Guelph is 14 and to Galt 24 cents.

Floated on Mattress.

Sault Ste. Marie, Mich., Oct. 24.—Clyde Seaman, 17, was drowned off Nine Mile Point in Hay Lake Thursday night, when the launch in which he and three others were riding was run down by the steamer John A. Donaldson.

In the launch with the boy were his parents, Mr. and Mrs. Donald M. Seaman, and James Burns. The boy was pla d on watch in the stern of the b , but went to sleep and did not the freighter as it approached. In he launch was a large bedtick when they were so suddenly precipitated into the water, the two men placed Mrs. Seaman upon it. Had it not been for this they declare that the whole party would have gone down.

Broken Leg Fatal.

Vancouver, B.C., Oct. 24.—Mrs. Von Ettinger, a visitor here from Germany, died yesterday morning in the general hospital. She was stopping at the Hotel Vancouver and accidentally broke her leg the other day. She did not recover from the shock.

Farmer Missing.

Ottawa, Oct. 24.—Simon O'Grady, a wealthy Carleton County farmer, has been missing from his home since Sunday night. It is supposed that he has drowned himself. He was in a despondent mood on Sunday. He is 44 years of age and unmarried.

Schooner Runs Ashore.

Kingston, Oct. 24.—At an early hour yesterday the schooner Fordriver ran aground in Navy Bay in heavy smoke, laden with coal, and had to be lightered before released. Capt. Daryeau said he could not see the length of the vessel.

Rural Delivery In Halton.

Milton, Oct. 24.—The Postoffice Department has established a rural mail delivery route between Milton and Mount Nemo. The first mail was delivered this morning.

Englishman Shoots Himself.

Vancouver, Oct. 24.—G. E. Davies, a young Englishman, committed suicide yesterday morning by shooting himself. He was 30 years old.

Windsor Man Gets Office.

Ottawa, Oct. 24.—James W. Kerr of Windsor, Ont., has been appointed preventive officer in the customs service.

Germany and Canada.

London, Oct. 24.—(C. A. P.)—The Frankfurter Zeitung, advocating the renewal of the Anglo-German commercial treaty, declares Germany must consent to make such a treaty with Britain alone and independent of any treatment meted out to her by Canada or any other British dominion.

The Morning Post's Berlin correspondent says the Germans now realize that they must treat with Britain and her over-sea dominions separately, and attention is now being devoted especially to commercial relations with Canada. German agrarians increasingly desire an agreement with Canada, which mainly interests sugar exporters. It is pointed out that home prices would be little affected whether Canadian wheat enjoys the most-favored-nation treatment or not.

Fires Sweep On.

Uxbridge, Oct. 24.—Bush fires are raging in the surrounding country. Valuable timber sections are in danger, as well as farming properties.

At Udora, a village to the north of here, a fierce fire is raging, which up to the present has destroyed fences and is creeping close to several large barns. People in the neighborhood are fighting it day and night.

At Zephyr a village to the northwest, a number of men are watching the station to prevent the fires spreading to the elevators. Large clouds of smoke continually pass over this town.

Seek Cause of Creighton's Death.

Owen Sound, Oct. 24.—The inquest over the body of James Farish Creighton, whose death on Wednesday in his cell cheated the gallows of a victim, was continued yesterday. No new developments transpired. The stomach will be forwarded to the provincial analyst to ascertain whether death was due to poisoning or not. The remains were handed over to the relative yesterday afternoon, and were buried from the residence of the aged mother of the condemned man.

Faith, Hope and Sinew.

London, Oct. 24.—(C. A. P.)—W. Bruce, one of the Scotch farmers who toured Canada, told the Dalkeith Agricultural Society that while the Dominion was worthy of consideration by young farmers, he would not advise farm servants to take up homesteads. J. M. Dobbie agreed and said that Canada was the place for faith, hope and sinew—especially sinew.

Have an Hour to Vote.

Ottawa, Oct. 24.—The vote of the civil servants will be polled on Monday between 9.30 and 10.30. An order to this effect has been issued, instructing the army of Government employes on the hill that they would be expected to cast their votes at that hour.

$80,000 Fire.

Dunnville, Oct. 24.—The evaporators of the Erie Evaporated Co. at Winger, a few miles from here, owned by W. J. Aikens of Dunnville, were totally destroyed by fire Thursday night. The loss is $80,000, covered by insurance.

Bribery Case Adjourned.

Sundridge, Oct. 24.—The case in connection with the alleged bribery charges was adjourned until Friday, Oct. 30, to allow the accused, Mr. Agar of Burk's Falls, and W. Unger, to get their solicitors.

May Be In Toronto.

New York, Oct. 24.—William Money of this city has taken his savings and disappeared, deserting wife and children. It is believed he has gone to Toronto, where his parents reside.

EVERY ELECTOR WHO RECORDS HIS VOTE FOR FUNNELL OR McCARGAR ON MONDAY NEXT VOTES APPROVAL OF ALL THE GRAFTING AND MIDDLEMEN SWINDLING THAT HAS BEEN PRACTISED FOR YEARS PAST. WHY? BECAUSE THEY ARE SUPPORTERS OF THE GOVERNMENT THAT HAS PRACTISED THEM. VOTE FOR PORTER, NORTHRUP AND HONEST GOVERNMENT.

THIS DAY IN HISTORY.

Charles Cattermole born, 1833.
Peace with China, 1850.
Florida ceded to U. S., 1820.

TIMELY TOPICS.

It is alleged that, in Trenton, most unfair methods have been adopted by the political friends of Mr. Funnell, the Grit candidate. We are told, on excellent authority, that the cry has been sent abroad in Trenton, "Vote for Funnell because he is a Trenton man."

• • •

This, we should say, shows a very narrow spirit among our neighbors to the west. The first duty of an elector, of course, is to vote for the representative of the party whose principles would do most for the advancement of Canada. Can any reasonable man deny that the great Conservative party, which built the C.P.R., inaugurated the National Policy and started Canada on the road to prosperity, is most deserving of support? We think not.

• • •

But, leaving aside the question of party, look at the personal qualifications of the candidates. Could any fair-minded man, who saw the candidates side by side at the nomination meeting in Trenton, deny that this is a battle between a giant and a pigmy? The scholarly eloquence of Mr. Porter, with his fine grasp of all public questions, was in marked contrast to the halting, stammering speech of Mr. Funnell, who evidently is a mere novice in all matters pertaining to debate and political economy.

• • •

And, in the face of this, we are told that Trenton people show signs of listening to the specious cry, "Trenton for a Trenton man," leaving merit aside. Such being the case, what is the plain duty of ALL Bellevillians? To fight their opponents with their own weapons. ALL Bellevillians should stand solidly together in support of Mr. Porter, who has been, for nine years, a representative of whom West Hastings could well be proud. At home and abroad he has covered himself with credit; among the debaters of the House of Commons he was in the forefront; his advice has many times been asked by his Leader in matters of national import; the interests of his constituents have always been well looked after by him. If the men of Trenton take it into their heads to ignore these plain facts they have only themselves to blame if Bellevillians meet clannishness with clannishness, and vote solidly, irrespective of political affiliations, for Mr. Porter. And that is what they should do.

• • •

Here is the question in a nutshell for YOU, Mr. Elector: Do you want the natural wealth and vast territory of this great country to be exploited for the benefit of a FAVORED FEW, or do you want the Government to be honestly administered and the profits used to lighten YOUR tax burdens? If you are satisfied to see others growing rich AT YOUR EXPENSE, vote for a Laurier candidate; if you want AN EVEN BREAK, with an honest chance at the good things YOURSELF, vote for a man who will back up Mr. Borden. Whitney stopped the grafting in Ontario; Borden will do the same in the Dominion. Now, Mr. Elector, this is our last word. IT'S UP TO YOU.

• • •

The Toronto Star is running a story called "The End Crowns All." Judging by the false statements and specious arguments in its editorial columns, the Star evidently lives up to its story head in everything.

• • •

IN THE PAST BELLEVILLE CONSERVATIVES NEVER FAILED IN THEIR SUPPORT OF THE PARTY CANDIDATE, WHETHER HE CAME FROM TRENTON OR KALAMAZOO. THE GEOGRAPHICAL SIDE OF THE QUESTION NEVER INTERESTED THEM. THEY WERE LOYAL TO THE ACCREDITED STANDARD-BEARER. IF THEIR FAIRNESS IS TO BE MET WITH GROSS UNFAIRNESS IT IS TIME FOR THEM TO TAKE STEPS TO PROTECT THEIR OWN INTERESTS. AND THE BEST WAY TO DO SO IS TO VOTE SOLIDLY, ON MONDAY, FOR MR. PORTER.

• • •

Last call. Vote for Porter and Northrup.

• • •

A German physician has compiled a list of 1,100 known diseases, among which he has probably not included that of smoking Turkish cigarettes.

• • •

A little calm meditation to-morrow will help anybody to a determination to vote right on Monday. Which means, of course, that he will vote Conservative.

The Grits are distributing a foolish pamphlet which professes to show, by means of a blank page, what Mr. Porter has done for West Hastings. It would be well for many a Liberal candidate and Cabinet-Minister if he could show as clean a record as the West Hastings Grits concede to Mr. Porter.

One more day, and Canada's fight for freedom from the grafters will be over.

L'ENVOI.

The tumult and the shouting dies,
At last the hot campaign is o'er,
No more we'll see the Grit who tries
To tell us 1 and 2 are 4.
In all the field of politics
Clean Borden is the one best bet,
Returned he'll be, despite Grit tricks,
Don't you forget; don't you forget.

So with this fact before your eyes
Don't act a part to cause you shame,
Your duty plain before you lies
Work for your man; get in the game!
With honesty we would be ruled,
From grafters' clutches we would get,
Don't by false issues be befooled—
For Porter vote — AND DON'T FORGET.

• • •

Borden for Premier and Better Government.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

SPORTS AND PASTIMES.

SPORTING NOTES.

Entries for the road race on Thanksgiving Day, under the auspices of the A. O. U. W., are coming in quite freely, the prospects being that there will be many contestants for the cup. One of the latest entries is H. B. McConnell, of Maynooth, who recently ran at Toronto and finished 38th in a field of 139.

Shrubb who threatens to run against Longboat to-day in Montreal has done a mile in 4.26, and two miles in 9.11.

It is alleged that Shrubb will run in the Montreal road race this afternoon. Flanagan says he'll stop him and Montreal sportsmen say they'll protect Shrubb. There may be a riot.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

Conservative Rally On Saturday Night

Owing to the fact that Mr. Porter, the Conservative Candidate, was detained by a wreck on the C.O.R., he was unable to be present at the meeting called for last night. Therefore it has been decided to hold the final

CONSERVATIVE RALLY ON SATURDAY NIGHT.

In the

City Hall at 7.30 p.m.

Bright Conservative orators will address the meeting, and no pains will be spared to make this a fitting close to a victorious campaign.

Seats will be reserved for ladies, and they are cordially invited to be present and hear the issues of the day discussed.

God Save The King.

A Big Market To-day.

To-day's market was one of the largest that has been held here for some time. Produce of all descriptions was offered for sale in considerable quantities. Dressed fowls were plentiful and quite reasonable in price. There was little change to note in other prices.

THE WEATHER.

TO-DAY'S PROBS.

Strong easterly winds, cloudy, with local rains. Saturday, southeasterly winds, warm and mostly fair, but some local showers.

One of the largest shipments of Fruit, by express that we have ever received came to hand to-day, consisting of PEACHES, PLUMS and GRAPES.

Special low prices today.

JAS. WALLACE & CO.

Did It Ever Occur to You

That children of bright parents are not naturally stupid? And yet how many of them have an aversion to their books and lessons on account of their near vision being painful. If their distant vision is bad, blackboard instructions are a mist. In justice to your children be sure their vision is the best possible.

Have our expert Optician examine their eyes, he will take every interest in their case, and it is the BEST examination to be had in the city.

Shameful Work in Rainy River District

Cap. Sullivan and Other Election Thugs on the Job.

Here is the news from the Rainy River District:

> Flagrant Violations of the Election Law in Rainy River District—Shameful List Padding is reported in Nipissing—Thirty-Nine Men Who Are on Both Quebec and Ontario Lists—Hundreds of Names Put on as G.T.P. Workmen.

So flagrant is all this that the following telegram was sent from Port Arthur:

Port Arthur, Oct. 21.
Hon. J. J. Foy, K.C.,
Attorney-General,
Parliament Building, Toronto.

"Open and flagrant violations of election law in this constituency. Cap. Sullivan and other nefarious workers now here. Can you send ten special officers immediately?"

FRANK H. KEEFER.

There is but one place for the Cap, and the sooner he is put there the sooner justice will be done.

Libels Galore!

The Hon. Geo. E. Foster has picked up the gauntlet thrown at him by the Globe as a challenge to enter an action for libel for what it has said about him, and demands the nice little sum of $150,000, $50,000 from the editor and $100,000 from the publisher. This reminds us that when the editor gets into court he won't be able to "hide behind another man's coat tails."

May we not add that it is well for the Globe and its editor that they are of the party in which some members get rich very rapidly, or Foster would never think of entering a suit claiming $150,000 for slander. No one would be foolish enough to ask for such a sum from a Tory editor and publisher for the reason that no opportunity was ever offered any of them to so enrich themselves.

The Globe, however, in acknowledging the receipt of a demand for an apology, says: "We welcome this threatened action," and the Rev. editor says, "I won't apologize."

• • •

The Hon. ex-Judge Ouimet joins the fighting brigade of newspaper libellers, and has entered an action claiming damages to the extent of $10,000 from "Le Canadien," a newspaper published in Montreal, for having spread the report through the County of Yamaska that he is disqualified, and cannot take his seat in Parliament if elected.

• • •

Still another. Frank M. Field, Esq., K.C., of Cobourg, is suing Mr. Sam Clarke, Liberal M. P. P. for West Northumberland, for $10,000, "damages for slander." There are a number of others which have been entered, all arising out of the election campaign.

Laurier or Borden?

Which of these men shall lead the Government for the next five years? That is the main question. In this Riding the Conservatives have nominated Mr. Porter, because they know that he will make a good member of Parliament. Above and really beyond this, at the present critical moment, stands the fact that, if elected, his vote will be against Laurier and for Borden. Every vote for the Conservative candidate, therefore, counts, not only as a help to sending him to represent you in Parliament, but as a vote for clean, honest, businesslike conduct of the great interests of this growing country, under a new and clean Government. As a loyal Canadian you are therefore bound to vote against the Liberal candidate, even if personally he were the cleanest man in the Riding. The cleaner the Liberal member is under the present Liberal regime, the less influence could he, or would he have, in the Government as it has lately been administered at Ottawa.

Let no man, then, stay at home on election day who can go to the polls and vote FOR A CHANGE of leaders and of administration.

World's Fastest Typewriter.

New York, Oct. 24.—Miss Rose Fritz of Brooklyn again proved that she is the fastest typewriter operator in the world by winning the contests for the championship at the Business Show at Madison Square Garden. Miss Fitz retained the championship by writing eighty-seven words a minute. Emil Trefzger was a close second with eighty-six words, and Otis Elaisdell was third with eighty words.

MR. E. GUSS PORTER,
Conservative Candidate — The Man who will Carry West Hastings on Monday.
VOTE FOR HIM.

Political Pointers.

Porter, Borden and Victory.

Don't forget the meeting in the City Hall to-night. Hear the last broadside fired at Grit corruption.

Two days of local option. The city will be "dry" from 7 p.m. to-day till 6 a.m. Tuesday.

In the Quinte district things political hardly ever looked better. West and East Hastings, Prince Edward, Lennox and Addington, all are sure for followers of Mr. Borden.

It is alleged that the Dominion Government has extended the season for catching whitefish and salmon for one week. This, if true, is nothing more nor less than a shameless bid for fishermen's votes. But Capt. Hunter, Provincial Fish and Game Inspector for this district, does not believe it is true. At all events he has not been notified of it, and he certainly should, and probably would have been told if the season was to be extended. It looks like a shameless roorback, gotten up to get the good will of the net fishermen under false pretences.

Excellent work, in the way of final organization, was done in the Conservative central committee rooms last night. Mr. Porter was in Trenton, where he had the final word with his friends in that town. From North Hastings come glowing reports. The stalwarts of the North are in line to a man. The biggest majority on record for Mr. Porter is confidently expected on Monday.

Grit "machine" men have practically given up hope of winning in 60 seats in Ontario. That spells defeat for Laurier. French domination will come to an end on Monday.

It is confidently predicted that Mr. McCargar will save his deposit in East Hastings And that's about all.

The taxation per head was $5.46 in 1896; $10 per head in 1906, and is this year $11.70. The increase of taxation since 1896 is 163 per cent.

Two days more, and Mr. Funnell will be able to see what kind of a prophet he was when he said he would be beaten by 1500 in West Hastings.

Mr. Thomas Murray, the former Liberal member, has written a letter to his former constituents in Pontiac county, calling on them to vote for Mr. R. L. Borden. Honest Liberals who oppose grafting and middlemen stealings will take Mr. Murray's advice.

MEETING IN BLEECKER WARD LAST NIGHT.

There was a fine meeting in the Conservative committee room in Bleecker Ward last night. The attendance was large and most enthusiastic. Mr. P. Flagler was the chairman and introduced the speakers, Messrs. J. W. Johnson, M. P. P., and W. S. Morden. Both the speakers expressed not only the pleasure they felt in being present but also the honor that was theirs in being associated with such men. Mr. Johnson took the opportunity of expressing his gratitude for their work for him at the election in June last, when Bleecker Ward gave him a majority of 47. He hoped this would be repeated on Monday. The affairs of the county were discussed and the meeting closed with cheers for Mr. Borden, Mr. Porter, Mr. Johnson and the King.

Smith-Blair.

The Lawrence, Kansas, Gazette thus reports the marriage of a young lady who once resided in this city, her father, Mr. Hugh Blair, having been an Alderman in Belleville:

One of the prettiest of home weddings took place this afternoon, when Miss Helen Blair, daughter of Mr. and Mrs. Hugh Blair, and Mr. Allen Christian Smith, of Kansas City, were married.

The wedding was as simple in all details as it was possible to make such an occasion, which must of necessity be somewhat formal. The ceremony was performed by Rev. M. B. Nethercut, pastor of the First M. E. Church, only relatives and a few intimate friends being present. Just before the ceremony Mrs. A. P. Hults sang "Rose in the Garden" and "O, Promise Me."

Mr. and Mrs. Smith left immediately for Chicago, where they will make their home. Mrs. Smith is a graduate of the University of Kansas, and the following two years received her A.B. and A.M. degrees. She has always lived in Lawrence, where she has a host of friends.

Mr. Smith has always made his home in Virginia, until about four years ago, when he came to Kansas City, where he has been in the advertising business. He is a graduate of William and Mary College of Virginia.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Smashing Her Baggage.

A series of terrific crashes against the front door brought the mistress to that exit, and, flinging it open, she beheld standing calmly before it the new cook, her baggage lying about in confusion, while driving off with a black countenance was the baggageman.

"Mercy!" exclaimed the startled mistress. "Why did that rude man hurl your baggage after you like that, Mary? Wouldn't you pay him?"

"Oh, it ain't thot, mum; but me last job wor at his house."—Judge.

A Useful Tool.

Gyer—Lots of inventors never fully realize the importance of their inventions.

Myer—Don't they?

Gyer—No. Take the hairpin, for example. It is said the inventor never intended it to be used in dressing the hair.—Minneapolis Journal.

A Reason Now.

"Oh, Arizona will be admitted, all right," said the gentleman from that territory.

"Been turned down pretty regularly, hasn't it?"

"Don't let that worry you. They'll need the name for a battleship now."—Philadelphia Ledger.

Deluding Himself.

Towne—It doesn't seem to have done Gagley any good to join church. He appears to be grouchier than ever since he got religion.

Brown—I don't believe he's got it at all. I'll bet what he takes for religion is merely dyspepsia. — Philadelphia Press.

All the world's a stage and all the actors try to monopolise the spot light.

GREAT CLEARING SALE OF WALLPAPER
AT
Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale
C. B. Scantlebury's

TIMELY TOPICS.

MOTHERHOOD.

By Marian Phelps.

A downy head against my bosom pressing,
While dimpled fingers wander o'er my face
With shy, uncertain touch my brow caressing,
And, downward straying, every feature trace.

Sweet, sudden smiles that set my pulses swinging,
Blue eyes that to mine own love's message speak;
About my neck two soft arms creeping, clinging,
And open-mouthed wet kisses on my cheek.

A baby voice in drowsy comfort crooning
A sleepy little song, to mother ears
For sweeter melody than song bird's tuning;
And now, at slumber's gate, the darling hears

Faint lullabies, and far dream-voices calling;
The bonny head droops low; long lashes sweep,
O'er pearly cheeks, till slowly, gently falling,
My dreamer nestles in the arms of sleep.

Ah! mother, o'er your burden fondly bending,
Close holding to your throbbing heart of bliss
The fairest gift of Heaven's gracious sending
Can there be richer earthly joy than this?

* * *

A certain comedian once went out with a fishing party and soon began to suffer from thirst and evident failure with the hook. Finally one of the crowd took pity on the sufferer and fastened a bottle of beer to his fishing line while he was on a voyage of exploration.

When the actor returned he found his line rather heavy and started to haul in what he thought was the biggest fish of the day, Gleeful over his changed luck, he shouted to the captain:

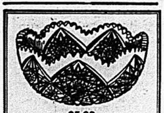
"Hey, captain, this is the place. Anchor right here; we're sailing over a brewery!"

* * *

The girl had been three weeks in the employ of an artistic family; but her time had been by no means wasted. Her mistress was giving her instructions as to the dinner.

"Don't forget the potatoes," enjoined the lady.

"No ma'am," was the reply; "will you 'ave 'em in their jackets or in the nood?"



$5.00

WITH the approach of Christmas comes the troublesome question of what to give.

CAN you think of anything more beautiful or artistic than a piece of richly cut glass?

THIS $5.00 Berry Bowl is deeply and perfectly cut from brilliant crystal glass in the favored mitre pattern The price is just

$5.00

CALLED OF GOD.

(Sermon by Rev. A. R. Schrag, Tabernacle Congregational Church, Yarmouth, N.S.)

"Then the word of the Lord came unto me saying, Before I formed thee I knew thee, and before thou camest forth I sanctified thee; and I ordained thee a prophet unto the nations."—Jeremiah 1, 4.

The village of Anathoth now lies in ruins about three miles from Jerusalem. It was a beautiful village, situated among the hills, on a winding road where every turn presented a new prospect of merging hill and cloud. The road on entering the village divided itself into narrow streets equally as steep and crooked. Such was Jeremiah's birthplace. Its kaleidoscopic scenery and hilly streets were prophetic of his chequered career, and the troublesome times of his nation. In his boyish love of adventure Jeremiah climbs to the pinnacle towering high above all else. There he sits on the uppermost edge of a jutting rock. It is the most perilous place he can find, but it grants the vantage of a bird's eye view—close and clear—of the village. He sees the booths and bazaars of the market thronged by a motley crowd. Yonder is the school-house, and the synagogue, and the praying-wall, and the gate where sit the elders administering justice and discussing politics and religion. It is a busy scene, many-hued and noisy. Often has it fascinated him, but to-day the scene is a parable. It teaches him rather than pleases. This is what it teaches Jeremiah: God sits in the heavens overseeing and overruling the affairs of men; He brings them into being: He provides their environment; He calls each one to a definite work. That is the parable to Jeremiah. It strikes home to his own life. He asks, "What does God intend me to do?" True, I am but a lad, but true, also, that soon I must take a man's place in the world. What place has God appointed for me? Perhaps he has played the game. What say the buttons?

"Rich man, poor man, beggar man, thief,
Doctor, lawyer, Indian chief."

He thought it fun then, but to-day it is a question freighted with the destiny of a human soul. He is fearfully in earnest. Every fibre of muscle is tense; every nerve taut; every drop of blood at fever heat; his whole being cries out, "Oh, God, tell me, tell me. What shall I be?" At last, on the ebb and flow of his questioning, there is borne the conviction, speaking to him as the Voice of the Most High: "I have appointed thee a prophet unto the nations."

We have heard it said, "I believe that God calls a certain man to be a prophet as in the case of Jeremiah, or a king as with David, or a general as with Joshua. God calls the genius, but the ordinary man—what does God call him? Has God a life work for the meanest as well as the greatest?" Yes. A study of the Scriptures shows that God not only calls the genius from the ranks of humble obscurity, but also he has a definite problem for each and every one of the common folk. We are all equally his children. He cares for no one above another. He plans for each human being as His son. The architect rightly boasts that his plan of the cathedral provides for every need, and anticipates every want. There is a place for everything and everything in its place. Nothing is forgotten; no misfits, no waste. Even the minutest of details are cared for as if they were of paramount importance. If then, a man can so plan, how much more carefully does the Divine Architect map out a place for each to fill. Yes, God has a place for every one. It may not be as conspicuous as the tower, or bear as great a strain as the corner-stone, but it is "my" place, and it is pre-arranged.

You are out in the garden pulling the weeds; you reflect that your life is as the weed—one of the many, so many as to be a nuisance; you will never be missed, you are useless. It were better that you were out of the way. Now a Burbank comes along, crying, "Spare that weed! God has ordained it for good." And he goes on to explain that there is really no such thing as a weed, if by a weed you mean a useless plant. It is true to-day and in the beginning: God made it, and God saw that it was good, and God said, "I have given every green herb for food. Has He not much more a use for you, His son?

No matter if by number you are as a grain in a sand-heap. You are not, therefore, insignificant. Even as a number, you are equal to any other. You are only one, no other is counted for any more than one, and, as that one, you have had God's special care to make you different in form, and taste, and beauty, and strength, and talent, and in many other things. You are yourself distinct from all else. Surely God does not love you "en masse," but has respect for your individuality.

"Thou art so much his care, as if beside
Nor man, nor angel, lived in Heaven or earth."

Believe it, God has a plan for your life. He has marked out your place. It may be a lowly place, murmur not; it may be a hard place, play the man. it may be on the sunlit heights, be humble. Rest assured that it is for you the best place, since it is God's appointed.

Who shall point out your place? Sometimes the word of the Lord comes through the voice of parents. But not always, because often they plan according to pride and reck not the counsel of God. Sometimes God points out the way by the hand of a friend. Yet friends fail in that they judge according to their tastes, but God has made you different from them. If parent and friend fail, surely it is folly to secretly visit the fortune-teller, or send away for your horoscope, or have a phrenologist feel your head, or a palmist read your hand. If you appeal to them by virtue of their profession of occult powers, you are superstitious; and if their interest in you is none other than to obtain your money, you are defrauded. This matter is between God and you alone. He has the light. He holds it as a candle sheltered in His hand, and when it is best He will flash it upon your path. When shall that be? How shall it come? No one can foretell Perhaps God shall call you as He did Abraham in the fullness of years with the yearning of an immigrant; or as Joseph while yet a stripling in a dream; or as Moses, exiled in Midian, out of some startling strangeness of nature; or in the heaviness of grief, as [illegible] or in "the when it is best He will flash it upon small voice, as with Elijah. God shall speak, you shall hear. There need be no mistake. Run not before Him, wait patiently. Meanwhile there is the daily duty and burden and privilege. Fulfil these during your hidden years, even as our Lord so found favor with God and man at Nazareth.

When God calls, obey. What though the call is not as you dreamed, obey. What though foes sneer, obey. What though the beloved pleads against it with tears, obey.

"Launch your vessel
And crowd your canvas,
And ere it vanishes
Over the margin,
After it, follow it.
Follow the gleam."

For this is the way of eternal life. to hear and obey. When the man at the bench can say, "God has called me here, God is strong. therefore I toil." When the teacher can say, "This is my place. God is true, therefore I teach." When the mother can say, "Home is my work. God is love, therefore I serve." When the sufferer can say, "This is the hand of the Lord, God is wise, therefore I endure," then does it come to pass:

"That more and more a Providence,
Of love is understood,
Making the springs of time and sense
Sweet with eternal good.
That all the jarring notes of life,
Seem blending in a psalm.
And all the angles of its strife,
Slow rounding into calm."

A CURE FOR RHEUMATISM

THE TROUBLE YIELDS TO THE RICH, RED BLOOD DR. WILLIAMS' PINK PILLS ACTUALLY MAKE.

Ask any doctor and he will tell you that rheumatism is rooted in the blood; that nothing can cure it that does not reach the blood. It is sheer waste of money and time to try to cure rheumatism with liniments and lotions that only go skin deep. You can speedily cure rheumatism with Dr. Williams' Pink Pills, which enrich the blood, drive out the poisonous acid and loosen the stiffened, aching joints. Among the thousands of rheumatic sufferers cured by Dr. Williams Pink Pills is Mr. W. A. Taylor, Newcastle, N. B., who says:—"For a number of years I was a great sufferer from rheumatism which was seated in my shoulders and knee joints. I tried liniments and blistering, but with no effect. In fact the trouble was getting worse, and my knee joints grew so stiff that they would snap if I stooped, and I could scarcely straighten up. Altogether I was a terrible sufferer, and nothing I did or took gave me any relief until I began the use of Dr. Williams Pink Pills. I took the Pills steadily for a couple of months and every vestige of the trouble disappeared. That was two years ago, and as I have had no return of the trouble I feel safe in assuming that the cure is permanent.

Nine-tenths of the common ailments that afflict humanity are due to bad blood, and as Dr. Williams Pink Pills actually make new blood. that is the reason they cure so many different troubles, such as anaemia, indigestion, rheumatism, eczema, neuralgia, St. Vitus dance, paralysis and the ailments of girlhood and womanhood with all their distressing headaches, backaches and irregularities. Sold by all medicine dealers or by mail at 50c a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Agents Essential.

Ottawa, Oct. 24.—W. T. R. Preston, Canadian Trade Commissioner in Japan, in a report to the Trade and Commerce Department, deals with the opposition which is developing in Japanese commercial circles against the foreign trade agencies in that country, and especially against the Canadian Government agency. The objection to direct trade with Canada arises from the fact that it cuts out the commission which Japanese commercial agencies have formerly enjoyed. Mr. Preston maintains, however, that the Government agent is essential to the development of Canadian business.

Sell Lower to India.

London, Oct. 24.—(C.A.P.)—Regarding the steel rails ordered by the Southern Punjaub Railway from the Dominion Iron & Steel Co., The Yorkshire Herald says that the exact price quoted has been communicated in confidence to some of the English firms who tendered. The secret is being carefully preserved, but the price is said to be considerably lower than that at which the same firm is now supplying the same type of rail in the Dominion of Canada.

PASSENGER TRAFFIC

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT 1907, BY McCLURE, PHILLIPS & CO.

e for what seemed an interminable
e. His superior officer fidgeted un-
ily. At last he could stand it no
ger.

Dr. Trendon, are you all right?" he
uted.

Yup," answered a choked voice.
ubbing oud dow."

gain the funnel was darkened. A
of feet appeared, then the sur-
n's chunky trunk, his head and the
tern. Once, twice and thrice he in-
ed deeply.

Phew!" he gasped. "Thought I was
gh, but phee-ee-ee-ew!"

Did you find"—

No, sir. Not Darrow. Only a poor
ll of a seal that crawled in there to
"

he exploration continued. Half a
e, as they estimated, from the open
reached a narrow beach shut off
perpendicular wall of rock. Skirt-
this, they returned on the other
, minutely examining every possi-
crevice. When they again reached
light of day they had arrived at
certain conclusion that no living
was within those walls.

Would a corpse rise to the surface
in waters such as these, Dr. Tren-
?" asked the captain.

Might, sir. Might not. No telling
."

he captain ruminated. Then he beat
fist on his knee.

The other cave!"

What other cave?" asked the sur-
.

The cave where they killed the
s."

Surely!" exclaimed Trendon. "Wait,
gh. Didn't Slade say it was be-
en here and the point?"

Yes. Beyond the small beach."

No cave there," declared the sur-
positively.

There must be. Congdon, did you
an opening anywhere in the cliff
we came along?"

No, sir. This is the only one, sir."

We'll see about that," said the cap-
grimly. "Head her about. Skirt
shore as near the breakers as you
ly can."

he gig retraced its journey.

There's the beach, as Slade describ-
t," said Captain Parkinson as they
e abreast of the little reach of
d.

And what are those two bird roosts
it?" asked Trendon. "See 'em?
d against that patch of shore
d."

Bits of wreckage fixed in the sand."

Don't think so, sir. Too well
ched."

We have no time to settle the mat-
now," said the captain impatient-
ly. "We must find that cave if it is to be found."

Hovering just outside the final drag of the surf, under the skillful guidance of Congdon, the boat moved slowly along the line of beach to the line of cliff. All was open as the day. The blazing sun picked out each detail of jut and hollow. Evidently the poisonous vapors from the volcano had not spread their blight here, for the face of the precipice was bright with many flowers. So close in moved the boat that its occupants could even see butterflies fluttering above the bloom. But that which their eager eyes sought was still denied them. No opening offered in that smiling cliffside. Not by so much as would admit a terrier did the mass of rock and rubble gape.

"And Slade described the cave as big enough to ram the Wolverine into," muttered Trendon.

Up to the point of the headland and back passed the boat. Blank disappointment was the result.

"What is your opinion now, Dr. Trendon?" asked the captain of the older man.

"Don't know, sir," answered the surgeon hopelessly. "Looks as if the cave might have been a hallucination."

"I shall have something to say to Mr. Slade on our return," said the captain crisply. "If the cave was a hallucination, as you suggest, the seal murder was fiction."

"Looks so," agreed the other.

"And the murder of the captain. How about that?"

"And the mutiny of the men," added the surgeon.

"And the killing of the doctor. Your patient seems to be a romantic genius."

"And the escape of Darrow. Hold hard," quoth Trendon. "Darrow's no romance. Nothing fictional about the flag and ledger."

"True enough," said the captain and fell to consideration.

"Anyway," said Trendon vigorously, "I'd like to have a look at those bird roosts. Mighty like sign posts to my mind."

"Very well," said the captain. "It'll cost us only a wetting. Run her in, Congdon."

With all the cockswain's skill and the oarsmen's technique, the passage of the surf was a lively one, and little driblets of water marked the trail of the officers as they shuffled up the beach.

The two slabs stood less than fifty yards beyond high water tide. Nearing them, the visitors saw that each marked a mound, but not until they were close up could they read the neat carving on the first. It ran as follows:

Here lies
SOLOMON ANDERSON
alias
HANDY SOLOMON
who murdered his employer, his captain and his shipmates and was found dead of his deserts on these shores, June 5, 1904.
This slab is erected as a memento of admiring esteem
by
the last of his victims.
"And you can kiss the book on that."

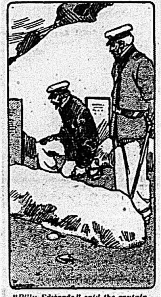
"Percy Darrow fecit," said the surgeon. "You can kiss the book on that too."

"Then Slade was telling the truth!"

"Apparently. Seems good corroboration."

The captain turned to the other mound. Its slab was carved by the same hand.

Sacred to the memory of an ensign of the United States navy, whose body, washed upon this coast, is here buried with all reverence, by strange hands; whose soul may God rest. "The seas shall sing his requiem." June the sixth, MXMIV.



"Billy Edwards," said the captain.

"Billy Edwards," said the captain, very low.

He uncovered. The surgeon did likewise. So for a space they stood with bared heads between the twin graves.

CHAPTER XXX.

THE surgeon spoke first.

"Another point," said he. "Darrow was alive within a few days."

Captain Parkinson turned slowly away from the grave. "You are right," he said, with an effort. "Our business is with the living now. The dead must wait."

"Hide and seek," growled Trendon. "If he's here why don't he show himself?"

The other shook his head.

"Place is all trampled up with footprints," said Trendon. "He's plodded back and forth like a prisoner in a cell."

"The ledger," said the captain. "I'd forgotten it. That grave drove everything else out of my mind."

"Bring the book here," called Trendon.

Congdon unwrapped it from his jacket and handed it to him. The sailors cast curious glances at the two headstones.

"Mount guard over Mr. Edwards' grave," commanded the captain.

(To be continued.)

BABY'S OWN TABLETS A BOON TO CHILDREN

A medicine that will keep babies and young children plump and good natured, with a clear eye and rosy skin is a blessing not only to the little ones but to mothers as well. Baby's Own Tablets is just such a medicine. They cure all the minor ailments of children and make them eat well, sleep well and play well. They are used exclusively in thousands of homes when a child medicine is needed. Mrs. G. Collins, Hirkella, Man., says:—"Baby's Own Tablets are the most satisfactory medicine I have ever used for ills of young children. They are as good as a doctor in the home." Sold by medicine dealers or by mail at 25c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

$800 a Year Essential.

Boston, Mass., Oct. 24.—Prof. Thos. Nixon Carver of the department of economics at Harvard, in a special article issued yesterday, says that any man who marries on a salary of less than $800 a year is guilty of a sin against his country, and suggests that if it is possible such unions should be prevented. The professor says:

"With a father getting only $15 a week, the children necessarily will be along $15 a week lines. They will simply add to the already over-crowded ranks of this class. With this addition from births and with the addition from immigration only fools believe that this nation's standard for workingmen can be maintained."

KEEP THE KIDNEYS WELL.

HEALTH SAVING EXPLAINED BY A BELLEVILLE CITIZEN WHO KNOWS FROM EXPERIENCE.

Many Belleville people take their lives in their hands by neglecting the kidneys when they know these organs need help.

Sick kidneys are responsible for a great amount of suffering and ill health.

The reason so many use Booth's Kidney Pills is their quick relief for all Kidney weakness. Here is what a Belleville citizen says:

W. J. Deacon of 74 Mill St., Belleville, Ont., says:—"Mrs. Deacon had complained for years of many painful and annoying symptoms of Bright's disease and although she had used a number of remedies, there was nothing to benefit her. She was greatly run down in her general health, her back became so weakened and painful that she could neither stoop or straighten herself up without much suffering. Headaches were frequent, dizzy spells would leave her in a most miserable condition and often she would have to support herself to keep from falling. She was restless and could not sleep. Booth's Kidney Pills were advertised at Mr. McKeown's Pharmacy. She used two boxes of them and has not suffered since. She is stronger and better than in years previous and says she would not be without a box of Booth's Kidney Pills in the house." Sold by Dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

By all odds, the most important thing to remember when buying underwear is to look for the Pen-Angle trade-mark. Picture shows you where to find it. Every garment so trade-marked is guaranteed perfect in material and making. If it isn't, the dealer will hand you back your money. You risk nothing when you buy Pen-Angle Underwear. Pen-Angle is made for men, women and children, in many fabrics, weights and form-fitting sizes. The Pen-Angle line contains the garments that will best suit your requirements at this season, and every other season of the year. Your dry goods dealer or gents' furnisher will show you Pen-Angle Underwear.

Surgical Aids to the Afflicted

Authors & Cox

135 Church St.
Toronto. Est. 1860.

Hip Splints

To relieve the pain—support the spine—make walking easier—and assist in curing the trouble—we recommend the Thomas Hip Splint for hip disease. Easy to adjust—quickly put on and off—and lends welcome aid to the afflicted. Made to order specially and a perfect fit assured.

If you are afflicted in any way, write us about your case. We have brought comfort and health to many who were apparently "crippled for life," or able to move only by the aid of crutches. To-day they walk, run and even skate. We can probably help you. Write us.

9

OGILVIE'S ROYAL HOUSEHOLD

Only part of the wheat berry is fit for food. Yet much that isn't often gets into flour. You cannot see it or taste it, but it's there. It is simply a case of the miller getting more flour from his wheat and your getting less nourishment.

Royal Household Flour

is so milled that nothing goes into it except the part of the wheat that is food. You get just what you pay for—the best and purest flour made. It goes farther because it is all flour. Your grocer can supply you.

Ogilvie Flour Mills Co., Ltd.
156 Montreal.

Some men are so smart that they need all their brains to keep them out of difficulty.

BLOOD DISEASES

Guaranteed Cured or No Pay.

If you ever had any contracted or hereditary blood disease, you are never safe until the virus or poison has been removed from the system. You may have had some disease years ago, but now and then some symptom alarms you. Some poison still lurks in your system. Can you afford to run the risk of more serious symptoms appearing as the poison multiplies? Beware of mercury or mineral drugs used indiscriminately—they may ruin the system. Twenty years experience in the treatment of these diseases enables us to prescribe specific remedies that will positively cure all blood diseases of the worst character, leaving no bad effects on the system. Our New Method Treatment will purify and enrich the blood, heal up all ulcers, clear the skin, remove bone pains, fallen out hair will grow in, and swollen glands will return to a normal condition, and the patient will feel and look like a different person. All cases we accept for treatment are guaranteed a complete cure if instructions are followed.

Reader if in doubt as to your condition, you can consult us FREE OF CHARGE. Beware of incompetent doctors who have no reputation or reliability. Drs. K. & K. have been established over 20 years.

WE CURE Nervous Debility, Varicocele, Stricture, Blood and Secret Diseases, Kidney and Bladder Complaints. Consultation Free. If unable to call write for a Question List for Home Treatment.

BEAUTY BRUSH

For Bath and Toilet

Made of the finest quality of soft rubber. Its surface is formed of vacuum cups, which, when applied to the skin, extract from the pores all impurities and stimulate the circulation of the blood, thus imparting a natural glow of health to the skin and preserving the complexion clear and beautiful without the use of any chemical lotion.

In the centre of each vacuum cup of the Beauty Brush there is a rubber tongue, or articulator, which agitates the surface of the skin when the brush is used for massage. It is in the combination of a vacuum cup and articulator that the Beauty Brush excels for toilet massage.

DIRECTIONS FOR USING:

Ladies and gentlemen will find this brush equally good to promote a clear complexion, remove wrinkles and freshen and invigorate the skin. It may be used as an ordinary sponge, with soap and water, or dry, as a massage brush.

When applied to the face it should be drawn upwards from the eyebrows over the forehead.

From the cheeks and under the eyes draw the brush towards the ears. Along the chin and neck draw the brush downwards. This will remove wrinkles as well as administer an excellent massage to the face.

The brush should be pressed hard enough against the face to make the drawing action of the vacuums perceptibly felt.

AFRICAN MARRIAGES.

Peculiar Customs of the Different Native Tribes.

The marriage customs of west and southwest Africa are in many cases peculiar. They differ, of course, in different tribes, but have broad lines in common.

A coastal tribe always considers itself superior to an inland tribe, and even its meanest member claims to rank higher than the most powerful man of an up-country tribe. A man may marry any woman he likes of any tribe, it being held that he gives her his own status, whatever that may be, but it is almost unheard of for a woman to marry "beneath" her. As a result some of the women of the most superior coast tribes, like the Mpongwe, look to marriage with white men and frequently attain to it.

The parents on both sides rule absolutely in the matter of marriage between natives. First the would-be bridegroom goes empty handed to obtain the consent of the bride's father. Then he goes again with gifts, and the father calls in other members of the family to view the gifts. On the third visit he carries trade gin, a sufficiently poisonous compound, generally from Hamburg. In the old days it was palm toddy or wine.

On this occasion he pays over an installment of the dowry. On the fourth visit he takes his parents with him and is permitted to see the girl herself. When next he calls his prospective mother-in-law provides a feast for himself and his relatives, the host and hostess eating nothing, but taking a hand in the drinking. Finally the man goes with gifts and the balance of the dowry and takes the woman away. On arrival at his village she is welcomed with singing and a strenuous dance called "nkanja."

For three months the bride is not required to do any hard work, but after that she buckles to with his other wives at gardening and carrying burdens. Polygamy is general and the number of a man's wives limited only by his resources in the matter of paying dowries. The man may divorce his wife whenever he chooses and for almost any reason. But it is rare for a woman to be able to obtain divorce at her own wish. Divorce entails the return of the dowry.

Afghan National Anthem.

The suggestion of President Roosevelt that the United States adopt a new national anthem brings to mind how the Ameer of Afghanistan was able to take back to his land an anthem for his people. When he visited India last year it was questioned whether "God Save the King" was quite the proper tune to greet him with, and one after another of the high officials was referred to on the point. One genius at length suggested that as the Ameer would probably not know one tune from another, anything would be suitable. Although the idea was at first laughed at, the official persisted that his method was a simple way out of the difficulty, and he at length had his way. Even then the bandmaster was only instructed to play something, but he was equal to the occasion. Whenever a guard of honor turned out, the band played the first eight bars from the slow march of "Scipio." The Ameer was delighted, and Afghanistan gave its new national anthem an enthusiastic welcome.

Piwarrie Pow-wows.

In passing an ordinance to prohibit the sale of intoxicating liquors to aboriginal Indians the Legislature of British Guiana has, like the Governments of Canada, New Zealand, and Natal, shown a wise consideration for the welfare of the native population. A curious exception, however, is made in the case of a native drink called "piwarrie," which is a production of the cassava plant. It is permissible under the ordinance for meetings to be held for the consumption of this beverage during the months of January, June, and December; but they can be attended only by aboriginal Indians. Any other person present is liable to a fine. There is nothing in the law to explain why this exemption has been made, but doubtless the native who craves for strong drink will appreciate the opportunities offered, and will "piwarrie" in haste, knowing that he will have full leisure in which to repent.

Jacko Spoiled the Wedding.

Sir Harry Johnston, the famous explorer, who celebrated his fiftieth birthday a short time ago, has a weakness for keeping strange pets, and tells an amusing story of a monkey which he possessed when he lived at Zanzibar. There was a wedding at the house of a resident whose gardens Jacko had raided time after time, and against whom he seemed to have a particular grudge. A magnificent wedding breakfast had been prepared, but just as the party returned to partake of it Jacko hopped in through the French window, seized the corner of the tablecloth, and shook up the whole set-out till everything, from champagne to pickles, was inextricably mixed. Then he sat on the debris, and in monkey-language addressed the company till the gun of the infuriated bridegroom cut short his career.

Monument For Waterloo.

An English committee is to be formed in Brussels for the purpose of raising funds for the erection of a British national monument on the battlefield of Waterloo. The place selected for its erection is the farm of Hougoumont, at which Wellington had his headquarters, and it is proposed that it should be formally dedicated in June, 1915, on the centenary of the battle.

In an appeal published in the Belgian press it is stated that "it remains for the British people to take up the project and for King Edward to give his approval to the scheme."

On the Cards.

She—Do you believe in fortune telling by cards.

He—No, but I know a man who lost a fortune that way.

COMING OF AGE IN AFRICA.

Elaborate Ceremonies Attend Important Event Among Blacks.

All the people in the world have been given to marking the coming-of-age of their young folk with some kind of ceremonial. In Central Africa this is quite a serious business. A few of the customs in use among certain tribes are horrible; but in the main they show a kind of good sense. Among the Yao people, the principal figure in all the initiation or coming-of-age mysteries is a man called the rattler of the tails. He makes play with a bunch of wild-cat tails, wild-cats being creatures which play a leading part in the witch-doctor's medicines. This official communicates all kinds of knowledge to the young ideas of his tribe during the couple of months devoted to their initiation ceremonies. He lectures on the customs of the tribe, and on morals. He teaches unselfishness, for instance, and among these tribes the man who refuses to share his food with another is jeered at as "uninitiated." During these ceremonies the boys receive new names, and if you want to insult them past all forgiveness you have merely to address them by their childhood's names after they have passed through the initiation ceremonies. The unyago, or period of initiation with girls, lasts only one month, and includes all kind of practical teaching as to agricultural and household work, the grinding of corn, and the like. Many of the ceremonies in use are purely symbolical; as when the girls are made to support a houseroof, to indicate that they are to be the pillars of their future homes. But there is also much practical teaching, including a full and blood-curdling recital of the penalties which attach to wifely infidelity, and particular instructions as to how best they may "feed the brute," and make pots and pans.

BOMB OUTRAGE.

Indian Agitators Seriously Injure Three Scotsmen.

Another bomb outrage, which was undoubtedly the work of native agitators, took place recently at Kankinara, on the Eastern Bengal State Railway, 29 miles from Calcutta, in which three Scottish mill assistants were seriously injured.

When the night mail train reached Kankinara, shortly after 12 o'clock, the engineer stopped in obedience to the station signal, which was set at "danger." A moment later a bomb was flung into the second class compartment in which the three Scotsmen were sleeping.

The man nearest the bomb, William Campsie, of Dundee, was thrown across the carriage by the force of the explosion. One arm was shattered, and he received terrible internal injuries, which will, it is feared, result fatally.

Charles Brown, also of Dundee, an engineer at a jute mill, was sitting beside Mr. Campsie, and was likewise badly injured by fragments of the bomb. The third man, whose name has not been ascertained, was more fortunate, and his wounds are of a less serious character.

There is no doubt that the bomb was intended to murder the occupants of the compartment, and that the train was stopped by the assassins in order to give them a better opportunity.

Messrs. Brown and Campsie were recently concerned in a disturbance at a jute mill with some natives.

Brothers as Political Opponents.

The sympathy which Mr. Cameron Corbett, the Unionist member for the Tradeston Division of Glasgow in the British House of Commons, has for certain measures of the present Government recalls the fact that his brother, Mr. T. L. Corbett, who sits for North Down, is a strong Unionist. Amongst other brothers in the House who are political opponents might be mentioned Viscount Morpeth, who sits for South Birmingham, and who is a Unionist, while his brother, the Hon. G. Howard, member for the Eskdale Division of Cumberland, is an active Liberal. Mr. G. P. Gooch, one of the two Liberal members for Bath, has now a brother in the House in Mr. Gooch, the Unionist member for Peckham.

Lady Arthur Grosvenor In Caravan.

Lady Arthur Grosvenor has just returned to her home, Croxton Old Hall, Cheshire, England, after enjoying a caravan tour, which is her favorite way of spending a holiday. During the past few weeks Lady Arthur, accompanied by a companion, has been making a leisurely journey through some of the leafy lanes of old England, and to all outward appearances she has been merely a licensed hawker. It is neither the first nor the second occasion on which this adventurous lady of Cheshire has elected to spend her holiday in this unconventional fashion, and she thoroughly enjoys the simple life of the road.

Twelve-Toed Guardian.

When the medical officer to the Hartismere, Suffolk, (Eng.) Union applied to the guardians recently for sanction for the employment of an additional medical man to administer chloroform to a boy who had six toes on one foot, one of which he proposed to remove, one of the guardians said he himself had six toes on each foot and felt no inconvenience. Consent was refused.

Waste Paper For Wrapping.

It was stated at the meeting of the Chelmsford (Eng.) Rural District Council that waste paper collected by women and children from the house refuse deposited at Widford by the Chelmsford Corporation was sold to shopkeepers and used for wrapping up articles of food.

Trawlers Must Keep Out.

An order-in-council has been passed prohibiting the use of steam trawlers within the three mile limit or within the bays and harbors of Canada.

This is the result of the introduction into Canadian waters of the steam trawlers.

Help the Boys to Get on Right Path.

Thoughtful and Inspiring Address by a New York Gentleman Last Night--Something for Parents to Think Over.

There lunched together at Wallace's last evening a very representative gathering of Christian laymen of this city, who afterwards listened to Mr. Frank H. G. Ritchie, of New York City, who told what is being done at the present time in influencing for right boys from 12 to 18 years of age. He emphasized that these were the years in which the greatest transformations were going on, which shape a boy's character toward strong and lofty ideals or the very opposite. It is in this age that the whole career of his after life is generally mapped out. Parents generally are quite oblivious to this fact. It is the crucial period of a boy's life. Volcanic changes are going on. Things he doesn't understand he is striving to find out. If he does not receive this instruction from parents or friends he learns it on the street from his chums. He soon learns to make light of things sacred. This sort of thing going on amongst the majority of boys, through the negligence of the parents, results in the vitiating of the strength of coming generations. The speaker then explained that men are being specially secured by various Young Men's Christian Associations, who are especially prepared for the position of Boys' Department secretaries, and who work in conjunction with parents and the Sabbath schools. Such a man makes it his business to interest himself in the boys of the community, gain their confidence, mould their habits and inform them on such topics as they seek to know more about in the most helpful way.

The 600 or 700 boys in this city need this kind of assistance. Should you not aid the local association in adding this sorely needed work here? asked the speaker.

After the address a number took part in a helpful discussion, and ultimately the following committee was elected to promote plans to inaugurate something of a definite character in this city: Messrs. Rev. A. H. Drumm, Principal Colling, D. V. Sinclair, F. E. O'Flynn, Wm. Johnson, W. A. A. Chown, Dr. McCulloch and Mr. Hess.

Mr. Adam Henry Had a Stroke,

And His Recovery is Not at all Certain.

Mr. Adam Henry a well known citizen, who was for many years in business here, was this morning seized with a paralytic stroke which affected his right side. At the time of the seizure Mr. Henry was going upstairs to his room over Mr. H. E. Fairfield's store. At the present time it is doubtful what the outcome will be.

Mrs. Hayne Buried.

On Thursday night the remains of the late Mrs. E. Hayne, who died at Midland, arrived here and were yesterday afternoon interred. The impressive burial service of the Anglican church were conducted at Christ Church by the Rev. Mr. Fraser, of this city, after which interment took place at the Belleville cemetery. A large number of friends were present at the obsequies. A number of beautiful floral tributes were placed upon the casket by relatives and friends. The bearers were Messrs. J. Fenn, J. Panter, J. W. London, J. H. Mills, W. Corham and Jas. Riggs.

Charlie's Office.

Mr. Charles Rosevear, formerly of this city, has been appointed a sanitary inspector in Toronto, at a salary of $500 per annum.

The Rural Mail Delivery Fake in Prince Edward.

Has Not Yet Been Inaugurated--Stage Driver Wants Something More Binding Than a Verbal Contract.

Picton, Oct. 23.—Rural free mail delivery was promised the residents along West Lake on Tuesday of this week by a Mr. Durston who has been mapping out proposed routes for mail delivery through the county—to be instituted if the government gets in! But the West Lake people did not get the house to house delivery on Tuesday, neither did they get it on Wednesday.

Mr. Alfred Mills is the stage driver along this route, and has also the government contract for the carrying of the mail. The Gazette asked him regarding this system of delivery, and he said he had nothing as yet to do with it. His contract had nothing to say about it and he was not bound as far as he knew to take any orders from this Mr. Durston. Mr. Durston is said to have told Mr. Mills that if he made the house to house delivery of mail he would be paid accordingly by the government—but Mr. Mills is too wise to accept a verbal contract of such a nature.

A Nocturnal Nuisance

At a few minutes before 10 o'clock last night the police answered a call to Dundas street, where a drunk was making night hideous by his yells. When the officer arrived at the place where the party was supposed to be there was no trace of him, but two coats and a hat were picked up and taken to the station.

Y. M. C. A. NOTES.

Sunday afternoon at 4.15, Mr. Bailey will speak. Pianist, Mr. Chown; soloist, Mr. Ridley.

In the evening: Speaker, Mr. Hess; pianist, Miss Jones; soloist, Mr. Taylor.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

A Tag and a pretty girl are a great combination. Be a sport and don't "duck" when the ladies come to "tag" you on Monday.

BELLEVILLE ARENA

Band this week Wednesday, Friday and Saturday.

NO MORE HEADACHES

Suffered From Constant Headaches—Cured by "Fruit-a-tives" When Doctors Failed.

"I was a sufferer from fearful headaches for over two years, sometimes they were so bad that I was unable to work for days at a time. I took all kinds of medicines, was treated by physicians, and yet the headaches persisted. I was rarely free from headache. A short time ago I was advised to try "Fruit-a-tives" and I did so with, I must confess, very little faith, but after I had taken them for three days my headaches were easier and in a week they left me. After I had taken a box of the tablets my headaches were quite cured. My appetite was always poor and my stomach bad, and now my appetite is splendid and my digestion is excellent. I had become thin and weak from the constant headaches, but now not only have I been cured of all these awful headaches, but my strength is growing up once more, and I feel like a new man. I have taken in all three boxes of "Fruit-a-tives." I am exceedingly grateful to "Fruit-a-tives" for curing me, and I give this unsolicited testimonial with great pleasure, as I hope thereby some other sufferer of headaches will be induced to try "Fruit-a-tives" and will be cured."

(Sgd.) B. Cornell.

Taylorville, Ont.

"Fruit-a-tives" is now put up in the new 25c trial size as well as the regular 50c boxes. Write Fruit-a-tives Limited, Ottawa, if your dealer will not supply you.

McINTOSH BROS

MATHESON DESTROYED.

New Town In Northern Ontario Almost Wiped Out by Fire.

North Bay, Oct. 24.—The loss by fire at Matheson Thursday night will be $75,000. The new town, named after the Provincial Treasurer, has been practically wiped out.

The flames were discovered about 10 o'clock at night in the Abitibi Hotel, and, spreading rapidly, quickly leaped to adjoining buildings, and without fire appliances of any kind quickly burned.

Buildings with living rooms overhead were soon licked up by the flames. A bucket brigade was formed and worked manfully between the river close by and the burning buildings, but little could be done to check the flames, the buildings being mainly of frame construction, covered with tar paper. W. James was injured, but not seriously. The T. & N. O. Railway station escaped the flames.

The loss will approximate $75,000, with no insurance. Among the fire sufferers are Revillon Bros., fur traders and general merchants; Rothschild Bros., dry goods; Taylor, hardware store; John Clark, general store; R. A. Douglass, drug store and postoffice; Syrian colony and Chinese laundry. The origin is unknown.

TELEGRAPHIC BRIEFS.

Five negroes were hanged yesterday in Louisiana for murder.

Heavy falls of snow are reported in Kansas and Oklahoma.

Bush fires are causing trouble in Otonabee and Smith townships.

Charles Mitchell, negro murderer, was shot by a mob at Lithonia, Ga.

A car loaded with laborers at Rivers, west of Winnipeg, was upset by spreading rails, but no one was injured.

Forest fires are raging north of Fenelon Falls and near Haliburton. John Carew, a Lindsay millionaire lumberman, has lost over $1,000.

Fire in the Central Telegraph Office at Brussels has stopped all telegraphic communication between Brussels and the provinces and foreign cities. It will require ten days to restore the system.

The elder Crozier will not be taken from Milton to Kingston until after the elections, as Sheriff Clements is a D.R.O. Milton people hope that the younger Crozier will not be taken to the Central Prison.

Jail For Card Dealers.

Toronto, Oct. 24.—Athol G. Robertson, charged with selling obscene pictures and postcards and with sending them through the mails, pleaded guilty in the Police Court yesterday morning, and was sent to jail for 60 days. Robertson was one of the wholesale dealers. P. V. Brown, who also pleaded guilty to selling, was sent down for a like term. A. R. Wickett was acquitted on the ground that while the cards which he had were not exactly the thing for general sale, they were not vicious. A. L. Merrill, who has a number of stores, was let go, pleading that the cards had crept into his stock without his knowledge. Albert Prouse went down for 30 days for selling, and Henry Goldenthal went free on the ground that his cards were not really bad.

Groom Shot.

Palogue Mine, La., Oct. 24.—F. A. Vaningan, shot by his bride's former suitor while on a railroad train just starting the bridal tour, died in his wife's arms on a Texas & Pacific train near here late Thursday night. F. S. Beanvre is under arrest here charged with the shooting. He sat directly across the aisle from the bridal couple when the shot was fired. It is reported that he had but a few minutes before offered his congratulations.

Father Follows Elopers.

Detroit, Oct. 24.—After following his daughter Mary, aged 13, and her sweetheart, Frank Temple, aged 21, for over a week, Charles Calvert of Ridgetown, Ont., came to police headquarters Thursday night, and requested the officers to assist in locating the youthful pair. The young people eloped from Ridgetown a week ago.

Big Pulp Shipment.

Clarke City, Que., Oct. 24.—The largest cargo of wood pulp ever sent out of Canoda is now being loaded on the steamship Kristiania at Seven Islands, from which port she will sail in a few days for London. The cargo will be over 5,000 tons, and is the product of the new mill at this place.

To Protect Miners.

Washington, Oct. 24.—Important suggestions for minimizing loss of life in the coal mines in the United States are contained in a report submitted to President Roosevelt through Secretary Garfield by the three foreign mining experts who have investigated conditions.

Burglars Sentenced.

Ottawa, Oct. 24.—James Hetu and Walter Weims, who recently came to Canada from the United States, were sentenced here yesterday to two years in Kingston Penitentiary for burglary.

Zeppelin In Air Again.

Friedrichshafen, Oct. 24.—Count Zeppelin, in his reconstructed steerable balloon, made a successful ascent yesterday afternoon.

Aged Man Commits Suicide.

Ottawa, Oct. 24.—Leon Labelle, a second-hand dealer of Clarence street, aged 63, committed suicide yesterday morning by shooting.

Grain Men Incorporate.

Ottawa, Oct. 24.—Incorporation has been granted the Central Grain Co. of Winnipeg. The capital stock is $199,000. The provisional directors are: E. E. Hall, Donald Morrison, Charles J. McFall, Chas. S. Blanchard and Stewart Murray.

Had we not faults of our own we should take less pleasure in complaining of others.—Fenelon.

NEGOTIATIONS MAY END

Recall of Bulgarian Envoy Causes Rumors of More Trouble.

Turkish and Bulgarian Representatives Have Been Hard at Work Making Bargain as to Terms of Settlement of Dispute—Twelve Millions For Railway and Independence, Says Austrian Delegate.

Sofia, Bulgaria, Oct. 24.—The Government has ordered M. Dimitroff, its special envoy to Constantinople, to return here for new instructions.

This has given rise to fears that the Turco-Bulgarian negotiations looking to a settlement of the trouble that has arisen from Bulgaria's sudden declaration of independence have become futile. But the Government insists that the negotiations have not been broken; they have only been interrupted to permit the envoys to report adequately in person.

Since the beginning of the crisis neither state has transmitted any messages in cipher. M. Dimitroff has been able to send only fragmentary open despatches.

Count Thurn, the diplomatic agent here of Austria-Hungary, had a long conference yesterday with M. Popricoff. At the conclusion of his talk, he said the prospects for peace were good in spite of this hitch in the negotiations. It is the opinion of the count that Bulgaria eventually will consent to pay a moderate sum, about $12,000,000 to Turkey in lieu of tribute.

The negotiations between M. Dimitroff and Kaimil Pasha, the grand vizier of Turkey, were a perfect example of oriental bargaining. M. Stoyamovish, and Towfik Pasha, the Turkish Minister of Foreign Affairs, also were present at the meetings.

At the outset the Turks would only concede the veriest minimum; the recognition of Northern Bulgaria as an independent kingdom, Rumelia to remain a vassal principality and continue to pay tribute and the Rumelian railways to remain Turkish property. The Bulgarians rejected these proposals without discussion.

At a subsequent sitting the Turks consented to recognize both Bulgarias as an independent kingdom on the condition that this kingdom pay the Rumelian tribute and the cost of the railway property, plus arrears. The tribute due from Northern Bulgaria is estimated at 100,000 Turkish pounds a year.

At the final meeting the Turkish demands were reduced to the mere payment of the Rumelian tribute and for the railway. The Bulgarians declared their willingness to pay for the railway, but said they would give no tribute. At this point the negotiations were interrupted and the envoys recalled.

Hon. James Duff Elected.

Collingwood, Oct. 24.—Hon. James Duff, Sir James Whitney's new Minister of Agriculture, was re-elected by acclamation at the nomination for the bye-election yesterday afternoon. The riding is flattered by his being chosen for the position.

LYDIA E.
PINKHAM'S
VEGETABLE COMPOUND

LYDIA E. PINKHAM

No other medicine for Woman's ills in the world has received such wide-spread and unqualified endorsement as has Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

No other medicine has such a record of success for woman's diseases, or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been the standard remedy for feminine ills, Inflammation, Ulceration, and consequent Spinal Weakness.

It has relieved more cases of Backache and Local Weaknesses than any other one remedy. It dissolves and expels tumors in an early stage of development.

Irregularities and periodic pains, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility, quickly yield to it; also deranged organs, causing pain, dragging sensations and backache. Under all circumstances it acts in harmony with the female system.

It removes that wearing feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues." These are indications of Feminine disorders, which this medicine overcomes as well as slight derangement of the Kidneys of either sex.

Women who are sick and want to get well should refuse to accept any substitute for Lydia E. Pinkham's Vegetable Compound.

EXCHANGE OF LANDS.

Southern Alberta Land Co. Gets Holdings Transferred.

Ottawa, Oct. 24.—An order-in-council has been adopted authorizing the exchange of certain lands in Alberta now held by the Southern Alberta Land Co., for other lands which, up to the present time, have been in possession of the country.

It appears that as the surveys have progressed the company has found that as a considerable portion of the lands covered by the original agreement are situated at such an altitude as to make irrigation impossible, the higher lands will be exchanged for lands situated at a lower level, and which can be irrigated at an expenditure of $1,000,000.

The lands to be surrendered comprise 196,666 acres, and the lands, which, it is proposed, to be surrendered to the company, comprise 380,573 acres.

The Minister of the Interior states that, having in view the benefit from a public point of view, the carrying to completion by the company of this larger irrigation scheme, he sees no reason why the company's proposition should not be agreed to.

GIVES LIFE FOR BROTHER.

Young Farmer Near Essex Sacrifices Himself to Save Child.

Essex, Ont., Oct. 24.—Giving up his own life to save that of his young brother, Daniel Taylor, aged 23 years, who lived on a farm with his parents near here, is dead, as the result of a collision with an inter-urban car.

Taylor and his four-year-old brother, who he held in his lap, were riding on a wheat binder and about to cross the car tracks. The noise of the machine drowned the whistle of the approaching car, and it was upon them before the young man saw it. He had only a moment to act. He stood up and threw the child as far away from the crossing as possible. In an instant the car struck the machine, crushing it.

The elder Taylor was thrown under the car, both legs cut off above his knees, and he was otherwise injured. He died yesterday morning. His brother was picked up unharmed.

Girl Plays Burglar.

Weston, Oct. 24.—The mystery connected with the theft of $55 from Mrs. Rogerson's house on North Station street about a week ago has been solved.

The guilty person is the 15-year-old maid at Mrs. Rogerson's, who after taking the money, endeavored to get permanent possession of it without arousing suspicion by procuring a money order for that amount at the Weston postoffice. The order being addressed to herself, the officials surmised something unusual, and questioned the girl. She then confessed that she had upset the drawers in the bedrooms to make it look as if a burglary had occurred.

Telegrapher Arrested.

New York, Oct. 24.—Frederick R. Rose, a telegraph operator employed by the New York, Ontario & Western Railroal at Fallsburg, N.Y., was arrested yesterday at the request of the Canadian authorities, who want the prisoner extradited. Rose is accused of having embezzled $980 belonging to the Canadian Pacific Railway Co. in May last year while he was employed by the company as acting station agent and telegraph operator at or near Bordeaux and Montreal. He was held without bail for examination on Oct. 30.

Lack of Rain May Close Mines.

Chicago, Oct. 24.—Unless there is a rainfall soon in the southern part of Illinois, the coal mines will have to shut down for want of water for making steam and for operating their coal washing machinery, according to coal traffic officials of the Burlington, Chicago & Eastern Illinois and Illinois Central roads.

Scarcely any rain has fallen in Franklin and Williamson counties, where most of the coal mines are located, since last May.

Highwaymen Sentenced.

Montreal, Oct. 24.—Judge Choquette sentenced two highwaymen to the penitentiary yesterday. They were Fred Cawthorne and George Duffy. On Oct. 1 they beat and robbed Mr. C. A. E. Reid, jeweler, who was on his way home. They gave him a severe beating, and stole a watch valued at $600 and a ring valued at $700. Cawthorne got 14 years and Duffy 10 years.

Value Crop at $125,000,000.

Ottawa, Oct. 24.—According to advices received at the Department of Trade and Commerce from official sources at Winnipeg the total cash value of the western grain crop will be approximately $125,000,000. This exceeds former estimates by several millions.

Gets the Lash.

Woodstock, Oct. 24.—Ross Summers, aged 20, who pleaded guilty to having attempted to assault two little girls, was sentenced by Magistrate Ball yesterday morning to two years in Kingston Penitentiary and to receive 20 lashes during his term.

Sheffield Choir Leaves.

Sheffield, Eng., Oct. 24.—(C.A.P.)—Amid great excitement, cheering and singing of "God Save the King," and "O Canada," the Sheffield Choir left here by special train yesterday morning to board the Grampian, which is due at Montreal Nov. 2.

Murderers Break Jail.

Indiana, Pa., Oct. 24.—Two Italians, Joseph Veltra and Bruno Carbone, recently convicted of murder in the first degree, escaped from the county jail here early yesterday by cutting a hole in the ceiling of their cell.

Goes West.

Kingston, Oct. 24.—Prof. J. W. Mitchell, superintendent of Kingston Dairy School, has been appointed to the staff of Manitoba Agricultural College. He will leave for the west about Nov. 15.

IMPLICATED BY DUPES

Parry Sound Prisoners Make Sensational Disclosures.

Italians Held For Shooting Affray Say Storekeeper Instigated Eno Robbery and Offered Money to Seperanzo, Now Under Conviction, to Kill an Enemy—Then Offered Himself as Constable.

Parry Sound, Oct. 26.—Arising out of what has come to be known as the Eno robbery, some time ago, there are some very startling matters just come to light by a confession which has been made by the Italian prisoners, Seperanzo and Pezzano, confined in the goal here, as a result of which Constables McRae and Madigan went to Byng Inlet and there arrested Joseph W. Moore, an Italian, on a warrant charging him with inciting to murder.

The story told by the Italian prisoners is a remarkable one, and it is understood that other charges may be preferred against the accused man, Moore.

In their confession the prisoners in question state that Seperanzo who was convicted at the recent assizes of shooting at Constables Knight and Madigan and sentenced to twelve years' imprisonment therefor, had nothing to do with the Eno robbery; but they allege that the persons who actually committed the robbery were boarding at the establishment of the accused man, Moore, before the robbery and after, and they go so far as o say that Moore was the instigator of the whole thing. They allege that after the robbery the stolen money was taken to Moore's store at Byng Inlet, and it is understood that Moore has admitted that there was found behind his store a tin containing 400, which some person or other got hold of and away with. As a fact, one of the men originally arrested in connection with the robbery at Eno's was taken at Moore's store.

The confession of Seperanzo went n to state that the Italian, Moore, declared he would get revenge against Murdock Watts for his action in connection with an affray which took place at Byng Inlet, as Watts had prosecuted certain of his countrymen. Seperanzo stated that Moore had offered him $150 if he would go and shoot Watts, and offered him a un to do it with; and also that Moore repeatedly told him that he wanted to get revenged upon Watts, and that if he (Seperanzo) ould kill Watts he (Moore) would ake Seperanzo to French River on is gasoline boat and he could go to ort Arthur and escape.

In the course of his confession Seperanzo alleged that Moore had also efrauded his creditors by removing oods prior to the making of an assignment. He also stated where some the goods could be found.

The most remarkable feature of the se is that Joseph W. Moore, shortly after the Eno robbery, came to arry Sound and offered his services a constable for the purpose of acking down his countrymen, the erpetrators of the robbery, and, being duly appointed, at once seemed to usy himself in the matter and expressed himself as able to effect the rrests very shortly.

The accused man Moore was ought before the police magistrate arged with counselling a person to urder Murdock Watts and was committed to stand his trial.

Mob Suspects Arrested.

Samburg, Tenn., Oct. 26.—The number of mob suspects in custody charged with implication in the murder of ptain Rankin and the assault of lonel Taylor now number ten. The en taken into custody Saturday inde Ed. Powell, who declares that was forced under threats of death accompany the mob on Monday night, when the two attorneys were taken from a hotel by night riders.

When court convenes to-day it is promised that evidence will be forthcoming which will assure the indictment of practically the entire band of night riders.

New Formosan Railway.

London, Oct. 26.—The Formosan Trunk Railway, which recently was completed, was formally opened yesterday in the presence of Gen. Prince Kanin of the Japanese army and a large number of officials and specially invited guests. Formosa is threaded throughout by this railway, which extends over a length of 334 miles. Many improvements have been made since the building of the road began, and the island industries have been greatly developed.

Petition For Receiver.

Cleveland, O., Oct. 26.—In behalf of the Ingersoll-Rand Co. of New York, manufacturers of electrical appliances, a petition was filed in the Federal Court Saturday night, asking that a receiver be appointed for the Municipal Traction Co.

Mayor Johnson when asked concerning the matter, said that all bills will be paid and that no receiver would be appointed.

Fire In Morgue Costs $15,000.

Montreal, Oct. 26.—Fire yesterday morning visited the morgue and caused damage to the extent of $15,000. There was but one body in the morgue at the time, that of F. A. Lippert, a C.P.R. telegrapher, who was suffocated by gas in his room Saturday morning. The flames did not reach the body.

Fire In G.T.R. Offices.

Montreal, Oct. 26.—Fire broke out early last evening in an upper flat of the new Grand Trunk ticket offices, which they have recently occupied. The fire was soon gotten under control and little damage was sustained.

T. E. Kenny Dead.

Halifax, N.S., Oct. 26.—T. E. Kenny, ex-M.P., and president of the Royal Bank of Halifax, died yesterday morning.

TORNADO IN NICARAGUA.

Great Damage Is Reported as Result of Central American Storm.

Managua, Nicaragua, Oct. 26.—A great storm has prevailed throughout Nicaragua since Saturday morning. Heavy losses are reported, but as all telegraph and telephone communications have been interrupted and the railroads badly damaged, it is impossible to state how far-reaching the storm has [illegible]

Advices [illegible] here, however, say that the Town of Rio Grande, on the Atlantic coast, has been destroyed.

New Orleans, La., Oct. 26.—A cablegram indicating that few white persons lived in the hurricane-swept district of the Nicaraguan-Caribbean coast was received here yesterday. This message said the damage had been confined to the Grant River and Prinz a Pulca district.

How the natives of this section fared was not known when the cable was sent.

CALLING OUT RESERVES.

Servian Government Is Busily Preparing For Hostilities.

London, Oct. 26.—A despatch to The Daily Mail from Belgrade says that the Servian Government has called out all the first reserves and ordered khaki for the troops, three hundred Maxim guns and 400 military automobiles. According to this despatch, King Peter has informed the Turkish Minister that an alliance probably has been concluded between Servia and Montenegro, but that this in no way interfered with the friendship of these countries for Turkey.

Vienna, Oct. 26.—A large consignment of fuses for shells was seized by the Austrian authorities Saturday on the Danube at Linz. The war material was on board a steam tug and was on its way from Bavaria to Servia.

MOTHER AND SON PERISH.

Coal Oil on Fire Causes Accident at Winnipeg.

Winnipeg, Oct. 26.—A terrible accident, which resulted in two deaths, occurred Saturday morning, when Mrs. I. Holmes attempted to light a fire with coal oil. The can exploded, igniting her clothing. Her only son, a lad about twelve years of age, rushed to her assistance, and in an heroic attempt to save his mother was fatally burned himself. Both died later in the hospital.

Railway Detective Shot.

Buffalo, N.Y., Oct. 26.—Benjamin Sandel, 32 years old, N. Y. Central Railway detective, was shot by a car thief on Saturday. He is in a critical condition, having received three bullets wounds in the head and body.

Polling is In Progress.

Two Hundred and Sixteen Ridings Are Holding Elections.

17 Events of Four Years Ago Are Safe Criterion First Word Will Come From St. John, N.B., and Then From Halifax, Where Clock Is Ahead—Laurier Will Hear News in Quebec and Borden in Halifax.

Toronto, Oct. 26.—To-day 216 constituencies in Canada are hard at work choosing representatives to sit in the eleventh Parliament. Five will vote later. They are: Yale-Cariboo, Comox-Atlin and Kootenay, in British Columbia; the Yukon, and Prince Albert, in Saskatchewan.

The polls opened throughout the country at 9 a.m. and close at 5 p.m., and in an hour the returns from the city constituencies will be complete enough to indicate pretty well who are at the head of the poll.

The first word will probably come from St. John, N.B. Four years ago at a few minutes past 5 o'clock the telegraph flashed the information that Stockton and Daniels, Conservatives, were elected in that city. When the news was known the Toronto polls were hardly closed, but the Maritime Provinces being an hour ahead of us the counting up down by the sea was finished before the ballot boxes in Ontario were opened.

Following close upon the information that the Conservatives had scored first and most decisively the ticker announced the defeat of R. L. Borden and his running mate, Mr. O'Mullin, in Halifax. This offset the St. John news.

Although the returns from some of the Toronto polls began to come in by 5.30 the results in Hamilton, where each party captured a seat, and in Ottawa, which elected two Liberals, were known before the public knew definitely that the five Toronto Conservatives were safe.

And it will be about the same today in regard to time. From 5.15 on there will be news for those who watch the bulletin boards.

Sir Wilfrid Laurier will vote in his home constituency of Quebec East, and it is pretty generally understood that he will mark his ballot for the Government candidate, who happens to be himself. He has also a vote in Ottawa, where he is also a candidate, but if he wanted to vote in the capital he would have to be there first, as the Ontario system of one man one vote would prevent him using his suffrage there if he had already voted elsewhere. The Quebec law, however, permits an elector to vote in as many places as he has property.

R. L. Borden will also vote for himself in Halifax. He will hear the result in his own city, returning to Ottawa in a few days—to form a Government or to resume his duties as Opposition leader.

Promises Purity.

Kingston, Oct. 26.—Liberals closed the campaign with a big rally in the opera house Saturday night addressed by Sir Richard Cartwright, Hon. Wm. Harty, ex-Mayor Mowat and Dr. A. W. Richardson.

Sir Richard spoke for over an hour, reviewing the work of the Government since 1896 and covering the same ground as in his recent speech at Toronto.

As regards the "scandal talk" of the Opposition, he recalled the times under Conservative rule when their conduct would offset even the worst of any Liberal regime. The aim of the present Government was to promote purity in public and private affairs.

Lehigh Shop Strike Off.

Binghamton, N.Y., Oct. 26.—At a meeting of the Boilermakers' Union in Sayre Friday night, presided over by First President Galvin of the International Union of Iron Shipbuilders and Boilermakers, it was unanimously voted to declare off the strike at the Lehigh Valley Railroad shops.

The strike began March 27, and while it hampered the company for a time, it was evident long ago that the strike was lost. The men made application for work as individuals Saturday and will be taken back as fast as they are needed.

Sending Them Back.

Montreal, Oct. 26.—On Saturday 60 undesirable citizens were deported, being sent back on the Lake Erie, Hesperian and Virginian. Thirteen of these were C.P.R. mechanics who failed to make good. The others came from different parts of the Dominion. The majority of those deported were English or Scotch, but there was a sprinkling of foreigners, including a family of six from Russia.

Financier's Sudden Death.

London, Eng., Oct. 26.—John Ennis Searles of New York, well-known in financial circles in America, was seized with a fainting fit while standing on the platform at the Waterloo station and died in a few minutes.

Mr. Searles, who was about 50 years old, was formerly secretary of the American Sugar Refining Co., and also famed for his benefactions to the Methodist Church.

Thank the Lord For Rain.

Ottawa, Oct. 26.—Welcome rain has fallen almost continuously since Saturday night. For weeks the fields in the districts have been parched, wells and brooks run dry, and rivers dwindled to mere streams. Prayers of thankfulness were offered in all the churches yesterday.

He Beat a Woman.

London, Oct. 26.—(C.A.P.)—A. T. Taylor, late of McGill, has been elected London County Councillor, beating the first lady candidate put forward.

Osler Was Third.

London, Oct. 26.—(C.A.P.)—The result of Edinburgh University rectorial election was: Wyndham, 828; Winston Churchill, 727; Prof. Osler, 614.

New York, Oct. 26.—The intention of the Russian Government to exhaust every resource in the effort to bring Jan. J. Pouren, the alleged revolutionist back to Russia for trial on charges of murder, arson and robbery was shown when counsel for the Russian Government obtained a new warrant for Pouren's arrest.

Pouren was first arrested in this city in January. He was about to be deported when an appeal was made to President Roosevelt on the ground that Pouren was a political offender, not a criminal, and a rehearsing was ordered by Secretary of State Root. Saturday Mr. Root refused to grant the extradition of Pouren. To-day counsel for Russia secured the new warrant.

Threatened Wife.

Brantford, Oct. 26.—William Taylor, member of last year's Brantford professional hockey team, was fined $50 or three months in jail here by Magistrate Livingston Saturday on a charge of threatening to shoot his wife on Tuesday night last and having a loaded revolver in his possession for that purpose.

The couple have been separated, but Taylor did not cease molesting his wife and was twice warned by the magistrate to leave the city. Taylor did not leave, but, going to his wife's house, flourished a revolver, saying, "Let's have a tragedy and die together." Taylor was also bound over in $1,000 surety to keep the peace in Brantford for two years.

Train Kills Pioneer.

Guelph, Ont., Oct. 26.—Word was received here yesterday of an accident in which Thomas Dunbar, an old man of Mildmay, was killed by a freight train.

The old man was deaf and apparently did not hear the train approaching. He was struck full on the crossing. His horse was killed and the wagon smashed and the unfortunate driver was so mangled that only small portions of his remains could be discovered.

The crossing at which the accident occurred is a particularly dangerous one, and the approaches cannot be seen on one side on account of a high board fence shutting off the view.

Accidentally Shot by Brother.

Harrisburg, Pa., Oct. 26.—Albert Bell, a 12-year-old school boy, was shot and killed by his 16-year-old brother Raymond yesterday, while they were hunting.

Another boy of the party had slipped a cartridge in the rifle, and Raymond, not knowing it was loaded, playfully pointed the rifle at his brother and pulled the trigger.

Distress Foreshadowed.

London, Oct. 26.—(C.A.P.)—Keir Hardie, speaking at Merthyr, said there was distress in every town in Canada.

Rev. Mr. MacLeod had told him there would be 10,000 heads of families receiving relief in Toronto this winter.

New Hospital.

Seoul, Oct. 26.—A magnificent hospital, built by the Japanese Government, was formally opened here yesterday. It is one of the finest institutions in the far east and includes a school of medicine.

Insurrection Ended.

Tokio, Oct. 26.—The so-called insurrection in Korea is practically ended. The troops are still on active duty, but the insurgents have dwindled to merely a disorderly element.

THIS DAY IN HISTORY.

Hogarth died, 1764.
Von Moltke born, 1800.
Defeat of General Hampton at Chateauguay, 1813.

TIMELY TOPICS.

Real rain at last.

• • •

What do you think of Laurier's barefaced bribery? Bringing a rain like that on election day! What farmer could vote against him after that?

• • •

Well, the rain will cleanse the country of smoke, and the electors today will cleanse the country of corruption, so we ought to be in pretty fair shape in a day or two.

• • •

At the political meeting in the City Hall on Saturday night, Sir Mackenzie Bowell told a story which shows how easily fooled some ignorant people are when what they consider to be their own interests are at stake. An employee of the local Lock Factory, it is said, avowed his intention of voting for Funnell. When asked why, he said, well, Funnell, if he were elected, would have the locks on all Government buildings changed every year. Hence things would boom in lock factories. As the pretty young lady with the dark green coal scuttle on her head would say, "Wouldn't that take you to the fair?"

• • •

A city minister yesterday prayed that the Almighty would to-day so influence the electors of Canada that they would vote for right and against wrong. And let us add—"And may no human devices prevent the will of the people from being fairly expressed." A fair field is all Conservatives ask.

• • •

Another farmer was nearly smashed up at the Caniflon road crossing on Saturday. Let us hope that kind of thing will not grow to be a habit with our agricultural brethren.

• • •

This glorious rain will fill the cisterns. Wouldn't it be great if it would fill the coaltins, too?

• • •

Well, that rain may have come through a funnel, but we doubt it.

• • •

If Laurier finishes his work to-day he'll have to wear rubber boots, sure.

• • •

THE TIE THAT BINDS.

(Toronto News.)

Soon shall we hear the Christmas bells,
And note the Christmas tree:
Some female relative, I fear,
Is making ties for me.

• • •

Vote for Porter—but there, what's the use of telling you? You've already done so.

• • •

"After me the deluge," said Sir Wilfrid. But the deluge came a little before he got his.

• • •

No more forecasts. What will the hindcast be?

• • •

Seems to us there was something last election which we miss to-day. What was it? Oh, yes, those bogus ballot-boxes. They had the good men of this blessed city on the tiptoe of excitement all day, and made us the talk of Canada. No, we don't think there will be any more of that kind of business. Not with Sir James Whitney in power in Toronto.

• • •

Well, the election campaign may have been rather dry, but no one can say that of election day.

• • •

Lord Milner says every Canadian thinks he lives in the finest country in the world. Beggin' Your Lordship's pardon, you've slipped your trolley. They don't THINK it, they KNOW it.

DR. A. W. CHASE'S CATARRH CURE ... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

A party in this city has received a letter from Nova Scotia which says the election fight has been very hot there. Men talk nothing but politics over the fences, women follow suit at the ladies' aid, and boys fight about it at school. A warmer election campaign was never known down by the sea.

• • •

The fact that men and animals have already been frozen to death in the west reminds us that Jack Frost is due at any minute now. Brush the cobwebs from the snow shovel.

• • •

A little maid was talking to a lady. She said: "My father's a Grit and my mother's a Tory. What will I be?"

And the lady said: "You'll be a Tory."

PERSONAL AND SOCIAL.

Mrs. W. H. Henthorn returned to the city this morning, from Montreal, much improved in health.

Miss Janet Wilson, of Lindsay, spent Sunday in the city, the guest of her cousin, Miss Minnie Wilson, Victoria Ave.

Dr. Donald D. Wilson, late of this city, now of the Department of Trade and Commerce, Ottawa, is a welcome visitor to his native city, where he will remain until to-morrow.

Picton Gazette: Mrs. A. McOuaig of Belleville, is visiting Mrs. Hepburn, in town. Mrs. Geo. A. Kingston, Toronto, and Miss Lottie E. Conger, Belleville, are visiting Mrs. Alice Conger. Mr. James R. Anderson, of Mountain View, who is so well known and so much liked in town was here on Monday for the first time since June. Mr. Anderson has been dangerously ill for many weeks now, and his friends were greatly pleased to see him about again, looking so much better.

At the Quinte: B. F. Rapley, T. Blaikie, Montreal; E. Wood, M. A. Brown, G. Bruce, F. M. Sloan, F. J. Stafford, J. J. Durance, J. White, Toronto; Miss Willoughby, A. G. Willoughby, Colborne; C. L. C. Lampe, J. B. Mahoney, New York; W. Payne, Port Granby; W. R. Mather, Stirling; J. G. Starling, Buffalo; J. J. Benson, Picton; A. L. Johnson, Winnipeg; R. C. Blagrave, Belleville; A. M. Bristol, Galt; A. W. Fawkes, Campbellford; W. J. Potter, H. J. Duncan, Kingston; W. S. Miller, Frankford; H. J. Bates, Brighton; S. S. Forneri, Cobalt; G. E. Matthews, W. M. Robinson, Trenton; H. S. Bates, London, Eng.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

McKeown's Drug Store

Political Pointers.

FINE MEETING IN THE CITY HALL ON SATURDAY NIGHT.

One of the brightest and best political meetings ever held in this city was that which took place in the City Hall on Saturday night. In spite of the inclement weather and the fact that hundreds could not get away from business, the hall was crowded, people standing around the sides.

There was a fair sprinkling of ladies present. (No pun intended.)

Ald. Green was chairman, and officiated most acceptably.

The speakers were Messrs. W. B. Hudson, ex-M.P.P.; W. C. Mikel, K. C.; J. W. Johnson, M.P.P., Sir Mackenzie Bowell and Mr. Porter.

The speeches were interesting and attentively listened to by the large audience.

The reception given to Mr. Porter and Sir Mackenzie Bowell must have been very gratifying to those gentlemen.

A pleasing feature was the singing of "Rule Britannia" by ex-Ald. Barrows. The audience "came in on the chorus," and it was delightfully inspiring to hear the ladies' voices.

Cheers for the King and political leaders closed a fine meeting.

PILES CURED IN 6 TO 14 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

SPORTS AND PASTIMES.

TROTTING.

Straight Heats at Frankford.

Frankford, Oct. 23.—There was a large attendance at the fall matinee races this afternoon. Two exciting events were trotted, as follows:

Free-for-all, half-mile heats—
Rio Dee, D. Lake, Deseronto...... 1 1 1
Guy, Armstrong, Frankford...... 3 2 2
Prince Medium, J. Clarke, Brighton 2 3 3
Best time—1.10.

Class B, half-mile heats—
The Jap, Stewart, Deseronto... 1 1 1
Bourbon Brooks, Frankford 3 2 2
Little Bob, Dr. Faulkner, Foxboro ...... 2 * 4
Black Prince, Lewis, MacColl... 4 3 3
*Fell in second heat.

Starter—Peter Harder. Judges—W. Carnew and Fred Fanning. Timer—Dr. Caldwell.

SPORTING NOTES.

The Canadian Olympic lacrosse team beat the English team, 14-10, in a good match.

Longboat won the 15-mile road race in Montreal in 1.25.45. Last year he covered the same course in 1.24.20. Holmer of Halifax was second and Abbie Wood, of Montreal, two yards behind him.

Football results on Saturday: Varsity 29, Ottawa College 18; Queen's 10, McGill 5; Hamilton 18, Montreal 7; Ottawa 21, Argonauts 2; Kingston 50, Gananoque 7; Lindsay 9, Peterboro 6.

Big Tom Flanagan is said to have slapped little Shrubb's face in a hotel in Montreal. Shrubb had a wad and wanted to bet he could beat Longboat. It looks like a fine big advertising scheme.

WHAT IS ITCH DIRT?

It is the old Anglo-Saxon name for Dandruff and it's a good one. If you have dandruff you have itch dirt and the little microbes that are part and parcel of dandruff are working persistently night and day and sooner or later will reach the very life of your hair and destroy its vitality.

Then you'll be bald—Bald to stay—for not even the wonderful rejuvenating properties in Parisian Sage can grow hair after the hair bulb or root is dead. Parisian Sage cures Dandruff. J. S. McKeown, the druggist, sells it—recommends it and guarantees it; only 50 cents a large bottle and your money back if it fails to cure Dandruff, Falling Hair and Itching of the Scalp.

WHAT ARE YOUR BOYS AND GIRLS READING?

They are bound to read something. They will read trash unless you give them something better that is equally interesting. Try The Youth's Companion. There is plenty of adventure in the stories, and the heroes and heroines are of the real kind, finding in the line of duty opportunity for courage and unselfishness. More than 250 such stories will be published in the 52 issues of the new volume for 1909. There will be fully as many articles, sketches and reminiscences to impart useful information in the most agreeable way, familiarizing The Companion's readers with the best that is known and thought in the world.

Full illustrated announcement of The Companion for 1909 will be sent to any address free with sample copies of the paper.

The new subscriber living in Canada who at once sends $2.00 for 1909 will receive free all the remaining issues of 1908, besides the gift of The Companion's Calendar for 1909, entitled "In Grandmother's Garden," lithographed in 13 colors.

THE YOUTH'S COMPANION,
111 Berkeley Street, Boston, Mass.

Died in Philadelphia.

DR. SCOTT.

Dr. Scott, a practising physician of Syracuse, N.Y., and son of the late John Scott, of College Hill, this city, died on Saturday at Philadelphia, where he was undergoing an operation. His mother and sister, residing at the homestead, were called from here to his bedside on Thursday last and arrived on Friday morning in Philadelphia, having the satisfaction of spending a day by the bedside of their son and brother.

Dr. Scott and his wife were frequent visitors at Belleville. The doctor gave great attention to his aged mother, and also his father, who died over a year ago. Dr. Scott was born and brought up at, or near, Frankford, where his father owned and conducted a large milling business. After his father's retirement the doctor conducted the business for a few years, after which he entered the Collegiate and prepared for his chosen profession. He was a noble, large-hearted man, with wide experience in the affairs of life, a comparatively young man, and will be greatly missed by those with whom he came in contact, both in a professional and friendly way.

Died in Morrisburg.

Mrs. Richard Hodgson, widow of the late Mr. Richard Hodgson, for many years Freight Cashier at the Grand Trunk, died in Morrisburg yesterday. The body will be brought here for interment in the family plot. Funeral announcement later.

A Narrow Escape.

Another farmer was nearly smashed up at the Caniflon road crossing on Saturday afternoon. It seems that he was driving home, and his wagon's hind wheels had just cleared the rails when a train whizzed by. Nearly another tragedy!

Election Returns.

The Intelligencer has made arrangements to receive the election returns to-night, and will bulletin them in its front window as fast as they are received.

The Conservative Central Committee has secured the City Hall for this evening, where the election returns will be received and read.

Masonic Funeral.

The brethren of Eureka Lodge, No. 893, A. F. and A. M., and brethren of sister lodges, are requested to assemble at the Masonic Temple at 2 o'clock p.m. on Wednesday, 28th inst., for the purpose of attending the funeral of late Brother Adam Henry.

RICHARD McCRUDDEN, W.M.

Deaths.

CLARKE — Died at Belleville, on Sunday, Oct. 25th, 1908, at the family residence, Bridge street, Mary, widow of the late Francis Clarke.

Funeral, private, Wednesday morning.

All the world's a stage and all the actors try to monopolize the spot light.

THEIR HOPE, THE PEOPLE

Muskoka's Brave Battle for Needy Consumptives.

It is poor consolation to needy consumptives to say that the Government should make provision for the thousands who suffer and die from tuberculosis in Canada every year.

The Government should do a great deal more than they have yet dreamed of doing. But they are not doing it, and in the meantime twelve thousand die annually in the Dominion, from this dread disease.

As the situation is to-day, what would be the fate of many consumptives in Canada were it not for the two Homes for Consumptives in Muskoka that during the past eleven years, against many odds, have cared for upwards of three thousand patients in the earlier stages of the disease, whilst in the two sister institutions, on the banks of the Humber, those in the more advanced stages are treated.

This work in Muskoka is one of pure philanthropy. From the day the first patient was admitted to the Muskoka Free Hospital for Consumptives in April, 1902, not a single applicant has ever been refused admission because of his or her inability to pay.

The Government contribute $1.50 per week per patient. The cost of maintenance is $9.25 a week. The difference in the cost of maintenance of all needy patients has through these years been made up by private philanthropy.

The Secretary-Treasurer of the Association, Mr. J. S. Robertson, 317 King Street West, Toronto, writes us that, with the financial depression of the past year, the funds of the Muskoka Free Hospital for Consumptives have suffered greatly. At the commencement of the winter season the Trustees have to face a heavily overdrawn bank account and have many obligations to meet.

Despite these financial worries every applicant is receiving careful consideration and patients are admitted as promptly as beds are made vacant.

All through these years the institution has been maintained, not by any rich endowment, for such does not exist, but by the generous contributions of the masses of the people—the small sums rather than the large ones.

We frankly say that we do not know, in our experience, of a more worthy and deserving charity, and our hope is that the readers of these lines will respond to the appeal that is now made for funds for the Muskoka Free Hospital for Consumptives.

Contributions may be sent to Mr. W. J. Gage, 84 Spadina Ave., Chairman of the Executive Committee, or to J. S. Robertson, Secretary-Treasurer of the National Sanitarium Association, 347 King Street West, Toronto, Ontario.

Daily Intelligencer.

English Patent Laws.

England is protective, at least in some respects. It has passed a law, which came into effect on the 27th of August, 1908, providing that foreign patents in Great Britain may be revoked by Great Britain after a reasonable interval, unless the patented article is manufactured or the patented process is operated in the United Kingdom to an adequate extent.

The result is that a great number of foreign firms already have taken sites and started works in Great Britain; many others are making arrangements to do so. These are mainly German and American firms. Sir Alfred Jones, head of a prominent firm of ship owners, estimates that $125,000,000 will thus be invested there for the manufacture of articles formerly manufactured abroad, and a prominent expert in patent laws thinks that no fewer than 8,000 patents granted to foreigners will come under the new law. For the encouragement of industry this is a sound protective policy.

The effect which this movement is having upon foreign countries is evidenced by the following:

Stockholm.—The International Congress for the Protection of Industrial Property, which began its session here to-day, took up the discussion of the British Patent Act, in its effect on foreign countries. Twenty-one foreign countries were represented. Edward B. Moore, United States Patent Commissioner, said to-night: "The result of the discussion on England's new patent law will probably be that the majority of nations belonging to the International Patent Union will enter a protest against it, and recommend to the official congress, to be held next year, in Washington, that some sort of retaliatory combination against Great Britain be formed, whereby Great Britain must either become a party to their proposition, or be excluded from all the benefits to be derived from such a combination."

Foreigners have had the full benefit, free, of the British markets for so many years that they find it difficult to realize that any interests exist outside their own, and that if they do exist they should not be protected. They are being taught a lesson to the contrary, for it is evident the English people are becoming alive to their own interests by returning to a sounder and more equitable protective policy than has characterized them during the past half century.

CROSSED THE DARK RIVER.

MRS. MARY CLARKE.

In the death of Mrs. Mary Clarke, relict of the late Francis Clarke, which occurred at 2.30 Sunday afternoon, at the family residence, Bridge street, an aged and estimable lady has been lost to the city. For some time the deceased had been in failing health, but her demise was not anticipated. Heart trouble was the cause of death. Mrs. Clarke was born at Alston, Cumberland, Eng., but came to Belleville when a child and since then made her home here. She was a devoted member of St. Thomas' Anglican church, and a lady who was highly esteemed by all who knew her. A family of two sons and five daughters survive. The sons are Joseph D. and Charles F., of this city and the daughters are Mrs. W. W. Lee, of Montreal; Mrs. C. J. Boldrick, of Stirling; Mrs. Geo. Wallbridge, Misses Ida R. and Emma, of this city. To them will be extended the sincere sympathy of relatives and a host of friends.

The late Mrs. Clarke was nearly 90 years of age.

MR. ADAM HENRY.

The stroke of paralysis which Mr. Adam Henry sustained on Saturday morning proved fatal, as he passed away last evening at the hospital.

Deceased was one of the best known residents of this city, and had a host of friends. In the year 1834 he was born at Clones, Ireland. When a young man he came to this country and had for over half a century resided here. He was for some time a clerk with the late Mr. Nathan Jones, and later went into business for himself, which he conducted most successfully for many years. Three years ago he retired from business. Mr. Henry was an upright business man.

Mr. Henry was a member of Bridge street church and in politics was a staunch Conservative. He was a member of Eureka Lodge, A., F. and A.M. In 1895 Mrs. Henry passed away. No family survives. Three sisters of the deceased survive, namely, Mrs. H. Morton, Moira; Mrs. J. Stokes, Tweed, and Mrs. T. Caskey, of Blairton.

The foods we eat furnish energy for the body just as burning coal makes steam for an engine.

The experiments of Prof. Frankland, Ph. D., of London, show that cod liver oil yields two and one-half times more energy than starches or sweets.

Scott's Emulsion

is pure cod liver oil combined with hypophosphites of lime and soda. It forms fat, gives strength, enriches the blood, invigorates the nerves, and repairs tissues.

Send this advertisement, together with name of paper in which it appears, your address and four cents to cover postage, and we will send you a "Complete Handy Atlas of the World."

SCOTT & BOWNE
126 Wellington Street W., TORONTO, ONT.

MR. FRANK TREADWAY

Mr. Frank Treadway died yesterday in the Township of Thurlow, from senility. Deceased, who was 87 years of age, had been for the greater portion of his life a resident of the County.

Political History of Hastings And Prince Edw'd Co.'s.

Some Interesting Figures for the Electors of the Bay of Quinte District.

Following is a political history of the Ridings of this district, which will be found interesting:

HASTINGS, EAST.

(Established by the Representation Act, 1903.)

In 1904, W. B. Northrup, Cons., elected by 328 majority over Deroche, Lib.

HASTINGS, WEST.

(Established by the Representation Act, 1903.)

In 1904, Portor, Cons., elected by 879 majority over Lott, Lib.

Hastings county was formerly divided into three constituencies, Hastings, East, North and West; the records of which follow:

In Hastings, East, in 1867, Read, Cons., elected by 643 majority.

By-election, John White, Cons., elected by acclamation.

In 1872, John White, Cons., elected by 44 majority; in 1874, by 71 majority; in 1878 by 20 majority; and in 1882 by 53 majority.

In 1887, Burdett, Lib., elected by 64 majority.

In 1891, S. Burdett, Lib., elected by 54 majority.

Mr. Burdett died in 1892, and W. B. Northrup, Cons., was elected by 422 majority.

In 1896, J. M. Hurley, Lib., was elected by 223 majority over W. B. Northrup, Cons., and by 600 over James Balconquel, Patron.

In 1900, W. B. Northrup, Cons., was elected by 71 majority over J. M. Hurley, Lib.

In Hastings West, in 1867, Brown, Lib., elected by 460 majority; in 1872, by 425 majority; in 1874 by 365; and in 1878 by 251 majority.

In 1882, A. Robertson, Cons., elected by 236 majority and in 1887 by 178 majority.

A by-election in 1888, H. Corby, Cons., elected by acclamation.

In 1891, H. Corby re-elected by 360 majority. He resigned his seat and was re-elected by acclamation in 1894.

In 1896, H. Corby, Cons., was elected by 245 majority over Thomas Ritchie, Lib.

In 1900 H. Corby, Cons., was elected by 842 majority over S. J. Young, Lib. Corby resigned, and at a by-election Jan. 15, E. G. Porter, Cons., was elected by 501 majority over J. G. Frost, Lib.

In Hastings, North, in 1867, Hon. Mackenzie Bowell, Cons., was elected by 289 majority; in 1872 by 207 majority; in 1874 by 95 majority, in 1878 by 241 majority; and in 1882 by 351 majority.

In 1887, Hon. M. Bowell, Cons., by 1041 majority.

In 1891, Hon. Mackenzie Bowell, Cons., elected by 206 majority. Mr. Bowell was called to the Senate, and in 1892 A. W. Carscallen, Cons., was elected by 359 majority.

In 1896, A. W. Carscallen, Cons., was elected by 713 majority over S. Harryett, Lib.

In 1900, A. W. Carscallen, Cons., was elected by 655 majority over S. Harryett, Lib.

PRINCE EDWARD.

In 1867, Walter Rose, Lib., elected by 837 majority; in 1872, by 134 majority; and in 1874, by 126 majority.

In 1878, J. S. McCuaig, Cons., elected by 200 majority.

In 1882, Dr. Platt, Lib., elected by 19 majority.

In 1887, J. Platt, Lib., elected by 71 majority. He was unseated, but re-elected by 151 majority.

In 1891, A. C. Miller, Cons., elected by 21 majority. He was unseated, but re-elected in 1892 by 209 majority.

In 1896, W. V. Pettet, Patron, defeated Wellington Boulter, Cons., by 221.

In 1900, George A. Alcorn, Cons., was elected by 68 majority over W. V. Pettet, Lib.

In 1904, Alcorn, Cons., elected by 146 majority over Rose, Lib.

The Buckley Hat
UNAPPROACHABLE

Honoring Courage.

Tweed News: It is with pleasure we learn that John W. Sills and Wm. Simmons of the Ont. Powder Works who so bravely went to the rescue of Charlie Black, the young fellow who risked his own life to save the two Martin boys, have been remembered as Mr. Black has presented each of them with a beautiful and valuable present. We sincerely hope and trust that Chas. Black will in the near future receive the life saving medal from the government. When we remember that Charlie Black, a boy of sixteen, half a mile from shore and in 70 feet of water, succeeded in placing these two frightened bits of boys upon the bottom of an upturned canoe and kept them there while he himself kept swimming about until help arrived, we cannot but admire his true bravery and presence of mind. Surely such a brave and noble act in any person deserves more than a passing recognition.

YOU CAN TEST THE KIDNEYS

THEN LET DR. A. W. CHASE'S KIDNEY-LIVER PILLS PROVE THEIR POWER TO CURE.

Let urine stand for twenty-four hours and if at the end of that time there are deposits of the brick dust variety, or if the water becomes smoky and cloudy, you may be sure the kidneys are deranged.

Another very marked symptom of kidney disease is pain in the small of the back.

The letter quoted below tells how these symptoms were overcome and kidney disease cured by Dr. A. W. Chase's Kidney-Liver Pills. Because of their direct and combined action on both liver and bowels these pills cure the most complicated cases.

Capt. W. Smith, a veteran of the Crimean war, living at Revelstoke, B.C., writes: "I can testify that for years I was a sufferer from chronic kidney disease, which was the verdict after the doctor examined me and analyzed my urine. As his medicine did me no good I bought a box of Dr. Chase's Kidney-Liver Pills and was benefitted so much that I kept on taking them until I can say that I am perfectly cured, which the doctor certifies."

One pill a dose, 25 cents a box. At all dealers or Edmanson, Bates & Co., Toronto.

Dr. A. W. Chase's Kidney-Liver Pills.

A TURBULENT GHOST.

Noisy Nocturnal Rounds of an Invisible Visitor.

QUEER DEATH OF OLD JABEZ.

The Uncanny Incident That Disturbed the Quiet of an Old Virginia Home. A Nightly Tramp That Never Ceased Until the House Was Demolished.

"I am not exactly prepared to say that I believe in ghosts," said the old gentleman from Virginia, "but at the same time, in view of certain things that have been told me by persons whose reputations for veracity do not admit of a doubt, I cannot allow myself to ridicule the ideas of others who do believe in an occasional return to earth of the dead.

"There is one case in particular that I know of personally and that can be vouched for by a number of citizens in the upper counties of my state, and that is the case of old Uncle Jabez Martin, who knew a number of well to do farmers in Fauquier as well as in Spottsylvania, Rappahannock and other counties in the northern part of the state. 'Uncle Jabe,' as most every one who knew the old fellow called him, had considerable of the nomad in his disposition and led a wandering pastoral life. He was always willing to work when any one needed his services and did a good deal of rough carpentering in return for a 'meal o' wittles and a shakedown,' as he expressed it, and as he was pretty well known in the land of his pilgrimages it was a rare occurrence when he was not given a welcome.

"If old Uncle Jabe thought more of one family in the state than he did of another it was the Greens. Virginia, as all know, is full of Greens. An estimable crowd they are, and nearly all of them consider themselves as related in some degree of consanguinity to the others of that name. 'The Greens of Virginia is the finest tribe of that name in seven states,' was the constant boast of Uncle Jabe, and above and beyond any other Green anywhere he placed Marse Dickie Green of Fauquier, and that is where my ghost story, if you will please to consider it as such, begins.

"One wild night in the month of October not very long before the war the old wanderer made his appearance at Squire Green's. Mr. Green was called squire by virtue of being a justice of the peace. Jabe wanted his usual 'meal o' wittles and shakedown,' and it was at his service, as usual, and after a good supper he sat on the back steps of the house, smoked his old pipe for awhile and then went to bed.

"Squire Green was engaged in some work that kept him up until midnight, and as the clock struck 12 he heard a heavy sound on the stairway. It seemed as if some one was coming down the steps with heavy irons on the legs. The sound was carried to the door, which was opened noisily and then closed with a terrific crash.

"Thinking it strange that old Jabez Martin would be guilty of making such unnecessary noise, the squire rushed to the door and opened it. The moon was shining in all its beauty, and everything was perfectly calm and nobody in sight. Back again went the surprised squire and up into the attic chamber, where Martin always slept when he made his calls. He found everything calm and quiet there. It was the quiet of death, for old Uncle Jabe was lying supine on his back, with his glassy eyes staring right up to the ceiling, where the squire left him until the morning.

"When he related the circumstances in the morning it seemed that every other one of the house had been disturbed by the uncanny noises. The strange part of it is that next night the same sounds were heard again, even to the slamming of the door, and an investigation proved that there was no person to make them. There were no cowards in Squire Green's family, but the noises disturbed them, and when they were heard, as they were, frequently at midnight they became so used to them they would simply remark that 'Uncle Jabe was tramping again' and go to sleep again.

"Friends and neighbors who knew of the ghostly exercises were averse to staying all night in the house, and the darkies couldn't be bribed to come near the place after nightfall. The sounds never ceased until after the house was torn down, and even its demolition, which it was hoped might reveal the source of its strange and grewsome sound, failed to present any explanation. There are folks living today in Fauquier county," said the relater of the ghost story, "who can, and I have no doubt readily will, testify to the truth of what I have made mention of."

Those Men!

"I went into the office looking like a fright," said the woman. "I didn't have a chance to straighten my hat or pat my hair or anything. I had intended to primp going up in the elevator, but there was a man standing before each mirror twirling his mustache, and I couldn't even get a peep at myself."—New York Times.

A Sound Reason.

Robert, aged five, was irritated by the crying of Clara, aged two.

"Sister," he said, with great seriousness, "why don't you stop crying? You must be sick. You don't look well, and you don't sound well."

Circumstances are beyond the control of man, but his conduct is in his own power.—Beaumont.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

TIMELY TOPICS.

I AM THE GOAT.

These are the days that Mrs. Green
At early morning comes in haste
And leaves a plate of jelly red,
For me to taste.

And she has barely left our home,
When tripping lightly o'er the street,
Comes Mrs. Brown with some preserves
For me to eat.

Then follows Mrs. Andrew Jones,
A kindly neighbor dwelling by,
Who leaves a jar of Chili sauce
For me to try.

Next in this glad parade of fall,
Comes Mrs. Fox, who bears an ample
Plate of green tomatoes stuffed
For me to sample.

Of every sweet or tart conceit
That woman knows of, here I note,
A portion I'm compelled to eat—
I am the goat.

A well known newspaper man tells of the time when he conducted an "Answers to Correspondents" column for a newspaper. For the convenience of such subscribers as wished personal replies to their queries, the editor would send responses direct when stamped envelopes were enclosed for the purpose.

One morning the editor was in receipt of two communications requesting personal replies, one from an anxious mother, who wrote touching the proper rearing of twins, the other from a farmer who asked for a method of getting rid of grasshoppers.

The editor out of the fulness of his knowledge wrote the two replies, but in the press of business got them in the wrong envelopes. To the mother of twins went this interesting recommendation:

"Cover them carefully with straw and then set fire to it. After jumping in the flames for a few minutes the little pests will be speedily done for."

The man who was troubled with grasshoppers was bidden to:

"Give castor oil regularly in moderate doses and rub their gums with a bone."

Killed by Thresher.

Guelph, Oct. 26.—As a result of injuries sustained Friday night while moving a threshing outfit, George Henlock Young died at the General Hospital between 1 and 2 o'clock yesterday afternoon.

Mr. Young was standing in such a position that the steering rod on the engine which was being moved into the barn, was literally driven through his body. It was said that the accident was due to his losing control of the engine. He was 36 years of age and married, leaving his wife and one son of nine years.

Orville Wright Recovering.

Washington, Oct. 26.—Orville Wright, the aeroplanist who narrowly escaped death in the accident to his aeroplane during a flight at Port Meyer, Va., five weeks ago, will soon be able to leave for him home at Dayton, Ohio. His most serious injury was a broken thigh, and the splint was removed from this yesterday. It was found on measuring the left leg, the one injured, that it is but a quarter of an inch shorter than the other. An X-ray examination of the fracture showed that the knitting of the broken bones has been perfect.

Eastern Bank Looted.

Montreal, Oct. 26.—Advices from St. Raphael, some fifty miles below Quebec, say the branch of the Provincial Bank there was broken into, and the sum of $4,500 carried off.

The bank is insured against all loss and the provincial detectves are after the robbers, who are thought to be the same gang operating in the eastern townships and Quebec for some time past.

Easy Money.

Theodore Hook was one of the Garrick club's most famous members. He generally arrived at the club late in the afternoon and "never went home till morning." He had been told by the doctors, he said, to avoid the night air. A member of the club in Hook's time predicted the advent of the millennium at the end of three years. "All right," cried Hook. "Give me a five pound note now, and I will repay you £50 at the millennium."

Dangerous.

Giles—How's your son gettin' on up in Lunnon? Garge—Very well. He tells me he's got a job partly behind the counter and partly out o' doors. Giles—And what 'appens when the door slams?—London Telegraph.

Makes Cowards of Us All.

There is nothing from which even the bravest man shrinks so pitifully as the lancet of the surgeon, even when it is wielded by the most skillful of his craft.—London Sketch.

Pensioned For Life.

By JENNIE LEE.

Copyrighted, 1908, by Associated Literary Press.

"If you pull my hair again, Louise, I'll discharge you without a moment's notice!" snapped the lovely Sibyl Stevenson to her French maid, who was dressing her mistress' head.

"Miss Sibyl is very cross," suggested the maid in meek reply as she went on with her thankless task.

"Well, you'd be cross, too, if"—

"Shall I dress the hair high or low this morning, miss?" interrupted Louise.

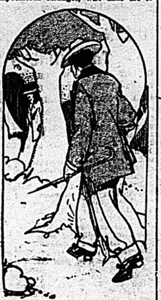
"The ugliest way possible," said Sibyl sharply. "Make me the ugliest woman on the beach. Make me so ugly that no man will ever look at me. Do you understand?" she continued. "I hate men."

Louise went on making puffs and curls regardless of her mistress' directions. For a time nothing was said. Sibyl was decidedly moody, and it was the maid who again started the conversation.

"Miss Sibyl, what is a good looking glass?"

"Why, Louise, you are stupid not to know that. A good looking glass is a mirror which tells no lies. Now, with the men—they are not so responsible—they do not always tell the truth, but you can depend on a good looking glass to be brutally frank. But why do you ask?" inquired Sibyl.

"Well, I have here a letter from a mysterious stranger, who asks me to meet him at the Pine grove. He says that I am a good looking glass. What does he mean, Miss Sibyl?"



"IS THAT YOU, LOUISE?" HE WHISPERED.

"He doubtless says you are a good looking lass—that is, a girl," Sibyl explained. "But let me see the letter."

From the pocket of her dainty apron Louise drew forth the note. Sibyl read it through, hesitated a moment and then turned to her maid.

"Louise, I'll meet this man in your place. I don't want you to be deceived, as I have been. Mr. Judson has proved false, and"— A tiny tear found its way on Sibyl's cheek.

So it was arranged, and the season's belle, Sibyl Stevenson, strolled down toward the clump of tall pine trees near the edge of the lake in the early evening to meet the man who had paid court to her maid. The trees, shaken by the breezes, cast freakish shadows on the ground, and Sibyl was not altogether comfortable.

She was eager to meet this youth who was trifling with the affections of her maid and give him a piece of her mind. She had not long to wait, however, before the tall figure of a man came down the winding path.

With long, swinging strides he approached, stopped a moment as if to make quite sure of—something, she knew not what. Then, to her great surprise, he turned quickly and disappeared.

Sibyl waited until she felt it was no longer safe for her to be out alone and returned to the hotel to tell her maid of the strange occurrence. They discussed the problem, and both decided that the gorgeous gown worn by Miss Stevenson did not look like the simple grooming of her maid. This fact had probably frightened the man away.

The next evening Sibyl, dressed in a plain black frock, with white collar and cuffs and a drooping hat, awaited the mysterious Romeo whom Louise had notified by note to be there at a certain hour.

Again the tall figure swung down the road, a slouch hat pulled down well over his eyes.

"Is that you, Louise?" he whispered.

Sibyl started to scream; then she leaned against a friendly pine tree and in a weak voice claimed the identity.

"Is she wise?" asked the man.

"Is who wise?" reiterated Sibyl, her voice still trembling.

"Why, Miss Stevenson, your mistress," stammered her companion. "Don't stand there like a mummy, you stupid bit of French humanity! Speak up and tell me has she forgiven me and have you arranged a"—

He got no further in his inquiries. Sibyl picked up her little black skirt and ran for home. Once she was safely closeted with Louise she felt vaguely that the echo of a man's hearty laughter had followed her flight.

"Louise," began Sibyl in a most matron-like tone, "what do you mean by flirting with Mr. Judson? Now, do not interrupt me, for it was Mr. Judson who met me."

"Mr. Judson! Impossible!" cried the astonished Louise.

"No other," emphatically assured Sibyl. "Those things may be all right in France, Louise, but no nice American girl will"—

A knock at the door interrupted the end of this sentence. A gentleman was waiting to see Miss Stevenson. The hallboy did not know his name. Sibyl had changed her somber black frock to one of her Paris creations and went to meet her caller.

She glanced into the public parlor, but he was not in sight. Upon inquiry she learned that her guest was waiting on the corner of the piazza for her. She went to meet him, and Harry Judson put forth his hand as she came toward him in the dim light.

"Sibyl, you must hear me," Judson began.

"My dear Mr. Judson," said Sibyl, with stinging sarcasm, "that is just the trouble. I've heard too much from you already."

"Now, please listen. The train was late night before last, we were derailed just the other side of the draw, and I couldn't very well swim all the way here, could I?"

"Is that all you have to say?" inquired Sibyl, but the tone of her voice was a bit softer.

"Except that I love you and"—

"And my maid as well, I suppose," finished Sibyl.

"Don't be a foolish girl, dear. You have a prize in Louise. If you'll promise not to discharge her, I'll tell you a secret. It was Louise who arranged this campaign; it was she who suggested my writing her a letter that would reach you. She's a brick, all right, is Louise."

Sibyl opened her eyes wide and stared at Judson for a moment.

"You mean to tell me that stupid French girl planned all this to give you a chance to explain," mused Sibyl. "But why?"

"I hunted her up and told her you were angry with me because I kept you waiting nearly two hours. She understood it was not my fault, if you would not."

"But how can you explain about being with Miss Lawton?" suggested Sibyl.

"Easily," assured Judson. "She was on the same train with me, and it was late and dark, and she was afraid, and I offered to see that she landed safely under her parental roof. Surely no decent American could do less, could he?"

"Well—but"— Sybil felt that she was caught in a closely woven net and was trying, though not very hard, to find an opening. Harry looked very penitent, and Sibyl knew that she loved him as much as he loved her.

"Well, will you promise"—

"Anything, dear—anything!" cried Harry without waiting to know what it might be.

"Will you promise to give Louise a pension for life?" asked Sibyl.

And as he took her in his arms he promised that and many other more important things.

Real Bottomless Pits.

Bottomless pits are facts, not fancies, according to Professor E. A. Martel, the French geologist. He declares that this term may be applied to cliff caves whose lower part has been cut off by the erosion of the valley below, thus turning them into tunnels, through which the valley may be seen. The most remarkable abyss of this kind which the savant has seen is the so called hole of Piatary, on the summit of the eastern ridge of Vercors, above Clelles. At about 5,100 feet a horizontal orifice opens suddenly like the mouth of an ordinary cave, which it probably once was. The bottom has been cut off, demolished by the immense erosion of the vast basin of treves to the east, 2,300 to 3,300 feet deep, on which the present lower orifice of the present cave opens out in a superb arch, twenty-six feet high. From the railway between the stations of Clelles and Percy, on the line from Grenole to Veynes, it is seen 2,300 feet in the air like a pinhole near the summit of a limestone cliff. It was from the car window that the extraordinary aperture was discovered. In Belgium in the Grand Duke's hole one may descend and contemplate the windings of the Lesse, holding to the shrubbery to avoid being precipitated into the river 250 feet below. In the chalk cliffs of Etretat there is another evidence of an incompletely destroyed cave whose remaining upper entrance doubtless soon will disappear.

Strange Capture of a Salmon.

Fishing a well known river in Norway one June, one of the tenants of the fishing lodge opposite ours caught a fish of twenty-nine pounds in the morning and lost another, his spinning line being broken by the rush of a heavy fish. Fishing with prawn the afternoon of the same day, the same angler in the same pool got into a good fish at his first cast. After a long fight the fish was gaffed and landed. Then was revealed a strange state of things. The prawn tackle had never touched the fish; in fact, the hooks were a foot or more from it. They had caught in the cast which had been lost that morning and was now twisted into knots and tangles no doubt by the salmon endeavoring to get rid of the treble Norsk cast and hooks. The line had been got rid of. As the prawn swung down the pool it had grappled the lost cast still attached to the salmon, and fish (thirty-three pounds), cast and tackle were recovered. We watched the incident from the road and, crossing the river, handled the recovered cast. Many maintain that salmon once hooked and played for any length of time leave the pool.—W. H. in London Field.

"Slade is the solution," said the captain. "We must ask him."

They put back to the ship. Barnett was anxiously awaiting them.

"Your patient has been in a bad way, Dr. Trendon," he said.

"What's wrong?" asked Trendon, frowning.

"He came up on deck, wild eyed and staggering. There was a sheet of paper in his hand which seemed to have some bearing on his trouble. When he found you had gone to the island without him he began to rage like a maniac. I had to have him carried down by force. In the rumpus the paper disappeared. I assumed the responsibility of giving him an opiate."

"Quite right," approved Trendon. "I'll go down. Will you come with me, sir?" he said to the captain.

They found Slade in profound slumber.

"Won't do to wake him now," growled Trendon. "Hello, what's here?"

Lying in the hollow of the sick man's right hand, where it had been crushed to a ball, was a crumpled mass of tracing paper. Trendon smoothed it out, peered at it and passed it to the captain.

"It's a sketch of an Indian arrowhead," he exclaimed in surprise at the first glance. "What are all these marks?"

"Map of the island," barked Trendon. "Look here."

The drawing was a fairly careful one, showing such geographical points as had been of concern to the two year inhabitants. There was the large cavern, indicated as they had found it, and at a point between it and the headland the legend, "Seal Cave."

"But it's wrong," cried Captain Parkinson, setting finger to the spot. "We passed there twice. There's no opening."

"No guarantee that there may not have been," returned the other. "This island has been considerably shaken up lately. Entrance may have been closed by a landslide down the cliff. Noticed signs myself, but didn't think of it in connection with the cave."

"That's work for Barnett, then," said the captain, brightening. "We'll blow up the whole face of the cliff if necessary, but we'll get at that cave."

He hurried out. Order followed order, and soon the gig, with the captain, Trendon and the torpedo expert, was driving for the point marked "Seal Cave" on the map over which they were bent.

CHAPTER XXXI.

"YOU say the last entry is June 7?" asked Barnett as the boat entered the light surf.

Trendon nodded.

"That was the night we saw the last glow and the big burst from the volcano, wasn't it?"

"Right."

"The island would have been badly shaken up."

"Not so violently but that the flagpole stood," said the captain.

"That's true, sir. But there's been a good deal of volcanic gas going. The man's been penned up for four days."

"Give the fellow a chance," growled Trendon. "Air may be all right in the cave. Good water there too. Says so himself. By Slade's account he's a pretty capable citizen when it comes to looking after himself. Wouldn't wonder if we'd find him fit as a fiddle."

"There was no clew to Ives and McGuire?" asked Barnett presently.

"None." It was the captain who answered.

The gig grated, and, the tide being high, they waded to the base of the cliff, Barnett carrying his precious explosives aloft in his arms.

"Here's the spot," said the captain. "See where the water goes in through those crevices."

"Opening at the top, too," said Trendon.

He let out his bellow, roaring Darrow's name.

"I doubt if you could project your voice far into a cave thus blocked," said Captain Parkinson. "We'll try this."

He drew his revolver and fired. The men listened at the crevices of the rock. No sound came from within.

"Your enterprise, Mr. Barnett," said the commander, with a gesture which turned over the conduct of the affair to the torpedo expert.

Barnett examined the rocks with enthusiasm.

"Looks like moderately easy stuff," he observed. "See how the veins run. You could almost blow a design to order in that."

"Yes, but how about bringing down the whole cave?"

"Oh, of course there's always an element of uncertainty when you're dealing with high explosives," admitted the expert. "But unless I'm mistaken we can chop this out as neat as with an ax."

Dropping his load of cartridges carelessly upon a flat rock which projected from the water, he busied himself in a search along the face of the cliff. Presently, with an "Ah!" of satisfaction, he climbed toward a hand's breadth of platform where grew a natch of purple flowers.

"Throw me up a knife, somebody," he called.

"Take notice," said Trendon good naturedly, "that I'm the botanist of this expedition."

"Oh, you can have the flowers! All I want is what they grow in."

Loosening a handful of the dry soil, he brought it down and laid it with the explosives. Next he called one of the sailors to "boost" him and was soon perched on the flat slant of a huge rock which formed, as it were, the keystone to the blockade.

"Let's see," he ruminated. "We want a slow charge for this, one that will exert a widespread pressure without much shattering force; the No. 3, I think."

"How is that, Mr. Barnett?" asked the captain, with lively interest.

"You see, sir," returned the demonstrator, perched high like a sculptor at work on some heroic masterpiece, "what we want is to split off this rock." He patted the flank of the huge slab. "There's a lovely vein running at an angle inward from where I sit. Split that through, and the rock should roll of its own weight away from the entrance. It's held only by the upper projection that runs under the arch here."

"Neat programme," commented Trendon, with sardonic skepticism.

"Wait and see," retorted Barnett blithely, for he was in his element now. "I'll appoint you my assistant. Just toss me up that cartridge, the third one on the left."

The surgeon recoiled.

"Supposing you don't catch it?"

"Well, supposing I don't?"

"It's dynamite, isn't it?"

"Something of the same nature. Jovelte, it's called."

Still the surgeon stared at him. Barnett laughed.

"Oh, you've got the high explosives superstition," he said lightly. "Dynamite don't go off as easy as people think. You could drop that stuff from the cliff head without danger. Have I got to come down for it?"

With a wry face Trendon tossed up the package. It was deftly caught.

"Now wet that dirt well. Put it in the canvas bag yonder and send one of the men up with it. I'm going to make a mud pie."

Breaking the package open, he spread the yellow powder in a slightly curving line along the rock. With the mud he capped this over, forming a little arched roof.

"To keep it from blowing away," surmised Trendon.

"No. To make it blow down instead of blowing up."

"Oh, rot!" returned the downright surgeon. "That pound of dirt won't make a shadow of a feather's difference."

"Won't it!" retorted the other. "Curious thing about high explosives. A mud cap will hold down the force as well as a ton of rock. Wait and see what happens to the rock beneath."

He slid off his perch into the ankle deep water and waded out to the boat. Here he burrowed for a moment, presently emerging with a box. This he carried gingerly to a convenient rock and opened. First he lifted out some soft padding. A small tin box honeycombed inside came to light. With infinite precaution Barnett picked out an object that looked like a 22 caliber short cartridge, wadded some cotton batten in his hand, set the thing in the wadding, laid it on the rock, carefully returned the small box to the large box and the large box to the boat, took up the cartridge again and waded back to the cliff. They watched him in silence.

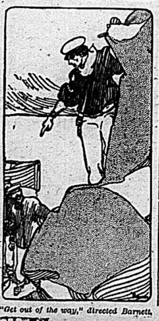
"This is the little devil," he said, indicating his delicate burden. "Fulminate of mercury. This is the stuff that'll remove your hand with neatness and dispatch. It's the quickest tempered little article in the business. Just give it one hard look and it's off."

"Here," said Trendon, "I resign. From now on I'm a spectator."

Barnett swung the fulminate in his handkerchief and gave it to a sailor to hold. The man dandled it like a newborn infant. Back to his rock went Barnett. Producing some cord he let down an end.

"Tie the handkerchief on and get out of the way," he directed.

With painful slowness the man carried out the first part of the order. The latter half he obeyed with sprightly alacrity. Very slowly, very delicately, the expert drew in his dangerous burden. Once a current of air puffed it against the face of the rock, and the operator's head was hastily withdrawn. Nothing happened. Another minute and he had the tiny shell in hand. A fuse was fixed to it and it was shoved under the mud cap. Barnett stood up.



"Get out of the way," directed Barnett.

"Will you kindly order the boat ready, Captain Parkinson?" he called.

The order was given.

"As soon as I light the fuse I will come down and we'll pull out fifty yards. Leave the rest of the Jovelte where it is. All ready? Here goes."

He touched a match to the fuse. It caught. For a moment he watched it.

"Going all right," he reported as he struck the water. "Plenty of time."

Some seventy yards out they rested on their oars. They waited and waited and waited.

"It's out," grunted Trendon.

From the face of the cliff puffed a cloud of dust. A thudding report boomed over the water. Just a wisp of whitish gray smoke arose, and beneath it the great rock with a gaping seam across its top rolled majestically outward, sending a shower of spray on all sides and opening to their eager view a black chasm into the heart of the headland. The experiment had worked out with the accuracy of a geometric problem.

"That's all, sir," Barnett reported officially.

"Magic! Modern magic!" said the captain. He stared at the open door. For the moment the object of the undertaking was forgotten in the wonder of its exact accomplishment.

"Darrow'll think an earthquake's come after him," remarked Trendon.

"Give way," ordered the captain.

The boat grated on the sand. Captain Parkinson would have entered, but Barnett restrained him.

"It's best to wait a minute or two," he advised. "Occasionally slides follow an explosion tardily, and the gases don't always dissipate quickly."

Where they stood they could see but a short way into the cave. Trendon squatted and funneled his hands to one eye.

"There's a fire inside," he said.

In a moment they all saw it, a single pin point glow far back in the blackness, a cyclopean eye that swayed as it approached. Alternately it waned and brightened. Suddenly it illuminated the dim lineaments of a face. The face neared them. It joined itself to reality by a very solid pair of shoulders, and a man sauntered into the twilit mouth of the cavern, removed a cigarette from his lips and gave them greeting.

"Sorry not to have met you at the door," he said courteously. "It was you that knocked, was it not? Yes? It roused me from my siesta."

They stared at him in silence. He blinked in the light with unaccustomed eyes.

"You will pardon me for not asking you in at once. Past circumstances have rendered me—well—perhaps suspicious is not too strong a word."

They noticed that he held a revolver in his hand.

Captain Parkinson came forward a step. The host half raised his weapon. Then he dropped it abruptly.

"Navy men!" he said in an altered voice. "I beg your pardon. I could not see at first. My name is Percy Darrow."

"I am Captain Parkinson of the United States cruiser Wolverine," said the commander. "This is Mr. Barnett, Mr. Darrow. Dr. Trendon, Mr. Darrow."

They shook hands all around.

"Like some silly afternoon tea," Trendon said later in retailing it to the mess. A pause followed.

"Won't you step in, gentlemen?" said Darrow. "May I offer you the makings of a cigarette?"

"Wouldn't you be robbing yourself?" inquired the captain, with a twinkle.

"Oh, you found the diary, then?" said Darrow easily. "Rather silly of me to complain so. But really in conditions like these tobacco becomes a serious problem."

"So one might imagine," said Trendon drily. He looked closely at Darrow. The man's eyes were light and dancing. From the nostrils two livid lines ran diagonally. Such lines one might make with a hard blue pencil pressed strongly into the flesh. The surgeon moved a little nearer.

"Can you give me any news of my friend Thrackles?" asked Darrow lightly. "Or the esteemed Pulz? Or the scholarly and urbane Robinson of Ethiopian extraction?"

"Dead," said the captain.

"Ah, a pity!" said the other. He put his hand to his forehead. "I had thought it probable." His face twitched. "Dead? Very good. In fact—really—er—amusing."

He began to laugh, quite to himself. It was not a pleasant laugh to hear. Trendon caught and shook him by the shoulder.

"Drop it!" he said.

Darrow seemed not to hear him. "Dead! All dead!" he repeated. "And I've outlasted 'em! I've outlasted 'em!" And his mirth broke forth in a strangely shocking spasm.

Trendon lifted a hand and struck him so powerfully between the shoulder blades that he all but plunged forward on his face.

"Quit it!" he ordered again. "Get hold of yourself."

Darrow turned and gripped him. The surgeon winced with the pain of the grasp. "I can't," gasped the maroon, between paroxysms. "I've been living in hell—a black, shaking, shivering hell, for God knows how long! What do you know? Have you ever been buried alive?" And again the agony of laughter shook him.

"This, then," muttered the doctor, and the hypodermic needle shot home.

During the return Darrow lay like a log in the bottom of the gig. The opiate had done its work. Consciousness was mercifully dead within him.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists

CORKS HAVE DISEASES.

Caused by a Small Worm Which Spoils the Flavor of the Best Wines.

"To the average person a cork is a cork," said a well known restaurant man the other day. "But smell this cordial. Would you believe it?" And he held up a bottle supposed to have the bouquet of cherries all the way from the blossom to the pit. The odor was musty and altogether unpleasant—in fact, it was decidedly bad. He continued:

"Now, the man paying 20 cents for his tiny glass of cordial after dinner is entitled to have it free from imperfections. If he bought a bottle of wine with that flavor, he would say the wine was bad, for ninety men out of a hundred know nothing about bad corks. He would want another bottle of wine or his money refunded, and he would be right.

"The defect is in a tiny worm in the cork that is often invisible to the man cutting corks and sometimes cannot be seen after the cork is drawn. A customer will taste the wine and say, 'Bad wine.' You explain about the cork, and he will say: 'Impossible. That was a beautiful cork—beautiful!' And yet we know that the contents of the bottle never could have that flavor under other conditions.

"I tell you there are millions of dollars waiting for the man who can invent a perfect cork that will stand the test of years for flavor and preserving qualities. If it could be proved that his invention was perfect, he would make millions in a month."

BRITAIN'S SMALLEST HOUSE.

Village of Sorbie Has Tiny Dwelling With Area of 48 Square Feet.

The distinction of possessing the smallest house in Great Britain belongs to the village of Sorbie, in Wigtonshire — thirteen miles from Newton Stewart. In proportion to its size, Sorbie has more one-apartment houses than any other village, town, or city in the United Kingdom. These houses, too, are not in tenements, but are each separate and complete in themselves.

One of them is occupied by Miss Jenny Davidson, and would be hard to beat for smallness. Its dimensions are: Length, 9 feet, breadth 6 feet, and height 6 feet 4 inches. The area is thus only 48 square feet, and its cubical content of 351 square feet.

The third house, occupied by Miss Jenny Mitchell, is slightly smaller, being 7 feet 8 inches, by 7 feet by 6 feet 4 inches high, giving an area of 53 2-3 square feet, while its cubical content works out at 339 8-9 cubic feet. Miss Mitchell is proud of her little abode, and often boasts jokingly that when she is "At Home" there is no room for anyone or anything else—not even the smoke. The rents of the houses vary from 20s. to 25s. per annum. Sorbie also has a 'tot' of a shop, occupied by Mr. Anthony McWilliam, general merchant, that would be in the running for smallest shops in Great Britain.

Conway has a curious little house on the quay of that town. This house has a frontage of only 72 inches, while the distance from the back to the front is exactly 100 inches. The house consists of two rooms only, each room being about 5 feet by 3 feet.

"It is so small," says Mr. Jones, "that a lady can shake hands from the bedroom window with a gentleman standing on the main street before it."

SEPTEMBER AT BRAEMAR.

Some Picturesque Ceremonies Take Place at Mar Lodge Every Autumn.

Undoubtedly the most important of the many "gatherings" which take place in Scotland during September is that of the Braemar Royal Highland Society, which was held recently, in the Princess Royal Park. The "gathering" is under the patronage of the King and Queen, the Prince and Princess of Wales, the Princess Royal and the Duke of Fife; and though Their Majesties were not, of course, present, the other royalties were. Just as Braemar is the chief of the gatherings, so is Mar Lodge the chief of the many Scotch houses that are noted for their splendid hospitality during the autumn, though the Princess Royal does not entertain very largely. Dinner at Mar Lodge after a big day with the deer is always an impressive affair. To begin with, the Princess Royal always, by custom, precedes her guests to the heather and rowan decorated table. During dessert the Duke of Fife's pipers march round and round the table, playing Highland melodies, and later in the evening there is often a "deer-dance". The noble quarry are laid in a heap in front of the castle, whilst gillies, keepers, and other retainers carrying torches, dance round them to the accompaniment of weird pipe music. Scotland is nothing if not picturesque, and there is, perhaps, no part of the kingdom where more quaint customs survive.

Dogs as Anglers.

Feline fishers are by no means uncommon, but it is not often that we find dogs with a taste for fish so strongly developed that they must needs catch them alive. A ferryman at Dingwall, England, has a collie which appears to have studied the ways of the heron. It stands patiently knee-deep in the water at the confluence of the Conon and awaits the coming of small fish. As soon as one drifts within range the collie plunges its head in the water and snaps a victim. Another dog—a retriever, owned by a Cromarty gentleman—has made a speciality in hedgehog hunting. It has acquired the art of carrying the prickly animal in its mouth. Almost every evening it scents one out, but never attempts to devour it. With much gravity the dog carries it home alive.

The Oldest Field-Marshal.

This distinction is held by Sir Frederick Paul Haines, who has just entered on his ninetieth year. The veteran officer has held many important positions, including those of commander-in-chief of the Madras army, military secretary to the Commander-in-Chief in India, and finally commander-in-chief of the Indian army. He joined the army within two years of the late Queen Victoria's accession, and has served in the Sutlej, Crimean, and Afghanistan campaigns. Sir Frederick, who resides in Pall Mall, London, enjoys wonderfully good health despite his great age, and spends a great deal of his time at his club, the United Service.

Britain's Beef Bill.

The world's greatest animal-food producer is the ox, including, of course, the female of his species. It is impossible to get at exact figures for the whole world; but it is generally believed to be about 15,000,000 tons a year and of this more than half is beef. In Great Britain each person eats between forty and fifty pounds of beef a year, out of a total of, perhaps, 120 pounds of various kinds of meat and poultry per head.

Visit Northern Islands.

The Attorney-General and Provincial Secretary of British Columbia have made a visit to Queen Charlotte Island, which indicates the growing importance of this group. This is the first occasion upon which Ministers of the Crown have felt it necessary to go to that part of the province.

A Neutral Zone.

A treaty has been entered into with the United States to arrange a neutral zone on either side of the international boundary line in order to prevent the erection of line houses for the illegal sale of liquor, and the evasion of customs duties.

When Sammy Turned Detective

By Mabel Herbert.

Copyrighted, 1908, by Associated Literary Press.

Raised upon a diet of Biblical literature until he had passed his eighth year, Sammy Temple took eagerly to the nickel novels when at last knowledge of their existence was communicated to him. First he liked the stories of men who sailed strange craft in the sky above, the earth below or in the waters under the earth.

Later these were as naught beside the bold detective who could arrest a band of counterfeiters single handed and who ran murderers to earth just to keep in practice for greater things.

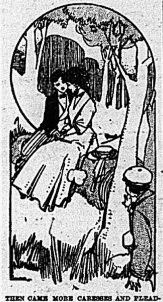
Captain Beggs, the solitary town constable, at once became a more important figure than Ben Dwyer, who ran the single engine which constituted the motive force on the little branch line. Sammy had liked to dream of the day when he should be an engineer, too, and would have charge of the great iron steed.

He had planned to sneak past the switch at the junction some night and run down the main line clear out to California, or maybe to Mexico, or up to the goldfields of Alaska. A fellow could go anywhere on an engine like that.

But after "The Boys' Own" and the detective books the engine, tied to its iron roadbed, seemed tame. Dwyer was deposed from his pedestal, and Beggs was installed thereon, although he was only a constable, which is not at all like a real detective.

Detectives are people who tell constables when the latter have the right prisoner, and he looked forward to the day when he could show his badge and say to Captain Beggs: "Officer, there stands the man who killed Cyrus Blake. Arrest him!" He was ready to bet that old Beggs would be surprised, and how the other fellows would stare!

But meanwhile there were opportunities to do a little detective work about the farm, and Sammy became vastly interested in the movements of Dave Ryder, one of the summer boarders at Cassell's, who would stroll ostentatiously toward the village, only to be seen returning from the opposite direction an hour or so later.



THEN CAME MORE CARESSES AND PLEADING.

This action was suspicious. Detective Samuel took the trail, and, like the human bloodhound that he was, he shadowed the suspect. It was rather disconcerting to have Ryder turn after a mile or more had been covered and rudely command him to be on his way. Ryder even called him "little boy." Sammy's heart rose hot within him, and he assured himself that Ryder must be a very desperate criminal.

But practice makes perfect, and the time came when Sammy learned to maintain a safer distance between himself and the object of his suspicions, and at last he tracked him to his lair.

The lair was disappointing. It was not a cave reached through a cunningly hidden trapdoor. It was not even a rude shack such as the one in which Billy, the Silent Sleuth, found Pete Pomero, the head of the train wrecking band.

It was just a little nook in a bend of the creek, with a fallen log for a seat, and with his own sister Lucy sitting there apparently waiting for the arrival of the desperado.

It was rather disconcerting to find one's own family mixed up in such affairs, but duty is duty, and Sammy wriggled as close as he dared and listened to the low murmur of conversation.

It all seemed absurdly simple. Ryder was not planning a burglary. He was kissing Lucy many times, and between caresses they were discussing how best to approach her father on the matter of their marriage.

Judged by the stern, unyielding standards of Josiah Temple, Ryder was far too gay a young blade to be trusted with Lucy, who was destined to marry a minister when her father could find a minister of whom he could fully approve. Lucy feared to let Ryder speak to her father lest she be forbidden to see or speak to him. Ryder, on the other hand, was urging her to consent to a test of fate.

"I feel like a scoundrel meeting you in the woods this way," he urged. "If your father refuses to give hi
sent, then we will elope."
Lucy shook her head in dismay
"I couldn't do that!" she cried
would break father's heart."
"Better his heart than yours,"
gested Ryder selfishly. Then
more caresses and pleading, and
my, tired of such talk, wriggled
through the brush and headed for
He had been wasting all his ti

Orders for bookbinding should be left at The Intelligencer Office. It is surprising how attractive and satisfactory a volume can be made of these magazines. Books, magazines or periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day books with any kind of ruling, made to order.

Bridge Street Sunday School's 86th Anniversary.

Was Fittingly Celebrated Yesterday—Former Popular Pastor Preached.

The Sunday School in connection with Bridge street Methodist church yesterday commemorated its 86th anniversary, and services appropriate to the occasion were held. The preacher of the day was the Rev. J. P. Wilson, B. A., of Lindsay, the former popular pastor of the church. His discourses were much appreciated by the large congregations present. Music of a special nature was provided by the choir. At the morning service an interesting and inspiring feature was the graduation of the following pupils from the elementary department of the school to the intermediate department. Mary Foster, Ernest Leavens, Winston Wensley, Mary Yeomans, Helen Foster, Milton Kerr, Ada Ketcheson, Dalbert Zufelt, Myrtle McKeown, Dawn Smith, Irene Moore, Wilfrid Ross, Grace Moxam, Albert Duesberry, Benjamin Bunten.

The graduates repeated in unison the Ten Commandments, the 23rd Psalm, and the Apostles Creed, after which each was presented with a Bible by Miss Mary Yeomans, superintendent of the elementary department. Congratulations and prayers for the graduates were offered up by the Pastor, Rev. Dr. Bishop. During the service Mrs. A. P. Allen sang a solo entitled "Count Your Many Blessings.

IN THE SUNDAY SCHOOL.

"One of the best, if not the best," was the verdict of those who attended the anniversary meeting in the Sunday School rooms in the afternoon. The attendance was very large, the interest in the services marked, the singing inspiring, and the keynote of it all was thanksgiving and praise. This school believes in giving honor to the powers that be and consequently had Sir Mackenzie Bowell, His Honor Judge Deroche, J. W. Johnson, M.P.P., His Worship Mayor Allan McFee, and Ald. A. G. Vermilyea, H. W. Ackerman, W. B. Deacon and T. Blackburn on the platform, each of whom gave short addresses of welcome to the Rev. J. P. Wilson, B.A., and congratulations to the school.

In front of the platform sat the Treasurer, Secretaries and Librarians of the school, to whom thanks were given for their faithful and appreciated services.

The Recording Secretary of the school, Mr. James Coulson, read a gratifying report, as follows:

Officers and teachers	62
Cradle roll	46
Elementary department	128
Intermediate department	145
Adult department	453
Home department	120
Total	954
Increase over last year	123

In keeping with the "Adult Bible Class Movement" of the last four years, this school, which since 1869 has had its Senior department, has now developed into eight classes, with a membership of 453. The remarkable thing about this, we are informed, is that there are more men than women attending.

Knowing, as our citizens generally do, how deep is the attachment to the Rev. J. P. Wilson by the congregation of Bridge St. Church, they will not be surprised to read that the welcome he got must have almost overwhelmed him as he arose to reply to the numerous welcomes he had received in the addresses. That outburst of demonstrative affection will not soon be forgotten.

The Superintendent read the names of the members of the school who had died during the year, and feelingly referred to them. They were: Mr. C. P. Holton, Mrs. F. S. Deacon, Mrs. John S. Marsh, Mrs. McAdam, Miss Alice Thomson, Mrs. A. P. Frederick, Mrs. Wm. Weese, Miss Edith Foster and Mrs. Walter Alford.

Nearly the last item on the programme was the presentation to Sir Mackenzie Bowell of a bouquet of roses. This was made by ten boys, through Harry McCullough, who are now the same age Sir Mackenzie was when he entered the school seventy-five years ago. Sir Mackenzie expressed himself as grateful for the unexpected remembrance of the many years he had been permitted to be a member of that congregation.

Masonic Services.

Yesterday a number of the members of the local lodges of Masons visited Stirling, where a Masonic church parade took place. Services of an appropriate nature were held in the Anglican church, and the preacher was the Rector, Rev. Bro. E. F. Byers. There was a large turnout of the brethren.

ANNUAL MEETING.

The annual meeting of the Belleville Horticultural Society will be held on Tuesday evening at 8 o'clock, November 3rd, 1908, in the City Council Chamber for the purpose of receiving report and electing officers. The membership fee of $1.00 must be paid to entitle to take part or vote.

Picton Mother and Her Son Drowned.

Mrs. Daniel Insley and Son John Met Death in East Lake.

Picton, Ont., Oct. 26 — (Special)—Mrs. Daniel Insley and her son, John of Picton, were drowned last night in East Lake.

It is supposed their horse ran away and jumped over the bank into the lake.

The body of Mrs. Insley has been found, also the horse and rig.

The young man's body is still missing.

Horses Killed on Grand Junction.

On Saturday, near Corbyville, two horses which had been grazing in a field got out upon the Grand Junction railway track and were struck by a passing train. Both animals were killed. One of them belonged to Mr. James Boyd, who resides just outside of the city limits.

A Quiet Election.

So far as this city was concerned, to-day was one of the quietest election days on record. The heavy rain at times made conditions anything but ideal, but election officials say that a good-sized vote was polled. Conservatives are quite confident that a large majority for Mr. Porter will be shown. In East Hastings it is said that many staunch Liberals are not voting at all. Polling is taking place to-day in 216 sub-divisions. Five will vote later. They are situated in B.C., the Yukon and Saskatchewan.

Slight Blazes.

Shortly before 7 o'clock last evening the fire brigade were called. A blaze in a barn on St. Charles st. was the cause of the alarm. The damage done was slight.

At 10.30 this morning the brigade were again called out. A chimney blaze at Black's restaurant, Front street, caused the alarm to be sounded, but the services of the brigade were not required.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

THE FRUITS OF THE EARTH

Seem To Be Nature's Provision For Keeping Man Healthy and Warding Off Disease.

Cereals, vegetables and meat supply the elements needed for man's nourishment. Yet fruit — though it has very little food value—has proved to be absolutely necessary for perfect health.

Careful investigation has shown that all the common fruits act on the Liver, Kidneys, Bowels and Skin. These are the organs that rid the body of dead tissue and waste products, and the fruit juices stir them up to more vigorous action, thus keeping the whole body clean and healthy.

But few people eat enough fruit. Realizing this, after several years of experimenting, a prominent Canadian physician succeeded in combining the juices of apples, oranges, figs and prunes in such a way that the medicinal action is many times multiplied. Then he added valuable tonics and made the combination into tablets called "Fruit-a-tives." They are really Nature's cure for Constipation, Indigestion, Biliousness and Stomach Troubles. Mild as Nature itself — but more prompt and effective. Sold by dealers at 50c. a box—6 boxes for $2.50—trial size box 25c. Fruit-a-tives Limited, Ottawa.

Australia to Control Labor.

London, Oct. 26.—(C.A.P.)—At Melbourne the drafting of the amendment of the constitution for the purpose of legalizing the new protection, has been completed. Deakin's proposals involve control of the conditions of employment of all protected industries in the fullest sense of the word, embracing a minimum of wages, regulation of hours and limitations of boy labor.

Steamer on Rocks.

Houghton, Mich., Oct. 26.—The steamer Merchant ran on the rocks yesterday on the west side of Keewenaw Peninsula, near Eagle River. The Merchant is owned by W. N. Mills of North Tonawanda, N.Y. She is said to have four holes stove in her bottom and is badly listed. Life-savers from Portage Entry brought the Merchant's crew to this city.

McINTOSH BROS

FROZEN IN BLIZZARD

Western Storm Proves Disastrous For Men and Sheep.

Terrible March of Two Shepherds In Alberta—One Man Sticks by Companion Till the Last—Henry Martin Loses Life Near Maple Creek—Many Hundreds of Sheep Perish—Herder Near Edmonton Dead?

Medicine Hat, Alta., Oct. 26.—Terrible stories of suffering are coming in from the ranches following the recent storm, which was unprecedented in fury or in the period of the fall at which it swept the country. One death is known to have occurred in the country away to the south of here, and many are feared, as the herders were caught absolutely without warning away on the prairies. One man whose death is reported was Donald Cameron, herder, on Alex. Shaw's sheep ranch near Cypress Hills. He had with him as companion an assistant named D. Fraser. They were in charge of a large band of sheep on Monday afternoon when the storm broke on them. They were unable to locate the camp, and had to abandon the sheep. Cameron became exhausted on the way, and Fraser assisted him for fifteen hours, practically carrying him a great deal of the time. Finally Cameron could go no farther, and urged his companion to abandon him, as therein lay the only hope for his safety. Fraser heroically refused to leave him, and stayed until Cameron died. He then pushed on in search of shelter, and finally reached the D.D.B. ranch, more dead than alive, having been 60 hours exposed to the bitter storm, without food or sleep. A relief party started out and found the body of Cameron where he had dropped and died. Three thousand sheep were drifted into many inland lakes, and only three hundred were saved. The report of the death of Cameron was made by Witchell, whose ranch is located sixty miles south of here. He had a desperate ride, and was in the saddle from Wednesday until Saturday night.

Maple Creek, Sask., Oct. 26.—The blizzard which tied up traffic for two days resulted in the death of Harry Martin of Martin Bros., sheep ranchers. While seeking sheep Martin was frozen to death.

Driven by the storm 2,500 sheep belonging to Iver Wilson went into the lake and perished. Some 500 sheep belonging to Thomas Kerr also perished.

Trains which stalled 14 miles from here for two days pulled in after midnight Saturday morning.

Edmonton, Alba., Oct. 26.—The first snow storm of the season, which swept over the country on Tuesday and Wednesday may have resulted in the death of Howard McConnell, aged 19, of Boyne Lake. McConnell left his home on Tuesday morning to look for stock and has not been seen since. He was only slightly clad and was without matches.

As soon as it was reported that McConnell had disappeared about 25 settlers in the district started out on Wednesday to search for him.

Election and Libels.

Port Arthur, Ont., Oct. 25.—As the results of statements made by J. J. Carrick on the public platform at Kenora and reiterated in Port Arthur, a writ for slander and libel has been issued by Jas. Conmee against him.

The News has also been served with a writ for libel by Mr. Conmee for publishing alleged false statements against him.

Dr. Smellie has also been served with a writ for slander and libel at the instance of Mr. Conmee for statements made against him.

Writs have also been issued against The Times-Journal by Mr. Conmee for publishing alleged libelous matter and against Swan Enborg for alleged slander and libel.

Fight Against Opium.

New York, Oct. 26.—A cable despatch to The Herald from Shanghai says: The Government has ordered the total abolition of the cultivation of the poppy from the end of the year in the provinces of Kingston, Anhui, Honan, Kaischow, Fohkein and Yunnan.

All the powers at Shanghai are in earnest in their pledges that the western nations intend to help China rid herself of the curse which the Occident introduced, and they extol the genuine character of the attitude of China on the subject.

Blackmail Charged.

Woodstock, Oct. 26.—Robert Calwell and J. B. Rounds, a county constable of Drumbo, are under arrest here on a charge of blackmail. It is alleged that two years ago they took $300 from Charles Damm of Woodstock in a room in a hotel here by threatening him with arrest for murder in connection with a case about that time. Calwell was arrested at Sarnia, and is said to have confessed, and his evidence may be used against Rounds.

Unwritten Law Frees Her.

Lexington, Ky., Oct. 27.—Setting up the plea of the unwritten law, Mrs. Nancy Murrill was acquitted of a charge of murdering Miss Mary Terry in the Circuit Court at Jackson on Saturday.

Men, women and children attended the session of court each day and applauded testimony favorable to the defence.

Cyrus Brady Resigns.

Toledo, Ohio, Oct. 26.—Rev. Cyrus Townsend Brady, has resigned the rectorship of Trinity Episcopal Church here because the Toledo church is not under canon laws.

"It is a matter of principle," declares Mr. Brady, who will accept a Kansas City call. His statement has caused a sensation.

BRITISH SHIP SEIZED.

Venezuelan Authorities Imprison Crew of Schooner Lady Kensington.

St. Vincent, B.W.I., Oct. 26.—Word has been received here of the seizure several weeks ago by the Venezuelan authorities of a British trading vessel at Margarita, an island in the Carribbean Sea, belonging to Venezuela, and the imprisonment of the crew.

The St. Vincent schooner Lady Kensington, carrying live stock and vegetables for Trinidad, after sighting the Dragon's Mouth, was becalmed. The schooner was carried far out of her course and while drifting off Margarita was seized by Venezuelan officers. This occurred on Aug. 23, and the crew and passengers have been detained as prisoners ever since.

The owner of the vessel has just received, through the Trinidad agent, a letter from the captain of the Lady Kensington, dated Sept. 25, in which he says:

"We are still imprisoned. Our own provisions have been exhausted and the Government says that it has no food to give us."

The governor of Trinidad has communicated with Sir Vincent Corbett, the British Minister at Caracas.

STEAMER WRECKED.

Mail Boat Iroquois of Little Current Goes on Rock Near Spanish Mills.

Little Current, Oct. 26.—The mail steamer Iroquois Saturday morning, from Little Current to Cutler, went on to a rock near Spanish Mills, running at nearly full speed in fog and smoke. She listed over until the promenade deck was under water, the cook stove and lanterns were upset and set fire to the boat. J. & S. Charlton's tug Fraser, working on a boom near by, heard the signals of distress and came and picked up the passengers and crew, who had taken to the lifeboats, three bags of mail were all that were saved. The passengers lost their baggage, and the crew lost everything they had on board. The steamer was a strong, worthy boat, and belonged to T. C. Simms, Little Current.

Eats Apple and Dies.

Ottawa, Oct. 26.—Alfred H. Calder, a young man locally known as "Slim," met a peculiar death yesterday morning, according to the story told by his room-mate.

After a customary evening's jollification, the two retired to rest at their boarding-house on Williams street. In the middle of the night Calder is said to have asked for an apple which his room-mate gave him. Later on he was awakened by the peculiar breathing of Calder, who expired soon after.

While there is a possibility that Calder choked to death with the apple, Coroner Dr. Baptie is not satisfied with this version of the incident and will hold a post-mortem examination.

Northcliffe Visits Earl Grey.

Ottawa, Oct. 26.—Lord and Lady Northcliffe arrived in Ottawa on Saturday afternoon from Toronto and were guests of His Excellency Earl Grey at Rideau Hall. Yesterday they returned to Toronto on the night train.

BLUE WOMEN

Women should understand that melancholia, commonly called "the blues," is in nine times out of ten a sure symptom of some serious female organic derangement and should have immediate attention.

Women whose spirits are depressed, and who are ailing and miserable, should rely upon

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

as is evidenced by following letters.

Mrs. R. Gentleman, 1093 St. James Street, Montreal, Quebec, writes to Mrs. Pinkham:

"I suffered from a severe female weakness, and extreme nervousness, and was blue and utterly discouraged.

"Lydia E. Pinkham's Vegetable Compound was recommended, and after taking several bottles, I am not only cured, but am an entirely different woman, and on the whole a healthier woman than before taking Lydia E. Pinkham's Vegetable Compound."

Mrs. Mary J. Williams, of Bridgeport, Ill., writes to Mrs. Pinkham:

"I have been suffering from a female trouble, backache and headaches, and was so blue that I was simply in despair. I feel it my duty to tell you that Lydia E. Pinkham's Vegetable Compound cured me. The change in my appearance is wonderful, and I wish every suffering woman would try it."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache. Why don't you try it?

In Dead of Night.

New York, Oct. 26.—William J. Bryan has accepted the invitation of the Night Workers' League, a non-partisan organization of this city, to address a meeting of newspaper men, printers, postoffice employes and others employed at night, to be held in City Hall Park, on Oct. 27 at 3 a.m.

This will be the first time that a Presidential candidate has addressed a meeting under such circumstances.

Fires Around Haliburton.

Haliburton, Ont., Oct. 26.—Forest fires have been raging five miles east and ten miles south of Haliburton and settlers have been fighting day and night to save their property.

No buildings have been burnt yet, but plenty of wood and timber and settlers' hay in stacks is destroyed.

Haliburton village is in no danger yet.

Tramp's Suicide.

Quebec, Oct. 26.—A tramp cripple, Edward Larocque, evidently tired of life, sent a bullet through the carotid artery in the left side of his neck and died shortly afterwards. He was 34 years old.

Negro Sentenced to Hang.

Vancouver, B.C., Oct. 26.—James Jenkins, colored, has been sentenced to hang Dec. 18 for the murder of Mrs. Mary Morrison of Hazelmere on June 9.

JUST WHAT HAPPENED

New Line-up in House Shows Many Strange Faces.

None of the Cabinet Are Defeated But Several Other Strong Grits Bite the Dust In Various Parts of the Country—Adam Zimmerman Is Among the Slain — Conservative Gains Include Liberal Strongholds.

Toronto, Oct. 27.—The summary of the results in yesterday's elections shows some radical changes in the makeup of the new House of Commons. Many a man has falen on both sides of the fight.

Among the Liberals who went down in British Columbia are Zimmerman and six others. Eight old Conservatives lost their seats. This is the outline of the changes:

Minister Beaten.
Hon. William Templeman.

Conservative ex-Members Defeated.
A. E. Kemp.
R. A. Pringle.
Peter Christie.
G. O. Alcorn.
W. H. Bennett.
W. F. Cockshutt.
M. Avery.
A. F. Maclaren.

Liberal ex-Members Defeated.
Adam Zimmerman.
Dr. P. D. McLean.
G. D. Grant.
W. P. Telford.
R. J. Watson.
P. H. McKenzie.
C. A. McCool.

Conservative Gains.
Bruce South—Donnelly.
Battleford—Morrison.
Cumberland, N.S.—Rhodes.
Champlain—Blondin.
Cape Breton South—Madden.
Cape Breton North—McCormack.
Digby, N.S.—Jameson.

SIR WILFRID LAURIER.

Dauphin—Campbell.
Grey North—Middlebro.
Halifax (1)—R. L. Borden.
Halifax (2)—A. B. Crosby.
Hamilton West—Stewart.
King, P.E.I.—Fraser.
Lanark North—Thoburn.
Montreal, St. Anne's—Doherty.
Nipissing—Gordon.
New Westminster—Taylor.
Ontario North—Sharpe.
Peterboro East—Sexsmith.
Portage la Prairie—Merghen.
Parry Sound—Arthurs.
Quebec West—Price.
Simcoe North—Currie.
Selkirk—Bradbury.
Soulanges—Lortie.
Terrebonne—Nantel.
Victoria—Bernard.
Winnipeg—Haggart.
York Centre—Wallace.

Liberal Gains.
Brantford—Harris.
Beauharnois—Papineau.
Dorchester—Roy.
Huntingdon—Robb.
Kent West—McCoig.
Laval, Que.—Wilson.
Ontario South—Fowke.
Prince Edward—Currie.
Perth North—Rankin.
Pontiac—Hodgins.
Prince, P.E.I.—Richards.
Queen's, P.E.I.—Prowse.
Stormont—Smith.
Simcoe East—Chew.
Waterloo North—King.

New Faces in the House.
T. W. Crothers.
O. J. Thornton.
Lloyd Harris.
J. J. Donnelly.
Dr. Edwards.
W. S. Middleboro.
Mayor Stewart.
Alex. Smith.
George Gordon.
Alex. McCall.
Sam Sharpe.
F. L. Fowke.
Hal McGiverin.
E. W. Nesbitt.
James Arthurs.
Dr. J. P. Rankin.
J. A. Sexsmith.
Hon. J. R. Stratton.
Dr. M. Currie.
M. Chew.
Major Currie.
Major R. Smith.
Joseph Russell.
W. L. Mackenzie King.
W. O. Sealey.
Captain T. G. Wallace.
A. B. McCoig.
Hon. Charles Murphy.
A. B. Crosby.

Protest In Peterboro.

Peterboro, Oct. 27.—The Conservatives here will proceed at once to try and unseat J. R. Stratton (Lib.), who defeated A. H. Burnham yesterday by 350 majority. Mr. Burnham's followers claim they have an abundance of evidence of wholesale bribery and corruption to annul the election. The city only gave Mr. Burnham five majority, while he was expected, according to canvass, to have over 400. The difference seems uncreditable.

House Seniority.

The seniority of the House runs about as follows: Hon. Wm. Paterson, 1872; Hon. John Haggart, 1872;

TELEGRAPHIC BRIEFS.

Jacob Eaton of Windermere was accidentally shot dead.

Rain has extinguished bush fires near Bracebridge.

W. G. Fischer has been appointed Canadian trade agent at Glasgow.

Edward Bostridge, aged 18 years, of Kingston, was electrocuted while climbing a telegraph pole in fun.

Judge Garretson has denied the application for the dismissal of the indictment against T. Jenkins Hains.

A Buffalo party had to desert a $5,000 auto, which took fire near St. Catharines Saturday night from leaking gasoline, and was destroyed.

Ruth Butler, alias Miller, was arrested by Detective Tipton at the request of the Hamilton police yesterday, where she was sent later in the day, for theft of clothing.

Daughter Has Dream.

Brockville, Oct. 27.—L. N. Catlin, a watchman on the Cleveland Canal work at Cardinal, was found dying between midnight and 6 o'clock in the morning yesterday. The man was alone, and symptoms went to show that he had been seized with heart failure, from which he never rallied.

A strange feature of the case is that about the hour he is supposed to have been in the agonies of death, his daughter, Flora Catlin, visiting at Hounsfield, was suddenly awakened from a deep slumber by the voice of her father calling her name in agonizing tones. This strange experience was followed by a wire notifying her of his death.

Chinamen Proved Citizenship.

Brockville, Oct. 27.—The courts at Ogdensburg have just discharged six Chinamen who have been in jail for several weeks on a charge of entering the United States illegally. It was presumed they had been smuggled across the river from Brockville, as they were caught on Uncle Sam's property shortly after making the landing on a dak night. They have proved their citizenship.

Unions Can't Fine Men.

Boston, Oct. 27.—The supreme judicial court of Massachusetts in making permanent an injunction against several labor unions yesterday ruled in a decision attending the decree, that labor unions cannot impose fines on their members in order to force them to go out on a strike.

New Local Master.

Ottawa, Oct. 27.—John Bishop of the legal firm of Bishop & Smith, has been notified of his appointment as local master of the Superior Court. He is a native of Ottawa, and was called to the bar in 1878.

It's Laurier Once Again.

Latest Returns Give Liberals a Majority of 39 Seats.

With 211 Constituencies Reported Grits Have 125 and Conservatives 86—Ontario Showed Total Gain Of Two Ridings—New Brunswick, Prince Edward Island and Western Provinces Are Surprised.

Toronto, Oct. 27.—It is four more years of Laurier. Probably in the general result the public were not surprised, but the good guessers in arriving at their total figures were a long way out in many instances.

At midnight there were 125 Liberals and 86 Conservatives elected. Seven constituencies will vote later.

The surprises were Ontario, New Brunswick, Prince Edward Island and the west.

Ontario was expected to give a much larger majority to the Conservative party. The majority in the old House was eight, and the Conservatives confidently expected it would exceed 20, some even predicting as many as 40 to the good. But Mr. Borden's followers from Ontario has been increased by two only.

HE FOUGHT A GOOD FIGHT.

Among the Conservative gains in Ontario were Centre York, North Grey, Parry Sound, North Ontario, West Hamilton, South Bruce, East Peterboro, but they made losses in North Waterloo, Brantford, Stormont, Prince Edward, South Ontario, East Simcoe and North Perth. No one had any idea that Alex. Maclaren would lose his seat for North Perth. The Perths were to be "solid for Borden," but both went Liberal, and the Simcoes were likewise in the Borden column until the returns began to come in, when Mr. Bennett, the "stormy petrel," was found to have lost his place in the House.

The Conservative leader has two seats to sit in, for he was also elected in Carleton. As Carleton is a Conservative hive, he will likely decide to sit for Halifax.

Sir Wilfrid Laurier has also too many seats, having been elected for Ottawa as well as Quebec East.

The following are the latest returns:

$4.75

See Centre Window.

Exceptional Beauty and Low Pricing in the New Millinery

The combination of style, beauty and low pricing has given our millinery the leadership this season. A visit to our showroom will convince you of the correctness, beauty and completeness of the showing and an investigation of the prices will surprise you, for never were such stylish hats sold for such modest cost. Another marked feature regarding our millinery is its exclusiveness, for we are very particular that no two hats are ever trimmed just alike.

Bring us your millinery needs. We can more than satisfy you.

Attractive New Veilings

The veil grows in popularity and we are splendidly ready with full assortments of every wanted kind.

--Handsome Net Veils in all the most popular meshes, in black, white and all the leading colors, best qualities, per yard .... 25c to 75c
—Chiffon Veiling, in medium and wide widths, colors black, white, cream, champagne, tan, navy, myrtle, etc., at .... 25, 35, 45c and 50c
—Crepe de Chene Veiling, beautiful quality, in all the wanted shades at 25c to 75c yd
--Individual Veils in plain and fancy meshes, colors black, white, tan, navy, canard and green, each .... 45c to 95c

Smart Costume Suitings

The widest possible choice of materials is here offered prospective buyers. No showing of any past season has equalled it in variety and beauty. The assortment includes all the choicest novelties in weaves, patterns and shades now in vogue. The rough weaves are shown in plain shades, checks and stripes. The new bordered patterns are here as well as the very popular combination suitings. We cannot attempt a description. Prices range from 50c to $2.50 per yd. SEE THEM.

THE NEW TRIMMINGS

Are of more than ordinary beauty and we have an unusual selection of the best trimmings for the new tailor made suit, coat, gown or waist. The assortment includes Flat Silk Braids, Soutache Braids, fancy woven colored Braids, New Appliques, Persian Bands, Galons, Tassels, etc., etc., at very moderate prices.

NETS THAT ARE POPULAR

For Waists and Gowns.

New Double-Width Nets in cream and Paris shades, with spots, squares and figure designs at 75c to $1.50 per yard.

Colored Nets, 44 inches wide, in new square designs in navy, tan and Paris, beautiful quality, per yard $1.25

Stylish New Underskirts

The new Moirette Underskirts are shown in a wide range of dressy styles, made with deep flounces fitting snugly at the waist and over the hips. You will note the rich, silky appearence, the rustle equal to the expensive silks and the excellent workmanship. These are shown in plain shades of navy, brown, grey, green, white, cream and black and also in pretty color combinations. Prices $3 to $5.00

A very special Underskirts that we are showing has the top made of fine quality moirette finished with deep flounce of taffeta silk, tucked and trimmed with narrow frill, in black and colors at $4.25

For style and service combined this garment is unrivalled.

New Black Silk Waists

Our collection of Ladies' Black Silk Waists is now at its best. They are made from fine chiffon taffetas, Japs, Louisenes and Satin Messalines in a great variety of attractive models. Many are strictly tailored while others are elaborately tucked and trimmed. Prices range from $3.50 to $9.00

Our Special Black Silk Waist at $3.50 is the best value ever offered at the price. Shown in two models, open front or back with high collar and new long sleeves. Let us show you these waists.

In the Men's Department

Stocks are replete with everything that is new and worthy in the line of Suits, Overcoats, Hats, Caps, Neckwear, Underwear, etc., for men and boys—the very best makes at closest prices. A pleasure to show goods.

The Ladies' Home Journal Patterns for November are Now on Sale. Prices with Guide Chart 10c and 15c.

The RITCHIE Co. Limited

OCTOBER

27

Tuesday

THIS DAY IN HISTORY.

It is better to suffer wrong than to do it, and happier to be sometimes cheated than not to trust.
Johnson.

Surrender of Metz, 1870.
Duchess of Teck died, 1897.

TIMELY TOPICS.

Well, yes, it looks as if Laurier will finish his work.

Wait till you see us next election.

Remember Ontario. It built up Laurier's majority.

Cheer up. Cherries will soon be ripe.

Lemons are ripe already.

Nothing the matter with East or West Hastings, is there?

And it all proves conclusively that Ontario people don't all vote as they shout.

Boodle beat Borden.

There ain't so much lafter
The morning after.

That which we took to be victory in the air must have been the dust Currie was kicking up in Prince Edward.

Well, when the ship of state gets straightened away on her course once more, Conservatives will have about 20 or 25 more seats than they had in the last Parliament. That's glory enough for one campaign.

* * *

And a smile will crack the face of Sir Wilfrid, as gazes on his "cher amis" in Ontario, who bow their necks so gracefully to French domination.

Didn't that fine old Conservative stronghold, Coleman Ward, do itself proud yesterday?

The light came in the East, all right, but it couldn't get past the public works and rural mail delivery fogs in Ontario.

After mature deliberation, and speaking largely from experience, we have no hesitation in saying that a forecast is not in it with a hindcast.

Cheer up. The brightest spots in Conservative Canada to-day are West and East Hastings. Those places are inhabited by men who may justly be called "the salt of the earth." They can't be bought, cajoled or coerced. Just one cheer more for Hastings County, which refused to worship at the shrine of the false gods, and gave a majority of nearly 3000 for Conservative principles.

What do you think of Mr. Porter's majority in Belleville? The best ever.

Perhaps, after all, it serves the Conservative party right, for trying to carry white elephants.

The shady records of certain members of the party beat them—and beat the party.

Too bad that so many of the old stalwarts went by the board There's Mr. Alcorn, in Prince Edward. A good man. We know several who could be better spared.

No doubt about it. Currie must be hot stuff.

Well, as Sir Richard Cartwright used to say, in the days when good old Sir John used to wallop the Grits regularly, "It was a great moral victory."

One more cheer for College Hill, which, for the first time in the memory of man, gave a Conservative majority.

Congratulations to Messrs. Porter and Northrup, who may grow round-shouldered carrying those tremendous majorities.

Will it be "Back to the fishpond" for Mr. McCargar?

Trenton went Grit by 68. They thought they could run the Trent Canal through a funnel.

"Spotless Jim" Stratton will help Laurier finish his work. Cap. Sullivan will be on the job, too.

Mighty good thing for the Conservatives, perhaps, that they didn't get into power. The next four years will see many knotty problems which must be faced. The Liberals got the country into the difficulties. Let them find a way out now.

Many a Conservative forecaster is to-day trying to explain how it all happened. They all seemed to make the same mistake that we did: They thought Ontario was going to vote against French domination—but she didn't.

Let's see, what was it Robinette in Centre Toronto? Why crow, of course.

That dazzling smile you saw coming up street to-day was on the face of the Sage of Thurlow. He's happy because he didn't run in East Hastings.

Of all sad words of tongue or pen
The saddest are these—"we're licked again."

Good thing we got the drill shed before the elections. In a year or two that extravagant Government won't have money enough to build a sidewalk, let alone an armory.

Was it the rural mail delivery that captured Ontario for Laurier? Hardly. More likely it was the determination of the Conservative party leaders to try to make Ontario people swallow men whose doings had turned their stomachs.

The Montreal Star is twinkling merrily to-day: as it whispers in R. L. Borden's ear, "We told you so."

Mr. Jas. Conmee, of Port Arthur, former M.P. for that district, has issued, it is reported, five writs, two against newspapers, and three against private parties for utterances in the political campaign. What in the world could have been said which would slander "Jim."

Yes, victory for Borden was in the air, but, alas! it didn't get into the ballot-box.

One of the most gratifying features in the whole situation is the Conservative majority given in Coleman ward. It is pleasing to see that our good friends have returned to their political senses.

Are you going to vote for the ward system, or will you let the Council of Ten finish its work?

Hon. Geo. P. Graham only won by 98 in Brockville, which isn't nearly so many as he had shortly after Lott and Reilly called on him on a certain memorable occasion.

In many places the Grit machine was at its old tricks yesterday, and already many arrests have been made; in Brockville a Senator's son was summoned. Those awful Grits! They simply can't play fair!

As we go to press this afternoon the figures show a Liberal majority of 39. Laurier had a majority of 66 when Parliament was dissolved.

It would be interesting to learn the depths in political iniquity and moral turpitude to which it would be necessary for the Grit party to descend before certain goody-goody superlatively good adherents of that party would refrain from voting Grit. No wonder many marvel at the difference between profession and practise.

If it were not for very shame's sake, Sir Wilfrid might be congratulated on the choice lot who will have to be taken to his bosom. Who, having any regard for self-respect, would not shudder at the thought of having Sifton, Emmerson, Borden (Sir Fred) and a few others for political bed fellows. All that is required to complete the nest, is Hyman. Thanks to London, it would have none of him.

All the world's a stage and all the actors try to monopolize the spot light.

Married couples in Norway may travel by rail for 1 1-2 fares.

The size of bed sheets used in hotels is regulated by law in Oklahoma.

The world's annual match bill is $125,000,000.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & CO., Toronto.
DR. CHASE'S OINTMENT.

Ward System By-law Will Go to People In January Next.

Council So Decided Last Night—Other Business Transacted Chiefly Routine.

A meeting of the City Council was held last evening, presided over by Mayor McFee, Ald. Green and A. R. Thompson were the absentees. The business transacted was principally routine.

The accounts and recommendations passed in the various committees, as already published, were adopted.

THE WARD SYSTEM.

The City Solicitor and Assessor reported that they had carefully examined the petition presented to the Council requesting that a by-law be submitted to return to the Ward system of electing aldermen, and that it was signed by the number of electors required.

A motion prevailed that a by-law be prepared to submit the matter to the electors at the next municipal election.

THE ISOLATION HOSPITAL.

A motion was adopted that the special committee of the Council re Isolated hospital confer with the Board of Health with reference to the furnishing of the same.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

McKeown's Drug Store

Large Crowd Saw Election Returns.

A large crowd stood in front of The Intelligencer office last night and watched the election returns as they were bulletined. The crowd appreciated the news all right, but most of them didn't appreciate the kind of news it was.

Graham-Maiden.

At St. Michael's Church yesterday afternoon a wedding was solemnized. The contracting parties were Mr. Gerald W. Graham and Miss Frances A. Maiden, both of this city. Rev. Father Twomey performed the ceremony. Miss Ida Shaw, of Kingston, was bridesmaid and Mr. R. J. Huffman, of this city, did honors for the groom. After the ceremony a reception and supper took place at the bride's residence. Mrs. Graham was the recipient of many useful and beautiful gifts, including one from the Deacon Shirt Factory, where she had been employed. Mr. and Mrs. Graham will reside in this city.

Died in Thurlow.

Mr. Wm. McCreary, a resident of Thurlow township, died yesterday in his 75th year. Deceased had been for many years residing in Thurlow, where he was well and favorably known. Mrs. McCreary preceded him to the tomb four years ago. Three sons, John, James and William, of Thurlow, survive.

The "Settlement" Vote

"Halloo!" exclaimed an anxious enquirer early last night, "How's Porter's vote?"

"All right," was the reply, "except in the Babcock-Clapper-Sanford settlement."

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

Canadian Club.

This evening, at 8 o'clock, Lord Milner, of South Africa, is to give an address in Convocation Hall, Toronto University. The President of the local club, Judge Deroche, will represent the Belleville branch of this organization.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

SPORTS AND PASTIMES.

SPORTING NOTES.

The Y.M.C.A.'s Hallowe'en Circus is the next sporting event to be taken note of. On Friday night of this week, and they say there'll be barrels of fun.

Shrubb has challenged Longboat for a series of three races for all sorts of money, but the Indian declines. He hates to lose his "amateur" standing.

Tom Longboat, the Indian runner, was in the city to-day.

PERSONAL AND SOCIAL.

Miss J. C. McRae, Art Instructor of the new Normal School at Peterboro, and Supervisor of Art in the Public Schools of that city, spent the week-end here. Her position is an excellent one, and one for which she is peculiarly well fitted, on account of her natural talent and high qualifications. Peterboro is to be congratulated on having secured so efficient and faithful a teacher.

At the Quinte: S. F. Armstrong, J. F. Neville, J. Root, R. J. Slater, T. Hoskin, A. Rough, G. H. Butler, Montreal; W. Parkar, H. Moss, G. O. Mackenzie, H. Dale, R. Morrison, J. A. Erskine, L. Macdonald G. Barnes, M. Lowden, W. A. Gray, G. Laird, A. B. Cole, C. J. Tuthill, S. Metcalf, W. O. McQuillan, F. G. Sanderson, G. M. Dunk, Toronto; J. Hume, Port Hope; R. M. Millar, Sherbrooke, Que.; S. R. Scovell, St. Catherines; Chas. Corby, N. Y. City.

Masonic Funeral.

The brethren of Eureka Lodge, No. 893, A. F. and A. M., and brethren of sister lodges, are requested to assemble at the Masonic Temple at 1.30 o'clock p.m. on Wednesday, 28th inst., for the purpose of attending the funeral of late Brother Adam Henry.

RICHARD McCRUDDEN, W.M.

Deaths.

CLARKE — Died at Belleville, on Sunday, Oct. 25th, 1908, at the family residence, Bridge street, Mary, widow of the late Francis Clarke.

Funeral, private, Wednesday morning.

HENRY.—In Belleville, on Sunday, October 25th, 1908, Mr. Adam Henry, aged 70 years.

The funeral will take place from his late residence, Church street, to-morrow, Wednesday, afternoon at 2.30. Services at the house at 2 p.m. Interment in family plot, Belleville cemetery.

ENVELOPES — Bond, Laid, Wove or Manilla, sizes 7 and 8, printed with your business address, from $1.25 to $3.00 per 1000. A large range of business and calling cards—ladies' and gentlemen's — all prices Menu Cards, Toast Lists, Invitations, Programmes and all kinds of printing at most reasonable rates, at The Intelligencer Job Department.

THE WEATHER.

TO-DAY'S PROBS.

Light variable winds, cloudy and cooler to-day and on Wednesday local rains.

One of the largest shipments of Fruit, by express that we have ever received came to hand to-day consisting of PEACHES PLUMS and GRAPES.

Special low prices to-day.

JAS. WALLACE & CO

We Don't Undertake

to fit glasses to EVERY patient who calls, whether they are needed or not. Our Optician knows how to make an intelligent eye examination and when he has finished knows the nature of the defect if any and has to correct it and give comfort if glasses will do it.

You'll find that he will stand for the right, because it is right (it's policy to do so) whether there is money in it or not.

Consultation free

A thorough examination if glasses are not necessary $1.00.

Glasses if necessary as cheap as anywhere else.

NADA'S POOR CONSUMPTIVES.

ory more Touching than anything from the Pen of the gifted Ian Maclaren.

the current issue of the DOOR OF s, published by the National Sanitarium Association, 347 King Street t, Toronto, a page is given over to rs received from the many persons all parts of the Dominion seeking ission to the Muskoka Free pital for Consumptives.

dom have we read anything more etic. Here, for example, is a letter a physician in Creemore, Ont., g for the admission of a patient name of Morrison. He says:— would like to urge strongly upon the great claims of this patient. as no home—mother dead—father ing as a farm laborer. The boy has living with an unmarried uncle— ousekeeper—work, cooking, etc., done by the uncle. The boy has utely no place to go where he t be given any reasonable care, e can get none where he is."

other case is from Thorold. ston Weldon writes:—

am a young married man, twenty- years of age. For several years e been sick, but always able to my feet. Now I have come to time when I cannot work, and ot get medicine without means. ngs are affected, and I am writing o see if you can get me into the oka Free Hospital for Consump- My young wife is here, and arents have kindly opened their to her if I go away."

t one more of the many we might . This is from a physician in bellford, Ont. He writes:—

have a patient suffering from onary tuberculosis, who has been f work for about three months -was in bed part of that time, but ly both his pulse and temperature kept down and his weight going He is the only support of the —mother, crippled father, and er brother, but his neighbors are to raise a small amount of to help him."

have sometimes thought that if acLaren, who has given to us the cter of Dr. McClure, were alive that in letters such as these he find material for a book more ng and pathetic in many parts is Bonnie Briar Bush.

on behalf of cases like these, of there are scores reaching the ary of the Sanatorium every that the Muskoka Free Hospital onsumptives makes its appeal for funds.

institution has not at any time, ts doors were first opened in 1902, refused a single patient e of the applicant being unable

ributions may be sent to Mr. W. , 84 Spadina Ave., Chairman of ecutive Committee, or to J. S. son, Secretary-Treasurer of the l Sanitarium Association, 347 Street West, Toronto, Ontario.

TELLIGENCER is printed and shed for The Intelligencer ting and Publishing House ted) by CHARLES JAMES ELL, of the City of Belleville, County of Hastings, Province tario, at their office, No. 49

Daily Intelligencer.

THE RESULT.

There is no use hiding the fact that the result of the contest yesterday was disappointing, not only to the Opposition, but to Ministerialists Many of the Opposition looked for victory, while others believed that Laurier would be sustained by a small majority; that this was the belief of most Minsterialists is beyond doubt; but no one anticipated that with the record of the past few years of take-offs by middlemen, in timber limits, deals, supplies, etc., and the character of some of the Ministers, that such a majority would have been secured for the most reckless set of men that ever governed a country.

We are not so sure, however, considering the gigantic financial operations that are looming up, and have to be met during the coming five years, with a falling revenue, and a tightness in the money market, that it is not providantial, from a party standpoint, that the Conservative party was not successful. The fear, however, is that the same system of governing, by allowing stealing in various ways, may be continued, and the country so involved in debt and further ruined in reputation that it will take a decade to remedy the evil.

It took some time before Ontario shook off the shackles which bound her to the Ross-Stratton-Cap. Sullivan combination, but the time did arrive, and so it will with the present cohort that mis-governs the Dominion.

Literary Notes.

A CREDITABLE NUMBER.

There is no more important question engaging the attention of Canadians to-day than the great transportation problem and what is being done to enable the abundant products of the farm, forest, fishery and mine to be marketed expeditiously and profitably. The development and expansion of our transportation facilities is the subject of an instructive and timely contribution from Major G. W. Stephens, Chairman of the Montreal Harbor Commission, in the November number of The Busy Man's Magazine. Another article that will be read with interest is "Making Canadian Weather Predictions," by Mr. A. P. McKishnie, who is rapidly forging his way to the front as one of the brightest of young Canadian short story writers. The illustrations are attractive and efficient.

NOVEMBER.

S. A. White, in The Canadian Magazine for November:

O, it's Northward Ho! where the paddle drives
And the sweating tump-line packs,
With an outland lease on our care-free lives
And the dunnage bags on our backs.

Has the tempest split in your deafened ear
As it tore the crags apart?
Has the deep night called with its thrill and fear?
Has the rapid hissed in your heart?

If you've heard the call of the Northland wide,
How your fierce, free blood will sing!—
How your bark will leap, with its pulse as guide,
To the wilds where white-waters spring!

While the rivers smoke in the morning glare,
While they reek in sunset dyes,
There are magic lures in the open air,
There are wondrous things for the eyes.

So its Northward Ho! where the paddle drives
And the sweating tump-line packs,
With an outland lease on our care-free lives
And the dunnage-bags on our backs.

EMERGENCY DANGER.

WHEN A HARSH CATARRHAL COLD FASTENS ON THE BREATHING ORGANS A LIFE IS THREATENED.

There are times when a Hyomei outfit is worth a life and having it at hand will save a life, no safer precaution can be suggested than calling at J. S. McKeown's drug store and getting a supply for use in following cases.

When a child shows the first sign of croup a breath of Hyomei through the inhaler will check the trouble permanently.

When through catching cold you seem to be choking up, difficulty to breathe, pain or soreness over the lungs and other symptoms of pneumonia, the instant relief from Hyomei is marvelous.

It penetrates quickly to the inner recesses of the bronchial tubes and lungs where no liquid or moist medicine can reach.

When an asthmatic condition presents unusual wheezing and oppressed breathing. Hyomei will bring rest, complete outfit, $1.00.

THE ELECTIONS.

Concluded from Page 2.

Faraday	116
Marmora village	60
Marmora Tp.	66
Huntingdon Tp.	197
Herschel Tp.	8
Bangor, et al	63

Total majority for Mr. Porter so far as heard from 1178. This will be increased.

EAST HASTINGS.

In this Riding it is impossible to obtain complete returns, but Mr. W. B. Northrup's majority will be between 1400 and 1500. As far as heard from his majority is 1345, with several polls to be heard from. The majorities, as far as could be ascertained, are as follows:

	Northrup.
Deseronto	148
Thurlow township	153
Hungerford township	156
Tweed village	140
Madoc village	23
Madoc township	391
Elzevir township	92
L'Amable	45
Herman	15
Fort Stewart	23
Maynooth	4
Hybla	41
Shannonville	70

Mr. McCargar didn't get any majorities.

TO REDDEN THE BLOOD

SHOULD BE AIM OF WEAK, NERVOUS, DIZZY, PALE PEOPLE—REDDEN BLOOD WITH

Dr. A.W. Chase's Nerve Food

Rich, red blood.

That is what pale, nervous, weak people need.

Red blood to form new cells and tissues, to invigorate the nerves, to strengthen the heart's action, to give energy and vigor to the organs of the body.

The elements from which nature forms rich, red blood are found in condensed and easily assimilated form in Dr. A. W. Chase's Nerve Food, and because of its wonderful blood-building qualities this great restorative has become world-famous.

There is no guesswork, no experimenting with this treatment. Every dose is bound to do you a certain amount of good.

Miss Cynthia Hitchinson, Hanceville, B.C., writes: "I feel it my duty to tell what a great friend of Dr. Chase's Nerve Food has been to me. I would have written sooner, but wanted to be sure I was thoroughly cured. Before using this medicine my nervous system was so completely run down that my friends, as well as myself, thought I could never get better. All medicines failed to help me.

"A trial of Dr. Chase's Nerve Food benefitted me, and I used altogether seven boxes. At the end of a month people scarcely knew me, I had improved so much. The blood was enriched, color improved, new flesh added, and I got strong and well. Several of my friends have profited by my experience and received great benefit from this treatment."

The portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box of the genuine. 50 cents, at all dealers, or Edmanson, Bates & Co., Toronto.

The Rural Observer.

Though marriage is a lottery
An' lotteries is wicket,
Thar's no ole maid so good but she
Would like to git a ticket.
—Danver News-Times.

Some men are so smart that they need all their brains to keep them out of difficulty.

With most men the beard is strongest on the right side.

Horseflesh commands a lower price in Arizona than elsewhere.

When a pessimist expects to be disappointed he is disappointed it he isn't.

PORTLAND, MAINE, CHILD

ILL, WEAK, AND EMACIATED, RESTORED TO HEALTH BY VINOL.

"Our little daughter, six years ago, after a severe attack of the measles, which developed into pneumonia, was left pitifully thin, weak and emaciated. She had no appetite, and her stomach was so weak it could not retain food. She lay in this condition for weeks, and nothing the doctor prescribed did a bit of good, and we were beginning to think she would never recover.

"At this time we commenced to give her Vinol, and the effect was marvelous. The doctor was amazed at her progress, and when we told him we were giving her Vinol, he replied, "It is a fine remedy, keep it up." We did so, and she recovered her health and strength months before the doctor thought she could.' J. W. Flagg, Portland, Me.

Vinol cures conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, makes rich, red blood, and strengthens every organ in the body.

Vinol is sold in Belleville, by J. S. McKeown, Druggist.

CITY AND DISTRICT.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Force of Habit.

"What did that young cub reporter follow up before he came with us?" asked the managing editor.

"Believe he was a dentist," responded the assistant.

"Ah, I thought so!"

"Why, has he been writing anything about dentistry?"

"Yes, rather suggestive of it. In describing a storm on the lake he wrote that the ship had a difficult time 'pulling out of the teeth of the gale.'"

Her Death.

"Well," said a traveler in the train one evening, "speaking of long lives, my dear aunt died at the age of 106."

"That's nothing," said a silly looking drummer. "I had a grandmother who died at 223."

"Bosh, do you want us to believe that a relation of yours died at 223? It is not only improbable, but utterly impossible," snapped the first.

"Not at all. She died at 223 Broad street."

A Great Discovery.

"Have you made any important discoveries this year?"

"I have," answered the scientific searcher. "I have discovered a new financial backer."

FAKIRS OF INDIA.

One Who Tortured Himself Upon a Bed of Spikes.

In India there are numerous penitents of different sects, called "Fakeers," "Yogees," "Tadins," "Pandaroons," etc., who make a vow to live at the expense of the public and travel about begging, says the New York Press. The Fakeers are Mussulmans, cunning, hypocritical and impudent. They do all sorts of silly stunts and are altogether a disgusting lot. Sometimes they assemble in troops of 8,000 or 10,000, levying contributions wherever they go. The total number of Fakeers in British India is about 900,000.

Among the various brands or breeds of Fakeers you will find the "Dundee," the "Brumhucharee," the "Ramatu," the "Voishnuvu" and the genuine Mussulman Fakeer. Many of the more enlightened Hindoos, especially the Brahmans, hold these mendicants in the utmost contempt and have assisted the British Government as far as they dared in putting them to work. On the other hand, some rich property owners treat the frauds with the greatest reverence.

A few years ago there was a Fakeer who lay on a bed of spikes and took the name of Purrum Soatuntre, which means "self possession" or "independence." At the age of ten this man began a life of self mortification. He would lie on thorns and pebbles. This torture he kept up until he was twenty, and then he wandered about as a Fakeer, going from one holy place to another. At one town he shut himself up in a cell, vowing to do penance for twelve years. There he remained until vermin gnawed his flesh and left marks which lasted through life. The rajah, taking pity on him, opened the door of his cell and bade him step forth. The poor wretch was furious at this act of sympathy and heaped curses upon the rajah's head for breaking in on him.

Torture was nothing to Purrum Soatuntre. "Give me a bed of spikes," he cried, and the rajah, frightened lest the curses of the ferocious Fakeer should blight his reign, complied. And this bed of spikes became a sort of triumphal car for Purrum. He set out immediately on long journeys and was drawn on this awful bed all around the country for thousands of miles, the poor Hindoos worshiping him as a god. He traveled in this way for thirty-five years.

Mule Had Good Memory.

"I was at Tampa when a negro teamster was instantly killed by an army mule, and it furnished a good illustration of the wonderful memory that a mule has.

"The negro teamster used to pound that mule unmercifully. Instead of using strategy and coaxing his mule into submission, he used to beat it hard enough to kill a horse. Well, for two months the teamster didn't drive that mule. But the mule never forgot him. He never made any attempt to injure his new driver, who knew enough to treat him decently. But one day the old teamster came back. The mule remembered him. He waited with as much docility and patience as an ox until he was harnessed, and then, when the old teamster was off his guard, he let fly with both heels, caught the negro in the pit of the stomach and stretched him out as dead as a hammer. The other teamster was standing right there by him, but that mule didn't make any attempt to kick him. He had just been laying for the fellow who walloped him two months before, and when he had finished him he was satisfied."

The Exact Spot.

When illicit distilling was common in the highlands there was an old man who went about the country repairing whisky pots.

The gauger met him one day and, surmising that he had been doing repairs at no great distance, asked what he would take to inform him (the gauger) where he repaired the last whisky pot.

"Och," said the old man, "she'll shust tak' hauf a croon."

"Done!" retorted the gauger. "Here is your money, but be careful to tell me correctly."

"Och, she'll no' tell the gentleman a lee."

Getting the money, the old man quietly remarked:

"I shust mended the last whisky pot where the hole was."

Needed In Every Home.

When he reached home he opened the package he was carrying and displayed a number of placards, some of which read "For Show" and others "For Use."

"There!" he exclaimed triumphantly. "I flatter myself I have solved the problem."

"Solved the problem?" she repeated. "What problem? What in the world do you intend to do with those cards?"

"I am going to give them to you," he replied, "so that you can put them on the various cushions scattered about the house."

Gold.

An assayer waved his hand toward the ingots lying in a corner of the room.

"A good assayer," he said, "can tell at a glance whence a piece of gold came, as a good wool sorter can tell what country's soil gave his fleece its color. It is a matter of color. California gold is yellow, Australia gold is red, and the gold of the Ural is the reddest found anywhere. Placer gold is yellower than that obtained from the quartz, and behind you is an Alaskan placer ingot, the yellowest gold in the world."

The Reason.

Pheeder—I'm always sorry when the shad season is over. It's the only fish I like. I wonder why Providence gives it to us only in the spring—

Crabbe (a rabid pessimist)—I'll bet it's because that's the only season when it has all its bones.

WE SELL WIMS & CO. FOR CASH

This Week's Bargain List

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

Decorator and Designer

Remember we do painting, paper hanging, graining, decorating at lower prices than you imagine, The style of our work is of a high order. Our prices are low.

CHEAP WALLPAPER FOR A FEW DAYS

You may have your CHOICE of any PAPER in our stock for 20c per roll,—18 inch freize at 5c per yd. This includes papers up to 75c per roll. All other papers reduced in proportion. See Window Display.

—T. P. BROWN.

Gillette Elected

By Over Two Million Voters

Another Triumph for Progress and Personal Cleanliness

Over two million voters have demanded a change from antiquated methods—from old style razors and new style theories. They show their preference for the "Gillette" at the polls of public approval.

Over two million voters uphold every plank in the "Gillette" Safety Razor platform:—

- —no honing, no stropping
- —the one razor that is safe
- —a clean shave in five minutes
- —an easy shave for every face
- —adjustable for light or close shave
- —always ready when you are.

"New Process" Blades are as far superior to any other shaving edge as the "Gillette" is superior to the old fashioned razor.

Twelve blades—in handsome nickel-plated case—one dollar.

Have you voted the right ticket—the "Gillette"? If not, the "polls" are still open at the store just 'round the corner. "Gillette" Razor and "New Process" Blades are sold by leading Jewelry, Drug, Hardware, Cutlery, Sporting Goods and Department Stores, and by the Gillette Safety Razor Company of Canada Limited, 63 St. Alexander St., Montreal.

Would You Like a Patent Leather Shoe

that is the correct thing --in style--in fit and in workmanship. Would you? We think so.

The only place to get them is the right place and the right place is the Haines Shoe House. Why do we say this? Take a look at our windows for the answer.

TIMELY TOPICS.

A FALLING OFF.

(Baltimore American.)

The aeronauts are not making good,
They're falling down on their job.
That they were to be "fly," it was quite understood,
But they're falling down on their job,
Upon sky assignments they don't seem to stick,
But down they come, each Tom and Harry and Dick,
All kinds of craft pick up some balloonatic,
For they're falling down on the job.

There are lots of folks always just "up in the air,"
And they don't fall down on the job,
As far as results come, they always stay there,
No, they don't fall down on the job.
But when the airships and balloons start to race,
With no tracks to keep to but all the air's space,
And not a "fly" cop their speed movements to trace,
They all fall down on the job.

There are few seem to have any great staying power,
For most fall down on the job,
They go up all right, but come down in an hour,
For they will fall down on the job,
This air-sailing business is risky, that's plain,
For though they try hard and they try it again.
Of bold aviators there is quite a rain,
When they come falling down on the job.

• • •

Never judge people by their clothes. Even a poorly dressed man may not be a millionaire.

• • •

For Sale.—A few tons of Liberal campaign literature, returned with unpleasant remarks, such as "To hades with your reading," we want the "stuff."

• • •

The rumor that women pad may be proved by examination, but even they certainly cannot beat the way the Grits padded the lists in the unorganized districts.

• • •

Toronto may not see any sham fights on Thanksgiving day, it evidently being generally believed that enough ammunition was used in the recent battle.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists

All the world's a stage and all the actors try to monopolize the spot light.

THE SCOURING RUSH.

A Queer Plant That Can Be Changed Into a Mineral.

The scouring rush, Equisetum hiemale, is an interesting plant which has been put to practical use. In old times its hollow, flinty stems were in great repute for kitchen cleaning purposes. The stems are hollow and are easily separated at the joints. If one would satisfy himself as to the peculiar property that first suggested the use of this rush for scouring purposes he has only to draw a joint across the edge of his teeth to find it like a file.

A very pretty chemical experiment is frequently made with the rush. If one takes a small vial of nitric acid into which any ordinary lead is immersed he will quickly see it dissolve, literally eaten up by the acid. But what does the scouring rush do under such circumstances?

Immediately upon its introduction to the acid the sizzling process begins. The green pulp of the stem is gradually consumed, the tube, however, still retaining its shape, becoming paler and paler in color until after a few hours the specimen is transformed into a pure white alabaster-like column which defies any further attack from the acid.

On taking it from the vial and washing it carefully in running water the operator holds in his hands a beautiful tube of pure, glassy flint, or silex, an object of great microscopic beauty of construction. The scouring rush is no longer a vegetable, but a mineral, and in observing its skeleton of stone the secret of its utility as a scouring brush is easily understood.

DUTCH STREET CARS.

The Conductor Carries More Documents Than a Congressman.

Countries may be known by their street cars. The rush and jar of our big cities are exemplified in the rapid, rude transit of its inhabitants. So the character of orderly little Holland may be gathered from observation of her car service. Says J. U. Higinbotham in "Three Weeks in Holland and Belgium:"

Street car fare in Holland is 3 cents a trip, and for 4 cents you receive a return ticket. The conductor carries more documents than a congressman. For every fare he opens an aluminium box about 4 by 6 and hands out a receipt or a return ticket, as the case may be.

When the passengers pay their tickets he places the tickets in a leather pouch hung by a strap round his neck. It is important that you retain the receipt given you, for at uncertain intervals a "controlleur" gets on the car and examines all receipts, puts his O. K. on them with a rubber stamp and compares the result with the manifest or log carried by the conductor. It is quite the correct thing to tip the conductor with a Dutch cent or two.

Each car has a card inside stating how many places there are, and on each platform is another saying how many people may stand thereon. When the seats and both platforms are full the sign "Vol" is put up and no more are permitted to get aboard. Our car probably had thirty people in it and on the platforms and was turning business away at every crossing.

Color.

Of the light rays that fall upon an object some are taken up by the object and others are reflected. It is to the reflected rays that we are to turn for the explanation of color. For instance, a sheet of white paper is "white" because all the seven kinds of light are reflected from its surface, while the sunflower is "yellow" because when light falls on it the violet, indigo, blue and green rays are selected for absorption, and yellow principally is reflected. The reflective rays, received by the eye, produce the sensation of color. This is an explanation of nearly all the colors that exist.

Poison Hemlock.

Water hemlock is a deadly plant common in most country neighborhoods. Its roots are eaten often in spring by mistake for some edible root and death frequently results. Cattle are often poisoned by drinking water in marshes where it grows. The poison hemlock from which the Greeks made poisons is a near relative to the water hemlock. It stands from two to seven feet high and has clusters of small white flowers and large, parsleylike leaves. The stalk, being hollow, is often made into whistles by country boys, and many children are poisoned in this fashion.

Handicapped.

"What profession do you think our boy Joe had better adopt?" asked Mrs. Brown.

"I dunno," answered her husband. "Joe is rather handicapped by circumstances. The only profession he's naturally adapted to is that of a capitalist, and I don't quite see where he's goin' to get the money."

A Tip.

"Look as if you was feelin' pretty good today, James," said the first waiter.

"Yes, tiptop," replied the other.

"Some streak o' luck maybe?"

"Yes; tiptop tip."—Kansas City Independent.

An Empty Form.

Little Willie—Say, pa, what does it signify when one woman kisses another? Pa—About as much as when one man in business calls another "old chap," my son.—Stray Stories.

It requires little exertion upon our part to bring misfortune upon ourselves.—Menander.

OLD VILLAGE LOCKUP.

Quaint Structures For Confinement of Rogues and Vagabonds.

Several villages in the midlands possess in more or less ruined state their old parish lockups, commonly known as roundhouses.

Breedon, a Leicestershire village, close to the South Derbyshire border, possesses its "lockup," a quaint stone building eighteen feet high and eight feet six inches diameter inside. The walls are fifteen inches thick. The door is of stout oak, studded with many large iron nails.

The lock is very strong, and the keyhole is covered with an iron plate, which itself has to be unlocked by a spanner before the door key can be inserted. Ventilation is afforded by small holes punched in an iron plate, six inches by seven, fixed in the center of the door. There is no window.

At Worthington, the next village to Breedon, the old lockup is a seven sided brick building, badly in need of restoration, an opportunity for archaeologists which it is hoped will not be missed. Both at Breedon and Worthington these diminutive disused prisons are on the roadside adjacent to the pound, or pinfold, so that the constable had conveniently side by side the strayed cattle and any human rogues or vagabonds he had charge of. There are similar old lockups at Smisby and Ticknall, two villages close to Leicestershire.—Sheffield (England) Telegraph.

BLUSH IF YOU CAN.

It Is a Sign of an Active Brain, Declares a Scientist.

Sir Arthur Mitchell, K. C. B., of Edinburgh, who knows much that is strange about dreams, laughter and other commonplace human characteristics, has advanced the consoling theory that blushing is an achievement of which every one who can blush should be proud.

He says it requires brains to blush. Idiots cannot blush; neither can animals. Sir Arthur calls attention to the fact that tiny infants do not blush, although they learn to at an early age—just as soon, in fact, as the brain begins to exercise its functions. In blushing, he says, the mind always must be affected. It is always and only a bodily expression of a mental state.

It is a natural thing for a blusher to say that he had tried not to blush. No individual blushes of his own free will. The blush arises without call instantaneously and vanishes almost as quickly. Neither for its coming nor its going is there any exercise of volition. It is controlled, Sir Arthur says, solely by the brain and is a positive sign that there is an active brain there.

Boissier's High Priced Autograph.

A good Boissier-Renan anecdote is told by a French paper. One day Boissier arrived at Renan's home with a beaming face, saying: "Now I'll tell you a piece of news that will humiliate you. My autograph has fetched a higher price than yours." "That does not surprise me," Renan said serenely. "And where did you hear this?" It then turned out that at an auction a day or two before a Renan autograph had been sold for 3 francs and a Boissier for 5. "Well," Renan went on, "now let me tell you the reason. There were three faults in the spelling of your letter, which is now lying here on my writing table. A friend of mine was at the auction and made a higher bid for the letter after noticing the artificial gems that adorned your prose. He brought it to me in order that I might return it to you instead of reaching the public, which might get a bad impression of the accomplishments of members of the French academy."

Got Near It.

A primary teacher was presenting to her class selections from the story of Hiawatha preparatory to taking up the "Hiawatha Primer." The story was prefaced by a few remarks in regard to the poet and his love for children. In reviewing the lesson she asked:

"How many remember the name of the poet who wrote this story?"

Up went many hands.

"You may tell us, Sarah," added the teacher, noticing the little one wildly waving her hand in her intense eagerness to respond.

"Mr. Longlegs," said the child, with evident pride.—Lippincott's.

A Quaint Critic.

A noted woman teacher once spoke before a class of school children on literature. She had spent a week writing the speech. She read it to the little ones, as she hoped, with great success, but the next day she heard that a boy on being asked by his mother what had happened at the school replied carelessly:

"Oh, nothing much, except that a lady talked to herself on a piece of paper."

Just the Contrary.

Bessie was just finishing her breakfast as papa stooped to kiss her before going downtown. The little one gravely took up her napkin and wiped her cheek.

"What, Bessie," said her father, "wiping away papa's kiss?"

"Oh, no," said she, looking up, with a sweet smile; "I's wubbing it in."

A Bad Spell.

"Poor Jack! He never could spell, and it ruined him."

"How?"

"He wrote a verse to an heiress he was in love with and he wrote boney for bonny."

A wise man should not refuse a kindness.—Herodotus.

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT, 1907, BY McCLURE, PHILLIPS & CO.

CHAPTER XXXII.

REST and good food quickly brought Percy Darrow back to his normal poise. One inspection satisfied Dr. Trendon that all was well with him. He asked to see the captain, and that gentleman came to Ives' room, which had been assigned to the rescued man.

"I hope you have been able to make yourself comfortable," said the commander courteously.

"It would be strange indeed if I could not," returned Darrow, smiling. "You forget that you have set a savage down in the midst of luxury."

"Make yourself free of Ives' things," invited Captain Parkinson. "Poor fellow! He will not use them again, I fear."

"One of your men lost?" asked Darrow. "Ah! The young officer whose body I found on the beach peshaps?"

"No. But we have to thank you for that burial," said the captain.

Darrow made a swift gesture. "Oh, if thanks are going," he cried, and paused in hopelessness of adequate expression.

"This has been a bitter cruise for us," continued the captain. He sighed and was silent for a moment. "There is much to tell and to be told," he resumed.

"Much," agreed the other gravely.

"You will want to see Slade first, I presume?" said the captain.

"One of your officers whom I have not yet had the pleasure of meeting?"

The captain stared. "Slade," he said. "Ralph Slade."

"Apparently there's a missing link. Or—I fear I was not wholly myself yesterday for a time. Possibly something occurred that I did not quite take in."

"Perhaps we'd better wait," said Captain Parkinson, with obvious misgiving. "You're not quite rested. You will feel more like"—

"If you don't mind," said Darrow composedly, "I'd like to get at this thing now. I'm in excellent understanding, I assure you."

"Very well. I am speaking of the man who acted as mate in the Laughing Lass. The journalist who— Good heavens! What arrant stupidity! I have to beg your pardon, Mr. Darrow. It has just occurred to me. He called himself Eagen with you."

"Eagen! What is this? Is Eagen alive?"

"And on this ship. We picked him up in an open boat."

"And you say he calls himself Slade?"

"He is Ralph Slade, adventurer and journalist. Mr. Barnett knows him and vouches for him."

"And he was on our island under an assumed name," said Darrow in tones that had the smoothness and the rasp of silk. "Rather annoying. Not good form quite, even for a pirate."

"Yet I believe he saved your life," suggested the captain.

Darrow looked up sharply. "Why, yes," he admitted, "so he did. I had hoped"— He checked himself. "I had thought that all of the crew went the same way. You didn't find any of the others?"

"None."

Darrow got to his feet. "I think I'd like to see Eagen—Slade—whatever he calls himself."

"I don't know," began the captain. "It might not be"— He hesitated and stopped.

Darrow drew back a little, misinterpreting the other's attitude. "Do I understand that I am under restraint?" he asked stiffly.

"Certainly not. Why should you be?"

"Well," remarked the other contemplatively, "it really might be regarded as a subject for investigation. Of course I know only a small part of it. But there have certainly been suspicious circumstances. Piracy there has been, no doubt of that; murder, too, if my intuitions are not at fault, or at least a disappearance to be accounted for. Robbery can't be denied. And there's a dead body or two to be properly accredited." He looked the captain in the eye.

"Well?"

"You'll find my story highly unsatisfactory in detail, I fancy. I merely want to know whether I'm to present it as a defense or only an explanation."

"We shall be glad to hear your story when you are ready to tell it—after you have seen Mr. Slade."

"Thank you," said Darrow simply. "You have heard his?"

"Yes. It needs filling in."

"When may I see him?"

"That's for Dr. Trendon to say. He came to us almost dead. I'll find out."

The surgeon reported Slade much better, but all a-quiver with excitement.

"Hate to put the strain on him," said he. "But he'll be in a fever till he gets this thing off his mind. Send Mr. Darrow to him."

After a moment's consideration Darrow said, "I should like to have you and Dr. Trendon present, Captain Parkinson, while I ask Eagen one or two questions."

"Understand one thing, Mr. Darrow," said Trendon briefly, "this is not to be an inquisition."

"Ah!" said Darrow, unmoved. "I'm to be neither defendant nor prosecutor."

"You are to respect the condition of Dr. Trendon's patient, sir," said Captain Parkinson, with emphasis. "Outside of that your attitude toward a man who has twice thought of your life before his own is for you to determine."

No little cynicism lurked in Darrow's tones as he said:

"You have confidence in Mr. Slade, alias Eagen?"

"Yes," replied Captain Parkinson in a tone that closed that topic.

"Still, I should be glad to have you gentlemen present if only for a moment," insisted Darrow presently.

"Perhaps it would be as well—on account of the patient," said the surgeon significantly.

"Very well," assented the captain.

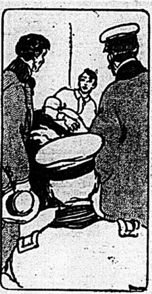
The three went to Slade's cabin. He was lying propped up in his bunk. Trendon entered first, followed by the captain, then Darrow.

"Here's your prize, Slade," said the surgeon.

Darrow halted just inside the door. With an eager light in his face Slade leaned forward and stretched out his hand.

"I couldn't believe it until I saw you, old man," he cried.

Darrow's eyebrows went up. Before Slade had time to note that there was no response to his outstretched hand the surgeon had jumped in and pushed him roughly back upon his pillow.



"Here's your prize, Slade," said the surgeon.

"What did you promise?" he growled. "You were to lie still, weren't you? And you'll do it or out we go."

"How are you, Eagen?" drawled Darrow.

"Not Eagen. I'm done with that. They've told you, haven't they?"

Darrow nodded. "Are you the only survivor?" he inquired.

"Except yourself."

"The nigger? Pulz? Thrackles? The captain? All drowned?"

"Not the captain. They murdered him."

"Ah," said Darrow softly. "And you—I beg your pardon—your—er—friends disposed of the doctor in the same way?"

"Handy Solomon," replied Slade with shaking lips. "Hell's got that fiend, if there's a hell for human fiends. They threw the doctor's body in the surf."

"You didn't notice whether there were any papers?"

"If there were they must have been destroyed with the body when the lava poured down the valley into the sea."

"The lava, of course," assented Darrow, with elaborate nonchalance. "Well, he was a kind old boy—a cheerful, simple, wise old child."

"I would have given my right hand to save him," cried Slade. "It was so sudden—so damnable"—

"Better to have saved him than me," said Darrow. He spoke with the first touch of feeling that he exhibited. "I have to thank you for my life, Eagen—I beg your pardon—Slade. It's hard to remember."

Dr. Trendon arose and Captain Parkinson with him.

"Give you two hours, Mr. Darrow," said the surgeon. "No more. If he seems exhausted give him one of these powders. I'll look in in an hour."

At the end of an hour he returned. Slade was lying back on his pillow. Darrow was talking eagerly, confidentially. In another hour he came out.

"The whole thing is clear," he said to Captain Parkinson. "I am ready to report to you."

"This evening," said the captain. "The mess will want to hear."

"Yes, they will want to hear," assented Darrow. "You've had Slade's story. I'll take up where he left off, and he'll check me. Mine's as incredible as—as Slade's was. And it's as true."

CHAPTER XXXIII.

AS they had gathered to hear Ralph Slade's tale, so now the depleted mess of the Wolverine grouped themselves for Percy Darrow's sequel. Slade himself sat directly across from the doctor's assistant. Before him lay a paper covered with jotted notes. Trendon slouched low in the chair on Slade's right. Captain Parkinson had the other side. Convenient to Darrow's hand lay the material for cigarettes. As he talked he rolled cylinder after cylinder and between sentences consumed them in long, satisfying puffs.

"First you will want to learn of the fate of your friends and shipmates," he began. "They are dead. One of them, Mr. Edwards, fell to my hands to bury, as you know. He lies beside Handy Solomon. The others we shall probably not see. Any one of a score of ocean currents may have swept them far away. The last great glow that you saw was the signal of their destruction. So the work of a great scientist, a potent benefactor of the race, a gentle and kindly old heart, has brought about the death of your friends and of my enemies. The innocent and the guilty, the murderer with his plunder, the officer following his duty, one and the same end—a paltry thing our vaunted science is in the face of such tangled fates." He spoke low and bitterly. Then he squared his shoulders, and his manner became businesslike.

"Interrupt me when any point needs clearing up," he said. "It's a blind trail at best. You've the right to see it as plain as I can make it—with Slade's help. Cut right in with your questions. There'll be plenty to answer, and some never will be answered. Now, let me get this thing laid out clearly in my own mind. You first saw the glow—let me see"—

"Night of June 2," said Barnett.

"June 2," agreed Darrow. "That was the end of Solomon, Thrackles & Co. A very surprising end to them if they had time to think," he added grimly.

"Surprising enough from the survivors' viewpoint," said Slade.

"Doubtless. They've had that story from you. I needn't go over it. This ship picked up the Laughing Lass, deserted, and put your first crew aboard. That night, was it not, you saw the second pillar of fire?"

Barnett nodded.

"So your men met their death. Then came the second finding of the empty schooner. Captain Parkinson, they must have been brave men who faced the unknown terrors of that prodigy."

"They volunteered, sir," said the captain, with simple pride.

Darrow bowed with a suggestion of reverence in the slow movement of his head. "And that night—or was it two nights later—you saw the last appearance of the portent? Well, I shall come to that. Slade has told you how they lived on the beach. With us in the valley it was different. Almost from the first I was alone. The doctor ceased to be a companion. He ceased to be human almost. A machine, that's what he was. His one human instinct was—well, distrust. His whole force of being was centered on his discovery. It was to make him the foremost scientist of the world; the foremost individual entity of his time—of all time possibly. Even to outline it to you would take too much time. Light, heat, motive power in incredible degrees and under such control as has never been known. These were to be the agencies at his call. The push of a button, the turn of a screw—oh, he was to be master of such power as no monarch ever wielded! Riches—pshaw! Riches were the least of it. He could create them practically. But they would be superfluous. Power! Unlimited, absolute power was his goal. With his end achieved, he could establish an autocracy, a dynasty of science—whatever he chose. Oh! It was a rich hued, golden, glowing dream, a dream such as men's souls don't formulate in these stale days—not our kind of men. The Teutonic mysticism—you understand. And it was all true. Oh, quite!"

"Do you mean us to understand that he had this power you describe?" asked Captain Parkinson.

"In his grasp. Then comes a practical gentleman with a steel hook. A follower of dreams, too, in his way. Conflicting interests—you know how it is. One well aimed blow from the more practical dreamer and the greater vision passes. I'm getting ahead of myself. Just a moment."

His cigarette glowed fiercely in the dimness before he took up his tale again.

"You all know who Dr. Schermerhorn was. None of you know—I don't know myself, though I've been his factotum for ten years—along how many varied lines of activity that mind played. One of them was the secret of energy—concentrated, resistless energy. Man's contrivances were too puny for him. The most powerful engines he regarded as toys. For a time high explosives claimed his attention. He wanted to harness them. Once he got to the point of practical experiment. You can see the ruins yet—a hole in southern New Jersey. Nobody ever understood how he escaped. But there he was on his feet across a ten foot fence in a plowed field—yes, he flew the fence—and running, running, furiously in the opposite direction when the dust cleared away. Some one stopped him finally. Told him the danger was over. 'Yet I will not return,' he said firmly and fainted away. That disgusted him with high explosives. What secrets he discovered he gave to the government. They were not without value, I believe."

"They were not, indeed," corroborated Barnett.

(To be continued.)

The Square-Dealers and Others

SEE that Slate below:
It is a registered Trade-Mark.
It is a "Sign" which stands for something tangible to Shoe-Wearers.

When stamped on a shoe, with a price within the frame, it means that the Shoe has a Certified Value up to that price.

It means that this value is Certified to by the only people who could know precisely what kind of material and workmanship went under its outward finish,—viz., the Makers.

It is a frank acknowledgment of responsibility to the Consumer on the part of the Makers, no matter who sells the shoe.

Do you appreciate the Spirit of Fair-play, Square-deal, and Honest-intention such an unusual Trade-Mark and Price control stand for?

If so, you will resent attempts to hoodwink when you ask for "The Slater Shoe."

There are Retailers who will tell you that they have "Slater's Shoes," "Slater's make of Shoes," "Slater's Strider Shoe," "Slater's Invictus Shoe," "Geo. A. Slater's Shoes," or "Frank W. Slater's Shoes," etc.

Some of these are good Shoes and some are mere "wheezes," deliberately conned to trade upon the standing of "The Slater Shoe."

But, bear in mind, that none of them is "The Slater Shoe" you are looking for, which is—

The Shoe with the trade-mark of the Slate on it and the retail price stamped indelibly within that Slate.

There are 26 "Slaters" in the Montreal City Directory, and every one of them might feel justified in putting his own name on a Shoe.

But no sane person would risk putting the Sign of the Slate there, and paying the penalty under the law for fraud.

So, look for The Slate Mark!

And, you will help along "the Square-deal" principle by putting your foot down hard when any Retailer or his Salesman tries to flim-flam you with the evasion of "Slater's Shoes," etc., when you ask for "the Shoe with the Slate on it."

Look for the Slate!

The genuine "Slate-frame" Shoe business was founded in 1869, incorporated in 1899, has trebled in volume since 1900, and doubled in volume since 1904.

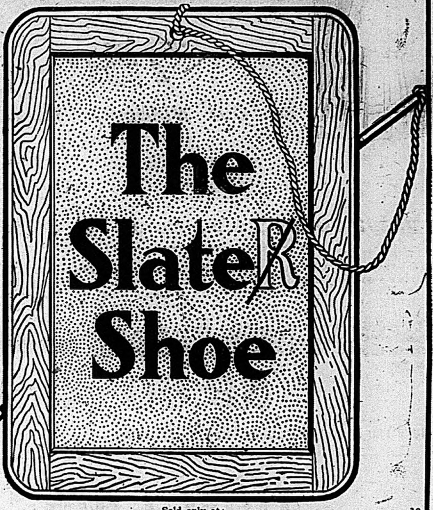
The Slater Shoe factory to-day produces about a Million Dollars' worth of high-grade Shoes yearly, and will probably double that Million in the next three years.

"The Slater Shoe" is sold by 336 responsible Shoe Retailers in Canada, at the uniform price stamped on each pair, by the Makers, in a Slate frame.

It is made from the most carefully selected materials by the Goodyear Welt machines in their most highly developed state, insuring comfort and durability.

Remember it is not a genuine 1869 "Slater Shoe" unless it has the Slate mark on it.

"The Slater Shoe" for Men and Women and Children.



Sold only at: 16

The Slater Shoe Store--J. J. Haines, Belleville, Ont.

PANDORA RANGE

"We-Want-Them!"

"The biscuits which please us must be brown and crisp and firm and dainty, with a well-raised, evenly-baked crust.

"Mother says such buns require a steel oven, scientifically constructed, uniformly heated, perfectly ventilated—'PANDORA' OVEN EXACTLY."

Invitation and Announcement Cards, with Envelopes to match, in all sizes, at the Intelligencer Job

The average age at death of people who die by accident is 35 1-2 years.

Bring your visiting card plate to The Intelligencer office. We will do your engraving promptly, as cheap as elsewhere, guaranteeing first class workmanship.

Love is a dream and the wise man is one who manages to keep from being awakened.

Next to attar of roses, the most valuable perfume is oil of jasmine, which is quoted at $380 per pound.

It's no use fussing about keeping the faith if you cannot keep your friends.

You can make almost any man nervous by telling him that a policeman was asking about him.

Evil is only what one class of mortals look upon as their higher good.

GUARDING PAPER MONEY.

Checks Against Thefts While in the Process of Printing.

The paper money of the Government is brought in iron bound chests, locked and sealed, from the bureau of engraving and printing to the cash room of the treasury and there delivered upon receipt to the chief of the division of issue in sheets of four bills each. They are complete, with signature and numbers, except for the seal, which is printed upon them with power presses in a small apartment under the cash room.

These presses are worked by two people, usually a man pressman and a woman feeder or assistant. When the seal has been imprinted upon the bills they are counted automatically, bound in packages of equal numbers by bands of paper, marked, signed by the persons who have handled them and passed into the adjoining room, where the sheets are cut and the bills are recounted and inspected, so that the imperfect ones may be thrown out. They are then bound into packages of equal amounts and taken to the drying vault, where they lie upon the shelves for several weeks until the ink has become perfectly dry.

Every safeguard that ingenuity can contrive is placed around these transactions, and the chief of division can tell which of his hundred or more subordinates have touched the different bills in the vaults. He knows who received them, who printed the seal, who wrapped and cut them, for every package is numbered and its history is recorded in an enormous book.

The combination of checks is so complete that the chief of division would know within twenty minutes if a single bill was missing, but he has never had occasion to test this knowledge except twice within fifteen years. Only two attempts have ever been made to steal the money of the Government while it is in this stage of its history.

OUTWARD DISPLAY.

It Characterizes the Social Life All Over Italy.

Social life among the Italians is really not so different from social life in other countries, although certain national peculiarities must be remarked, says Harry Quimby in Leslie's Weekly. Italians even in the most elaborate homes do not wear evening dress for dinner unless there is a party. The particularly fashionable wear a smoking coat and a black tie, but the plain black coat is more universally used. All over Italy social life is characterized by great love of outward display. In Naples particularly the afternoon drive or promenade is important to reputation and happiness. The following will illustrate the prevailing feeling: An American who had taken a flat in a palazio, the first floor of which was occupied by a noble family in reduced circumstances, noticed every day a servant going up the steps, carrying a pair of carriage doors. Upon investigating he found that the noble family shared a carriage with other families and that each had its coat of arms upon its own doors.

Fewer Italians go to the famous watering places than people of any other country. The popular annual tonic of the Italians consists of eating grapes. The treatment includes grape juice and grapes, as much as can be taken, in the morning and at noon a rare beefsteak. In the afternoon more grapes and grape juice are partaken of, and at 7 in the evening another rare beefsteak. This is continued for three weeks, when the patient is said to look and feel like a different person. The grapes purify the system, and the beef acts as a tonic and keeps up the strength, according to the Italian physicians.

Praise For the Bishop.

The bishop of an English see, being a newcomer and somewhat troubled with a neglected diocese, thought to inspire his clergy to take occasional services during the week by periodically visiting out of the way parishes and taking one himself.

On one of these occasions, having formed quite a good congregation and having been moved to much eloquence in his sermon, he felt a little not unnatural desire to know if he had made any impression on the usually unimpressionable yokels and put some leading questions to the old clerk, who was helping him to unrobe in the vestry. "Well, I hope they've been pleased with yer," said the old man patronizingly, "and I'm sure we tuk it werry kind o' yer worship to come down and preach to us, but, yer knaw, a worsser one would ha' done for the likes o' we, if so be," he added with becoming humility, "one could ha' bin found."

Innocence.

"Why," he asked, "do girls like so much to display diamond rings on their engagement fingers?"

"Well," she replied as she carelessly twirled the jewel on her third finger, "you know there is nothing like a shining example to stimulate one when he has a purpose in mind."

When she had time to speak again she cried.

"Oh, Fred, I hope you don't think I was trying to throw out a hint. I never suspected that you cared about me at all!"

The Hangings.

Recently a little girl was taken to London by her parents. On her return she was describing all the places she had seen to some young friends. One of them, of a somewhat morbid disposition, asked, "Did you see the Old Bailey, where they hang the murderers?"

"No," replied the girl, "I don't think so, but I saw the Royal Academy, where they hang the artists."

She Was at the Seashore.

He dreamed a dream, then woke up
And laughed, for it was funny.
He dreamed his wife had written him
And did not ask for money.

REMARKABLE WATCHES

SOME WONDERFUL TIMEPIECES HAVE BEEN PRODUCED.

Watches Are Now Made Which Will Strike Time With Set of Chimes—Stop Watches Are Also Marvels of Ingenuity and Workmanship—Metal and Gear Are the Essential Elements.

The construction of complicated timepieces has always been a favorite amusement of the mechanic. Some of the most complex and ingenious large clocks, like the famous one at Strasburg, were the product of former centuries, but probably complicated watches have never been made more accurately and cheaply than to-day. Some of these are described in Cosmos (Paris), by L. Reverchon.

"The striking watch ('repeater') is very old. Nearly two and a half centuries ago it was invented simultaneously by two English watchmakers, Barlow and Quare. . . . Watches that strike the hour when desired are now made like ordinary watches and at a reasonable price. Good watches in metal cases, striking the quarter-hour, may be bought for 100 francs ($20).

"On the other hand, watches are now made . . . that not only strike when desired, by pressing a spring, but also strike the hours and quarters regularly, like a clock. The mechanism is much the same in both cases.

"Not only are ordinary bells for sounding the hours and quarters placed in these watches—some of which do not exceed 4.7 millimeters (1-5 inch) in thickness—but real little chimes.

"We may pass from consideration of repeaters to that of the more recent stop-watch. In its most elementary form this has simply a second-hand on a small dial graduated in minutes. In the most complicated form the mechanism operates two ordinary hands, a primary chronograph-hand, called the 'overtaking' hand, a minute-counter, and finally a small 'lightning' hand, which makes the entire revolution in one second, a quarter at a time. . . . In a stop-watch of this sort the four hands last described may all be brought back to zero at once. It may be imagined with what precision the construction must be carried out that this may be done. . . . Practically, stop-watches without the 'overtaking' and 'lightning' hands are used. . . . and even these give trouble enough to repairers of watches. . . . A third complication in watches is the calendar. Every one is now familiar with watches that show the day of the month and the phases of the moon, for they may be obtained at all the shops at low prices. This type of calendar watch is old. The perpetual calendar, which is quite complicated, dates only from 1860. There are two systems. In one the month-dial has forty-eight divisions, which facilitates construction. In the second, called the twelve-month calendar . . . . the month-hand makes its revolution in one year instead of four years, which makes it easier to read. The hands change place at midnight. Calendars are also made with openings, through which the numbers indicating month and day are shown . . . The lunar phases are shown by means of a wheel of fifty-nine teeth, which involves an error of nine hours a year. The mechanism of calendars should receive special care. Their working requires considerable power, and this is why, in most non-perpetual calendars, the moon obstinately refuses to budge."

There are still, we are told, more complicated watch-movements, in which all the features described above are combined. For instance, the writer tells of a watch that is at once a repeater, a "chronograph" or stop-watch, and a perpetual calendar. A mechanism such as this consists of no less than 552 pieces, pierced with 752 holes and held together by 177 screws, some of which are not more than 0.3 millimeter (about 1-80 inch) in diameter. He describes also an astronomic watch constructed by Paul Ditisheim, on whose dial appear hours, minutes, seconds, lunar phases, days of the month, the time of sunrise and sunset, and a device for showing the equation of time. The writer concludes:

"In such complicated pieces of mechanism it is evident that all the wheels cannot be arranged in one plane. They must be disposed in layers, which of course makes the watches thicker than usual.

"At the last competitive exhibition at the National Physical Laboratory at Kew, England, there were eleven complicated watches, among others a repeater giving the minutes, with a stop-watch attachment, made by Stauffer and Son, of London, which obtained 88.7 points in a possible hundred—a very good result. At the same laboratory in 1904 the firm of Golay, of London, had a watch of this class with an absolutely extraordinary number of points, namely 93.2. . . .

"It would certainly seem that chronometric precision had obtain its maximum in mechanisms of this kind, in which weak spring-motors succeed in operating second-hands, under the control of the escapement, with such accuracy that the variations observed during six months do not depart by one-half second from the straight line representing ideally perfect running.

"To reach such truly extraordinary results in actual manufacture there are two essential elements toward which the constructor's whole attention should be directed; these are the quality of the metals used and the perfection of the gears. These two elements become increasingly important as the number of pieces entering into the construction is more considerable. To their absence we must attribute most of the faults of watches of inferior quality."

EFFECTIVE TIME TEST.

The Way a Clever Lawyer Wo Verdict For His Client.

An interesting example of dra tic appeal to human experience ing a trial and a conclusive tes the appeal closed a case tried i western court.

The plaintiff was suing a rail for damages to a building which been set on fire, it was alleged, sparks from a locomotive.

Counsel for the road based his fense on the ground that, since fire was seen by employes on train and the train was in the sta only four minutes, the fire must the fore have been set before the en pulled into the station. Four m utes, he contended, constituted period not long enough for a fir start and get under way.

On the other hand, counsel for plaintiff argued in this wise: young man, sitting on a sofa his best girl, is holding her h the time travels like an express tr But if you dump a lot of sparks the pine roof of a dry building summer four minutes is ample settle the fate of the structure des all efforts to save it.

There were some incredulous sm at this. The attorney took out watch and, handing it to the fore of the jury, requested him to nounce the termination of a pe of four minutes.

The jurymen leaned over and l ed at the watch. Then they got and settled back in their seats. foreman of the jury lowered his h as the signal of the beginning of four minutes and then rested it his knee. The attorney shifted feet a few times and sat down. judge looked at the clock awhile then gazed abstractedly out of window. A deputy marshal loo in at the door to see what was matter and patiently awaited result of the curious scene. Ne every man in the courtroom ha watch in his hand, carefully st ing the face of it. The counsel the plaintiff was sacrificing minutes of his time. But he felt they were well invested.

At last the foreman of the jury nounced the termination of the To every person in the room four minutes had seemed at l twice as long. The judge him afterward said that it seemed so thing like fifteen. The ordeal the effect upon the jury that the torney had calculated. It was object lesson, a striking exemplif tion of what might happen in minutes.

Accordingly the jury found that defendant's engine had suffic time in which to fire the buil and that the fire had ample time which to get under way and cr a blaze which the men on the t could see. A verdict for dam was brought in to the amount some $15,000.

How a Good Bluff Worked.

At 10 o'clock the cashier in a tain establishment was seized influenza. At noon the bookkee gasped and collapsed. Both were sent home in cabs, and crippled establishment was left get along as well as it could in unforeseen circumstances.

At 1.30 the typist announced he must go and put his feet into water or his dissolution would low. He was given permission to his life.

At 2 o'clock the three clerks cumbed together. They attribu the attack to some fish of which had incautiously partaken.

The proprietor was now left al save for the presence of one s office boy. Presently he arose and on his hat with a determined ai

"Tommy," he said, "I think and I had better go and see the g too!"

Where They Got Off.

The elderly matron with the b dles, who was journeying to a p in Wisconsin and occupied a near the middle of the car, had fa asleep. On the seat in front of sat a little boy. The brakeman op ed the door of the car and ca out the name of the station the tr was approaching. The elderly man roused herself with a jerk.

"Where are we now, Bobby?" asked.

"I don't know, grandma," answ ed the little boy.

"Didn't the brakeman say so thing just now?"

"No. He just stuck his hea side the door and sneezed."

"Help me with these things, B by!" she exclaimed hurriedly. "T is Oshkosh. It's where we get of

A Beetle Story.

A beetle weighing two grains able to move a weight of five one-half ounces, or 1,320 times its o weight. A man weighing 150 poun if proportionately strong, could t move 198,000 pounds, or nearly hundred tons. Some years ago captured a very handsome beetle placed it under a beaker—a t tumbler used in chemical analysi on a shelf of my laboratory. A hours after the beetle had disappe ed very mysteriously, the beaker maining inverted. He was recaptu and again placed under the beak I watched the result and presen found that the beetle walked tumbler along the shelf till it reach the edge, then crept out and fell soon as the overhang was suffici to afford room for escape.

Burglar Was Too Late.

We owe an apology and an planation to the burglar who ope our office window at the week e sought the drawer of the cashie and was disappointed. We do not l to appear inhospitable, but on Frid night we all of us do our own thi ing, and there is nothing left visitors. Any other night we will to give another sort of surprise.

The Wings of Love.

"Time flies," they say, my dear, an
Am satisfied it's true.
But, goodness me, what makes it
So fast when I'm with you?

MESSRS. PORTER AND NORTHRUP WERE ELECTED BY ENORMOUS MAJORITIES.

Hastings County Did its Duty Nobly, but Ontario as a Whole Was Disappointment--Depended on to Give Big Conservative Majority, it Threw Borden Down--Government Returned, but by a Largely Decreased Majority.

Another general election has passed into history, and, as usual, the expected refused to happen. Sir John A. Macdonald used to say that there was nothing so uncertain as a general election, unless it was a horse race.

Certainly the unexpected happened in Ontario yesterday. Some Liberal papers conceded a Conservative majority of at least 40 in Ontario. Conservative forecasters—some of them—went as high as 60. And it all goes to show that the very best time to prophecy is after a thing has happened. Ontario refused to run according to form, and from present indications it looks as though Mr. Borden must be satisfied with a small majority in this province. Had Ontario given a majority of only 30—but there, what's the use? We were trimmed "good and proper," as the man on the street would say, so let us get down to business once more, and trust that, in "finishing his work," Laurier won't finish the country, too.

In other parts of the Dominion the Tory horse ran quite up to form—in fact, in some places, a little better. Ontario was where we were thrown down.

The causes? Well, opinions differ. Many shrewd students of affairs say the trouble lies in the fact that the Conservative leaders insisted on carrying men whose public and private acts do not entitle them to consideration. This reason for defeat is undoubtedly a weighty one. Others think the majority of Ontario people do not want to see the same party in power at both Toronto and Ottawa. There may be something in that, too. And a third, and undoubtedly a weighty reason for Liberal victory is the personality of Sir Wilfrid Laurier and the glamor which attaches to his name. His easy acquiescence in the financial operations of his political friends, his high-sounding platitudes about "Canada, a nation," his picturesque personality and the extreme good fortune which for years attended him, all these things make him a power in Canada, and, though his power is undoubtedly on the wane, it is evidently still strong enough to dominate his friends and defeat his foes.

Still, when all is said and done, it is by no means an unmixed evil that the Conservatives were defeated yesterday. That the country faces grave problems no one can deny. The Grand Trunk Pacific deal is in a bad way—worse than people dream of. Canadians will be stunned with the news from that quarter before many moons. The financial affairs of Canada, too, are in an extremely bad way. A loan which Hon. Mr. Fielding has been trying to float for months has not yet been half subscribed. The extravagance of the Liberal Administration has brought the country to the verge of financial disaster, which is giving it a mild name. It is not crying down Canada or fouling one's own nest to say that things are in a bad way, and the Conservative party could hardly have reached power at a less auspicious time. The grim facts of the case are these: The Liberals have gotten Canada into the hole, now let them get her out. We firmly believe the Conservative party will have to be called on before this great Dominion once more walks down Easy Street.

THE LOCAL SITUATION.

That Messrs. Porter and Northrup would be returned in Hastings County no one doubted, though some people thought the ridiculous and unfair cries used against Mr. Porter might have some influence. They did not. As a matter of fact, the popular Conservative candidate made the best run in Belleville he ever made: 321 in this city is going some. Trenton gave Mr. Funnell 68. In the other places it was all Porter, whose majority will probably total 1300. Mr. Funnell can now go 'way back on the Trent Canal and sit down.

In East Hastings Mr. Northrup ran away ahead of all records. It was Longboat against a cripple. The Conservative majority in East Hastings will be about the same as Mr. Porter's. So let the men of good old Hastings County pat themselves on the back. THEY did their duty, at all events.

RETURNS RECEIVED IN THE CITY HALL.

A tremendous crowd gathered in the City Hall last night to hear the returns read out. The news from East and West Hastings was received with cheers which loosened the plaster on the ceiling. Then the news from outside began to come in. The first news told of Conservative successes, and the crowd shouted with jubilation. At one time it stood Conservatives elected 30, Liberals 29. But thoughtful men looked at the returns and said: "Ontario is not doing what was expected of her. It looks as though the Government will be returned." And so it proved. About 9.30 Laurier had a lead of 28; it was practically all over but the shouting—and there wasn't very much of that in the City Hall just about then. When the telegraph offices shut up shop for the night the returns stood thus:

Liberals elected	113
Conservatives elected	75
Independents	3

There was plenty of amusement and interest in the City Hall during the evening. Messrs. Northrup, Porter and other speakers addressed the audience to an accompaniment of great applause. Mr. Burrows sang some of his favorites as he only can sing them; that staunch old Tory, "Tom" Emerson, played stirring airs, to the great pleasure of the crowd, and "Sandy" Burrows showed that, as a pianist and accompanist, he is "the real thing." So the "tumult and the shouting died," and we went home to try and explain matters to our wives and sisters and cousins and aunts, and to dream of another election with a more favorable ending.

MRS G. S. GESNER.

Doctor Changes his Mind! Psychine Stands 18 Years' Test.

In the year 1890, 18 years ago, Mrs. G. S. Gesner, of Belle Isle, N.S., was in a sad condition. All her relatives had died of consumption, and there was every indication that she was going the same way. This was aggravated by an attack of Kidney Trouble.

At this point her husband suggested to try PSYCHINE. The doctor who attended said Psychine was worthless; but it effected a wonderful cure. EIGHTEEN YEARS AFTER in a letter bearing date August 14, 1908, Mrs. Gesner says, "I am better than I have been for years. My lungs have not troubled me since I took your treatment. My physician told me I could not take a better tonic than PSYCHINE, and I recommend it to all who are suffering from Lung Trouble and General Debility."

McINTOSH BROS

CORRUPTION ARRESTS

Winnipeg and Brockville Have Liberals Jailed.

Conservatives Swear Out Three Warrants on Charges of Bribery In Winnipeg and Prisoners Are Remanded—Picton and Smith's Falls Men Arrested on Appearance at Polls In Brockville.

Brockville Oct. 27.—Victor Tedford, who claims to be a Montreal sleuth on the staff of the Thiel Agency, was taken into custody yesterday morning on a charge of vagrancy for the purpose of holding him on accusations of electoral corruption, preferred by the local Conservatives.

He is out on bail furnished by Liberal workers. In the Police Court he changed his name to Quinn, and said he was sent here to keep an eye on election matters without regard to party. Conservatives have been shadowing him for over a week, and claim to have incriminating evidence connecting him with the Liberal machine.

P. Brady, now of Smith's Falls, and Don McLennan of Picton were challenged and sworn. Immediately afterwards they were locked up on charges of perjury, only to be quickly bailed out by party friends.

John A. Derbyshire was served with a summons for his appearance at the Police Court on the 31st inst. on a charge of bribery. He is a son of Senator Dan Derbyshire. He was the victim of a trap laid in a polling sub-division of the west ward. The Conservatives allege that money was used wholesale, reaching the purchasable element by letter through the postoffice.

Winnipeg, Oct. 27.—The provincial authorities yesterday morning arrested R. R. McLennan, a prominent Liberal, and former well-known hockey player, at breakfast in his home on bribery charges. Later he appeared before Judge Meyers, together with W. A. Carson and George McLean, who had been in the provincial jail over Sunday, and the three were released on bail.

W. A. Carson, ex-president of the Manitoba branch of the Caledonian Club, and a prominent Liberal, was arrested Sunday night by officials of the provincial police and taken to the provincial jail.

No charge has been preferred against Carson as far as can be learned.

E. J. Rochen, proprietor of the Clarendon Hotel, immediately hurried down to the jail and offered bail, but access to the prisoner was refused Rochon, the prisoner's friends and even his counsel.

LOSES BOTH LEGS.

C.P.R. Brakeman Shows Remarkable Pluck.

Toronto, Oct. 27.—John MacDermott, of 180 Dundas street, West Toronto, a brakeman on the C. P. R., was taken to the Western Hospital from the Union Station yesterday morning with both legs crushed so severely that his recovery is doubtful.

MacDermott left the city Sunday night on a freight train running east. At Myrtle he proceeded to uncouple some cars from the train, when he slipped and fell, both feet slipping between the wheels. The whole train of 23 cars passed over his legs, practically severing them between the knees and ankles.

Although both legs were practically severed from his body, the wounded man kept his presence of mind, and, fearing that another train would come along he managed to drag himself across the lines of track, and up an embankment fifty feet away.

His subsequent actions displayed extraordinary presence of mind. His legs were not quite severed, and to stem the blood McDermott reached down, and pulling off one of his boots, removed a lace from it, and bound up one of the stumps as tightly as he could. While he was working on the other, a searching party heard his groans, and found him.

He was picked up and carried to the station. In the morning he was brought in on the 7.30 train and taken to the hospital in an ambulance.

A Wild West Tragedy.

New Orleans, Oct. 27.—At Gulfport, Miss., a cowboy belonging to a wild-west show, rode into a crowd of negroes, beating them over the heads with a revolver. Policeman Varnadoe started in pursuit of Scely and the two men were lost to view in a cloud of dust. Later their bodies were found, each bearing a single bullet wound and each man's revolver containing one empty chamber.

Seized Indecent Postcards.

Montreal, Oct. 27.—The police have seized some 3,000 postal cards alleged to be indecent and the stereotype plates for printing the same in the printing establishment of David Allan, Notre Dame street. The proprietor was placed under arrest, but as he was a returning office in yesterday's election, he was released on bail.

Bryan Was Kissed Twice.

New York, Oct. 27.—When W. J. Bryan entered the Astor gallery at a reception of the Woman's Democratic Club at the Waldorf-Astoria yesterday, he was kissed by two women, in the presence of nearly seven hundred others, and narrowly escaped the embraces of a third. Mrs. Bryan was present. Mr. Bryan displayed some embarrassment.

Women Shorter and Broader.

London, Oct. 27.—(C.A.P.)—Robert McKay, Hamilton, Ont., has lost the case brought against him by S. J. Lyons, wholesale costumer, claiming payment for a number of costumes supplied. McKay said he ordered the American model and was supplied the English, which was no use in America, because the women were shorter and broader.

RESCUED JUST IN TIME

Crew and Passengers of Iroquois Had Narrow Escape.

Twenty-Five on Board Mail Boat Which Went on Reef in Lake Huron Were Taken Off by Tug Fraser —Iroquois Was In Flames and a Few Minutes After Rescue Steamer Burned to Water's Edge.

Toronto, Oct. 27.—Wrecked on a reef near Spanish Mills in the smoke and fog on the lake, and half an hour later burned to the water's edge, after twenty-five people had been safely taken ashore, the steamre Iroquois on Saturday closed its career as mail boat plying between Manitoulin Island and Cutler. Through the timely appearance of the tug B. M. Fraser, sixteen men, seven women and two children were rescued from dire peril, and some mail bags were saved. The wreck took fire a few minutes after all souls had been taken off, while the crew in a small boat floated alongside their craft burned. Everything but three bags of mail was destroyed, the passengers losing all their belongings.

The crash came while the ship was en route from Little Current to Cutler and passing East Rost, which is about twelve miles from Spanish River.

The boat was going at a high speed, and the fog and smoke from the bush fires made it impossible for the men at the wheel to tell just in which direction the reef was situated. When the steamer hit the rock she ran right up on it, settled astern, and fell over to port.

The crash was terrific, and consternation reigned aboard. The men did not lose their heads, however, and the crew, assisted by the male passengers, properly looked to the safety of the less able ones who were fearfully frightened. The women and children were carried to the starboard side of the boat, which was away out of the water, and were made as comfortable as possible. The rain was falling in torrents, but they were beyond the reach of the waves, which were rolling heavily on the wrecked ship.

The tug Fraser had passed the Iroquois only a very short time before. Fortunately the ill-fated vessel was able to give steam signals of distress and in less than half an hour's time the nose of the little tug poked its way through the mist to the wreck, much to the delight of the cuddled up human freight to whom the short wait had seemed like many hours.

When the passengers were all taken off by the tug the crew remained to save the mails and were successful.

The boat was in flames in a very few minutes after the wholesale rescue. From the time the passengers escaped from the Iroquois until the time she caught fire not more than fifteen minutes had elapsed, and soon after she had burned to the water's edge. The passengers lost everything they had with them and escaped with only what they had on.

Mother and Son Drown.

Picton, Oct. 27.—Mrs. Daniel Ensley and her son John of Picton were drowned Sunday night in East Lake. It is supposed their horse ran away and jumped over the bank into the lake.

Chicago Live Stock.

CHICAGO, Oct. 26.—Cattle—Receipts, 16,000; market steady; steers, $4.40 to $7.60; cows, $3 to $5; heifers, $2.50 to $4.25; bulls, $2.50 to $4.60; calves, $3 to $8; stockers and feeders, $2.50 to $4.65.

Hogs—Receipts, 24,000; market 15c to 25c higher; choice heavy shipping, $6 to $6.10; butchers, $5.95 to $6.10; light mixed, $5.35 to $5.60; choice light, $5.65 to $5.75; packers, $5.50 to $6; pigs, $3.50 to $4.75; bulk of sales, $5.50 to $6.

Cables Steady—Cattle and Hogs Are Higher at Chicago.

LONDON, Oct. 26.—London cables for cattle are steady, at 11c to 13½c per lb., dressed weight; refrigerator beef is quoted at 11c to 11½c per lb.

Toronto Junction Live Stock.

TORONTO JUNCTION, Oct. 26.—It being election day, receipts of live stock were light—23 carloads, composed of 436 cattle, 1 hog, 540 sheep and lambs, with 25 calves.

Exporters.

Export steers of good to choice quality were quoted at $4.50 to $5, the bulk, however, selling around $4.75 to $4.90. No export bulls on sale.

Prices for veal calves are not as good as they have been. Calves sold at $3.50 to $5.50 per cwt.

Sheep and Lambs.

Export ewes sold at $3 to $3.40; rams, $2.25 to $2.75; lambs, $4 to $4.40.

Hogs.

Gunns, Limited, quoted hogs 10c per cwt. lower; selects, $6.15, fed and watered at the market, and $5.90 to drovers, f.o.b. cars.

SUFFERED 5 YEARS WITH RHEUMATISM

Unable to Work for a Year—Cured by Gin Pills.

I have been troubled with Rheumatism for 5 years, one of which I have been unable to do any work whatever. Have spent much money on other remedies until I purchased from my druggist, L. T. Best, Kingston, one box Gin Pills on his recommendation. The result was beyond my expectations. The first box banished all traces of Rheumatism. I now keep Gin Pills in the house and take one occasionally. My sincere thanks are due you for your wonderful remedy which has done so much for me.

GEO. VANDEWATER, Kingston, Ont.

Friendly letters like the above reach us every day. No other remedy has ever had so many unsolicited testimonials in so short a time. There can be no question about it—Gin Pills do cure the Kidneys. 50c. a box—6 for $2.50. At dealers or direct. Sample box—so you can test them—sent free if you mention this paper.

Comox-Atlin—Dr. Quinan, William Stone, deferred.

Yale-Cariboo—Martin Burrell, Duncan Ross, deferred.

Montreal Live Stock.

MONTREAL, Oct. 26.—(Special.)—At the Montreal Stock Yards West End Market, the receipts of live stock for the week ending Oct. 24 were 2254 cattle, 730 sheep and lambs, 1770 hogs and 224 calves, while the supply for local consumption this morning consisted of 1900 cattle, 250 sheep and lambs, 650 hogs and 175 calves.

A weaker feeling developed in the market for cattle, and prices were fully ¼c per lb. lower than a week ago, owing to the fact that the offerings were much heavier than they have been at any previous market this season, and largely in excess of the requirements of the trade. The average quality of the stock was better than usual, which in many instances cost more money in the country than holders could realize here for them, and in consequence they would not sell; therefore a number will be carried over for another market day. The demand from local and outside buyers was good for the best beeves at the above reduction in values, and there was also some demand from exporters for small lots to complete shipments with, but the trade in common and inferior cattle was slow. Cable advices from Liverpool on Saturday reported trade slow but firm, at a further advance on prices for Canadians and ranchers. Choice cattle here sold at 4½c; good at 4c to 4¼c; fair at 3¾c to 3⅞c; common at 2¾c to 3c, and inferior at 1½c to 2¼c per lb. The supply of lambs was much smaller than a week ago, but, notwithstanding this fact, the tone of the market was weaker and prices scored a further decline of ¼c per lb. The demand was fairly good, and sales of choice lots were made at 4½c, and good at 4c to 4¼c per lb. There was no change in sheep, for which the demand from exporters was better, on account of the firmer advices from abroad, and sales of choice lots were made at 3½c, and culls at 3c to 3¼c per lb. A fair trade was done in calves, and, as the supply was small, prices ruled steady, with sales ranging at from $3 to $8 each, as to quality.

There were no new developments in the live hog situation, prices being steady, under a good demand, and small supplies, and sales of selected lots were made at $6.50, and rough stock at $6 to $6.25 per 100 lbs., weighed off cars.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 26.—Cattle—Receipts, 4500 head; active; good 10c higher; others steady to a shade easier; prime steers, $5.75 to $6.25; shipping, $5 to $5.65; butchers, $4.25 to $5.50; heifers, $3.50 to $5; cows, $2.75 to $4.25; bulls, $2.75 to $4.50; stockers and feeders, $2.40 to $4.50; stock heifers, $2.50 to $3; fresh cows and springers, good, active and strong; common steady, $22 to $35.

Hogs—Receipts, 22,100 head; fairly active and 15c to 25c lower; heavy, $5.75 to $5.85; mixed, $5.50 to $5.80; yorkers, $4.75 to $5.75; pigs, $4 to $4.50; roughs, $4.60 to $4.90; stags, $3.75 to $4.25; dairies and grassers, $5 to $5.65.

Sheep and Lambs—Receipts, 12,400 head; active; sheep steady; lambs 50c higher; lambs, $4 to $6.15; yearlings, $4 to $4.50; wethers, $4 to $4.25; ewes, $3.75 to $4; sheep, mixed, $1 to $4.25.

New York Live Stock.

NEW YORK, Oct. 26.—Beeves—Receipts, 1218; steers opened slow but firm to a shade higher, closed dull; bulls steady; thin cows steady; medium and good cows steady to a fraction lower; steers, $4 to $3.75; oxen and stags, $3.25 to $4.10; culls, $2.50 to $3.65; cows, $1.50 to $3.50; few extras, $4.10.

Calves—Receipts, 2674; veals steady to strong; grassers and fed calves steady; western slow to a shade lower; veals, $5 to $9.25; selected do., $5.20; culls, $4 to $5; grassers and fed calves, $3 to $4; western, $2.87½ to $5.25; dressed calves slow.

Sheep and Lambs—Receipts, 13,709; sheep steady to strong; lambs 25c higher; some early sales 35c higher; closed slow; sheep, $2.50 to $4; culls, $1.30 to $2; lambs, $4.50 to $6.12½; culls, $3 to $4.

Hogs—Receipts, 13,410; feeling rather easier; state hogs, $5.85.

PRINCE AS AERONAUT

enri of Prussia Runs Count Zeppelin's New Airship.

aiser Wilhelm's Son Sits at Steering Wheel of Count's Remodelled Dirigible Balloon and Makes It Execute Intricate Manoeuvres — Gets Ovation From Crowds on Streets of Constance.

Friedrickshafen, Oct. 28.—Prince enri of Prussia spent several hours the air yesterday as the guest of ount Zeppelin, who made an ascenion in his remodeled airship at a omparatively early hour. Not only id the prince thoroughly enjoy his xperience, but he sat at the steering wheel for many miles of the flight, uiding the movements of the craft nd compelling it to execute all kinds f complicated manoeuvres.

Prince Henri's satisfaction at the reat flight was unbounded, and he ave expression to it in a telegram hich he sent to the Emperor:

"Under Zeppelin's guidance I felt ust as safe as in my own flagship."

Capt. Mischke also was a passener when the start was made, in the irection of Uberlingen, to the northard of Constance. With Count Zepelin himself at the wheel, the airhip rose to an altitude of 600 feet, nd, moving rapidly against a strong ind, soon disappeared behind a ank of clouds. Soon messages bean to arrive from the [illegible] in the hine Valley announcing the passage f the airship, but about 2 o'clock n the afternoon a sonorous sound rm the sky indicated that the craft as returning. Soon it appeared above he thronged streets of Constance, here the prince gracefully saluted in cknowledgment of the ovation from he cheering crowds below.

After manoeuvring above Lake Conance in full view of the city for ome time the airship made its way ward the Swiss frontier, disappearg in the direction of Tyrol. It rerned to its moorings about sunset. apt. Mischke said that the prince as anxious to remain for a few more ights, but that he was uncertain hether his engagements would perit. The prince expressed himself s astonished to find that the lengthy ody of the airship showed only the lightest vibration. He regarded the ertical steering gear as simply perect.

TELEGRAPHIC BRIEFS.

Fire destroyed 100 cottages at Salisury Beach, Mass.

The father of Dr. A. E. Ross, Conervative candidate in Kingston, is eriously ill at Cobden.

Windsor's population has increased 02, to 15,819. The total value of real roperty is given as $8,086,325, an ncrease of $418,950.

As a precaution against any disurbance during the visit of the econd squadron of the American attleship fleet to Amoy, invitations Chinese for the reception to the eet have been limited in number 400.

$1,500 Fire In Whitby.

Whitby, Oct. 28.—Yesterday at oon the evaporator works of the Whitby Fruit and Vinegar Company ere partially destroyed by fire. The laze originated from some unknown use in the upper story. The buildg was a frame structure and the oof and walls were burned to the econd floor, all below that being ved. About 250 cases of evaporated pples were destroyed, also several mall machines. The loss will be bout $1,500, with no insurance.

British Emigration to Canada.

London, Oct. 23.—(C.A.P.)—The oard of Trade emigration returns for e year 1907, issued yesterday states that British and Irish emigrants to Canada in that year numbered 117,525. Of these 290 were rejected by the Canadian authorities for the following causes: As paupers or likely to become public charges, 153; for disease, 24; idiocy or insanity, 89; convicts, 4; returned with rejected emigrants, 9; immoral, 10; not stated, 1.

Twelve Killed on Canal.

Washington, Oct. 28.—Information reached the Isthmian Canal offices in this city yesterday concerning two explosions of dynamite which occurred on the canal on Oct. 15, whereby 12 men were killed and 18 were injured, and the second at Mendi, where five men were killed, 10 injured and one missing. All of those killed and injured at Culebra Cut were negroes, excepting W. J. Davis, an engineer, and George Goodley, a crane man.

Took Coal Oil Shampoo.

Kingston, Oct. 28.—Louise Meakins, an English immigrant, went suddenly insane here and had to be taken in charge by the authorities.

She soaked her head with coal oil and was just in the act of applying a match when her rash act was discovered by people in the house.

Recommend Glass Floors.

London, Oct. 28.—Representatives of the Manchester libraries committee, who recently visited a number of libraries in Canada, is a report just issued, recommended glass floors with ventilation openings in the centre, as at McGill University Library in Montreal.

Spanish Cardinal Dies.

Barcelona, Oct. 28.—Monsignor Salvador Casanas y Pages, Bishop of Barcelona and one of the Spanish cardinals, died in this city of apoplexy yesterday. He was born in 1834 and was created a cardinal in 1895.

Fog Hampers Boats; Barge Aground.

Kingston, Oct. 28.—Fog and smoke continues to block navigation. The steambarge Fred Mercer, coal laden, on her way from Oswego, is aground near Cape Vincent. A tug has been sent to pull her off.

Farmer Suicides.

Woodstock, Oct. 28.—James Barber, aged about 50, a well-known farmer of Blenheim, committed suicide by taking poison. He had just returned from a trip to the Northwest, and appeared to be suffering from melancholy, though the cause is unknown, as he was in good financial circumstances.

Ashanti Floated.

Montreal, Oct. 28.—The Elder-Dempster line steamship Ashanti, bound from Barbadoes to Montreal with sugar, which went aground at Madam's Reef, below Quebec, has been floated, and is now on her way to this port. She was evidently not much injured.

Floods Drown Eight Hundred.

Manila, Oct. 28.—Official despatches received from the sections visited by the typhoon and resultant floods that devasted Caygan Province recently, place the death roll at 800 and the damage of property at $1,000,000 gold.

To Cell For Deserting Baby.

Kingston, Oct. 23.—Elizabeth Rogers, brought here from Toronto, on a charge of deserting her month old infant, on Oct. 21, admitted her guilt and was sent to jail for a month.

W.C.T.U. Re-Elect Miss Stevens.

Denver, Col., Oct. 28.—Miss Lillian M. Stevens, of Portland, Me., yesterday was unanimously re-elected president of the National Woman's Christian Temperance Union.

It's a Girl.

Budapest, Oct. 28.—The Budapest newspapers announce that the Countess Szechenyi, formerly Miss Gladys Vanderbilt, has given birth to a daughter.

High Finance:

"I have a bookkeeper in my office who is evidently destined to be one of our future captains of finance, all right," a broker remarked, the other day. "He is a good clerk, but of late he has been late several times, and I had to call him down.

"'You have been late three times already this week,' I said. 'What is the trouble—oversleeping yourself?'

"'No, sir, and I am very sorry,' he answered. 'I will try not to let it happen again. It has been due to the fact that I have been walking to the office instead of riding.'

"'Think the exercise does you good?' I asked him.

"'No, sir; rather a matter of economy,' he explained. 'Even small sums count to me, you see, and I have already saved enough to have my shoes resoled.'"

Untold Wealth.

"What is 'untold wealth,' pa?"

"The property you keep out of the tax list."—Harper's Weekly.

Protests On The Horizon.

Corruption Entered Into Several Contests, Say Workers.

Renfrew Conservatives Have Evidence of Bribery—Glaring Cases of Irregularities in West Kent May Result in Protest—Twelve Dollars Was Price of Voter in Chatham—Drunken Men Boasted of Having Been Bought.

Toronto, Oct. 28.—There will be a protest in Centre Toronto if the statement given last evening are adhered to.

T. C. Robinette, the defeated Liberal candidate, said last night:

"The election in Centre Toronto will certainly be protested. Mr. Phalen will look after the legal proceedings. He has been making them all day. Already we have evidence of money being paid for votes."

Mr. Phalen said: "All that I care to say at present is that we have definite information that things were done in connection with Mr. Bristol's election which were irregular."

Vincenzo Cuchero, 8 Henry street, and Stanzio Zincera, 73 Elm street, were arraigned in the Police Court yesterday morning charged with personation in the Dominion election on Monday. The charges will, however, be changed during a week's remand to attempting to vote while not fully naturalized.

HON. WM. TEMPLEMAN,
Cabinet Minister Who Went Down In Victoria, B.C.

A Renfrew despatch says that Montreal detectives were in the riding for the last two weeks on behalf of McGarry, the Conservative candidate, and that they have evidence that bribery took place. It is not likely, however, that any action will be taken to protest owing to apparent hopelessness of a reversal in the general result.

The election of A. B. McCoig, Liberal in West Kent may be protested on the ground that there were glaring irregularities. Bribery, impersonations and other corrupt methods are charged. Conservative workers say that as high as $12 was paid for votes in Chatham and that many "doubtfuls" received large bribes to stay away from the polls. Dozens of drunken men, parading the streets, they declare, openly boasted that they had received high prices for their votes.

RECEPTION TO LAURIER.

Premier Is Given Torchlight Procession In Ottawa.

Ottawa, Oct. 23.—Although it was not made known until late in the afternoon that Sir Wilfrid Laurier was to reach the city last night it looked on the streets and at the station as though the whole city had turned out to do him honor, when the Prime Minister's car backed into the Union station shortly before midnight.

There were hundreds of broom torches, an abundance of pyrotechnics and three bands of music, one of them Scotch and another French-Canadian. The procession traveled, most of it afoot, from the Union depot for more than two miles to Sir Wilfrid's residence on Sandy Hill.

Sir Wilfrid had planned for himself and for Lady Laurier a quiet homecoming and had seemingly chosen a late train for that purpose.

Among those in the procession were Hon. L. P. Brodeur, Hon. Chas. Murphy, H. B. McGiverin, M.P., E. B. Devlin, M.P., and Senator Belcourt.

Scott as Senate Speaker.

Ottawa, Oct. 23.—It is not at all improbable that the Speakership of the Senate will be given, when Parliament assembles, to Hon. R. W. Scott, the late Secretary of State.

Mr. Scott has an experience in public affairs which is not equalled by any other man in the upper House. In spite of his advanced age, it is believed he would make an ideal presiding officer.

The Senate elects an English and a French-speaking Senator, turn about.

TWO DROWNED.

Empty Boat Found Near Toronto and Duck Hunters Are Missing.

Toronto, Oct. 28.—An empty duck punt, overturned, floating between the Humber and Sunnyside, in which "Jack" Devins of the Devins' Cafe at the Humber, and Edward Exton, a motorman on the York Radial line, set out in early Monday morning on a hunting expedition, picked up yesterday by a stone hooker schooner, two miles off the Humber, to all appearances tells a tragic tale of the men's experience.

Upon receiving word of the finding of the boat search parties renewed their efforts, hoping that by chance the unfortunate hunters might have found a haven, and, exhausted, were awaiting aid. Early this morning, however, no further results had rewarded their search.

Girl Falls Into Ditch.

Newmarket, Oct. 23.—Miss Stella Drecken, Miss Irene Moore and Miss Emma Strassler, living at Queensville, six miles north, went to the Metropolitan station to watch the crowded cars on Monday night. About 9.30 a car came in. Miss Stella Drecken slipped away from her friends behind the car, to the dark side of the station, and fell into a ditch, breaking her neck. When the car pulled out her two friends began a hurried search. They also fell into the ditch, but were unhurt. They called for help. The whole district around about was gone over by a search party, which finally discovered the girl in the ditch, quite dead.

London Press Views.

London, Oct. 28.—(C. A. P.)—The Chronicle says Laurier's personal popularity and eloquence and his own high character carried him to the front. The existing preference ought now to be retained, not as bargain demanding a quid pro quo, but "out of gratitude."

The News says the tariff craze is killed and Canada responded to its grand old man's appeal for a chance to "finish his work."

The Morning Post says that at the next Imperial Conference, Canada will be represented by a Government averse from taking any step towards closer union except along the path of co-operation in commerce.

Roosevelt Has Birthday.

Washington, Oct. 28.—President Roosevelt observed his 50th anniversary yesterday very simply. He attended to his executive duties as usual, and, except for the reception of a delegation from the Hungarian Republican Club of New York, in the east room of the White House, and the receipt of a large number of congratulatory messages, some floral tributes and gifts from the members of his family, the day was the same to him as any other day.

King Edward of Great Britain sent one of the first of the congratulatory messages received.

Beaten and Robbed.

New York, Oct. 23.—Accusing a man whom she had frequently met socially of having bound, gagged, beaten and robbed her of $800 in jewelry and $50 in cash, Mrs. Anna B. Plough, widow of a former president of the St. Paul & Duluth Railroad Co., caused the arrest of Elmer M. Swallow, a public weigher.

She said the robbery occurred in her home in Brooklyn last Friday night, only a few hours after she had been playing cards with Swallow.

Spittal Vindicated.

Ottawa, Oct. 28.—The council of the National Rifle Association of England have now endorsed the Spittal position of firing at the ranges, and have written expressing regrets that Lieut. Spittal should have been interfered with at a critical period in his Bisley shooting by the range officer. The letter of the secretary of the N.R.A. states that there is nothing laid down in the Bisley regulations against such a position as that assumed by Spittal.

Chinook Saves West.

Winnipeg, Man., Oct. 23.—All transcontinental trains are now running through Western Canada. The snow has disappeared and there is a warm wave through Saskatchewan and Alberta and grain continues to be rushed to the lakes in enormous quantities. Freight trains are being operated within sight of each other for the greater part of 600 miles.

Comfort and independence abide with those who can postpone their desires.—Success Magazine.

OCTOBER

28

Wednesday

Do good to thy friend to keep him, to thy enemy to gain him.
Benjamin Franklin.

THIS DAY IN HISTORY.

S. S. Simon and Jude.
Alfred the Great died, 901.
70 drowned at Atlantic City, 1906.
I. C. R. contract awarded, 1870.

TIMELY TOPICS.

Exit the campaign cigar.

• • •

It was a burning shame, anyhow.

• • •

If you go out after deer to-morrow please don't get shot. There will be another election some day, and we'll need you again.

• • •

As a guesser, Mr. J. Funnell, of Trenton, seems to trot in a pretty swift class. His guess, a month before the election, was that he would be beaten by 1500. It looks at present as though Mr. Funnell was beaten by about 1400. Next time we go to Trenton we'll hang a medal on Jesse. He's a better guesser than he is an orator.

• • •

A sentence of practically three months for a man found guilty of bigamy and perjury shows that His Honor Judge Deroche knows how to temper justice with mercy. And he wasn't christened Daniel, either.

• • •

The tag ladies couldn't get out last Monday because it rained. But they'll get you yet.

• • •

Can you imagine anything quite so foolish as a big boy of 17 and a peashooter?

• • •

Which reminds us that we'll have to put our front gates in cold storage. Hallowe'en is close at hand.

• • •

Is the ward system by-law going to carry? Well, most people appear to look at it this way- If it's hard to get ten aldermen to suit us, will it be any easier to get 21.

• • •

The report of Assessor Thomas, published in this issue, shows a gratifying state of affairs; and Mr. Thomas proves, by his comprehensive and business-like report, that he is the right man in the right place. While Belleville continues to grow steadily, in population, she also grows in assessment values, which is as it should be. As the prettiest little residential city in Ontario, with more advantages to the square acre than any others, Belleville is all right.

• • •

This fog is awful. It's as much as one can do, these mornings, to stand on the corner of Front and Bridge and see the cracks in the face of the town clock.

• • •

Four men in the mayoralty race this year? Nonsense! Gentlemen, that is supposed to be an election, not a Marathon contest for a German silver cup.

• • •

We're in favor of Ald. Panter, for 13 years a good alderman and all his life a good Conserva — hold on there, we mustn't say that. No party politics in Municipal elections. The fact is, we've been hammering away at politics so much lately that those things slip out unconsciously.

• • •

Montreal paper thinks that people who say "I told you so" in election matters should be boiled in oil. As we are not making any remarks of that kind ourselves we feel called on to heartily second the motion.

SOME ARE LEFT.

(Hamilton Herald, Ind.)

The good Globe rejoices in that the scandalmongers and men with tainted reputations have been beaten. It is true that Fowler, Pope, Lefurgey and Bennett have been beaten, but Foster, Sifton, Emmerson, Sir Fred Borden, Stratton and Turriff have been elected. It is hard to generalize from these results.

• • •

The News that the Canadian Pacific will transfer its Empress steamers to the Pacific and put faster boats on the Atlantic comes as a reminder at the eleventh hour of the great things the Laurier Government promised to do in establishing fast steamships on the Atlantic, but, as the Ottawa Citizen says, like many others things the government was going to do, the good intentions went the way of other paving material.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

McKeown's Drug Store

Tag Day Coming

The ladies of the W. C. A. will have a "tag day" soon, for the benefit of the hospital. The modus operandi is this: The ladies have small badges, or tags, which they hang on people who put up the small sum asked. There is, of course, no law to prevent a man carrying around as many tags as he can be covered with, before and behind. This original way of collecting funds has met with much success wherever tried. In Hamilton tag day had all the citizens talking a short time ago, and anyone who didn't have a tag was more or less "out of it."

No doubt the scheme will meet with success here.

OBITUARY.

MRS. DOROTHY YOTT.

Mrs. Dorothy Yott, wife of Capt. John Yott, of Ameliasburg township, died last night. Deceased was in her 76th year and had been in ill-health for some time. For many years Mrs. Yott had been a resident of Ameliasburg, where she was well-known and much respected. She was a member of the Anglican church. In addition to an aged husband, a family of four sons and three daughters survive. The sons are Rodney, of Cleveland; George, of Dawson City; John of Consecon, and Charles of New York City. The daughters are Mrs. T. B. Roblin, of Trenton; Mrs. Peter Baldwin, of Bancroft, and Mrs. John Arnold, of Saskatchewan.

Constable Resigns.

Wesley Gray, who was recently appointed a member of the local police force, has sent in his resignation to the Police Commissioners. Constable Gray was a good official, and it seems a pity that his services could not be retained to Belleville.

A Big Special.

At noon to-morrow the first "solid special" freight train ever despatched on the Grand Trunk will leave this city for Vancouver. It will consist of 24 cars, loaded with Corby's case and other goods, and valued at over $250,000. No car will be dropped before reaching Winnipeg. The train will be decorated by the Corby Company.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists

Pratt-Cousins.

A quiet wedding took place at 10.30 this morning in the parsonage of Bridge St. Methodist Church, when Miss Agnes E. Cousins, daughter of Mr. and Mrs. James Cousins, Burrham St., was wedded to Mr. William S. Pratt, of Toronto, a former Bellevillian. Rev. Dr. Bishop officiated. The bridesmaid was Miss Florence L. Cousins, a niece of the bride, while the groom was supported by his brother, Mr. H. Pratt. The bride wore a beautiful travelling suit of brown and hat to match. The wedding luncheon was served at the home of the bride's parents, after which the happy couple left for Toronto, where they will reside in future.

Law Openly Defied In East Hastings.

Deputy Returning Officer Alleged to have Given Ballots to Men Not on List--Mr. Northrup's Majority is 1431.

If what we hear is correct, and it is told on unimpeachable authority, some of the work done by Grit political workers on election day was on a par with the best—or worst—efforts of the "machine" in West Elgin, Brockville and other places.

It is alleged that, on Monday last, Mr. Pat. Murphy, deputy returning officer at Stoco, Hungerford township, gave four ballots to men whose names did not appear on the voters' list, one of them being his own brother, and this in defiance of the strenuous protests of the Conservative scrutineers, who rightfully contended that the men had no right to vote.

The returns from East Hastings are now all in, and show that Mr. Northrup secured the robust majority of 1431.

At one poll in the Town of Deseronto Mr. Northrup received 41 votes, Mr. McCargar 7, and 48 ballots were spoiled.

Hard to Explain

Strange Experience of Daughter Many Miles Away.

Brockville, Oct 27.—Suddenly awakened from a deep sleep with the almost certain assurance that she had heard her father call her name in agonizing tones and then in a few hours later to receive a telegram that he was dead, was the awful experience of Flora Catlin, the 20 year old daughter of Louis N. Catlin, of Cardinal. Miss Catlin was visiting many miles from Cardinal. Deceased was employed as nightwatchman on the Cleveland Canal work at Cardinal, and a fellow-workman entering the shanty before daylight found him alone in an unconscious condition. He lingered for a few hours, then passed away. Enquiry shows that the awakening of the daughter was coincident with the death agonies of her father.

Enjoyable Concert At Holloway Street.

An enjoyable concert was given last night in the Sunday School rooms of Holloway St. Church, which was attended by a good-sized audience. The programme consisted of selections by the orchestra; numbers by the church choir, one of which, "The Bells of St. Michael's Tower," was especially good; selections by the male quartette; duet by Miss Marion Vandervoort and Master Russell Woodley, and solos by Miss Leslie, Miss Foxan, Mr. Fred Sprague and Mr. McGregor. At the conclusion of the programme refreshments were served. The affair was most successful in every way.

SPORTS AND PASTIMES.

SPORTING NOTES.

It is now announced that Longboat will not start in the Hamilton Herald road race on Thanksgiving day. Why is not said. The Indian when in this city yesterday, is alleged to have told local sports that he was going to run a series of races with Shrubb. Longboat was on his way to Montreal, and stopped off here.

In connection with the above the following despatch is interesting:

New York, Oct. 27.—If the plans of certain promoters can successfully be brought to a head this city will be the scene during the coming winter of one of the greatest professional long-distance running races ever held. While the backers of the scheme deny that they are at work on the project, it is, nevertheless, known that if they are successful in their arrangements, Thomas Longboat, John Hayes, Alfred Shrubb, Siret, and possibly Dorando will meet at Madison Square Garden in a race of from ten to fifteen miles.

Joe Kelley may return to manage the Toronto Baseball Club. He was not a shining success in Beantown.

Tommy Burns and Johnson, the smoke, will clash on Dec. 1st, at Sydney, Australia. Burns says it will be his last appearance in the ring, and he will pull down $30,000, win or lose.

The Children's Aid

Those who are interested in the welfare of the children of our city and County are requested to attend the adjourned meeting of the above Society on Thursday, Oct. 29th, at 8 p.m. in the Council Chamber

All the world's a stage and all the actors try to monopolize the spot light.

Daily Intelligencer.

London—A Phenomenal City.

The steady growth of London is one of the interesting problems of the age. Excepting Greater New York no city equals the British metropolis in adding to itself.

With the expansion comes a relatively greater increase in its poverty. There is not work enough for all and hundreds of thousands tramp its streets in vain in search for it. To see the miserably clad homeless men and women in the streets by day and by night seeking a pittance from the passerby to keep life in emaciated bodies is to witness the depth of degradation which has overtaken a multitude exceeding 300,000. If we include children the figures reach 600,000. Subtract this surplusage and London can furnish subsistence to those left to her. That living will not compare in excellence with that provided for the workingmen of our great cities. How can it be expected where 1,300,000 toilers in the English capital receive only $5 a week where our Canadian wage earners are paid two and a half times as much! Save in house rent, the cost of living in London is just as high as in our great cities.

Why so many seek out London for an existence is inexplicable. The new comers for the most part are recruited from provincial England, Scotland, Ireland and Wales. There are, however, large numbers from the continent of Europe who find it easy to reach the big town, and where hope of finding work in very many cases is a failure. These soon join the army of helpless, hopeless, despairing men and women who drown their sorrow in drink and who find a grave in the potter's field.

But the attractive capital grows despite these forbidding shadows along its pathway. One hundred years ago it contained about 1,000,000. Towards the close of the century it had gotten up to 4,766,661. That was in 1881. A decade later it had moved up to 5,633,806; in 1901 it had advanced to 6,580,616. Now it is nearly 7,300,000, or 3,000,000 ahead of New York. At the present rate of growth 17 years from now this will be swelled up to 10,000,000. It is hardly possible that New York will catch up and pass its English rival a century from now. It was predicted this would happen within a quarter of a century not so long ago. Since then London has taken on greater strides than ever and 100,000 persons are yearly added to its population.

NO PAIN WITH RED BLOOD.

GET YOUR BLOOD RIGHT BY USING DR. A. W. CHASE'S NERVE FOOD AND RHEUMATIC PAINS WILL DISAPPEAR.

Rheumatism and diseases of the nerves are closely allied — both are due to thin, watery and impure blood.

Have you ever noticed that it is when you are tired, weak, worn out and exhausted that the rheumatism gives you trouble?

Well, if your blood were analyzed at such times it would be found lacking just such elements as are contained in Dr. A. W. Chase's Nerve Food. Because this great restorative actually forms rich, healthful blood it positively cures rheumatism.

Mrs. M. A. Clock, Meaford, Ont., writes: "I was so weak and helpless that I required help to move in bed. Indigestion and rheumatism caused great suffering. By the use of eleven boxes of Dr. Chase's Nerve Food I have been made strong and well."

Portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on every box. 50 cents at all dealers or Edmanson, Bates & Co., Toronto.

Dr. A.W. Chase's Nerve Food

A SQUARE PEG in a Round Hole
You may be alright, but if you are in the wrong position you are like a square peg in a round hole. You want a position where you fit.
This paper is read by intelligent business men, and a Want Ad. in our classified columns will reach them.

Weak Little Boys
may become fine strong men. Some of the strong men of to-day were sickly boys years ago. Many of them received
Scott's Emulsion
at their mother's knee. This had a power in it that changed them from weak, delicate boys into strong, robust boys.
It has the same power to-day. Boys and girls who are pale and weak get food and energy out of *Scott's Emulsion.* It makes children grow.

Sisters Meet After Fifty-four Years.

Our Tuftsville correspondent writes: Mr. and Mrs. S. Tufts are at present enjoying a visit from her sister, Mrs. Ann Kearl, of Utah, U.S. A. The sisters parted in England fifty-four years ago, each having long since thought the other dead. A few years ago Mrs. Kearl had an intimation that her sister was still alive, and after considerable trouble her effort was rewarded, and she located her missing sister in the person of Mrs. Tufts, of Tuftsville. Mrs. Kearl at once decided to see her sister once more and without the least hesitation started on her long but comfortable journey to Tuftsville. She is accompanied by her son, Alfred, of Salt Lake City. Messrs. Stephen and Benjamin Burton, of Belleville, are cousins of Mrs. Kearl.

AS OTHERS THINK.

EVERYONE IN BELLEVILLE HAS A RIGHT TO HIS OWN OPINION.

While everyone has a right to his own opinion, yet it is wise to always consider what others think and profit by it.

Nothing makes life so miserable, or interferes so widely with the usefulness of the average person, as indigestion, and it is well for us to give fair consideration to what others think about this remarkable affliction.

J. S. McKeown is positive that in Mi-o-na stomach tablets, he has an absolute cure for indigestion and the many disagreeable symptoms that follow this disease, such as distress after eating, coated tongue, bad taste in the mouth, dizziness, flatulence and nervousness.

They sell Mi-o-na with satisfaction guaranteed or money back. They believe in it and so may you.

SPRING BROOK.

C. H. Boardman was in town Tuesday, purchasing a horse and rig from D. F. Gillespie.

GARDENVILLE.

Mr. Marshall Young is engaged in completing his new home.

Mr. H. Gaylord and family of Trenton, are the guests of Mr. J. Symons.

Mr. C. Young and wife, of Chicago, are spending their holidays with his father, Mr. M. Young

A number of hunters from various points are enjoying the splendid duck hunting that Weller's Bay affords.

Mr. James Young is still very ill.

Mr. E. Young, of Chicago, is home on a visit.

Mr. Murton Stoneburg, of Hillier, is moving on the C. Adams estate.

Mr. T. Moynes spent last Saturday in Belleville.

Mrs. John Cross is suffering from blood poisoning on the hands.

FULLER.

Fire is raging in this neighborhood Men have been fighting the most of this week to keep it from buildings.

Mrs. Andrew Carson, of Crookston, spent a few days this week the guest of her sister, Miss Ida Burke, of this place.

Mr. John M. Geen and Mr. Charles Henry Geen of this place, attended Mr. Christopher Carleton's swamp bee Wednesday afternoon and report an excellent success. There were about thirty men present.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

The world's annual match bill is $185,000,000.

PILES CURED IN 6 TO 14 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

A COMMON ERROR.

Correct the Sentence Before You Read the Explanation.

"May I examine the children a little as to their knowledge of the language?" asked the visitor at the grammar school, an old gentleman with a benevolent aspect of countenance, but a shrewd twinkle in his eye.

"Certainly you may," smilingly answered the teacher.

The old gentleman stepped to the blackboard and wrote this sentence upon it:

"Pennsylvania abounds in anthracite coal."

"Now," he said, "I should like to have some child point out the mistake in that sentence."

One of the older girls came forward, picked up the chalk and rewrote the statement thus:

"Anthracite coal abounds in Pennsylvania."

"Not so bad," said the visitor, "but you haven't found it."

Another changed it as follows:

"Pennsylvania abound with anthracite coal."

"Still incorrect," was the comment.

"Anthracite coal is abundant in Pennsylvania," wrote a third.

"That will not do either," said Mr. Baxter.

One of the big boys tried his hand, with this result:

"Pennsylvania is abundantly supplied with anthracite coal."

"No; that is not so good."

Then a little boy stepped forward and with his finger erased the word "coal."

"That word isn't needed," he said. "'Anthracite' means hard coal."

"Right," said the visitor. "You have one bright pupil, anyhow, Miss Adair."
—Youth's Companion.

A GRIM CEREMONY.

An Emperor's Death Hastened by Rehearsing His Own Funeral.

Emperor Charles V. of Spain brought about his death by rehearsing his own funeral. For the last two years of his life, after resigning the scepter of Spain and the Netherlands to his son Philip in 1556, Charles retired to the monastery of Yuste, in Estremadura, and there lived a cloister life in close intercourse with the monks, devoting much time to religious exercises. During this period, prompted, it may be, by the example of Cardinal de la Marck, who for several years before his death, in 1528, had annually rehearsed his own obsequies, the emperor, in the summer of 1558, formed the resolution to celebrate his own funeral before he died.

Accordingly, on Aug. 30 of that year, the grim farce was carried out with the most elaborate ceremonial. The imperial domestics marched with black tapes in their hands, and the emperor, clad in sable weeds, himself followed, wearing his shroud. While the solemn mass for the dead was sung before the high altar in the cathedral Charles gave up his taper to the priest, typifying thereby his resignation of life, and was solemnly laid his coffin. The ceremony closed with sprinkling holy water on his body; then, all the attendants retiring, the doors were shut, and Charles rose from his narrow bed and withdrew to his private apartment.

The damping of the graveclothes induced a chill, which, aided no doubt by the mental depression caused by the grewsome ceremony, induced a fever which ended in his death three weeks later, on the 21st of September, 1558.

Wedding Rings.

Some one wanted to know without asking directly how long a certain woman had been married.

"About fifteen years," said a man who is a jeweler."

"How do you know?" asked his wife. "You don't know anything about her. You never met her until tonight."

"I can tell by the size of her wedding ring," said the man. "The width of wedding rings changes about every five years. Their size repeats itself at certain periods, but, figuring that way, the woman must have been married fourteen years ago, if not fifteen. She isn't old enough for forty-five; consequently she must belong in the fifteen year class."

Subsequent inquiry proved that the jeweler was right.

With the Minstrels.

"Mistah Walkah, wot am de diff'unce 'tween a trav'ler startin' to Tangier an' a plate o' veal hash?"

"I give that one up, George. What is the difference between a traveler starting for Tangier and a plate of veal hash?"

"De one am Morocco bound, an' de uddah am half calf."

"Ladies and gentlemen, the celebrated vocalist, Professor Rox de Bote, will now sing that beautiful and touching sentimental ballad, 'Take Your Face Away, Clarence; You Have Been Using a Safety Razor.'"

Keeping It Secret.

Village Postmistress—And what are those dashes? Hodge—Oh, he'll understand them right enough. Postmistress—Yes, but we can't send them by telegraph. Hodge—Well, they're the price o' the pigs. He'll understand. Postmistress—Yes, but you must put it in words or figures, else we can't send it. Hodge—Must I? Well, I'll whisper it to 'e, then.—Punch.

The Main Puzzle.

Manager—Have you a problem in your play? Author—One of the greatest. Manager—What is it? Author—How to get it produced.

No man became a villain all at once. —Juvenal.

HE WAS MISTAKEN.

The Young Army Officer Was Not a Coward After All.

At the battle of Santiago a surgeon going to the front came upon a young officer sitting beside the road trembling like a leaf and whiter than the dead men around him. At sight of the surgeon he began to talk.

"I'm a coward! I'm a coward. I'm a coward," he said. "I knew I'd run, and I did. O Lord, I wish you'd kill me! I'm disgraced forever. I just got scared. I knew I would. I was going along all right, not thinking of anything but getting at the dashed Spaniards, yelling at my men to come on and running ahead as fast as I could, when all of a sudden I stubbed my toe or something, and then I can't remember being scared, but I must have been, for I came galloping back here sick as a dog. Oh, I feel so awfully gone! I'm a blanked coward, and I wish I was dead. O Lord, why doesn't somebody shoot me? I've got such an awful goneness right here." And he put his hand to his stomach. The surgeon gave him a quick look and caught him as he plunged forward in a faint. Where the awful goneness was a Mauser bullet had found its billet. They carried the wounded man to the field hospital, and he chuckled all the way.

"Oh, my! Oh, my!" he said over and over. "I wasn't scared! I wasn't scared!" And then he would laugh delightedly. "I wasn't scared! I was hit! I was just hit! I ain't a coward after all!"

FICTION AND FACT.

Dreams of Authors That Have Been Turned Into Realities.

The delver among old books often finds, says the Berlin Umschau, prophecies made by writers which in their day were nothing but romance. This can be so easily observed by reading the works of Jules Verne, and there are also books in which airships, the telephone, photography and the motor wagon have been spoken of generations before these were accomplished facts. A novel entitled "Der Kluge Mann," published by Voss & Co., Leipsic, 1795, by an author named Cramer shows a Roentgen picture. The story tells of the Countess Abilinia, who gave her heart to the knight Gibello. The knightly lover was thoughtless enough, however, to kill his ladylove's father, and her affection turned to hatred, and she vowed to kill him. In a dream she saw the man who had fascinated her, and she stood ready to kill him, when suddenly his form changed, and before her stood a grinning skeleton, saying, "I have already been punished." This scene is illustrated in the old book, and the picture is not unlike a Roentgen photograph, but when it was published no one probably would have believed that science within a comparatively short time would make it possible to produce this picture, which the author's imagination invented.

Kaffirs' Love Letters.

The Basutos prove an interesting study. Not that they have any depths of character, but theirs is a very happy go lucky nation. These South Africans are romantic and sentimental, but it's all on the surface. Here are a few amusing paragraphs from Kaffirs' love letters:

"My sweet flowers, the ink and the paper are very glad, because they will see your dear, beautiful face, but the the pen and me are truly sad, for we are staying behind!"

"My love for you is burning like a paraffin stove!"

"Oh, you are so beautiful! You look like a peacock sitting under a willow tree!"

"My love for you is as true as a clock that keeps the time!"

A Little Case of Telepathy.

"There is nothing strange to me in the operation of one mind upon another," the telepathic woman said. "Once when my sister I am very fond of was operated on I went with her and sat in the anteroom a long way off from the operating room—that is, I walked up and down there, worried to death nearly about her, when all at once I threw myself into a big armchair and went sound asleep. They had just given her the ether then, so her mind was at rest and rested mine. I slept until she came out from under the influence."

Lucky Will.

Amateur Actor (who has just concluded a performance of the part of Hamlet, to a friend who has been one of the audience)—Well, old fellow, don't you feel inclined to congratulate some one?

Friend—Indeed, I do.

Amateur (with vainglorious mien)—May I so far infringe on modesty as to ask his name?

Friend—Certainly. His name is Shakespeare, and I heartily congratulate him on his unavoidable absence.

More Darkness.

"I'm all in the dark about how these bills are to be paid," said Mr. Hardup to his wife.

"Well, Henry," said she as she pulled out a colored one and laid it on the pile, "you will be if you don't pay that one, for it's the gas bill."

Unmusical.

Critique—Ah, Wagner and Strauss give us the music of the future! Caustique—Well, after hearing some of it one has a curiosity to know what the noise of the future is going to be like.

Save Money.

"Did your husband have any sort of luck at the races yesterday?"

"Splendid! The street car system broke down, and he didn't get there till they were all over."—Judge.

GREAT CLEARING SALE OF WALLPAPER
AT
Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10,000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale
C. B. Scantlebury's
Decorator and Designer

Remember we do painting, paper hanging, graining, decoroting at lower prices than you imagine, The style of our work is of a high order. Our prices are low.

Surgical Aids to the Afflicted
Authors & Cox
135 Church St. Toronto. Est. 1860.
Knee Supports
The illustration shows our improved Thomas Knee Support. In this, we replace the antiquated ring with a short thigh-lacer, thereby allowing wearer to take the weight with a greater degree of comfort. We realize that no one shape will suit all cases—so make all styles to order to suit each individual case.

Our achievements in Orthopedic work have won the admiration of the medical profession. Our Artificial Limbs, Appliances for the Spine, Hip Knee and Ankle Joints, Paralysis, Knock Knees, Club Feet etc., are equally reputable.
If afflicted, write us for help.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically, and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"The Golden Monitor," (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of Treatment FREE FOR HOME TREATMENT.

TIMELY TOPICS.

THE NAIL OF DESTINY.

New York Puck.

"For the want of a nail the shoe
was lost,
For the want of a shoe the horse
was lost,
For the want of the horse the rider
was lost,
For the want of the rider the battle
was lost,
For the want of the battle the kingdom was lost,—
And all for the want of a horseshoe nail!"

But this, my child, as you doubtless
know,
Was a number of hundred years ago.
Brought down to date, the facts
are these:
The general chooses to ride at ease
In a new six-cylinder automobile,
And he punctures the tire of his
off-front wheel;
So the battle goes hump—not for
the lack,
But because of a smallish carpet
tack.

• • •

How would it be to allow the defeated candidates to draw up the Thanksgiving odes this year—as a sort of consolation prize?

AND WE GOT IT.

(Ottawa Citizen, Monday)

Dearly beloved Liberal friends: It is all over except the Bump.

• • •

The London correspondent of the Montreal Star says the following telegram from Canada appeared in the Times of the 24th inst. If true it is an evidence of how the country is swindled. "It is a shameful story of falsified payrolls and books and statements of work done. Two sets of accounts are kept, one containing the truth for contractors, the other is shown to the Government engineers. Poor laborers are placed in a position little, if any, better than the peonage in the Southern United States. At one point the head contractor receives $1.50 for each cubic yard excavated, the sub-contractor gets $1.40. The Swedish navvies who are doing the work, receive only 32 cents, which is purely nominal, owing to the exorbitant amounts paid for dynamite and tools in the atrocious company store. A system is also in operation as the result of which men who have been working a year have not received a cent and have no prospect of getting any money for their labor."

THE MARKETS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

Tuesday Evening, Oct. 27.

MAILING LETTERS.

One Trick That Doesn't Go With the Postal Officials.

There are times when, for one reason or another, you may wish to post a letter to some one, indicating in the postmark on the envelope that it came from some other than your own home town. But accordingly, as you value the scheme which you are trying to work, don't make the mistake of trying to work the postmaster of that particular town into this particular scheme of posting the letter for you. In anything, from a harmless practical joke up to a penitentiary offense which you may be planning, the postal service will recognize in you only a scoundrelly intent to deceive and defraud, and it has schooled every postmaster in the country into that fixed belief upon which he must act.

For example, you have written your letter, which you desire to appear as having been mailed at a particular postoffice somewhere in the United States. You seal it, stamp the envelope and address it to the person. This letter you inclose in a larger envelope to the postmaster of that particular town with the written request, "Please post the inclosed letter at your office." The postmaster will do this. Oh, yes.

The postmaster, taking up the directed, stamped and sealed envelope, writes across a corner of the envelope a full explanation of the matter, reciting that it was received from Mr. So-and-so at a certain place, asking that the postmaster drop it into the mail as originating at that particular office over which he has jurisdiction.

Nice little situation, isn't it?

THE DOLLAR MARK.

A Theory as to the Origin of This Monetary Symbol.

The origin of the dollar mark is one of the curios of our financial history.

In the early days of the nation there was utter confusion in the circulating medium. Several of the colonies had authorized coins of different denominations, and, besides these, there were English pence, shillings, crowns and half crowns; French coins brought from Europe and Canada; Spanish coins of half a dozen denominations, especially reals and doubloons; Mexican coins; in Pennsylvania Dutch and German pieces, and along the coast Portuguese and even Italian money was often seen, brought by seamen.

The United States mint was established in 1791, and the United States coinage became, of course, the legal tender. The mixed coinage, however, was not at once displaced, but continued in local use, so that it became necessary for merchants in keeping accounts to designate that a bill was to be paid in United States currency, or, if in miscellaneous coins, these were received at a discount. So before the sum total of the bills the merchant was accustomed to write the letters "U. S.," signifying United States money. In the hurry of writing the "S" was often written over the "U;" then the connecting line at the bottom easily dropped off, and to the present day most people unconsciously commemorate the original practice by making the two down strokes first, then adding the "S."

State Officials Paid In Pelts.

Probably few people today know that the original name of the state of Tennessee was Franklin or that in 1788 the salaries of the officers of this commonwealth were paid in pelts, but the following is a correct copy of the law:

Be it enacted by the general assembly of the state of Franklin, and it is hereby enacted by authority of the same, that from and after the first day of January, 1788, the salaries of this commonwealth be as follows—to wit:

His excellency the governor, per annum, 100 deerskins.

His honor the chief justice, 500 deerskins.

The secretary to his excellency the governor, 500 raccoon skins.

County clerk, 300 beaver skins.

Clerk of the house of commons, 200 raccoon skins.

Members of the assembly, per diem, 3 raccoon skins.

Justice's fee for serving a warrant, 1 minkskin.

The Echo.

Small boy David was from the city. While visiting in the country he was one evening driving along the river bank, when an echo was heard, the voices in the valley below which produced it being scarcely distinguishable. After listening some time and being told that the sound he heard was an echo, he turned to his mother and said:

"Mamma, what is an echo?"

His mother tried to explain at some length, though she felt that her explanation was not being followed. Suddenly David broke in.

"Oh, I know all about it!" he exclaimed. "An echo is the shadow of a voice."

All or None.

His Daughter's Beau—I—er—er—want to ask you, sir, for your—er—er—daughter's hand, sir. Her Father—I'm not disposing of her in sections, but I'm willing to listen to any proposition involving all of her, sir.

The Trouble.

Anxious Mother—How is it that you have so much trouble with your housekeeping? You told me your wife could cook. Adult Son—She can.

"Then what is the matter?"

"She won't."—London Telegraph.

No Chance to Talk.

Mrs. Crimsonbeak—John, you yawned twice while we were calling on that lady. Mr. Crimsonbeak—Well, dear, you didn't expect me to keep my mouth closed all the time, did you?—Yonkers Statesman.

STOP SWEARING.

It Is Nothing But a Habit and Is Very Easily Cured.

"Don't swear or you'll catch no fish," was a remark made the other day by a venerable inhabitant to a much younger man who was emphasizing his talk by the use of some rather strong expletives. No one was engaged in fishing at the time, nor was a piscatorial excursion being thought of. The suggestion was made in the back room of a cigar store, where three or four men were talking over current events, and the utterance made by the aged citizen was intended, as he afterwards said, to show his abhorrence of the nonsensical use of "cuss words." Then he felt called upon to deliver a little homily to his companions, all of whom, like himself, are well-known residents of Washington.

"Men incur habits," he said, "that are really useless, and, in my opinion, swearing is one of the worst of them. One can see why, in moments of passion or great excitement, a person may indulge in swearing, but that some men, and I know several of them, should break out with a series of oaths in ordinary everyday conversation strikes me as beyond reason.

"I presume we have all met men who regard themselves and are so considered as gentlemen who rarely express a sentence without swearing. More than that, they seem rather proud of their proficiency in this direction. I tell you that swearing is a habit that a little determination will easily overcome."

The sermon, coming from the lips of a man whose hair and long beard were as white as snow, had a good effect. The cigar merchant was so impressed that he declared he would hang up a sign in his back room which should read, "Gentlemen Are Requested Not to Swear on These Premises." Whether they allowed themselves the privilege of "cussing" elsewhere, he said, was no affair of his.

Arose to the Occasion.

A successful schoolteacher married a wealthy widower. The man had lived alone with his servants since the death of his first wife. On the morning after the bride's arrival in her new home the cook appeared for orders. Now, the little woman was far more familiar with the classics than with roasts and stews, and she was not a little dismayed when Mary innocently put the question:

"An' how will ye have the beef cooked, mum?"

For the merest instant she hesitated. Not for a fortune would she have the old servant suspect her absolute ignorance of cookery. But her years in the schoolroom had not been in vain. Calmly and sweetly she answered:

"You may cook it your way to-day, Mary, and then another time you can try my way."

And the cook went downstairs with a high opinion of her new mistress.

Foiled.

"I have come, sir, to ask you for your daughter's hand," said the young man boldly.

"And suppose I refuse it?" questioned the old man.

"Then, sir," answered the applicant, "we will abide by your decision."

At this the old gentleman started violently.

"You will not elope?" he asked.

"No, sir; we will not. We know too well what is due to us in an affair of this description. Custom puts certain obligations upon you in the way of providing a proper wedding, and if you think you can escape by giving an imitation of the obstinate father act you are mistaken."

"Foiled!" sighed the old man as he thought of the cost of the wedding. "Take her, my boy, and be happy!"

Ready With the Answer.

Miss Baxter, feeling the effects of a torrid afternoon in June, was attempting to arouse the interest of her languid class by giving, as she supposed, an interesting talk on the obelisk. After speaking for half an hour she found that her efforts were wasted. Feeling utterly provoked, she cried: "Every word that I have said you have let in at one ear and out of the other. You"—pointing to a girl whom she noticed had been particularly inattentive throughout the entire lesson—"tell me, what is an obelisk?"

The pupil, grasping the teacher's last words, rose and promptly answered:

"An obelisk is something that goes in one ear and out the other."

Glass-Making Marvels.

A machine has been introduced recently which can be built to produce either the narrow or wide-necked variety of bottles at an extraordinary rate. Its capacity is estimated at twelve bottles per minute, and one man can look after three machines at the same time. The speed of the machines is not sufficient for them to run hot; they can therefore be operated for twenty-four hours every day, which makes the output about 360 gross of bottles per day at a labor expense of three men on eight-hour turns or two on twelve.

U. S. First Mail Service.

The first record contained in U. S colonial history of any kind of mail service dates from 1677, when the court at Boston appointed Mr. John Hayward to "take in and convey" letters according to their direction. It is impossible to say what the charges were for this first mail service, but in 1792 the rates were as follows: One letter, less than 80 miles, 6 cents; between 80 and 100 miles, 10 cents; between 200 and 250 miles, 17 cents; more than 400 miles, 25 cents.

A Sense of Humor.

The Ant—What are all those flies on the window sill laughing at?

The Moth Miller—The cat has just put her paw on the fly paper.

New Fall Wallpapers

Behold our Wall Papers. They are rich in color and rare in design. No prettier patterns were ever offered to the public of Belleville. A wall well papered is a thing of beauty. It gives coziness and finish to an apartment which cannot be obtained in any other way. The finest furniture will lose its attractiveness if the paper is poor. Come in and look at our new designs shown.

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT. 1907. BY McCLURE. PHILLIPS & CO.

"Next his interest turned to the natural phenomena of high energy. He studied lightning in an open steel network laboratory, with few results save a succession of rheumatic attacks and an improved electric interrupter, since adopted by one of the great telegraph companies. The former obliged him to stop these experiments, and the invention he considered trivial. Probably the great problem of getting at the secret of energy led him into his attempts to study the mysterious electrical waves radiated by lightning flashes. At any rate, he was soon as deep into the subject of electrical science as his countryman, Hertz, had ever been. He used to tell me that he often wondered why he hadn't taken up this line before—the world of energy he now set out to explore, waves in that tremendous range between those we hear and those we see. It was natural that he should then come to the most prominent radio-active elements, uranium, thorium and radium. But, though his knowledge surpassed that of the much exploited authorities, he was never satisfied with any of his results.

"'Pitchblende, no!' he would exclaim. 'It has not the great power. The mines are not deep enough yet!'

"Then suddenly the great idea that was to bring him success and cost him his life came to him. The bowels of the earth must hold the secret. He took up volcanoes. Does all this sound foolish? It was not if you knew the man. He was a mighty enthusiast, a born martyr. Not cold blooded, like the rest of us. The fire was in his veins. A light, please. Thank you.

"We chased volcanoes. There was a theory under it all. He believed that volcanic emanations are caused by a mighty and uncomprehended energy, something that achieves results ascribable neither to explosions nor heat, some eternal, inner source. Radium, if you choose, only he didn't call it that. Radium, as known to our modern scientists, he regarded as the harmless plaything of people with time hanging heavy on their hands. He wasn't after force in pin point quantities—he wanted results. Yet I believe that, after all, what he sought was a sort of higher power of radium. The phenomena were related. And he had some of that concentrated essence of pitchblende in the chest when we started. Oh, not much, say about $20,000 worth. Maybe thirty. For use? No. Rather for comparison, I judge.

"Yes, we chased volcanoes. I became used to camping between sample hells of all known varieties. I got so that the fumes of a sulphur match seemed like a draft of pure, fresh air. Wherever any of the earth's pimples showed signs of coming to a head there were we, taking part in the trouble. By and by the doctor got so thoroughly poisoned that he had to lay off. Back to Philadelphia we came. There an aged seafaring person, temporarily stranded, mulcted the professor of a dollar—an undertaking that required no [illegible]—and in the course of his recital [illegible] upon yonder little cesspool of infernal iniquities. An uncharted volcanic island—one that he could have all for his own. You may guess whether Dr. Schermerhorn was interested.

"'That iss for which we haf so long in vain sought, Percy,' he said to me in his quaint, link chain style of speech. 'A leedle prifate volcano laboratory to ourselves to have. Totally unknown, undescribed, not on the chart to be found. Tomorrow we start. I make a list of the things to get.'

"He began his list, as I remember, with three dozen undershirts, a gallon of pennyroyal for insect bites, a box of assorted fishhooks, thirty pounds of tea and a case of carpet tacks. When I hadn't anything else to worry over, I used to lie awake at night and speculate on the purpose of those carpet tacks. He had something in mind. If there was anything on which he prided himself, it was his practical bent. But the [illegible] never got any further. It ceased [illegible] of one page in the ledger, as you may have noticed. I outfitted by telegraph on the way across the continent.

"The doctor didn't ask me whether I'd go. He took it for granted. That's probably why I didn't back out. Nor did I tell him that the three life insurance companies which had foolishly and trustingly accepted me as a risk merely on the strength of a good constitution were making frantic efforts to compromise on the policies. They felt hurt, those companies. My healthy condition had ceased to appeal to them. What's a good constitution between earthquakes? No, there was no use telling the doctor. It would only have worried him. Besides, I didn't believe that the island was there. I thought it was a myth of that stranded ancient mariner's imagination. When it rose to sight at the proper spot, none were more astounded than the bad risk who now address[illegible].

"Yet I must say for the island that it came handsomely up to specifications. Down where you were, Slade, you didn't get a real insight into its disposition. But in back of us there was any kind of action for your money—geysers, hell spouts, fuming fissures, cunning little craterlets with half portions of molten lava ready to serve hot, more gases than you could create in all the world's chemical laboratories—in fact, everything to make the place a paradise for Old Nick and Dr. Schermerhorn. He brought along in his precious chest besides the radium some sort of raw material; also as near as I could make out a sort of cage or guardianship scheme for his concentrated essence of cussedness when he should get it out of the volcano.

"In the first seven months he puttered around the little fumers, with an occasional excursion up to the main crater. It was my duty to follow on and drag him away when he fell unconscious. Sometimes I would try to get him before he was quite gone. Then he would become indignant and fight me. Perhaps that helped to lose me his confidence. More and more he withdrew into himself. There were days when he spoke no word to me. It was lonely. Do you know why I used to visit you at the beach, Slade? I suppose you thought I was keeping watch on you. It wasn't that; it was loneliness. In a way it hurt me, too, for one couldn't help but be fond of the old boy, and at times it seemed as if he weren't quite himself. Pardon me if I may trouble you for the matches. Thanks.

"Matters went very wrong at times. The doctor fumed like his little craters, growled out long winded, exhaustive German imprecations; wouldn't even eat. Then, again, the demon of work would drive him with thong and spur. He would rush to his craters, to his laboratories, to his ledger, for the purpose of entering unintelligible commentaries. He had some peculiar contrivance, like a misshapen retort, with which he collected gases from the craterlets. Whenever I'd hear one of those smash I knew it was a bad day. Meantime the volcano also became—well, what you might call temperamental.

"It got to be a year and a quarter—a year and a half. I wondered whether we should ever get away. My tobacco was running short, and the bearing of the men was becoming fidgety. My visits to the beach became quite interesting—to me. One day the doctor came running out of his laboratory with so bright a face that I ventured to ask him about departure.

"'Not so long now, Percy,' he said in his old, kind manner. 'Not so long. The first real success. It iss made. We have yet under entire control to bring it, but it iss made.'

"'And about time, sir,' said I. 'If we don't do something soon we may have trouble with the men.'

"'So?' said he in surprise. 'But they could do nothing—nothing.' He wagged his great head confidently. 'We are armed.'

"'Oh, yes, armed. So are they.'

"'We are armed,' he repeated obstinately. 'Such as no man was ever armed are we armed.'

"He checked himself abruptly and walked away. Well, I've since wondered what would have happened had the men attacked us. It would have been worth seeing and—and surprising. Yes; I'm quite certain it would have been surprising. Perhaps, too, I might have learned more of the great secret, and yet I don't know. It's all dark—a hint here, theory, mere glints of light. Where did I put— Ah, thank you!"

CHAPTER XXXIV.

FOR some moments Darrow sat, gazing fixedly at the table before him. His cigarette tip glowed and failed. Some one suggested drinks. The captain asked Darrow what he would have, but the question went unnoted.

"How I passed the next six months I could hardly tell you," he began again, quite abruptly. "At times I was bored—fearfully bored. Yet the element of mystery, of uncertainty, of underlying peril, gave a certain zest to the affair. In the periods of dullness I found some amusement in visiting the lower camp and baiting the nigger. Slade will have told you about him. He possessed quite a fund of voodooism. He possessed more before I got through with him. Yes; if he had lived to return to his country I fancy he would have added considerably to Afro-American witchlore. You remember the vampire bats, Slade? And the devil fires? Naturally I didn't mention to you that the devil fire business wasn't altogether as clear to me as I pretended. It wasn't, though. But at the time it served very well as an amusement. All the while I realized that my self entertainment was not without its element of danger too. I remember glances not altogether friendly, but always a little doubtful, a little awed. Even Handy Solomon, practical as he was, had a scruple or two of superstition in his makeup on which one might work. Only Eagen—Slade, I mean—was beyond me there. You puzzled me not a little in those days, Slade. Well—

"Did I say that I was sometimes annoyed by the doctor's attitude? Yes. It seemed that he might have given me a little more of his confidence, but one can't judge such a man as he was. Among the ordinary affairs of life he had relied on me for every detail. Now he was independent of me. Independent! I doubt if he remembered my existence at times. Even in his blackest moods of depression he was sufficient unto himself. It was strange. How he did rage the day the chemicals from Washington went wrong! I was washing my shirt in the hot water spring when he came bolting out of the laboratory and keeled me over. I came out pretty indignant. Apologize? Not at all. He just sputtered. His nearest approach to coherence seemed to indicate a desire that I should go back to Washington at once and destroy a perfectly reputable firm of chemists. Finally he calmed down and took it out in entering it in his daily record. He was quite proud of that daily record and remembered to write in it on an average of once a week.

"Then the chest went wrong. Whether it had rusted a bit or whether the chemicals had got in their work on the hinges I don't know, but one day the professor, of his own initiative, recognized my existence by lugging his box out in the open and asking me to fix it. Previously he had emptied it. It was rather a complicated thing, with an inner compartment over which was a hollow cover, opening along one rim. That I conjectured was designed to hold some chemical compound or salt. There were many minor openings, too, each guarded by a similar hollow door. My business was with the heavy top cover.

"'It should shut and open softly, gently,' explained the professor. 'So. Not with-a-grating-sound-to be-accompanied,' he added, with his curious effect of linked phraseology.

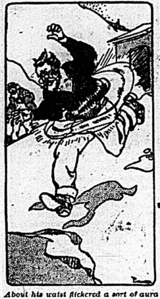
"Half a day's work fixed it. The lid would stand open of itself until tipped at a considerable angle, when it would fall and lock. Only on the outer shell was there a lock. That one was a good bit of craftsmanship.

"'So, Percy, my boy,' said the doctor kindly, 'that will with sufficient safety guard our treasure. When we obtain it, Percy. When it entirely finished and completed shall be.'

"'And when will that be?' I asked.

"'God knows,' he said cheerfully. 'It progresses.'

"Whenever I went strolling at night he would produce his curious lights. Sometimes they were fairly startling. One fact I made out by accident looking down from a high place. They did not project from the laboratory. He always worked in the open when the light was to be produced. Once the experiment took a serious turn. The lights had flickered and gone. Dr. Schermerhorn had returned to his laboratory. I came up the arroyo as he flung the door open and rushed out. He was a grotesque figure, clad in an undershirt and a worn pair of trousers fastened with an old bit of tarred rope in lieu of his suspenders, which I had been repairing. About his waist flickered a sort of aura of radiance which was extinguished as he flung himself headforemost into the cold spring. I hauled him out. He seemed dazed. To my questions he replied only by mumblings, the burden of which was:



About his waist flickered a sort of aura of radiance.

"'I do not understand. It is a not to be comprehended accident.' It appears that he didn't quite know why he had taken to the water, or if he did he didn't want to tell.

"Next day he was as good as new, just as silent as before, but it was a smiling, satisfied silence. So it went for weeks, for months, with the accesses of depression and anger always rarer. Then came an afternoon when returning from a stalk after sheep I heard strange and shocking noises from the laboratory. Strict as was the embargo which kept me outside the door, I burst in, only to be seized in a suffocating grip. Of a sudden I realized that I was being embraced. The doctor flourished a hand above my head and jigged with ponderous steps. The dismal noises continued to emanate from his mouth. He was singing. I wish I could give you a notion of the amazement, the paralyzing wonder with which— No, you did not know Dr. Schermerhorn. You would not understand.

"We polkaed into the open. There he cast me loose. He stopped singing and burst into a rhapsody of disjointed words. Mostly German, it was a wondrous jumble of the scientific and poetic. 'Eureka' occurred at intervals. Then he would leap in the air. It was weird; it was distressing. Crazy? Oh, quite! For the time, you understand. If any of us should suddenly become the most potent individual in the world, wouldn't he be apt to lose balance temporarily? One must make allowances. There was excuse for the doctor. He had reached the goal.

"'Percy, you shall be rewarded,' he said. 'You haf like a trump card stuck by me. You shall haf riches, gold, what you will. You are young; your blood runs red. With such riches nothing is beyond you. You could the ancient tombs of Egypt explore. It is open to you such collections as have never been gathered to make. What shall it be—scarabs, missals, prehistoric implements? Amuse yourself, mein kind. We shall be able the bills with usurious interest to pay. What will you haf?'

"I said I'd like a vacation if convenient.

"'Presently,' he replied. 'There yet remains the guardianship to be perfected. Then to a world astonished and respectful we return. Tonight we celebrate. I play you a rubber of pinochle.'

"We played. With the greatest secret of science resting at our elbows we played. The doctor won. My mind was not strictly on the game. In the morning the doctor sang once more. I shall never hear its like again. Was it a week or a month after that? I cannot remember. I fancy I was excited. Then, too, there was something in the atmosphere about the laboratory. I don't know; imagination possibly. Once we had a little manifestation—the night that the nigger and Slade were terrified by the rock fires. Days of excitement and pleasant work, with the little volcano grumbling more sulkily all the time. I have spent worse days.

"Such indifference as the doctor displayed toward the volcano I have never known. If I ventured to warn him he would assure me that there was no cause for alarm. I think he regarded that little hell's kitchen as merely a feed spout for his vast enterprise. He felt a sort of affection toward it. He was tolerant of its petty fits of temper. That he completed his work before the destruction came was sheer luck—nothing else. The day before the outburst he came to me with a tiny vial of complicated design.

"'Percy, I will at a reasonable price sell this to you,' he said.

"'How much?' I inquired, responding to his playfulness.

"'A bargain!' he cried gaily. 'Five millions dollars! No! Shall I upon a needy friend hard press? Never! One million! One little million dollars!'

"'I haven't that amount with me,' I began.

"'Of no account,' he declared airily. 'Soon we shall haf many more times as that. Gif me your C. O. D.'

"'My I O U?' I inquired.

"'It makes no matter. See! I will gif it to you gratis.'

"He handed me the metal contrivance. It was closed.

"'Inside iss a little, such a very little. Not yet iss it arranged the motive power to give forth. One more change to be made that shall require. But the other phenomena are all in this little half grain comprised. Later I shall tell you more. Take it. It iss without price.' He laid his hand on my shoulder. 'Like the love of friends,' he said gently."

Feeling in his upper waistcoat pocket, Darrow brought out a vial, so tiny that it rolled in the palm of his hand. He contemplated it, lost in thought.

"Radium?" queried Barnett, with the keen interest of the scientist.

"God knows what it is!" said Darrow, rousing himself. "Not the perfected product. The doctor said that when he gave it to me. If I could remember one-tenth of what he told me that night! It is like a disordered dream, a phantasmagoria of monstrous powers, lit up with an intolerable, almost an infernal radiance. This much I did gather—that Dr. Schermerhorn had achieved what the greatest minds before him had barely outlined. Yes, and more. Becquerel, the Curies, Rutherford—they were playing with the letters of the Greek alphabet, Alphas, Gammas and Rhos, while the simple, gentle old boy that I served had read the secret. From the molten eruptions of the racked earth he had taken gases and potencies that are nameless. By what methods of combination and refining I do not know, he produced something that was to be the final word of power. Control—control—that was all that lacked.

"Reduced to its simplest terms it meant this: The doctor had something as much greater than radium as radium is greater than the pitchblende of which a thousand tons are melted down to the one ounce of extract. And the incredible energies of this he proposed to divide into departments of activity. One manifestation should be light—a light that would illuminate the world. Another was to make motive power so cheap that the work of the world could be done in an hour out of the day. Some idea he had of healing properties. Yes. He was to cure mankind; or kill, kill as no man had ever killed, did he choose. The armies and navies of the powers would be at his mercy. Magnetism was to be his slave. Aerial navigation, transmutation of metals, the screening of gravity—does this sound like delirium? Sometimes I think it was.

"That night he turned over to me the key of the large chest and his ledger. The latter he bade me read. It was a complete jumble. You have seen it. We were up a good part of the night with our pet volcano. It was suffering from internal disturbances. 'So,' the doctor would say indulgently, when a particularly active rock came bounding down our way. 'Little play-antics-to-exhibit now that the work iss finished.'

FIRST CHEAP WATCH

The Story of the Famous Old Long Winding Waterbury.

SCHEME OF AN OLD COBBLER

How the Connecticut Shoemaker's Idea Was Taken Up and Worked Out—A Timepiece That Came to Be Known All Over the World.

In a small country town in Connecticut lived a cobbler. He was a poor man and a peculiar one. The boys called him a "gene," and some thought him crazy. But he kept on in the even tenor of his way, living his own life and thinking his own thoughts. One of these thoughts was that he could make a watch that would have only three wheels.

A watchmaker out of a job heard of the cobbler and called at his little shop. This was the beginning of the famous Waterbury watch, which was the first cheap watch to be manufactured. It is now a thing of the past. But its cheap price and its remarkably long "wind" (it was a stem winder) were known around the world.

The Waterbury was named for the town where it was made. It had more than the three wheels that the cobbler had planned, but the little old shoemaker's idea was the original germ from which was evolved the successful cheap watch.

Having got the idea, the purchaser of the cobbler's rights found that the first difficulty in his path was lack of money. He looked about for a man with money enough, nerve enough and imagination enough to lead him to render the financial aid without which no first step could be taken. He was found, because it was a Yankee with an indomitable will that was looking for him.

"How much money will it take and how long a time do you want before you can begin to make your watches in sufficient quantities to make the thing a success," he inquired.

"I will be frank with you," replied the inventor. "It will require $25,000, and I shall need eight months for preparation."

"Go ahead," said the daring capitalist.

He went ahead. He met unexpected difficulties and had spent $250,000 and used up twenty-eight months before he turned out a single watch. But the capitalist never faltered. Then the factory, for which every piece of machinery had to be invented and specially made, turned out its first thousand watches.

Not one of them would go! Among other things, it was found that the sheets of brass out of which were stamped the wheels of the watch had a grain somewhat like wood. The wheels cut out round would not stay round.

This difficulty being remedied, a second thousand watches were made. A large number of these went, but the percentage of "stoppers" (watches that refused to go) was still too large.

New study, new experiments, however, finally perfected the cheap little timekeepers to the point of perfection that only about 10 per cent were stoppers. The good watches were tested in six positions—lying on the face, on the back and in four positions on the edge. The maker of each part stamped his mark on the part he made, so that if fault was found in that part he must make it right.

Then came the question of selling the watches, and over $800,000 was spent in the years of its vogue in advertising the Waterbury watch. Some of the methods used were interesting.

A negro minstrel troupe were paid to open their show by saying, "We have come from Waterbury, the land of eternal spring," referring to the long time required to wind the Waterbury watch.

One day the owner of one of these timepieces was winding it on the train. Across the aisle a traveler noted that his neighbor was winding his watch. It caused no thought until a second look and then a third showed the winding still under way. Then the astonished man spoke. "Excuse me, sir, but are you winding a watch?"

"Yes," said the winding owner, "and I'm tired of it. You wind awhile, will you?" This led to explanations and resulted in the ordering by the stranger, who had never before seen a Waterbury, of 50,000 watches for the use of his business house in its China trade.

The great business went on, and large sums of money were made in it. All over the world people were buying these watches, so cheap were they. All over the world people laughed at the "long wind." The old backer of the enterprise had died, and one of his successors felt indignant because his son in traveling in some remote part of Hungary was asked if the Waterbury he came from was the place where the watch with a long wind was made.

"And," said the man, "I don't want the product of my factory laughed about all over the earth." But his ambition led him to try to make a good watch. The new field he soon found was by this time occupied by most successful competitors, and after getting into hopeless indebtedness the old Waterbury Watch company died in the house of those who should have been its friends.—John F. Simmons in New York Tribune.

AMERICA'S EX-CHAMPION WRESTLER

SAYS:

"After my great wrestling match with J. Mellor, of Staleybridge, at the Crystal Palace, England, for the International Championship, I was covered with cuts and bruises. I applied my favorite balm, Zam-Buk, and in a marvellously short time the abrasions and cuts were healed and I was fit and well again. At another time I had a piece of flesh almost torn completely off my arm above the elbow. I anticipated being unable to do anything with the arm for a long time. To my delight, however, Zam-Buk closed up the wound in two days. In three days it was covered with new skin, and a few days after, there was no trace of the injury. I recommend Zam-Buk for cuts, bruises or skin injuries of any kind.

Yours truly,
HUGH LANNON.

The above testimony given by Mr. Lannon when visiting Toronto shows the great value of Zam-Buk for injuries received in out-door sport.

Baseball, Football and Lacrosse Players should always keep Zam-Buk handy. It prevents cuts and injuries "taking the wrong turn." It stops the pain and smarting, and heals. It is also an excellent embrocation, curing stiffness, sprains, twists, etc. Used and recommended by Sherring, the Marathon winner; Madrali, the world's second greatest wrestler, etc.

For all Injuries & Skin Diseases

The light bread or the leaden loaf is a matter of *choice*—not luck. Choice of method—choice of yeast—but, above all, in the choice of the *flour*. She who chooses

Royal Household Flour

will not have to bargain with fortune for successful baking.—It is made from the finest, selected Manitoba wheat, which contains more gluten (that quality which makes bread light) than any other wheat.

It is milled under the most sanitary conditions—absolute purity is one very important quality which the Ogilvie System of milling guarantees. There is no other flour in Canada upon which so much is spent to insure its perfect purity.

Ask your grocer for Ogilvie's Royal Household—the flour that makes light bread.

Assessor's Report A Gratifying One.

City Shows Advance in Nearly All Departments During Past Year

Following is a copy of the report recently presented to the City Council by Assessor Thomas:

To His Worship Mayor McFee and members of the City Council:

I beg leave to submit the following report, taken from the assessment of the City of Belleville made in 1908 for 1909.

Total assessment for 1909 and comparative table, with last year's totals.

Wards.	For 1908.	For 1909.
Foster	$280,670	$284,095
Samson	648,630	605,450
Ketcheson	1,255,975	1,266,405
Baldwin	688,233	713,878
Bleecker	402,090	404,030
Coleman	302,735	310,540
Murney, 7	421,535	439,120
Murney, 8	190,130	201,960
Total	$4,189,998	$4,286,078
Increase		$96,080

ASSESSMENT OF REAL ESTATE.

Wards.	For 1908.	For 1909.
Foster	$231,380	$235,780
Samson	528,660	546,155
Ketcheson	978,530	999,380
Baldwin	596,425	620,430
Bleecker	371,820	375,450
Coleman	293,720	301,550
Murney, 7	400,450	417,720
Murney, 8	179,670	180,440
Total	$3,589,655	$3,684,905
Increase		$95.250

BUSINESS ASSESSMENT.

Wards	For 1908.	For 1909.
Foster	$ 15,190	15,090
Samson	78,540	82,265
Ketcheson	214,800	216,905
Baldwin	69,960	71,633
Bleecker	27,870	26,980
Coleman	6,870	6,920
Murney, 7	15,220	15,580
Murney, 8	5,750	8,320
Total	$464,208	$473,693
Increase		$9,485

INCOME ASSESSMENT.

Wards.	For 1908.	For 1909.
Foster	$4,100	$3,225
Samson	41,430	37,030
Ketcheson	53,345	50,120
Baldwin	21,840	21,815
Bleecker	2,400	2,200
Coleman	2,145	2,070
Murney, 7	5,835	5,820
Murney, 8	4,710	5,200
Total	$136,135	$127,480
Decrease		$8,655

The city, as shown by the assessment, is making a steady growth, the advance of over $96,000 chiefly being made up on new buildings, many of which are still in course of construction.

Rental values are little, if any, changed from the high mark of the past year. There has been a decrease in Foster ward owing to the reduced number of workers employed by the Rolling Mills company, but apart from that section the values have remained stationary.

The total value of property exempt from taxation is over $700,000, which is being largely increased by the addition of the Armories and new Separate School.

THE POPULATION.

There is an increase of 293 in the actual resident population, the total now being 9,808. This does not include students at the various educational institutions, or the large numbers living in the suburbs, who virtually are residents, and, were these taken in, it would mean a population of upwards of 12,000.

Another Belleville Boy in Parliament.

Mr. T. W. Crothers, K.C., Conservative member-elect for West Elgin, is well known to many in this city, where he studied law. He is a son of Mr. W. Crothers, of Northport, and the Misses Crothers, who reside on Charles street, in this city, are nieces.

Bigamists Punished.

Before Judge Deroche yesterday, James Hawley and Mrs. Pearl Lott, were convicted on the charge of bigamy, and Hawley was also convicted of perjury in connection with securing the marriage license. Both parties are residents of Bancroft village.

Hawley received a sentence of three months in jail on each charge, the sentences to run concurrently, and the woman received a sentence of three months and five days. Mr. Carnew appeared on behalf of Hawley, Mr. Abbott for the woman, and the Crown was represented by Mr. P. J. M. Anderson.

Different Weather.

Kingston Standard: The diary of the grandfather of Mr. C. H. Clark, who formerly kept the Bay of Quinte House at the corner of Bagot and Brock streets, shows that election day came on the 29th of October, sixty-four years ago. On that day the snow was from 2 1-2 to 3 feet deep on the pavement.

Harry Burton, Young Englishman, Met a Swift and Violent Death This Morning

Fell From Tramway at Belleville Cement Works, His Head Being Frightfully Crushed--Victim Intended to Shortly Return to England--No Inquest Necessary

About 5 o'clock this morning a distressing and fatal accident occurred at the Belleville Portland Cement Company's works at Point Ann, when Harry Burton, a young Englishman, nephew of Ben. and Stephen Burton, of this city, met a swift and horrible death.

It seems that the young fellow, who was about 22 years of age, was on the night shift, and, was, at the time the tragedy occurred, engaged at his usual occupation about the plant when the accident happened.

We are told that a chain about 35 feet from the floor had become loose, and young Burton climbed up to fix it. He was standing on a beam and his fellow-workmen were more than horrified to see him suddenly go down headforemost on to the hard cement flooring below. It is supposed that he slipped from the beam.

Death was instantaneous, the unfortunate victim's head being virtually smashed to a jelly. There were also other bruises about the body.

Human aid was impossible, and the remains were not disturbed until the arrival of Dr. Yeomans, coroner, of this city, who, after investigating the circumstances of the sad affair, did not deem it necessary to hold an inquest, it being apparent that the sad affair was purely an accident.

The victim, who had not long been a resident of this country, lived with his uncle, Benjamin Burton, of this city, on Albert street. It was his intention, it is said, to take a trip home to the Old Country within a few weeks.

Those who were acquainted with the victim speak highly of him, and with his fellow-employees he was a general favorite.

The remains were brought to the undertaking establishment of Tickell & Sons, and prepared for burial.

The late Harry Burton was a native of Brockenhurst, Hampshire, England, where his parents, three brothers and three sisters live. He will be buried on Friday.

Mrs. Clarke Buried.

The remains of the late Mrs. Francis Clarke were interred this morning at the Belleville cemetery. Services were held at St. Thomas' Church, conducted by the Rector, Rev. Rural Dean Beamish, and Rev. Albert L. Geen. A number of beautiful floral tributes were placed upon the casket by relatives and friends. The bearers were members of the family.

TRAIN FOR BUSINESS

Most men train their brains and almost entirely neglect their bodies. They do not seem to realize that keenness of judgment and clearness of thought depend as much on the body as on the brain itself. Any man can prove this to his own satisfaction by attempting to decide a weighty business problem while suffering with an acute attack of indigestion or a violent spell of biliousness.

The amount of work that the brain can do depends much on the healthfulness of liver, bowels, kidneys and skin.

"Fruit-a-tives" are fruit juices in tablet form. They act directly on liver, bowels, kidneys and skin—and enable these vital organs to rid the system of all impurities. Thus the blood will be kept pure and rich, the brain active, digestion sound, and life made pleasant.

"Fruit-a-tives" are now put up in two sizes—the new 25c box as well as the regular 50c size. If your dealer does not carry them, write Fruit-a-tives Limited, Ottawa.

ARTHUR McGIE,
300 FRONT ST Belleville

What He Wanted.

Perhaps some of our readers are critical enough in the use of language to decide whether the customer or the salesman was right in the following dialogue:

Customer—Show me a small, low priced shears.

Salesman (facetiously) — Perhaps you mean a pair of shears?

Customer (severely)—I mean precisely what I said.

Salesman (defiantly, opening a specimen article)—Are there not two blades here, and don't two make a pair?

Customer (triumphantly) — You have two legs. Does that make you a pair of men?

The shears were done up in profound silence.

Exporters.

None were offered, unless it was a few picked out of loads of butchers. Good to choice export steers are worth from $4.75 to $5; bulls, $3.75 to $4.25.

Butchers.

One small lot of butchers sold as high as $4.50, which was the highest price quoted. George Rowntree bought 100 butchers for Harris Abattoir Company at following prices: Steers and heifers, $3.50 to $4.25; cows, $2.25 to $3.50; canners and bulls at $1 to $2 per cwt.

Feeders and Stockers.

H. & W. Murby report few good feeders or stockers on sale, altho there is a good demand for those of choice quality. Messrs. Murby bought 150 cattle at $3 to $3.25 for feeding steers, and $2.75 to $3.25 for stockers.

McINTOSH BROS

MAJORITY IS NOW 46

Few Changes Take Place as Lists Are Revised.

W. R. Smyth Is Elected In East Algoma, According to Latest Returns, Instead of Dyment the Liberal Candidate—Conmee Is Elected In Thunder Bay—Henri Gervais May Go to Cabinet in Place of Brodeur.

Toronto, Oct. 28.—Corrected returns of the Federal election make few changes in the general result. W. R. Smyth (Cons.) is elected in East Algoma, which was yesterday given to the Liberals; Jas. Conmee (Lib.) is elected in Thunder Bay, and Dr. Rankin (Lib.) has carried North Perth. The standing in Ontario is now, therefore, Conservatives 49, Liberals 37, a Conservative majority of 12.

The despatches from Victoria yesterday verified the reports that Hon. William Templeman was defeated in that city. He lost his seat to G. H. Barnard, the Conservative candidate. Barnard's plurality is five votes.

There are no changes in election results in Quebec except to strengthen the Government's position as some of the Ministerial majorities are even larger than last evening. The figures stand 50 Government supporters, and it will be 51 in a few days, as it is not probable that Mr. Flynn will stay in the field in Gaspe against the Postmaster-General. Then the two elections yet to be held will make the Ministerial 54 against 11 Conservatives.

The statement is made in opposition circles that Mr. Bergeron's election was lost by 13 and it is suggested by Montreal Conservatives that Mr. Borden should induce the Carleton Conservatives to elect Bergeron for that county.

Revised returns from the west show that Selkirk has gone Conservative. Bradbury leading by over one hundred, with only nine small polls to come in, which will not affect the result.

There will certainly be a recount in Brandon, where Sifton has 16 final majority, while there are 47 protested ballots, which Conservatives claim will give Daly the seat when adjudicated upon.

On the other hand, Liberals claim that they have a chance of electing Burrows in Dauphin, when outlying polls come in.

The present summary for Manitoba is eight Conservatives and two Liberals, with the recount in Brandon.

Later figures do not suggest any change in Saskatchewan, Lake holding the only Conservative seat and the other eight going Liberal.

In Alberta Conservatives still hope to win Red Deer, but outlying polls are swelling Clark's majority. Strathcona will go Liberal.

The summary is: Four Liberals and three Conservatives.

In British Columbia the situation is unchanged, with three Conservatives and one Liberal.

Henri Gervais, with his splendid majority in St. James, is now slated for Cabinet rank as the statement is made amongst his friends, that Hon. L. P. Brodeur will soon leave the Cabinet and become Chief Justice of the Superior Court.

Latest returns from Queens-Sunbury, N.B., gives McLean a majority of 40. Conservatives, however, are confident that there is some mistake somewhere, and will make every effort to discover it.

"More proof that Lydia E. Pinkham's Vegetable Compound restores women to normal health.

Mrs. Henry Clark, Glandford Station, Ont., writes to Mrs. Pinkham:

"I have taken Lydia E. Pinkham's Vegetable Compound for years, and never found any medicine to compare with it for sick women.

"I had ulcers and a displacement of the feminine organs, and doctors did me no good. I suffered dreadfully until I began taking Lydia E. Pinkham's Vegetable Compound. It has cured me, and also helped other sick women to whom I have recommended it."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat your letter in confidence and advise you free. No woman ever regretted writing her, and because of her vast experience she has helped thousands. Address, Lynn, Mass.

Milkers and Springers.

Between 40 and 50 milkers were on sale, and prices ranging at from $30 to $62 each.

Veal Calves.

About 70 veal calves were on sale. Prices ranged at from $3 to $6.50 per cwt.

Sheep and Lambs.

Receipts of sheep and lambs were fairly large—over 1800. Prices were steady, at $3.25 to $3.40 per cwt. for ewes, and $2.50 to $2.75 for rams; lambs at $4 to $4.50 per cwt.

Hogs.

About 1100 hogs were reported from all sources. Mr. Harris reported the market easier, at $6 for selects, fed and watered, and $5.75 for lights.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 27.—Cattle—Receipts, 100 head; active and steady; prime steers, $5.75 to $6.25.

Veals—Receipts, 250 head; active and 25c lower, $6 to $8.75.

Hogs—Receipts, 11,000 head; fairly active; light grades steady; others 20c to 30c higher; heavy, $6 to $6.15; mixed, $5.90 to $6.10; yorkers, $4.75 to $6; roughs, $4.90 to $5.25; stags, $4 to $4.50; dairies and grassers, $5 to $5.90.

Sheep and Lambs—Receipts, 1000 head; active; sheep steady; lambs 10c higher; lambs, $4 to $6.25.

Chicago Live Stock.

CHICAGO, Oct. 27.—Cattle—Receipts, 6000; market steady to strong; steers, $4.40 to $7.60; cows, $3 to $5; heifers, $2.50 to $4.25; bulls, $2.50 to $4.50; calves, $3 to $8; stockers and feeders, $2.50 to $4.65.

Hogs—Receipts, 17,000; market steady to strong; choice heavy shipping, $6 to $6.10; butchers, $5.95 to $6.10; light mixed, $5.25 to $5.50; choice light, $5.50 to $5.65; packing, $5.50 to $5.95; pigs, $3.50 to $4.85; bulk of sales, $5.50 to $5.90.

Sheep and Lambs—Receipts, 13,000; market steady to 10c to 15c higher; sheep, $4.20 to $4.75; lambs, $4.75 to $6.35; yearlings, $3.85 to $5.

Cheese Markets.

CAMPBELLFORD, Oct. 27.—At a meeting of the cheese board, held here to-day, 1066 were offered. All sold at 12c.

Murderer's Clever Escape.

Eureka, Cal., Oct. 28.—Denny Hazel, who was to have been sentenced on Thursday for the murder of Joseph Silva, Monday night effected his escape from the county jail, leaving E. I. Dudley, the jailer, locked in his cell.

Hazel was standing behind the cell door in the darkness when Dudley led a squad of trusties into the cell. As the jailer stepped in Hazel stepped out and turned the key in the lock.

Dies of Exposure.

Windsor, Ont., Oct. 28.—The body of a man, identified as Paul Pilky of Wyandotte, Mich., was discovered by street railway employes below Sandwich yesterday at noon. He is supposed to have died of exposure. The body had evidently been where it was found since Sunday, as he had a street car transfer in his pocket bearing that date. A small sum of money was found in his pockets. An inquest is probable.

Three Cardinals For America.

London, Oct. 28.—A despatch from Rome to a London news agency says the Pope has decided that a special consistory shall be held for the nomination of new American cardinals after the reorganization of the American dioceses, and that the United States shall have three cardinals.

NIGHT RIDERS JAILED

Seventy Are Under Arrest in Tennessee—Four May Hang.

Ringleader Has Made a Confession of Lynching of Capt. Rankin and Detective, and Attempted to Kill Col. Taylor—Were Angry Because Fishing Had Been Stopped — Judge Protects House With Mines.

Samburg, Tenn., Oct. 29.—The suspected ringleader of the night riders in this section is a prisoner at Camp Nemo. His name is Carrett Johnson. Not less than 70 men alleged to have been connected actively with the night riders in this vicinity are under arrest, and the authorities believe enough evidence has already been collected to hang at least four men.

The confession of "Ted" Burton is the sensation of the day, both here and at Union City, and it is believed that he has not yet told all he knows about the killing of Capt. Rankin.

John F. Cochran, the man captured after a chase on the lake, has confessed that the night rider outrages have included the whipping of women. One woman was whipped for leaving her husband, another for being of ill-repute.

Burton, one of the alleged leaders of the Night Riders, who lynched Capt. Rankin, [illegible] detective who pursued them [illegible] sought to slay Col. Taylor, has made a complete confession.

"I was with a crowd of 100 men and boys who live around here," he said, "and the night we laid the plans to lynch Rankin and Taylor all of us gathered on the banks of Reelfoot Lake and talked over the plot.

"All of us had been told that Rankin and Taylor were responsible for the passing of the law stopping our fishing in the lake. That made us mad, because most of us hadn't any other way to live, and so we decided to get rid of them."

In order to avoid lynching by the night riders, who fear his testimony, Judge Harris of Tiptonville, whose ife has often been threatened, has lanted mines on the approaches to iptonville, which can be touched off y a system of electric wires at any oint. No one dares approach his ouse without permission, for the ere turning of one of his electric witches will touch off a mine where e chooses.

CONFESSES TO BLACKMAIL.

One Man Admits Charge and a Second Is Accused.

Woodstock, Ont., Oct. 29.—J. B. ounds of Drumbo appeared in the olice Court yesterday, charged with aving been a party with Robert Colell, who has pleaded gulity to obaining $300 by blackmail from Chas. amm of this city on Christmas ight, 1906.

Damm's story, supported in many articulars by Colwell, who was placd on the stand by the crown, was at Colwell and Rounds took him ino a back hotel room and that Colwell old Damm he was under arrest for e murder of Fuller, Colwell's sonn-law, but that he could get off for 300. Damm said he paid Rounds $17 once and paid Colwell $300 a few ys after.

Rounds denied connection with any ooked transaction and denied any onspiracy to defraud Damm. Judgent was suspended until Friday, hen Colwell will appear for sennce.

New Style Aeroplane.

Dayton, Ohio, Oct. 29.—Frank J. einfelt has made a successful flight 500 feet with an aeroplane materlly different from that of the Wright rothers, in that in this machine the ngle plane principle is used, the right machine having double plane

Although hitherto unknown in the aeronautic world, Heinfelt has built three previous machines, paying his expenses out of his slender salary as a stenographer. His motor was given him by a friend, who took it out of an old automobile.

The flight was terminated by a lack of skill on the part of the manipulator, who brought the machine to the ground too suddenly, breaking one of the wings.

Bank Clerk Arrested.

Brockon, Mass., Oct. 29.—David B. Wilson, aged 22, of London, Ont., alleged to be a fugitive from justice from Chesterville, Ont., was arrested at a lodging house here yesterday by Inspector James H. Grace. Wilson was taken to Boston yesterday afternoon for arraignment before the U. S. Circuit Court. The allegation is that Wilson who was a bank clerk at Chesterville, broke into a general store next door and stole a large amount of cloth, neckties and other furnishings. In his room, it is claimed, cloth and furnishing goods valued at about $200 were found. Under a corner of the carpet was $500 in bills.

Charged With Blackmail.

Hamilton, Oct. 29.—William Huckle, the self-styled chief of the International Detective Bureau, was committed for trial on three charges of blackmail and attempted extortion by Magistrate Jelfs yesterday morning, and John Tierney, who was jointly charged with Huckle, was also committed. The prisoners both entered a plea of not guilty.

To Teach at Lucan.

Kingston, Oct. 29.—Robert Stoddert, B.A., assistant in classics in the Collegiate Institute, has sent his resignation to the Board of Education, asking for immediate release. He has been offered the principalship of the Lucan High School.

Plague Ship.

Victoria, B.C., Oct. 29.—News of the arrival of a plague ship at Yokohama a few days before sailing with 50 dying and 32 dead was brought by the steamer Monteagle.

BRYAN BREAKS RECORD.

Addresses Twenty Meetings In a Day In New York Tour.

New York, Oct. 29.—Wm. J. Bryan was in excellent spirits when he started on his trip up the state yesterday. "I've had a delightful and busy time during my stay in New York," said he, "and I have learned something. I have learned that we waste a great deal of time in sleep. Before I had always supposed that a man must have eight hours sleep a night, but I find that you New Yorkers thrive on five hours."

Midweek of the last week of the Presidential campaign finds the political battle at its height and the "heavy artillery" of the two leading parties at work, chiefly in New York city and state. Both Presidential candidates and the Republican vice-presidential candidate are in or near this city.

Both nominees for the Presidency and both the nominees for governor made speaking tours in and near the city Tuesday.

Mr. Bryan broke all campaigning records by delivering more than twenty addresses in New York, Brooklyn and Jersey City, and was listened to by nearly 200,000 persons.

Mr. Taft made a trip through the Hudson River Valley, speaking at several towns on the way and closing the day with great meetings in Schenectady, Troy and Cohoes.

WOMEN'S COUNCIL MEETS.

Earl Grey Presides at National Gathering In Ottawa.

Ottawa, Oct. 29.—The National Council of Women opened its annual meeting in Ottawa last night with a public meeting in the Normal School auditorium, at which His Excellency Earl Grey presided. Nearly 100 delegates from local councils throughout Canada are in attendance.

Earl Grey in his address last night declared that the French-speaking populaton of Canada were better mannered than the English-speaking population and Protestant Canada could take many lessons in politeness from Catholic Quebec. He urged women of Canada to devote more attention to training children in habits of courtesy and good manners.

Dr. P. H. Bryce, chief medical officer of the Department of Immigration, in an address on public health, advocated joint municipal and the Government action to prevent the growth of congested slum districts in Canada by paying more attention to the housing problem among the poor and the settlement of immigrants on the land rather than in great centres of population.

Comfort and independence abide with those who can postpone their desires.—Success Magazine.

They Disagree On A Verdict.

Jury In Kimball Shooting Case Fails to Make Finding.

Trial Of Leamington Police Chief Who Killed W. J. Healey as He Was Escaping From Arrest Is Held at Chatham—Judge Charges Against Prisoner—Idea of Shooting Prisoners Is Too Common.

Chatham, Oct. 29.—After several hours' deliberation the jury in the case of Elliott J. Kimball, formerly chief of police of Leamington, charged with the murder of Wm. J. Healey, before Justice Latchford, decided just before midnight yesterday, they could not agree. The case went to their hands at 5.30 p.m. Tuesday. Kimball shot Healey while the latter was running away to avoid arrest for jumping a board bill.

Kimball himself was the last witness examined. He stated that the shooting of Healey was purely accidental, the revolver being discharged through a jar on the fence he was climbing over. Other witnesses testified that after the shooting Kimball had remarked that he had shot the man, who was getting away from him. None of these witnesses could remember having heard him say that the shooting was accidental.

Both Prosecutor Arnoldi and the solicitor for the defence, O. L. Lewis, K.C., made long addressse to the jury, Mr. Lewis emphasizing the fact that both the crown and court had barred evidence pertaining to Kimball's good character.

His lordship Justice Latchford made a strong charge against the prisoner. He belittled the prisoner's statement that the shooting was accidental.

"The character of Healey has nothing to do with it," he continued. "The lowest character in this country is protected by law. The unfortunate woman, Mary Wellington, whose illegal actions caused the shooting of this wretched man, says that she warned Kimball that Healey was dangerous, but we do not hear of Kimball using his gun till Healey ran away from him. Many constables appear to be under the misapprehension that they can shoot down a fleeing man. There is no law in this or any other civilized country which allows them to do so, and the sooner constables get this erroneous idea out of their heads, the better it will be for them."

Justice Latchford said that there were three verdicts the jury could bring in—murder, manslaughter, or not guilty. If they believed Kimball's story in the face of all the other evidence they then might bring in the latter verdict.

On opening the case the attorney for the defence objected to the charge of murder, but the court overruled, stating that the grand jury had decided upon that charge and he would have to abide by its decision.

The prosecution argued that, notwithstanding that Kimball was an officer, his case should be considered in the evidence the same as an ordinary citizen.

Attorney for the defence elicted the fact that Miss Mary Wellington had lived with Healey as his wife. In this connection she said that she had known him about a year. She had been intimate with him about three weeks. They had lived together as man and wife in Leamington and Tilbury. Healey had led her to believe they were married by showing her a false marriage certificate which he said was signed by a minister.

The woman who made the complaint which had caused Kimball to attempt the arrest testified that she had told him that Healey was a desperate man and would likely resist arrest.

The court commented that this warning had probably had its effect on Kimball and led up to the shooting.

Gets $2,000 For Arm.

Brantford, Oct. 29.—Lloyd Brown, who sued the C.P.R. for unstated damages, was awarded $2,000 by the jury. Brown was stealing a ride on a freight train near Galt last October and was put off by the conductor, falling under the wheels and losing his right arm.

The jury held that the company was to blame because the conductor put Brown off while the train was in motion.

Subsidized Steamers to Canada.

Wellington, N.Z., Oct. 29.—(C.A.P.)—Sir J. Ward strongly urges that New Zealand should subsidize a steamer service to Canada to prevent the Argentine Republic from seizing Canada's frozen mutton trade.

A large majority assured Ward in the elections that prohibition is expected to be carried in several new districts.

Killed Returning Home.

Winnipeg, Oct. 29.—Walter B. Col-

has been in the insurance business here for the past twenty years, fell from the train at Ignace, Ont., and was killed. Mr. Colgate was returning from a prolonged visit to England, where he had gone for the benefit of his health. He was 45 years of age and unmarried.

Fell From Bridge to Death.

Brantford, Oct. 29.—Robert Knight, aged 15, son of John Knight, Eagle avenue, was killed yesterday morning by falling from the T., H. & B. bridge over the Grand river. He tripped on a nail, and his skull was fractured and neck broken.

Petition For Prohibition.

St. John, N.B., Oct. 29.—The New Brunswick Temperance Federation will at the next session of the Legislature present a monster petition asking for prohibition. It is intended to secure 50,000 signatures to this petition.

Lord Milner on Tariff Reform.

Toronto, Oct. 29.—Professing the belief that within a few years at least Great Britain would adopt a policy of Imperial trade preference, Lord Milnerfi speaking as the guest of the British Empire League last night, urged that nothing should be done by those self-governing states, which had adopted the principle of preferential trade, to hamper the progress of the movement in the Motherland. Lord Milner also took occasion to deal shortly but emphatically with the attitude of the people of Great Britain towards Canada. It was not on account of any unfriendly feeling that the advances of the colonies with regard to preferential trade had not been accepted. The Opposition in Great Britain was an intellectual and logical one and did not proceed from any unfriendly spirit. Lord Milner left for Ottawa last night.

Made Easy Money.

Buffalo, Oct. 29.—Robert B. Otis, son of the president of the Atlas Manufacturing Co. of New Haven, Conn., according to his story, was arrested here on Tuesday for securing money under false pretences. He admits that he has made at least $50 a week for a year "working" cities in this country and Canada. He declares that in Toronto he found plenty of easy money. His game has been to call upon prominent families, learning first some of their family connections in other cities, and during the conversation state that his pay check had gone to another city, and he would like to obtain the loan of ten dollars for transportation.

Bulgaria Peaceable.

Sofia, Oct. 29.—The 14th National Hungarian Assembly was convened for its autumn session yesterday afternoon. The speech from the throne was read by Emepror Ferdinand, and was eminently pacific in character. He defended the recent course of his Government.

A typical passage of the message is as follows:

"Peace and prosperity are inscribed on the banner which was unfurled at Tirnovo, Oct. 5, and I count upon my valiant and progressive people to assist me in the defence of our righteous cause of securing peace and spreading the work of civilization in the Balkans."

Assaults Attorney-General.

Winnipeg, Oct. 29.—An aftermath of the bitter election contest here took place yesterday afternoon on Main street, when E. L. Howell, K.C., son of Chief Justice Howell, attacked Hon. Colin Campbell, Attorney-General, who has now sworn out a warrant for Howell's arrest.

The matter arose from a conversation over the 'phone between Howell and the Attorney-General last Saturday night, when the former demanded admittance to two Liberals arrested and placed in the provincial jail on bribery charges.

A Pioneer of Clinton.

Clinton, Oct. 29.—In his 93rd year Mr. Edward Dinsley, the oldest resident of the town, and one of the earliest settlers in Huron county, died at his home Tuesday. He was interested in several business enterprises in the pioneer days and helped to build up the town. He had been a continuous resident, and leaves a large family, several of the boys occupying prominent positions in the United States, and two daughters living in town.

BEAUTY BRUSH
For Bath and Toilet
Made of the finest quality of soft rubber. Its surface is formed of vacuum cups, which, when applied to the skin, extract from the pores all impurities and stimulate the circulation of the blood, thus imparting a natural glow of health to the skin and preserving the complexion clear and beautiful without the use of any chemical lotion.
In the centre of each vacuum cup of the Beauty Brush there is a rubber tongue, or articulator, which agitates the surface of the skin when the brush is used for massage. It is in the combination of a vacuum cup and articulator that the Beauty Brush excels for toilet massage.
DIRECTIONS FOR USING:
Ladies and gentlemen will find this brush equally good to promote a clear complexion, remove wrinkles and freshen and invigorate the skin. It may be used as an ordinary sponge, with soap and water, or dry, as a massage brush.
When applied to the face it should be drawn upwards from the eyebrows over the forehead.
From the cheeks and under the eyes draw the brush towards the ears. Along the chin and neck draw the brush downwards. This will remove wrinkles as well as administer an excellent massage to the face.
The brush should be pressed hard enough against the face to make the drawing action of the vacuums perceptibly felt.

LIBERALS ADD SEATS

Majority of Laurier Government Is Now Forty-Nine.

Comox-Atlin and Nipissing Both Go Grit—Protest In West Kent Will Be Supported by Bribery Charges—Thoburn's Victory In North Lanark Will Be Attacked — McInnes May Run In the Yukon.

Toronto, Oct. 29.—A special despatch from North Bay announces that final returns in Nipissing give C. A. McCool (Lib.) a majority of 112, with one poll to hear from. This again makes the Ontario standing at: Conservatives, 48; Liberals, 38.

In the Comox-Atlin district of British Columbia, W. Sloan (Lib.) was yesterday elected by acclamation.

The Liberal majority is now 49.

Chatham, Oct. 29.—The election of A. B. McCoig in West Kent will be protested, was the statement of one of the leading officers of the local Conservative Association yesterday.

Tuesday night, even King street, the main thoroughfare, was alive with drunken and half-drunken men, who, it is alleged, bought their liquor with election boodle. The aftermath of the election was marked by most disgraceful orgies all over the city. For the most part the celebrants were negroes and tough characters.

It is claimed that there were irregularities in Tilbury. One man said yesterday that if the protest were set in progress it would mean that over two hundred men would have to be arrested on charges of flagrant violations of the Election Act.

The Liberals assert that the Conservatives also had a hand in irregularities.

The official count has not yet been made, but it is believed that McCoig's majority will be about seventy.

Ottawa, Oct. 29.—T. B. Caldwell, Liberal candidate, defeated in North Lanark, will institute proceedings against the return of Thoburn, who is elected by 9 majority. Action is being taken on the usual allegations.

A rumor from Labelle is to the effect that the Liberals will report to the archbishop the action of certain parish priests, who it is alleged were on Sunday outspoken in favor of Conservative candidates. Since Cardinal Merry Del Val's visit here in 1896 there have been few complaints of a similar sort.

The Cabinet Ministers in the city last night were Sir Wilfrid Laurier, Sir Richard Cartwright, Hon. A. B. Aylesworth, Hon. Sydney Fisher, Hon. Geo. P. Graham, Hon. L. P. Brodeur and Hon. Chas. Murphy. A Cabinet council is being held to-day.

Rumor has it that Chas. Marcil will be appointed Speaker of the Commons.

Vancouver, B.C., Oct. 29.—W. W. B. McInnes, the defeated Liberal candidate in Vancouver, has received an invitation from the Yukon Liberal Association to contest the constituency at the deferred election and is now considering the offer. It is felt that one of the seats in the deferred election in British Columbia should be opened to McInnes and his services retained for the province. In the event of his being elected it is practically certain he will gain Cabinet rank.

Belleville, Oct. 29.—In East Hastings it is alleged that at Stoco, the deputy returning officer, Pat Murphy, gave ballots to four voters whose names were not on the lists, in spite of protests of the Conservative scrutineers.

McLeod, Sask. Oct. 29.—Local Liberals claim that all the southern points, numbering thirty-one, will give them a majority, and that Herron (Con.) will be beaten by a narrow margin.

London, Oct. 29.—The Free Press last night said that a count is certain to be demanded in West Middlesex. Mr. Calvert, the Liberal candidate, was reported upon the night of the election to have a majority of 17 votes. This is believed to have included some votes which are open to question, while votes thought to be valid were not counted for the Conservative candidate, Mr. Robert McLachlin. A report current yesterday was to the effect that the Liberal majority in the west riding has been discovered to be only four.

Incendiary Fire.

Cayuga, Ont., Oct. 29.—The barns and outbuildings of Patrick Fagan, a farmer in the Township of Oneida, were destroyed by fire yesterday. Everything was lost, but no horses or cattle had yet been stabled. The loss is a heavy one for Mr. Fagan.

The cause of the fire is supposed to be of incendiary origin and a warrant has been issued for the arrest of Bruce Lonedale, who has been recently employed by Mr. Fagan. It is said they had a quarrel and Lonsdale left, but is reported to have been seen recently in the neighborhood.

Embezzled $1,250,000.

Pittsburg, Pa., Oct. 29.—William Montgomery, cashier of the Allegheny National Bank, until the discovery of a shortage in its funds of over $1,250,000 early last summer, necessitating closing the institution, was for the second time this week found guilty of embezzlement and abstraction of funds, his speculations in the two cases amounting to $613,000.

The case concluded yesterday involved the abstraction of $144,000 worth of the bank's bonds and as in the first case Montgomery offered no testimony in defence.

Cruelty to a Horse.

Lindsay, Oct. 29.—When Mr. Davidson of Glendine drove into town he put his horse in the Benson House sheds. When he was ready to go home his horse was gone. Making inquiries he learned that a horse was seen traveling at a high rate of speed west. Mr. Davidson tracked the thief and horse to Blackwater. He found the horse tied in a swamp and suffering from inflammation. The horse died after being taken a mile out of Blackwater. A young man by the name of Brooks has been arrested.

Suicides Over Elections.

Victoria, B.C., Oct. 29.—Tired of life and full of chagrin at the result of the elections, Edward Griffiths, a rancher living at the Royal Oaks District here, placed a shot gun to his head and blew out his brains. He leaves a wife and three children.

A Knock From Glasgow.

London, Oct. 29.—(C. A. P.)—The Glasgow Herald says if any more concessions are made to Canadian manufacturers it will demonstrate on how precarious ground it is proposed to erect the imperial preferential scheme.

Election Excitement Fatal.

Montreal, Oct. 29.—Alexander Robb, father of the new M.P. for Huntingdon, died Tuesday from heart disease, due to excitement over the elections. He was 83 years old.

Winter at Fernie, B.C.

Fernie, B.C. Oct. 29.—Winter has arrived with a heavy snowstorm, and the weather is very cold. Building

BREATHED GAS.

Score of Workmen Killed by Fumes From Oil Well.

New Orleans, La., Oct. 29.—Deadly fumes from Mexico's great oil well fire, 60 miles from Tampico have killed more than a score of workmen during the past few days, completely blackened the white paint on the side of the ships, endangered commerce and caused thousands of dollars damage to ranches and other neighboring interests, according to Capt. Michael Henrichsen of the steamship City of Mexico, which reached New Orleans on Monday night.

Battling to save what they could from the wreckage, American mine owners, after spending more than a million dollars, finally succeeded in extinguishing the blaze, but even greater terror than before prevailed then. The flames had consumed the noxious gases, but when the fire was stopped the gases burst forth. Laborers, inhaling a bit of the stuff, dropped in their tracks, dead.

Owners of the well have applied to the Mexican Government and several companies of soldiers have been sent to the scene to take the places of the laborers, who refused longer to remain there.

INDIAN GETS TEN YEARS.

Ezekiel Hill Gets Stiff Sentence For Assaulting a Woman.

Brantford, Oct. 29.—Ezekiel Hill, charged with assaulting Mrs. Levi General on the Six Nation reserve, in July last, was sentenced yesterday afternoon to ten years in Kingston Penitentiary by Sir John Boyd.

The jury, after a few minutes' consideration, returned a verdict of guilty.

The Indian never moved a muscle during the passing of the sentence for the crime, which the judge said had been deliberately planned and carried out with cunning.

Mrs. General was attacked during the absence of her husband, and was menaced by Hill, who shot at her and finally succeeded in his purpose.

After his commitment he shammed insanity and was removed to the Hamilton Asylum. The question of his sanity was first settled by a jury Tuesday.

British Coin Frees Russ Prisoner.

St. Petersburg, Oct. 29.—Nicholas Tschaikovsky, the aged Russian patriot, who has been imprisoned in this city for nearly a year, was released yesterday at 3.45 p.m. The fund subscribed in England to cover the bail demanded by the Russian Government for Tschaikovsky's release was received here Tuesday and was deposited in the Imperial Bank yesterday.

Nicholas Tschaikovsky was the first leader in the reform movement in Russia and was known as the "father of the Russian revolution." He was arrested on the Russian frontier Nov. 23, 1907, and at once confined in the fortress of St. Peter and St. Paul.

Acting In Harmony.

New York, Oct. 29.—The Times, in an editorial, sees a happy augury in the fact that five of the signatories of the Berlin treaty are acting in harmony for the first time since the crisis arose, especially as it is unlikely that Germany and Italy acted without Austria-Hungary's knowledge and consent.

Receives Masonic Honors.

New York, Oct. 29.—The Supreme Council of the Ancient and Accepted Scottish Rite for the United States of America yesterday elected M. W. Bay-

LAIDLAW & KETCHESON'S

OCTOBER

29

Thursday

He is good that does good to others.

La Bruyere.

THIS DAY IN HISTORY.

Sir Walter Raleigh beheaded, 1618.
John Keats born, 1795.
Red River Rebellion, 1869
Gen. McClelland, [illegible]

TIMELY TOPICS.

Those elections in Quebec [illegible] west will be held [illegible] week. There's victory in [illegible] The Grits are on the run!

• • •

Let's see—haven't we heard those expressions before?

• • •

The U. S. Presidential election will be held next Tuesday. Vote early, Uncle Sam.

•

That noble and pure-minded chap, Emmerson, of St. Lawrence hall fame, had over thirteen hundred majority! Queer tastes, those New Brunswickers have.

The dispute as to the relative smokiness of Chicago and London is carried on in evident ignorance of conditions in Belleville some of these mornings.

• • •

A New York woman has had a dream in which she was made sure that Bryan would be elected. Political dreams are poor stuff to bet on.

A Chicago goat ate the crape and a bunch of flowers from the front door of a house of mourning, and was arrested. The soul of a ghoul must be in that goat.

• • •

A New Jersey farmer found a $10 bill in a sheaf of oats. Wild cats probably. There are plenty of bills in that kind.

• • •

The limit seems to have been reached in Michigan, where a hunter was shot in mistake for a squirrel.

• • •

The new Czar of the Bulgars is said to be sadly in need of $23,000,000. Have they no Grit campaign fund in Bulgaria? Why not borrow from that?

• • •

HARD ON THE WHIG MAN.

(Kingston Whig.)

O, what a tragedy, when loyal citizens have to go dry from seven o'clock Saturday evening till six o'clock Tuesday morning.

• • •

In Brantford a man, a Grit worker, was arrested on Monday for impersonation. He was a common laborer, but when searched had $411 in his pockets. No wonder the Liberals "redeemed" North Brant.

• • •

The elections are past. The next sensation will be the Christmas present.

• • •

Mr. McCargar had a majority of 1 in Limerick. The Limerick boys couldn't go back on a Mac.

• • •

Isn't the morning fog and smoke sickening? What's the trouble, anyhow? Is the Gulf Stream heading this way? There must be something out of the ordinary.

Hallowe'en day after to-morrow. Are you going to buy a false face, or make shift with the one nature gave you?

• • •

Rumor says the prospective mayoralty candidates have already purchased pea-shooters, and will bombard each other on sight.

• • •

The worst of this awful fog is that it has got into the drone of Piper McIntosh's beloved instrument, and he can't play the proper bass to that pathetic ballad: "Willie Laurie's Lament, or How Ontario Threw Me Doon." (Nit.)

• • •

Talking about the ward system, there are 21 members in the Board of Education. Here's a quiet little word of advice: Take a quiet walk off somewhere by yourself and ponder over this question—which great body is entitled to the most bouquets for work in recent years, the Council of eleven, or the Board of Education of 21?

It may be none of our business, perhaps, but those young fellows with the low-necked shoes, high-water pants and illustrated socks are flirting with pneumonia.

• • •

Wonderful how reckless some people are when their political prejudices are aroused. We know one young fellow who actually lost a box of Chocolates on the election!

• • •

An early session of Parliament is now spoken of. Heaven help this much-governed country.

• • • •

A New York man had his leg cut off by a milk wagon, and stood against a lamppost, rolling a cigarette.

[illegible]

evening. There's plenty of work for such a society in [illegible] good friend, what are YOU doing to help it along? Be thankful your own children are in better fix than some of the waifs and strays we read about, and do what you can to keep the little ones. Remember, "Of Such is the Kingdom."

• • •

Bet you the Montreal Star is glad the elections are over. Must have made their back ache sitting on the fence so long.

• • •

HE'LL BE MISSED.

(Toronto News)

Among those who will be much missed from Parliament is Mr. Alcorn of Prince Edward county. Mr. Alcorn with his upright carriage and snow-white hair is a striking figure and as an expert on the drafting of bills his ability was recognized by both sides of the House.

• • •

The editor of the Globe, on being served with a writ, caused to be issued by the Hon. Geo. E. Foster, asking for the modest sum of $50,000 in compensation for slandering him, denounced it as an election "roorback" and refused to apologize. The Globe is evidently about to realize the fact that it was not a "roorback," for the day after the election it published the following item:

"George Eulas Foster has had his second writ issued in connection with the campaign just concluded. In this he claims $100,000 damages from The Globe Publishing Company for libel by defendant company concerning him in The Globe of the 21st October."

It is evident there is work for the lawyers ahead.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & CO., Toronto.

Hunt, T. Price, J. C. Holt, J. W. Gordon, F. H. Terry, W. E. Cox.

A MONTREAL MAN

RUN-DOWN, SICK AND DESPONDENT BECAUSE HE HAD FAILED TO GET HELP.

RESTORED TO HEALTH BY VINOL.

"I was in a very run-down condition. Abscesses broke out on my body and my digestion was seriously impaired. I lost flesh and strength and was in a very bad way altogether. I was under different doctors' care, but did not derive any material benefit from their treatment.

"This state of affairs went on for several months and I became very despondent and thought I would never be well again. My attention was then drawn to Vinol and I purchased a bottle from Bryson's drug store. The first bottle did me good, so I continued its use, and am to-day as well as ever I was. I also find Vinol [illegible] remedy for colds." Alfred [illegible] 87 Delorimier Av[illegible]

MUSIC AND THE DRAMA.

RECITAL BY PUPILS OF MRS. MacCOLL.

The recital by pupils of Mrs. (Dr.) MacColl, in St. Agnes' hall last night, was very enjoyable, and was well attended. Many of the numbers were surprisingly well played, and all the performers reflected credit on their talented teacher. Following was the programme:

Piano—Slumber Song .... Walling
Harold Bateman.
Piano—Pizzicato .... Delibes
Marjorie Taylor.
Piano—Butterflies ....Lege
Grace McMullen.
Piano—Wächterlied ....Grieg
Wanda Cronk.
Violin—Shoumka—Ukrainenne......
.... Borowski
Addie Potter.
Piano—Good Humor ....Baumfelder
Marjorie Waters.
Piano—Consolation .... Mendelssohn
Piano—Melodie ....Heller
Phyllis Nordheimer.
Piano—Kinderscenen .... Schumann
Elizabeth Potter.
Piano—Serenade .... Jensen
Jean Armstrong.
Violin—Largo .... Handel
Edna Benjamin.
Piano—March ....Moskowski
Olive Cooper.
Piano—Idilio .... Lach
Strethel Walton.
Piano—Scarf Dance .... Chaminade
Marion Adams.
Piano—Under the Leaves ...... Thorne
Mabel Goodsell.
Violin—Romance ....Gocus
Edna Benjamin.
Piano—In Arcady .... Nevin
Mae Waters.
Piano—Springtime .... Grieg
Elizabeth Potter.
Violin—Liebengruss ....Elgar
Violin—Intermezzo ....Bohm
Addie Potter.
Piano—Tarantelle .... Heller
Annie Tenny.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists.

The Oldest Voter.

Lindsay, Oct. 28.—John Butler, the oldest voter in Ontario, who lives with his daughter, Mrs. John Collins, here, again registered his vote on Monday. Mr. Butler is well over a hundred years old, and it is estimated that his age is as much as one hundred and six years. This remarkable man has lived in Lindsay for upwards of forty-five years, at present he is in fair health and his vitality is marvelous. Mr. Butler is a native of Clare county, Ireland. His wife died some thirty years ago.

HARRY REID KNOWS.

J. S. McKeown, the druggist, does not guarantee Parisian Sage to grow hair on every bald head, but if there is any life left in the roots of your hair, Parisian Sage will stimulate the hair bulbs and cause your hair to grow again. Here is one case. "I am now using the second bottle of your Parisian Sage, and can notice a new crop of hair appearing. I am glad to say it is a darker color than my hair was before I became bald." Harry Reid, 10 Manhattan St., Rochester, N. Y. Don't wait till you're bald before using Parisian Sage, use it now. Kill the dandruff germ and prevent baldness. J. S. McKeown, the druggist, sells Parisian Sage at 50 cents a large bottle, and he guarantees it to cure dandruff, stop falling hair, and cure all diseases of the scalp, or money back. Parisian Sage is a delightfully invigorating hair dressing; it makes the hair soft, fluffy and beautiful.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Prevention of Forest Fires.

Mr. A. T. Drummond, of Toronto, writes us re the prevention of those terrible scourges, forest fires. He encloses the following memorandum, which, after Canada's recent experiences, might well engage the attention of our legislators:

The first point to consider is that forest fires are preventable. They occur chiefly in August and September, but the hot weather and lessered rain of these months do not furnish the cause of these fires, but merely supply conditions under which they spread more rapidly. The cause, with possibly but a rare exception in the case of lightning, is entirely traceable to sparks from locomotives or factories, to railways, railway contractors and settlers clearing land, to neglected camp fires and to the unextinguished match. In this supposed age of intelligence, when men can foresee the consequences of their neglect, it is not right that the carelessness of some individuals or corporations should bring upon the country losses to hundreds of thousands of dollars, and, in recent cases, to millions of dollars, and should go unpunished.

It may be difficult to prove the neglect, but the moral effect will be very marked in every railway or settler's clearing and around every camp fire, if a law is passed making it an offence punishable with imprisonment to neglect to maintain a guard over the burning stumps or brushwood, or to leave guarded the camp fires or to put them out entirely before departing.

The present criminal law relating to neglect only applies to such negligence as shows the party to be reckless or wantonly regardless of consequence in setting fire to any forest or tree and is not of general application to all property—Crown Domain or private. Under this law there can be practically no conviction. What is wanted is a prescribed course of action for the protection of all forests, and the penalty if it is not adopted.

FOREST WARDENS.

The protection which the Dominion and Provincial Governments can furnish is by establishing forest wardens in each given number of square miles similarly to what is now being done in some parts of Ontario. Their duties, among others, would be to protect the timber and the fish and game, to see that hunters, prospectors and other campers are made aware of and fulfil their obligations, and in the case of fires to secure assistance to prevent their spread. On properties under license to lumbermen, one half of the cost of maintaining the forest wardens should, by law, be made payable by the holders of the license, and not left to his option, and it should be the right of the Government, and not of the licensee, to fix the number of such forest wardens. Where properties are owned by private individuals or corporations in the midst of the forest, they should pay for this protection in the same way, and the amount be made, like taxes, a first charge on their land.

Every lumberman, by the terms of his license, should be compelled under a large penalty, to clear up and dispose of his brushwood before breaking up camp at the close of the winter.

FOREST FIRES AND THE CRIMINAL CODE.

The Criminal Law of the Dominion should be so changed as to make punishable by imprisonment what is now too often, with little thought for consequences, regarded as being but a trifling neglect.

Thus it should be made punishable by imprisonment if campers do not keep a constant guard over their fires and entirely extinguish them before breaking up camp.

Every settler, lumberman, railway contractor or railway company when clearing land, should under a similar penalty,—

(a) Be forbidden to set fire to any standing tree or to any stump over four feet high, or to any stump or brushwood nearer than twenty-five feet from any standing tree or trees.

(b) Be compelled to clear away all brush, grass and leaves to a distance of fifteen feet around any stump or collection of brushwood before setting fire to it.

(c) Be compelled during August, September and October, if not always, to keep proper persons on watch day and night on the land being cleared until all fires on the clearing are extinguished.

All mills, factories and locomotives operating in wooded or forest country must, under a penalty, have on their smoke stacks spark protectors of a mesh to be fixed by the Government.

Railway companies, mills and factories operating with steam power in wooded or forest country should, under a penalty, be made responsible for the protection from fire of the woods or forests within a given distance of their respective tracks or buildings.

Deaths.

BURTON. — Died at Belleville, on Wednesday, October 28, 1908, Harry Burton, aged 23 years.

The funeral will take place from his uncle's residence, Mr. B. Burton, 144 Albert St., on Friday, Oct. 30, at 10 a.m., to Christ Church, thence to Belleville cemetery.

All the world's a stage and all the actors try to monopolize the spot light.

AS A FAMILY MEDICINE

THERE ARE NO OTHERS BETTER FOR BILIOUSNESS, CONSTIPATION AND KIDNEY DERANGEMENTS THAN

Dr. A. W. Chase's Kidney-Liver Pills.

Lots of suffering would be avoided and much serious disease prevented if every family did as the writer of this letter suggests.

He has found out from experience with many medicines that there is nothing so good as Dr. A. W. Chase's Kidney-Liver Pills as a family medicine for biliousness and constipation.

Mr. G. W. Parish, Sturgeon Bay, Ont., writes: "In the year 1837 I was very bad with my kidneys. I could not work on account of my back being lame, sore and painful all the time. Though I carefully followed the directions of our family doctor he was unable to do me much good. At this time Dr. Chase was becoming known as an especially successful physician, and on the advice of my uncle, Charles Williams, I went to Dr. Chase at Ann Arbor, Michigan, and he gave me a box of his pills for kidney disease.

"You can scarcely imagine how much good they did me. They helped me so much that I went back to the doctor and bought a dozen boxes. We always keep them in the house as a family medicine, and I would not think of using any other."

You should not be misled by the various attempts of imitators, as the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box of Dr. Chase's Kidney-Liver Pills. One pill a dose; 25 cents a box, at all dealers or Edmanson, Bates & Co., Toronto.

A New Frisco.

San Francisco is arising from the ashes of her ruin with amazing rapidity, and though there has been practically but two years of actual construction work since the great earthquake and fire in April, 1906, about one-third of the burned-over area has been rebuilt already, and at the present rate of operation the devastated tract will be entirely covered with new, handsomer and sounder structures in the next three years, which will be about fifteen years sooner than was thought possible immediately after the fire.

Practically five square miles were burned over and 28,000 buildings destroyed, but by the first of the present year reconstruction was proceeding so rapidly that a new building was being finished on an average of every hour and forty-five minutes, and it is anticipated that with the return of easier conditions in the money market work will proceed even more rapidly.

But still more important than the rebuilding of the city is the fact that San Francisco, is for the first time in many, many years decently governed, the boodling officials having all been turned out of office and an honest and efficient administration installed. Moreover, the city has some 7300 fewer saloons than before the fire.

One of the remarkable features of the rebuilding is the fact that practically all of the work so far has been done without outside aid. Of the $175,000,000 that has been expended to date, all save about $4,000,000 has been home capital. Surely a most remarkable showing and one that shows the city to have been in a healthy financial condition when overwhelmed.

But it must be understood that most of the insurance companies having risks here dealt very generously with their clients. Practically all of them had the earthquake clause inserted in their policies exempting them from making good loss from that source. And while undoubtedly there was a comparatively small amount of damage done by the tremblor, yet few have avoided payment by taking advantage of that technicality. Many of the companies paid dollar for dollar, and it is estimated that of the entire loss of $350,000,000 which was insured for 70 per cent. of its value, approximately $200,000,000 has been paid.

San Francisco to-day has a larger population than before the fire, according to recent estimates. From 1895 up to the time of the quake, the population increased from 325,000 to 475,000, but immediately after the big shake there was a slump to near 150-000. The recovery was rapid, however, and the present population is approximately a half million.

Important Notice To Taxpayers.

Tax Payers will take notice that, after Nov. 1st, FIVE PER CENT. INTEREST will be added on all unpaid 1908 Taxes.

F. DAVEY DIAMOND,
Collector.

Crosby's Cure

By SIDNEY HODGES COLE.

Copyrighted, 1908, by Associated Literary Press.

In the cool gloom of the big, dim office the eminent physician looked keenly at Crosby and shook his head.

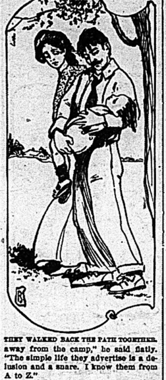
"Your trouble, my boy, is a common one. In fact, it is becoming alarmingly common in these days," he said. "You are afflicted with what I choose to call 'neurosis Americana;' in other words, plain ordinary overwork. You've got to drop it for a time.

"The financing of all these things you've had on hand just now you must leave to some one else or let them finance themselves. It is imperative that you get away, and at once. Go tomorrow, anywhere where it is quiet, and you can live for a time close to good old Mother Earth."

Crosby nodded wearily.

"Oh, yes," said he, "a camp up in the wilderness, I suppose"—

The physician interrupted him with a vigorous shake of the head. "Keep away from the camp," he said flatly. "The simple life they advertise is a delusion and a snare. I know them from A to Z."



THEY WALKED BACK THE PATH TOGETHER.

He leaned toward the younger man with a smile of understanding. "I was in the same boat once myself," he observed. "I am going to tell you what I did and advise you to go and do likewise. I started out with no fixed destination in view. I traveled until I found a quiet little town that suited my fancy. There I settled down, and in two months I was a new man. Suppose you try that plan."

The next morning Crosby hurriedly put his business affairs in order as best he could, and early afternoon found him speeding away en route for Ashville Junction.

At the Junction he took the branch line, bought a ticket for the end of the route and settled himself comfortably in the train to watch the many little villages from the window and pick out one that struck his fancy as a quiet place of abode for a month or more.

At twilight the train stopped before a little box of a station which bore the name "Freeburg" in gold letters on the sign above the tiny ticket office. In the soft light the place was decidedly attractive. Green stretches of meadow went rolling away to the distant hills, which loomed cool and majestic against the flaming western sky.

Crosby alighted and from the uneven station platform took in his surroundings with a sigh of satisfaction. From the station agent he learned of a farmhouse, a half mile away, where he would very probably find the accommodations he sought in the way of board and lodging.

He picked up his suit case and made his way thither. With no difficulty he found the place, a small white house, nestling beneath giant elms at the foot of the hills. The elderly couple who lived there received him hospitably, and Crosby, after settling with them as to terms, ate his supper and was shown to a rather bare but spotless room under the eaves.

It was a pretty vista from the one window. Just beneath it were three apple trees laden with fruit. Beyond them the great bulk of the hills rose against the pale of the evening sky, and to the left a little lake made a patch of silver in the green of the fields.

Crosby, tired out, retired early and slept as he had not slept for months. He was awakened early in the morning by wild whoops, much high pitched laughter and the noisy clatter of many children. He arose and looked out of the window.

The apple trees had borne strange fruit overnight. Among the branches he saw a half dozen small and irrepressible boys climbing about at imminent risk to their small necks. A score more, with a great deal of unnecessary noise, were climbing over the fence just beyond.

Crosby groaned. Plainly the serpent in multiple form had entered his little paradise. He dressed hastily and went downstairs. His host and hostess were awaiting him at the breakfast table, and to his somewhat irritable questions they explained that the place next door harbored a fresh air brood from the city; that they really did very little damage and were allowed to climb the apple trees at will.

Breakfast was a rather gloomy affair. Crosby ate little, but did a great deal of thinking. When it was over he went to his room and consulted the time table he had brought from the station. The first train either way left at 1 in the afternoon. In the apple trees below the fresh air infants were holding high and noisy carnival.

With a grunt of disgust Crosby rose and went downstairs. In the kitchen he informed his host that for unlooked for reasons he could not stay; that he would leave on the 1 o'clock train. Then, there being nothing else to do to kill time, he went out for a walk, taking the path that led to the little lake.

He had nearly reached the water when a great commotion sounded just ahead—screams, howls of terror and sobs. He broke into a run and, rounding a turn in the path, saw the cause of it all. In the water a small red head bobbed up and down beside an overturned boat, while a group of children close to the edge of the lake made the morning hideous with demonstrations of their grief and terror.

Crosby was a good swimmer. In a second his coat and shoes were off and he was swimming with sure, strong strokes toward the red head. In another few minutes he had the boy ashore, apparently but little the worse for his mishap.

As they reached the shore some one came running along the path and caught the dripping child from his arms. Crosby looked up to find a very pretty and very anxious faced young woman beside him.

"Oh, how can I ever thank you?" she cried impulsively. "The children are not allowed to come here. I never once thought of their disobeying us. If you hadn't been here"—

"It is really nothing, I assure you," said Crosby with as much dignity as his dripping clothes and his disheveled hair permitted.

"I must get him back to the house at once," she said.

"If you'll permit me to carry him," Crosby suggested, taking the boy from her arms. "Don't worry. He's really more frightened than hurt."

They walked back the path together, Crosby quite oblivious to his drenched clothing and the moist, chattering group of children that trailed them. He was aware only of the glowing cheeks of the girl beside him, of the pretty poise of her head, of the fine lines of her strong young figure and the softness of her voice.

"I wish I might call at the—the home here," said Crosby as he left her at the gate.

"I—that is, we—would be delighted if you would," she replied.

Crosby went homeward with his head in the clouds. In the back yard he encountered his host, gloomily whittling a stick by the chopping block.

"Say," he called as Crosby came up, "me an' Marthy's been talkin' it over—about your leavin', you know. We come to the conclusion that maybe it's them fresh air young uns that bothers you. If that's it I'll see they don't come nigher'n the fence."

"Don't do anything of the sort," said Crosby, with finality. "Annoy me? Not at all. Indeed, I find them interesting—most interesting. And, by the way, Mr. Dean, I'm not going. I shall stay all summer—as long as the fresh air youngsters stay, in fact."

It was early in September that the eminent physician sat in his big, dim office smiling over a letter he was reading.

"The neurosis Americana has completely disappeared," one portion of it ran, "but it was not quiet that did the trick. Indeed, I should lay the cure to noise and excitement."

The eminent physician frowned.

"I am sailing the 24th," the letter went on, "on the Colonia on a little trip to Sorrento and Sicily. In strictest confidence I will add that the trip is of the wedding variety."

"Ah!" said the physician, with a soft chuckle of comprehension.

Heroic Hens.

One does not generally ascribe heroism to the useful domestic hen, but in "The Bird Our Brother" Olive Thorne Miller quotes Sir Edward Arnold's story of the bravery displayed by a hen when a ferret escaped from confinement suddenly appeared before her.

She was in charge of a brood of chicks, and the ferret was evidently after something to eat.

"Imagine," says the narrator, "some rural matron abruptly confronted with a dragon or foaming tiger! Terror would paralyze her. She could and would probably do nothing but scream. But this fussy, foolish little Dame Partlett fluffed out her gallant plumage and went for the monster so vigorously, pecking and kicking and bewildering him, that the little ones were safely perched in a small fir tree before the dangerous beast had filled his wicked mouth with her feathers and angrily given up the chase.

"Our glorious order of the V. C. has been awarded for deeds which were the merest child's play compared to the valor of that heroic hen."

A similar devotion was exhibited by this universally misunderstood bird during a disastrous fire in Minnesota, known in the annals of the state as the Hinckley fire. When walking over the ruins, a man discovered a dead hen sitting close on the ground. He poked her with his foot, when she fell over and disclosed a lively little brood of ducks, which ran out, apparently glad to be released. She had protected them with her own life, for she could easily have escaped herself.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10,000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

Decorator and Designer

CHEAP WALLPAPER FOR A FEW DAYS

You may have your CHOICE of any PAPER in our stock for 20c per roll,—18 inch freize at 5c per yd. This includes papers up to 75c per roll. All other papers reduced in proportion See Window Display.

—**T. P. BROWN.**

20 per cent Discount on Carpets and Curtains.

ADDRESS AND PRESENTATION.

On the evening of October 19th, between sixty and seventy of the old friends and neighbors of Mr. and Mrs. W. A. Reid, on the Ridge Road, assembled at their home to spend a few pleasant hours with them and to bid them good-bye prior to their removal to a farm recently purchased by Mr. Reid, from Mr. J. S. Dench, second concession of Sidney, and to present Mr. and Mrs. Reid with two beautiful chairs and salad set, with an appreciative address:

Mr. Reid expressed his thanks for his wife and self and assured his many friends and neighbors there would always be a warm welcome for them in his new home. After lunch being served a pleasant time was spent in music and games. The gathering broke up about two o'clock after singing "Auld Lang Syne." Mr. Reid is one of our progressive young farmers, whom we are sorry to lose from our community.

Horseflesh commands a lower price in Arizona than elsewhere.

INGLE.

Fires are raging within four miles from here and the smoke is fairly choking. We hope that rain will soon come and extinguish them, as many dwellings are in great danger.

Melville, the seventeen-months-old son of Mr. and Mrs. W. Johnston, died last week. The bereaved parents have the sympathy of the community.

Mrs. R. H. McLaughlin and son, Donald, returned home last Sunday, after spending a few weeks in Thurlow.

Mrs. Ambrose Killorin is on the sick list.

Mr. Walter Snider, Blessington, spent Sunday at Mr. H. McLaughlin's.

Mrs. John McKnight has been laid up for some time with bloodpoisoning, but is improving.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Groves' signature is on each box. 25c.

PANDORA RANGE

Train up a girl in the way she should bake, and when she is married she will not depart from it.

"My mother taught me how to bake, and told me why she always used a McClary Range.

"Now I have a 'Pandora', and, as with mother, my troubles are few. After fire is started, I simply bring thermometer to desired heat and leave the oven in charge of the baking. It's built for faithful service.

"While housewives with other ranges are poking fire and changing dampers, I sit and read the 'Joy of Living'."

TIMELY TOPICS.

SUFFRAGETTE CAMPAIGN.

Some Clever Women Are Ardent In British Agitation.

The militant section of the women suffragists continues to carry on an active campaign. It also continues to sail in steam launches opposite the terrace of the Parliament building displaying large banners bearing the mottoes "Votes for Women" and other campaign slogans.

Five pretty and intellectual suffragists have lately made themselves conspicuous. Miss Dorothy Maloney, who will go down in the history of women's suffrage as the Dundee Bellringer, is, it may be said without offence, one of the beauties of the movement. As her name implies, Miss Maloney is of Irish extraction, and she has all your Irishwoman's feminine charm and nimble wit. It would be difficult to imagine a more feminine, refined-looking girl than the young lady who has quaintly earned immortality as the Bellringer of Dundee.

Miss Amber Reeves, who has been bracketed first in Part II. of the Cambridge Moral Science Tripos, is an ardent supporter of women's suffrage, and took part in a recent demonstration. This sweet girl graduate is a daughter of Greater Britain, for her father is the popular High Commissioner for the Dominion of New Zealand. Miss Reeves was educated at the Kensington High School, from where she went to Newnham, and is now going to enter the School of Economics; but in her spare time she will help the suffragist cause in any way in her power.

When Mr. Balfour Blushed.

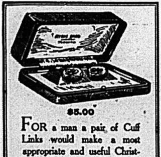
The ex-Premier of Great Britain, who recently celebrated his sixtieth birthday, enjoys one distinction over his predecessors since the time of Pitt—he is unmarried, although rumor would have mated him on many occasions. This bachelorhood has led to several amusing scenes in the House and elsewhere. Once, when Mr. Balfour was staying in a Scotch hotel, a post-card was brought to him, saying. "Baby going on nicely; I really think she has grown since you left." He blushed, and then it was discovered that another A.J.B. was among the visitors. By the way, Mr. Balfour's lucky month is July. Not only was he born in July, but the month marks his succession to the Premiership. That great event in his life occurred in July, 1902, and it was also in that month in 1878 he was present in Berlin as private secretary to his uncle, Lord Salisbury, when the famous treaty bringing "Peace with Honor" was signed.

Eighth Wonder of the World.

To realize fully the wondrous beauty of the Zambesi Falls, Rhodesia, one must have time to linger and watch the ever-changing scene. The depths of the chasm below are veiled from sight by the rising columns of opalescent mist and above the yawning abyss the sun glints and sparkles weaving the drops into a magnificent rainbow. Three hundred feet below roars and boils the swirling flood, as it emerges from the Boiling Pot, rushing on down the zigzag gorge between towering cliffs of rock, narrow, fierce, and of unfathomable depth. One feels that Rhodesia is indeed thrice blessed to possess within her territories the Eighth Wonder of the World.

Indian Bridal Custom.

In India, with its teeming and poverty-stricken myriads, parents often find it no easy task to marry off their daughters, for a wife has to be bought by the suitor. Widows are cheap, and when a father finds his daughter getting on in years he makes a widow of her by the simple process of marrying her to a bunch of flowers. When the flowers are dead she is technically a widow, and can be offered at a bargain price.



$5.00

FOR a man a pair of Cuff Links would make a most appropriate and useful Christmas Gift.

THE LINKS shown here are very strongly made from 14k. gold—and are reinforced where ordinary links give out.

ENCLOSED in fine case—and engraved with any monogram. The price is

$5.00

Grateful To Hiram.

By ANNA MUNSON.

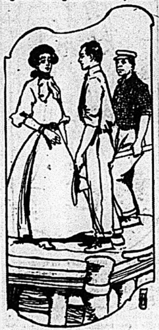
Copyrighted, 1908, by Associated Literary Press.

No one would have thought of Hi Tremway in connection with the tender passion. In Lakehead he had the reputation of being a woman hater of the most pronounced description, and Martha Curtis, a maiden lady of very certain age, who had "designs" on Hi, was the only person in all the Lake Loma district of whom the grizzled woodsman was afraid.

For that reason it seemed strange that Hi should take such an interest in the affair between Norma Downing and Bryce Logan. The Downings had a camp at the upper end of Lake Loma, and it was Gordon Downing who loaned money to Hi for the purchase of the gasoline launch in which he made morning and evening trips around the lake.

Loma, with its alternate bluffs and valleys, was largely dependent on this water bus for service. The wagon road ran far back into the woods to escape the uneven shore, and a trip by the road to the Downing camp was a matter of several hours. In the boat it required less than an hour, even when stops were made at the other camps, and Gordon Downing was regarded as a public benefactor when he started his water express.

Bryce Logan had come only that spring, but none of the regulars was regarded with greater favor by Tremway than this jolly young fellow. Logan always had a pleasant word and a cigar for the expressman when Hi drew into his dock with the mail and supplies.



"I HEARD YOUR PA SAY HE'S GOIN' TO TAKE YOU TO 'YURRUP.'"

Then, too, there were notes to be carried to the Downing camp and letters to be brought in reply. More than once Hi had arranged for a moonlight trip around the lake and had given his strict attention to the motor and the steering wheel, yet he could not help gathering that for some unreasonable prejudice Gordon Downing was opposed to the match between the two.

This fact caused Hi to think that the banker was not as clever as he was generally considered to be, since any man in his sober senses would be glad to have Bryce Logan for a son-in-law.

So matters stood when from the Pullman special there stepped on to the Lakehead platform a portly form that every one recognized as that of Gordon Downing.

It was the invariable habit of the banker to spend August with his family, and his appearance in the middle of July caused a little ripple of speculation. Sensations were few in Lakehead, and even so natural a happening as the anticipation of a vacation caused talk for want of better conversational topics.

Only Hi realized that there might be some connection between this untimely visit and the presence of Bryce Logan at the lake. He knew that Bryce had planned to return to town before the banker should arrive, and he guessed that some word of Logan's presence there had reached the capitalist, the more particularly as there was a glint in Downing's eyes that betokened trouble.

When the new arrival reached the landing he found Hi bent over the motor tinkering with its parts, failing to evoke the responsive pant that announced the conclusion of the repairs.

"I'm sorry, colonel," he cried as he looked up and pretended to see Downing's wrathful face. "It jest had to happen that the motor would break down the day you came. I ain't had no trouble all season until now; no, sir, not one little speck of trouble. Better leave your trunk and I'll fetch it over this evening. I guess I'll have it ready by then. Jim Saunders 'll take you over in one of his rigs."

Downing raved and swore at the thought of a four hour trip in a stiff riding buckboard, but Hi held out no hope, and presently the city man went rattling off behind a sorry pair of nags that constituted the livery service of Lake Loma.

Twenty minutes later, when Hi judged that the buckboard was well inland, the motor recovered its powers as though by a miracle, and, casting off the painter, Hi started up the lake. The postmaster, who had come down with the mail for the camps, called after him that he had forgotten the letters, but Hi's only response was a wave of the hand and the reports of the motor changed into a steady hum as the highest speed was thrown on.

Along the lake the campers, anxiously watching for the mail, were surprised to see the launch shoot past with a short toot of the whistle in lieu of the mail.

No stop was made until Logan's camp came in sight, and Bryce himself came running down to the landing.

"Gordon Downing's come," announced Hi. "I pretended that the boat was busted, and he's on his way to his camp with Jim Saunders' rig. It'll be a good three hours before he gets there. If you really want the girl we'll go and get her. It's an hour back to the landing, and before Downing finds out and can get back to Lakehead we'll be over in the next state, where you don't need a license. Are you coming?"

"You bet I am," cried Logan as he sprang into the boat. "I'll get a coat on the way back. Come on, Hi, let's get in motion."

"You don't need a coat," growled Hi. "I guess Miss Norma 'll marry you without a coat."

"I hope so," answered Logan gayly. "The main thing, Hi, is to get her to marry me."

There was a little point which formed a bay for the Downing camp, and on this point Norma was accustomed to wait for the launch and obtain Logan's letters. They found her now awaiting Hi's arrival, and the guide steered for the shore.

Hi turned his back on the greeting, but turned again to add his arguments to Logan's.

"You'd better, Miss Norma," he urged. "I heard your pa say he's goin' to take you to 'Yurrup' to get you away from Mr. Logan. He knows that he's here, and you know your pa when his eyes get small and he smiles. You been there, I guess. That's the way he looked when he started, and Jim Saunders' rig ain't goin' to help his temper none."

The threat of separation persuaded Norma, and Logan helped her into the launch. In another moment they were headed for Lakehead, and the whirring motor shook the boat as Hi crowded on every ounce of power.

With a straight run they were soon at Lakehead landing, and while Hi tied up the boat and thoughtfully removed the sparking plug Logan went in search of a rig. He returned presently with a team and drew up at the landing.

"Come ahead, Hi," he shouted. "We want you to be the best man. Jump in and we'll head for Cheswick and the parson."

Hi clambered out of the launch, and the red glowed under the tan as he approached the wagon.

"Do you s'pose that there'll be room in there for Marthy Curtis?" he asked shamefacedly. "She's been kinder pesterin' me to carry her on and off this ten years, an' I guess it's as good a time as any right now. It seems like it was in the air."

"Like hay fever," declared Logan, with a laugh. "I never knew before that matrimony was contagious, but jump in and we'll capture Martha in no time at all."

It was a quartet that started for the state line. Norma sat beside Logan in the front seat, and behind them Hi held Martha's hand and sought to explain the situation to the flustered damsel.

"You see, Marthy," he began, "'twasn't as though I didn't want to marry ye. It was jest that I couldn't get my nerve up. Then I saw that Mr. Logan had to be married right away if he didn't want to lose Miss Norma, and so long as I had my hand at it I wanted to make a good job all the way round."

"We should be very grateful to them," cooed Martha as she took a fresh grip on Hiram's hand to assure herself that this was no dream from which she would presently waken.

"We are," assented Hiram as he noticed that Logan was trying to drive with one hand. "And I'll bet that they're mighty grateful to us."

Who Breaks the Dishes?

"Jason," said Mrs. Calliper to her husband as they sat at dinner, "I went this afternoon to the china closet to get a certain glass dish that I wanted. When I picked it up I lifted only half of it. The other half remained on the shelf. Somebody had broken it and then placed it there in that way so that they wouldn't have to tell me about it. Now, of course, neither you nor I broke that dish, the children didn't break it, the servants didn't break it. Now, how did it get broken?"

"Expansion and contraction"—

"Jason!"

"Well, Cynthia," said Mr. Calliper soothingly, "you ought not to worry about that dish. Science has in recent years made great advances, and many things which were once mysterious are now as clear to us as the pages of an open book. But the question, 'Who breaks the dishes?' has never been answered, and it is not likely that it ever will be, and why, my dear, should you waste your time in trying to discover the undiscoverable?"

Valuable.

Parson—Young man, I'm surprised to see you fishing on the Sabbath. I shall certainly make it the subject of a sermon.

The Young Man—Waal, if it gives you an idea for a sermon maybe it's wuth it!—New York Life.

PASSENGER TRAFFIC

THE RITCHIE CO'Y, Limited,

ESTABLISHED 1856

Sale of Carpets, Rugs and Housefurnishings.

It has always been our policy to offer goods at reasonable prices, without sacrificing quality. This has been made possible by direct importations, large productions, large purchases and small margins of profit. Our present stocks are a little larger than we deem judicious at the present season and in order to rapidly reduce them, we have decided to make some very liberal reductions, which, coming at a time when housekeepers are planning what to buy in the Housefurnishing line, will present great saving opportunities and prove doubly attractive.

We print a number of the most prominent savings. Early buyers get best choice.

You will find ready large and fine assortments of Carpets, Rugs, Linoleumns, Oilcloths, Curtains, Window Shades. Portieres, Tapestries, Velours, Art Draperies, Denims, Cretonnes, Chintzs, Bobbinets, Art Silks, Cords, Gimps, Poles, Brass Goods, Screens, Carpet Sweepers, Cushions, Pillows, Quilts, Blankets, Couch Covers, Mantle Drapes, etc., etc.

Love is a dream and the wise man is one who manages to keep from being awakened.

THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT, 1907, BY McCLURE, PHILLIPS & CO.

"In the morning he insisted on my leaving him alone and going down to give the orders. I took the ledger, intending to send it aboard. It saved my life possibly. Solomon's bullet deflected slightly, I think, in passing through the heavy paper. Slade has told you about my flight. I ought to have gone straight up the arroyo, yet I could hardly have made it. I did not see him again—the doctor. My last glimpse—the old man—I remember now how the gray had spread through his beard—he was growing old—it had been aging labor. He stood there at his laboratory door, and the mountain spouted and thundered behind.

"'We will a name to suit properly gif it,' he said as I left him. 'It shall make us as the gods. We will call it celestium.'

"I left him there smiling—smiling happily. The greatest force of his age—if he had lived. Very wise, very simple—a kind old child. May I trouble you for a light? Thanks.

CHAPTER XXXV.

"NOTHING remained but to search for his body. I was sure they had killed him and taken the chest. I had little expectation of finding him, dead or alive. None after I saw the stream of lava pouring into the sea. One saves his own life by instinct, I suppose. There I was. I had to live. It did not matter much, but I continued to do it by various shifts. That last day on the headland the fumes nearly got me. You may have noted the rather excited scrawl in the back of the ledger? Yes, I thought I was gone that time, but I got to the cave. It was low tide. Then the earthquake, and I was walled in. Mr. Barnett's very accurate explosives—Slade's insistence—your risking your lives as you did, mites on the crust of a redhot cheese—I hope you know how I feel about it all. One can't thank a man properly for the life—

"Oh, the pirates! Necessarily it must be a matter of theory, but I think we have it right. Slade and I built it up. For what it's worth here it is. Let me see, you sighted the glow on the night of the 2d. Next day came the deserted ship. It must have puzzled you outrageously."

"It did," said Captain Parkinson dryly.

"Not an easy problem even with all the data at hand. You, of course, had none. On Slade's showing, Handy Solomon and his worthy associates thought they had a chest full of riches when they got the doctor's treasure—believed they owned the machinery for making diamonds or gold or what not of ready to hand wealth. It's fair to assume a certain eagerness on their part. Disturbed weather keeps them busy until they're well out from the island. Then to the chest. Opening it isn't so easy. I had the key, you know." He brought a curious and delicately wrought skeleton from his pocket. "Tipped with platinum," he observed. "Rather a gem of a key, I think. You see, there must have been some action even through the keyhole or he wouldn't have used a metal of this kind. But the crew was rich in certain qualities, it seems, which I failed stupidly to recognize in my acquaintance with them. Both Pulz and Perdosa appear to have been handy men where locks were concerned. First Pulz sneaks down and has his turn at the chest. He gets it open. Small profit for him in that. The next we know of him he is scandalizing Handy Solomon by having a fit on the deck."

"That is what I couldn't figure out to save my life," said Slade eagerly.

"If you recollect, I told you of the professor's plunge in the cold spring in a sort of paroxysm one day," said Darrow. "That was the physiological action of the celestium. At other times I have seen him come out and deliberately roll in the creek, head under. Once he explained that the medium he worked in caused a kind of uncontrollable longing for water, something having none of the qualities of burning or thirst, but an irresistible temporary mania. It worried him a good deal. He didn't understand it. That, then, was what ailed Pulz. When he opened the chest there was, as I surmise, a trifling quantity of this stuff lying in the inner lid. It wasn't the celestium itself, as I imagine, but a sort of byproduct with the physiological and radiant effects of the real thing, and it had been set there on guard, a discouragement to the spirit of investigation, as it were. So when the top was lifted our little guardian gets in its work, producing the light phenomenon that so puzzled Slade and inspiring Pulz with a passion for the rolling wave, which is only interrupted by Handy Solomon's tackling him. As he fled he must have pulled down the cover."

"He did," said Slade. "I heard the clang. But I saw the radiance on the clouds, and the whole thickness of a solid oak deck was in between the sky and the chest."

"Oh, a little thing like an oak deck wouldn't interrupt the kind of rays the doctor used. He had his own method of screening, you understand. However, this inconsiderable guardian affair must have used itself up, which true celestium wouldn't have done. So when Perdosa sets his genius for lock picking to the task the inner box, full of the genuine article, has no warning signpost, so to speak. Everything's peaceful until they raise the compound filled hollow layer of the inner cover, which serves to interrupt the action. Then comes the general exit and the superior fireworks."

"That's when the rays ran through the ship," said Slade. "It seemed to follow the deck lines."

"The stuff had a strange affinity for tar," said Darrow. "I told you of the circle of fire about Professor Schermerhorn's waist the day he gave me such a scare. That was the celestium working on the tarred rope he wore for a belt. It made a livid circle on his skin. Did I tell you of his experiments with pitch? It doesn't matter. Where was I?"

"At the place where we all jumped," said Slade.

"Oh, yes. And you dove into the small boat, trying to reach the water."

"Wait a bit," said Barnett. "If that was the exhibition of radiance we saw, it died out in a few minutes. How was that? Did they close the chest before they ran?"

"Probably not," replied Darrow. "Slade spoke of Pulz taking to the maintop and being shaken out by the sudden shock of a wave. That may have been a volcanic billow. Whatever it was, it undoubtedly heeled the ship sufficiently to bring down both lids, which were rather delicately balanced."

"Yes, for Billy Edwards found the chest closed and locked," said Barnett.

"Of course. It was a spring lock. You sent Mr. Edwards and his men aboard. No such experts as Pulz or Perdosa were in your crew. Consequently it took longer to get the chest open. When at length the lid was raised there was a repetition of the tragedy. Mr. Edwards and his men leaped. Probably they were paralyzed almost before they struck the water. Your bo's'n, whom Slade picked up, was the only one who had time even to grab a life preserver before the impulse toward water became irresistible. There was no element of fright, you understand—no desertion of their post. They were dragged as by the sweep of a tornado." Darrow spoke direct to Captain Parkinson. "If there is any feeling among you other than sorrow for their death, it is unjust and unworthy."

"Thank you, Mr. Darrow," returned the captain quietly.

"We found the chest closed again when the empty ship came back," observed Barnett.

"Being masterless, the schooner began to yaw," continued Darrow. "The first time she came about would have heeled her enough to shut the chest. Now came the turn of your other men."

"Ives and McGuire," said the captain as Darrow paused.

"The glow came again that night, and the next day we picked up Slade," said Barnett.

"You know what the glow meant for your companions," said Darrow.

"But the ship! The Laughing Lass, man! She's vanished. No one has seen her since."

"You are wrong there," said Darrow. "I have seen her."

In a common impulse the little circle leaned to him.

"Yes, I have seen her. I wish I had not. Let me bring my story back to the cave on the island. After the volcanic gases had driven me to the refuge I sat near the mouth of the cave, looking out into the darkness. That was the night of the 7th, the night you saw the last glow. It was very dark, except for occasional bursts of fire from the crater. Judge of my incredulous amazement when in an access of this illumination I saw plainly a schooner hardly a mile offshore, coming in under bare poles."

"Under bare poles?" cried Slade.

"The halliards must have disintegrated from some slow action of the celestium. It could be destructive, terrifically destructive. You shall judge. There was the schooner, naked as your hand. Possibly I might have thought it a hallucination but for what came after. Darkness fell again. I supposed then that Handy Solomon's crew were managing—or mismanaging—the Laughing Lass without the aid of their leader, whom I had satisfactorily buried. I hoped they would come ashore on the rocks. Yes, I was vengeful then.

"Of a sudden there sprang from the darkness a ship of light. You have all seen those great electric effects at expositions. Some one touches a button, you know. It was like that, only that the piercingly brilliant jeweled wonder of a ship was set in the midst of a swirl of varicolored radiance such as I can't begin to describe. You saw it from a distance. Imagine what it was, coming close upon you that way, dead on, out of the night—a living glory, a living terror."

His voice sank. With a shaking hand he fumbled amid his cigarette papers.

[To be continued.]

TITLES THRUST ON THE

Many Famous Englishmen
Wanted to Remain Commone

Books, magazines or periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day books with any kind of ruling, made to order.

Election Results In East Hastings

Corrected Returns Give McCargar a Majority of 1 in One Poll—Mr. Northrup's Majority is 1419.

Corrected returns from East Hastings show that Mr. Northrup has a majority of 1419. Following are the corrected figures:

	Maj. for Northrup.
Tyendinaga	121
Tweed village	140
Thurlow township	153
Deseronto	148
Hungerford township	150
Madoc village	23
Madoc township	391
Elzevir township	92
Tudor	60
Dungannon North	50
Mayo	18
Carlow	23
Monteagle	45

Mr. McCargar had a majority of 1 in Limerick.

Railroaders Danced.

The annual assembly of the local branch of the Brotherhood of Locomotive Engineers was held last evening at the Academy, and was in every respect a successful and enjoyable affair. The ball room looked very pretty, being appropriately decorated for the occasion. To music furnished by the Sprague orchestra, dancing was indulged in until an early hour this morning. Refreshments were provided at midnight. Mr. R. H. Ketcheson was master of ceremonies.

Mr. Henry's Funeral.

Under the auspices of the Masonic fraternity, the remains of the late Mr. Adam Henry were yesterday afternoon interred, and despite the fact that the weather was inclement there was a good turnout of the members of the Craft. At the deceased's late residence, Church St., services were held, being conducted by the Rev. Dr. Bishop, Pastor of Bridge St. Church. The floral tributes were numerous and beautiful. The bearers were members of the Masonic order, namely: Bros. J. McKeown, J. Wallace, H. E. Fairfield, W. J. Diamond, J. A. Roy and L. R. Terwilligar.

Children's Aid Notes.

At the last meeting of the Children's Aid Society, the Secretary, Mr. Checker, made his report, from which we make the following extracts: Mr. Checker has taken action in 43 Children's Court cases, in which different boys have been charged with these offences:

Stealing from and damaging property	13
Damaging property	1
Breaking into store and stealing therefrom	3
Arson	2
Theft	19
Truancy	2

Three boys have been sent to the Industrial School. Mr. and Mrs. William Johnson have looked after children who had to be sheltered, Mrs. Johnson giving the little ones the care of a mother. During the year seven children were cared for by the society, and two children have become its permanent wards.

After much discussion by nearly all those present, in which the work of Mr. Checker was highly commended, the meeting (which was reported in these columns the day after) adjourned to meet again this evening, Oct. 29. It seems at present that the question of finances is the rock on which the local Children's Aid Society may split.

A New Company.

Bradstreet's of even date notes that the Quinte Navigation Co., Ltd., with headquarters at Picton, has obtained a charter.

The Last Sad Rites

The funeral of the late Wm. McCreary took place yesterday afternoon from his late residence, Halston. The service was conducted by Rev. Mr. Woodger. Interment in Victoria cemetery. Bearers, R. Gitson, W. O'Brien, S. Barber, J. Carter, J Mather and Mr. Goodwin.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

With most men the beard is strongest on the right side.

To set a child's face toward gladness is to incline him to God.

Picton Men Were Heavily Fined for Getting Drunk

Picton, Oct. 28.—Three cases were heard in the police court this afternoon, the offenders being men who had been on the "Indian" list, and were charged with being drunk. Two were fined $12.75 each, and a third went to jail for one month in default of payment. A charge will be laid against the Hotel Quinte for selling liquor to a listed man as a result of one of the cases.

Appeal Dismissed.

Toronto, Oct. 28.—The appeal by Walter Lowrey from the order of the Master in Chambers, dismissing a motion to set aside the appointment issued by the Deputy Clerk of the Crown at Belleville, for the examination of the plaintiff for use upon a pending motion by the defendant, Magistrate Wood, of Madoc, for security of costs, was yesterday morning dismissed by Mr. Justice Britton, before whom in Chambers Mr. J. B. Mackenzie made the motion. As no one appeared for the defendant, no costs were allowed. The decision is without prejudice to the plaintiff as to any objection on the returns of the motion for security of costs.

The Late Mrs. Hodgson

The announcement made in our columns on Monday of the death of Mrs. Richard Hodgson, formerly of this city, came as a shock to her numerous friends here. Lately Mrs. Hodgson has resided in Montreal, but last month she went to Morrisburgh to visit her sister, Mrs. Henry, and despite the most assiduous attentions of her sister, and the best medical skill, she passed away last Sunday afternoon at the age of sixty-three. Mrs. Hodgson was the widow of Mr. Richard Hodgson, for a number of years the chief clerk in the Grand Trunk Railway freight department in this city. He died in 1893. Mrs. Hodgson was a daughter of Mr. Wm. Hunter, of Belleville. With the other members of his family she was born in the County of Northumberland, England, and came to Canada in 1853. Mrs. Hodgson was for nearly thirty years a resident of this city. She made many friends here, who admired her numerous good qualities. She was from childhood a member of the Methodist church. In its services and in work for it she found her greatest joy. Two brothers and five sisters are left to mourn her demise: Mr. John Hunter, of this city; Mr. Robt. Hunter, Kingston; Mrs. R. Witherspoon, Cornwall; Mrs. Neilson, Kingston Depot; Mrs. Henry, Morrisburgh; Mrs. Hopper, Montreal; Miss Hunter, Montreal.

The body was brought here, accompanied by two brothers-in-law, Mr. Henry and Mr. Hopper, and taken to the Belleville cemetery, where the Rev. Dr. Bishop, pastor of Bridge St. Church, conducted the funeral ceremonies.

Windsor, Oct. 29.—John Hardy, who is under arrest at St. Thomas on a burglary charge, is wanted in Windsor and if acquitted there will be brought here for trial. The local police have received Hardy's photograph and he has been identified at pawnshops, where he disposed of goods taken from the residence of Andrew Purocher here.

CRIME IN AUSTRALIA.

Commonwealth Is Remarkably Free From Offenders.

It is not quite thirty years yet since the last of the bushrangers met the end he deserved on the scaffold in Melbourne Gaol. The first records we have of the work of bushrangers dates back to about a century ago, so that bushranging lasted for about seventy years in the Antipodes. Yet to-day statistics prove that Australia compares favorably with any country in the world in the matter of criminality. During the past quarter of a century many prisons in New South Wales and Victoria have been done away with, or converted into stores or factories. To those who know the history of Australia this is a wonderful record, and one that speaks volumes for the sterling character of our kinsmen "down under," as a people. It may be doubted if any one among the younger nations of the world has ever been so severely and systematically handicapped in the early stages of its development as Australia; and certainly none has come so finely through the ordeal. For many years we gave Australia the dregs and sweepings of our populace, and adopted methods for their control which were calculated to make beasts of saints, let alone weak and erring men. For long after that period England made a point of unloading its least desirable "remittance men" in the Antipodes. Yet, in what must be considered an incredibly short space of time, Australia succeeded in flinging off its burden and purging itself from the bad blood of early days. It is a truly wonderful record of moral and material progress that Australia has accomplished, and now, with a progressive settlement and immigration policy, and the complete realization of federation, the beautiful island continent bids fair to develop in prosperity and population at a pace which no other portion of the Empire will find it easy to exceed

CATTLE MARKETS.

Cables Steady—Hogs Up 5c to 25c at Buffalo.

LONDON, Oct. 28.—London cables for cattle are steady at 11c to 13¼c per pound, dressed weight; refrigerator beef is quoted at 11c to 11¼c per pound.

Montreal Live Stock.

MONTREAL, Oct. 28.—(Special.)—At the Canadian Pacific live stock market the offerings were 1100 cattle, 25 milch cows, 700 sheep and lambs, 300 calves and 800 hogs. There was only one lot of prime beeves on the market, and they sold at 4¼c per lb., but they were not extra. None of the other cattle brought over 4c per lb., and much the larger number sold at less than 3c per lb., while the thin canners sold at 1¼c to 1¾c per lb. A good many of the cattle were not sold to-day. Milch cows sold at $30 to $50 each. Grass-fed calves sold at 2¼c to 3½c per lb.; good veals at 4c to 5c lb.; sheep sold at 3½c per lb.; lambs at 4½c to 5c lb. A fair trade was done in hogs, and prices were steady, with sales of selected lots at $6.50, and rough at $6 to $6.25 per 100 lbs., weighed off cars.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 28.—Cattle—Receipts, 100 head; quiet; prime steers, $5.75 to $6.25.

Veals—Receipts, 300 head; slow and 25c lower, $6 to $8.50.

Hogs—Receipts, 4300 head; fairly active and 5c to 25c higher; heavy, $6.10 to $6.25; mixed, $6 to $6.15; yorkers, $5.25 to $6.10; pigs, $4 to $4.75; roughs, $5 to $5.30; dairies and grassers, $5.25 to $6.

Sheep and Lambs—Receipts, 4000 head; sheep active and steady; lambs slow and 10c lower; lambs, $4 to $6.15; yearlings, $4 to $4.50; wethers, $4 to $4.25; ewes, $3.75 to $4; sheep, mixed, $1 to $4.25; Canada lambs, $5.90 to $6.10.

New York Live Stock.

NEW YORK, Oct. 28.—Beeves—Receipts, 2257; prime and choice steers steady; others dull and fully 10c lower; bulls steady; thin cows 20c lower; medium and good cows steady to a shade lower; steers, $3.50 to $6.50; oxen and stags, $2.75 to $4.65; bulls, $2.50 to $3.85; cows, $1.20 to $3.25; extra fat western do., $4.00. Exports to-day, 2350 quarters of beef.

Calves—Receipts, 2067; veals steady to a shade lower, closing weak; grassers and fed calves lower; western 25c to 50c off; veals, $5 to $9.25; few tops, $9.50; culls, $3.50 to $4.50; grassers and fed calves, $2.75 to $4; yearlings, $2 to $2.50; western calves, $2.65 to $4.75.

Sheep and Lambs—Receipts, 8628; sheep steady; lambs firm to 10c higher, quality considered; sheep, $2.50 to $4; culls, $1.50 to $2.25; lambs, $5 to $6.25; culls, $3.25 to $4.25.

Hogs—Receipts, 7144; market firm; state hogs, $6; pigs, $5.50.

Chicago Live Stock.

CHICAGO, Oct. 28.—Cattle—Receipts, 21,000; market weak to 10c lower; steers, $4.40 to $7.60; cows, $3 to $5; heifers, $2.50 to $1.25; bulls, $2.50 to $4.50; calves, $3 to $8; stockers and feeders, $2.50 to $4.65.

Hogs—Receipts, 32,000; market opened weak and closed strong; choice heavy shipping, $6 to $6.10; butchers', $5.96 to $6.10; light, mixed, $5.25 to $5.50; choice light, $5.50 to $5.80; packing, $5.50 to $6; pigs, $3.50 to $4.85; bulk of sales, $5.75 to $6.

Sheep and Lambs—Receipts, 20,000; market steady; sheep, $4.20 to $5; lambs, $4.75 to $4.85; yearlings, $4.85 to $5.15.

A Prince In Steerage.

New York, Oct. 29.—When the Nord Amerika, from Naples, arrived Tuesday one of the steerage passengers, a short, slender built man, swarthy in complexion, who announced that he was Prince Immanuel of Jerusalem, informed the ship news reporters that he had come to the United States to raise funds with which to build a universal university on the site of King Solomon's temple in the Holy City. If his plan is carried out, he said, any one may obtain a university education by correspondence at a small outlay. He was in uniform.

Sentenced to Four Years.

Orangeville, Oct. 29.—Convicted on a charge of theft, Clifford Cooper, 14 years of age, was yesterday sentenced by Magistrate Pattullo to four years in the Mimico Industrial School. On Sunday, Oct. 4, while the family were at church. Cooper entered the house of John Wright and stole a lady's gold watch. The lad was taken to Toronto last night.

W.C.T.U. Raps Uncle Joe.

Denver, Col., Oct. 29.—The National Women's Christian Temperance Union convention yesterday adopted with practical unanimity, a resolution commending the efforts of the churches to defeat the re-election of Jos. G. Cannon as a member of the Congress.

RAISING CHICKENS.

Her Theory Was Right, but a Flaw Marred Her Practice.

"Yes, farming is all very easy," the farmer said. "Any city person could make a success of it at the first go-off. Mrs. Jack Frost took the farm next to mine one year. Being from the city, she thought she would show us country people a thing or two about real farming. She began on a chicken yard.

"It was a fine yard. Pretty soon a hundred eggs hatched out. There were half hens and half roosters. Mrs. Jack Frost, before sailing for Europe, separated the two sexes, and, killing all the roosters, she sent them to her friends. A fine lot of spring broilers they made. They were no bigger than squabs.

"But when Mrs. Jack Frost got back from Europe a strange sight her chicken yard presented. It was nothing but young roosters—young roosters, crowing, young roosters swaggering about, while here, with flying feathers and squawks and blood, a terrible fight went on, and there, disregarded by all, lay the corpses of brave birds slain in single combat. At sunrise you could hear the crowing of those roosters all over the county.

"Poor Mrs. Jack Frost understood the theory of chicken raising all right, only in separating the young birds she mistook the males for the females, and vice versa."

WHEELBARROW TRAVEL.

A Common Method of Transportation In China.

"Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method," said a Hongkong man who is interested in the shipping trade in the far east.

"The wheelbarrow used in China differs from that used in America in the fact that the wheel is set in the center and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it.

"As a result the cooly in China will transport nearly half a ton on his wheel. Wheelbarrows are much used in the country, where the roads are but little developed, and I have heard that passengers sometimes make the entire trip from Shanghai to Pekin, a distance of 600 miles, by barrow.

"A two passenger barrow will make about twenty miles a day, and the cooly is content with a pay of about 20 cents a day or an average of about half a cent a mile for each passenger. On the level, well kept streets of the foreign quarters of such cities as Hongkong, Shanghai and Pekin the wheelbarrow cooly will struggle along with a load of six or even eight people."

A Hard Language.

"Leesten!" said the perplexed Frenchman. "When you give a sing, you cannot keep 'eem! So?"

"So," said the English instructor.

"But when a hones' man gives 'ees word, 'ee keep 'eem. So?"

"So," said the instructor.

"But when 'ee give 'ees word, 'ow can 'ee keep 'eem? Does 'ee take 'eem back?"

"No," said the instructor.

"But if 'ee keeps 'ees word 'ee does not give 'eem!"

"Oh, yes! If he does not keep his word he is not an honest man."

"Ah, I beegeen to see! 'Aving given 'ees word and not taken 'eem back, 'ee keep 'eem all ze while?"

"That's it!"

"Oh, la, la, la! What a language ees ze Englishe!"

Always on Time.

A man who is constitutionally late surprised his friends by leaving the house at 1 o'clock to keep a 2 o'clock appointment.

"Jim's watch must be wrong or he wouldn't have started so early," they said. "He will surely be on time to-day. Where in the world can he be going?"

"He is going to a funeral," volunteered one who knew. "He is one of the pallbearers. Very seldom are pallbearers behind time. I have known men who were late on every other imaginable occasion—late for their own weddings, even—but if chosen for pallbearers they always came up to the mark."

Mme. de Stael.

Bonaparte said France was not large enough for himself and Mme. de Stael at the same time and exiled her. Next to Bonaparte she was, through her salons, the most powerful personage in the country in her time. "If I were empress of the world," exclaimed the brilliant Mme. de Tesse, "I would command Mme. de Stael to talk to me forever."

A Bit of a Bull.

One day an Irishman was asked to come to work an hour earlier than usual. This he promised to do. Next morning he was an hour late.

"Shure, sor, I should have been no good if Oi'd come, as I was fast asleep."

Reversed.

"Yes," remarked the race horse, "all my achievements have been due simply to putting my best foot forward."

"Yes?" replied the mule. "Now, I find that I accomplish most by putting my best foot backward."

People who have little knowledge are always willing to scatter that little as far as they can.—Chicago Record-Herald.

THE PRICE OF PEPPER.

It Helped to Change the History of the Old World.

In the sixteenth century all the pepper consumed in England was bought by the English merchants from the Dutch, who brought it from India. Owing to racial jealousy, the Dutch traders in 1599 raised the cost from 3 shillings to 6 shillings per pound. This petty display of ill feeling caused considerable annoyance to the English merchants and aroused in them that feeling of independence which has always been so characteristic of our race.

They determined to import their pepper direct from India in their own ships and for this purpose formed a company, called the Governor and Company of Merchants of London Trading to the East Indies, which in latter days became eventually known as the East India company.

Their first voyages embroiled them in almost innumerable quarrels with the Dutch and Portuguese, and for a time the venture proved a financial failure. It was not until 1615 that the company became successful and obtained lucrative treaties, owing to their decisively defeating the Portuguese.

From this time on their possessions gradually increased, slowly at first and then very rapidly, until, by the wise and beneficial management of such men as Clive, Warren Hastings and Cornwallis, they exercised sovereignty over the greater portion of India.

In this manner it happened that an increase in the price of pepper momentously affected the history of mankind.—London Standard.

DIVISIONS OF TIME.

The Planet Venus Has Neither Days, Months Nor Years.

Though the fundamental division of time, the day, appears intuitive to most persons, it is well to remember that in the arctic regions the marking of this division is by no means easy. During several successive months the sun is either always below or always above the horizon, and the only method—a very uncertain one—of distinguishing between day and night is to observe the times of high and low tide. Division of time into months comes from the motions of the moon. Malays, Polynesians and Australian aborigines reckon time exclusively by months and days.

That greater unit of time, the year, characterized by the regular succession of the seasons, has presented the greatest difficulties to exact determination, partly because the seasons are not sharply distinguished in some regions, partly because of the universal desire to establish among the year, month and day simple relations which find no support in the facts of astronomy.

Inhabitants of Venus, if there are any, must find it extremely difficult to establish units of time. Venus always turns the same face toward the sun, so the planet has no day, and the lack of a moon deprives it of a month. Finally, it has no year, for its axis of rotation is perpendicular to the plane of its orbit and the latter is almost circular.

Tea as a Panacea.

In its early days in England a wide range of curative virtues was claimed for tea. In the Mercurius Politicus of Sept. 30, 1658, appears a marvelous advertisement extolling the virtues of "that excellent and by all physicians approved China drink called tcha and tay alias tee." And there is in the British museum a broad sheet issued by the founder of Garraway's in which its "particular virtues" are displayed at length. Among many other things, it "helpeth the headache, removeth the obstructions of the spleen, cleareth the sight and purifieth adult humors and a hot liver. It prevents and cures agues, surfeits and fevers, prevents consumptions, is good for colds, dropsies and scurvies and expelleth infection." No wonder that it "hath been sold for £10 the pound weight."—Westminster Gazette.

Smart.

Slick (to Blossom)—Is this Mr. Bloomer's office? Blossom—No. His office is on the other side of the passage. Slick (leaving the door open as he walks out)—Thank you, sir. Blossom—Hey! Come back and close that door! Haven't you any doors in your house? Slick—Yes, sir, but they all have springs on 'em. Allow me to show you, sir, my patent double back action door spring. It closes the door without a bang and will last a lifetime.

Discriminating.

"Of course," the British tourist was saying, "I understand that the winning party at your elections is the one that gets out the most voters."

"Not at all," replied the native. "It's the party that puts in the most votes."—Catholic Standard and Times.

Good Turns.

"De Writer was telling me he expected Critick of the Morning Bugle to do his book a good turn."

"Yes? Well, he seems to have given it two or three good turns. He roasted it pretty thoroughly."—Exchange.

Setting Him Right.

The poet was busy at his desk.

"The fire of genius is burning, eh?" queried the casual caller.

"Not so you can notice it," replied the rhymester. "That's my cigar you smell."

For a man to exert his powers in doing good so far as he can is a most glorious task.—Sophocles.

DANGEROUS SOCIALISM

A Report Is Introduced at the Baptist Convention.

Home Mission Report Says That the Movement Toward Organization of Producers Is Strictly In Keeping With Christian Spirit But That Danger Lies In Instilling Revolutionary Ideas Into the Uneducated.

Ottawa, Oct. 30.—In the home mission report laid before the Baptist convention yesterday there were reference to Socialism.

"In its varied forms," said the report, "labor unions, trades unions, professional associations and farmers' clubs, Socialism represents an emergence of a world-consciousness and world-conviction that at the present day social and economic conditions are not right; that the race cannot reach its highest development under these conditions; that the principle that should regulate social and business life should be co-operation and non-competition."

Every one of the basic principles of the movements were embodied in the constitution of the church, but the dangers arising out of the work of the so-called Socialistic leaders in such a place as Toronto were emphasized.

"There are constantly forming in the very heart of the city new communities of foreign peoples," said the report. "These people are scarcely landed in the city before the Socialist leaders are after them. The new principles taught them are revolutionary rather than reformatory." It was emphasized that the church should endeavor more and more to cope with this evil.

The total income of the home mission board last year was $32,000 and for this year $38,790.

The following officers were appointed: President, Thomas Urquhart, ex-mayor of Toronto; first vice-president, Rev. J. C. Sycamore, Hamilton; second vice-president, Albert Matthews, Ottawa, and secretary, Rev. C. J. Cameron.

BIG FARM ENTERPRISE.

Company to Take Up Half a Million Acres of Land.

Winnipeg, Oct. 30.—A remarkable project which seems incredible of realization is outlined by A. B. Exley, who styles himself "General Manager of the Anglo-Canadian Land, Grain & Stock Co.," which was recently incorporated at St. Pierre, South Dakota, with a capitalization of two and a half millions, and with the avowed intention of colonizing five hundred thousand acres of land in the Canadian Northwest and working it entirely with English labor, as a single enterprise. The company hopes to establish itself in the neighborhood of Vermilion.

Ad. Writers' Get Busy.

Barcelona, Oct. 30.—The Barcelona municipality has offered a prize of $1,000 for the best poster design for advertising Barcelona as a winter resort, and the mayor of the city has especially invited the competition of American artists. The poster must be 1.25 by 0.90 metres, with space for the words "Barcelona Ciudad de Invierno." The designs must reach the "Secretaria de la Comision de Atracciones de Forasterros" before Dec. 15, 1903.

Promised $5,000 Hush Money.

San Francisco, Oct. 30.—E. A. S. Blake, the contractor convicted of attempting to bribe John M. Kelly to qualify on the jury to try Abram Reuf and vote for Reuf's acquittal, made a full confession in court yesterday.

He told how after he was arrested Frank J. Murphy, Reuf's associate counsel, promised him $5,000 if he would keep quiet.

TWO MORE ADDED.

Lemieux and Hunt Are Elected—Liberal Majority Now 51.

Toronto, Oct. 30.—The Liberal party adds two more to its majority—Hon. Rodolphe Lemieux, Postmaster-General, was yesterday elected in Gaspe, Que., over W. Flynn by 1,200 plus.

In Chicoutimi and Saguenay, A. B. Hunt (Lib.) was elected by several hundred over Girdar (Ind.).

In Quebec the Liberals number 54.

The Government majority is now 51.

Dawson City, Y.T., Oct. 30.—Four candidates are already nominated for the Federal election on Jan. 19, the Liberals having brought out F. T. Congdon and Robert Lowe, M.P.P., and the Conservatives George Black and J. A. Clarke.

Another influential section of Liberals have asked W. W. B. McInnes to run, but his answer is not yet received. There is likely to be an independent in the field.

Victoria, B.C., Oct. 30.—A recount of ballots in the Templeman-Barnard contest began yesterday morning before Judge Lampman. The press were excluded and the greatest care taken to exclude all not directly concerned. Up to noon seven out of the 25 boxes had been gone into and argument was heard, but decision will not be given on disputed ones until the end.

ENGLISH DRINK MORE.

John Burns Makes Comparison That Gets Him Into Trouble.

London, Oct. 30.—John Burns, the Labor leader and president of the local Government Board, drew down upon his head the anathemas of the Laborites when in the House of Commons yesterday afternoon he intimated that the main disadvantages under which the British unemployed labored, as compared to the unemployed in America, was that the Britons drank more than their transatlantic confreres.

Mr. Burns repudiated the suggestion that the difference lay in the fact that the American unemployed had money in their pockets.

"I have been in America three times," he said, "and the only difference I saw between the unemployed in America and those of this country was that the former, for a short time after losing work, were better dressed. Many of them do not drink so much as do many British unemployed workmen, but British workmen have an advantage in the number of days they are idle."

Loud cries of "It is untrue," "It is a shameful comparsion," greeted Mr. Burns' statement.

LAKE MAY LEAVE.

Militia Inspector-General May Take Imperial Job.

Ottawa, Oct. 30.—Major-General Lake, Inspector-General, may leave Canada at any moment for the purpose of taking up an important post in the imperial service. Gen. Lake, who is a brother of R. S. Lake, M.P. for Qu'Appelle, has been in Canada since 1904, and some years earlier served a term as quartermaster-general. He had that rank in 1896, and it had come to light that Sir Fred. Borden tried to get him appointed general officer commanding in 1898, the War Office refusing on the ground that he was too junior for the position. Major-General Lake on coming to Canada in 1904 as chief of the general staff, organized the new method of administration by a militia counsel, and has shown great efficiency. He has held the post of inspector-general for about a year.

One Wife Deported.

San Francisco, Oct. 30.—The immigration authorities at Washington have ordered a temporary division in the family of Robert Hu Tong Bosman, the Hong Kong millionaire, who was refused admission because of his belief in polygamy and because he was accompanied by two wives. The Government has ruled that Bosman may stay in this country with one of his wives, but the other must be deported.

Hope Given Up.

London, Oct. 30.—Wreckage picked up in the North Sea confirms the fears that the schooner Yarmouth foundered two days ago while crossing from the Hook of Holland to Harwich.

The Yarmouth was a channel freighter belonging to the Great Eastern Railroad Co.

She carried a crew of 23 men, and it is believed that they all perished.

Votes For Colored Men.

London, Oct. 30.—(C.A.P.)—At Durban, South Africa, the national convention decided to propose the enfranchisement of colored people, subject to severe education and property test. It is anticipated a majority of whites in the Transvaal, Orange River and Natal will not accept unless it is energetically supported by the Imperial Government.

Suffragettes Are Jailed.

Another Crowd of Agitators Sentenced In London.

To Bring Claims Before Public Two Women Chain Themselves to Grill in Ladies' Gallery of House of Commons and Cannot Be Put Out Until Fetters Are Filed Through--Grill Had To Be Cut Away.

London, Oct. 30.—All the suffragettes, with the exception of two, who were arrested Wednesday night during the disorders in and around the House of Commons, were yesterday morning arraigned in court and fined $25 each. They refused to pay and were consequently sentenced each to one month's imprisonment. Of the two exceptions one was a girl under 21 years of age and the other a woman who secured an adjournment to lodge a charge of assault against the constable who arrested her.

The length to which suffragettes will go to attain an object and to strikingly bring their claims before the nation, was illustrated in the House of Commons when it was discovered in the midst of a consideration of a bill, that two women had chained themselves to the iron grill in the gallery. Their chains had to be filed and portions of the grill cut away before they could be ejected.

The House was considering the Licensing Bill, when a suffragette from the gallery shrilly demanded that women be allowed to vote, and thrust through the grill a placard on which were printed the precise demands of the suffragettes. Mr. Reinnant, speaking on the bill, attempted to continue when a man threw down a bundle of papers and cried, "I am a man, and I object to injustice to women."

Attendants made a scuffle in ejecting this disturber. Over the sounds of this incident rose greater disorder in the gallery. It was discovered that two suffragettes had chained themselves to the grill and were shrieking out: "We demand votes for women." Excitement rose, and the members left their seats to watch the gallery. An attempt to pull the women away was ineffectual, and a run was made for files. Parts of the grill were cut away and then Muriel Matters and Helen Fox, the suffragettes, were led away, their chains filed outside, and they were put out of the House, not being arrested, as their acts were not illegal.

At the same time the police made a sortie into a bunch of suffragettes that started a harangue before a crowd in front of the equestrian statue outside and arrested 13.

The galleries have been temporarily closed.

Still Smarting.

London, Oct. 30.—(C.A.P.)—At a meeting of the council of Bradford Chamber of Commerce, Mr. Illingworth moved that the council endorse the resolution adopted at a meeting in Leeds, which protested against the false statements contained in an article published in Industrial Canada. Mr. Whitely contended that by keeping the matter before the public they would only be assisting the cause of those Canadians who are seeking higher duties put on British goods. After some discussion the resolution was agreed to, Whitely voting against.

Accidentally Shot.

Huntsville, Oct. 30.—While driving from Utterson to Windermere, a young man named Jacob Eaton was shot and instantly killed.

Eaton, in company with his brother and a companion, all employes of the Utterson Lumber Co., and Eaton, who was lying down, either accidentally discharged the weapon with his foot or the jolting of the wagon set it off.

The ball entered the young man's ear, glancing upward through the brain.

Millionaire Weds His Stenographer.

Fitchburg, Mass., Oct. 30.—Geo. A. Whitney, millionaire real estate owner of Springfield, married his stenographer, Miss Sadie M. Russell, in this city yesterday. The wedding was the culmination of a five-year romance. Whitney is the son of Andrew Whitney, the Springfield man who caused a sensation many years ago by marrying a servant girl.

Receivership Asked For.

New York, Oct. 30.—Application for a joint receivership for the Hudson River Electric Power Co. and seven other kindred corporations, having an aggregate capitalization of $15,000,000, was made yesterday before Federal Judge Ray by lawyers representing the bondholders.

Barrison Sister Killed.

Vienna, Oct. 30.—One of the famous five Barrison sisters was instantly killed yesterday in an automobile collision near Rosenheim, Bavaria. She is the first of these sisters—who created a furore in all the capitals of Europe and in the United States—to meet death.

Suicide Power of Suggestion.

Victoria, B.C., Oct. 30.—T. Griffiths, proprietor of the St. George's Inn, Esquimault road, shot and killed himself yesterday. He had been reading accounts of the suicide of a farmer of the same name shortly before he suicided.

To Cell For Theft.

London, Ont., Oct. 30.—Geo. Brener was yesterday sentenced by Judge Elliott to serve two years and a half in Kingston Penitentiary, on a charge of housebreaking and stealing jewelry valued at $175.

Army Reservists In Canada.

London, Oct. 30.—(C. A. P.)—Mr. Haldane states that 3,153 army reservists reside in Canada.

Eleven For Acquittal.

Chatham, Oct. 30.—Elliott Kimball, who is held on the charge of murder in connection with the shooting of W. J. Healey, is being held in custody pending instructions from the Attorney-General's Department. The crown will press the prosecution at the Spring Assizes.

It is understood that the first vote taken after the jury retired was 7 to 5 for acquittal, the five being in favor of a verdict of manslaughter. The case was then fought out and the final vote stood 11 to 1 for acquittal, one of the 12 refusing to give in and holding out for a verdict of manslaughter.

Severed Head Startles Farmer.

Adrian, Mich., Oct. 30.—A dried human head, apparently cleanly severed from the body and with the mouth stuffed with rags, rolled out of a pile of sacks yesterday in an outbuilding on the farm of the late Samuel Bryant, where threshers were working.

Bryant, who has been dead for six months, lived alone on his farm for several years after having had trouble with his wife.

Close examination indicates that the head was severed probably by a saw. Dr. Wilcox declared it could not be the head of Bryant, but neighbos are unanimous in saying it is.

Two Hundred and Eighty Prisoners.

New York, Oct. 30.—Two spectacular raids of alleged pool-rooms were made yesterday by the police at different places on the east side of the city. In the aggregate 280 prisoners were taken and in addition, it is said, a considerable quantity of gambling paraphernalia was confiscated.

At both houses raided it was necessary to use axes to gain entrance, and at one of them the heavy doors were impregnable and it was necessary to breach the wall of the buildinf. Not one inmate of either house escaped arrest.

Boy Negligent; Charge Is Murder.

St. John, N.B., Oct. 30.—Chester Urquhart, aged 14, of Covered Bridge, York County, is under arrest on a charge of murder.

Urquhart and George Clary, another young boy, were out shooting on Oct. 16 when a bullet from the prisoner's rifle penetrated Clary's neck, inflicting a fatal wound. The coorner's jury returned a verdict of culpable negligence against Urquhart.

Judgment Against C.P.R.

Chatham, Ont., Oct. 30.—Before Justice Latchford, at the High Court session just concluded, judgment was given for $1,000 to the McDonell estate against the C.P.R. The case was the outcome of the killing of the late Augustine McDonell a year ago, the death resulting, it was alleged, through a defective C.P.R. crossing.

Deadly Fight In Tennessee.

Chattanooga, Tenn., Oct. 30.—Constable John Carlock was painfully injured. Oscar Henderson received wounds which caused his death a few hours later and G. S. Henderson was seriously wounded in a revolver fight resulting from an attempt to arrest the men for trespass.

English Editor Here.

Ottawa, Oct. 30.—Francis M. Hirst, editor of The London Economist, who is making a tour of Canada, spent yesterday in Ottawa, leaving for Toronto last evening. He will deliver an address before the Ottawa Canadian Club a week from Saturday.

The Sherlock Holmes of The Slater Shoe

HE was not disguised!

And, he modestly disclaimed being the great "Sherlock."

He protested that he was not even "the Doctor."

But, he was a sure-enough S. H. Sleuth and knew how to interest an uninterested Client.

'Said he could do us some good if we would sit up and listen.

'Said there were only 9 Stores in Montreal that had genuine Slater Shoes to sell, but there were over 20 Stores claiming to sell them.

'Said he could prove it.

'Said he could give us names and dates, witnesses and full particulars.

'Said he would need a month, may be, to properly cover the City and procure the evidence.

He got the job,—did that Sleuth,—and his Assistant.

And, we're mighty glad he got it.

Because, we had no idea how widely "The Slater Shoe" was being substituted and fraudulently misrepresented.

❧

His typewritten report and evidence make startling reading.

Shoe Retailers who would not steal a dollar to save their lives deliberately lying to steal a Market built up around "The Slater Shoe" brand through years of effort, square-deal, quality, fixed-price and continuous advertising.

Good Churchmen who did not hesitate to "equivocate" in order to steal a march on the intelligence of their customers by tricky quibbles on the word "Slater" to sell other Shoes than "The Slater Shoe."

Salesmen who thought it clever to deceive their Customers into thinking they were being shown "The Slater Shoe" when the Shoes shown had never been within a mile of the Slater Shoe Factory.

Here and there were some honest men who frankly said, "No, we don't keep 'The Slater Shoe,' but we have Shoes which we consider just as good," etc.

Other fairly honest men who said, "No, we don't keep them, and wouldn't if we could," etc.

❧

All honor to the "Square Heads," friends or foes, who came out candidly and said: "No, we don't keep the Slater Shoe," even if they damned it in the next sentence.

But, what of the 28 Montreal Shoe Retailers, or their Salesmen, who, when asked by Sherlock for "The Slater Shoe" (they never had a pair of), said:—

"Oh, yes; we have Slater's make of Shoes!"

"Oh, yes; we have Frank Slater's Shoes!"

"Oh, yes; we have George Slater's Shoes!"

"Oh, yes; we have Ben Slater's Shoes!"

"Oh, yes; we have Slater's Strider Shoes!"

"Oh, yes; we have Slater's Invictus Shoes!"

❧

Now, Reader, we have no fault to find with any retailer who tries to sell his own Shoes against "The Slater Shoe" in fair, square, open competition.

We do not even lift an eye-brow at the man who finds it necessary to talk down "The Slater Shoe" in order to sell his own.

But, what we do object to is the dishonest attempt to deceive consumers into thinking they are getting the genuine 1869 "Slater Shoe" when they are being offered something entirely different from it, staged perhaps for the very purpose of deception.

Any Retailer, or Salesman, who will countenance such tactics is not to be trusted.

He will "do" his Customers in other ways if he will "do" them in that way.

And, our "Sherlock Holmes Records" prove that many Shoe Dealers in Montreal are ready to "do" Customers in that way if the Customers will stand for it.

This is why we will, in future, play up the Slate feature of our trade-mark more prominently, although the Courts have ruled that we (The Slater Shoe Co., Limited) have exclusive right to the use of "The Slater Shoe" name as our brand.

Observe that no Shoe is a genuine "Slater Shoe" unless it bears the Slate mark on it with the Makers' price stamped on it to prevent possible overcharge.

Therefore,—when you want the genuine 1869 Slater Shoe, you will forestall deception, make fraud more difficult, and help along the Square Deal, by asking for it as—"The Slater Shoe," and observing that it is branded with a Slate.

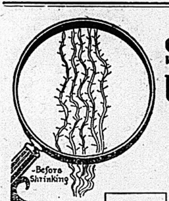
Slater Shoes are made from the most carefully selected materials. Always have been. Always will be. Also, they are made by the wonderful machines of the Goodyear Welt system in their most improved form, insuring comfort and durability.

P.S.—Our "Sherlock Holmes" is now working up evidence in other cities. His book of experiences, giving names, dates and particulars of interviews with Substituting Dealers will make interesting and amusing reading. Do you want a copy when published?

17

The only dealers in this City who can supply the genuine Slater Shoe are as follows:

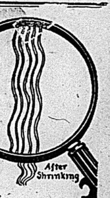
The Slater Shoe Store--J. J. Haines, Belleville, Ont.



Stanfield's Underwear

A Talk by the Maker to the Wearer

(Chapter 2)



Shrinking The Wool

In its natural state, wool consists of long, curly, silky fibres, dotted with tiny prongs or branches. These prongs, when wet, interlock with the long strands and pull together, to protect the sheep from rain and dampness.

When wool is woven, the same thing would happen, were it not for the Stanfield process, which makes the prongs on each strand of wool lie down until the knitting is finished.

Stanfield's Unshrinkable Underwear is made absolutely unshrinkable by this special process, invented and perfected by the Stanfields. It is the only method of treating wool, which renders it unshrinkable and uninjured.

One way of getting rid of the prongs, is to burn them off by plunging the wool into a tank containing lime. As the prongs are a part of the wool, naturally the lime will "eat" the wool as well as the prongs. This is why some imported, and some Canadian-made "Unshrinkable," Underwear won't wear. It has been treated with lime in the effort to make it unshrinkable.

The illustrations above, show wool under the microscope both before and after going through the Stanfield process. They show that all the prongs that make it shrink are made harmless, BEFORE the Underwear is woven. And as there is no "shrink" in the wool, there can be no "shrink" in the Underwear.

Every garment, bearing the Stanfield label, is sold with our standard guarantee of "Money Back If It Shrinks."

All sizes from 22 to 70 chest measure. The label tells the weight—RED label for light—BLUE label for medium—BLACK label for heavy weight.

OCTOBER

30

Friday

Grow stronger, and not harder, in
the strife,
Filling each moment with a noble
act.
—J. R. Lowell.

THIS DAY IN HISTORY.

Yeomen of the Guard formed, 1405.
Gambetta born, 1838.
Death of Hon. Sir J. J. C. Abbott, 1893.
Hon. Honore Mercier died, 1894.

TIMELY TOPICS.

No use trying to tell us that all the street sweepings go on the parks. A lot goes in the cheap cigars.

• • •

First snow on October 30. Get the shovel oiled up, brethren.

• • •

Up to the hour of going to press, the Grit candidates in either East or West Hastings had not asked for a recount.

• • •

Eight weeks from to-day will be Christmas. Vote for Santa Claus and buy 'em early.

• • •

And a week from next Monday will be Thanksgiving day. While not having quite so many things to be thankful for as we expected, we still propose to sing the Doxology on that day.

• • •

A few weeks more now, and we'll be hearing the annual talk about a sewerage system for Belleville. If we could build a sewerage system with wind, this beautiful city would have had a magnificent one long ago.

• • •

By the way, there's a by-law to provide money for the support of the Corby Public Library, which goes before the ratepayers next January. Time to begin taking stock of these matters.

• • •

Speaking of that, reminds us that the Corby offices are to be removed to Montreal next month. Sorry for that. Mr. Corby's confreres should reconsider that determination. They won't find any such fresh air and delightful scenery in Quebec as we have here. In such matters we XL.

• • •

Hamilton Times: Sir Frederick Borden may not be cut out for a superintendent of a Sunday school.

He isn't, old chap, he isn't.

• • •

Grit Minister of Mines was beaten. He didn't assay up to the popular standard.

• • •

A Liberal named Cash won in Saskatchewan on Monday. Cash also won in Prince Edward, they say.

• • •

The Boers have sent telegrams of congratulation to Laurier upon his success. Redmond has yet to be heard from.

• • •

Among the telegrams of congratulation NOT received, was one from that eminent "foreigner" Lord Dundonald, whom Laurier and his friends hounded out of Canada.

• • •

Attorney-General Campbell, of Manitoba, an old man, who never was robust and is now in poor health, was assaulted by a 20-year-old lawyer and footballer named Howell, whose forbears, we are ashamed to say, came from the Bay of Quinte district. It was a cowardly and despicable thing to do. If the political bully is not severely punished he should be.

• • •

It looks as if Emperor Bill may succeed in making a lot of national bad blood in the Old World. If William were not the Kaiser he might be a European Billy Maclean.

• • •

THE TWEED NEWS SAYS:

Has anybody seen McCargar?

McCargar will be able to sympathize with Borden.

The latest report that McCargar gave out just before Monday was that he had been out working in the northern part of the Riding and his prospects were bright.

The Toronto Star (Liberal) makes the following sensible suggestion:

"The new Parliament ought, in its first session, to enact a law compelling the publication of contributions to campaign funds. This would at once put a stop to contributions from corporations receiving or expecting public favors, or contractors engaged in public works, or persons selling supplies to the Government. No political party would dare to face the public opinion that would be aroused against contributions from those having so clear a financial interest in the election."

The Liberal party will never adopt such a policy until it is in Opposition.

DR. A. W. CHASE'S CATARRH CURE... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

McKeown's Drug Store

Nimrods, Attention!

Rules Which Given Sportmen's Rights in Ontario.

Now that many mighty hunters are these days preparing to go out and play havoc with game of all kinds, it might be well for them, before they start, to cast their eagle eyes over the following rules and regulations:

OPEN SEASON.

No person may hunt, take, kill or destroy—

Any deer, except between the 1st day of November and the 15th day of November.

Any quail or wild turkeys, black or grey squirrels, except from the 1st day of November to the 1st day of December in any year.

Any swans or geese, except from the 15th day of September to the 30th day of April in the following year.

Ducks of all kinds or any other water fowl except from the 1st day of September to the 31st day of December in any year.

Hares, except from the 31st day of October to the 31st day of December in any year.

BEAVER, OTTER, MUSKRATS.

No beaver or otter shall be hunted, taken or killed or had in possession by any person before the 1st day of November, 1910, and thereafter no beaver or otter shall be hunted, taken or killed, or had in possession of any person between the 1st day of April and the 1st day of November, nor shall any traps, snares, gins or other contrivances be set for them during such period.

No muskrats shall be shot during the month of April, nor shall any muskrat house be cut, speared, broken or destroyed at any time.

SUNDAY.

No person shall, on the Lord's Day, hunt, take, kill or destroy any game or use any gun or other engine for that purpose.

A.-Y. P. A. Officers.

A meeting for election of officers of the A.Y.P.A. took place last evening in St. Thomas' Church Hall, Rev. G. R. Beamish in the chair. The following officers were elected:

President—Mr. Spooner.
1st Vice-President—Miss Carroll.
2nd Vice-President — Miss R. Milburn.
3rd Vice-President — Mr. R. Gorman.
Secretary—Mr. P. W. Geen.
Treasurer—Mr. Chas. Jones.

A programme was decided upon, which should prove very entertaining. It was decided to hold the meeting every two weeks.

Dafoe-Sharp.

A very pretty home wedding took place at the residence of Mr. and Mrs. W. W. Sharp, 4th Con. Sidney, when their eldest daughter, Addie Bell, was united in marriage to Mr. Robert Hiram Dafoe, of Rawdon township. The bride, who was becomingly dressed in cream chiffon taffeta, trimmed with cream satin, and carried a bouquet of white carnations, was given away by her father. As the bridal party entered the room and took their places under a beautiful floral arch, Miss Minnie Wilson played Mendelssohn's wedding march. The bridesmaid was Miss Annie Sharp, sister of the bride. She wore a pretty cream dress of panama, trimmed with silk to match, and carried pink carnations. Mr. Fred Cook, Rawdon, did honors for the groom. The marriage was solemnized by the Rev. W. D. P. Wilson, pastor of the 4th Con. Church, Sidney. The wedding breakfast was a very dainty one, and the bride received many handsome presents.

PERSONAL AND SOCIAL.

J. C. Rankin, of Picton, has been moved to Belleville by his firm.

Mrs. R. Vivian, of Thurlow, is visiting Mrs. J. D. Ford, Murney street.

Mrs. Sanderson, of Penetang, is visiting her brother, Mr. Watson, in this city.

Mr. Harold Clarke, of Chatham, has been transferred to the Standard bank branch in this city.

Mr. J. W. Gordon, Chief Inspector of the Ontario License Department, was in the city yesterday. He found the books and business of Mr. Hugh Walker, the local License Inspector, in excellent shape.

At the Quinte: J. P. Dunning, M. R. Almour, O. B. Kelly, J. Samuel, A. Findlay, Thos. Pearson, O. W. Johnston, Montreal; R. McGowan, A. Skinner, H. R. Douglas, A. Secord, G. E. Banting, W. Pemberton Page and wife, J. Neice, A. Vaughan, D. Morrison, O. J. Oakley, F. J. Sharpe, C. Y. Farr, T. R. Caldwell, J. Guest, J. E. Bennett, H. Stell, H. Gourlis, J. A. Erskine, W. Dolger, F. Wilkinson, W. A. McGee, W. L. Baker, H. A. Rose, O. McEachern, Toronto; G. H. Lockett, J. T. Sutherland, and son, Kingston; H. Blade, Peterboro; J. Harris, New York; R. M. Wenslon, Picton, R. Smith, Detroit; J. B. Weller, Colborne; W. Miller,

Bridge St. Ladies Aid Held An Old-Fashioned Tea.

It was an "old-fashioned tea meeting" in name only that the Ladies' Aid of Bridge St. Methodist Church provided for their numerous friends of that and other congregations in their Sunday school rooms last night. In our reporter's opinion, "it was right up-to-date." If it had been really "old-fashioned" the audience would have been bored with tedious, prosy, lengthy speeches by old-fashioned orators (?) on themes as "old as the hills," but all that was "cut out," and what was said by the chairman, Rev. Dr. Bishop, was as much in the fashion as those millinery creations the ladies wore. The only difficulty the chairman had was to get the audience to get ready for the feast of reason and flow of soul. Then a brief programme was enjoyed, in which Mrs. A. Percy Allen and Mrs. (Rev. J. E.) Sanderson, of Penetanguishene, rendered vocal solos and Miss Bonisteel a reading, to which the delighted listeners demanded encores. The President of the Ladies' Society, Mrs. H. W. Ackerman, and her large corps of assistants are to be congratulated on the success of the evening.

Important Notice To Taxpayers.

Tax Payers will take notice that, after Nov. 1st, FIVE PER CENT. INTEREST will be added on all unpaid 1908 Taxes.

F. DAVEY DIAMOND,
Collector.

The Children's Aid.

The adjourned meeting of the Children's Aid Society was held last evening, and there was a fair attendance, including a number of ladies who are deeply interested in the work.

In the absence of Mr. J. Williams, President, Rev. R. S. Laidlaw occupied the chair.

Brief addresses were given by the chairman, Rev. Messrs. Kenney, Dremm and Hagrave, Messrs. J. J. B. Flint, J. W. Johnson, M. P. P., H. C. Hunt, W. W. Knight, Ald. Blackburn, Col. Ponton, Mrs. R. Greatrix and Mrs. L. W. Yeomans, all of whom thought the society should be continued.

A motion prevailed that the Society be continued on the same lines as it has existed and Mr. A. E. Checker was unanimously elected as the local agent.

A committee on Finance, with Mr. Thos. Ritchie as chairman, was appointed.

It was also decided to form a Management Committee and many were made members of that Committee.

The election of officers was then proceeded with, as follows:

Hon. President—Sir M. Bowell.
President—C. B. Scantlebury.
First Vice-President—J. M. Hurley, ex-M.P.
Second Vice-President — H. C. Hunt.
Treasurer —Wm. McIntosh.
City Solicitor — W. C. Mikel K. C.
Secretary and Agent — A. E. Checker.

PILES CURED IN 6 TO 14 DAYS.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

Front St., Belleville, Ont.

Solid Meats

We don't give our oysters a ... as is sometimes said about oysters.

With the sealshipt oysters the pint becomes the unit measure for the ordinary family, instead of the quart, as has usually been the case with tub oysters. This is because a pint of sealshipt, solid-meats, goes as far as a quart of watered tub oysters as usually sold.

We have the very article fresh all the time at 60c per qt.

Control of the Fisheries.

A recent decision of a British Columbia court in favor of the Dominion is of much significance. A fight for the control of the British Columbia fisheries has been in progress for some time between the Federal and Provincial Governments, which, by the ruling of Judge Howay, of New Westminster, vests, to a certain extent, certain rights in the Dominion. The report says:

"His Honor quashed two convictions against John Kendall, whose case was accepted several weeks ago as a test action in the fisheries fight. Kendall was convicted on two charges of contravention or provincial regulations, denying the right to fish above the Westminster Bridge, at certain times allowed by the Federal rules of the river.

"The judge declared that the authorities clearly showed that the provincial authorities had no right to attempt to control fishing in the waters of the Fraser River. He looked upon a decision of the Privy Council as clearly upholding this stand.

"It is probable that the Provincial Government will carry an appeal to the Privy Council, as it affects the entire question of jurisdiction on the Fraser River."

Difficulties of a somewhat similar character have arisen in relation to Dominion and Provincial authority to regulate the taking of fish in the Bay of Quinte. Conflicting opinions and decisions have existed in the past and are likely to occur in the future.

Instead of spending money and wasting time fighting in the courts, it would be much better, and in the interests of both the Dominion and Provincial Governments, to have these disputes and conflicts of authority settled by a change in the Confederation Act, vesting full control of the fisheries in inland waters either in the Dominion or Provinces.

The sooner our statesmen turn their attention to this point, and act, the sooner these troubles will cease.

How Stratton Won.

Peterboro Review: It is not at all likely that there was ever a more thoroughly shameless use of money in Canada for the bribery of electors than in the contest of Monday in West Peterboro. This is no raving of disappointed politicians. It is the tragic fact that will be revealed by the proceedings of protest, the instructions for which have already been given. There will be a deluge of cases of corruption and—no saw-offs. The beautiful language attributed to Mr. Stratton on the occasion of his rejoicing after his supposed or pro-tem victory, is such an arrant piece of hypocrisy [illegible] be laughable. There [illegible] be some Liberals so hidebound as to believe the nonsense talked on that occasion by himself and others but they are in all probability very few. As the day of reckoning drew nigh it became evident of what was going to happen and then the money began to flow. Polling-day itself furnished a sight for the gods on Simcoe street. The tide of corruption gathered weigh and was plain to the least astute observer. It will all be made plainer in the courts.

The centre of attraction at two or three street-corners last evening was a man shouting in a loud and defiant tone, "Hurrah! for Stratton. We've got the money and we don't give a d—."

TO REGULATE THE BOWELS

Keep the bowels regular.

This is the first and most important rule of health.

You can depend on Dr. A. W. Chase's Kidney-Liver Pills to help you carry out this rule.

They effect prompt and thorough movement of the bowels and as they do not lose their effect the dose does not have to be increased.

By their enlivening action on the liver they positively cure billiousness and constipation.

"I have used Dr. Chase's Kidney-Liver Pills for constipation with most satisfactory results. They have also cured a young man here of backache, from which he suffered a great deal."—Mr. Peter McIntosh, Postmaster, Pleasant Bay, N.S.

There is no question as to the efficiency of this well-known family medicine. One pill a dose, 25 cents a box. At all dealers and Edmanson, Bates & Co., Toronto.

Dr. A. W. Chase's Kidney-Liver Pills.

Sugar and salt will both preserve meat, because they absorb the moisture in it, and so prevent decomposition.

The gates of heaven come a little nearer every time a man stoops to sympathize with a child.

TEN CENTS PER PACKAGE.

November Weather According to Hicks.

A regular storm period covers the first six days of November. The Moon is at first quarter on the 1st at perigee on the 4th, and on the celestial equator on the 5th. By the 1st the barometer will begin to fall in western sections, the temperature will rise and by the 2nd and 3rd storms will gather and start on their eastward march from west to east. On and touching Tuesday, Wednesday and Thursday, the 3rd, 4th and 5th, rain, wind and thunderstorms will pass most parts of the country, with rising barometer, westerly winds and change to much cooler pressing close behind the storm centers, the change to cool or colder appearing in the west-northwest about the 3rd, and passing quite over the country, to the eastward by the 7th. Frosts, with some freezing northward, will result during the passage of this high barometer and cool wave.

A reactionary storm period is central on the 8th, 9th and 10th. The full Moon falls on the 8th, increasing the probabilities of storm conditions, on that date. Low barometer, rising temperature, and rain storms in transit from west to east, will be the natural order on and touching the 8th and 10th. The 6th to the 10th is a probable seismic period. West winds and change to much colder will come down from the northwest and spread over the country generally from about the 9th to the 12th.

A regular storm period begins on the 13th and extends to the 18th, being central on the 15th. The Moon is at last quarter on the 15th and in perigee on the 16th. Falling barometer, change to warmer, southerly winds, and autumnal rains will pass over the country from west to east on and touching the 15th, 16th and 17th. There will be but little time for reaction to anti-storm conditions between this and the on-coming storm period. Possibly change to cooler may break in about the 17th and 18th.

A reactionary storm period is central on the 19th, 20th and 21st. The Moon crosses the celestial equator, veering southward, on the 19th. Change to much warmer, falling barometer and autumnal thunderstorms will appear about the 19th, and run their course eastward on the 20th and 21st. The influence of the approaching Venus disturbance, as seen in the November storm diagram, will be felt at this reactionary period, the period coming in with high temperature, and winding up with change to much colder and spurts of early snow in northern parts of the country. The probabilities of severe and dangerous gales all over the northern lake regions are decidedly strong at this and all the November periods, especially from the 15th to the end of the month. Navigators and shippers on the great lakes, who ignore these probabilities, will take desperate chances of paying expensive forfeits.

A regular storm period extends from the 23rd to the 28th, having its center on the 26th. New Moon falls on the 23rd, within two days of extreme declination on the 26th. This period is under the full perturbing influence of both Venus and Mercury, being intensified by the conjunction of the Moon with Earth and Sun at the very beginning. Abnormal warmth, rapid fall of the barometer and clouds of threatening portent will mark the entrance to this period. From about Wednesday the 25th to Saturday the 28th, autumnal storms of wide extent and unusual energy will make their transit across the country from west to east. Rain, wind and thunder will dominate in southern parts of the country, while sleet, snow and an early cold wave may be expected northward. The high barometer following the storms of this period will push very low temperatures for November far into southern parts of the country.

The Moon being at extreme south declination in the crisis of this period, will facilitate the blow of boreal currents from the northwest, bringing a real dash of winter to most parts of this, and other countries in the northern hemisphere. All who fail to house or protect out-door, perishable products before the oncoming of this storm period will have missed golden opportunities and may count their losses and coddle their regrets.

To set a child's face toward gladness is to incline him to God.

Horseflesh commands a lower price in Arizona than elsewhere.

Mr. Borden Talks.

Defeat Not An Unmixed Evil, He Thinks.

Halifax, Oct. 28.—Mr. R. L. Borden gave an interview this morning in which he said: "We have made substantial gains, and it is not an unmixed evil that the present Administration should be forced to cope with some of the difficulties and face some of the problems which they themselves have created. We shall have a splendidly effective fighting force in this Parliament. I deeply regret the loss of some of my old colleagues, but I welcome the many friends whose position in Parliament is already assured."

"What about Nova Scotia?" was asked.

"My five colleagues from this province are a splendid fighting force and will make their influence felt. They were all elected by good majorities. We lost two counties by majorities of less than twenty. My friends assure me that but for corrupt influence we would have had 12 seats in this province."

"What of Halifax?"

"We expected to win, but the majority was greater than anticipated." For the first time the county outside of the city gave a Conservative majority. Our campaign was absolutely clean. Promises of employment and probably coercion of officials were used against us, but up to the present we have not discovered any widespread use of liquor or money by our opponents. The exposures in the election courts and our excellent organization deterred those who otherwise might have been disposed to resort to the methods and tactics of 1904. Mr. Borden has not decided whether he will sit for Halifax or Carleton county.

ZAM-BUK SAVES A FARMER'S ARM.

SOME SENSATIONAL PROOFS OF ITS HEALING POWER.

Every day brings interesting instances to light of the wonderful healing power of Zam-Buk, the herbal balm. Mr. Wm. Snell, a Landenburg (Sask.) farmer, says: "I saved my arm by using Zam-Buk. I had a terrible scalding accident and the arm after the injury 'took the wrong way.' When I started to use Zam-Buk it was all swollen up and discolored, and I feared it would have to come off. In a few days Zam-Buk killed the poison, reduced the swelling, and finally healed the arm completely."

ECZEMA CURED. Mr. J. E. Cusick, of 249 Wilson St., Hamilton, says: "Every winter I used to have eczema on the back of my hands. Last winter I was especially bad—so bad that I had to be off work for three weeks. While suffering acutely I was advised to try Zam-Buk and did so. I could not have believed anything could have healed so quickly! It just seemed to dry up and clear away the sores, and in a wonderfully short time my hands were quite cured."

PILES CURED. Mr. Neil Devon, of Webbwood (Ont.), says: "For eight years I tried all kinds of things for piles, but I got nothing to do me any good until I struck Zam-Buk! That quickly worked a complete cure."

Zam-Buk heals all skin diseases, cuts and bruises, eczema, scalp sores, ulcers, chapped places, scrofulous ailments, poisoned wounds, swollen glands, boils. As an embrocation it cures rheumatism, sciatica, etc. All druggists and stores sell at 50c a box or from Zam-Buk Co., Toronto. 3 boxes for $1.25. Send 1c stamp for dainty trial box.

(ESTABLISHED 1870.)

SPORTS AND PASTIMES.

SPORTING NOTES.

It is said that Winchester, formerly of this city, will be with the Wanderers this year.

Wee Willie Keeler may manage the Toronto Baseball Club next summer, so rumor says.

Now it is alleged that Longboat will start in the Hamilton Herald race. The noble red man is getting a lot of advertising.

There should be good sport at the Hallowe'en Circus at the Arena tonight.

A Trenton Accident.

Trenton, Oct. 30.—Master Douglas Hoocy, son of Mr. Stewart Hoocy, formerly of Belleville, met with a serious and painful accident. He was playing with a calf belonging to Mr. Bowerman which was fastened by a chain. The lad became entangled in the chain and was dragged some distance. His leg and body was torn and several stitches had to be taken. The patient is doing as well as can be expected.

CHINA'S GREAT WALL.

It Was Undoubtedly the Work of a Real Genius.

The Great Wall is often stigmatized as a monument of human shortsightedness and folly by many who are willing to rhapsodize over the Great Pyramid. A great architectural work the pyramid was not. It was simply a stone tumulus, and everything goes to prove that it was nothing more than a superlative mausoleum, a monument of the vanity of the monarch who was entombed beneath it, and considered either as mere bulk or as an engineering feat it sinks into utter insignificance beside the Great Wall, a work of vast practical utility.

It is in fact the Great Wall more than anything which stamps its founder for all time for what he was—a man of the highest order of genius, possibly the greatest genius who has borne sway on the earth. The Chinese of the second century B. C., like the Romans of the first, had arrived at a critical stage in the course of their development, and each nation succeeded in producing a hero at the right moment to lead it to the accomplishment of its destiny. The prescience with which Julius Caesar, confronted with the problem of finding a suitable defensive frontier for the Roman empire, solved it by the occupation of the line of the Rhine is rightly considered as one of the chief reasons for his preeminent place in the world's history. The guarded river that the genius of the great dictator had made the frontier of the Roman empire was the terminus of barbarism for nearly five centuries. Chi Huang Ti was confronted with the same problem. He solved it with equal prescience and greater success by an inspiration of genius unparalleled in history. Where nature had placed no barrier he reared an artificial one, and for ten centuries the northern barbarians pressing down from the great central tableland strove in vain to burst through the bulwarks which he had interposed between their ravening hordes and the rich plains of China.

Probable the Great Wall was a more formidable obstacle to the barbarians of central Asia than the Rhine to the Germanic hordes of Europe. It was at once a well defined frontier, a magnificent military road and an impregnably intrenched picket line along the border. The towers were probably all occupied by pickets and communication maintained by cavalry patrols, a very easy matter on the platforms of the wall. The gates were doubtless strongly garrisoned, and at strategic points along the wall and to its rear bodies of field troops collected in permanent fortresses and intrenched camps. The wall itself was a formidable obstacle to a band of marauders. If they succeeded in scaling it there still remained the nearly insuperable difficulty of bringing across their horses, and a Tartar without his horse is well nigh helpless. Did a stronger force make an attack it must still have been an easy matter to concentrate on the threatened point before the invaders could pass in any numbers.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

TIMELY TOPICS.

PORTIA'S PLEA FOR MERCY.

The quality of mercy is not strained;
It droppeth as the gentle rain from heaven
Upon the place beneath. It is twice blest.
It blesseth him that gives and him that takes.
'Tis mightiest in the mightiest; it becomes
The throned monarch better than his crown;
His scepter shows the force of temporal power,
The attribute to awe and majesty,
Wherein doth sit the dread and fear of kings,
But mercy is above this sceptered sway;
It is enthroned in the hearts of kings;
It is an attribute to God himself,
And earthly power doth then show likest God's
When mercy seasons justice. Therefore,
Though justice be thy plea, consider this,
That in the course of justice none of us
Should see salvation. We do pray for mercy,
And that same prayer doth teach us all to render
The deeds of mercy.

—William Shakespeare.

• • •

A wideawake reporter in Glasgow, Scotland, overheard the following conversation early one morning between a couple on their way to market. The man was carrying a huge tub on his head and a live pig in a sack over his shoulder.

"What are ye feared for?" asked James.

"I'm feared ye're gaun tae kiss me," she answered.

"Hoo can I kiss ye, ye fule, when I have a tub on me heid, an' a pig on me back, an' haudin' on wi' baith hands?" said angry James.

"Oh, ye cuid easily put the pig on the grun', an' turn the tub on the tap o' it, an' sit doon on it an' put me doon aside ye. That's what mak's me feart, Jamie."

• • •

A BIT OF HISTORY.

Monday's contest was the eleventh since Confederation. The majorities have been:

1867—Macdonald	23
1872—Macdonald	6
1874—Mackenzie	60
1878—Macdonald	68
1882—Macdonald	68
1887—Macdonald	41
1891—Macdonald	31
1896—Laurier	37
1900—Laurier	53
1904—Laurier	66
1908—Laurier	50

It will be seen that Sir John Macdonald was Premier in six Parliaments and Laurier in four. Sir John died June 6, 1891, and his last election was on March 5, 1891.

Wedding Rings.

Some one wanted to know without asking directly how long a certain woman had been married.

"About fifteen years," said a man who is a jeweler."

"How do you know?" asked his wife. "You don't know anything about her. You never met her until tonight."

"I can tell by the size of her wedding ring," said the man. "The width of wedding rings changes about every five years. Their size repeats itself at certain periods, but, figuring that way, the woman must have been married fourteen years ago, if not fifteen. She isn't old enough for forty-five; consequently she must belong in the fifteen year class."

Subsequent inquiry proved that the jeweler was right.

With the Minstrels.

"Mistah Walkah, wot am de diff'unce 'tween a trav'ler startin' to Tangier an' a plate o' veal hash?"

"I give that one up, George. What 's the difference between a traveler starting for Tangier and a plate of veal hash?"

"De one am Morocco bound, an' de uddah am half calf."

"Ladies and gentlemen, the celebrated vocalist, Professor Rox de Bote, will now sing that beautiful and touching sentimental ballad, 'Take Your Face Away, Clarence; You Have Been Using a Safety Razor.'"

Keeping It Secret.

Village Postmistress—And what are those dashes? Hodge—Oh, he'll understand them right enough. Postmistress—Yes, but we can't send them by telegraph. Hodge—Well, they're the price o' the pigs. He'll understand. Postmistress—Yes, but you must put it in words or figures, else we can't send it. Hodge—Must I? Well, I'll whisper it to 'e, then.—Punch.

The Main Puzzle.

Manager—Have you a problem in your play? Author—One of the greatest. Manager—What is it? Author—How to get it produced.

No man became a villain all at once. —Juvenal.

The Schemer And the Widow.

By WILLIAM H. HAMBY.

Copyrighted, 1908, by Associated Literary Press.

"Well, Jerry," I asked, "how did the advertising phonographs come out? Did they cough up any dough?"

Milsap stretched himself wearily in an easy chair before the fire and stroked his drooping brown mustache sadly for a minute without replying. I had not seen him before for two years and knew that he was just floundering out of the slough of despondency which always lay between the end of one of his schemes and the beginning of another.

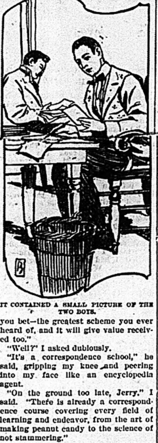
"The fact is, George," he said regretfully, "that was a fine idea. It would have been the biggest thing you ever heard of if it hadn't been for one thing. Just when we were ready to do business the music trust busted"—

"Yes, yes, I understand, Jerry," I interrupted. "Somewhere a cog slipped, and something went 'zip!' It always does, Jerry. There is only one thing wrong with your schemes—there is always one more cog in your wheel than in the track you run on, and you get bumped."

Milsap looked so bad that I almost regretted my flippant remarks. His last scheme had been to scatter phonographs that advertised a noted breakfast food by song and story. The manufacturer, according to Jerry's plan, was to pay so much for each record put in circulation, and the only drawback had been he would not do it.

But Jerry rallied directly.

"I tell you, Menegan, I've got the scheme this time—it will make coin, you bet—the greatest scheme you ever heard of, and it will give value received too."



IT CONTAINED A SMALL PICTURE OF THE TWO BOYS.

"Well?" I asked dubiously.

"It's a correspondence school," he said, gripping my knee and peering into my face like an encyclopedia agent.

"On the ground too late, Jerry," I said. "There is already a correspondence course covering every field of learning and endeavor, from the art of making peanut candy to the science of not stammering."

"That's it exactly," he exclaimed; "there is a school for everything but one, and that thing is the most important of all. It touches almost every family in this great land and is a question of great perplexity, of vital importance, of burning interest"— He paused to gather breath.

"What is it?" I demanded.

"Raising boys," he answered triumphantly. "I will start a correspondence school to teach people how to raise boys. You see, I want to specialize at first, but may branch out and include girls later.

"But just now it is the problem of the boy that is keeping parents all over the land awake at nights and bringing their prematurely gray hairs down to sorrow and hard work. Look at the interest in the courts and newspapers and magazines in this boy question. Now is the time to strike.

"The course will embrace every step from the cradle to the United States senate and will cost only $25. Think of it! Don't you see how it will appeal? Why, one doctor's bill would cost that, one fine for shooting craps, the telegrams to locate a single runaway."

He gazed into the fire for a time, and I knew by the way the corners of his mustache began to lift the idea was still expanding.

"You see," he continued, "our patronage will not be confined to parents of boys. We will sell a great many courses to young people and old maids. The best recommendation for matrimony any one can have will be one of our diplomas. In fact, I may be able to get laws passed requiring a certificate of graduation from my school before a marriage license will be issued."

• • • • • • • •

In due time there appeared in many publications a striking advertisement of "Professor Jerry Milsap's How to Raise Boys Correspondence School."

About six months later Jerry came to see me again.

"I am bothered about help," he explained, "and I came to see, Menegan, if you would consent to take charge of the detective department. You are not a detective, of course, but you can do the work. All you have to do is explain to parents actions of their boys which they do not understand and teach them how to predict from certain signs, boots and preparations what the boys intend to do."

I consented to try it and thereby lifted a load off Jerry's mind. The concern, he told me, was very promising. More than 200 students had already been enrolled, and many inquiries were coming in by every mail. It was to answering inquiries that Jerry devoted himself—that was why he needed help.

At the end of the week he wanted me to take charge of the moral and educational departments also and promised me a big salary. I consented.

Usually I had little trouble in answering any inquiries that came to my department, but one day I had a letter from a woman in Kansas which I thought best to pass up to Jerry, the fountain head of wisdom.

There were two sons, the woman wrote, one six, the other eight. She was young and inexperienced when she married and since her husband's death had tried to manage a 500 acre farm and raise the boys at the same time. Then she asked many difficult questions.

It was a well written letter, sincere and appealing, and left the impression that here was a brave woman trying cheerfully to carry burdens too heavy for one human being.

Jerry read the letter, sat biting the ends of his mustache for an hour and then dictated a lengthy reply.

In a few days she wrote again. The letter was full of gratitude to the professor for his help and asked many other questions, all bright and pointed. Jerry went to the typewriter and answered that one himself.

Letters came quite regularly after that, and I turned them unopened over to Jerry. Once only did I open one, and that before I recognized the postmark. It contained a small picture of the two boys taken with their mother. I am not much of a judge, but the boys looked first rate to me, and the woman looked bright and energetic and, I was sure, had glorious red hair.

The next morning Jerry came to my desk as I was closing it for the night.

"Menegan," he said very soberly, "this Kansas case interests me very much."

"Is that so?" I said, quite as soberly.

"It is a case that I must work out successfully," he said [illegible] reputation is at stake. I think I had better run out there and see those boys personally. Can you manage affairs until I return?"

I thought I could, and he went Saturday.

• • • • • • •

He did not return. I settled up the business, and there was enough to pay all debts, even including my salary.

Mrs. Jerry wrote me when I sent the final report. She said she was writing, as her husband was too tired to write. It was a very nice letter. She thanked me for the way I had managed the affairs, invited me to visit them, and added: "We are very happy and getting along fine. I find it no trouble to manage now that I have some one to carry out my plans, and Jerry is the best hand to carry out plans I ever saw."

A Girl's View of It.

"We were late," groaned the girl, who was tired, "because we went fifteen blocks out of our way."

"Why did you do that?" asked her brother. "Why didn't you keep your eyes open and take the right car?"

"I did," said the girl. "I knew which way to go, but my escort got confused, and I didn't dare put him on the right track. If I had he never would have forgiven me. I have lost the friendship of three interesting men by that very evidence of strong mindedness. Experience has taught me that next to being caught in a fib the thing that most riles a man is to be guided by a woman. To wander around like a babe in the woods, to retrace his steps a dozen times and finally to arrive somewhere an hour late are blunders that he can cover up with one excuse or another, but for a woman to take the 'ead and say 'We want this car' or 'We must go this way' presupposes a state of lamentable ignorance on his part and makes him hate that woman forevermore."—New York Press.

Wasted Royal Effort.

The king of Wurttemberg while out motoring in the country with the Grand Duke Adolphus of Mecklenburg saw coming toward him a cart drawn by a white horse in which were seated a sturdy old peasant and his wife. As the motor car approached the white horse became very restive, pranced, reared and finally fell down on the roadway. The king and the grand duke immediately ordered the chauffeur to stop and, getting down from the car, went to the assistance of the fallen animal. Meanwhile the two old peasants sat stolidly in the cart and made not the slightest effort to raise the horse. The grand duke seized the creature's head, and the king proceeded to loosen the traces. After a good deal of trouble the horse was got upon its legs again and reharnessed, and then the grand duke addressed the old man in the cart. "There," he said, handing him a coin, "it's all right now, my good man. You can go and tell your friends that the Grand Duke of Mecklenburg picked up your horse and that the king of Wurttemberg helped him." The peasant bit the coin to see if it was good and then replied: "Ye might have saved yourselves all this trouble, for my old horse always lays down when he hears one of those horrid motor cars coming. But as soon as it's past he gets up again of his own accord."—Bellman.

PASSENGER TRAFFIC

GRAND TRUNK RAILWAY SYSTEM

Thanksgiving Day

Return tickets at Single Fare. Between all station in Canada. Good going Nov. 6, 7, 8, 9—return limit Nov, 10th, 1908.

THE RITCHIE CO'Y, Limited,

ESTABLISHED 1856

Sale of Carpets, Rugs and Housefurnishings.

It has always been our policy to offer goods at reasonable prices, without sacrificing quality. This has been made possible by direct importations, large productions, large purchases and small margins of profit. Our present stocks are a little larger than we deem judicious at the present season and in order to rapidly reduce them, we have decided to make some very liberal reductions, which, coming at a time when housekeepers are planning what to buy in the Housefurnishing line, will present great saving opportunities and prove doubly attractive.

We print a number of the most prominent savings. Early buyers get best choice.

You will find ready large and fine assortments of Carpets, Rugs, Linoleumns, Oilcloths, Curtains, Window Shades. Portieres. Tapestries, Velours, Art Draperies, Denims, Cretonnes, Chintzs, Bobbinets, Art Silks, Cords, Gimps, Poles, Brass Goods, Screens, Carpet Sweepers, Cushions, Pillows, Quilts, Blankets, Couch Covers, Mantle Drapes, etc., etc.

Madras Muslin

Two pieces, 50 yards, of extra quality Madras Muslin, 48 inches wide, in Nile green and tuscan; a beautiful curtain material, worth regularly 65c yard, clearing at 25c

Printed Art Muslins

Double fold Art Muslins, good patterns and colorings, suitable for curtains, draperies, screen fillings. etc., regularly 15c to 30c yard, clearing at 10c

Another line of Art Muslin, 27 inches wide, in attractive designs, good quality, regular 12 1-2c to 15c yard for 9c

Sateens

About 120 yards Art Sateen, in a good variety of designs and colors, 27 to 30 inches wide, regular 20c to 30c yard, at 12 1-2c

We also show an exceptionally good range of Art Sateens for Cushion Covers and Comforters, in all the leading shades, at .... 18c to 35c

Colored Cretonnes

A lot of Colored Cretonnes, a good cloth for covering cushions, bedroom boxes, curtains, etc., etc., regular 12 1-2 to 15c yard, special for this sale 10c

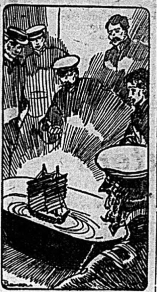
THE MYSTERY

By STEWART EDWARD WHITE
And SAMUEL HOPKINS ADAMS

COPYRIGHT, 1907, BY McCLURE, PHILLIPS & CO.

“It came on. A human figure, glowing like a diamond ablaze, leaped out from it; another shot down from the foremast. I don't know how many I saw go. It was like a theatric effect, unreal, unconvincing, incredible. The end fitted it.”



The little craft dissolved in a glow of radiance.

Darrow's eye roved. It fell upon a quaintly modeled ship hung above the door.

“What's that?” he cried.

“Fool thing some Malay gave me,” grunted Trendon. “Pretended to be grateful because I cut his foot off. No good. Go on with the story.”

“No good? You don't care what happens to it?”

“Meant to heave it overboard before now,” growled the other.

Some one handed it down to Darrow.

“If I had something to hold enough water,” muttered he, “I'd like to float it. I'd like to see for myself how it worked out. I'd like to see that devil work in action.”

He spoke feverishly.

“Boy, fill the portable rubber tub in Mr. Forsythe's cabin and bring it here,” ordered the captain.

“That will do,” said Darrow, recovering himself.

He floated the model in the tub.

“Now, I don't know how this will come out,” he said. “Nor do I know why the Laughing Lass met her fate under Ives and McGuire and not before. Perhaps the chest lay open longer—long enough, anyway. We'll try it.”

From his pocket he took a curious small vial.

“Is that what Dr. Schermerhorn gave you?” asked Slade.

“Yes,” said Darrow. He set it carefully inside the little model and slipped a lever. Slade quietly turned down the light.

A faint glow shot up. It grew bright and eddied in lovely variant colors. As if set to a powder train, it ran through the ship. The pale faces of the spectators shone ghastly in its radiance. From some one burst a sudden gasp.

“There is not enough for danger,” said Darrow quietly.

“As a point of interest,” grunted Trendon.

Every one looked at his outstretched hand. A little pocket compass lay in the palm. The needle spun madly, projecting blue, vivid sparklings.

“My God!” cried Slade and covered his eyes for a moment.

He snatched away his hands as a suppressed cry went up from the others.

“As I expected,” said Darrow quietly.

The little craft opened out. It disintegrated. All that radiance dissolved, and with its going the substance upon which it shaped itself vanished. The last glow showed a formless pulp, spreading upon the water.

“So passed the Laughing Lass,” said Darrow solemnly.

“And the chest is at the bottom of the sea,” said Barnett.

“Good place for it,” muttered Trendon.

“In all probability it closed as the ship dissolved around it,” said Darrow. “Otherwise we should see the effects in the water.”

“It might be recovered,” cried Slade excitedly. “Could you chart it, Darrow? Think of the possibilities”—

“Let it lie,” said the captain. “Has it not cost enough? Let it lie.”

The water in the tub fumed and sparkled faintly and was still. Darkness fell except where Darrow's cigarette point glowed and faded.

THE END.

The Ordeal by Fire.

The really strong scene of the play had arrived and the amateur hero braced himself for the effort. The house into which the wily villain had entrapped him was on fire, and his thrilling escape from the burning structure was where he was going to bring down the house.

“I am choking!” he cried. “The smoke is overpowering me!”

That would have been all right except for the fact that there was no smoke, and it seems unreal to choke with smoke when there isn't any smoke to choke with.

“The flames!” he cried. “The flames—I feel them!”

But the flames were absent also. He glanced into the wings and realized what had happened. Some one had damped the red fire.

It was a moment of terrible strain. Nothing relieved the situation, and he lost his head and rambled on about
the fire that no one could see.
awful, and it was worse when
brute in the gallery bellowed for
“Never mind the fire, guv'nor

Orders for bookbinding should be left at The Intelligencer Office. It is surprising how attractive and satisfactory a volume can be made of these magazines. Books, magazines or periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day books with any kind of ruling, made to order.

Despondent Girl Died Under Very Queer Conditions.

On Tuesday, Dr. Harper, coroner, of Madoc village, presided over an inquest that was held on the remains of a girl named Edith Nicholls, aged 14 years. It appears that the girl, who had been brought out to this country by a home, had for some time been living with a family near Madoc. Her foster parents, for some reason, a few days ago intimated to the girl that they intended to return her to the home from where she was taken. This evidently did not please her, and she left the house and was not seen again. On Monday last her body was found in a field, and the circumstances of her death were such that an inquest was deemed necessary. After evidence had been submitted the jury brought in a verdict that death was the result of exposure, no blame being attached to any person.

Hon. Thos. Greenway Joins Majority

Veteran Manitoba Politician Died This Morning.

Ottawa, Oct. 30.—(Special) — Hon. Thomas Greenway, ex-Premier of Manitoba, and a recently appointed member of the Dominion Railway Commission, died at seven o'clock this morning, of asthma.

He had been confined to his room at the Windsor Hotel for a fortnight.

Medical aid could do nothing for him, and, sitting up in a chair for two weeks, his condition gradually grew more acute until the end came.

Mr. Greenway was 70 years old, having been born in Cornwall, Eng., on March 25, 1838.

Picton Woman Was Nearly Drowned

Mrs. Pool narrowly escaped being drowned in the cistern while doing some work about the house of Mrs. P. S. McLean, Elizabeth street, says the Picton Times. The cistern is under the back kitchen with a trap door in the floor. Mrs. Pool was walking over the door and it gave away beneath her feet and she went down into the water feet first. The water was over her head, but fortunately she was able to catch hold of the floor and support herself until, hearing her cries, Mrs. McLean, who was upstairs, came to her assistance. After trying in vain to haul her out, she had to leave the woman in her dangerous position while she ran to the Hogg & Lyttle seed house and alarmed the men, who came just in time to rescue her before her strength failed.

Victim of Tragedy Was Buried To-day.

The remains of the late Harry Burton, victim of the accident at the cement works on Wednesday morning, were interred this morning. At 10 o'clock the body was removed from the residence of deceased's uncle, Mr. Ben Burton, Albert street, to Christ church, where the burial services of the Anglican church were conducted by the Rector, Rev. R. C. Blagrave, A number of floral designs were placed upon the casket. The bearers were Messrs. R. Zufelt, B. Wilson, R. Boyle and D. Mossman.

Y. M. C. A. NOTES.

The Gym. classes put on an Amateur Circus at the Rink to-night. The Clowns challenge anyone to identify them. The idea is to vigerously celebrate Hallowe'en in this way to-night instead of to-morrow night

The Star Course plan opens to-morrow morning.

The Ladies have been promised quite a considerable stock for their rummage sale on Nov. 12th and 13th.

A number of the Harriers' will participate in the athletic meet in Port Hope, Nov. 6th.

Mission Band Social.

An interesting social event took place last evening in the Sunday School rooms of the Baptist Church, being under the auspices of the Timpany Mission Band in connection with the church. A programme was given by members of the Band, after which refreshments were served. Mr. J. W. Mowry occupied the chair.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists

Big Corby Special Left Here Yesterday

Having on Board the Largest Shipment of Whiskey Ever Made in Canada.

At 2.45 yesterday afternoon a special train consisting of 24 new Grand Trunk Pacific freight cars, laden with barrels and cases of Corby's whiskey, left the G. T. R. station here, bound for the western part of Canada. A large number of spectators were present to witness the departure of the train on its long journey. Upon each car was a banner the full length of the car, bearing the following inscription: "This Car Contains Corby's Canadian Special Selected Whiskey, Consigned To ——" The cargo was valued at $250,000. The cars were appropriately decorated with flags, and as the train moved out it was certainly quite a sight. The consignment will go to the following places: Fort William, Saskatoon, Calgary, Vernon, B. C.; Cranbrook, B. C.; Greenwood, B. C.; Vancouver, B. C.; Regina, Prince Albert, Brandon, Winnipeg and Edmonton. A special feature of the train is that it will only travel during the day time. It will pass over the G.T.R. line to Chicago, and thence westward over the C.P.R. At night the train will be sidetracked at terminal points. Two engines, Nos. 253 and 186, brought the train in from the distillery at Corbyville to the city, and it was in charge of Mr. T. H. Coppin, local station master, here. Engine 293, with Engineer McHattie at the throttle, took the train from here to Toronto, where a new engine will be substituted. It will be several days before the last cars reach their destination. This is the first solid special whiskey freight train ever despatched on the G.T.R. line. A coach was at the rear of the train for agents of the company, who will be in charge of the consignment at the various places of destination.

This immense shipment is an evidence that the Corby Company are not only doing a large business, but that their brand of liquor is of such superior quality as to merit approval.

Mr. Stockton, who is connected with the establishment, informed a representative of The Intelligencer that the firm's offices would be removed from here to Montreal about the middle of next month.

MORE THAN ENOUGH IS TOO MUCH.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by all druggists.

WINNIPEG MAN CURED OF RHEUMATISM

Remarkable Case of Cure After Specialists Failed.

Winnipeg, Man.—A prominent resident of this City, who for personal reasons does not wish his name mentioned publicly, but who permits us to show his letter to interested enquirers, writes to say that he was suddenly taken with excruciating pains in the back and side, which were pronounced by his physicians as Rheumatism. Hot applications were at once resorted to, the usual medicines administered, supplemented by electrical treatment, but all to no purpose. In his desperation he took Gin Pills on his own account, and in a few hours after taking the first Pill the pains commenced to subside. He continued taking them and in 48 hours he had not an ache or a pain left.

Gin Pills are sold at 50c a box—6 for $2.50. Send to us if your dealer does not handle them. Sample box free if you mention this paper.

Dept. B., National Drug & Chemical Co., Limited, Toronto. 116

ENGLISH PRELATE CHOSEN.

Synod of Montreal Chooses Bishop of Stepney to Succeed Carmichael.

Montreal, Oct. 30.—By the unanimous vote of the diocesan synod last night the Rev. Cosmo Gordon Lang, Bishop of Stepney and Suffragan to the Bishop of London since 1901, was declared elected to the Bishopric of Montreal.

This vote confirmed a seventh and final ballot in which the Bishop of Stepney had received a practically unanimous vote. The figures of the seventh ballot were as follows: Clerical vote—Right Rev. Bishop Lang, 89; Principal Rexford, 4; Dean Evans, 3; Dean Farthing, 4; Archdeacon Ker, 1; Rev. Osborne Troop, 1. The lay vote polled 70 for Lang and 7 for Farthing.

The following cablegram was sent to the Bishop of Stepney: "The Synod of Montreal, consisting of 107 clergy and 300 lay delegates, have unanimously elected you bishop and earnestly hope you may accept." A reply from the bishop is expected tomorrow.

The name of the Bishop of Stepney was sprung as a surprise on the synod and came after the stubborn duel between Dean Evans and Dean Farthing. The supporters of both these clerics precipitated a deadlock and the laymen refused to support Dean Evans, while going solid for Farthing. On the other hand, the clerical vote supported Evans, although Farthing had a slowly increasing number of adherents.

The question as to whether Bishop Lang will accept is regarded dubiously in both cleric and lay circles here, as he is in direct line for preferment as coadjutor to the Bishop of London.

IMMIGRATION DISCUSSED.

National Council of Women Consider Matters of Moral Importance.

Ottawa, Oct. 30.—The National Council of Women of Canada yesterday discussed immigration, international disarmament, cheap theatres, objectionable literature, the white slave traffic and other matters relating to the moral influence of Canada. Reports were presented favoring further restriction of undesirable immigration. An improvement in the class of domestic servants arriving from the old country was noted in the report of the committee. There was a complaint from the Maritime Province delegates that few of the servants from Europe remained in the east, the majority being ticketed through to the provinces farther west. It was recommended that an effort be made to have a larger share of this class of immigrants assigned to the east.

Physician Drops Dead.

Spokane, Wash., Oct. 30.—Apparently in good health and in the act of making a medical examination, Dr. Edwin S. Hutchins dropped dead of heart failure beside the operating table in his office.

The patient on the operating table rushed out for a doctor.

Schooner Ashore.

Norfolk, Oct. 30.—The Charles S. Hirsch, a four-masted schooner, lumber-laden, bound north, was driven ashore on the North Carolina coast yesterday, and probably will be washed to pieces. Six of the eight men in the crew were rescued.

Guilty, Though Not Betting.

Vancouver, B.C., Oct. 30.—Eighteen whites were fined $75 each yesterday for looking on a Chinese gambling game. They were caught in a raid Wednesday night.

Bet on Steel Company.

Montreal, Oct. 30.—A wager of $3,000 to $1,000 was made on the Stock Exchange yesterday that the Dominion Steel Co. will win its case before the Privy Council.

BRIBERY, SAYS STRAUS

New Yorker Charges Republicans With Levying Graft.

President of Democratic Business Men's League Declares That Taft's Committee Is Getting Anything From $500 to $5,000 From Every Dealer on Wall Street—Largest Bribery Fund They Ever Had.

New York, Oct. 30.—The charge recently made by Nathan Straus, president of the Business Men's Democratic League, and subsequently denied by Treasurer Sheldon of the Republican National Committee, that Wall Street men are being assessed $500 each by the Republican committee, was reiterated by Mr. Straus in a speech before the Commercial Travelers' League yesterday. He declared that Republicans in New York this year "have the largest corruption fund they ever had." He said he was ready to prove that statement.

"I am ready to prove now that they not only have levied a tax of $500," said Mr. Straus, "but that they have a sliding scale which runs up to $5,000. I am ready to prove this and the newspapers won't dare print what I say here."

More than 100,000 members of trades' unions in this city have failed to respond to the appeal of Samuel Gompers, president of the American Federation of Labor, to endorse the candidacy of Wm. J. Bryan. Some unions have repudiated the Gompers' circular of appeal officially. Other trades' unions have simply ignored it.

Speaking of the trusts at Cohoes yesterday, Mr. Bryan asserted that Mr. Taft had not attacked a single trust, because, he said, every trust magnate was supporting him, "and out of the funds the Republicans are prepared to buy every vote that can be bought."

Mr. Bryan vehemently declared that the Republican party was going backward instead of forward with respect to labor. He characterized the promise of a revision of the tariff as an attempt to perpetrate a fraud on the people.

His audience appeared to be practically unanimous for the guaranteeing of bank deposits as indicated by the number of hands raised when he put the matter to a vote.

Albany, N.Y., Oct. 30.—David Bennett Hill, for 12 years at odds with the Bryan wing of Democracy, quitted the quiet of Wolfert's Roost Wednesday night and arrayed himself with Wm. J. Bryan.

The meeting in public of Bryan and Hill was planned by a master of stagecraft. The hall was jammed. The American flag was everywhere, women were in the boxes, the crowd regaled itself with patriotic songs and the music of a band. Suddenly the band struck up the "Star Spangled Banner." Slowly the curtain rose and disclosed Hill and Bryan sitting side by side, smiling. For a moment there was a dead silence. Then pandemonium broke loose. Hill said that he stood for Mr. Bryan and what Mr. Bryan stood for.

TELEGRAPHIC BRIEFS.

The Royal cheese factory at Summerston, Glengarry, was burned.

Residents in the Reid avenue district, Toronto, will form an Orange lodge.

Fire badly damaged the Government buildings at Bloemfontein, South Africa.

Students at the Kingston Collegiate Institute and colleges must be vaccinated or cease to attend.

Five buildings on the Frank Heartz farm, outside Charlottetown, P. E. I., were destroyed by fire with loss about $18,000; insurance $12,000.

Wilbur Wright has given the first lesson in the manipulation of his aeroplane, in accordance with his contract, to Count de Lambert.

During the month of September industrial accidents occurred to 256 work people in Canada. Of these 102 were fatal and 154 resulted in serious injuries.

The seizure of more raiding Japanese sealing schooners on the Russian sealing grounds in the north Pacific is reported by the steamer Monteagle, which arrived at Victoria, B.C.

J. Souvine, a Bulgarian, while employed unloading rails in the Grand Trunk yards near the Don had the third finger of his right hand cut off between the first and second joints.

The will of the late Alicia Mason, wife of G. J. Mason, Barrie, has been probated in the Surrogate Court here on application of the heirs. The estate amounts to $11,971, and will be divided among the five daughters and one son.

Thawed Out Dynamite.

Guelph, Ont., Oct. 30.—Foolishly leaving a quantity of dynamite, 14 sticks, near a bonfire to thaw out, almost caused the terrible death of a half dozen workmen who were engaged in the laying of a pipe line for the new waterworks system. Angelo Addario, a workman, sustained severe injuries.

Killed Near New Glasgow.

Halifax, Oct. 30.—Sandy Fraser, a miner, was killed last night on Thorburn branch railway, near New Glasgow. He is supposed to have been walking along the track with his head down when struck by a special train returning from New Glasgow.

Milwaukee's Largest Cargo.

Milwaukee, Wis., Oct. 30.—The steam barge Adam Cornelius left Milwaukee early yesterday for Buffalo, with a cargo of 270,750 bushels of wheat, the largest boatload of grain in one consignment ever to leave Milwaukee.

Supports Blacksod Route.

London, Oct. 30.—Sir T. Troubridge has an article in The Standard advocating Blacksod Bay in connection with the all-red route, which he says is the cheapest and fastest.

Elected By Thousands

That this Gigantic Sale of Housefurnishing goods going on at McIntosh Bros. proves to be the best money saver ever offered to the good people of Belleville and vicinity.

The people are coming here by the hundreds. Can you blame them when they can buy a 17 quart Granite Dish Pan for 59c.

Liverpool Grain and Produce.

LIVERPOOL, Oct. 29.—Closing.—Wheat—Spot, steady; No. 2 red western winter, 7s 8⅜d; futures, quiet; Dec., 7s 9d; March, 7s 8d; May, 7s 7⅝d.

Corn—Spot, steady; American mixed, 7s 4½d; futures, quiet; Dec., 5s 7½d; Jan., 5s 5½d.

Bacon—Cumberland cut, 28 to 30 lbs., dull, 52s 6d; short rib, 16 to 24 lbs., steady, 54s; short clear backs, 16 to 20 lbs., quiet, 49s.

Lard—Prime western in tierces, steady, 49s 6d; American refined in pails, steady, 51s.

Turpentine spirits—Firm, 28s.

New York Dairy Market.

NEW YORK, Oct. 29.—Butter—Firm; unchanged; receipts, 4657.

Cheese—Dull; unchanged; receipts, 2623.

Eggs—Firm; receipts, 4046; state, Pennsylvania and near-by fancy selected white, 41c to 45c; do., fair to choice, 33c to 42c; brown and mixed fancy, 33c; do., fair to choice, 29c to 32c; western firsts, 26c to 27c; seconds, 23c to 25c.

CATTLE MARKETS.

Cables Unchanged—Hogs Take a Drop at Buffalo.

LONDON, Oct. 29.—London cables for cattle are steady at 11c to 13¼c per pound, dressed weight; refrigerator beef is quoted at 11c to 11¼c per pound.

Toronto Live Stock.

TORONTO, Oct. 29.—Receipts of live stock at the City Market, as reported by the railways, were 163 carloads, composed of 2621 cattle, 2350 hogs, 2127 sheep and lambs, 81 calves and one horse.

Exporters.

No export steers were on sale; had there been any the prices are quoted at $4.75 to $5 for good quality; bulls, $3.75 to $4.25.

Butchers.

A very few prime picked butchers' were reported at $4.75 to $5, the latter price being reported paid for two cattle. Out of 2621 cattle there were less than forty that sold over $4.25, and not more than 100 were reported sold over $4 per cwt. Geo. Rowntree bought 300 cattle for the Harris Abattoir Company as follows: Butchers' at $3.50 to $4.75, but few at the latter price; cows, $2.25 to $3.70; canners and bulls, at $1 to $3; feeding steers, $3.50 to $3.80 per cwt.

Feeders and Stockers.

H. & W. Murby report a slightly improved trade in stockers and feeders this week, especially for anything with quality. Good quality feeders, 1000 lbs. up, are in demand, and look like selling higher from now out. The common kind, as usual, are hard to cash, altho the market got a better clearance on the common kind this week than last, in all probability being due to lighter receipts. Messrs. Murby bought about 400 head this week at following quotations: Best feeders, 950 to 1050 lbs. each, at $3.65 to $4 per cwt.; best feeders, 800 to 900 lbs. each, at $3.25 to $3.60; best stockers, 600 to 800 lbs. each, at $3 to $3.25; common and medium stockers, $1.85 to $2.50.

Milkers and Springers.

For good to prime quality milkers and forward springers there was a strong market at $45 to $70 each, eight cows being sold at the latter price during the week. Common to medium cows sold at $25 to $35 each.

Veal Calves.

About 100 veal calves sold at $3.50 to $7 per cwt., but very few brought the higher figure.

Sheep and Lambs.

A moderately large run of sheep and lambs sold at steady prices for sheep, but lambs were a trifle firmer. Export ewes sold at $3.25 to $3.40; rams, $2 to $2.50; lambs, at $4.25 to $4.60 per cwt.

Hogs.

About 3450 hogs from all sources arrived on the market. Prices were reported unchanged by Mr. Harris at $6 for selects and $5.75 for lights.

East Buffalo Cattle Market.

EAST BUFFALO, Oct. 29.—Cattle—Steady; prices unchanged.

Veals—Receipts, 200 head; active and 25c lower; $5.50 to $8.25; a few at $8.50.

Hogs—Receipts, 5100 head; fairly active and 10c to 25c lower; heavy, $6 to $6.15; mixed, $5.90 to $6.10; yorkers, $4.75 to $6; pigs, $4 to $4.50; roughs, $5 to $5.25; dairies and grassers, $5 to $5.90.

Sheep and lambs—Receipts, 7000 head; sheep active and steady; lambs slow and 15c lower; native lambs, $4 to $6; Canada lambs, $5.50 to $5.75.

New York Live Stock.

NEW YORK, Oct. 29.—Beeves—Receipts, 1141; no trading; feeling steady.

Calves—Receipts, 241; veals steady; no trading in western calves; feeling weak; veals sold at $5 to $9.25 per cwt.; grassers and fed calves, $3.25 to $4.

Sheep and lambs—Receipts, 3771; sheep, unchanged; lambs, slow but steady; sheep sold at $3.50 to $3.70 per cwt.; culls, at $2 to $2.25; lambs, $5.25 to $6.15; culls, $3.50.

Hogs—Receipts, 3719; feeling steady.

Chicago Live Stock.

CHICAGO, Oct. 29.—Cattle—Receipts, 8000; market steady to strong; steers, $4.40 to $7.60; cows, $3 to $5; heifers, $2.50 to $4.05; bulls, $2.50 to $4.50; calves, $3 to $8; stockers and feeders, $2.50 to $4.65.

Hogs—Receipts, 20,000; market 5c to 10c lower; choice heavy shipping, $6 to $6.20; butchers', $5.90 to $6.10; light mixed, $5.25 to $5.50; choice light, $5.50 to $5.80; packing, $5.50 to $5.90; pigs, $3.50 to $4.85; bulk of sales, $5.50 to $5.90.

Sheep and lambs—Receipts, 20,000; market 10c to 20c lower; sheep, $4.20 to $5; lambs, $4.75 to $5; yearlings, $3.85 to $5.15.

Girls In Fire Panic.

Cincinnati, O., Oct. 30.—Panic increased by the sight of bursting fire works, caused scores of girl employes in the eleven-storey Neave Building, corner of Fourth and Race streets, to leap from the windows during a fire yesterday; at least 20 of them being hurt, several seriously, while one of the firemen was also badly injured.

Peel Township May Go Dry.

Guelph, Oct. 3.0—Peel Township, Wellington County, may be dry next year. A strongly signed petition has been granted by the Township Council and the bylaw will be submitted in January.

Ends Life Far From Home.

St. Thomas, Oct. 30.—At San Diego, Cal., Allen Binns of Elgin County, Ont., committed suicide. He was in St. Thomas at the time of the explosion of a pail full of rubbish and powder on the doorstep of ex-License Inspector W. McClellan, on Aug. 8 last, and confessed to knowing all about it. He was accused of a similar crime at San Diego.

New Boats For Montreal Route.

Montreal, Oct. 30.—It is announced that the steamships Southwark and Kensington of the Dominion line are now on their last trip to the port of Montreal, being hereafter designated for the Philadelphia route.

Next season their places on the St. Lawrence route will be taken by two new steamers of the White Star line, both modern boats.

Yardman Will Return.

Brantford, Oct. 30.—Joseph Maguire, yardman Grand Trunk, who admitted partial responsibility for the recent wreck at Mount Vernon, where three men were killed, and who got out of town before the warrant was issued for his arrest, will return and testify before a coroner's inquest, which has been further adjourned for that purpose.

Attacked and Robbed.

New York, Oct. 30.—Mrs. Sarah Dickele was attacked in her apartment in West Ninetieth street yesterday by an unknown man, who fractured her skull with the butt of a revolver and tied her to the plumbing in the bathroom while he ransacked the house. He obtained, it is said, jewels and plate valued at $2,000 and escaped.

Canadians Win Another.

Manchester, Oct. 30.—(C.A.P.)—The Canadian Olympic lacrosse team yesterday defeated the Cheshire team 10 goals to 2.

Killed at Emerson.

Emerson, Oct. 30.—Walter Crostley was killed on the track here last evening.

A COMMON ERROR.

Correct the Sentence Before You Read the Explanation.

"May I examine the children a little as to their knowledge of the language?" asked the visitor at the grammar school, an old gentleman with a benevolent aspect of countenance, but a shrewd twinkle in his eye.

"Certainly you may," smilingly answered the teacher.

The old gentleman stepped to the blackboard and wrote this sentence upon it:

"Pennsylvania abounds in anthracite coal."

"Now," he said, "I should like to have some child point out the mistake in that sentence."

One of the older girls came forward, picked up the chalk and rewrote the statement thus:

"Anthracite coal abounds in Pennsylvania."

"Not so bad," said the visitor, "but you haven't found it."

Another changed it as follows:

"Pennsylvania abound with anthracite coal."

"Still incorrect," was the comment.

"Anthracite coal is abundant in Pennsylvania," wrote a third.

"That will not do either," said Mr. Baxter.

One of the big boys tried his hand, with this result:

"Pennsylvania is abundantly supplied with anthracite coal."

"No; that is not so good."

Then a little boy stepped forward and with his finger erased the word "coal."

"That word isn't needed," he said. "'Anthracite' means hard coal."

"Right," said the visitor. "You have one bright pupil, anyhow, Miss Adair."—Youth's Companion.

A GRIM CEREMONY.

An Emperor's Death Hastened by Rehearsing His Own Funeral.

Emperor Charles V. of Spain brought about his death by rehearsing his own funeral. For the last two years of his life, after resigning the scepter of Spain and the Netherlands to his son Philip in 1556, Charles retired to the monastery of Yuste, in Estremadura, and there lived a cloister life in close intercourse with the monks, devoting much time to religious exercises. During this period, prompted, it may be, by the example of Cardinal de la Marck, who for several years before his death, in 1528, had annually rehearsed his own obsequies, the emperor, in the summer of 1558, formed the resolution to celebrate his own funeral before he died.

Accordingly, on Aug. 30 of that year, the grim farce was carried out with the most elaborate ceremonial. The imperial domestics marched with black tapes in their hands, and the emperor, clad in sable weeds, himself followed, wearing his shroud. While the solemn mass for the dead was sung before the high altar in the cathedral Charles gave up his taper to the priest, typifying thereby his resignation of life, and was solemnly laid his coffin. The ceremony closed with sprinkling holy water on his body; then, all the attendants retiring, the doors were shut, and Charles rose from his narrow bed and withdrew to his private apartment.

The damping of the graveclothes induced a chill, which, aided no doubt by the mental depression caused by the grewsome ceremony, induced a fever which ended in his death three weeks later, on the 21st of September, 1558.

Tallest Man In British Army.

Measuring 6 feet 10 inches in his stockings, Walter Findlay, who in his day was the tallest man in the British army, has just died at Stevenage, England.

ROCKEFELLER FOR TAFT

Oil King Issues Statement Re garding His Politics.

John D. Says Republican Candidate Will Make For Law and Order, and Stability of Business — Will Try No Rash Experiments Which Will Impede Return to Prosperity —Bryan Is Not Surprised.

New York, Oct. 31.—A statement rom John D. Rockefeller announcing that he intends to vote for William H. Taft for president next Tuesday and telling why he will do so and why he thinks Mr. Taft should be elected, was given out from the Standard Oil Co. at 26 Broadway on Thursday night.

The statement as given out by the Standard Oil officials reads as follows:

"Mr. John D. Rockefeller was found his afternoon at this office on the ourteenth floor of No. 26 Broadway, hich he was visiting after a long bsence, and consented to talk upon he presidential situation. He seemed in good health and condition and poke as follows:

"It seems to me at this time when he question is put directly to any American [illegible]itizen which candidate he will support by his vote for the residency, [illegible] should be manly enugh to [illegible] just as directly. I herefore [illegible] I expect to vote or William [illegible] Taft.

"If for no other reason I support Ir. Taft because on comparing him ersonally with Mr. Bryan, his chief pponent, I find the balance of fitess and temperament entirely on is side. The election of Mr. Taft vill, I believe, make for law and rder and stability of business. He s not a man, I judge, to adventure vith rash experiments to impede a eturn to prosperity by advocating easures subversive of industrial progress.

"The question of candidates seems o me peculiarly a personal one in his campaign, as the leading orators n both sides have not succeeded n drawing party lines, as based on he platforms, with any great clearess. I do, however, support the eneral Republican position on the ariff and the currency. I have always been a Republican.

"I feel the more impelled to anwer this question because it canot be said that the great administation has in any way whatever favred the special interest to which my fe has been devoted. That, howver, does not excuse me from pubshing my opinion and doing what consider my duty as a citizen."

Napoleon, Oct. 31.—William J. ryan, who yesterday began a tour Ohio, the Standard Oil state, said was not surprised at the declaraons of Mr. Rockefeller, as the andard Oil Co. and the Republican rty have been so closely related at many of their interests are entical. In his statement Mr. ryan said:

"Mr. Taft has been making eeches for many weeks and he has t yet dwelt upon the iniquities of e trusts or pointed out the injuse done to the American people by em. No wonder Mr. Rockefeller for Mr. Taft.

"Again, Mr. Rockefeller says Mr. ft's election will make for law and der. This is false. Mr. Rockefel's corporation is the most notorus law-breaker in the United States d he is for Mr. Taft because he es not want the law enforced. Mr. ckefeller also says that Mr. Taft's ection will make for stability of siness. What kind of business? ability in the trust business is at he means. He thinks that Mr. ft's election will enable the trusts get a tighter strangle grasp upon American people and put their tortion upon a more permanent foundation. He says that Mr. Taft is not a man inclined to rash experiments. He might have omitted the word 'rash,' for Mr. Taft is not in favor of any kind of experiment in the way of remedial legislation."

Magistrate's Compliments.

Ottawa, Oct. 31.—When Thomas Fox, after a terrible struggle with D. J. Reardon on the edge of a cliff at Primrose Hill on Sept. 3, threw him over, he did the proper thing, and was warmly commended by Magistrate O'Keefe yesterday morning. Fox was walking with his sweetheart on a moonlight evening, when Reardon, who was a married man, insulted her. Fox was acquitted.

Howell Fined $20.

Winnipeg, Oct. 31.—E. L. Howell, who assaulted Attorney-General Campbell of Manitoba on Sunday, was fined $20 by Magistrate McMicken of Winnipeg.

The magistrate proposed binding Howell over, but on the latter saying that the incident was closed so far as he was concerned, Attorney-General Campbell said such was not necessary.

OLDEST MAGISTRATE.

Alex. Bartlet Who Holds Record Will Resign Position.

Windsor, Oct. 31.—Alex. Bartlet, Windsor's "Grand Old Man," and magistrate of the Windsor Police Court for nearly 31 years, announced yesterday that on the occasion of his 86th birthday anniversary, Dec. 31 of this year, he will retire to private life. He has definitely decided to send in his resignation to the Department of Justice.

Magistrate Bartlet is the oldest police court justice in Canada, so far as can be learned. Previous to going on the bench he was town clerk, to which position he was appointed in 1854. His appointment as police court magistrate came 20 years later from the Mowat administration. He is certainly the oldest public servant in the Dominion in point of service. Mr. Bartlet is the only living charter member of St. Andrew's Presbyterian Church, which celebrated its 50th anniversary only last year.

To-day Mr. Bartlet is hale and hearty and is possessed of a keen memory, which he attributes to his abstinence from liquor and tobacco.

GUELPH MAN SHOT DEAD.

His Hunting Companion Slipped While Carrying a Rifle.

Guelph, Oct. 31.—Trainer's Cut, on the G.T.R., two miles from the city, where so many accidents have happened on the railway in the past few years, was the scene yesterday afternoon of a shooting accident which caused the death of James Connolly, a young man whose parents are retired farmers and live on Grove street in this city. Accompanied by Harry Scarlett, a youth of fifteen years, he was out shooting with a twenty-two calibre rifle. While in the cut a freight train came along and the hunters, accompanied by another boy named Dennis, climbed up the bank. Connolly got nearly to the top when he sat down. Scarlett was following him up, but slipped and fell, and the bullet from the rifle entered the left eye of Connolly. He fell over and never spoke a word. About an hour later a doctor, arriving with the ambulance, found the two boys standing on the hillside with their dead companion. No inquest will be held.

Lawyer Goes to Cell.

New York, Oct. 31.—William Flyaner, a lawyer with offices in Wall street, was sentenced yesterday to one year's imprisonment in the penitentiary for grand larceny. Flyaner is 66 years old, and has been prominent as a churchman. Hundreds of letters asking for clemency were submitted on his behalf. Despite these the court said:

"As a warning to others I will sentence him to one year. Lawyers who take their clients' money have no right to expect mercy."

Flyaner was convicted of diverting to risky speculations, $18,000 entrusted to him by two women for safe investment.

Gets Fifteen Years.

Montreal, Oct. 31.—Fifteen years for an unmentionable offence was the sentence imposed yesterday on Dr. J. W. Geoffrion, once a prominent physician, in this city.

He was at the head of an organization known as the "Mange Le Ligne" Club, probably one of the most infamous organizations that this continent ever saw. There were all told upward of thirty men members, while young boys were constantly falling into their clutches. When exposure came members of the club fled the country, but five have been tried and convicted. The others will receive their sentence to-day.

Canadian Suffragists.

Delegates Want Votes, But Disapprove of British Methods.

Two Women at Ottawa Convention Express Willingness to Go to Jail If It Will Do Any Good—Lady Edgar Has Matter Deferred Until June—Withdraws Clause Favoring Suffragette Methods in England.

Ottawa, Oct. 31.—During the discussion on woman's suffrage by the National Council of Women yesterday afternoon, Dr. Margaret Gordon of Toronto and Miss Peters of St. John, both declared their willingness to go to jail if it would help the women of Canada to get the right to vote.

The resolution on woman's suffrage was ruled out by the president, Lady Edgar, as unnecessary. She disposed of it on the ground that full arrangements had been made to discuss the question of votes for women at the international conference to be held in Toronto next June.

Dr. Stowe-Gullen of Toronto expressed her opinion that the women suffrage question should be given a dignified place on the program of the National Council, as well as the International Congress. She thought it was an awfully innocent resolution, and at first had thought that every member would heartily support it. Later she had learned that it had caused a great deal of worry. In Colorado, where women had votes, the protection of women was well provided for. The thought was awful that women were ranked as minors, lunatics and animals, when they were not given the right to vote.

"No, no, we are not," exclaimed Lady Taylor of Hamilton.

"Yes we are," reiterated Dr. Stowe-Gullen. She thought no one was better able to deal with women's questions than women themselves, and it was time for the women of Canada to realize their responsibility.

Another animated discussion arose on the suffragette question when Dr. Stowe-Gullen presented a report on the citizenship of women. The report contained a paragraph approving the recent actions of the British suffragettes.

Miss M. Peters of St. John, in seconding the motion, declared in favor of the ballot for the women of Canada. If the women had votes, she declared, we would have prohibition in Canada.

Lady Taylor of Hamilton took the opposite view, "If we carry this resolution," she said, "we shall be commending the action of the suffragettes in England. They may be some women in Canada who approve of the conduct of the British women, but I do not. I ask that the eulogies of the British suffragettes be stricken from the report."

In the end Dr. Gullen agreed to strike out of the report references to the British suffragists and the report as amended was received.

Whitmore Not Guilty.

Jersey City, N.J., Oct. 31.—After being out two hours, the jury in the case of Theodore Whitmore, on trial for the murder of his wife, whose battered body was found on Dec. 20 of last year, in a swamp near Harrison, N.J., returned a verdict last night of not guilty. Whitmore's defence was an alibi, which he was able to establish by the testimony of a number of witnesses who testified to having seen him in New York at the time of the commission of the crime.

Juvenile Delinquents.

Ottawa, Oct. 31.—W. L. Scott of Ottawa yesterday morning addressed the National Council of Women of Canada on "Juvenile courts." He stated that there was now an excellent Federal Juvenile Delinquents Act on the statute books, but so far no Provincial Government had provided machinery necessary to give it effect. The council adopted a resolution urging all local councils of Canada to endeavor to have Provincial Governments make provisions for the application of the act.

Mob Raids County Jail.

Kingston, Tenn., Oct. 31.—A mob of thirty men attacked the Roane County jail early yesterday and killed George Cook, held on the charge of murdering John King, a ferry man at South West Point a few weeks ago. All but two of the mob were masked.

It is presumed the men intended to hang Cook, as they had a rope. Cook offered resistance and drew a razor and cut one of the men in the mob. Four bullets then entered his body.

Hemmed In by the Flames.

New York, Oct. 31.—Hemmed in by flames, and unable to escape from the basement of a business house in Duane street, Henry Jones and David Mahoney were burned to death Thursday night, and William Settgast will probably die.

The men were at work when a barrel of celluloid caught fire. The poisonous fumes soon overcame Jones and Mahoney.

Woodstock May Go Dry.

Woodstock, Oct. 31.—Petitions signed by 825 electors of Woodstock were yesterday afternoon put into the hands of City Clerk Morrison, asking the city council to submit to the electors at the January municipal elections a bylaw for cutting off any hotel and shop license in the city. There are nine of the former and two of the latter.

Attempted Suicide.

London, Oct. 31.—Frederic Morganthaler, a native of Switzerland, who, in company with John Watson, an Englishman, came here Wednesday, shot himself in the head in the lavatory of the City Hotel yesterday. He will live.

Morganthaler has a wife and daughter coming to join him from Switzerland.

Suffragist Amaze Iowa.

Boone, Iowa, Oct. 31.—Six hundred women suffragists paraded the streets of Boone. Rev. Anna Shaw, head of the National Order of Suffragists, headed the parade. With her were Miss Randell and Miss Costello of London, famous for their participation in the attacks made by Parliament by the women suffragists of England.

The spectacle of six hundred women marching through the streets caused the whole town to turn out to witness it.

For College Riflemen.

Ottawa, Oct. 31.—An interuniversity shooting match will be held Nov. 14 by the Dominion Rifle Association, open to all university rifle associations who will shoot on their own ranges at 200, 500 and 600 yards. The highest scores forwarded to the D.R.A. secretary will get a challenge cup and eight miniatures for members of the team. This annual event is to encourage colleges to form rifle associations.

Not Due to Protection.

London, Oct. 31.—(C. A. P.)—The Morning Post points out that the modern Canadian artist in campaign literature would have little difficulty in basing upon discreetly worded evidence of the great Lord Durham charges of graft and boodle not less lurid than those which characterized the recent elections. This is in answer to the charge that protection has bred corruption in the Dominion.

Death Penalty For Assault.

Richmond, Va., Oct. 31.—Winston Green, a negro youth, was electrocuted in the state penitentiary yesterday for attempted criminal assault on a young white girl.

John Finney, a negro, for a similar crime, having been found feebleminded, the governor a few days ago commuted his sentence to imprisonment for life.

Mrs. Astor Dead.

New York, Oct. 31.—Mrs. Wm. Astor, who for thirteen years has been regarded as the social leader of New York, died last night of heart disease at her home in Fifth avenue. For nearly four weeks Mrs. Astor, who was 82 years old, had been in a critical condition.

Wright's Motor Explodes.

Lemans, France, Oct. 31.—While Wilbur Wright, the American aeroplanist, was making a flight yesterday morning, the motor of the machine exploded. Mr. Wright landed without injury, and the aeroplane was not otherwise damaged.

Will Drift Across Polar Sea.

London, Oct. 31.—(C. A. P.)—Roald Amundsen, who voyaged through the Northwest Passage, has adopted Capt. Bernier's idea of a drift voyage across the North Polar Basin. He is preparing for a voyage of six years.

Boy's Terribly Injury.

Barrie, Oct. 31.—Charlie McTindless, aged 6, caught his leg in the wheel of a passing rig he was attempting to climb into, and the limb was cut off at the thigh almost as completely as by a knife.

Two Years For Blackmail.

Woodstock, Oct. 31.—For obtaining $300 from Charles Damm of Woodstock by threats, Robert Colwell, aged 40, was sentenced to two years' imprisonment. Colwell was arrested at Port Huron, Mich.

TIMELY TOPICS.

Did you get tagged?

• • •

But it's pretty hard to see how you could escape.

• • •

And just here, before we forget it, let us toss a little bunch of approbation at those ladies who stood around on cold street corners this morning, bravely facing the biting winds, in order to raise money for a good cause. We doubt if you'd find as many men who'd do as much, unless they were driven to it.

• • •

No ruffianism to-night, boys. A little noisy fun does no harm, but wilful destruction of property will rightly get you into trouble.

• • •

The question of possible return to the ward system of electing aldermen is engaging the public attention at present, and will continue to do so, likely, till after the January elections.

• • •

Looking at this matter from the standpoint of a man in the middle of the road, it may be asked, what is there to gain by returning to the old system? Will it expedite matters in the Council? Will it put a better class of men in the Council? Will it tend to harmonious conditions in the city at large? Is it in the line of progress?

• •

The first question can safely be answered in the negative. There is sufficient oratory in the Council at present. With 22 members wanting to talk, the city's gas bills would be so high you'd have to stand on a chair to reach over them.

• • •

To the second question, Will it put a better class of men in the Council? we do not need to delve far into past history to answer that. A municipal "peanut" might get elected under the ward system who would have no chance in an election at large.

• • •

Fourth—Will it tend to harmonious conditions in the city at large? Most certainly not. There would be continued bickering between the different wards, and continued dissatisfaction. The most insignificant ward in the city would be entitled to the same representation as the most important ward, which pays, perhaps, three times as much in taxes. Would that be fair? Think it over.

• • •

Lastly—Is it in the line of progress? Decidedly not. It is about as reasonable as a motion to do away with electric street lighting and return to a system of lighting the city with coal oil lamps would be. The idea is archaic, and would tend to retard the city's progress. Since the system of election-at-large has been in force we have had a good class of aldermen; some of them not exactly 18 karat, perhaps, but nearly all of them imbued with the sincere desire to do their best for Belleville. And what has been their reward? In many cases more or less unjust criticism; volleys of bricks from men who politely decline to take a share of the work themselves, but many of whom, we are told, now desire a return to the "ward system." Why, only the stars can tell.

• • •

The fact of the matter is, the present system of electing the Council is all right. What is wanted is more interest in municipal affairs among our leading men. At present the men who have most at stake in the city decline to shoulder any of the burdens. And they ARE burdens, mind you, for it is no joke to attend fifty or more meetings every year, besides giving up a large amount of time in the day, free, gratis, for nothing. And all for the privilege of writing "Ald." before one's name. To be sure, the city's work must be done, and is done, but is it fair to get men to do it, for nothing, and then abuse them for it afterwards? Let any ardent advocates of the ward system, who are dissatisfied with matters as they are at present, come out and run for alderman next January, stating their platform of "reform," and they will no doubt be elected. Then we will see what they will do next year.

• • •

Don't discourage the boy if he wants to wear a false face. Bless him, he has to look like father all the rest of the year.

• • •

Ice on the streets this morning. NOW where are your summer's wages?

• • •

The worst offence they can charge against a living Hamilton man is that he occasionally buys GOOD cigars for his friends. N. B.—He must have plenty of friends.

Quite remarkable improvements have recently taken place in the Kingston Standard, formerly the News, which is now, typographically and editorially, an excellent newspaper. Good luck to our esteemed contemporary; long may it wave to fight for Conservative principles.

• • •

"WHEN SHE WILL SHE WILL," ETC.

(Hamilton Spectator.)

A Dr. Rachel Skidelsky raises the question as to whether a woman should smoke. Surely an unnecessary one; because, if she wants to, she will, whether she should or not.

• •

The Toronto Globe does not relish the castigation given it by the Telegram for glorifying young Howell for brutally attacking, on the street of Winnipeg, the Attorney-General of Manitoba for some fancied insult. Every one who read the article in the Globe could draw from its tone no other conclusion than that arrived at by the Telegram, which said: "A more thorough example of editorial blackguardism never appeared in print than the Globe's thinly-veiled glorification of the young Siftonian lawyer who assaulted the Attorney-General of Manitoba." To this the Globe takes exception, by saying that "the suggestion that the Globe in any degree approves of young Howell's attack on the Attorney-General of Manitoba is an absolute perversion of the truth." This is all very well, but those who read the article could see, between the lines, a justification of the assault. If there were any doubt upon the subject, it would be removed in reading the following, which appeared in its editorial columns of the 30th Oct.:

"The Telegram should save some of its post-election hysterics for the decent Winnipeg citizens whom the Attorney-General of Manitoba forced to herd with criminals in the cells by his refusal to grant bail in cases where bail was quite properly demandable."

This simply means that if a Conservative Attorney-General refuses bail to a lot of political offenders, for good reasons, a Grit lawyer is justified in brutally attacking and maltreating him on the public streets. It is bad enough to defend political rascalities, but this is carrying partyism too far. If the Winnipeg magistrate does his duty he will send this young blackguard up for three months.

• • •

That the Liberals of Winnipeg approve of Howell's assault upon the Attorney-General is shown by the appearance of a number of them in the court room at the trial, ready, says a telegram from Winnipeg, to pay any fine imposed upon him "as evidence of their dislike for Campbell." The Globe can, therefore, console itself in the reflection that it only echoes the rowdy sentiments of its co-workers in Winnipeg.

• • •

There has been a rumor prevalent throughout the city, during the past few days, to the effect that a change had been made in the Bursarship of the Institute for the Deaf and Dumb. In order to ascertain whether there was any truth in the rumor The Intelligencer interviewed Mr. J. W. Johnson, M. P.P., this morning. Mr. Johnson stated that he was not aware that any change was intended to be made by the Government in the office in question. Nothing had been communicated to him with respect to the matter.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & CO., Toronto.

DR. CHASE'S OINTMENT.

Fate Was Unkind To Our Mr. Stuart, Of Drill Shed Fame.

Might Now be King of England if Mary Stuart Had Not Lost Her Thinker.

Speaking at the Masonic banquet at the Queen's hotel on Wednesday evening of last week, says the Barcroft Times, Mr. J. W. Stuart, of Belleville, who, by the way, says that if Mary Stuart had not been beheaded he might now be King of England, paid a high tribute to the quality of the marble to be found in the quarries owned by Messrs. Riddell and Morrison, south of this village. He claimed that it was equal to the best Italian marble, and all that was required was money to open it up. Both the quantity and quality are there. Mr. Stuart was one of a party of Belleville gentlemen who inspected the quarry this summer, and so pleased was he with what he saw that he asked and received permission from the Minister of Militia to have two mantels made from Barcroft marble placed in the new drill shed at Belleville, for the building of which he has the contract from the Government. The slabs are now being prepared by the Jas. Robertson Co., of Toronto, and will be placed in position in about a month.

CONSUMPTION'S STARTING POINT.

LIES IN WEAK, WATERY BLOOD DR. WILLIAMS' PILLS MAKE THE BLOOD RICH AND RED.

Bloodlessness is the starting point of consumption. When your blood is thin and watery your whole health declines. Your face grows pale, your appetite fails and your heart jumps and flutters at the least exertion or excitement. You are always weak and wretched and lose interest in everything. This is the point from which you may easily step into that hopeless decline that leads to consumption and the grave. What is actually needed to bring back health and strength and energy is the new rich blood Dr. Williams' Pink Pills actually make. In all the world there is no other tonic medicine like them, and all who feel weak and easily tired should take these Pills at once, and regain new health.

Miss Ada Burke, The Grange, N. B., says: "I feel that I cannot say too much in favor of Dr. Williams' Pink Pills. In March, 1907, I was attacked with whooping cough, which clung to me for several months, and when the cough disappeared I was left weak and run down. All summer I was ailing, but when the autumn came I seemed to be completely worn out. For a whole month I never moved outside the house, and could scarcely walk about the house, I was so weak. I had no appetite, my color was a greenish yellow. I had severe headaches and would be almost breathless at the least exertion. I took several bottles of medicine, but it did not help me, and then my mother got me three boxes of Dr. Williams' Pink Pills, when I had used them I was much better, and by the time I had taken another three boxes I was again enjoying the best of health, with a hearty appetite, good color and renewed energy."

If you want new health and new strength, try Dr. Williams' Pink Pills. A fair use of this medicine will not disappoint you. Sold by medicine dealers or by mail at 50 cents a box or six boxes for $2.50, from The Dr. Williams Medicine Co., Brockville, Ont.

RIGHT FOODS FOR INFANTS

Those who have the care of little folks should remember that we make something of a specialty of Nursing Supplies. We have all the best brands of Infant Foods, and we take special care to keep them fresh. You can't be too particular about what you buy for baby and you can't be more particular than we are in these matters.

McKeown's Drug Store

R. T's in Trenton.

A number of the members of the local lodge of Royal Templars last evening paid a friendly visit to the Trenton lodge. After lodge business had been completed the visitors were royally entertained and an hour was spent in social intercourse.

Decide to Dethrone Sultan.

Paris, Oct. 31.—A despatch from Smyrna says that the young Turks, believing that the Sultan has a secret agreement with Tewfik Pasha, the Foreign Minister, have decided to dethrone him, and replace him by his third son.

Gold in the Congo.

Brussels, Oct. 31.—Reports received from R. D. Mehun, leader of the American expedition in the Congo, state that he has discovered rich deposits of gold, tin and copper in the Manyema district.

Horseflesh commands a lower price in Arizona than elsewhere.

PERSONAL AND SOCIAL

Mrs. Ernest Pascoe left to-day for Berlin, Ont., to visit her parents.

Mrs. (Rev.) A. M. Hubly, of this city, who has been visiting in the Maritime provinces for the past three months, returned home yesterday.

Mr. and Mrs. Samuel Wiggins, West Bridge St., went to Queensboro to-day to attend the funeral of Mrs. Elinon Wiggins.

At the Quinte: H. A. Rose, W. P. Wilson, Toronto; H. K. Sell, B. F. Rapley, A. L. Fraid, Montreal; C. A. Finkbeiner, Listowel; J. Harris, New York; F. Wilmore, Corbyville; H. B. Bristol, H. D. McMullen, J. Brown, J. Hepburn, Dr. F. Wright, Picton; Miss Miller, Frankford.

OUR NEW STORY.

Our new story, "Meadow Brook," by Mary J. Holmes, which will start shortly, is replete with pathetic and stirring incidents, and is written in the style which has made the author famous as a writer of fiction. Don't miss "Meadow Brook."

Y. M. C. A. NOTES.

Rev. R. S. Laidlaw will be the 4.15 speaker to-morrow.

A large attendance of boys was at the Bible classes this morning, when Charlie Pearce was awarded the annual prize of a camera for best attendance and securing new members. He was heartily applauded and made a modest and characteristic speech in reply.

ALL SAINTS' DAY.

To-morrow (Nov. 1st) the Festival of All Saints, falls this year on Sunday. In St. Thomas' Church the services will be as follows:

8 a.m.—Holy Communion.
11 a.m.—Holy Communion (Choral) with sermon.
7 p.m.—Choral Evensong with sermon.

The Rector will be the preacher at both services.

OUR NEW STORY.

Our new story, "Meadow Brook," by Mary J. Holmes, which will start shortly, is replete with pathetic and stirring incidents, and is written in the style which has made the author famous as a writer of fiction. Don't miss "Meadow Brook."

CARMAN OPERA HOUSE

FRIDAY, NOV. 6th

After Election.

After all elections there is much talk of partizanship and electoral corruption, particularly by defeated candidates. That many irregularities and political crimes are committed goes without saying, and that there are numerous failures in the prosecuting and punishing of the wrongdoers is equally true.

Why should this be? In many cases where the candidate is victorious he and his friends are content to end the struggle, and allow the offenders to go unwhipped of justice, while others, who lose in the battle, care not to add to their struggles nor do they care to take the trouble of prosecuting.

Is this right? Do either party perform their duty to themselves or to the country? Either nothing should be said about the frauds committed or the offenders should be punished, as a deterrent to others.

We are led to these reflections owing to inquiries being made as to whether the Returning Officer in Stoco is to be proceeded against for having, as alleged, given ballots to persons not entitled to vote at his poll, in defiance of the provisions of the law and the protest of the agents at the poll. There can be no question but that both Returning Officer and voters should be punished, if the former acted as alleged, and the latter for voting where they had no right to vote.

The Stoco poll has for years been noted for irregularities, which will be continued in the future, unless steps are taken to enforce the law, and apply the remedy, which is punishment by fine and imprisonment. Unless this is done, dishonest partizan officials will, whenever the opportunity presents itself, depart from what is right, under the impression that they can commit any party crime with impunity.

Prosecution is the only remedy. Let it be done, or cease talking about it.

PREVENTION OF THE WHITE PLAGUE

The prevention of Consumption and its cure in the early stages is a matter of fresh air and nourishment, but to secure nourishment you must have appetite, and nothing is better known to medical science to stimulate and invigorate the system than the active principles of COD LIVER OIL—the only drawback has been that it has hitherto been impossible to separate the really valuable elements of cods' livers from the nauseous oil or grease, which fact has largely offset the good derived from the alkaloids or active principles contained in the Oil.

"BRICK'S TASTELESS" is a preparation of the valuable alkaloids or active principles separated from the grease and combined with Phosphorous in the form of the Compound Syrup of Hypophosphites, the nutritious Liquid Extract of Malt, and the Bronchial Tonic and Sedative Fluid Extract of Wild Cherry Bark.

In all cases of wasting diseases or an enervated condition of the system immediate improvement and eventual cure follow its use.

Read Brick's guarantee with each bottle.

"BRICK'S TASTELESS"

is put up in eight (8) ounce bottles, retail price fifty (50) cents; and in twenty (20) ounce bottles, retail price one (1) dollar.

MUSIC AND THE DRAMA

"THE WOLF" COMING.

Commanding attention by reason of an undoubted success at the Lyric Theatre, New York, and the same authorship as "Paid in Full," which received much complimentary comment, "The Wolf," Eugene Walter's masterly play will be given for one night at the Carman opera house on Friday, Nov. 6. "The Wolf" is notable not only for the strong and stirring interest of the piece, which is sustained until the drop of the final curtain after the sensational duel which is fought out on the darkened stage, but for the realism which is apparent in the mounting of the play. Prices 25, 35, 50, 75 and $1, box seats $1.50. Plan opens Wednesday morning.

Weekly Intelligencer $1.00 a year; Daily Intelligencer, $3.00 a year; Weekly Intelligencer to the U. S., $1.50; strictly cash in advance.

Left Fat; Back Slender.

BY "FOOTLIGHTS."

Glau and his overweight chorus from the "Aeroplane" company have returned to New York in what may be described as greatly reduced circumstances. Not as to finances, let it be said, nor yet in numbers, glory be, but in averdupois—that is to say, gross flesh. The entire galaxy has lost out in this respect, much to its advantage.

It seems the people out west will support slim ballerinos, and no other, and our famous "balloon chorus" carried, so to speak, no weight with them. They treated that prize collection of fat New York beauties with an unprecedented coldness. Consequently, Glau faced the problem of reducing the entire front and rear rows at once, or shipping them back —"excess" baggage. It was a terrific job, as all who saw the "Aeroplane" before it left this tolerant town will admit, but our ingenious townsman tackled it and succeeded—broke all records, in fact. And thereby hangs a tale worthy of any fat lady's attention.

Glau didn't rehearse his flock into shape, nor starve them into line, nor yet worry them verbally, into shadows. He paid salaries regularly and let them eat and drink as they listed. He simply hung up a new rule in the dressing-rooms to the effect that every lady less than five foot seven who weighed in excess of 150 pounds must take a teaspoonful after each meal and at bedtime (or about where bedtime ought to be), of the following: One-half ounce Marmola, 3-4 ounce Fluid Extract Cascara Aromatic, and 4 3-4 ounces Peppermint Water.

They did it and in a month averaged a loss of a pound a day apiece. "That's a dandy receipt," says Glau. "Simple, pleasant, harmless and a worker from the word go." Wish I could get a railroad rate reducer half as good."

Some men are so smart that they need all their brains to keep them out of difficulty.

"Y's" Officers.

The following officers and superintendents have been appointed for the ensuing year by the "Y's":

President—Mrs. J. Williams.
Treasurer—Miss L. Pascoe.
Rec. Sec.—Miss M. Reeves.
Cor. Sec.—Miss K. Foster.
Vice-President from Emmanuel Church—Miss I. Dunnet.
Vice-President from St. Andrew's Church—Miss M. Mallory.
Vice-President from Christ Church —Miss F. Newton.
Vice-President from Bridge Street Church—Miss F. McClatchie.
Superintendent Social Department—Miss L. Holton.
Superintendent Loyal Temperance Legion—Miss Williams.
Superintendents of Flower Mission —Misses A. Lazier and E. Ketcheson.
Superintendent Lumbermen's Mission—Miss L. Conger.
Superintendent Scientific Temperance—Mrs. J. Williams. Trying to get it taught in all our schools.
Superintendent Temperance Quarterlies—Miss K. Foster. It is the aim of the "Y's" to get one of these into the hands of each Sunday school teacher before the quarterly temperance lesson, to try and aid them in showing the evils of intemperance and cigarettes.
Superintendent of Millinery for Rummage Sale—Miss McClatchie.

The plan of work for the winter was discussed at the last meeting on the 4th Tuesday. One hundred pounds of literature, with two scrap books and a well filled comfort bag, was sent to Huntsville, the headquarters of the Lumbermen's Mission.

Owing to the small attendance on the 2nd and 4th Tuesdays, the evangelistic superintendent has not been appointed.

We hope with the above officers and the help of the temperance people, to do a good work for God and temperance.

E.W.F., Press Supt.

ONE BAD MISTAKE.

IS FREQUENTLY MADE BY THE WISEST OF BELLEVILLE PEOPLE.

It's a serious mistake to neglect backache. Backache is the first symptom of kidney ills. Fatal complications may follow. Booth's Kidney Pills act quickly to overcome Kidney ills, do not delay until too late, it may mean Diabetes, Bright's disease. Read what a Belleville resident says.

Mrs. Alfred Belton, of Belleville, Ont., says: "I had been unable to attend even to the slightest housework. My back was so sore and tender that I could not stoop or lift anything. A twinging pain would catch me in the kidney region and I would be hardly able to catch my breath. I had lost much sleep through the frequency of the kidney secretions. The urine was highly colored and contained a quantity of brick dust sediment. I had become weak and run-down and would often awake more tired and done out than on going to bed. Doctors had failed to benefit my condition. I was advised to try Booth's Kidney Pills and procuring a box at Mr. McKeown's Pharmacy I commenced their use. They soon benefitted my condition. I gradually became strong and each symptom of the dread disease soon had disappeared. Sold by Dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

To-day's Market.

The local market was to-day fairly well attended. There was not much change to note in prices, except in eggs, which were rather scarce and sold readily at from 27c to 30c per dozen. Other farm products sold at about the same prices as a week ago.

Our quotations are as follows:

Hay—$13 to $15.
Butter—28c to 30c.
Eggs—23 to 26.
Fall wheat—$1.00.
Spring wheat—75c bus
Barley—60c a bus.
Oats—45c to 50c.
Rye—65c bus.
Peas—75c bus.
Buckwheat—80c.
Timothy—$7.50.
Clover, red—$15 to $16.
Alsike—$11 to $12.
Dressed Hogs—$8.50.
Dressed beef, fore—$4 to $4.50.
Dressed beef, hind—$5 to $5.50.
Spring lamb—18c to 20c.
Mutton—8c to 10c.
Veal Hides—9c per lb.
Pelts, No. 1—55c.
Turkeys—12c to 15c per lb
Geese—$1 to $1.50.
Ducks—$1.
Chickens—45c to $1.00 per pair.
Spring Chickens—50c to 80c pair.
City hides, trimmed—7c to 7 1-2c.
Horse Hides—$1.50 to $1.75.
Kips—7c per lb.
Deakin skins—55c to 60c.
Tallow, rough—2 to 2 1-2c.
Tallow, rendered—5c.
Wool, washed—13c per lb.
Potatoes—85c to 90c per bag.
Live Hogs—$6.00 to $6.15.

Important Notice To Taxpayers.

Tax Payers will take notice that, after Nov. 1st, FIVE PER CENT. INTEREST will be added on all unpaid 1908 Taxes.

F. DAVEY DIAMOND,
Collector.

Returning Officer Williams will make his official declaration in the Shire Hall at 2 p.m. on Monday next.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure Send for circulars, free.

GREAT CLEARING SALE OF WALLPAPER

AT

Scantlebury's

We have recently purchased at 37c on the dollar, the entire stock of Mr. John Cornelius. The goods have been brought to our warerooms and put in order and are now on sale at less than one half their value.

The stock has been so minutely arranged that small quantities can be handled without any difficulty of shortages. This is to say, we know what we have of everything and these small quantities in many cases will be cleared out at one quarter their value. The Cornelius stock must all be closed out before the end of the year, as we cannot bother with small quantities in the regular working season and the advantage will be to the purchaser.

Never before such an opportunity of buying wall paper at such prices and this, too, right in the face of the advance of wall-paper prices during the past three months of 25 per cent. Wall paper will be higher in price in the future, but during this sale you will have the great advantage of bargain prices such at you will not recall or repeat.

With this stock of wallpaper we have 10.000 feet of room moulding purchased in the same stock, which will be sold at like bargains to those of wall paper.

Remember the Place of Sale

C. B. Scantlebury's

Decorator and Designer

Remember we do painting, paper hanging, graining, decorating at lower prices than you imagine, The style of our work is of a high order. Our prices are low.

SHREDDED

IN SICKNESS OR IN HEALTH

The food that gives bounce and buoyance to mind and body is Shredded Wheat. Made of the whole wheat, steam cooked, shredded and baked in the cleanest, finest food factory in the world—used by invalids and athletes and everybody.

At all grocers. 13c a carton—2 for 25c.

WHEAT

Home Buyer Is Thief.

New York, Oct. 31.—In the arrest of a young man who gave his name as James Somers, and said that he came of wealthy English parentage, the police believe they have the robber who entered the home of Mrs. Amelia G. Adams in New Rochelle Thursday, bound her, looted the place and escaped.

Detectives who arrested Somers in Harlem say he confessed to the Adams robbery and to a similar offence committed on Kingsbridge road in September. The plan of the robber in both instances was to represent himself as a prospective purchaser of the home.

Comfort and independence abide with those who can postpone their desires.—Success Magazine.

After Penny Cable Rate.

Ottawa, Oct. 31.—Hon. Rodolphe Lemieux left yesterday afternoon for England, with the object of negotiating for the penny-a-word cable rate between Canada and Great Britain. He will be accompanied by Hector Verret, his private secretary.

The conference will be attended by representatives of the various colonies, and the Canadian Government, through Mr. Lemieux, will lend its support to the movement for reduced cable rates as an incentive to increased intercourse between the various parts of the empire.

Hens.

The younger the hen the better she lays in winter, when eggs are highest.

A Few Remarks On

Boys Shoes

The Boy and His Shoes !

A strenuous boy and poor shoes are a bad combination. Bad for the Boy Bad for the shoes and bad on father's pocket book,

If father would like to save money and temper let him fit Tommie to a pair of Haines' Quality shoes—the shoe that's the cheapest in the end.

—Cordoran and Box Calf Solid Leather soles and insoles—Lace or Blucher cut—formed to fit growing feet, $1.25. $1.50, $2.00 to $2.50—according to size.

TIMELY TOPICS.

THE STEP ON THE STAIR.

(Baltimore Sun.)

In the silence of the night,
Airy, dainty, soft and light;
O'er the noises of the day,
Like the dropping of a spray;
I can hear it—it is near,
Like an echo in my ear—
That loved footstep ever more
On the step and at the door.

In the morning when the trees
Shake their little hand in breeze;
In the noon when murmur reigns
And the flies buzz on the panes;
Soft and gentle, tippytoe,
I can hear her shadow go,
And her vision passes by
While we listen and we sigh.

In each home where death hath been
There are sounds above the din,
And below it; ah, they sway
Through the babble of the day;
In the dusk of eve they creep
In the silent halls of sleep;
Soft and gentle, they are there,
Little steps upon the chair.

* * *

Another soap firm in England has been awarded $115,000 damages against Lord Northcliffe. A few more rubs like that and His Lordship's newspapers ought to be scoured clean. Why this is not quite the sum Foster wants from the Globe and its editor. If he gets it, it will be better than land deals.

* *

The school attendance in Toronto has increased only 118 per cent. over that of 1885, while the expenditure has advanced no less than 339 per cent. This is equal to Fielding's financeering.

* * *

In Altendorf, Hungary, The Jewish Chronicle states, there reside a Jewish married couple, the husband, Hermann Unterberger, being 120 years old, and the wife 102. They are the oldest inhabitants, as well as the oldest Jews in the entire country.

* * *

Sifton, that prince of all purity political and otherwise, wires the Toronto Star that "stuffed voters' lists were the principal cause of the adverse result in Manitoba, in Winnipeg and Brandon. Other sinister influences were at work, not necessary to mention atp resent." Adding that "the Liberals of Manitoba are fighting mad" and intend protesting every Conservative returned. These gents are evidently judging others by their own former tactics.

Pleasant For the Lender.

"There," said Dubley, adding up the column of figures, "a total of $652. I guess that's all. Oh, no; there's $30 I forgot! Gee! I wish somebody would lend me $682. Can you do it, old man?"

"What for?" demanded Markley.

"Why, I want to get out of debt."—Philadelphia Press.

A Holdup.

De Roads—Mister, I found the dorg your wife is advertisin' a reward uv $5 fer. Mr. Jaw—You did, eh? De Roads—Yes, and if you don't gimme $10 I'll take it back to her. See?—Philadelphia Inquirer.

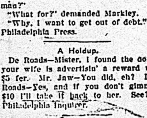
Made His Mark.

"Well, young Dr. Slicer has made his mark already, hasn't he?"

"Yes; did it on his first case."

"Great Scott! What did he do?"

"Vaccinated him!"



$1.80

OFT times just an inexpensive gift—yet in perfect taste—is wanted.

JOEL CHANDLER HARRIS.

The Way He Came to Write His "Uncle Remus" Stories.

Many great works of genius, as is well known, have been produced by accident, and an author is seldom the best judge of his own work. When Joel Chandler Harris wrote the first of his "Uncle Remus" stories and presented it for publication he did so with a hundred misgivings. He was not sure that his venture in negro folklore would prove successful. He could not know that they would bring him worldwide fame.

At the time described Mr. Harris was a young man of twenty-eight, employed on the Atlanta Constitution. Sam W. Small, afterward a revivalist, who had been writing for the same paper a popular column of negro story and dialect, had just resigned from the staff. The managing editor of the Constitution, wishing to continue the feature, said to Harris one day: "Joel, it seems to me you could do that sort of thing to a tee. See if you can't turn in something tonight."

The young writer's memory flitted back to his early days on a plantation. All the quaint settings of negro life—the little cabins, the fiddling darkies, the wrinkled story teller, the black "mammies," the noisy corn shuckings, the bobtailed rabbits disappearing along the road—came hurrying from the past. Late that afternoon he turned in his copy. The next day his reputation was made.—Current Literature.

TIPPING IN BOHEMIA.

Even the Street Car Conductor Expects His Gratuity.

In the city of Prague a tip to the tramway conductor is considered de rigueur. The orthodox tip consists of but 2 heller, or two-tenths of a penny, yet as "strap hanging" is allowed for in considering the carrying capacity of the car the conductors should have got a goodly pocketful of the minimum coin by each day's end.

Tipping, it was ascertained in another of Bohemia's larger towns, is so fully recognized that the head waiter at a cafe pays a rent for his post, supplies all the journals for the coffee room and looks after the other waiters and then makes an income larger than that of a university professor, all out of his tips.

After supper at one of the delightful open air cafes of the capital it was found that approximately one should give a half krone (fivepence) to the head waiter who took payment, twopence to the underwaiter who brought the viands and a halfpenny to the boy who brought—and even brought again as one glass was finished—the beer.—London Chronicle.

Don't Say Cologne.

She sprinkled eau de cologne liberally in the bath of pink marble. "It is this perfume," she said learnedly, "which makes us think that the town of Cologne must be scented. Johann Maria Farina invented 200 years ago in Cologne a perfume made of the oils of neroli, citron, bergamot, orange and rosemary. He called the perfume after his city, eau de Cologne—water of Cologne. By the same token, had he been a Londoner, he'd have called it eau de London. In that case the illiterate would now think London a scented city, and instead of saying correctly, 'Put a few drops of perfume on my handkerchief,' they would say, 'Put a few drops of London on it.' In fact, it is a very vulgar and silly error to call all perfumes cologne. You might as well call them Chicago or Denver."

No Satisfaction.

The Editor—Eh, what's wrong?

The Correspondent—In that letter of mine that you printed this morning several gross errors were permitted to appear. Look at this. I wrote "Nobody has any desire to impeach the rugged quality of Mr. Skimmerhorn's honesty," and you turned "honesty" into "hosiery." Look at it!

"I see it. And, what's more, I see nothing wrong about it. Anything else?"

"Yes, here's another. This is what I wrote: 'Mr. Skimmerhorn's ripe experience and his respect for honor must not be forgotten.' And you speak here of his 'tripe experience' and his 'respect for Homer.'"

"Yes, that's so. And they're both highly commendable virtues. Good morning, sir."—Cleveland Plain Dealer.

The Hurry Fad.

"Mr. Cleveland," said a Princeton lecturer, "had little sympathy with the rush and hurry that the American business man so complacently affects—no sympathy with train and boat dictation, with the lunch table telephone, the letter phonograph and the other bluffs.

"'Don't rush so,' Mr. Cleveland once said to me. 'Lightning might do a great deal more if it wasn't always in such an awful hurry.'"

The More Notable.

"Which would you call more notable, the prima donna's debut or her farewell?"

"Her farewell. Wouldn't you?"

"Don't know that I would. She can make but one debut."

One Thing Left.

Elderly Uncle—Spent your entire patrimony, have you, Archibald? Gone through everything? Scapegrace Nephew—Yes, uncle; everything but the bankruptcy court.—Chicago Tribune.

A woman may not be logical when she undertakes to argue, but if she is only pretty enough that doesn't make any earthly difference.—Somerville Journal.

Solid Meats

We don't give our oysters a drink as is sometimes said about some oysters.

With the sealshipt oysters the pint becomes the unit measure for the ordinary family, instead of the quart, as has usually been the case with tub oysters. This is because a pint of sealshipt, solid-meats, goes as far as a quart of watered tub oysters as usually sold.

We have the very article fresh all the time at 60c per qt.

THE BOOK BORROWER.

How Collectors Have Circumvented a Wicked Type.

The book borrower is the sworn foe of the book collector, and many stories are told of the plans adopted by the latter to defend his treasures from the assaults of the borrower. Especially is the collector opposed to the unfeeling wretch who borrows one volume out of a series and forgets to return it. This was one of Coleridge's weaknesses and was so pronounced that Lamb described him as "a maker of odd volumes." The late J. Whitefoord MacKenzie, a well known collector, once told the present writer that when any one asked him for the loan of a single volume out of a set he always replied that he would rather lend him the whole ten, fifteen or twenty volumes of the series than have them left as odd volumes on his hands. William Roberts, the renowned bibliophile, tells in "The Book Hunter In London" that the bookplate of a certain French collector bore this text from the parable of the ten virgins: "Go rather to them that sell and buy for yourselves." "Sir," said a man of wit to an acquaintance who lamented the difficulty which he found in persuading his friends to return the volumes that he had lent them—"sir, your acquaintances find, I suppose, that it is much more easy to retain the books themselves than what is contained in them."

An ingenious plan to limit book borrowing is told by J. Ashby Sterry. In all the books of a certain cunning book collector he had the price written in plain figures. When any one asked him for the loan of a book he invariably replied, "Yes, with pleasure," and, looking in the volume, further added, "I see the price of this work is £2 17s. 6d" (or whatever it might happen to be). "You may take it at this figure, which will, of course, be refunded when the volume is returned." Sir Walter Scott's plan was ingenious. When he lent a book from his library he put in its place a wooden block bearing the name of the borrower and the date of the loan. Many were the anathemas leveled by collectors against those who would borrow or steal their volumes. Sometimes these were macaronic rhymes written by students—as, for example, the following, which was inscribed upon a Latin book used in Aberdeen university:

Si quisquis furetur
  This little Libellum
Per Phoebem, per Jovem
  I'll kill him, I'll fell him;
In ventrem illis
  I'll stick my scalpellum
And teach him to steal
  My little Libellum.

In the library of a famous Glasgow collector there was recently the copy of Scott's "Minstrelsy of the Scottish Border" which belonged at one time to William Motherwell and in which the poet had inscribed the following verse:

William Motherwell says the work is his.
  Who shall gainsay him?
He that dares do it
  May the meikle deil flay him!

Even more violent denunciations were written against the book stealer in the sixteenth century, when books were more precious than now. Yet even the modern poet finds it needful to anathematize politely:

To the lost books my fancy clings;
  O'er them my memory grovels.
I swear in spirit when I see
  The gaps among the novels.
The Thackeray I "loved and lost"
  I mourn with sorrow tender.
Whoever has it also has
  The curses of the lender.

The lady (Bessie Craigmyle) who wrote these lines expresses her gratitude for the fact that "no one borrows poets," though that is not the opinion of Charles Sayle, who thus threatens the possible thief of "The Marriage of Cupid and Psyche:"

Cursed be he who robs me of this book,
  With all his race. Let it be desolate
And brought alow if so be it was great,
  For that he wickedly, impiously took
That was another's. Let great serpents
    look
  At him a-sleeping, with dull eyes of hate,
And let him, waking, be compelled of fate
  To cast his corse within the nearest
    brook.

This is as comprehensive a curse as that which overtook the fated "Jackdaw of Rheims"—and as ineffectual.—Dundee Advertiser.

The Rural Observer.

Though marriage is a lottery
  An' lotteries is wicket,
Thar's no ole maid so good but she
  Would like to git a ticket.
—Denver News-Times.

Newbro's Herpicide
Is the Original Remedy that "Kills the Dandruff Germ."

Edna D. Allen

Without dandruff the hair must grow luxuriantly, except in chronic baldness, which is incurable. Dandruff is a contagious disease caused by a germ or microbe. To cure dandruff, the germ—a tiny vegetable growth—must be destroyed and kept out of the scalp by Newbro's Herpicide.

A WOMAN TO BE PRETTY

A woman to be pretty must have pretty hair. Beautiful locks have a subtle charm, for the poet says, "fair dresses man's imperial race ensare." The unpoetic and intensely real dandruff microbe makes the hair dull, brittle and lusterless with later dandruff, itching scalp and falling hair. Newbro's Herpicide destroys this enemy of beauty and enables the hair to resume its natural luster and abundance. Almost marvelous results sometimes follow the continued use of Herpicide, overcomes excessive oiliness and makes the hair light and fluffy. It contains no grease or dye Stops itching of the scalp almost instantly.

Discriminating ladies who have used Newbro's Herpicide, speak of it in the highest terms, for its almost magical effect upon the scalp and also for its excellence as a regular hair dressing It is delightfully fragrant and refreshing

"I have found Newbro's Herpicide excellent for the hair. The first application stops itching of the scalp and it leaves the hair soft and silky."
(Signed) EDNA D. ALLEN, Syracuse, NY.

HUNTING WILD HORSES.

How Brumbies In New South Wales Are Trapped and Broken.

Hunting "brumbies," as the wild horses are called there, is a favorite sport in New South Wales. Districts like the Clarence and Stephens and Manning river watershed are still the home of numerous droves of brumbies, and hunting them is declared to be a very exhilarating pastime. The first step taken is to stake out a corral and make all secure except a narrow entrance, which can subsequently be gated. On either side of the entrance and projecting from it funnelwise a "booby fence" is prepared.

To the simple minded brumby it presumably looks like a stockade, and pieces of fluttering cotton make it look impregnable. When this is ready, the young bloods, well mounted, gallop out and round up the wild horses, driving them with shouts and much loud snapping of stock whips toward the mouth of the funnel.

In a group of brumbies there is always a leader, and when once the hunters have got the leader heading for the corral they are pretty certain of the rest of the drove. The fluttering cotton rags of the sham fence are sufficient to deter the brumbies from breaking through the flimsy barriers, and in less time than it takes to tell the wild horses are safely corralled and the big gate shut on them. Then they are left for four and twenty hours without food and water to reflect on the situation, and after that they can be broken in without much difficulty.—London Standard.

Hearn as a Creative Artist.

Hearn's creative faculty began where creation is commonly held to end, with the material given. Of the creative gift in the sense in which the phrase is applied to the poet he had not a particle. He was not a maker, but a shaper. Dr. Gould puts the matter bluntly when he says, "He had no original thing to say, for he was entirely without creative power and had always to borrow theme and plot." And again: "Clearly and patently it was a mind without creative ability, spring or the desire for it. It was a mind improcreant by inheritance and by education, by necessity and by training, by poverty internal and external." The truth in these words becomes evident when one recalls the failure as fiction of every one of Hearn's attempts in this field and the fact that his greatest successes were won in reclothing the ideas of other men.—Forum.

BEAUTY BRUSH

For Bath and Toilet

Made of the finest quality of soft rubber. Its surface is formed of vacuum cups, which, when applied to the skin, extract from the pores all impurities and stimulate the circulation of the blood, thus imparting a natural glow of health to the skin and preserving the complexion clear and beautiful without the use of any chemical lotion.

In the centre of each vacuum cup of the Beauty Brush there is a rubber tongue, or articulator, which agitates the surface of the skin when the brush is used for massage. It is in the combination of a vacuum cup and articulator that the Beauty Brush excels for toilet massage.

DIRECTIONS FOR USING:

Ladies and gentlemen will find this brush equally good to promote a clear complexion, remove wrinkles and freshen and invigorate the skin. It may be used as an ordinary sponge, with soap and water, or dry, as a massage brush.

When applied to the face it should be drawn upwards from the eyebrows over the forehead.

From the cheeks and under the eyes draw the brush towards the ears. Along the chin and neck draw the brush downwards. This will remove wrinkles as well as administer an excellent massage to the face.

The brush should be pressed hard enough against the face to make the drawing action of the vacuums perceptibly felt.

HOW HE CURED PILES

SUFFERED FOR TWENTY YEARS AND CANNOT IMAGINE ANY GREATER DISTRESS—ENTIRELY CURED BY

Dr. A. W. Chase's Ointment.

Piles or hemorrhoids are among the most common as well as the most torturing ailments that afflict humanity. The keen distress caused by the itching, especially when the body gets warm, is almost beyond the powers of description

Mr. J. S. McLaren, farmer and contractor, Tiverton, Ont., writes: "I was troubled for twenty years with itching piles, during which time I suffered a great deal. They would bother me most when I would get warm in bed. I would wake up at night and lie for hours suffering the keenest agony, without being able to obtain relief. I cannot imagine any greater distress than the tortures of piles.

"Dr. Chase's Ointment gave me relief from the first application and now I am entirely freed of this horrible disease. For a time I would occasionally feel a slight return of the itching, but applied the ointment freely each time until the cure was thorough."

Mr. G. W. Cornell, with the Shaw Milling Co., St. Catharines, Ont., writes: "For six years I was the victim of itching, protruding piles and was in dreadful agony day and night. Doctors were unable to help me. My druggist recommended Dr. Chase's Ointment, two boxes of which completely cured me."

There is positively no treatment so certain as a cure for piles as Dr. Chase's Ointment. This has been proven in thousands of cases, in many of which even surgical operations, with their expense, painfulness and frightful risk, had failed. Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

OUR NEW STORY.

Our new story, "Meadow Brook," by Mary J. Holmes, which will start shortly, is replete with pathetic and stirring incidents, and is written in the style which has made the author famous as a writer of fiction. Don't miss "Meadow Brook."

This rate applies to all except advertisements for Auction Sales, which will be published at two cents per word. Count 8 marks and figures as one word each.

HEALTH OF SHEEP.

Feeding With Succulent Food Best Preventive of Disease.

A prominent sheep breeder in an address recently given before a live stock convention called attention to the fact that the common diseases affecting lambs and sheep do not easily yield to treatment, and because of this greater emphasis should be placed on preventive measures than with any other farm animal.

Attention was called to the fact that the main trouble resulted from nodular disease infection and from internal parasites. In order to prevent these the matter must be taken up in the early career of the young lamb, so as to prevent the introduction of the eggs or germs of these diseases in the stomach. Unless very large pastures are available, so that the sheep and lambs will not spend much time on any particular part of the pasture, the belief was expressed that it would pay to use hurdles.

This is the old country method, which has worked well on farms that average fewer acres than the farms of the central west. The whole management must tend to keep the lambs healthy, and for that reason the customary plan is to allow the lambs to pasture ahead of the sheep. This is done by moving the lamb hurdles ahead of the sheep, so that the lambs are given the fresh pasture first and the sheep allowed to follow the next day. By so doing it was stated that the nodular disease can be eventually completely stamped out.

Rather liberal feeding of fresh succulent food is in itself a good precautionary measure against disease, and for that reason sheep growers generally can afford to take special pains in getting a stand of good clover for their sheep and lambs and, in addition, grow a crop of rape. The succulency of these crops and their richness in flesh forming material tend not only to rapid growth, but, as said before, they contribute to healthfulness and thrift.

Shade For Sheep.

The farmer who keeps a flock of sheep should remember they need plenty of good shade during the hot summer days. Their coats of wool are of the warmest [illegible] middle of the day. A sheep will seek some kind of shelter, even if it is only that of a fencepost. There he will put his head in the shade and try to imagine his whole body is protected from the hot sun.

If there are no dense trees in the pasture, it will be a good idea for the farmer to construct an artificial shade. An open shed with the roof slanting toward the south will be suitable. If this prove too expensive, it will be well to build a shade out of cheaper material. Forked posts set in the ground on which to support rails, then covered with straw or boards, will be cheap and sensible.

If there is an open shed about the barn, it might be well to let the flock run to this. Here they will shelter themselves from the heat and at night get accustomed to come to this place to sleep and thus protect themselves from any dogs that have a tooth for mutton.—W. D. Neale.

THE SHEPHERD.

One farmer recommends as a preventive of ravages on the sheep flocks by dogs that the sheep owner place with his flock a goat that will get along very well with the sheep and defend them from the dogs.

A Breeder's Advice.

A successful sheep breeder says: Do not breed to a dry fleeced ram. The sire is the proper improver, but in order to be such he must be a good individual and descend from the best lineage. Study sire, dam and blood lines. Have a right ideal and breed to produce it. Honesty is of as much importance in sheep breeding as it is anywhere else.

Feed For Sheep In Milk.

For sheep in milk the best feed is whole corn and oats, equal weight, giving all the animals will eat up clean. To add succulence to the feed, yellow Swede turnips sliced fine are also good. Alfalfa hay should also be given in abundance.

Graduating From the Pasture.

Lambs going on feed at the barns should be taken from the fields gradually, so that the first night and day continuously at the barn will not give them a gaunt appearance. When they come to the barns from the pastures they should find good hay in the racks, but in small quantities. If the hay is not eaten up clean before they go to the field, what is left should be taken out of the racks and fresh put in before the lambs come to the barn again. If they are to be fatted, as soon as possible a little corn should be put in the racks with the hay. The amount of corn should be small at first.

Excellent Pasturage For Sheep.

The best pasture that we have ever used for our sheep, says Northwestern Agriculturist, has been some sown crop, like oats, mixed with rape. Young standing corn makes an excellent pasturage. Their close bite does no harm, and they do not trample down your feed as cattle do. Sheep, as is well known, are superior stock to turn upon a grainfield after harvest. They love the weeds. Here is the great benefit upon the farm in keeping sheep. About the only weed that they won't eat is the thistle. They convert an undesirable growth into good meat and wool. Fields that are to be so cleaned, however, must be properly fenced.

MORE THAN ENOUGH IS MUCH.

To maintain health, a mature or woman needs just enough fo repair the waste and supply en and body heat The habitual sumption of more food than is essary for these purposes is the cause of stomach troubles, rhe tism and disorders of the kid If troubled with indigestion, your diet, let reason and not tite control and take a few dos Chamberlain's Stomach and Tablets and you will soon be right again. Orders for bookbinding should be left at The Intelligencer Office. It is surprising how attractive and satisfactory a volume can be made of these magazines. Books, magazines or periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day books with any kind of ruling, made to order.

"Tag Day" Was Big Success in This City.

Ladies Succeeded in Extracting Much Coin From Pockets of Citizens--Many Amusing Features.

This was "Tag Day," as no doubt you had reason to find out for yourself. Bright and early this morning the ladies, with their Red Cross boxes, were out on the streets, ready to tag every creature, male or female, who came along and had something to drop in the boxes. And the fair taggers surely did a land office business. The citizens responded liberally, and many of the ladies, having sold out their tags early, had to return to headquarters for fresh supplies. Little or big, old or young, Jew or Gentile, all wore the tag. Some one, some more. One good-natured gentleman, often seen on Front St., was literally "plastered" with tags, both fore and aft. He must have carried 20. Many guesses were made as to the meaning of the letters "B. H." which were printed on the tags. "Been Hit" seemed to be the most general interpretation. Piper McIntosh's second cousin said it stood for "Bawbee Hunters." But, after all, the correct interpretation was "Boost Humanity."

Hallowe'en Circus Was Well Attended.

There was a good attendance at the Arena last night, when the Hallowe'en Circus, under the auspices of the Y.M.C.A., was pulled off. Many grotesque costumes were in evidence; and if some of the many clowns did not raise a laugh it was not because they failed to work hard enough. The programme showed, more than anything else, that, under Physical Director Wilkes, athletics are being well looked after at the local Y.M.C.A. Some of the features were grotesque basket ball, in which the John Bulls beat the Jonathans 6-0; a well-executed drill by a pitchfork brigade, which did barbell work to music; fairly good work on the German horse and parallel bars, and some neat tumbling. Some of the boys show they are apt pupils, and do credit to Mr. Wilkes. Torch club swinging by Messrs. Wilkes and Hess wound up the programme. The prize for best dressed lady went to Miss Pauline Robb, who appeared as a squaw; Miss Gracie Clarke, fairy, captured the girls' prize; Mr. M. E. Lindsay, as a Highlander, received the man's prize, and Charles Skinner, as an Indian, took honors in the boys' class.

Mrs. A. P. Allen and Miss Hilda Bell were the judges.

Found Guilty of Window Smashing.

Magistrate Masson was yesterday engaged all day in hearing evidence in the case of two young men named Jonathan Danford and Robt. Lake, who were charged with having, on the night of September, 18th, maliciously broken two plate glass windows in Mr. R. Mather's store at Stirling village. It was alleged that the accused threw stones at the window breaking them. Both were found guilty and judgment was reserved until the 13th of November.

May Have a Pulp Mill at Bancroft.

Bancroft Times: A couple of gentlemen named Foley from St. Catherines were in Bancroft last week looking over the ground with a view to establishing a pulp mill here. They were much impressed with the water power and supply of pulp wood, and the question of offering them some inducement will be taken up by the council at once.

Convention Met in Holloway St. Church.

The Belleville District Methodist Sunday School Convention met in Holloway St. Church, this city, yesterday afternoon and evening, and was well attended, there being many delegates present from the country. Reports from the district Sunday schools were encouraging, and the addresses were brief, helpful and breathed the true spirit of advancement. Those taking part were: Rev. Messrs. Greatrix, Clarry, Rorke, Ress, Cragg, Bishop, Prof. Doxsee, Messrs. H. K. Denyes, Holgate, Bailey, Hicks Wm. Johnson, and Judge Deroche.

FOR CHAPPED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequalled for sore nipples, burns and scalds. For sale by all druggists

Gave Mr. Pitt Gold Watch and Chain And Said Good-by

Mr. John Pitt who has for over a year been locomotive foreman at the G.T.R. shops here has resigned his position and will leave the city. Last evening at the Station library, a number of the employees assembled and made a presentation to Mr. Pitt, consisting of a handsome gold watch, chain and locket. The presentation was made by Mr. Geo. Hardy, and, although taken by surprise, the recipient made a suitable and feeling reply. Mr. Wm. McColloch occupied the chair. Brief addresses were made by a number of the employees also Mr. J. W. Johnson, M. P. P., all of whom expressed regret at the removal of Mr. Pitt from the city.

Fined $50 and Costs.

Thomas McDonald, owner of the big seine which was seized by Fishery Inspector Boulter some time ago, and which was sent to Toronto, was yesterday fined $50 and costs by Capt. Hunter, Fish and Game Warden for this district. Mr. McDonald admitted the offence.

Noisy Boys.

About 9 o'clock last evening the police were called to the corner of Forin and Ann streets, where a number of boys had congregated and were creating considerable noise. They had, however, decamped before the officer arrived.

BABY'S WELFARE MOTHER'S CHIEF CARE.

Every mother is naturally anxious that her little ones shall be healthy, good natured and bright. Every mother can keep her little ones in this condition if she will give them an occasional dose of Baby's Own Tablets. These Tablets cure all stomach and bowel troubles, break up colds, destroy worms and make teething easy. Equally good for the new born baby or the well grown child. Mrs. W. E. Stewart, St. George, N. B., says:—"I have used Baby's Own Tablets for my little ones for several years and have found them reliable in all emergencies. I cannot praise the Tablets too highly." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Tabernacle Fowl Supper.

An excellent supper and musical entertainment on Thanksgiving evening. Sunday services conducted by Rev. John Garbutt, of Bowmanville. Tickets 35c. o31-7td

Sugar and salt will both preserve meat, because they absorb the moisture in it, and so prevent decomposition.

INCURABLE HEART TROUBLE

LOOKED FOR DEATH IN A SHORT TIME.

Entirely Cured by "Fruit-a-tives."

"Gentlemen,—The days of miracles are not all past and I feel that my complete recovery, from what seemed inevitable death, is practically a miracle. I suffered from severe Indigestion and Dyspepsia for nearly two years. I could not take food without fearful distress and I became almost a skeleton as the result of the suffering. I could not do any work and became so run down and weak that I could hardly walk. I was attended by two experienced doctors. They both pronounced my case heart failure and incurable, and I looked forward for death in a short time. I not only had the doctors but after they gave me up I tried many remedies and treatments but got no better.

At this time my son asked me to try "Fruit-a-tives," and from the outset of taking these wonderful tablets I was better and gradually this medicine completely cured me. I took a large number of boxes, perhaps a dozen, and now I am entirely cured and I have gained over thirty pounds in weight.

I am now so well that I have sold my farm and bought 200 acres more land. I make this statement voluntarily for the sake of humanity, and I am convinced that "Fruit-a-tives" is a wonderful remedy that will cure stomach trouble where doctors and everything else fail."

(Sgd) Henry Speers, J.P.

The doctors were all wrong. Mr. Speers had what we call "irritated heart." Indigestion and dyspepsia completely upset the stomach. Poisonous gases were formed which swelled the walls of the stomach and pressed against the heart.

"Fruit-a-tives" immediately strengthened the stomach, insured sound digestion and regulated the bowels. There were no poisons—no noxious gases remained in the system, and the heart was no longer irritated. Then the pain and fluttering stopped.

"Fruit-a-tives" is put up in two sizes 25c and 50c. If your dealer has not both, write Fruit-a-tives Limited, Ottawa.

The true Canadian Winter Overcoat is the Semi-ready Storm Ulster, in plaid and striped fine Australian wool Tweeds, and interlined to the bottom. Their soft woollen texture ensures a good dress effect.

We show these at $20 and $25, and some of even better value.

Unlike the fur-lined Coat the tweed Ulster allows the body to breathe.

McINTOSH BROS

THOS. GREENWAY DIES

Former Manitoba Premier Passes Away Aged Seventy.

Man Who Represented Liberalism In West During School Agitation Succumbs to Sudden Attack of Heart Failure In Montreal — Started In Western Politics in '78 and For Years Had a Busy Career.

Ottawa, Oct. 31.—Hon. Thomas Greenway, member of the Railway Commission, former Premier of Manitoba, and M.P. for Lisgar in the last Parliament, died rather unexpectedly at the Windsor Hotel at 7 o'clock yesterday morning.

Mr. Greenway caught cold on his way to Ottawa to begin his duties as Railway Commissioner, and asthma developed, for several days his condition being considered serious. On Friday last he was pronounced out of danger, but Thursday morning serious symptoms again developed. In the evening he was better again, but early yesterday morning he took a turn for the worse, and while the nurse was out of the room he passed away, death being due to heart failure.

Hon. Thomas Greenway was a leader of Manitoba Liberalism ever since his entrance into the political life of that province in 1878. He went in that year to Manitoba from Huron County, Ontario, and in the following year he was elected to the Legislature for the constituency of Mountain. In 1882 he became leader of the Opposition in the Assembly, and and in 1888 became Premier. He was leader of the Government till its defeat in 1900.

THE LATE HON T. GREENWAY.

It was when Greenway was Premier that the Legislature abolished the system of separate schools in Manitoba, to restore which the Federal Conservative Government introduced the remedial bill in 1896.

During the earlier years of his administration there was a good deal of important legislation, including the abolition of the railway monopoly, the abolition of the use of the French language in Parliament and in the courts, the new Judicature Act, the act establishing a bureau of crop statistics, and the National Schools Act. There were battles over all of these except those relating to law procedure and agriculture, which will be recalled by all Canadians.

Mr. Greenway was elected to the House of Commons for the constituency of Lisgar in 1904, and sat through the late Parliament. A month ago he was appointed a member of the Railway Commission, along with Mayor D'Arcy Scott and Prof. McLean of Toronto. His death, therefore, creates a vacancy on the board.

The late Thomas Greenway was born March 25, 1838, in Cornwall, Eng., and came to Canada when a boy, first settling near Bowmanville, and afterwards in Huron County.

Runaway Girls Caught.

Toronto, Oct. 31.—Detective Twigg yesterday secured Emily Saint, 18 years, and Myrtle Mary Muirhead, 16 years, who, with a third girl, Elizabeth Brennan, 17 years, escaped from the Alexandra Industrial School at East Toronto a week ago. He found them in a lodging-house on East Queen street, and upon the Saint girl he got one of the two watches stolen from officials of the school at the time of the escape.

The two taken say that the Brennan girl, who is believed to be in Buffalo, has the other watch.

They are charged with theft of the watch, as well as with escaping.

Chinese Don't Enthuse.

Amoy, Oct. 31.—The Chinese people are apathetic regarding the arrival here of the second squadron of the United States Atlantic fleet. Only a few natives turned out to witness the arrival of the battleships yesterday.

Resentment at the severe measures taken to exclude the Chinese from participation in the celebration is the chief cause of the apathy.

Kaiser May Come to Canada.

London, Oct. 31.—(C. A. P.)—The Railway Magazine states that when at Kiel in 1904 the Kaiser told Archer Baker, M.P., he would visit Canada when steamers could do the trip in four days. Mr. Baker remarks that as these are now possible, we may yet see the Emperor a passenger on the all-red route.

Strange Fire.

St. John, N.B., Oct. 31.—Two men went to Mrs. Gaynor's boarding-house on Pond street, late Thursday night, and applied for a room. Mrs. Gaynor assigned one to them and gave them a lamp. Shortly afterwards the inmates of the house awoke to find the building in flames. The men were missing.

G.T.P. IN 1911, SURE.

Charles M. Hays Says Three More Years Will See Line Completed.

Montreal, Oct. 31.—Chas. H. Hays, president of the Grand Trunk Railway Co., who returned yesterday from Prince Rupert and intervening points on the system, stated that after being over all of the sections under contract. Both on the prairie and the coast, he felt quite safe in declaring that he did not apprehend any conditions would arise, engineering, financial or otherwise, that would prevent the Grand Trunk Pacific from being completed from end to end by the month of December, 1911.

One, he added, has only to read the report of the Government engineer to realize what a magnificent roadbed they had secured, and how favorable the grades and curvatures were all along the line.

He stated that regular trains will be running from Port Arthur to Edmonton next spring, that another 100 miles will be out east of the coast section of 110 miles, and 200 more west of Wolf Creek, leaving a gap of 400 miles yet to be placed under contract.

STEPNEY DECLINES.

English Bishop Will Not Take Carmichael's Place.

Montreal, Oct. 31.—According to a cablegram received yesterday afternoon from the Bishop of Stepney, Rev. Cosmo Gordon Lang, that dignitary of the Anglican Church cannot accept the offer of the Montreal See. The message said: "Deeply appreciate honor; regret cannot accept."

When the cable was read to the synod no surprise was expressed as it was generally felt that the work of Bishop Lang at Stepney was of too important a character to be dropped in order to assume charge of this diocese. Correspondence is pending, however, between the synod and the Archbishop of Canterbury and the Bishop of London.

The synod has adjourned until Nov. 24, when it will again take up the question of the election of a new bishop.

No Evidence of Bribery.

Sandridge, Oct. 31.—The trial of the man Agar, accused of election bribery, took place yesterday. It transpired that the information was laid by Johnstone, bailiff of the division court. Epple, the man who it was alleged had been bribed, stated that Agar had not approached him in any way, and that he was not aware that any information had been laid against him. The magistrate therefore dismissed the charge.

The charge against Unger was sent for trial. No evidence for the defence was given. Mr. Watson and Mr. Ard, president of the Conservative Association, went his bail. It is reported that charges may be laid against Johnstone.

Noted Dentist Dies in Orient.

St. Louis, Oct. 31.—A cable has been received announcing the death by hydrophobia in Shanghai, China, of Dr. J. Edward Hall, one of the most noted dentists in the Orient. Dr. Hall frequently was called into service by the Chinese mandarins, and also by the royal family of Siam.

FRANTIC WOMEN

Organic disturbances of the feminine system act like a firebrand on the nerves of women, often driving them fairly frantic.

A nervous, irritable woman is a source of misery not only to herself, but to all those who come under her influence. That such conditions can be entirely overcome by taking

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mme. Emma Chatel, Valleyfield, Belleriver, Quebec, writes to Mrs. Pinkham:

"I want to tell you that without Lydia E. Pinkham's Vegetable Compound I would not be alive. For months I suffered with painful and irregular periods and inflammation of the feminine organs. Doctors could do nothing for me, and said I must submit to an operation because I had a tumor.

"One of my cousins advised me to take Lydia E. Pinkham's Vegetable Compound as it had cured her.

"I did so and now I have no pain and am entirely cured. Your remedy is deserving of great praise."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Sheep and Lambs—Receipts, 9000; market steady; sheep, $4 to $4.50; lambs, $4.75 to $5.80; yearlings, $3.95 to $5.

Farman's Rapid Flight.

Mourmelon, France, Oct. 31.—Henry Farman yesterday for the first time gave a practical demonstration of the possibilities of the aeroplane by flying direct from this place to Rheims, a distance of 20 miles, without mishap.

The time of flight was 20 minutes, and the height reached was between 120 and 150 feet. The course was literally as the crow flies, over trees, fields and streams.

The aeroplane ascended at 4 p. m. and an hour later a telegram was received from Farman announcing his safe arrival at Rheims.

Seven Years For Horse Thief.

Niagara Falls, Ont., Oct. 31.—Michael Driscoll, the man who was captured in this city last week by Officer McHattie of the Ontario police, and who was taken to Simcoe by Chief Malone of that city, to stand trial on the charge of horse-stealing, was convicted. There were several charges brought against him and he is considered an old offender. He was sentenced to Kingston Penitentiary for seven years.

Beets Yield Farmer $2,790.

Chatham, Oct. 31.—William Kacheer of Jeanette's Creek has ninety-three acres of sugar beets which are yielding an average of 15 tons to the acre. He has been shipping a car load daily to Mt. Clemens, Mich.

The average yield in this county is about ten tons to the acre, making a clear profit to the farmer of $30 per acre.

British Squadron Goes South.

Port Elizabeth, Cape Colony, Oct. 31.—Orders have been given that the British squadron under the command of Rear-Admiral Sir Percy Scott proceed to South America on the completion of its South African program. The squadron consists of the cruisers Good Hope, Antrim and Carnarvon and Devonshire.

Lay In Ditch With Broken Thigh.

Chatham, Oct. 31.—Solomon Huff was precipitated into a ditch by his horses running away Thursday night, and one of his thighs was broken. He lay in the ditch where he fell for several hours before being found.

Corby's For Montreal.

Ottawa, Oct. 31.—The headquarters of the H. Corby Distillery Co., Limited, have been changed from Belleville to Montreal.
